INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners Atchafalaya Golf Course Commission Patterson, Louisiana

Opinion

We have audited the accompanying financial statements of the business-type activities and the major fund of Atchafalaya Golf Course Commission, a component unit of the St. Mary Parish Council, as of and for the year ended September 30, 2022, and the related notes to the financial statements which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business type activities and the major fund of Atchafalaya Golf Course Commission as of September 30, 2022, and the respective changes in financial position and cash flow thereof, for the year ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of The Financial Statements section of our report. We are required to be independent of the Atchafalaya Golf Course Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Atchafalaya Golf Course Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Atchafalaya Golf Course Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Atchafalaya Golf Course Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the Schedule of the Commission's Proportionate Share of the Net Pension Liability (Asset), the Schedule of Commission's Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient appropriate evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that comprise the Commission's financial statements. The accompanying Schedule of Operating Expenses, Schedule of Compensation, Benefits, and Reimbursements to Agency Head, Political Subdivision Head, or Chief Executive Officer are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Requirements by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated April 27, 2023 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with <u>Government Auditing Standards</u> in considering Commission's internal control over financial reporting and compliance.

ATCHAFALAYA GOLF COURSE COMMISSION NOTES TO THE FINANCIAL STATEMENTS September 30, 2022

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

The Atchafalaya Golf Course Commission (Commission) was created on August 13, 2003 by the St. Mary Parish Council (Council). The Commission's sole responsibility and duty is to maintain, operate, and administer the Atchafalaya Golf Course (Course).

The Course was completed and the Commission began operations on August 14, 2005. The accounting and reporting practices of the Commission conform to generally accepted accounting principles (GAAP) as applicable to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the significant accounting policies used in preparing the financial statements:

A. Reporting Entity

In evaluating how to define the governmental unit, for financial reporting purposes, consideration has been given to the following criteria as set forth in GAAP:

- a. Financial benefit or burden
- b. Appointment of a voting majority
- c. Imposition of will
- d. Fiscally dependent

Based upon the above criteria, the Commission is a component unit and integral part of the St. Mary Parish Council (the primary government).

These financial statements include only the operations of the Commission.

B. Basis of Accounting

The financial statements of the Commission are prepared on the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred. Under Governmental Accounting Standards Board Statement No. 62, the Commission has elected not to apply Financial Accounting Standards Board provisions issued after November 30, 1989.

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)

Proprietary Fund Type

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The operating revenues of the Commission primarily come from green fees and sales to the general public. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Revenues

The following is a summary of the Commission's recognition policies for its major revenue sources:

Green fees, cart rentals, and golf merchandise sales are recorded as revenue at the time the rounds are played or the sale takes place.

Fees paid for advertising on the Commission's GPS video equipped golf carts are recorded as deferred inflows of resources when received and recognized as revenue ratability over the advertising year.

Fees paid for annual play and cart rental packages cover the period October 1st through September 30th. Fees paid prior to September 30th for the next year are recognized as deferred inflows of resources as of September 30, 2022.

Rentals for use of the restaurant and bar facilities are recognized monthly.

Interest and investment earnings are recognized when earned.

Revenue from the sale of gift cards is recognized in revenue when the gift cards are redeemed for merchandise or services. The Commission records revenue from unredeemed gift cards in golf equipment and accessories sales when the probability of redemption is remote.

D. Deferred Outflows and Inflows of Resources

As required by certain GASB standards the Commission is reporting certain financial statement items as deferred inflows and deferred outflows of resources. The Commission has evaluated its transactions with the requirements of the GASB pronouncements, related to deferred items, and determined that it has certain items in the current year that meet the requirements of these statements.

NOTE 1 - <u>SUMMARY OF ACCOUNTING POLICIES</u> (continued)

Deferred Outflows of Resources

Related to pension (Note 5)	\$ <u>24,294</u>
-----------------------------	------------------

Deferred Inflows of Resources

Related to pension (Note 5)	\$92,108
Related to unearned revenues	42,365
Related to operating lease	<u>43,700</u>
	\$ <u>178,173</u>

Unearned revenues reported by the Commission are for amounts received but not yet earned from unredeemed gift cards, GPS advertising, and deposits on future tournaments.

E. Expenses

Expenses are recognized under the accrual basis of accounting where liabilities are recorded at the time expenses are incurred.

F. Budgets and Budgetary Accounting

The Commission follows these procedures in establishing administrative budgetary accounting:

- a. An administrative budget is employed as a management planning and control device during the year for the Proprietary Fund. The forecasted budget is prepared on a basis consistent with GAAP.
- b. These financial statements do not present budget and actual comparisons of the administrative budget because it is not a legally adopted budget.

G. Cash and Cash Equivalents

For financial statement purposes, cash and cash equivalents include bank deposits and/or certificates of deposit with original maturities of less than three months.

H. Accounts Receivable

Accounts receivable are due not from individuals and consists primary of amounts due from credit card processing companies and organizations which owe charges from recent golf tournaments. Uncollectible charges are insignificant, therefore no allowance for bad debts is needed.

I. Inventory

Golf merchandise inventory at September 30, 2022, of \$29,513 is valued at the lower of cost or market.

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)

J. Equipment

The Commission's fixed assets, which are primarily golf carts and golf course maintenance equipment are capitalized. The equipment is recorded at cost or, if contributed property, at their market value at the time of contribution. Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized.

Depreciation of all exhaustible fixed assets is charged as an expense against their operation. Accumulated depreciation is reported on the statement of net position. Depreciation has been provided over estimated useful lives using the straight-line method.

The estimated useful lives are as follows:

Golf carts 5 years
Golf course maintenance equipment 5-10 years
Small equipment 3 years

K. Compensated Absences

Accumulated vacation and sick leave are recorded as an expense of the year in which paid. At September 30, 2022 unrecorded compensated absences are immaterial.

L. Net Pension Liability (Asset)

In prior years, the Commission implemented GASB statements that establish accounting and financial reporting by state and local governments for pensions. These pronouncement requires the Commission to calculate and recognize a net pension liability (asset), certain deferred outflows and inflows of resources, and pension expense. The Commission is a member of the Parochial Employees' Retirement System of Louisiana – Plan A (PERS-A), a cost sharing multiple employer public employee retirement system. For purposes of measuring its net pension liability (asset), deferred outflows and inflows of resources, and pension expense, the Commission uses the same basis as PERS-A.

See Note 5 for further details about this pension plan.

M. Equity Classifications

Equity is classified as net position and displayed in three components – net invested in capital assets, restricted and unrestricted. These classifications are defined as follows:

• Net investment in capital assets – This component of net position consists of capital assets net of accumulated depreciation and reduced by outstanding debt related to the acquisition of the assets.

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)

- Restricted This component of net position consists on net position with constraints imposed by the Board to restrict the use of certain funds.
- Unrestricted net position This component of net position consist of net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

N. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting year. Actual results could differ from those estimates.

NOTE 2 - CASH AND CASH EQUIVALENTS

The Commission does not have a formal investment policy related to interest rate risk (the risk of an investment decreasing in value due to increasing interest rates).

In addition, the Commission does not have a formal investment policy related to credit risk (including concentrations of credit). However the Commission does follow state law as to limitations on types of deposits and investments as described below.

The Commission does not invest in any investments subject to foreign currency risk.

Cash and cash equivalents

Under state law the Commission may deposit its funds with certain state and federally chartered financial institutions. These deposits are required to be insured or collateralized by the financial institutions.

At September 2022, the carrying amount of the Commission's cash is \$56,383 and the bank balance is \$56,029 which is fully covered by federal depository insurance.

NOTE 3 - FIXED ASSETS

Capital asset activity for the year ended September 30, 2022 is as follows:

,	Balance <u>9/30/21</u>	Additions	Deletions	Balance <u>9/30/22</u>
Assets not being depreciated:				
Improvements	\$2,470			\$2,470
Other capital assets:				
Building Improvements	30,999			30,999
Small equipment	13,687			13,687
Golf carts	427,418			427,418
Course Maintenance				
Equipment	<u>591,172</u>			<u>591,172</u>
Total capital assets	1,065,746			1,065,746
Less depreciation	(<u>1,000,328</u>)	\$(<u>22,146</u>)		(<u>1,022,474</u>)
Total capital assets, net	\$ <u>65,418</u>	\$ <u>(22,146)</u>	<u></u>	\$ <u>43,272</u>

Depreciation expense for the year ended September 30, 2022 was approximately \$22,000 (including amortization of approximately \$18,000).

Substantially all golf carts and course maintenance equipment are pledged to secure long-term lease/purchase agreements.

NOTE 4 - CAPITAL LEASE

In 2016, the Commission entered into a lease purchase agreement to acquire various pieces of golf course maintenance equipment. In 2015, the Commission entered into a lease purchase agreement to acquire 66 new golf carts and 1 new beverage cart. These lease agreements qualify as capital leases for accounting purposes and therefore the obligations have been recorded at the present value of the future minimum lease payments as of the lease inceptions.

At September 30, 2022, the equipment acquired under these leases is reported at \$37,636 (\$862,951 cost less \$825,315 of accumulated depreciation).

The ending balance for the equipment lease obligations as of September 30, 2021 was \$0. Payments of \$87,073 during the year reduced the balance to \$0 at September 30, 2022.

NOTE 5 - OPERATING LEASES AND GASB

In the current fiscal year, the Commission implemented GASB Statement No. 87 – Leases. The principal objective of this statement is to improve accounting and financial reporting for leases by governments. It increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflow of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundation principle that leases are financings of the right to use an underlying asset. The impact to the Commission resulted in an increase in the beginning balance of capital assets and lease liabilities of \$55,200 for governmental activities. An increase in an asset and a corresponding increase in liability by the same amount results in no impact to the beginning net position.

NOTE 5 - OPERATING LEASES AND GASB (continued)

The Commission has one significant lease covered by the provision of GASB No. 87. The Commission leases a portion of its Clubhouse to an entity that utilizes that portion of the building for operation of a restaurant. The terms of the leases expires on the 15th day of July 2026. This agreement may be terminated earlier only by cause. The compensation to the Commission provided by the lease is equal to a minimum of \$1,000 per month or a percentage of revenues generated, whichever is greater. The lessee also agrees to be responsible to pay for 50% of "Clubhouse" expenses including utilities and similar costs.

Under GASB No. 87, the Commission has recognized \$11,500 in minimum rent income and \$500 in interest income for this lease. Rental income was also recognizing for the amount earned as a percentage of sales in the approximate amount of \$7,200.

Minimum future rental on their noncancellable leases for the next:

	<u>Principle</u>	<u>Interest</u>	<u>Total</u>
2023	\$10,945	\$1,055	\$12,000
2024	11,255	745	12,000
2025	11,575	425	12,000
2026	9,896	<u>104</u>	10,000
	\$ <u>43,671</u>	\$2,329	\$46,000

NOTE 6 - PENSION PLAN

Plan Description

The System was established and provided for by the Louisiana Revised Statutes (LRS).

PERS-A provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. For employees hired prior to January 1, 2007:

- 1. Any age with thirty (30) or more years of creditable service.
- 2. Age 55 with twenty-five (25) years of creditable service.
- 3. Age 60 with a minimum of ten (10) years of creditable service.
- 4. Age 65 with a minimum of seven (7) years of creditable service.

NOTE 6 - PENSION PLAN (continued)

For employees hired after January 1, 2007:

- 1. Age 55 with 30 years of service.
- 2. Age 62 with 10 years of service.
- 3. Age 67 with 7 years of service.

The monthly retirement allowance consists of an amount equal to three percent of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts.

Survivor Benefits

Upon the death of any member with five or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes. Any member who is eligible for normal retirement at time of death, the surviving spouse shall receive benefits, as outlined in the statutes.

A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve months immediately preceding death of the member, shall be paid benefits beginning at age 50.

Deferred Retirement Option Plan.

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the Retirement System. DROP is an option for members who are eligible for normal retirement. In lieu of terminating employment and accepting a service retirement, members who are eligible to retire may elect to participate in DROP in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the DROP account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in DROP on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the Board of Trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this Plan must agree that the benefits payable to the participant are not the obligations of the state or PERS-A, and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

NOTE 6 - PENSION PLAN (continued)

Disability Benefits.

Members shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and have at least five years of creditable service or if hired after January 1, 2007, have seven years of creditable service, and are not eligible for normal retirement and have been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen years, or three percent multiplied by years of service assuming continued service to age sixty for those members who are enrolled prior to January 1, 2007 and to age sixty-two for those members who are enrolled January 1, 2007 and later.

Cost of Living Increases.

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1977, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Contributions

According to state statute, contributions for all employers are actuarially determined each year. For the year ended December 31, 2021, the actuarially determined contribution rate was 10.38% of member's compensation. However, the actual rate for the fiscal year ending December 31, 2021 was 12.25%. Contributions to the Pension Plan from the Commission were \$16,219 for the year ended September 30, 2022.

According to state statute, the System also receives ¼ of 1% of ad valorem taxes collected within the respective parishes. The System also receives revenue sharing funds each year as appropriated by the Legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to the member's compensation. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

NOTE 6 – PENSION PLAN (continued)

Pension Liabilities (Assets), Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Relate to Pensions

At September 30, 2022, the Commission reported a liability (asset) of (\$95,654) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2021, and the total pension liability (asset) used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The Commission's proportion of the net pension liability (asset) was based on a projection of the Commission's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2021, the Commission s proportion was 0.020307%, which was an decrease of 0.093% from its proportion measured as of December 31, 2020. For the year ended September 30, 2022, the Commission recognized pension benefit of (\$17,271). The Commission recognized revenue of \$1,680 as its proportionate share of non-employer contributions for the year ended September 30, 2022. At September 30, 2022, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	5,779	\$	6,933
Change of assumptions		4,989		-
Net difference between projected and actual investment earnings on pension plan investments				82,739

Commission's contributions subsequent to the measurement date		13,526		_
	\$	24,294	\$	92,108

Deferred outflows related to contributions after the measurement date will be reversed in full in the fiscal year ended September 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31:

2024	(33,659)
2025	(22,084)
2026	(8,869)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of December 31, 2021, are as follows:

Valuation Date December 31, 2021

Actuarial Cost Method Entry Age Normal

6.40% (Net of investment expense including inflation) Investment Rate of Return

Expected Remaining Service lives 4 years

Projected Salary Increases 4.75% (2.45% Merit/2.30% Inflation)

Cost of Living Adjustments The present value of future retirement benefits is based on benefits currently being paid by the System

and includes previously granted cost of living increases. The present values do not include provisions for potential future increase not yet

authorized by the Board of Trustees.

Pub-2010 Public Retirement Plans Mortality Table for Mortality

Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and bene-

ficiary mortality. For employees, the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled

annuitants.

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females each with full generational projection using the MP 2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

NOTE 6 - PENSION PLAN (continued)

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the Capital Asset Pricing Model, (CAPM) (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.10% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

Asset Class		Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed Income		33%	0.85%
Equity		51%	3.23%
Alternatives		14%	0.71%
Real Assets		2%	0.11%
	Totals	100%	4.90%
Inflation			2.10%
Expected Arithmetic Nominal Return			7.00%

Discount Rate

The discount rate used to measure the total pension liability was 6.40%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 6 - PENSION PLAN (continued)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) of the participating employers calculated using the discount rate of 6.40%, as well as what the employers' net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower 5.40% or one percentage point higher 7.40% than the current rate:

	Current		
	1%	1%	
	Decrease	Rate	Increase
	(5.40%)	(6.40%)	(7.40%)
Commission's Proportionate Share of			
Net Pension Liability (Asset)	\$ 17,053	\$(95,654)	\$(190,067)

The Parochial Employees' Retirement System of Louisiana issued a stand-alone audit report on its financial statements for the year ended December 31, 2021. Access to the audit report can be found on the System's website: www.persla.org or on the Office of Louisiana Legislative Auditor's official website: www.lla.state.la.us.

NOTE 7 - RELATED PARTY AND ECONOMIC DEPENDENCE

The Course, its clubhouse, and certain maintenance equipment are owned by the St. Mary Parish Council. Debt related to the building of the Course, construction of the clubhouse, and purchase of certain equipment is funded by the Council.

The Council established the Commission to maintain and operate the Course in the Council's and public's behalf. The Course is economically dependent upon the Council.

Through the years the Council has provided payroll and payroll related services for the Commission. In addition, the Council provides an operating grant of \$250,000 annually to the Commission. When its revenues were sufficient to do so, the Commission reimbursed the Council for some of these expenses. Amounts provided to the Commission by the Council in excess of the annual operating grant which were not reimbursed by the Commission were recorded as a due to affiliate by the Commission. Due to a downturn in the golf industry and the local economy, the Commission has not had sufficient revenue to reimburse the Council for the full amounts advanced.

At September 30, 2022 the Commission owed the Council \$453,428 for salary and benefit reimbursements incurred through that time that had been repaid or discharged. The Council has agreed to defer repayment of amounts owed by the Commission until December 2022 at which time the Council may again defer repayment.

Because the Council recognizes the great recreational, and economic benefits provided by the Course, the Council has committed to continue funding a portion of the Course's salaries and benefits, as necessary to insure continuing the Course's ongoing operations.

NOTE 8 - RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the Commission carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements of claims have not exceed coverage in the past.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Atchafalaya Golf Course Patterson, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the business-type activities and the major fund of the Atchafalaya Golf Course Commission (Commission), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated April 27, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we identified one deficiency in internal control that we consider to be a material weakness. The deficiency is described in the accompanying schedule of findings as items 2022-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u> and which is detailed in the accompanying Schedule of Findings as 2022-002.

Atchafalaya Golf Course Commission's Response to Findings

Atchafalaya Golf Course Commission's response to the findings identified in our audit is described in the accompanying schedule of findings. The Commission's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is considered a public record and may be distributed by the Louisiana Legislative Auditor.

B. FINDINGS - FINANCIAL STATEMENT AUDIT

Material Weaknesses

ITEM 2022-001 - SEGREGATION OF DUTIES

Auditors' Comments

<u>Condition</u>: While performing audit tests and inquiring about internal control, we discovered that there is little segregation of duties within some of the Commission's accounting functions.

<u>Criteria</u>: Preferably, the accounting duties performed in an organization are segregated to reduce possible errors or irregularities that could occur in the accounting records and not be detected.

Effect: Lack of segregation of duties results in a material weakness in internal accounting controls.

Cause: The Commission has limited personnel.

Recommendation: We recommend the Commission determine if the improvement in internal control gained by hiring additional personnel in the accounting area justifies the additional payroll cost.

<u>Management's Comments</u>: We have reviewed this situation and have decided that the internal controls derived by employing an additional person in our bookkeeping area is outweighed by the additional personnel costs.

Item of Non-Compliance

ITEM NO. 2022-002 - FAILURE TO FILE AUDIT REPORT ON TIME

Auditor's Comments

<u>Condition</u>: The Commission's audit was completed and furnished to the Louisiana Legislative Auditor within the required time frame of the approved extension request. However, because the extension is a nonemergency extension, a late filing finding is required to be reported.

<u>Criteria</u>: Audit reports should be filed with the Office of the Legislative Auditor no later than six months after the entity's fiscal year end.

<u>Effect</u>: Failure to complete and furnish the audit on time violated state statue. In addition, management should be presented with timely audited financial information so that they can better manage the Commission's operation.

<u>Cause</u>: Submission of the report beyond the due date, although extended on a non-emergency basis requires a finding.

<u>Recommendations</u>: The Commission should submit it's audited financial statement within the required time frame.

<u>Management's Response</u>: We will work to meet the requirement of a timely submission of our report.
