#### **DECEMBER 2022**

This section of the Town of Arcadia, Louisiana's (Town) annual financial report presents our discussion and analysis of the Town's financial performance during the calendar year ended December 31, 2022. Please read it in conjunction with the Town's financial statements, which follow this section.

## **Financial Highlights**

The following exhibits some of the more important highlights from the government-wide financial statements for the year ended December 31, 2022.

- 1. The Town's total net position from governmental activities increased \$236,687 from the beginning of the fiscal year as a result of operations during the year.
- 2. During the year ended December 31, 2022, the Town's total expenses were \$3,501,774 greater than the \$836,160 recognized as revenue from fees, fines, and charges for services, made up of mostly water and sewer charges. However, if revenues, such as taxes, licenses and State grants are considered, the Town's expenses exceeded the revenues by \$709,117.
- 3. The cost of operating programs of the Town was \$4,337,934, which represents a decrease in costs of operations from the prior year of \$259,187 or a 5.63% decrease.
- 4. The total revenues of the Town were \$3,628,817, which represents a decrease in revenues from the prior year of \$103,108 or a 2.76% decrease. This is related to a decrease in business-type activities revenue combined with an increase in losses recorded on sale of assets.
- 5. The governmental activities reported unrestricted fund balance of \$(43,782).

#### **Overview of the Financial Statements**

The annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two (2) kinds of statements that present different views of the Town:

- 1. The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town's overall financial status.
- 2. The remaining statements are fund financial statements that focus on individual parts of the Town's governmental operations, reporting the Town's operations in more detail than the government-wide statements.
- 3. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

#### **Government-Wide Financial Statements**

Financial reporting at this level uses a perspective similar to the private sector using the economic resources measurement focus and the accrual basis of accounting.

#### **DECEMBER 2022**

The first of these government-wide statements is the Statement of Net Position. This government-wide statement of position presents information that includes all of the Town's assets, liabilities, and deferred outflows and inflows with the difference reported as net position. An increase or decrease in net position may serve as a useful indicator of whether the financial position of the Town as a whole is improving or deteriorating. Evaluation of the overall health of the Town would extend to other non-financial factors, such as diversification of the taxpayer base, in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities, which reports how the Town's net position changed during the year. All current year revenues and expenses are included regardless of when they are received or paid. An important purpose of the design of the Statement of Activities is to show the financial reliance of the Town's distinct activities or functions on revenues provided by the Town's taxpayers.

Both of the above financial statements have separate columns for the two (2) different types of Town activities as follows:

Governmental Activities - The government-wide financial statements present governmental activities of the Town which are principally supported by taxes and intergovernmental revenues (grants). Most services normally associated with a town fall in this category, including general government, public safety, streets and parks and recreations.

Business-Type Activities - The government-wide financial statements present business-type activities that are normally intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The business-type activity of the Town consists of the provision of water and sewer services to the citizens and the operation of the outlet mall.

The government-wide financial statements are presented on pages 4 and 5.

## **Fund Financial Statements**

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Town uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Town's most significant funds, rather than the Town as a whole.

The Town uses two (2) fund categories, governmental funds and proprietary funds. It is important to note that these fund categories use different accounting approaches and should be interpreted differently.

Governmental Funds - The services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources at the end of the year. Such information may be useful in evaluating the Town's near-term financing requirements. This approach is known as using the flow of financial resources measurement focus and the modified accrual basis of accounting. These governmental fund financial statements provide a detailed short-term view of the Town's finances and assists in determining whether there will be adequate resources available to meet the current needs of the Town.

#### **DECEMBER 2022**

Since focus of the governmental funds financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements.

Users may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented immediately following each of the governmental fund financial statements.

The Town has six (6) governmental funds, of which two are major funds and are presented in separate columns and four are non-major funds and are combined and presented in one (1) column titled "other governmental funds." The governmental funds are as follows:

Major Funds
General Fund
Special Revenue Fund - Sales Tax Fund
Non-major Funds
Special Revenue Funds
Parks and Recreation Fund
Street Fund
Industrial Inducement Fund
LMA Fund

The fund financial statements are presented on pages 6 through 9.

Proprietary Fund - The proprietary fund is used to show activities that operate more like those of commercial enterprises. Since this fund changes fees for services to outside customers, including local governments, it is known as an enterprise fund. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. There is no reconciliation needed between the government-wide financial statements for the business-type activities and the proprietary fund financial statements.

The Town has three enterprise funds: Water, Sewer, and Mall. The Water and Sewer Funds are considered a major proprietary fund; whereas, the Mall Fund is considered an other major proprietary fund.

The proprietary fund financial statements are presented on pages 10 through 12.

#### **Notes to the Financial Statements**

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 13 of this report.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's budget presentation. Budgetary comparison statements are included as "required supplementary information" for the General Fund and the Sales Tax Fund. These statements demonstrate compliance with the Town's adopted and final revised budget and can be found on pages 34 and 35 in this report.

## MANAGEMENT DISCUSSION AND ANALYSIS DECEMBER 2022

## **Financial Analysis of Governmental-Wide Activities**

## **Net Position**

The Town's combined net position (governmental and business-type activities) decreased during 2022 by \$709,117 or 6.11% from the \$10,637,187 at December 31, 2021, as shown in the following table:

	<u>2022</u>	<u>2021</u>
Assets		
Current and other assets	\$ 1,487,976	\$ 1,102,817
Capital assets (net)	9,802,721	10,910,281
Total assets	11,290,697	12,013,098
Deferred outflows of resources	340,715	288,544
Liabilities		
Other liabilities	340,997	369,430
Long-term liabilities	1,026,217	<u>714,813</u>
Total liabilities	1,367,214	1,084,243
Deferred inflows of resources	277,017	580,212
Net position		
Net investment in capital assets	9,802,721	10,910,281
Restricted	12,394	110,137
Unrestricted	<u> 172,066</u>	(383,231)
Total net position	\$ 9,987,181	\$10,637,187

## Changes in Net Position

The following condensed government-wide statement of activity illustrates the major changes in operations for the Town as compared to 2021:

	<u>2022</u>	<u>2021</u>
Revenue Governmental	\$ 2,949,725	\$ 2,706,939
Business-type Total revenue	<u>679,092</u> 3,628,817	<u>1,024,986</u> 3,731,925
Expenses		
Governmental	2,713,038	3,037,857
Business-type	<u> 1,624,896</u>	1,559,264
Total expenses	4,337,934	4,597,121
Decrease in net position	<u>\$ (709,117)</u>	<u>\$ (865,196</u> )

Net position of the Town's governmental activities increased \$236,687. Net position of the Town's business-type activities decreased \$945,804.

#### **DECEMBER 2022**

#### **Financial Analysis of Individual Funds**

As noted above, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **Governmental Fund**

The focus of the Town's governmental fund is to provide information on the near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. Unrestricted fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the year.

At December 31, 2022, the Town's general fund reported an ending fund balance of \$129,480 an increase of \$257,359 compared to the calendar year 2021. The general fund is the chief operating fund of the Town.

#### **Proprietary Fund**

The Town's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. The Town's proprietary funds (Water and Sewer Fund and Mall Fund) reported operating expenses of \$1,624,896, which was \$800,585 more than operating revenues of \$824,311, for the year ended December 31, 2022. This was an increase in excess operating expenses of \$266,307 compared to 2021. The proprietary fund reported a decrease of \$945,804 in net position in the calendar year 2022 compared to a decrease of \$143,068 in the calendar year 2021.

### **Budgetary Highlights**

Formal budgetary integration is employed as a management control device during the calendar year. The budget policy of the Town complies with state law, as amended, and as set forth in Louisiana Revised Statutes Title 39, Chapter 9, Louisiana Local Government Budget Act (LSA-R.S. 39:1302 et seq).

## **Capital Asset Administration**

The Town's investment in capital assets for its governmental and business-type activities at December 31, 2022 totaled \$22,336,900, less accumulated depreciation of \$12,534,179, leaving a \$9,802,721 balance in net capital assets. The investment in capital assets consists of land, buildings, equipment, and water, and sewer improvements. The total decrease in the Town's investment in capital assets for the year ended December 31, 2022 totaled \$600,191.

## **Contacting the Town's Financial Management**

The financial report is designed to provide a general overview of the Town's finances, comply with finance-related laws and regulations, and demonstrate the Town's commitment to public accountability. If you have questions about this report, contact O'Landis Millican, Mayor, P. O. Box 767, Arcadia, Louisiana 71001.

# REGIONS TOWER 333 TEXAS STREET, SUITE 1525 I SHREVEPORT, LOUISIANA 71101 318.429.1525 (P) I 318.429.2124 (F)

To the Honorable Mayor and the Members of the Town Council Town of Arcadia, Louisiana

## **Independent Auditor's Report**

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Arcadia, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Arcadia, as of December 31, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Arcadia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Arcadia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

WWW.HMVCPA.COM

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objective are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
  to fraud or error, and design and perform audit procedures responsive to those risks. Such
  procedures include examining, on a test basis, evidence regarding the amounts and disclosures
  in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Town of Arcadia's internal control. Accordingly, no such
  opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Arcadia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i - v, budgetary comparison information on pages 34 - 36, schedule of Town's proportionate share of net position liability on page 37, and schedule of Town's contributions on page 38 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or

historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

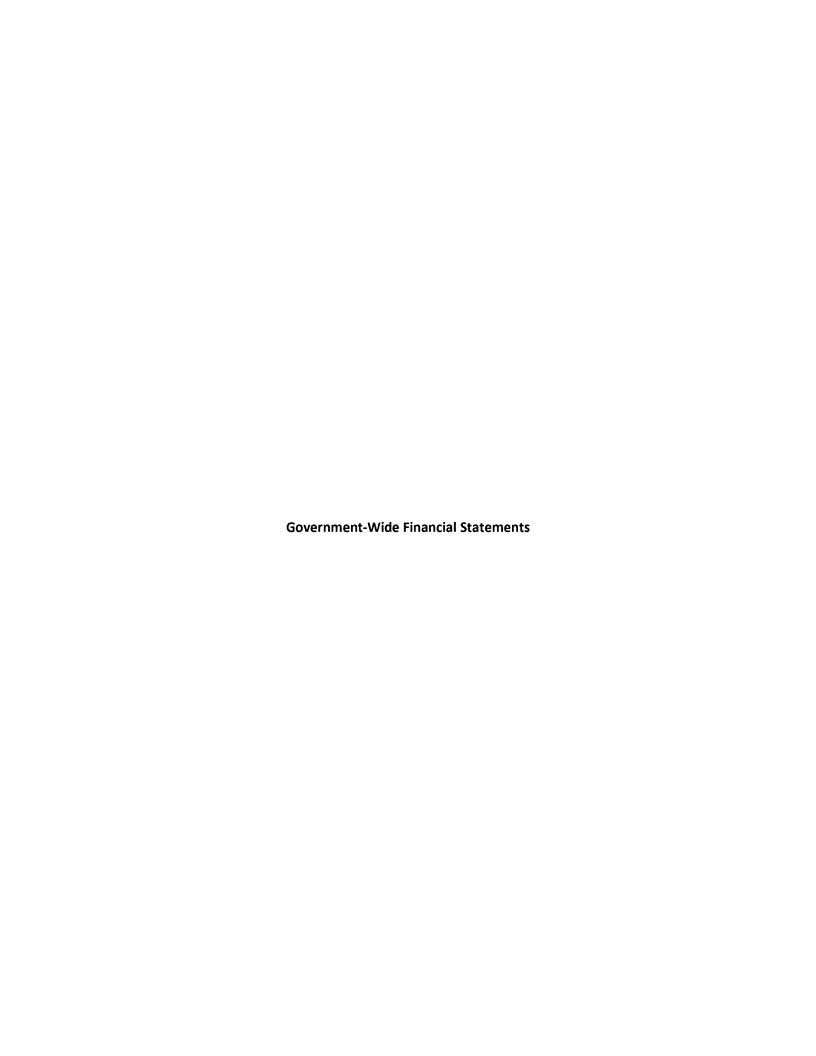

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Arcadia's basic financial statements. The accompanying combining nonmajor fund financial statements on pages 39 - 40 and schedules of compensation and benefits on pages 41 - 42 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

HEARD, MELROY & VESTAL, L.L.C.

In accordance with Government Auditing Standards, we have also issued our report, dated September 30, 2023, on our consideration of the Town of Arcadia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Arcadia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Arcadia's internal control over financial reporting and compliance.

Shreveport, Louisiana September 30, 2023

#### **NOTES TO THE FINANCIAL STATEMENTS**

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

#### INTRODUCTION

The Town of Arcadia was incorporated June 26, 1902 under the provisions of the Lawrason Act (Louisiana Revised Statutes 33321-463). The Town is located in the parish of Bienville in the northwest corner of the state of Louisiana. The Town operates under a mayor-town council form of government. Members of the board are all elected and serve a term of 4 years. The town provides the following services as authorized by its charter: police and fire protection, water and sewerage, streets, industrial development and inducement and general administrative services.

GASB Statement No. 14, "The Financial Reporting Entity," established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Town is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASB Statement No. 14, fiscally independent means that the Town may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town have been prepared in conformity with U.S. generally accepted accounting principles as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

## A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and Intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charge to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants

#### NOTES TO THE FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivables due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following governmental funds:

The General fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

The Town reports the following proprietary funds:

The Water and Sewer fund accounts for the provision of water and sewer services to the residents of the Town. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing, and related debt service and billing.

The Mall Fund is used to account for the assets and activities related to the operation of the outlet mall.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

The content and certain titles of the GWFS were changed upon the adoption by the town in 2012 of GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. This statement provides reporting guidance for deferred outflows of resources and deferred inflows of resources, and adds them, when applicable, as elements of the GWFS, because they are distinct from assets and liabilities. In addition, because these additional elements may affect the residual amount of all of the elements presented in a statement of financial position, GASB 63 renames that measure as net position rather than net assets. The Town had deferred outflows of resources and deferred inflows of resources related to pensions at December 31, 2022.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the

#### NOTES TO THE FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

government's enterprise operations. Elimination of those charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Principal operating revenues of the proprietary funds include water and sewer services to the residents of the Town. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, supplies, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

## C. Deposits and Investments

The Town's cash and cash equivalents are considered to be demand deposits, interest-bearing demand deposits, and investments with original maturities of three months or less from the date of acquisition. State law and the Town's investment policy allow the Town to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments for the Town are reported at fair value.

Investments are measured using generally accepted accounting principles fair value guidelines that recognize a three-tiered fair value as follows: Level 1 inputs are quoted prices for identical investments in active markets; Level 2 inputs are other observable inputs other than Level 1; and Level 3 inputs are unobservable inputs.

## D. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

In the government-wide financial statement, receivables consist of all revenues earned at year end and not yet received. Major receivables for the governmental activities include ad valorem, franchise taxes and sales and use taxes. Business-type activities report customers' utilities service charges as its major receivables. Uncollectible amounts due for ad valorem taxes and customers' utility accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable.

## E. Inventories

Inventory in the water and sewer enterprise fund, consisting of expendable supplies held for consumption, is valued at historical cost.

#### **NOTES TO THE FINANCIAL STATEMENTS**

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

#### F. Restricted Assets

The Enterprise fund, because of certain bond covenants, is required to establish and maintain prescribed amounts of resources (consisting of cash and temporary investments) that can be used only to service outstanding debt. The Enterprise fund also restricts customer meter deposits.

### G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government- wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Town maintains a threshold level of \$1,500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

	Estimated
<u>Description</u>	Lives
Buildings and building improvements	20-40 years
Water improvements	5-35 years
Sewer improvements	5-40 years
Equipment and vehicles	4-15 years
Infrastructure improvements	20-40 years

## H. Compensated Absences

Employees of the town earn two weeks vacation after one year of service, 3 weeks after ten years of service, and 4 weeks after twenty years of service. Vacation time which is earned but not used during the calendar year cannot be carried forward into the next calendar year, except under special circumstances pre-approved by the Mayor. Vacation time must be taken in at least one week intervals, unless approved by supervisor. Employees earn 40 hours of sick leave and 24 hours of personal leave each calendar year following the successful completion of the employee's three-month probationary period. Only unused sick leave can be accumulated up to 240 hours and can be carried forward to the next year, however, employees will not be compensated upon termination or retirement. Unused, earned vacation leave will be paid for provided the employee gives two full weeks' notice to the town clerk, in writing, of their intention to terminate.

#### I. Long-Term Obligations

In the government-wide financial statements, and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

## J. Fund Equity

The Town implemented GASB Statement No. 54 beginning in 2011. The Town assumes that when amounts are expended for purposes for which funds in any of the unrestricted classifications could be used, committed amounts are reduced first, followed by assigned amounts and then unassigned amounts.

#### NOTES TO THE FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. There are no material reservations or designations for the year ended December 31, 2022.

#### K. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from the estimates.

#### L. Risk Management

The Town is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. To handle such risk of loss, the Town maintains commercial insurance policies covering its vehicles, professional liability and surety bond coverage. No claims were paid on any of the policies which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended December 31, 2022.

#### M. Sales Tax

On October 18, 1997, the voters of the Town of Arcadia approved the rededication of the 1987 one cent sales tax to be used and dedicated as follows: 50% for general operating revenue; 30% for constructing, paving, resurfacing, improving, and/or maintaining streets; 10% for acquiring, improving, maintaining and supporting parks and recreation programs in and for the town; and 10% for industrial construction, inducement, and/or procurement. The election on October 18, 1997 extended the levy and collection of the original tax for an additional ten years from June 1, 2002 through June 1, 2012. Subsequent to the tax expiring, the Bienville Parish School Board continued collecting the sales tax through September 2012 when it was discovered the tax had expired. On December 8, 2012, the voters of the Town of Arcadia approved the one percent (1%) sales and use tax previously authorized to be levied by the Town through June 1, 2012; extending the levy and collection beginning January 1, 2013 for a period of ten years. On July 13, 1991, the voters approved a one percent sales and use tax requiring that at least 40% of the proceeds be used for constructing, acquiring, extending, and/or improving sewer and sewerage disposal facilities and the waterworks system of the Town and the remainder to be used for any lawful purpose of the Town. The 1991 tax was for a twenty-five-year period. On April 9, 2016, the voters of the Town of Arcadia approved the one percent sales and use tax previously authorized to be levied by the Town through July 2016; extending the levy and collection beginning July 2016 for a period of ten years. On December 8, 2012, the voters of the Town of Arcadia approved a new half-cent sales and use tax requiring that the proceeds be used for building, constructing, improving, and/or maintaining of public roads and drainage facilities; and to provide for the supplemental collection and disposal of solid waste within and for the Town which is not currently being collected by other agencies, including the payment of contracts providing therefore and acquiring, constructing, improving, maintaining, and operating equipment and facilities necessary therefore. The new tax is for a ten-year period beginning January 1, 2013. The Bienville Parish School Board serves as the collection agent for the sales taxes and is paid a collection fee for acting as such.

#### NOTES TO THE FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

## 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

BUDGET INFORMATION. The Town adopted budgets for the year ended December 31, 2022 for the General fund and Special Revenue funds on a basis consistent with generally accepted accounting principles (GAAP). The Town follows the following procedures in establishing the budgetary data reflected in the financial statements. During the December meeting, the Town clerk submits to the board of aldermen a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and expenses and the means of financing them. Prior to December 15, the budget is legally enacted through passage of an ordinance. The public is invited to attend all meetings. The Town clerk is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures or expenses of any fund must be approved by the board of aldermen. Appropriations lapse at the end of the year. The budgets were not amended during the fiscal year.

The Town did not formally approve a budget for the Sales Tax special revenue fund. Also, the General Fund shows a deficit in ending fund balance at December 31, 2022. This is a product of the "due to" account balances and GASB 68 implementation. In addition, the Town has a deficit in their other governmental funds at December 31, 2022, which is related to "due to/from" accounts; mainly in the Street Fund. In fiscal year 2023, Town management has stated the due to/from accounts will be cleared out for the respective funds which have a negative fund balance, which should alleviate a majority of the deficits.

#### 3. CASH AND CASH EQUIVALENTS

At December 31, 2022, the Town has cash and cash equivalents (book balances) totaling \$503,170 as follows:

Demand deposits	\$ 85,950
Interest-bearing demand deposits	 417,220
Total	\$ 503,170

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2022, the Town has \$534,874 in deposits (collected bank balances). These deposits are secured from risk by \$250,000 of federal deposit insurance and \$284,874 of pledged securities held by the custodial bank in the name of the fiscal agent bank. (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement No. 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Town that the fiscal agent has failed to pay deposited funds upon demand.

## 4. INVESTMENTS

The Town is a political subdivision of the State of Louisiana and has authority to invest in Federal National Mortgage Association notes under RS 33:2955. Investment in government and agency securities are stated at market value. Unrealized gains or losses are included in investment income under the caption use of money and property. Investments are categorized into these three categories of credit risk:

#### NOTES TO THE FINANCIAL STATEMENTS

## AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

- 1. Insured or registered, or securities held by the Town or its agent in the Town's name.
- 2. Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Town's name.
- 3. Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the Town's name.

At fiscal year-end, the Town's investment balances were as follows:

				Carrying Amount				<sub>-</sub> Total		
				Fair	Am	ortized	ł		Ca	rrying
	 - 1	Category		Value	C	ost	Cos	<u>t</u>	_An	<u>nount</u>
Type of investment Asset and Mortgage	1	2	3							
backed notes	\$ 	\$ 436,412	\$ 	<u>\$ 436,412</u>	\$		\$		<u>\$ 4</u>	36,412
Total investments	\$ 	\$ 436,412	\$ 	\$ 436,412	\$		\$		\$ 4	36,412

The recurring fair value measurement for the asset and mortgage backed securities are presented at fair value wing Level 2 fair value measurement.

## 5. RECEIVABLES

The receivables of \$527,640 at December 31, 2022, are as follows:

		eneral Fund	R	pecial evenue Funds	ater and wer Fund	<u>Total</u>
Taxes:						
Ad valorem	\$	-	\$	-	\$ -	\$ -
Sales and use		-		357,740	-	357,740
Other taxes, penalties, and inte	rests	43,940		-	-	43,940
Grants		-		-	-	-
Accounts		1,900			 124,060	 125,960
Total	\$	<u>45,840</u>	\$	<u>357,740</u>	\$ 124,060	\$ 527,640

## 6. RESTRICTED ASSETS

Restricted assets of business-type activities were applicable to the following at December 31, 2022:

	,	prise fund mer Deposits
Cash and cash equivalents Investments	\$	107,257 12,394
Total	\$	119,651

## **NOTES TO THE FINANCIAL STATEMENTS**

## AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

## 7. AD VALOREM TAXES

For the year ended December 31, 2022, taxes of \$178,117 were levied on property with assessed valuations totaling \$33,045,861 and were dedicated as follows:

General corporate purposes

5.390 mills

The following are the principal taxpayers and related property tax revenue for the Town:

		Assessed	% of Total Assessed		Valorem Tax evenue for
Taxpayer	Type of Business	<u>Valuation</u>	_Valuation_	_	Town
Haynes International, Inc.	<b>Tubular Production</b>	\$ 5,233,838	27.5%	\$	28,210
Arcadia Gas Storage, LLC	Natural Gas Storage	4,905,884	25.7%		26,443
House of Raeford Farms	<b>Poultry Productions</b>	2,395,608	12.6%		12,912
Total		<u>\$ 12,535,330</u>	65.8%	\$	67,565

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the town in September or October and are actually billed to the taxpayers in November. Billed taxes become delinquent on January 1 of the following year. Revenues from ad valorem taxes are budgeted in the year billed.

## 8. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of December 31, 2022 is as follows:

	<u>Due from</u>	Due to
General fund	\$ 618,327	\$ 805,216
Special revenue funds		
Sales tax	613,170	357,741
Street	42,928	544,814
Industrial Inducement	184,559	246,083
Parks and Recreation	109,767	-
Water and sewer fund	<u>559,660</u>	174,559
Total	\$2,128,411	\$2,128,413

## NOTES TO THE FINANCIAL STATEMENTS

#### NOTES TO THE FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Depreciation expense of \$356,170 and \$64,403 for the year ended December 31, 2022 was charged to general government and public safety, respectively.

## 10. RETIREMENT

#### PENSION AND RETIREMENT PLANS

Effective December 31, 2015, the Town implemented Governmental Accounting Standards Board Statement No. 68, Accounting for Financial Reporting and Pensions – an amendment of GASB Statement No. 27, and Statement No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No.68. These statements required the Town to recognize its proportionate share of the net pension liability for the two defined benefit plans in which its employees participate.

#### Cost-Sharing Multiple-Employer Retirement Systems

The Town participates in two state-administered cost-sharing multiple-employer retirement systems: Municipal Employees' Retirement System (MERS) and Municipal Police Employees' Retirement System (MPERS) of the State of Louisiana. These systems are cost-sharing, multipleemployer defined benefit pension plans administered by separate boards of trustees. Article 10, Section 29 of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions to the state legislature. The systems issue annual, publicly available financial reports that include financial statements and required supplementary information for the systems. Although separately administered by their respective boards of trustees, these systems are established and regulated by acts of the Louisiana Legislature with respect to membership and contribution requirements, plan benefits, and actuarial determination of funding requirements as provided by the state constitution. The Town of Arcadia implemented Government Accounting Standards Board (GASB) Statement 68 on Accounting and Financial Reporting for Pensions and Statement 71 on Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB 68. Additional disclosures with respect to GASB 68 to the Town's participation in these systems are provided below. The reports for MERS and MPERS may be obtained at www.mersla.com and www.lampers.org, respectively.

## Municipal Police Employees' Retirement System

All full-time police department employees engaged in law enforcement are required to participate in the Municipal Police Employees' Retirement System. The System is the administrator of a cost-sharing multiple-employer plan. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Municipal Police Retirement System of Louisiana, 8401 United Plaza Boulevard, Baton Rouge, Louisiana 70809-2250, or by calling (225) 929-7411.

## Membership Prior to January 1, 2013

A member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 20 years of creditable service and is age 50 or has 12 years creditable service and is age 55. A member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age with an actuarially reduced benefit.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Benefit rates are three and one-third percent of average final compensation (average monthly earnings during the highest 36 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

Upon the death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from forty to sixty percent of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives benefits equal to ten percent of the member's average final compensation or \$200 per month, whichever is greater.

### Membership Commencing January 1, 2013

Member eligibility for regular retirement, early retirement, disability and survivor benefits are based on Hazardous Duty and Non Hazardous Duty sub plans. Under the Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 25 years of creditable service at any age or has 12 years of creditable service at age 55. Under the Non Hazardous Duty sub plan, a member is eligible for regular retirement after he has been a member of the System and has 30 years of creditable service at any age, 25 years of creditable service at age 55, or 10 years of creditable service at age 60. Under both sub plans, a member is eligible for early retirement after he has been a member of the System for 20 years of creditable service at any age, with an actuarially reduced benefit from age 55.

Under the Hazardous and Non Hazardous Duty sub plans, the benefit rates are three percent and two and a half percent, respectively, of average final compensation (average monthly earnings during the highest 60 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

Upon death of an active contributing member, or disability retiree, the plan provides for surviving spouses and minor children. Under certain conditions outlined in the statues, the benefits range from twenty-five to fifty-five percent of the member's average final compensation for the surviving spouse. In addition, each child under age eighteen receives ten percent of average final compensation or \$200 per month whichever is greater. If deceased member had less than ten years of service, beneficiary will receive a refund of employee contributions only.

### **Cost of Living Adjustments**

The Board of Trustees is authorized to provide annual cost-of-living adjustments computed on the amount of the current regular retirement, disability, beneficiary or survivor's benefit, not to exceed 3% in any given year. The Board is authorized to provide an additional 2% COLA, computed on the member's original benefit, to all regular retirees, disability, survivors and beneficiaries who are 65 years of age or older on the cut-off date which determines eligibility.

No regular retiree, survivor or beneficiary shall be eligible to receive a cost-of-living adjustment until benefits have been received at least one full fiscal year and the payment of such COLA, when authorized, shall not be effective until the lapse of at least one-half of the fiscal year.

Members who elect early retirement are not eligible for a cost of living adjustment until they reach regular retirement age.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

### **Deferred Retirement Option Plan**

A member is eligible to elect to enter the deferred retirement option plan (DROP) when he is eligible for regular retirement based on the members' sub plan participation. Upon filing the application for the program, the employee's active membership in the System is terminated. At the entry date into the DROP, the employee and employer contributions cease. The amount to be deposited into the DROP account is equal to the benefit computed under the retirement plan elected by the participant at date of application. The duration of participation in the DROP is thirty-six months or less. If employment is terminated after the three-year period, the participant may receive his benefits by lump sum payment or a true annuity. If employment is not terminated, active contributing membership into the System shall resume and upon later termination, he shall receive additional retirement benefit based on the additional service. For those eligible to enter DROP prior to January 1, 2004, DROP accounts shall earn interest subsequent to the termination of DROP participation at a rate of half of one percentage point below the percentage rate of return of the System's investment portfolio as certified by the actuary on an annual basis but will never lose money. For those eligible to enter DROP subsequent to January 1, 2004, an irrevocable election is made to earn interest based on the System's investment portfolio return or a money market investment return. This could result in a negative earnings rate being applied to the account. If the member elects a money market investment return, the funds are transferred to a government money market accounts.

### Initial Benefit Option Plan

In 1999, the State Legislature authorized the System to establish an Initial Benefit Option program. Initial Benefit Option is available to members who are eligible for regular retirement and have not participated in DROP. The Initial Benefit Option program provides both a one-time single sum payment of up to 36 months of regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest is computed on the balance based on same criteria as DROP.

### **Contributions**

Plan members are required by state statute to contribute 10% of their annual covered salary and the Town of Arcadia is required to contribute at an actuarially determined rate. The current rate for the year ended December 31, 2022 was 29.75% of annual covered payroll. The contribution requirements of plan members and the Town are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town of Arcadia, Louisiana's contributions to the System, for the year ending December 31, 2022 was \$58,863.

The System also receives insurance premium tax monies as additional employer contributions. The tax is considered support from a non-contributing entity and appropriated by the legislature each year based on an actuarial study. Non-employer contributions during the measurement period of \$13,796 are recognized as revenue and are excluded from pension expense.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2022, the Town reported a liability of \$633,924 for its proportionate share of the net pension liability of the System. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the Town's proportion was 0.062017% which was a decrease of 0.017361% from its proportion measured as of June 30, 2021.

For the year ended December 31, 2022, the Town recognized pension expense of \$138,645 representing its proportionate share of the System's net expense, including amortization of deferred amounts.

At December 31, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		d Inflows sources
Differences between expected and actual experience	\$	3,127	\$	5,167
Changes in assumptions		21,867		4,715
Net difference between projected and actual earnings on pension plan investments		113,175		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		67,332		184,642
Employer contributions subsequent to the measurement dat Total	e <u> </u>	30,799 236,300	\$	- 194,524

The Town reported a total of \$30,799 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of December 31, 2021 which will be recognized as a reduction in net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:

2023	\$ 22,135
2024	(45,001)
2025	(25,521)
2026	<u>59,364</u>
	\$ 10,977

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

### **Actuarial Methods and Assumptions**

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2022 are as follows:

Valuation Date June 30, 2022

Actuarial Cost Method Entry Age Normal Cost

Investment Rate of Return 6.750%, net of investment expense

Expected Remaining Service lives 4 years Inflation Rate 2.5%

Years of ServiceSalary Growth RateSalary increases, including1-212.30%inflation and meritAbove 24.70%

The forecasted long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting forecasted long-term rate of return is 8.06% for the year ended June 30, 2022.

Best estimates of arithmetic nominal rates of return for each major asset class included in the System's target allocation as of June 30, 2022 are summarized in the following table:

		Long-Term Expected
		Portfolio Real Rate
	Target Asset	of
Asset Class	<u>Allocation</u>	<u>Return</u>
Equity	55.50%	3.60%
Fixed Income	30.50%	0.85%
Alternatives	<u>14.00%</u>	<u>0.95%</u>
Totals	100.00%	5.40%
Inflation		2.66%
Expected Arithmetic Nominal Return		<u>8.06%</u>

The discount rate used to measure the total pension liability was 6.750%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

The mortality rate assumption used was set based upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a set back of standard tables. The result of the procedure indicated that the tables used would produce liability values approximating the appropriate generational mortality tables.

### SENSITIVITY TO CHANGES IN DISCOUNT RATE

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.750%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.750%) or one percentage point higher (7.750%) than the current rate:

	Changes in Discount Rate				
	1% Current Discount 1%				
	Decrease	crease Rate			
	5.750%	6.750%	7.750%		
Town's proportionate					
share of the net pension liability	\$ 887,372	\$ 633,924	\$ 422,211		

### Municipal Employees' Retirement System of Louisiana

The Municipal Employees' Retirement System of Louisiana is the administrator of a cost-sharing multiple-employer defined benefit pension plan. The System was originally established by Act 356 of the 1954 regular session of the Legislature of the State of Louisiana.

The System provides retirement benefits to employees of all incorporated villages, towns and cities within the State which do not have their own retirement system and which elect to become members of the System.

The following is a description of the plan and its benefits and is provided for general information purposes only. The City is a contributing municipality of Plan B.

### **Eligibility Requirements:**

Membership is mandatory as a condition of employment beginning on the date employed if the employee is on a permanent basis working at least thirty-five hours per week. Those individuals paid jointly by a participating employer and the parish are not eligible for membership in the System with exceptions as outlined in the statutes.

### Retirement Benefits:

Any member of Plan B who was hired before January 1, 2013 can retire providing the member meets one of the following criteria:

- 1. Any age with thirty (30) or more years of creditable service.
- 2. Age 60 with a minimum of ten (10) years of creditable service.
- 3. Any age with ten (10) years of creditable service eligible for disability benefits.
- 4. Survivor's benefits require five (5) years creditable service at death of member.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Eligibility for Retirement for Plan B members hired on or after January 1, 2013 is as follows:

- 1. Age 67 with seven (7) or more years of creditable service
- 2. Age 62 with ten (10) or more years of creditable service
- 3. Age 55 with thirty (30) or more years of creditable service
- 4. Twenty-five (25) years of service credit at any age, exclusive of military service and unused annual sick

However, any member retiring under subsection #4 shall have their benefit actuarially reduced from the earliest age of which the member would be entitled to a vested deferred benefit under any provision of this section, if the member had continued in service to that age.

Generally, the monthly amount of the retirement allowance for any member of Plan B shall consist of an amount equal to two percent of the member's monthly average final compensation multiplied by his years of creditable service. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts.

### Survivor Benefits:

Upon death of any member of Plan B with five (5) or more years of creditable service, not eligible for retirement, the plan provides for benefits for the surviving spouse and/or minor children as outlined in the statutes.

Any member of Plan B who is eligible for normal retirement at time of death and who leaves a surviving spouse will be deemed to have retired and selected Option 2 benefits on behalf of the surviving spouse on the date of death. Such benefits will begin only upon proper application and are paid in lieu of any other survivor benefits.

### **DROP Benefits**:

In lieu of terminating employment and accepting a service retirement allowance, any member of Plan A or B who is eligible to retire may elect to participate in the deferred retirement option plan (DROP) for up to three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund. Interest is earned when the member has completed DROP participation. Interest earnings are based upon the actual rate of return on the investments identified as DROP funds for the period. In addition, no cost-of-living increases are payable to participants until employment which made them eligible to become members of the System has been terminated for at least one full year.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or any other method of payment if approved by the board of trustees. If a participant dies during participation in the DROP, a lump sum equal to the balance in his account shall be paid to his named beneficiary or, if none, to his estate. If employment is not terminated at the end of the three years, payments into the DROP fund cease and the person resumes active contributing membership in the System.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

### **Disability Benefits:**

For Plan B, a member shall be eligible to retire and receive a disability benefit if he has at least ten years of creditable service, in which he would receive a regular retirement benefit under retirement provisions. A member shall be eligible to retire and receive a disability benefit if he has at least ten years of creditable service, is not eligible for normal retirement, and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan B shall be paid a disability benefit equal to the lesser of thirty percent of his final average compensation or two percent of his final average compensation multiplied by his years of creditable service, whichever is greater, or an amount equal to two percent of the member's final average compensation multiplied by his years of creditable service, projected to his earliest normal retirement age.

### Cost of Living Increases:

The System is authorized under state law to grant a cost of living increase to members who have been retired for at least one year. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. State law allows the System to grant an additional cost of living increase to all retirees and beneficiaries who are age sixty-five and above equal to 2% of the benefit being received on October 1, 1977, or the original benefit, if retirement commenced after that date.

### **Deferred Benefits:**

Both plans provide for deferred benefits for members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable. Benefits are based on statutes in effect at time of withdrawal.

### Contributions

Plan members are required by state statute to contribute 5.0% of their annual covered salary and the Town of Arcadia is required to contribute at an actuarially determined rate. The current rate for the year ended December 31, 2022 was 15.50% of annual covered payroll. The contribution requirements of plan members and the Town are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town of Arcadia, Louisiana's contributions to the System, for the year ending December 31, 2022 was \$56,155.

In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations. Non-employer contributions of \$12,984 during the measurement period are recognized as revenue and are excluded from pension expense.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2022, the Town reported a liability of \$392,292 for its proportionate share of the net pension liability of the System. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2022, the Town's proportion was 0.446881% which was a decrease of 0.056624% from its proportion measured as of June 30, 2021.

For the year ended December 31, 2022, the Town recognized pension expense (benefit) of \$(40,591) representing its proportionate share of the System's net expense, including amortization of deferred amounts.

At December 31, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

	_	red Outflows Resources	_	ed Inflows esources
Differences between expected and actual experience	\$	-	\$	4,992
Changes of assumptions		4,194		-
Net difference between projected and actual earnings on pension plan investments		72,144		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		77,502
Employer contributions subsequent to the measurement date		28,077		<u>-</u>
Total	\$	104,415	\$	82,494

The Town reported a total of \$28,077 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of December 31, 2022 which will be recognized as a reduction in net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

### Year Ended June 30:

2023	\$ (46,469)
2024	176
2025	7,778
2026	32,359
	<u>\$ (6,156</u> )

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

### **Actuarial Methods and Assumptions**

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2022 are as follows:

Valuation Date June 30, 2022

Actuarial Cost Method Entry Age Normal Actuarial Assumptions:

Investment Rate of Return 6.85%, net of investment expense

Projected Salary Increases 1-4 Years: 7.4% (including inflation and merit)

4+ Years: 4.9% (including inflation and merit)

Mortality Rates PubG-2010(B) Employee Table for active members

PubG-2010(B) Healthy Retiree Table for healthy

annuitants

PubNS-2010(B) Disabled Lives Retiree Tables for disabled

annuitants

Expected Remaining Service Lives 3 years

Inflation Rate 2.50%

Cost of Living Adjustments The present value of future retirement benefits is based

on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of

Trustees.

The mortality rate assumption used was verified by combining data from this plan with three other statewide plans which have similar workforce composition in order to produce a credible experience. The aggregated data was collected over the period July 1, 2013 through June 30, 2018. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.60% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rates of return is 6.95% for the year ended June 30, 2022.

### NOTES TO THE FINANCIAL STATEMENTS

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 are summarized in the following table:

	Long-Term Expect	pected Portfolio		
	Target Asset	Real Rate		
<u>Asset Class</u>	Allocation	<u>Return</u>		
Public Equity	53%	2.31%		
Public Fixed Income	38%	1.65%		
Alternatives	9%	<u>0.39%</u>		
Totals	100%	4.35%		
Inflation		2.60%		
Expected Arithmetic Nominal Return		6.95%		

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PERSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### SENSITIVITY TO CHANGES IN DISCOUNT RATE

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 6.85%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.85%) or one percentage point higher (7.85%) than the current rate:

### Changes in Discount Rate

	1%	Current	1%
	Decrease	Discount Rate	Increase
	<u>5.85%</u>	<u>6.85%</u>	<u>7.85%</u>
Town's proportionate share of the net pension liability	\$ 534,768	\$ 392,292	\$ 271,791

### 11. CONTINGENT LIABILITIES

As of December 31, 2022, the Town was involved in the following matters: 1) Bienville Parish Coroner's Office vs. Town of Arcadia, and 2) Sedrick Millage vs. Town of Arcadia. These matters are covered under the Town's general liability policy and are being defended by Louisiana Risk Management, Inc., the Town's liability insurer. It is believed the Town's liability, if any, does not exceed the coverage afforded under the liability policy, thus, no reserves have been recorded for potential loss.

### **NOTES TO THE FINANCIAL STATEMENTS**

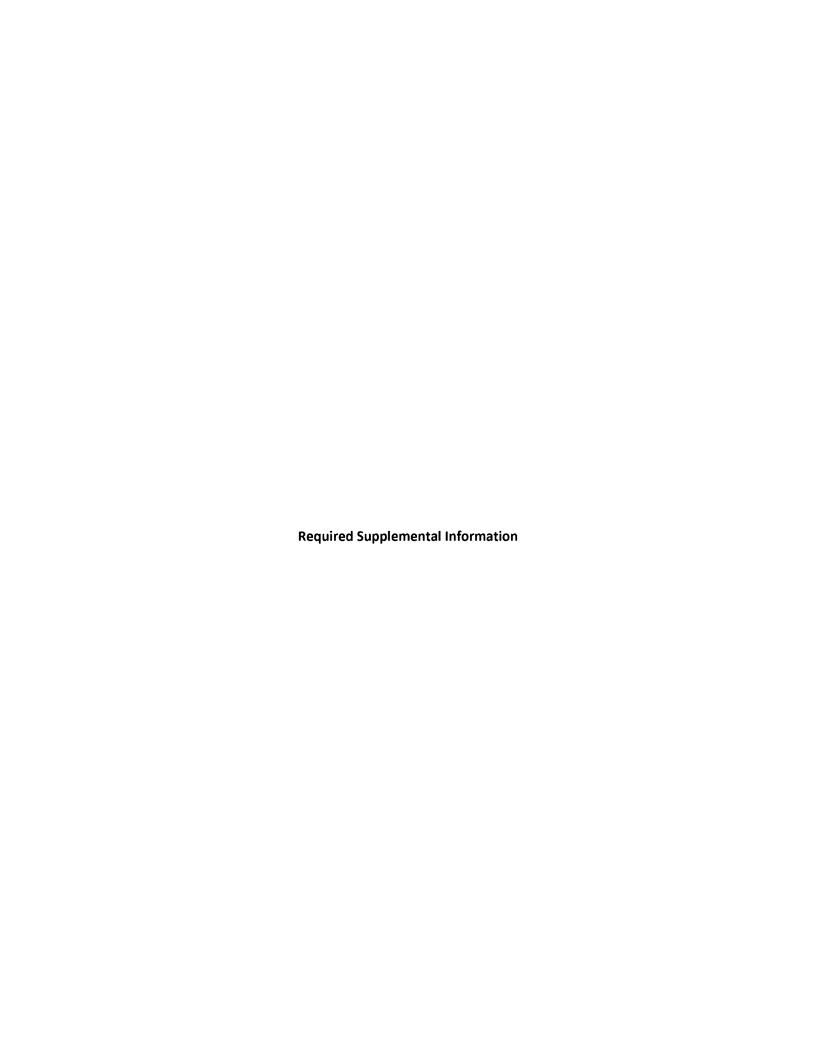

### AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2022

### 12. ON BEHALF PAYMENTS FOR SALARIES

The Town recognizes as general fund revenues and expenses supplemental pay made by the State of Louisiana to the Town's police employees. For the year ended December 31, 2022, the State made contributions of \$12,000.

### 13. SUBSEQUENT EVENTS

The Town has evaluated events subsequent to September 30, 2023 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through the date these financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or disclosure in the financial statements.

September 30, 2023

To the Honorable Mayor and the Members of the Town Council Town of Arcadia, Louisiana

Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Arcadia, Louisiana as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Town of Arcadia, Louisiana's basic financial statements, and have issued our report thereon dated September 30, 2023.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered The Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Town's internal control. Accordingly, we do not express an opinion on the effectiveness of The Town's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a

timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2022-1, 2022-4, and 2022-5, to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2022-2 and 2022-3, to be significant deficiencies.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether The Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2022-2.

### The Town's Response to Findings

The Town's response to the findings identified in our audit is described in Management's Corrective Action Plan for Current Year Findings. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Shreveport, Louisiana

HEARD, MELROY & VESTAL, L.L.C.

### SCHEDULE OF FINDINGS AND QUESTIONED COSTS

### FOR THE YEAR ENDED DECEMBER 31, 2022

### A. Summary of Audit Results

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of the Town of Arcadia, Louisiana.
- 2. Five significant deficiencies relating to the audit of the basic financial statements are reported, three of which are considered to be material weaknesses.
- 3. One instance of noncompliance relating to the basic financial statements of the Town of Arcadia, Louisiana was disclosed during the audit.
- 4. No federal single audit was required under the Uniform Guidance relating to the financial statements of the Town of Arcadia, Louisiana.

### B. Findings – Financial Statement Audit

### 2022-1: Accounting Staff:

As is common in small operations, management has chosen to engage the auditor to propose certain year-end adjusting journal entries and to prepare the Town's annual financial statements. Consistent with this decision, internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, in accordance with generally accepted accounting principles have not been established, nor does management have the ability to perform these functions in-house. Under generally accepted auditing standards, this condition represents a control deficiency that is also considered to be a material weakness in internal controls. This condition is intentional and results from management balancing the Town's financial complexity with the appropriate level of accounting expertise. Whether or not it would be cost effective to correct a control deficiency is not a factor in applying SAS 115's reporting requirements. Because prudent management requires that the potential benefit from an internal control must exceed its cost, it may not be practical to correct all deficiencies reported under SAS 115.

### 2022-2: Budget Non-Compliance:

The Town did not formally adopt a budget for the Sales Tax special revenue fund.

### 2022-3: Internal Control over Accounts Payable/Disbursements:

As a result of test-work over the accounts payable process the following item was noted:

a) Certain old items from prior years were included in the accounts payable aging reconciliation for certain Funds.

Policies and procedures to address the item noted above should be implemented. All employees involved in the accounts payable process should be provided with a copy of the procedures and then be trained on the processes.

### SCHEDULE OF FINDINGS AND QUESTIONED COSTS

### FOR THE YEAR ENDED DECEMBER 31, 2022

### 2022-4: LLA Investigative Report:

The Advisory Services Department of the Louisiana Legislative Auditor audited certain transactions of the Town. Their report, dated May 10, 2023, presented the following issues relating to the period under audit:

- 1) Non-Compliance with the Local Government Budget Act: The Town may have violated state law since it could not provide records to demonstrate a properly-adopted budget for fiscal years ended December 31, 2021 and 2022.
- 2) Failure to Budget American Rescue Plan Act Funds and Improper Incentives Paid to Town Officials: Mayor O'Landis Millican appears to have violated state law by disregarding requirements of the LGBA and the Lawrason Act in the performance of his duties. Mayor Millican signed Town checks to pay unbudgeted and unauthorized salary incentives to elected officials and Town employees without a council-approved budget or an ordinance to increase pay for the elected officials and Town Clerk.
- 3) Improper Authorization by Mayor for Payment of Unbudgeted Expenses: Mayor Millican authorized payments to two vendors from the general fund totaling \$1,075,075 for expenses that were not included in the budget documents he provided to us for tree cutting, debris removal, building maintenance, and repairs to Town property from January 1, 2021 through June 10, 2022. In addition, the Town did not have a written contract with either vendor. Since the Town did not provide budgetary statements as required by law for FY 2021 and FY 2022, as described in the first finding, it appears the Mayor did not have the authority to incur these expenses and may have violated state law by making such payments.
- 4) Employees Paid for Leave Hours Not Accrued: Full-time Town employees accrue sick leave, vacation leave, and personal days. Two Town employees were paid for leave they did not accrue at June 10, 2022. By approving employee leave and authorizing payments to employees for leave they did not accrue, Mayor Millican may have violated the state constitution and state law.
- 5) Potential Violation of Open Meetings Law: Mayor Millican and the Town Council supposedly met for "working meetings" on multiple occasions; however, the Town could not produce written minutes for these board meetings. By conducting public meetings, but not properly maintaining meeting minutes, the Town may have violated state law.

### 2022-5: Filing of Audit Report:

The audit report was not submitted to the Legislative Auditor within 180 days of the close of the entity's fiscal year as required by state statute.

### **SCHEDULE OF PRIOR YEAR FINDINGS**

### FOR THE YEAR ENDED DECEMBER 31, 2022

2021-1: Accounting Staff:

Status: Unresolved – repeated as 2022-1.

2021-2: Budget Variance:

Status: Partially Resolved – repeated as 2022-2.

2021-3: Internal Control over Accounts Payable:

Status: Partially Resolved – repeated as 2022-3.

# MANAGEMENT'S CORRECTIVE ACTION PLAN FOR CURRENT YEAR FINDINGS FOR THE YEAR ENDED DECEMBER 31, 2022

- 2022-1: The Town has hired an outside CPA to propose certain year-end adjustments and to assist in the preparation of the Town's annual financial statements. This will provide the Town with the proper tools needed for the preparation of the annual financial statements in accordance with generally accepted accounting principles.
- 2022-2: The Town will set into place procedures to ensure all required budgets are legally enacted prior to the due date.
- 2022-3: Internal Control over Accounts Payable/Disbursements:

The Town is working diligently with outside CPA to create and implement policies and procedures to correct internal control issues within the accounts payable process.

### 2022-4: LLA Investigative Report:

- 1) We will be working more closely with the Town Attorney going forward to ensure that we meet every requirement for adopting a proper budget. I will also be working with our new Town Clerk to see that proper records are kept documenting our compliance.
- 2) Since we met with Auditor staff, the Town has established a separate bank account for the remaining ARP A funds to better ensure the funds are only used for proper expenditures. I have repaid the ARP A money I received, and we are working to recover all the rest of the ARP A money paid to other elected officials. We are also going through our records to determine whether our employees were eligible to receive supplemental pay from ARPA funds to determine how much, if any, must be recovered from those payments.
- 3) We are currently working to address this by a budget amendment to reconcile the deficits going forward, which the Mayor hopes to introduce at our June 13, 2023, meeting. The Town will also be entering contracts with all outside vendors going forward and will provide them with specific work orders for each job. Additionally, we have established a budget committee made up of the Mayor, two council members, the Town Clerk, and the Police Chief, to address budget amendments going forward.
- 4) The Town has implemented new procedures for approving leave. Employees must request personal or vacation leave two (2) weeks in advance, so that the Town Clerk can verify eligibility for leave using the Town's new timekeeping software TimelPS, which automatically determines how much time each employee has accrued. We believe that this new software and the new procedures will prevent us from improperly paying employees for unaccrued leave going forward.
- 5) Since meeting with Auditor staff, we have begun consulting with our Town Attorney before scheduling any special meeting of our Town Council, to ensure that every meeting is properly noticed and held in accordance with the Open Meetings Law.

### MANAGEMENT'S CORRECTIVE ACTION PLAN FOR CURRENT YEAR FINDINGS FOR THE YEAR ENDED DECEMBER 31, 2022

### 2022-5: Filing of Audit Report:

The 2022 audit report was not finalized until September 2023. Management intends to continue to utilize the assistance of an outside CPA to aid the Town in making procedural changes in the accounting department to strengthen internal and management controls to help complete the audit process timely.
