## Independent Auditor's Report

Honorable Jayson Richardson  
DeSoto Parish Sheriff  
Mansfield, Louisiana

### Report on the Audit of the Financial Statements

#### Opinions

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the DeSoto Parish Sheriff (the "Sheriff"), Mansfield, Louisiana, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents.

In our opinion, based on our audit, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the DeSoto Parish Sheriff as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Sheriff and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

The Sheriff's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sheriff's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sheriff's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplemental Information**

Accounting principles generally accepted in the United States of America require that the information listed in the table of contents as Required Supplemental Information Part 1 and Part II be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Supplemental Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the DeSoto Parish Sheriff's basic financial statements. The information listed in the table of contents as Other Supplemental Information is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Other Supplemental Information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplemental Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2024, on our consideration of the DeSoto Parish Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering DeSoto Parish Sheriff's internal control over financial reporting and compliance.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This Management Discussion and Analysis document introduces the Sheriff's basic financial statements. The basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The basic financial statements include two kinds of financial statements that present different views of the Sheriff -- Fund Financial Statements and Government-Wide Financial Statements. The Notes to the Financial Statements explain some of the information in the financial statements and provide additional detail. This report also contains additional required supplementary information (budgetary schedule) and other supplementary information in addition to the basic financial statements. These components are described below.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Sheriff uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Sheriff's most significant funds rather than the Sheriff as a whole.

*Governmental funds* are reported in the governmental fund financial statements and encompass the same function reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the Sheriff's governmental funds, including object classifications. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. The basic governmental fund financial statements are presented in the first three columns of the basic financial statements in this report.

The Sheriff maintains five governmental funds: the General Fund and four special revenue funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund which is classified as a major fund. Data from the other non-major governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The DeSoto Parish Sheriff adopts an annual appropriated budget for its general fund. A budgetary comparison statement for the major fund has been provided herein to demonstrate compliance with the budget.

*Fiduciary Funds* are used to account for resources held for the benefit of parties outside the government. All of the fiduciary funds of the Sheriff are custodial in nature. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the DeSoto Parish Sheriff. The Sheriff's Fiduciary Funds report taxes collected for other taxing bodies, deposits held pending court action, and the individual prison inmate accounts.

#### Government-Wide Financial Statements

The Sheriff's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the Sheriff's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds. These statements report all revenues and expenses connected with the year--even if cash has not been received or paid--and includes all assets of the Sheriff as well as liabilities (long-term debt). Additionally, certain eliminations have occurred as prescribed by GASB 34 in regard to interfund activity, payables, and receivables. The following two statements report the Sheriff's *net position* and changes in them. The Sheriff's net position--the difference between assets and liabilities--can be thought of as one way to measure the Sheriff's financial health, or *financial position*.

- **Statement of Net Position.** This is the government-wide statement of position presenting information that includes all of the Sheriff's assets and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Sheriff as a whole is improving or deteriorating. Evaluation of the overall health of the Sheriff would also extend to other non-financial factors such as diversification of the taxpayer base, in addition to the financial information provided in this report.
- **Statement of Activities.** This reports how the Sheriff's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the Sheriff's distinct activities or functions on revenues provided by the Sheriff's taxpayers.

The government-wide financial statements present governmental activities of the Sheriff that are principally supported by property and sales taxes. The sole purpose of these governmental activities is public safety. The government-wide financial statements are presented in the last column of these reports.

#### Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

## Required Supplemental Information

The basic financial statements and accompanying notes are followed by a section of required supplementary information concerning the Sheriff's retiree health benefits, pension plan contributions, and budget.

## Other Supplemental Information

Following the required supplementary information is supplementary information including a combining balance sheet for other governmental funds, and a combining statement of revenues, expenditures and changes in fund balances for other governmental funds. A combining schedule of Fiduciary Net Position and a combining schedule of changes in fiduciary net position. The schedule of compensation, benefits and other payments to agency head or chief executive officer is presented to fulfil the requirements of Louisiana Revised Statute 24:513(A)(3). The justice system funding schedule – collecting/disbursing entity is presented to fulfil the requirements of Louisiana Revised Statute 24:515.2. The annual reporting requirement of sheriff as ex officio tax collector is required by the Louisiana Legislative Auditor.

### *Revenues*

The Sheriff is heavily reliant on sales and property taxes to support operations. Sales tax revenue dedicated to personnel salaries provided \$8,709,949 (35.17%) of revenue during the current fiscal year. This was an increase of \$2,605,921 (42.69%) over the year ended June 30, 2022. Property taxes provided \$9,606,566 (38.79%) of the Sheriff's total revenues during the current fiscal year. \$19,706,528 (79.57%) of total revenue was derived from general revenues including property and sales tax, video poker, state revenue sharing, interest, and miscellaneous. This compares to general revenues of \$16,210,485 (78.68%) in June 30, 2022.

Note that program revenues covered 23.81% of the government's operating expenses for year end June 30, 2023, compared to 24.28% for the year ended June 30, 2022. This means that the government's taxpayers and the Sheriff's other general revenues funded 76.19% of its operations during the year ended June 30, 2023 and 75.72% for year ended June 30, 2022.

Interest earnings of \$1,089,789 were generated to support governmental activities for year ended June 30, 2023, an increase of \$981,169 over prior year amounts. This increase is the result of higher interest rates experienced during the fiscal year.

### *Functional Expenses*

The total function of the Sheriff's office is public safety-law enforcement activities. Of the total costs, depreciation and amortization on capital assets was \$1,743,731 or 8.20% of total expenses.

## **FINANCIAL ANALYSIS OF THE INDIVIDUAL FUNDS**

### General Fund--Major Governmental Fund

The General Fund is the Sheriff's primary operating fund and the largest source of day-to-day service delivery. The General Fund's 2023 fund balance increased by \$4,371,933. Overall, revenues from all sources increased \$4,186,739 (20.39%) for the year but the increase is primarily the result of the increase in sales taxes of \$2,605,921 (42.69%). Expenditures reflect an increase of \$575,824 over last year, or about 2.91%.

### Non-major Governmental Funds

The other non-major funds that the Sheriff's office maintains are those related to DARE, Task Force activities, and Criminal Interdiction. The Tri-Parish Task Force is set up for narcotics investigations and is funded by grants from the three parishes involved and seizure deposits. DARE's primary activities are for the salary and expenses related to a deputy for drug intervention/education for children. The revenue and expenses for this fund have remained fairly constant. The Criminal Interdiction Fund is comprised of monies released that were held from drug seizures.

The non-major Special Revenue Funds' revenues (detailed in Schedule 6 as Other Supplemental Information) increased by \$13,963 over 2022 and expenditures decreased by \$112,194. Along with operating transfers the net effect was a fund balance increase of \$122,834 for 2023 versus the 2022 net decrease of \$13,323.

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

Budgetary integration is employed as a management control device during the fiscal year. The budget policy of the Sheriff complies with state law, as amended, and as set forth in the Louisiana Revised Statutes Title 39, Chapter 9, Louisiana Local Government Budget Act (LSA--R.S. 39:1301 seq.). The Sheriff did not amend the original budget during the year.

Actual revenues available for expenditure were \$5,568,033 (29.08%) more than originally budgeted. Actual expenditures were \$45,225 (0.22%) less than the final budgeted amounts.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### Capital Assets

The Sheriff's investment in capital assets, as of June 30, 2023, was \$22,076,002, net of accumulated depreciation and amortization of \$9,738,733, leaving a book value of \$12,337,269. This investment in capital assets consists of safety equipment, vehicles, office furniture and equipment, farm, training and communications equipment, buildings and improvements, and computer hardware, and software, and right-of-use assets. During the current year, the Sheriff implemented Government Accounting Standards Board Statement No. 96, subscription based information technology arrangement assets (SBITA's). This increased beginning net capital assets \$404,584 as a result of adding SBITA's with effective dates prior to the beginning of the fiscal year. Investment in capital assets decreased \$188,591 from the prior year balance of \$12,525,860 (restated).

Additions to capital assets during year ended June 30, 2023, communication, safety, farm, and office equipment purchases of \$178,983 and \$605,207 to upgrade 3 communication towers. Additionally, one new SBITA right-of-use asset was recognized with a fair value of \$803,350. Depreciation and amortization charges for the current fiscal year totaled \$1,743,731 compared to \$1,959,816 (restated) in the prior year.

At June 30, 2023, the depreciable capital assets for governmental activities were 45% depreciated versus 42% for the prior year. This comparison indicates that the Sheriff is replacing his assets at a steady rate. This percentage is a positive indicator.

### Debt

At year end, the Sheriff's long-term debt is due to employees for uncompensated earned absences and for accrued health care and life insurance benefits, pension benefits for retirees and recognized right-of-use lease liabilities and SBITA liabilities.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The annual budget is developed to provide efficient, effective, and economic uses of the Sheriff's resources, as well as a means to accomplish the highest priority objectives. Through the budget, the Sheriff sets the direction of the department, allocates its resources, and establishes its priorities. Due to the COVID-19 pandemic, the United States has experienced volatile economic conditions and disruption of general business activities. The Sheriff has experienced impacts from the pandemic resulting in increased costs for vehicles and equipment. The following economic factors were considered when the budget for the fiscal year end June 30, 2024, was prepared.

- Property tax revenues are conservatively expected to remain constant with the prior year.
- Sales taxes will remain steady or be down compared to the prior year.
- The increased costs experienced during the last few years are expected to level off during the year.
- The Sheriff will begin the process of planning and constructing a new jail.

For the year ending June 30, 2023

**Fund Financial statements excess of revenues over expenditures** \$ 4,494,767

Governmental funds report capital outlays as expenditures because such outlays use current financial resources. However, for governmental activities those capital outlays are reported in the Statement of Net Position and are allocated over their useful lives in the Statement of Activities.

| Depreciation and amortization expense | <u>(1,743,731)</u> | (156,191) |

In the Statement of Activities, the gain on the disposal of fixed assets is reported; whereas, in the governmental funds, the proceeds from the disposal increase financial resources.

In the Statement of Activities, certain operating expenses, are measured by the the amounts accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amounts actually paid.

Because of the timing of actual receipt, some revenues are not considered "available" to pay current obligations and are not reported in the governmental funds. They are, however, reported in the Statement of Activities.

## **NOTES TO FINANCIAL STATEMENTS**

**DESOTO PARISH SHERIFF**  
Mansfield, Louisiana  
**NOTES TO THE FINANCIAL STATEMENTS**  
June 30, 2023

---

**INTRODUCTION**

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the Sheriff serves a four-year term, as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The Sheriff also administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas. As the ex-officio tax collector of the parish, the Sheriff is responsible for the collection and distribution of ad valorem property taxes, state revenue sharing funds, along with fines, court costs, and bond forfeitures imposed by the district court.

The Sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The Sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs, anti-drug abuse programs, and other programs, et cetera. Additionally, the Sheriff, when requested, provides assistance to other law enforcement agencies within the parish.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Basis of Presentation**

The accompanying basic financial statements of the DeSoto Parish Sheriff (the Sheriff) have been prepared in conformity with generally accepted accounting principles (GAAP) in the United States of America. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, issued in June 1999. The Basic Financial Statements consist of Government-wide Financial Statements, including a Statement of Net Position and a Statement of Activities, and Fund Financial Statements, which provide more detailed level of financial information.

The significant accounting and reporting policies and practices used by the Sheriff are described below.

**B. Reporting Entity**

Governmental Accounting Standards Board Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. Oversight responsibility is determined on the basis of appointment of governing body, ability to significantly influence operations, accountability for fiscal matters, and the nature and significance of an organization's relationship with the primary government. Considering the foregoing criteria, the DeSoto Sheriff is deemed to be a separate reporting entity. The accompanying financial statements present information only on the funds maintained by the Sheriff. There are no component units to be included in the Sheriff's reporting entity.

For financial reporting purposes, the Sheriff's basic financial statements include all funds and activities that are controlled by the Sheriff as an independently elected parish official. The Sheriff is solely responsible for the operations of his office, which include the hiring and retention of employees, authority over budgeting, responsibility for deficits, and the receipt and disbursement of funds. Although the DeSoto Parish Police Jury maintains and operates the building in which the Sheriff's office is located and pays the costs associated with the jail as required by Louisiana law, the Sheriff is financially dependent. Accordingly, the Sheriff is a primary government for reporting purposes.

**C. Fund Accounting**

The Sheriff uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Sheriff functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public as opposed to proprietary funds where the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. The emphasis of fund financial statements is on major funds, each displayed in a separate column.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Basis of Accounting/Measurement Focus**

**Governmental Fund Financial Statements**

The columns labeled Governmental Funds Financial Statements for the General Fund and Nonmajor Funds in Statements A and B are accounted for using a current financial resources measurement focus. With this measurement focus only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of Sheriff operations.

The amounts reflected in the General Fund and Nonmajor Funds of Statements A and B use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally received within 60 days after year-end) are recognized when due. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

A fund is considered major if it is the primary operating fund of the Sheriff or its total assets, liabilities, revenues, or expenditures of the individual governmental fund is at least 10 percent of the corresponding total for all governmental funds. Nonmajor funds are aggregated and presented in a single column.

The Sheriff reports the following governmental funds:

General Fund. The general fund, as provided by Louisiana Revised Statute 33:1422 is the principal fund and is used to account for the operations of the Sheriff's office. The Sheriff's primary source of revenue is an ad valorem tax and sales tax levied by the law enforcement district. Other sources of revenue include commissions on state revenue sharing, state supplemental pay for deputies, civil and criminal fees, fees for court attendance and maintenance of prisoners, and various other reimbursements, fees, grants, and commissions. General operating expenditures are paid from this fund.

Special Revenue Funds. Special revenue funds are used to account for the proceeds of specific revenue sources such as federal, state, and local grants. Those revenues are legally restricted, either by tax proposition or grant agreement, to expenditures for specified purposes. Per criteria for Fund Financial Statements below, these funds are presented as nonmajor funds in the governmental fund financial statements.

The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes and the related state revenue sharing are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

Sales tax revenues are recorded in the period in which the underlying exchange has occurred. Gaming tax revenues are recorded in the period in which the exchange transactions on which the tax is imposed occur. Fines, forfeitures, fees and court costs are recognized in the period they are released for distribution by the Courts.

Federal and state entitlements are recorded as unrestricted grants-in-aid when available and measurable. Revenue from federal and state grants is recognized when all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when resources are required to be used or the year when use is first permitted; matching requirements in which the Sheriff must provide local resources to be used for a specified purpose; and expenditure requirements in which the resources are provided to the Sheriff on a reimbursement basis.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Basis of Accounting/Measurement Focus (continued)**

Interest earnings on deposits are recorded when earned.

Those revenues susceptible to accrual are sales taxes, property taxes, grants, contracts, interest revenue and charges for services. Substantially all other revenues, including fines, forfeitures, and commissions, are not susceptible to accrual because generally they are not measurable until received in cash.

**Expenditures**

Salaries and related benefits are recorded when employee services are provided. Purchases of various operating supplies are recorded as expenditures in the accounting period in which they are purchased. Substantially all other expenditures are recognized as expenditures when the related fund liability has been incurred.

Transfers between funds that are not expected to be repaid, sales of assets and compensation for loss of assets are accounted for as other financing sources (uses). These other sources (uses) are recognized at the time the underlying events occur.

**Government-Wide Financial Statements**

The column labeled Statement of Net Position (Statement A) and the column labeled Statement of Activities (Statement B) display information about the Sheriff as a whole. These statements include all the financial activities of the Sheriff. Information contained in these columns reflect the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed).

Program revenues include fees and charges paid by the recipients of services offered by the Sheriff, and grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fiduciary Fund Financial Statements**

Fiduciary fund financial statements include a Statement of Fiduciary Assets and Liabilities – Custodial Funds and a Statement of Changes in Fiduciary Net Position – Custodial Funds. The only funds accounted for in this category by the Sheriff are custodial funds. The custodial funds account for assets held by the Sheriff as an agent for various taxing bodies (tax collections), individuals, and for deposits held pending court action. These funds do not involve measurement of results of operations. Consequently, the custodial funds have no measurement focus, but use the accrual basis of accounting. Data from the fiduciary funds is not incorporated in the government-wide financial statements.

**E. Cash and Cash Equivalents**

Cash and cash equivalents includes cash on hand, amounts in demand deposits, interest-bearing demand deposits, money market accounts, time deposits (certificates of deposit), and short-term, highly liquid investment with original maturities of ninety (90) days or less when purchased. Under state law, the Sheriff may deposit funds with a fiscal agent organized under the laws of Louisiana, the laws of any other state in the union, or the laws of the United States. The Sheriff may invest in United States bonds, treasury notes and bills, government-backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local Louisiana governments are authorized to invest in the Louisiana Asset Management Pool, Inc. (LAMP), a non-profit corporation formed by an initiative of the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool.

**F. Accounts Receivable**

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Major receivables for the governmental activities include ad valorem taxes, sales tax, fees for services, and other intergovernmental revenues. All receivables are current and therefore due within one year. Allowances are reported when accounts are proven to be uncollectible.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**G. Capital Assets, Right-of-Use Assets, Depreciation and Amortization**

Capital assets which include property, plant, equipment, and right-of-use assets are reported in the government-wide financial statements. The Sheriff recognizes all leases and subscription-based information technology arrangements (SBITAs), over one year in term, with a present value of future lease payments exceeding \$7,500, as right-of-use assets. For recognized right-of-use assets, the present value of future agreement payments are capitalized and amortized over the terms of the agreements. All other capital assets, excluding land, are depreciated using the straight-line method over their estimated useful lives ranging from three to forty years depending upon the expected durability of the particular asset. Depreciation and amortization of capital assets is recorded as an expense in the statement of activities. Capital assets are recorded in the statement of net position.

All purchased and constructed capital assets are valued at historical cost or estimated cost if historical cost is not available. Donated capital assets are valued at their estimated fair value at the date of donation. The Sheriff maintains a threshold level of \$5,000 or more for capitalizing purchased and constructed capital assets for reporting purposes.

Assets reported in the fund financial statements for governmental funds exclude capital assets. The governmental funds financial statements report the acquisition of capital assets as expenditures.

**H. Prepaid Expenses**

Payments made to vendors for services or supplies that will benefit periods beyond June 30, 2023, are recorded as prepaid expenses.

**I. Compensated Absences**

The Sheriff has the following policy relating to vacation, sick leave, and compensatory time:

After one year of service, all regular, full-time employees are granted 10 days of vacation leave each year. With 12 years plus continuous service, employees are granted 15 days vacation each year. Vacation leave may be accumulated and carried forward to succeeding years. Upon termination of employment, employees are paid for up to 160 hours of accumulated vacation leave. Non-administrative employees are eligible for compensatory time in lieu of overtime at a rate of one and one-half hours for each hour worked in excess of 86 hours in a 14 day work period. Employees may accrue up to 60 hours of compensatory time as approved by an immediate supervisor. Additional compensatory time, up to 480 hours, must be approved by the Sheriff prior to being worked. Employees shall be compensated for any unused compensatory time at the time of termination of employment. Sick leave is granted on a case-by-case basis, at the discretion of the Sheriff. The Sheriff's recognition and measurement criterion for compensated absences is as follows: For vacation leave and compensatory time a liability is accrued as benefits are earned by the employees. Sick leave is not accrued.

**J. Unavailable Ad Valorem Taxes**

Under the modified accrual basis of accounting, the Sheriff's governmental funds will not recognize revenue until they are available (collected not later than 60 days after the Sheriff's yearend). Accordingly, ad valorem taxes assessed yet paid under protest are reported as unavailable revenues in the governmental funds balance sheet only.

**K. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. In addition to liabilities, the statement of financial position reports a separate section for Deferred Inflows of Resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Sheriff recognizes differences between expected and actual factors in total pension liability measurements, changes in assumptions about future factors in the total pension liability measurements, and the differences between projected and actual earnings on pension plan investments within these financial statement sections.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**L. Pension Plan**

The Sheriff is a participating employer in a cost-sharing, multiple-employer defined benefit pension plan as described in Note 8. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to / deductions for the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. The financial statements were prepared using the accrual basis of accounting, member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance statutes governing the plan. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments have been reported at fair value within the plan.

**M. Other Postemployment Benefits**

The Sheriff follows GASB Statement 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which requires the accrual of other postemployment benefits for retired employees. The sheriff has recorded a liability for other postemployment benefits (see Note 9). In the government-wide financial statements, the other postemployment benefits liability is recorded as an expense and non-current liability and allocated on a functional basis. In the fund financial statements, other postemployment benefit expenditures are recognized in the amount contributed to the plan or expected to be liquidated with expendable available financial resources. Expendable available financial resources generally refer to other postemployment benefit payments due and payable as of the end of the year.

**N. Interfund Transactions**

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer and is treated as a source of income by the recipient and as an expenditure by the provider. If repayment is expected, these receivables and payables are classified as "Advance to (from) other funds." In preparing the government-wide financial statements, transfers are eliminated to present net transfers for governmental activities. In addition, interfund receivables and payables are eliminated to present a net balance for each type of activity.

**O. Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those amounts.

**P. Equity**

*Net Position*

In the government-wide financial statements equity (the difference between assets and liabilities) is classified as net position and is reported in three components:

- a. Net Investment in capital assets--Consists of capital assets including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position--Consists of net position with constraints placed on the use by (1) external groups, such as creditors, grantors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position--Consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

The Sheriff's policy is to consider restricted net position to have been depleted before unrestricted net position is applied.

*Fund Balances*

As required by GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," this Statement provides clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable*--Amounts that are not in spendable form (such as prepaid expenses) because they are legally or contractually required to be maintained intact.
- *Restricted*--Amounts constrained to specific purposes by their providers (such as grantors or higher levels of government).
- *Committed*--Amounts constrained by the Sheriff himself. To be reported as committed, amounts cannot be used for any other purpose unless the Sheriff takes the action to remove or change the constraint.
- *Assigned*--Amounts the Sheriff intends to use for a specific purpose.
- *Unassigned*--All amounts not included in other spendable.

At June 30, 2023, \$26,646 was non-spendable prepaid expenses; \$12,347 was restricted by the grantor; \$190,375 was assigned; and \$60,482,158 was unassigned.

The Sheriff would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

**Q. Risk Management**

The Sheriff is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, and injuries to employees. To handle such risk of loss, the Sheriff maintains commercial insurance policies covering: automobile liability, medical payments, uninsured motorist, and collision; health insurance providing 100 percent coverage for any employee injured while on the job; and surety bond coverage. The Sheriff also maintains a Louisiana Sheriffs' Risk Management Program liability insurance policy. No claim has been paid on the policy during the past three years nor is the Sheriff aware of any unfiled claims.

**2. LEVIED TAXES**

*Ad valorem taxes:*

The Sheriff was authorized 13.20 ad valorem tax millage and levied mills of 13.20 mills for 2022. Ad valorem taxes are recorded in the year the taxes are assessed. Total assessed value in the parish was \$773,117,048 in 2022. The amount of ad valorem tax collections recognized for the year ending June 30, 2023 was \$9,606,566. **2. LEVIED TAXES (continued)**

*Ad Valorem Taxes Paid Under Protest*

Louisiana Revised Statute 47:1576 provides that taxpayers, at the time of payment of all taxes due, may give notice to the tax collector of their intention to file suit for recovery of all or a portion of the total taxes paid. Upon receipt of a notice, the amount paid shall be segregated and held by the tax collector for a period of thirty (30) days if a suit is filed with thirty (30) days, the segregated funds shall be held pending outcome of the suit. If the taxpayer prevails, the tax collector shall refund the amount due with interest from the date the funds were received by the tax collector. For the year ended June 30, 2022, there was no taxes paid under protest and escrowed.

*Ad Valorem Tax Abatement and Homestead Exemption*

The Louisiana Industrial Ad Valorem Tax Exemption program (Louisiana Administrative Code, Title 13, Chapter 5) is a state incentive program which abates, up to ten years, local ad valorem taxes on a manufacturer's new investment and annual capitalized additions related to the manufacturing site. Applications to exempt qualified property for five years are approved by the Louisiana Economic Development's Board of Commerce and Industry. The exemption may be renewed for an additional five years. Under state law, the first \$75,000 of assessed value of your primary residence is exempt from ad valorem taxation. For the fiscal year ending June 30, 2022, approximately \$308,091 in potential Sheriff ad valorem tax revenues were abated by the state of Louisiana through the Louisiana Industrial Ad Valorem Tax Exemption program and \$600,313 homestead exempted.

*Sales Taxes:*

DeSoto Parish passed a one-half of one percent (1/2%) sales and use tax on July 17, 2004. Collection of the tax began October 1, 2004. These funds are dedicated to paying salaries and benefits for the law enforcement personnel of the Sheriff. The amount of sales tax collected for year ended June 30, 2023, was \$8,709,949.

**3. CASH, CASH EQUIVALENTS, AND INVESTMENTS**

*Cash and Cash Equivalents:*

At June 30, 2023, the Sheriff has cash and cash equivalents in interest bearing and non-interest bearing accounts and amounts on deposit with LAMP totaling \$55,188,075 (book balance) as follows:

|                                  | Government<br>Funds  | Fidiciary<br>Funds | Total                |

| Categorized bank deposits        | <u>\$ 55,602,123</u> | <u>\$ 292,179</u>  | <u>\$ 55,894,302</u> |

*Investments:*

At June 30, 2023, the Sheriff has investments consisting exclusively of certificates of deposit (CDs) with maturities of one year or less totaling \$4,316,314 (book balances).

Cash and Investment Valuation. The CDs are stated at cost, which approximates fair value. Deposits in LAMP are stated at fair value based upon quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

The cash and investments of the Sheriff are subject to the following risks:

*Custodial Credit Risk:* Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must always equal or exceed the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

**DESOTO PARISH SHERIFF**  
Mansfield, Louisiana  
**NOTES TO THE FINANCIAL STATEMENTS**  
June 30, 2023

**3. CASH, CASH EQUIVALENTS, AND INVESTMENTS (continued)**

Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Sheriff that the fiscal agent bank has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Sheriff's name.

At year end, the Sheriff had collected bank balances of \$60,017,692 which were fully protected by \$1,164,390 of federal depository insurance and pledged securities with a market value of \$68,739,873 held by the custodial banks in the name of the Sheriff.

*Interest Rate Risk:* This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity its fair value is to changes in market interest rates. The Sheriff does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, as a means of offsetting exposure to interest rate risk, the Sheriff diversifies its investments by security type and institution.

*Credit Risk:* Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. The Sheriff's investments comply with Louisiana Statutes (LSA R.S. 33:2955). Under state law, the DeSoto Sheriff may deposit funds with a fiscal agent organized under the laws of Louisiana, the laws of any other state in the union, or the laws of the United States. The Sheriff may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

At June 30, 2023, \$706,227 is invested with the Louisiana Asset Management Pool (LAMP), a local government investment pool rated AAA by Standard and Poor's. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955. LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP, Inc. is not registered with the SEC as an investment company. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. Thus, LAMP balances are classified as a cash equivalent.

**7. DEFERRED COMPENSATION**

Certain employees of DeSoto Parish Sheriff participate in the Louisiana Public Employees Deferred Compensation Plan adopted under the provisions of the Internal Revenue Code Section 457. Complete disclosures relating to the Plan are included in the separately issued audit report for the Plan, available from the Louisiana Legislative Auditor, P. O. Box 94397, Baton Rouge, Louisiana 70804-9397.

**8. PENSION PLAN**

*Plan Description.* Substantially all employees of the Sheriff's office are members of the Louisiana Sheriffs' Pension and Relief Fund (Fund), a cost-sharing, multiple-employer defined benefit pension plan established in accordance with the provisions of Louisiana Revised Statute 11:2171 to provide retirement, disability and survivor benefits to employees of sheriffs' offices throughout the state, employees of the Louisiana Sheriffs' Association and the Sheriff's Pension and Relief Fund's office. The Sheriffs' Pension and Relief Fund, State of Louisiana, is the administrator of the Fund and is governed by a separate board of trustees.

*Funding Policy.* Contribution requirements for all employers are actuarially determined each year in accordance with state statute. For the year ended June 30, 2022, the actual employer contribution rate was 12.25% with no additional percentage allocated from the Funding Deposit Account. Employee contributions are based on the employee's annual covered salary and are established by the board of trustees. For the year ended June 30, 2022, the employee contribution rate was 10.25%.

The Sheriff's contributions to the System which also include the employee's portion are as follows:

|                             | 2023                | 2022                | 2021                |
|-----------------------------|---------------------|---------------------|---------------------|
| Employee portion            | \$ 1,060,446        | \$ 1,047,255        | \$ 1,034,617        |
| Employer contributions      | 1,189,768           | 1,251,564           | 1,236,494           |
| Total pension contributions | <u>\$ 2,250,214</u> | <u>\$ 2,298,819</u> | <u>\$ 2,271,111</u> |

In accordance with state statute, the Fund receives ad valorem taxes, insurance premium taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities but are not considered special funding situations. Non-employer contributions are recognized as revenue and excluded from pension expenses. Non-employer contributions of \$636,822 were recorded for the year ended June 30, 2023, in the government-wide statements.

If a member dies with no surviving spouse, surviving children under age eighteen will receive monthly benefits of 15% of the member's final average compensation up to a maximum of 60% of final average compensation if there are more than four children. If a member is eligible for normal retirement at the time of death, the surviving spouse received an automatic option 2 benefit. A member elects Back-DROP at the time of separation from employment (retirement). The Back-DROP benefit is based on the Back-DROP period selected and the final average compensation prior to the period selected. The Back-DROP period is the lesser of three years or the service time accrued between when a member first becomes eligible for retirement and his actual date of retirement. For those individuals with thirty or more years,

the Back-DROP period is the lesser of four years or service time accrued between when a member becomes eligible for retirement and his actual date of retirement. A member's Back-DROP benefit is the maximum monthly retirement benefit multiplied by the number of months in the Back-DROP period. In addition, the member's Back-DROP account will be credited with employee contributions received by the Fund during the Back-DROP period. The member's DROP and Back-DROP balances left on deposit are managed by a third party, fixed income investment manager. Participants have the option to opt out of this program and take a lump sum distribution, if eligible, annuitize all or a portion of the Back-DROP balance, or to rollover the assets to another qualified plan.

*Permanent Benefit Increases/Cost of Living Adjustments.* As fully described in Title 11 of the Louisiana Revised Statutes, the Fund allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), which are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature. Members are eligible to receive a cost-of-living adjustment once they have attained the age of sixty and have been retired at least one year. Funding criteria for granting cost-of-living adjustments is dependent on the funded ratio.

| Cost of Living Adjustments       | The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost-of-living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.  |

The mortality rate assumptions were set after reviewing an experience study performed over the period July 1, 2014 through June 30, 2019. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Estimates of arithmetic real rates of return for each major asset class based on the Fund's target asset allocation as of June 30, 2022 are as follows:

| Asset Class                        | Long-Term Expected Rate of Return |                              |  |

**8. PENSION PLAN (continued)**

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Sheriff calculated using the discount rate of 6.85%, as well as what the Sheriff's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

|                       | Changes in Discount Rate |               |             |
|-----------------------|--------------------------|---------------|-------------|

Change in Net Pension Liability

The changes in the net pension liability for the year ended June 30, 2022 were recognized in the current reporting period as pension expense except as follows:

*Differences between Expected and Actual Experience.* The differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized as pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

*Differences between Projected and Actual Investment Earnings.* The differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period.

*Changes in Assumptions.* The changes in assumptions about future economic or demographic factors were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

*Changes in Proportion.* Changes in the employer's proportionate shares of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

*Contributions—Proportionate Share.* Differences between contributions remitted to the Fund and the employer's proportionate share are recognized in pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan.

**12. COMMITMENTS AND CONTINGENCIES**

*Lawsuits.* At June 30, 2023, the Sheriff was a defendant in lawsuits principally arising from the normal course of operations. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Sheriff and legal counsel, resolution of these matters would not create a liability in excess of insurance coverage that would have a material adverse effect on the financial condition of the Sheriff.

*Grants.* The Sheriff receives grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could result in a request for reimbursement for disallowed costs under the terms of the agreements. In the opinion of management, such disallowance, if any, would be insignificant.

*Cooperative Endeavor Agreements:*

On August 27, 2019, the Sheriff entered into a cooperative endeavor agreement with the DeSoto Parish Police Jury, as governing authority of the DeSoto Parish Communications District (E911) to provide all 911 communications and general operations personnel necessary to facilitate all 911 communications operations, excluding overhead functions paid by the Police Jury for \$785,000 per year paid quarterly.

On January 14, 2019 the Sheriff entered into a cooperative endeavor agreement with the DeSoto Parish EMS to provide adequate dispatching services (4 full-time employees) for an annual sum of \$275,000, paid quarterly.

During 2019, the Sheriff entered into a cooperative endeavor agreement with six Desoto Parish Fire Districts to provide adequate dispatching services (4 full-time employees) for their entities for an annual sum of \$275,000, paid quarterly. The amounts proportionate share for each district was based on their 2018 millage revenues. This agreement was updated on July 1, 2020 with the same terms.

On November 18, 2019, the Sheriff entered into a cooperative endeavor agreement with the DeSoto Parish Police Jury to provide 1,430 square feet of office space, suitable parking, and access to common areas in the Sheriff annex building in Stonewall (1746 Highway 171) for a term of 99 years. In return, the DeSoto Parish Police Jury paid \$100 per square foot (\$143,000), provides their necessary fixtures, furnishings, and equipment, pays for their own utility costs, and financially participates in maintenance and repairs.

On April 5, 2019, the Sheriff entered into a cooperative endeavor agreement with the Town of Stonewall, Louisiana, to provide 2,287 square feet of office space and access to a shared assembly room in the Sheriff annex building in Stonewall (1746 Highway 171) for a term of 99 years. In return, the Town of Stonewall paid \$100 per square foot (\$228,700), provides their necessary equipment, and pays for their own utility costs.

**13. TAXES PAID UNDER PROTEST**

The liability held for others pending court action, in the Tax Collector custodial fund at June 30, 2023, reflects taxes paid under protest, plus interest earned to date on these funds. These funds are held pending resolution of the protest.

**14. RELATED PARTY TRANSACTIONS**

Procedures, observations, and inquiries did not disclose any material related party transactions for the fiscal year ended June 30, 2023.

**15. ON-BEHALF PAYMENTS FOR SALARIES**

The Sheriff recognizes as general fund revenues and expenses, supplemental pay paid by the State of Louisiana to the Sheriff's employees. For year ended June 30, 2023, the state contributed \$699,043.

**16. SUBSEQUENT EVENTS**

Management has performed an evaluation of the Sheriff's activities through February 21, 2024 and has concluded that there were no significant events requiring recognition or disclosure through the date and time these financial statements were available to be issued.

**Mansfield, Louisiana**

**NOTES TO REQUIRED SUPPLEMENTAL INFORMATION**

As of and for the Year Ended June 30, 2023

**Budgetary Information**

The Sheriff's budget is prepared in accordance with accounting principles generally accepted in the United States of America.

The Louisiana Local Government Budget Act provides that "the total proposed expenditures shall not exceed the total of estimated funds available for the ensuing year." The "total estimated funds available" is the sum of the respective estimated fund balances at the beginning of the year and the anticipated revenues for the current year.

The Sheriff exercises budgetary control at the functional level. Within functional levels, the accountant has the authority to make amendments as necessary. Expenditures may not legally exceed appropriations at the fund level. Appropriations that are not expended lapse at year-end. The budget was not amended during the year. The budget comparison schedules present the original adopted budget and the final budget.

Actual revenues exceeded final budgeted revenues by \$5,568,033 (29.08%). Actual expenditures were less than final budgeted expenditures by \$45,225 (0.22%). The Sheriff is in compliance with the Louisiana Local Government Budget Act.

The Sheriff's budget process is as follows:

Proposed budgets, prepared on the modified accrual basis of accounting, are published in the official journal at least 10 days prior to the public hearing. Public hearings are held at the Sheriff's office during the month of June for comments from taxpayers. The budgets are then legally adopted by the Sheriff and amended during the year, as necessary. Budgets are established and controlled by the Sheriff at the object level of expenditure.

Appropriations lapse at year-end and must be reappropriated for the following year to be expended. The Sheriff must approve all changes or amendments to the budget.

Formal budgetary integration is employed as a management control device during the year, and encumbrance accounting is not used by the Sheriff. Budgeted amounts included in the accompanying financial statements include the original adopted budget amounts and the final budget which includes all amendments.

**Pension Information**

The schedule of the Sheriff's proportionate share of the net pension liability and the schedule of the Sheriff's pension contributions are intended to show information for 10 years. Additional years will be displayed as they become available. There were no changes of benefit terms for the year ended June 30, 2023.

**OTHER REPORTS REQUIRED BY  
GOVERNMENT AUDITING STANDARDS**

**Independent Auditor's Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

Honorable Jayson Richardson  
DeSoto Parish Sheriff  
Mansfield, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, general fund and aggregate nonmajor governmental funds and the aggregate remaining fund information of the DeSoto Parish Sheriff as of and for the year ended , and the related notes to the financial statements, which collectively comprise the DeSoto Parish Sheriff's basic financial statements and have issued my report thereon dated February 21, 2024.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the DeSoto Parish Sheriff's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Desoto Parish Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of the DeSoto Parish Sheriff's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the DeSoto Parish Sheriff's, financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2023-01 and 2023-02.

## **DeSoto Parish Sheriff's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Desoto Parish Sheriff's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The DeSoto Parish Sheriff's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the DeSoto Parish Sheriff, management, and the Louisiana Legislative Auditor, and is not intended to be and should not be used by anyone other than these specified parties. However, this restriction is not intended to limit the distribution of this report which is a matter of public record in accordance with Louisiana Revised Statute 44.6 and is distributed by the Louisiana Legislative Auditor under Louisiana Revised Statute 24:513.

***COMPLIANCE AND OTHER MATTERS***

2023-01 Purchasing and Louisiana Public Bid Laws.

Criteria. Louisiana Public Bid Law requires that entities ensure they are receiving the best possible price for public works contracts and for purchasing materials and supplies. Once purchases or contracts exceed a certain contract threshold, they must be bid in accordance with public bid law. Best practices and entity policy also require solicitation of a minimum of 3 quotes for a purchases falling within a lower contract threshold range.

Finding. Sufficient documentation was not maintained to confirm compliance with public bid laws.

Cause. Though formal policies exist, the Sheriff has not established a system for capital outlay purchases that ensures: 1) all purchases are in accordance with public bid law, 2) all required documentation is obtained, and 3) that said documentation is stored and maintained in an organized fashion.

Effect. Purchases could be made that are in violation of public bid laws and Sheriff policies and procedures.

Recommendation. 1) An employee should be assigned responsibility for capital outlay purchases and coordinate with accounting so that all purchases are made in compliance with public bid laws. Further, that employee should ensure that all proper documentation is obtained and maintained in an organized and centralized location.

2023-02. Late Submission of Report

Criteria. Louisiana state law requires that the Sheriff have an annual audit performed and submitted to the Legislative auditor within six (6) months after the close of the fiscal year.

Condition. For the year ended June 30, 2023, the Sheriff did not submit the annual audit within six months after the close of their fiscal year.

Cause. Unknown.

Effect. The Sheriff is not in compliance with state law.

Recommendation. The Sheriff should designate staff to prepare for the annual audit so that audit documentation is prepared and made available to the auditor in a timely manner.

To the Honorable Jayson Richardson,

Louisiana Legislative Auditor:

We have performed the procedures enumerated below, which were agreed to by the DeSoto Parish Sheriff (the Sheriff) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2022, through June 30, 2023.
