MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2023

This discussion and analysis of Fire Protection District No. 6's (the District) financial performance provides an overview of the financial activities as of and for the fiscal year ended December 31, 2023. Please read it in conjunction with the basic financial statements and the accompanying notes to the financial statements.

FINANCIAL HIGHLIGHTS

Our financial statements provide these insights into the results of this year's operations:

- The net position of our governmental activities at year end was \$3,151,218 of which \$1,840,274 was invested in capital assets and the remainder unrestricted.
- During the year, expenses were \$748,000 more than the \$28,000 generated in program revenues for governmental programs. General revenues of \$905,000 added to the program revenues made up the shortfall to end the year with revenue exceeding expenses by \$156,634. This compares to last year when revenues exceeded expenses by \$864,832.
- Governmental funds reported an ending fund balance of \$1,982,999 – of which \$104,073 is non-spendable for prepaid insurance and the remainder of \$1.9 million is considered unassigned. The net change in fund balance for the year was \$161,891.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (Government-Wide Financial Statements) provide information about the governmental activities as a whole and present a longer-term view of the finances. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds (Fund Financial Statements) tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the operations in more detail than the government-wide statements by providing information about the most significant funds.

Our auditor has provided assurance in his independent auditor's report that the basic financial statements are fairly stated. The auditor, regarding the Required Supplemental Information and the Other Supplemental Information is providing varying degrees of assurance. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts in the Annual Report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2023

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the finances, in a manner similar to a private-sector business. The statement of net position presents information on all of the assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues, governmental activities, from other functions that are intended to recover all or a significant portion of their costs through user fees and charges, business-type activities.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not as a whole. Some funds are required to be established by State laws.

The District utilizes a governmental type of fund with the following accounting approach. All of the basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.

FINANCIAL ANALYSIS AS A WHOLE (GWFS)

The net position decreased by \$156,634 about 5% as noted in the following table. A large portion of the District's net assets reflects its investment in capital assets - \$1,840,274. Current assets increased by 9%. The increase was mostly in cash received from insurance proceeds, ad valorem taxes and interest income. Capital assets decreased because the depreciation recorded was more than the assets added. The deferred outflows and deferred inflows increased and reflected the changes in the deferred ad valorem tax levy, pension and other post-employment benefits. Non-current liabilities consisted of the net pension and OPEB liabilities that both decreased from the prior year.

Condensed Statement of Net Position	2022	2023	Dollar Change
Current and Other Assets	\$ 2,545,051	\$2,805,489	\$ 260,438
Capital Assets	2,006,372	1,840,274	(166,098)
Total Assets	4,551,423	4,645,763	94,340
Deferred Outflows	297,997	302,413	4,416
Current Liabilities	520	13,250	12,730
Non-current Liabilities	871,048	671,232	(199,816)
Total Liabilities	871,568	684,482	(187,086)
Deferred Inflows	983,268	1,112,476	129,208
Invested in Capital Assets	2,006,372	1,840,274	(166,098)
Unrestricted	988,212	1,310,944	322,732
Total Net Position	\$ 2,994,584	\$3,151,218	\$ 156,634

The net position of governmental activities increased as mentioned above and again noted in the following table. The amount spent on operating and maintaining the fire safety (program expenses) of the District decreased by over \$290,000 or 38% during the year. Salaries and benefits paid decreased by over \$100,000 and repair and maintenance expenses decreased as more was spent on capital asset purchases and improvements. Significant increases were in insurance and repairs and maintenance. General revenues decreased by almost \$1 million from the prior year. Included in general revenues received in the current year is grants received and insurance proceeds that was recognized in the current year for repairs from Hurricane Ida.

FIREFIGHTERS RETIREMENT SYSTEM

The District implemented GASB Statement No. 68 *Accounting and Financial Reporting for Pensions*. That Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits, and to more comprehensively and comparably measure the annual costs of pension benefits.

FIRE PROTECTION DISTRICT NO. 6

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2023

As of December 31, 2023, the District reported liabilities in the GWFS of \$579,186 in its governmental activities for its proportionate share of the net pension liabilities of the System, an increase of \$363,759 from the prior year. More detailed information is presented in Note 6 to the financial statements.

OTHER POST EMPLOYMENT BENEFITS

The District has implemented Governmental Accounting Standards Board (GASB) Statement 75 which increases the reporting and disclosure requirements for other post-employment benefits (OPEB). The District's total OPEB liability of \$307,473 measured as of December 31, 2023 and was determined by an actuarial valuation as of that date, an increase of \$15,611 from the prior year. More detailed information about the other post-employment benefits is presented in Note 7 to the financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Commissioners of
Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Fire Protection District No. 6 Of the Parishes of Terrebonne and Lafourche (the District), a component unit of Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the District as of December 31, 2023, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management's for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statement that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management’s Discussion and Analysis and the Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

To the Commissioners of
Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche
Page 3

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Schedule of Compensation of Payments to the Agency Heads but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 16, 2024, on our consideration of the internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control over financial reporting and compliance.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued)

B. Basis of Presentation

The accounting system is organized and operated on a fund basis whereby a separate self-balancing set of accounts is maintained for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The various funds in the financial statements in this report are as follows:

Governmental Fund Type

Governmental funds account for all or most of the general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance.

The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources that may be used to finance future period programs or operations. The governmental fund is the General Fund. The General Fund is used to account for all financial resources and expenditures except those required to be accounted for in other funds.

C. Measurement Focus / Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Fund Financial Statements (FFS)

The amounts reflected in fund financial statements, are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of operations.

For the Year Ended December 31, 2023

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued)

C. Measurement Focus / Basis of Accounting (continued)

The amounts reflected in the fund financial statements, use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. The District considers all revenues available if they are collected within 60 days after the fiscal year end.

Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

- **Revenues** – Ad valorem taxes and the related state revenue sharing are recorded as revenue in the period for which levied, thus the 2022 property taxes which were levied to finance the 2023 budget are recognized as revenue in 2023. The 2023 tax levy is recorded as deferred revenue in the current financial statements. Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable or available until actually received.
- **Expenditures** – The major expenditures current public safety supplies, insurance and audit and accounting fees are recorded when payable or when the fees are incurred.

Government-Wide Financial Statements (GWFS)

The government-wide financial statements display information as a whole. These statements include all the financial activities. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting.

C. Measurement Focus / Basis of Accounting (continued)

Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed).

Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of Section N50.

- **Program Revenues** - Program revenues included in the column labeled Statement of Activities are derived directly from users as a fee for services; program revenues reduce the cost of the function to be financed from the general revenues.
- **General Revenues** - Taxes and other items not properly included among program revenues are reported instead as general revenues.

D. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Operating Budgets

As required by Louisiana Revised Statutes, The Board of Commissioners adopted a budget for the District's General Fund. The Board must approve any amendment involving the transfer of monies from one function to another, or increases in expenditures. The district amended its budget as required. All budgeted amounts that are not expended or obligated through contracts lapse at year-end. The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

F. Cash and Investments

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or any other federally insured investments, certificates of deposit of any bank domiciled or having a branch office in the state of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Investments are stated at fair value as established by open market, except for the Louisiana Asset Management Pool (LAMP). LAMP is an external pool which is operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC-registered mutual funds to use amortized cost rather than fair value to report net assets to compute share prices if certain conditions are met.

G. Receivables

The financial statements for the District contain no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

H. Prepaid Insurance

The District has recorded prepaid insurance in the General Fund. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

I. Deferred Outflows and Inflows of Resources

The District reports decreases (increases) in net position that relate to future periods as deferred outflows (inflows) of resources in separate sections of its Statement of Net Position. The District reports deferred outflows of resources and deferred inflows of resources related to its net pension liability. These amounts are being amortized over a period of five years.

J. Vacation and Sick Leave

Accumulated vacation and sick leave is recorded as an expenditure of the period in which paid in the Governmental Fund. Full time employees are entitled to eighteen days' vacation after one year of service. Each year the employee must use vacation time accumulated before their anniversary date (the day they first began working), if not taken it is forfeited. The vacation period is increased one day for each year of service over ten years, up to a maximum of thirty days. There is no material accumulated vacation or sick leave at year end.

K. Capital Assets

In the government-wide financial statements, additions, improvements and other capital outlays that significantly extend the useful life of an asset are recorded and depreciated (capitalized). Capital assets purchased or acquired are valued at historical cost or estimated if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. All capital assets, other than land, are depreciated using the straight-line method over the following estimated useful lives:

CATEGORY	LIFE
BUILDINGS AND IMPROVEMENTS	25-40 YEARS
MACHINERY AND EQUIPMENT	5-20 YEARS
OFFICE FURNITURE, FIXTURES & EQUIPMENT	5-10 YEARS

K. Capital Assets (continued)

In the fund financial statements, capital assets purchased in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

L. Fund Equity

For government-wide statement of net position, net assets are displayed in three components:

- Invested in capital assets – including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if any.
- Restricted net assets – those with constraints placed on the use either by:
 - i. External groups such as creditors, grantors, contributions or laws or regulations of other governments; or
 - ii. Law through constitutional provisions or enabling legislation.
- Unrestricted net assets – all other assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Governmental fund equity is classified as fund balance. Fund balance is further classified as:

- Non-spendable fund balance cannot be spent because of its form.
- Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions.
- Committed fund balance is a limitation imposed by the Board through approval in minutes.
- Assigned fund balances is a limitation imposed by a designee of the Board.
- Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories.

Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes.

For the Year Ended December 31, 2023

Note 2 DEPOSITS AND INVESTMENTS (continued)

At year-end the balance of investments is invested in the Louisiana Asset management Pool (LAMP). LAMP, a local government investment pool, is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2-a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments.

The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955.

Accordingly, LAMP investments are restricted to securities issued, guaranteed, or back by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with maturity in excess of 397 days. The fair value of investments is determined on a weekly basis to monitor any variances between amortized cost and fair value.

For purposes of determining participants' shares, investments are valued at amortized cost, which approximates fair value. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP is rated AAAM by Standard & Poor's. LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form.

For an investment, custodial credit risk is the risk that, in the event of a failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required for custodial credit risk. Pooled investments are excluded from the 5 percent disclosure requirement regarding the concentration of credit risk. 2a-7 like investments pools are excluded from the interest rate disclosure requirement, nor is foreign currency risk disclosure applicable.

Note 2 DEPOSITS AND INVESTMENTS (continued)

Interest rate risk inherent in the portfolio is measured by monitoring the segmented time distribution of the investments in the portfolio. The fair value of investments is determined on a weekly basis to monitor any variances between amortized cost and fair value. For purposes of determining participants' shares, investments are valued at amortized cost, which approximates fair value. LAMP is designed to be highly liquid to give its participants immediate access to their account balances.

Note 3 PROPERTY TAX REVENUE

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in both Parishes. Assessed values are established by the Terrebonne and Lafourche Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed for the list of January 1, 2020.

Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2022, on which the 2023 revenue was recorded was \$16.05 per \$1,000 of assessed valuation on property within Fire Protection District No. 6 for the purpose of acquiring, constructing, maintaining and operating fire protection facilities within the District and paying the cost of obtaining water for fire protection purposes, including fire hydrant rentals and service. The assessed values of real property upon which 2022 property tax were based was \$42,675,965 in Terrebonne and \$2,397,220 in Lafourche Parishes.

Note 4 PROPERTY TAXES RECEIVABLE - DUE FROM TAX COLLECTOR

The Terrebonne and Lafourche Parish Sheriffs collect and remit property taxes on behalf of all taxing districts in their respective jurisdictions. Property taxes receivable represents real property taxes, and outstanding delinquencies which are measurable as of December 31, 2023 and for which there is an enforceable legal claim.

Note 4 PROPERTY TAXES RECEIVABLE - DUE FROM TAX COLLECTOR
(continued)

In the governmental funds, the current portion receivable has been offset by deferred revenue since the current taxes were not levied to finance 2023 operations and the collection of delinquent taxes has been offset by a deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a modified accrual basis the revenue is reported as a deferred inflow of resources.

The amount that was collected in December but not yet remitted to the District is considered due from the tax collector; the remaining amount of the total deferred levy is recorded as a property tax receivable. The entire levy is reported as a deferred inflow of resources of \$770,105 for Terrebonne and \$39,135 for Lafourche.

The tax rate for the year 2023 levy – for revenue to be recognized in 2024 was 16.05 mills of assessed valuation on property within the District for the purpose of providing fire protection within the District. The assessed values of real property upon which the 2023 property tax levy is based on is \$47,981,715 for Terrebonne and \$2,438,345 for Lafourche.

NOTE 6 FIREFIGHTERS RETIREMENT SYSTEM

The District adopted GASB Statement No. 68 *Accounting and Financial Reporting for Pensions*. That Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits.

PLAN DESCRIPTION – The District contributes to the Firefighters’ Retirement System of Louisiana (FRS), a cost-sharing multiple-employer defined benefit public retirement system, which is controlled and administered by a separate Board of Trustees. The System provides retirement, disability benefits, and death benefits for its members.

Act 434 of the 1979 Louisiana Legislative Session established the plan. The System is governed by Louisiana R.S. 11:2251 – 11:2269, specifically, and other general laws of the State. The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to Firefighters’ Retirement System of Louisiana, 2051 Silverside Dr., Suite 210, Baton Rouge, LA 70808-4136 or at their website <http://www.lafirefightersret.com>.

NOTE 6 FIREFIGHTERS RETIREMENT SYSTEM (continued)

ELIGIBILITY REQUIREMENTS – Any person who becomes an employee as defined in R.S. 11:2252 on and after January 1, 1980 shall become a member as a condition of employment. Members in the System consist of full-time firefighters, eligible employees of the retirement system, or any person in a position as defined in the municipal fire and police civil service system that earns at least \$375 per month, excluding state supplemental pay, and is employed by a fire department of any municipality, parish, or fire protection district of the State of Louisiana, except for Orleans Parish and the City of Baton Rouge. No person who has attained age fifty or over shall become a member of the System, unless the person becomes a member by reason of a merger or unless the System received an application for membership before the applicant attained the age of fifty. No person who has not attained the age of eighteen years shall become a member of the System.

Any person who has retired from service under any retirement system or pension fund maintained basically for public officers and employees of the state, its agencies or political subdivisions, and who is receiving retirement benefits therefrom may become a member of this System, provided the person meets all other requirements for membership.

Service credit from the retirement system or pension plan from which the member is retired shall not be used for reciprocal recognition of service with this System, or for any other purpose in order to attain eligibility or increase the amount of service credit in this System.

RETIREMENT BENEFITS – Employees with 20 or more years of service who have attained age 50, or employees who have 12 years of service who have attained age 55, or 25 years of service at any age are entitled to annual pension benefits equal to 3.333% of their average final compensation based on the 36 consecutive months of highest pay multiplied by their total years of service, not to exceed 100%. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity.

If employees terminate before rendering 12 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to their employer's contributions. Benefits are payable over the employees' lives in the form of a monthly annuity. An employee may elect an unreduced benefit or any of seven options at retirement. See R.S. 11:2256(A) for additional details on retirement benefits.

BENEFITS – A member who acquires a disability, and who files for disability benefits while in service, and who upon medical examination and certification as provided for in Title 11, is found to have a total disability solely as the result of injuries sustained in the performance of his official duties, or for any cause, provided the member has at least five years of creditable service and provided that the disability was incurred while the member was an active contributing member in active service, shall be entitled to disability benefits under the provisions of R.S. 11:2258(B).

DEATH BENEFITS – Benefits shall be payable to the surviving eligible spouse or designated beneficiary of a deceased member as specified in R.S. 11:2256(B) & (C).

DEFERRED RETIREMENT OPTION PLAN (DROP) – After completing 20 years of creditable service and age 50 or 25 years at any age, a member may elect to participate in the deferred retirement option plan (DROP) for up to 36 months.

Upon commencement of participation in the DROP employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the DROP plan account.

Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account or an annuity based on the DROP plan account balance in addition to his regular monthly benefit. If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the DROP account until the participant retires.

INITIAL BENEFIT OPTION PLAN – Effective June 16, 1999, members eligible to retire and who do not choose to participate in DROP may elect to receive, at the time of retirement, an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. Such amounts may be withdrawn or remain in the IBO account earning interest at the same rate as the DROP account.

EMPLOYER CONTRIBUTIONS – Employer contributions are actuarially determined each year. For the period July 1, 2022 to June 30, 2023, employer and employee contributions for members above the poverty line were 33.25% and 10.00% respectively, and for members below the poverty line were 35.25% and 8.00% respectively.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES - As of December 31, 2023 the District reported liabilities in the GWFS of \$363,759 in its governmental activities for its proportionate share of the net pension liabilities of the System. The net pension liability was measured as of June 30, 2023 and the total pension liability used to calculate the net pension obligation was determined by an actuarial valuation as of that date. The proportion of the net pension liability was based on a projection of the long-term contributions to the plans relative to the projected contributions of all participating employers, actuarially determined.

At June 30, 2023, the District's proportional share of the System was .055733% which was a decrease of .02641% from its proportion measured as of June 30, 2023.

For the year ended December 31, 2023 the District recognized a pension expense of \$53,624 in its governmental activities related to its participation in the System and District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred outflows	Deferred inflows
Differences between expected and actual experience	\$ 11,357	\$(12,463)
Difference between projected and actual investments	49,303	-
Changes in assumption	22,011	-
Changes in proportion	18,679	(174,738)
Employer Contributions after the measurement period	17,380	-
	\$118,730	\$(187,201)

The deferred outflows of resources related to pensions resulting from contributions after the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

ACTUARIAL ASSUMPTIONS - The total pension liabilities, actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurements:

Valuation Date	June 30, 2023
Actuarial cost method	Entry Age Normal
Actuarial cost assumptions:	
Expected remaining service lives	7 years, closed period
Investment rate of return	6.90% per annum
Inflation rate	2.50% per annum
Salary increases	Vary from 14.10% in the first two years of service to 5.20% with 3 or more years
Cost of Living Adjustments	For the purpose of determining the present value of benefits, COLAs were deemed not to be substantively automatic and only those previously granted were included

The mortality rate assumptions was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Employees.

The estimated long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation, 2.50%.

NOTE 7 POST EMPLOYMENT HEALTHCARE BENEFITS

The District has implemented Governmental Accounting Standards Board (GASB) Statement 75 which increases the reporting and disclosure requirements for other post-employment benefits (OPEB). The standards require state and local governments to recognize net OPEB liabilities directly in their financial statements, as a means of more effectively disclosing exactly what these benefits are meant to provide. Plan information, including actuarial valuation information and funding status, can be found in the annual financial report of Terrebonne Parish Consolidated Government.

Plan Description. The TPCG administers a single employer defined benefit healthcare plan (the Plan). The Plan provides for the payment of medical, dental and life insurance premiums to eligible employees, retirees and their dependents as approved by the Board of Commissioners. The District funds the entire premium for all benefits on all employees.

District employees retiring with at least ten years of permanent full-time creditable service with the District shall be eligible to participate in the Plan approved by the Board of Commissioners under the following vesting schedule: 1 to 15 years of service, 2.75% per year; 16 to 20 years of service, 41.25 % plus 3.75% per year of service between 16 and 20; 21 years or more of service, 60% plus 5% per year of service over 21, limited to 85% of the premium. A retired employee may provide dependent hospitalization coverage at applicable dependent rates.

NOTE 7 POST EMPLOYMENT HEALTHCARE BENEFITS (continued)

Terrebonne Parish Consolidated Government contracts with an actuarial consultant to provide an actuarial valuation of the OPEB liability under GASB Statement 75, which requires at least biennial valuations for plans with membership over 200, unless significant changes since the last valuation. The most recent OPEB liability actuarial valuation was completed for the plan year that ended December 31, 2023.

Benefits Provided. The Parish maintains the following benefits covering eligible active and retire employees and their dependents.

- Self-funded health coverage
 - Standard plan
 - Premium plan
- Self-funded dental coverage
- Fully insured group term life insurance
- Beginning January 1, 2019, a fully insured Medicare Advantage plan for Medicare-eligible retirees

For hire dates prior to January 1, 2013, to be eligible for coverage after retirement, employees were required to have ten years of service with the Parish and be eligible for retirement under one of the state retirement systems.

Effective for all employees hired on or after January 1, 2013, the Parish changed the eligibility requirements. For MPERS and FRS employees, benefits will be available to those eligible with twenty-five years of service and age 55. For all other employees, a retiring employee must have thirty years of service and age 55.

For employees who were hired prior to January 1, 2013 and retired prior to 2005, the Parish implemented a contribution structure that varies based on the years of service at retirement. The current Parish subsidy percentages vary between 10 years of service of 27.50% and 25+ years of 80%. For those who retired after 2005, the Parish subsidy is 80%.

NOTE 7 POST EMPLOYMENT HEALTHCARE BENEFITS (continued)

Employees covered by benefit terms. At December 31, 2022, the following employees were covered by the benefit terms of the plan:

Inactive employees or beneficiaries currently receiving benefit payments	261
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	920
	1,181

Contribution Rates. Employees do not contribute to their post-employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents.

Total OPEB Liability. The District’s total OPEB liability of \$307,473 measured as of December 31, 2023 and was determined by an actuarial valuation as of January 1, 2022.

Actuarial Assumptions and other inputs.

The total OPEB liability was determined using the following actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

Measurement Date	December 31, 2023
Actuarial Valuation Date	January 1, 2022
Inflation	2.5%
Salary increases	3.0%, including inflation
Discount rate	3.77%,
Prior year discount rate	4.05%

The discount rate was based on December 31, 2023 Fidelity General Obligation AA 20-Year Yield. Mortality rates for active employees were based on the PubG.H-2010 (general) and PubS.H-2010 (public safety) Employee Mortality Table, Generational with Projection Scale MP-2021 for males or females, as appropriate.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Commissioners of
Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Fire Protection District No. 6, Of the Parishes of Terrebonne and Lafourche , a component unit of Terrebonne Parish Consolidated Government as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents and have issued our report thereon dated May 16, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we do not express an opinion on the effectiveness of the internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

To the Board of Commissioners
Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche
Page 2

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fire Protection District No. 6's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

STATEWIDE AGREED-UPON PROCEDURES REPORT

Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche, LA

Independent Accountant's Report
On Applying Agreed-Upon Procedures

For the Period January 1, 2023 – December 31, 2023

To the Commissioners of Fire Protection District No. 6
Of the Parishes of Terrebonne and Lafourche, LA
And the Louisiana Legislative Auditor:

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2023 through December 31, 2023. Fire Protection District No. 6's (District's) management is responsible for those C/C areas identified in the SAUPs.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period January 1, 2023 through December 31, 2023. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated results are as follows:

1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe that they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
 - i. **Budgeting**, including preparing, adopting, monitoring, and amending the budget.
 - ii. **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.
 - iii. **Disbursements**, including processing, reviewing, and approving.

- iv. **Receipts/Collections**, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- v. **Payroll/Personnel**, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee rates of pay or approval and maintenance of pay rate schedules.
- vi. **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- vii. **Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- viii. **Travel and expense reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- ix. **Ethics**, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that documentation is maintained to demonstrate that all employees, including elected officials, were notified of any changes to the entity's ethics policy.
- x. **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- xi. **Information Technology Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- xii. **Prevention of Sexual Harassment**, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - i. Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
 - ii. For those entities reporting on the governmental accounting model, observe that the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget-to-actual, at a minimum, on all special revenue funds. *Alternatively, for those entities reporting on the not-for-profit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*
 - iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
 - iv. Observe that the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

Results: *There are no findings for these procedures tested.*

3) Bank Reconciliations

- A. Obtain a listing of client bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for selected each account, and observe that:
 - i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);
 - ii. Bank reconciliations include written evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
 - iii. Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

Results: *There are no findings for these procedures tested.*

4) Collections (excluding electronic funds transfers)

- A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).
- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
 - i. Employees that are responsible for cash collections do not share cash drawers/registers.
 - ii. Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.
 - iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
 - iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not also responsible for collecting cash, unless another employee verifies the reconciliation.
- C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was in force during the fiscal period.
- D. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations". Obtain supporting documentation for each of the 10 deposits and:
 - i. Observe that receipts are sequentially pre-numbered.
 - ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
 - iii. Trace the deposit slip total to the actual deposit per the bank statement.
 - iv. Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).
 - v. Trace the actual deposit per the bank statement to the general ledger.

Results: *There are no findings for these procedures tested.*

5) Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

- A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
- B. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - i. At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - ii. At least two employees are involved in processing and approving payments to vendors.
 - iii. The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
 - iv. Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.
 - v. Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.
- C. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:
 - i. Observe that the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity.
 - ii. Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.
- D. Using the entity's main operating account and the month selected in "Bank Reconciliations" procedure #3, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy

Results: *There are no findings for these procedures tested.*

6) Credit Cards/Debit Cards/Fuel Cards/P-Cards

- A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.
- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and:
 - i. Observe that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing, by someone other than the authorized card holder.
 - ii. Observe that finance charges and late fees were not assessed on the selected statements.
- C. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to inspection). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

Results: *There are no findings for these procedures tested.*

7) Travel and Travel-Related Expense Reimbursements (excluding card transactions)

- A. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
 - i. If reimbursed using a per diem, agree the reimbursement rate to those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).
 - ii. If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
 - iii. Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).

- iv. Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Results: *These procedures are not applicable.*

8) Contracts

- A. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:
 - i. Observe that the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
 - ii. Observe that the contract was approved by the governing body/board, if required by policy or law (e.g. Lawrason Act, Home Rule Charter).
 - iii. If the contract was amended (e.g. change order), observe that the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, the documented approval).
 - iv. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

Results: *There are no findings for these procedures tested.*

9) Payroll and Personnel

Obtain a listing of employees/elected officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees/officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.

- B. Randomly select one pay period during the fiscal period. For the 5 employees/officials selected under #17 above, obtain attendance records and leave documentation for the pay period, and:
 - i. Observe that all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory).
 - ii. Observe that supervisors approved the attendance and leave of the selected employees/officials.
 - iii. Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.
 - iv. Observe that the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file.

STAGNI & COMPANY, LLC

- C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity policy on termination payments. Agree the hours to the employee or officials' cumulative leave records, agree the pay rates to the employee or officials' authorized pay rates in the employee or officials' personnel files, and agree the termination payment to entity policy.
- D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

Results: *There are no findings for these procedures tested.*

10) Ethics

- A. Using the 5 randomly selected employees/officials from procedure #17 under "Payroll and Personnel" above: obtain ethics documentation from management, and:
 - i. Observe that the documentation demonstrates that each employee/official completed one hour of ethics training during the fiscal period as required by R.S. 42:1170.
 - ii. Observe that the entity maintains documentation which demonstrates that each employee/official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.
- B. Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.

Results: *There are no findings for these procedures tested.*

11) Debt Service

- A. Obtain a listing of bonds/notes issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe that State Bond Commission approval was obtained for each debt instrument issued as required by Article VII, Section 8 of the Louisiana Constitution.
- B. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

Results: *These procedures are not applicable.*

12) Fraud Notice

A. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled as required by R.S. 24:523.

B. Observe that the entity has posted, on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

Results: *There are no findings for these procedures tested.*

13) Information Technology Disaster Recovery/Business Continuity

- A. Perform the following procedures, **verbally discuss the results with management, and report "We performed the procedure and discussed the results with management."**
- i. Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe evidence that such backup (a) occurred within the past week, (b) was not stored on the government's local server or network, and (c) was encrypted.
 - ii. Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
 - iii. Obtain a listing of the entity's computers currently in use, and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.
- B. Randomly select 5 terminated employees (or all terminated employees if less than 5) using the list of terminated employees obtained in procedure #19 under "Payroll and Personnel" above. Observe evidence that the selected terminated employees have been removed or disabled from the network.
- C. Using the 5 randomly selected employees/officials from "Payroll and Personnel" procedure #17, obtain cybersecurity training documentation from management, and observe that the documentation demonstrates that the following employees/officials with access to the agency's information technology assets have completed cybersecurity training as required by R.S. 42:1267. The requirements are as follows:
- Hired before June 9, 2020 – completed the training; and
 - Hired on or after June 9, 2020 – completed the training within 30 days of initial service or employment.

Results: *We performed the procedure and discussed the results with management.*

14) Prevention of Sexual Harassment

- A. Using the 5 randomly selected employees/officials from procedure #17 under “Payroll and Personnel” above, obtain sexual harassment training documentation from management, and observe that the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year as required by R.S. 42:343.
- B. Observe that the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity’s premises if the entity does not have a website).
- C. Obtain the entity’s annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe that it includes the applicable requirements of R.S. 42:344:
 - i. Number and percentage of public servants in the agency who have completed the training requirements;
 - ii. Number of sexual harassment complaints received by the agency;
 - iii. Number of complaints which resulted in a finding that sexual harassment occurred;
 - iv. Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
 - v. Amount of time it took to resolve each complaint.

Results: *There are no findings for these procedures tested.*
