**INDEPENDENT AUDITORS' REPORT**

To the Board of Directors of  
Ascension Parish Sales and Use Tax Authority  
Gonzales, Louisiana

**Report on the Audit of the Financial Statements**

*Opinions*

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Ascension Parish Sales and Use Tax Authority (the Authority), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Authority, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

*Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

*Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-7 and 24 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of compensation, benefits and other payments to agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of compensation, benefits and other payments to agency head is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2022, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

**Basic Financial Statements**

The Statement of Net Position and the Statement of Activities provide information about the activities of the Ascension Parish Sales and Use Tax Authority as a whole and present a long-term view of the Authority's finances. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position and the Statement of Activities report the Authority's net position and changes in them. One can think of the Authority's net position, the difference between assets and liabilities, as one way to measure the Authority's financial health, or financial position. Over time, increases or decreases in the Authority's net position is an indicator of whether its financial health is improving or deteriorating.

The Authority's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Authority's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Authority's activities as well as what remains for future spending.

Fiduciary funds report assets held for others and a corresponding liability due to those parties. The taxes collected by the Authority flow through this fund. The Authority only reports on a custodial fund. Custodial funds are presented on an economic resource measurement focus and full accrual basis of accounting.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

As provided in Article VII, Section 3 of the Louisiana Constitution of 1974, the Ascension Parish Sales and Use Tax Authority (Authority) serves as the collector of sales and use taxes for the parish. The Authority was created October 5, 1989 for the purpose of collecting, administering and distributing the various sales and use taxes levied by entities and the hotel/motel tax within Ascension Parish, and the occupational license tax for the Ascension Parish Council. The Authority is governed by a Board of Directors. The Board is composed of the Chief Administrative Officer (or appointee) for each governing authority of any participating entity having a history of collecting in excess of \$1,000,000 of sales taxes for two consecutive years. As of year-end, the Board consisted of members from the Authority, Ascension Parish Council, Ascension Parish School Board, the Ascension Parish Sheriff, the City of Gonzales, the City of Donaldsonville, and the West Ascension Parish Hospital Service District. The accounting and reporting policies of the Authority conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

**Basis of Presentation, Basis of Accounting**

Government-wide Statements:

The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Authority's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include fees for the collection of taxes. Revenues that are not associated as program revenues, including interest revenue presented as general revenues, if received during the year.

Fund Financial Statements:

The fund financial statements provide information about the Authority's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major funds. For the Authority, there is only one major fund, the General Fund. The General Fund is the Authority's primary operating fund. It accounts for all finance resources of the general government, except those accounted for in another fund.

Government-wide Financial Statements:

The government-wide financial statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred regardless of when the related cash flows take place. Non-exchange transactions, in which the Authority gives (or receives) value without directly receiving (or giving) equal value in exchange may include grants and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Exchange transactions in which the Authority gives or receives value in exchange for services rendered consist of the charges for collection services which are recognized when the services are provided and the revenue is earned.

**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Basis of Presentation, Basis of Accounting (continued)**

Governmental Fund Financial Statements:

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Authority considers all revenues reported in the governmental fund to be available if the revenues are collected within sixty days after year-end. Interest is considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental fund.

Fiduciary Fund Financial Statements:

The Custodial Fund is used to account for assets held by the Ascension Parish Sales and Use Tax Authority in a trustee capacity or as an agent for the taxing authorities. Custodial funds are accounted for on the full accrual basis of accounting. Collections of sales taxes are recognized when received and expenditures are recognized when the related fund liability is incurred, regardless of when the related cash flow takes place.

**Budgetary Accounting**

Formal budgetary accounting is employed as a management control. The Ascension Parish Sales and Use Tax Authority prepares and adopts a budget prior to July 1 of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the modified accrual basis of accounting. The Authority amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

**Cash and Cash Equivalents**

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**Capital Assets**

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the Ascension Parish Sales and Use Tax Authority is charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Position. Depreciation is computed using the straight-line method over the estimated useful life of the assets, generally 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized. The Authority maintains a threshold level of \$500 or more for capitalizing capital assets.

**NOTES TO THE FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Compensated Absences**

Employees accrue from 10 to 12 days of sick leave per year depending upon the number of months worked. Sick leave may be accumulated without limitation. Upon death or retirement, unused accumulated sick leave of up to 45 days is paid to employees or their heirs at the employee's current rate of pay. The accrual computation for earned sick leave is calculated on a 45-day maximum per employee. Sick leave is not payable upon discharge or termination. Upon retirement, unpaid accumulated sick leave is used in the retirement benefit computation as earned service.

All 12-month employees earn from 10 to 20 days of annual vacation leave per year depending on length of service with the School Board. Vacation time does not vest.

Sick and vacation leave that has been claimed by employees as of the end of the fiscal year is recorded as an expense in the year claimed. Sick leave has been accrued as of the end of the fiscal year and is valued using employees' current rates of pay. Accrued sick and vacation leave will be paid from future years' resources. No allowance is made for the immaterial amounts of sick leave forfeited when employees resign or retire.

**Leases**

The Authority has leases for office space and equipment. The Authority determines if an arrangement is a lease at inception. The leases are recorded as right-to-use assets and leases payable in the statement of net position. Right-to-use assets represent the Authority's right to use the underlying asset for the lease term. Right-to-use assets and leases payable are recognized at commencement date based on the net present value of lease payments over the lease term discounted using an appropriate incremental borrowing rate. The Authority's incremental borrowing rate is based on the information available at the commencement date in determining the present value of the lease payments. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain management will exercise the option. Right-to-use assets are amortized on a straight-line basis over the lease term. Interest expense is recognized as a component of the lease payment.

**Net Position**

For the government-wide statement of net position, net position is reported as restricted when constraints placed on net position use either:

- Net investment in capital assets – consists of historical costs of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- Restricted net position – consists of assets that are restricted by the Authority's grantors (both federal and state).
- Unrestricted – all other net position is reported in this category.

**Fund Equity of Fund Financial Statements**

Accounting standards require the governmental fund balance to be reported in as many as five classifications as listed below:

**NOTES TO THE FINANCIAL STATEMENTS**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

1. Nonspendable - represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally contractually required to be maintained intact.
2. Restricted - represents balances where constraints have been established by parties outside the Authority or imposed by law through constitutional provisions or enabling legislation.
3. Committed - represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the Authority's highest level of decision-making authority.
4. Assigned - represents balances that are constrained by the Authority's intent to be used for specific purposes, but are not restricted nor committed.
5. Unassigned - represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the general fund.

When expenditures are incurred for the purposes for which both restricted and unrestricted amounts are available, the Authority reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for the purposes for which committed, assigned, and unassigned amounts are available, the Authority reduces committed amounts first, followed by assigned amounts and then unassigned amounts.

**Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Intergovernmental agreement**

The Authority has an intergovernmental agreement with the Taxing Authorities within Ascension Parish for the purpose of administering and distributing sales and use taxes levied by the participating entities. The agreement provides that the School Board employs the Administrator and all other employees of the Authority. The Authority's employees are subject to the School Board's employment policies and procedures. The School Board pays all expenditures of the Authority. However, the agreement states that the costs of operating, maintaining, and administering the Authority shall be borne jointly by the participating entities on a prorated basis on a ratio of the entity's taxes collected to total taxes collected.

**2. DEPOSITS WITH FINANCIAL INSTITUTIONS**

**Deposits with Financial Institutions**

Cash and cash equivalents include demand deposits at local financial institutions with a carrying value of \$19,356,398 at June 30, 2022. Deposits in financial institutions can be exposed to custodial credit risk. Custodial credit risk is the risk that in the event of a financial institution failure, the Authority's deposits may not be returned to them. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance and/or the pledge of securities owned by the fiscal agent financial institution. As of June 30, 2022, the Authority's bank balance was fully collateralized or FDIC insured and therefore not exposed to custodial credit risk.

**OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Directors  
Ascension Parish Sales and Use Tax Authority  
Gonzales, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Ascension Parish Sales and Use Tax Authority (Authority), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated December 28, 2022.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Receipts are not sequentially pre-numbered. The Authority records deposits as Batch Numbers and the individual receipts are the sales tax return number. No exception noted.*

None the less, the Authority will continue to make sure daily collections are deposited within one business day going forward.*
