INDEPENDENT AUDITORS' REPORT

Board of Commissioners  
St. Mary Parish Consolidated Gravity  
Drainage District No. 1  
Franklin, Louisiana

Opinion

We have audited the accompanying financial statements of the governmental activities and each major fund and the respective budgetary comparison for the General Fund and Capital Maintenance Fund of St. Mary Parish Consolidated Gravity Drainage District No. 1, a component unit of the St. Mary Parish Council, as of and for the year ended September 30, 2022, and the related notes to the financial statements which collectively comprise the St. Mary Parish Consolidated Gravity Drainage No. 1's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position and changes in financial position of the St. Mary Parish Consolidated Gravity Drainage No. 1, as of September 30, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of The Financial Statements section of our report. We are required to be independent of the St. Mary Parish Consolidated Gravity Drainage No. 1. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the St. Mary Parish Consolidated Gravity Drainage No. 1's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the St. Mary Parish Consolidated Gravity Drainage No. 1's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the St. Mary Parish Consolidated Gravity Drainage No. 1's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the Schedule of the District's Proportionate Share of the Net Pension Liability (Asset), the Schedule of District's Contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient appropriate evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that comprise the District's financial statements. The accompanying Schedule of Compensation, Benefits, and Reimbursements to Agency Head, Political Subdivision Head, or Chief Executive Officer are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Requirements by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 27, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with Government Auditing Standards in considering District's internal control over financial reporting and compliance.

ST. MARY PARISH  
CONSOLIDATED GRAVITY DRAINAGE DISTRICT NO. 1

Notes to the Financial Statements  
September 30, 2022

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

St. Mary Parish Consolidated Gravity Drainage District No. 1 was created by Resolution No. 500 of the St. Mary Parish Police Jury on December 11, 1946. The District encompasses the area in west St. Mary Parish from Calumet, Louisiana to the St. Mary Parish line near Jeanerette, Louisiana. The purpose of the District is to construct and maintain gravity drainage works in the above stated area.

The financial statements of the St. Mary Parish Consolidated Gravity Drainage District No. 1 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

**A. Reporting Entity**

In evaluating how to define the governmental unit, for financial reporting purposes, consideration has been given to the following criteria as set forth in GAAP:

- a. Financial benefit or burden
- b. Appointment of a voting majority
- c. Imposition of will
- d. Fiscally dependent

Based upon the above criteria, the District is a component unit and integral part of St. Mary Parish (the primary government).

These financial statements include only the operations of the District.

**B. Basic Financial Statements - Government-wide Financial Statements**

The government-wide financial statements include the Statement of Net Position and the Statement of Activities which report all activities of the District as a whole. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types." The following is a description of the two funds utilized by the District. The District reports both these funds as major funds.

#### Governmental Fund

##### General Fund

The General Fund is the primary operating fund of the District. The General Fund uses the current financial resources measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available resources during a given period.

##### Special Revenue Fund

The Capital Maintenance Fund, a special revenue fund, is used to account for the amounts contributed by the City of Franklin, the St. Mary Parish Council, and the District that are earmarked for expenditures for operations and maintenance of the Yokely Pump Station.

### D. Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

#### Government-wide Statements

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, all deferred outflows of resources, all liabilities, and all deferred inflows of resources (whether current or non-current) are included on the statement of net position and the statement of activities presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Fund Financial Statements

Governmental fund financial statements are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities, and current deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e. when they both become "measurable and available"). Measurable means the amount can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities (the District uses a thirty day period after year end). Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

#### E. Revenues

The following is a summary of the District's recognition policies for its major revenue sources:

Ad valorem taxes and the related State revenue sharing (which is based on population and homesteads in the Parish) are recorded in the year the taxes are assessed.

Revenues from grants are recognized when management believes all significant applicable grant requirements have been met.

Investment earnings are generally recorded when earned.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Net Pension Liability (Asset) and Deferred Outflows and Inflows of Resources

In a prior year, the District implemented GASB Statement No. 68 "Accounting and Financial Reporting for Pensions ", which establishes accounting and financial reporting by state and local governments for pensions. This pronouncement requires the District to calculate and recognize a net pension liability (asset) and certain deferred outflows and inflows of resources and pension expense. The District is a member of the Parochial Employees' Retirement System of Louisiana – Plan A (PERS-A), a cost sharing multiple employer public employee retirement system. For purposes of measuring its net pension liability (asset), deferred outflows and inflows of resources, and pension expense, the District uses the same basis as PERS-A.

See Note 7 for further details about this pension plan.

G. Budgets

Annual appropriated budgets are adopted for the General Fund and the Capital Maintenance Fund. All annual appropriations lapse at fiscal year end. Budgets are amended when needed upon approval by the Board. In the financial statement budgetary comparison of the budget to actual amounts, both the original and final amended budget amounts are shown.

The General Fund budget is adopted on a non-GAAP basis which is the same as GAAP basis, except for:

	<u>General Fund</u>	Capital Maintenance <u>Fund</u>

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### I. Fixed Assets

The accounting treatment over property, plant, and equipment (fixed assets) depends on whether they are reported in the government-wide or fund financial statements.

#### Government-wide Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. All purchased fixed assets are valued at historical cost. Donated fixed assets are valued at their estimated fair market value on the date received. Fixed assets are reported at their historical cost or estimated fair market value less their accumulated depreciation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation is computed using the straight-line method based on the estimated useful life of the various assets. The following is a summary of estimated useful lives by classification of the fixed assets:

<u>Category</u>	<u>Years</u>
Building and improvement	40
Equipment	5-10
Other infrastructure	10-50

GASB No. 34 required the District to begin reporting and depreciating new infrastructure assets acquired effective with the beginning of the year ended June 30, 2003. Infrastructure assets include the District's drainage systems. The District is allowed but not required to report infrastructure assets (along with applicable depreciation) acquired prior to 2003. In accordance with directives from the Districts' oversight entity the St. Mary Parish Council, the District is not recording any infrastructure acquired prior to 2003.

#### Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operation are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

### J. Equity Classifications

#### Government-wide Statements

Equity is classified as net position and displayed in three components:

- a) Net investment in capital assets - consists of capital assets net of accumulated depreciation and amortization less any debt that remains outstanding that was used to finance those assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- b) Restricted net position - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c) Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements

Governmental fund equity may be classified by five categories; nonspendable, restricted, committed, assigned or unassigned. At present, the District only requires reporting of restricted and unassigned. Restricted represents those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Unassigned represents those portions of fund equity that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purpose within the General Fund.

K. Interfund Transfers

Permanent reallocations of resources between funds of the District are classified as interfund transfers. For the purpose of the Statement of Activities, the interfund transfer between the general fund and the special revenue fund has been eliminated.

During the year, the District transferred \$3,333 from the General fund to the Capital Maintenance fund for their share of the maintenance of the Yokely Pumping Station (See Note 8).

## NOTE 2 - CASH AND CASH EQUIVALENTS

The District does not have a formal investment policy related to interest rate risk (the risk of an investment decreasing in value due to increasing interest rates).

In addition, the District does not have a formal investment policy related to credit risk (including concentrations of credit). However the District does follow state law as to limitations on types of deposits and investments as described below.

The District does not invest in any investments subject to foreign currency risk.

### Cash and cash equivalents

Under state law the District may deposit its funds with certain state and federally chartered financial institutions. These deposits are required to be insured or collateralized by the financial institutions.

At year end 2022, the carrying amount of the District's cash was \$1,736,946 and the bank balance was \$1,744,368, \$500,000 was covered by federal depository insurance and the remaining \$1,244,368 was collateralized with securities held by the financial institution, in the District's name.

## NOTE 3 - TAXES

The District's property tax is levied in October of each year on the assessed value of property within the District's taxing area. Taxes are due and payable by December 31 and taxes are considered delinquent January 1. Notices regarding seizures are sent in April with the seizure date being May 1. The taxes are collected on behalf of the District by the Sheriff and then remitted to the District. The District actually receives most of the taxes in December and January.

#### NOTE 4 - FIXED ASSETS

## NOTE 5 – LEASES

## NOTE 7 – PENSION PLAN

### ***Plan Description***

The District contributes to the Parochial Employees' Retirement System of Louisiana Plan A (PERS-A), a cost sharing multiple-employer public employee retirement system administered by a Board of Trustees. The System was established and provided for by the Louisiana Revised Statutes (LRS).

## NOTE 7 – PENSION PLAN (continued)

### ***Benefits Provided***

PERS-A provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. All permanent employees who work at least 28 hours a week may become members on the date of employment. New employees meeting the age and Social Security criteria have up to 90 days from the date of hire to elect to participate.

### Retirement Benefits

Members can retire providing he/she meets one of the following criteria:

For employees hired prior to January 1, 2007:

1. Any age with thirty (30) or more years of creditable service.
2. Age 55 with twenty-five (25) years of creditable service.
3. Age 60 with a minimum of ten (10) years of creditable service.
4. Age 65 with a minimum of seven (7) years of creditable service.

For employees hired after January 1, 2007:

1. Age 55 with 30 years of service.
2. Age 62 with 10 years of service.
3. Age 67 with 7 years of service.

The monthly retirement allowance consists of an amount equal to three percent of the member's final average compensation multiplied by his/her years of creditable service. However, under certain conditions, as outlined in the statutes, the benefits are limited to specified amounts.

### Survivor Benefits

Upon the death of any member with five or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes. Any member who is eligible for normal retirement at time of death, the surviving spouse shall receive benefits, as outlined in the statutes.

A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve months immediately preceding death of the member, shall be paid benefits beginning at age 50.

NOTE 7 – PENSION PLAN (continued)

Deferred Retirement Option Plan.

Act 338 of 1990 established the Deferred Retirement Option Plan (DROP) for the Retirement System. DROP is an option for members who are eligible for normal retirement. In lieu of terminating employment and accepting a service retirement, members who are eligible to retire may elect to participate in DROP in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the DROP account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in DROP on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the Board of Trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this Plan must agree that the benefits payable to the participant are not the obligations of the state or PERS-A, and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

Disability Benefits.

Members shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and have at least five years of creditable service or if hired after January 1, 2007, have seven years of creditable service, and are not eligible for normal retirement and have been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen years, or three percent multiplied by years of service assuming continued service to age sixty for those members who are enrolled prior to January 1, 2007 and to age sixty-two for those members who are enrolled January 1, 2007 and later.

NOTE 7 – PENSION PLAN (continued)

Cost of Living Increases.

The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1977, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older (RS 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

**Contributions**

According to state statute, contributions for all employers are actuarially determined each year. For the year ended December 31, 2021, the actuarially determined contribution rate was 10.38% of member's compensation. However, the actual rate for the fiscal year ending December 31, 2021 was 12.25%. Contributions to the Pension Plan from the District were \$58,324 for the year ended September 30, 2022.

According to state statute, the System also receives  $\frac{1}{4}$  of 1% of ad valorem taxes collected within the respective parishes. The System also receives revenue sharing funds each year as appropriated by the Legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to the member's compensation. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

NOTE 7 – PENSION PLAN (continued)

***Pension Liabilities (Assets), Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Relate to Pensions***

At September 30, 2022, the District reported a liability (asset) of \$(374,451) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability (asset) was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2021, the District's proportion was 0.079494%, which was an increase of 0.01264% from its proportion measured as of December 31, 2020. For the year ended September 30, 2022, the District recognized pension benefit of \$(58,436). The District recognized revenue of \$6,576 as its proportionate share of non-employer contributions for the year ended September 30, 2022. At September 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$22,624	\$27,139
Change of assumptions	19,528	
Net difference between projected and actual investment earnings on pension plan investments		323,894
Change in proportion and differences between the District's contributions and proportionate share of contributions	10,826	1,257
District's contributions subsequent to the measurement date	<u>48,072</u>	
	<u>\$101,050</u>	<u>\$352,290</u>

The District's amount reported as deferred outflows of revenues from contributions subsequent to the measurement date will be recognized as a reduction of net pension liability (or an increase in net pension asset) in the year ended September 30 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31:

2023	\$ (56,253)
2024	(125,524)
2025	(82,818)
2026	(34,717)

## NOTE 7 – PENSION PLAN (continued)

### **Actuarial Assumptions**

A summary of the actuarial methods and assumptions used in determining the total pension liability as of December 31, 2021, are as follows:

Valuation Date	December 31, 2021
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	6.40% (Net of investment expense)
Expected Remaining Service lives	4 years
Projected Salary Increases	4.75% (2.45% Merit/2.30% Inflation)
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increase not yet authorized by the Board of Trustees.
Mortality	Pub-2010 Public Retirement Plans Mortality Table for Health Retirees multiplied by 130% for males and 125% for females using MP2018 scale for annuitant and beneficiary mortality. For employees the Pub-2010 Public Retirement Plans Mortality Table for General Employees for males and 125% for females using MP2018 scale. Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females using MP2018 scale for disabled annuitants.

The mortality rate assumption used was set based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Healthy Retirees multiplied by 130% for males and 125% for females each with full generational projection using the MP 2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

## NOTE 7 – PENSION PLAN (continued)

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the Capital Asset Pricing Model, (CAPM) (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.10% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 7.00% for the year ended December 31, 2021.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Fixed Income	33%	0.85%
Equity	51%	3.23%
Alternatives	14%	0.71%
Real Assets	2%	0.11%
Totals	100%	4.90%
Inflation		2.10%
Expected Arithmetic Nominal Return		7.00%

### **Discount Rate**

The discount rate used to measure the total pension liability was 6.40%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 7 – PENSION PLAN (continued)

**Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate**

The following presents the net pension liability (asset) of the participating employers calculated using the discount rate of 6.40%, as well as what the employers’ net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower 5.40% or one percentage point higher 7.40% than the current rate:

	1% Decrease <u>(5.40%)</u>	Current Discount Rate <u>(6.40%)</u>	1% Increase <u>(7.40%)</u>
District's Proportionate Share of Net Pension Liability (Asset)	\$66,757	\$(374,451)	\$(744,044)

The Parochial Employees' Retirement System of Louisiana issued a stand-alone audit report on its financial statements for the year ended December 31, 2021. Access to the audit report can be found on the System’s website: [www.persla.org](http://www.persla.org) or on the Office of Louisiana Legislative Auditor’s official website: [www.lla.state.la.us](http://www.lla.state.la.us).

NOTE 8 - COMMITMENTS

The City of Franklin (City), the St. Mary Parish Council (Council), and the District have agreed to set up a fund for maintenance of the Yokely Pumping Station. Each of the three is to place in the Capital Maintenance Fund money in the amount of \$3,333 per year until the amount reaches the sum of \$50,000. At any time the fund falls below \$50,000 each entity is to replenish the fund on the same equal basis up to \$50,000. The District is in charge of overseeing the Capital Maintenance Fund. The Fund is reported in these financial statements as a special revenue fund.

The St. Mary Levee District and the District have entered into an agreement whereas the District is to assist the Levee District with maintenance and oversight of its levees within the District and the Levee District’s boundaries. The Levee District is to pay the District \$2,000 a month to offset the additional burdens on the District’s maintenance supervisor. This is reported as intergovernmental revenue on the financial statements.

## NOTE 9 - RISK MANAGEMENT AND CONTINGENCIES

The District is exposed to various risks of loss related to torts, theft, or damage to assets, errors and omissions, injuries to employees and natural disasters. The District has purchased commercial insurance to protect against loss from substantially all of these perils.

There were no significant reductions in insurance coverages from prior years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS

Board of Commissioners  
St. Mary Parish Consolidated  
Gravity Drainage District No. 1  
Franklin, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the respective budgetary comparisons for the General Fund and Capital Maintenance Fund of the St. Mary Parish Consolidated Gravity Drainage District No. 1, as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the St. Mary Parish Consolidated Gravity Drainage District No. 1's basic financial statements, and have issued our report thereon dated March 27, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the St. Mary Parish Consolidated Gravity Drainage District No. 1's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the St. Mary Parish Consolidated Gravity Drainage District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of the St. Mary Parish Consolidated Gravity Drainage District No. 1's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control

that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying Schedule of Findings as item 2022-001 that we consider to be a material weakness.

#### Compliance and Other Matters

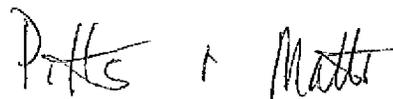

As part of obtaining reasonable assurance about whether the St. Mary Parish Consolidated Gravity Drainage District No. 1's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### St. Mary Parish Consolidated Gravity Drainage District No. 1's Response to Finding

St. Mary Parish Consolidated Gravity Drainage District No. 1's response to the finding identified in our audit is described in the accompanying schedule of findings. St. Mary Parish Consolidated Gravity Drainage District No. 1's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. ## B. FINDINGS - FINANCIAL STATEMENT AUDIT

### INTERNAL CONTROL

#### Material Weakness

#### ITEM 2022-001

#### Segregation of Duties

#### Auditors' Comments

Condition: While performing audit tests and inquiring about internal control; we discovered that there is very little segregation of duties within the District's accounting function.

Criteria: Ordinarily, the accounting duties performed in an organization are segregated to reduce possible errors or irregularities that could occur in the accounting records and not be detected.

Effect: Lack of segregation of duties results in a material weakness in internal accounting controls.

Cause: The District has limited personnel.

#### Management's Comments

We have reviewed this situation and have decided that the additional controls derived by employing an additional person in our bookkeeping area are outweighed by the additional personnel costs.

## C. FINDINGS AND QUESTIONED COSTS - FEDERAL AWARD PROGRAMS

We observed the combined statement and supporting documentation were reviewed and approved, in writing, by someone other than the authorized card holder. We observed the combined statement to determine whether finance charges and late fees were not assessed on the selected statement.

**Findings:** All 5 fuel cards and supporting documentation selected were reviewed and approved by a supervisor. In one instance, the supervisor approved his own card statement. However, prior to payment, the Board approves the statement for payment.

Found that finance charges and late fees were not assessed.

## CREDIT CARDS/DEBIT CARDS/ FUEL CARDS/P-CARDS (CONTINUED)

---

13. Using the monthly statements or combined statements under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions. (i.e., each card should have 10 transactions subject to testing) For each transaction, observe it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

**Step 13 is not applicable.** (See #11 above). The District only has fuel cards, which are excluded from this step.
