**LAFOURCHE PARISH CLERK OF COURT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022**

The following discussion and analysis of the Lafourche Parish Clerk of Court's (the Clerk's) financial performance provides an overview of the financial activities as of and for the fiscal year ended June 30, 2022. Please read it in conjunction with the basic financial statements and the accompanying notes to the financial statements, which follows this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$5.9 million (net position) at the end of the current fiscal year. Net position consisted of net investment in capital assets in the amount of \$49,772, (1%) and unrestricted net position in the amount of \$5.8 million (99%).
- The total net position increased by over \$1.1 million from the prior fiscal year.
- As of the close of the current fiscal year, the governmental funds showed combined ending fund balances totaling \$10.1 million an increase of \$766,457 from the prior fiscal year. Of the total ending fund balance, all was considered available for funding future operational needs (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was 334% of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Government-Wide Financial Statements (Statement of Net Position and the Statement of Activities) provide information about the governmental activities as a whole and present a longer-term view of the finances. Fund Financial Statements (Balance Sheet, Statement of Revenues, Expenditures and Changes in Fund Balance, and Combining Statement of Fiduciary Net Assets) tell how these services were financed in the short term as well as what remains for future spending. Fund Financial Statements also report the operations in more detail than the Government-Wide Statements by providing information about the most significant funds.

Our auditor has provided assurance in his independent auditor's report that the basic financial statements are fairly stated. The auditor, regarding the Required Supplemental Information is providing varying degrees of assurance. A user of this report should read the Independent Auditor's Report carefully to ascertain the level of assurance being provided for each of the other parts in the Annual Financial Report.

LAFOURCHE PARISH CLERK OF COURT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Clerk's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions that are principally supported by fines and fees charged to the public (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Clerk, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds are governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term effects of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**LAFOURCHE PARISH CLERK OF COURT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the programs. The Clerk of Court is the trustee, or fiduciary, for funds reserved by the Court and Advanced Costs collected for court costs. All of these fiduciary activities are reported in a separate Combined Statement of Fiduciary Net Assets. The Clerk of Court is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT WIDE FINANCIAL ANALYSIS

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The net position totaled \$5,881,505 at the end of the current fiscal year, which was a 23% increase over the prior fiscal year. Following is a summary of the government-wide Statement of Net Position:

| | FY 2022 | FY 2021 | Increase (Decrease) |
|---------------------------------------|---------------------|---------------------|------------------------|
| Current and Other Assets | \$11,076,632 | \$ 10,314,750 | \$ 761,882 |

| Total Assets | 11,126,404 | 10,411,546 | 714,858 |
| Deferred outflows of resources | 1,497,007 | 2,084,810 | (587,803) |
| Current Liabilities | 96,519 | 101,094 | (4,575) |
| Non- Current Liabilities | 4,283,775 | 6,960,779 | (2,677,004) |
| Total Liabilities | 4,380,294 | 7,061,873 | (2,681,579) |

| Unrestricted | 5,831,733 | 4,737,708 | 1,094,025 |
| Total Net Position | \$ 5,881,505 | \$ 4,834,504 | \$1,047,001 |

- The portion of the net position – net investment in capital assets (e.g., building improvements and equipment less accumulated depreciation) are not available for future spending. The Clerk cannot sell the assets to obtain funding.
- The remaining balance of net position is considered unrestricted and may be used to meet the ongoing obligations to citizens and creditors. At the end of the current and prior fiscal years, the reported positive balances in all categories of net assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022**

Changes in Net Position. For the year ended June 30, 2022, the net position increased by \$1,047,001, an indication that its financial position increased during the year. Following is a summary of the government-wide Statement of Activities:

| | FY 2022 | FY 2021 | Increase (Decrease) |
|-------------------------------|----------------|----------------|------------------------|
| Total program expenses | \$ (3,010,387) | \$ (3,950,277) | \$ (939,890) |

| Change in Net Position | 1,047,001 | 96,211 | 950,790 |
| Net Position: | | | |
| Beginning of the year | 4,834,504 | 4,738,293 | 96,211 |
| End of the year | \$ 5,881,505 | \$ 4,834,504 | \$1,047,001 |

- Program revenues - charges for services were \$3,998,314 and increased slightly by \$34,846 over the prior fiscal year.
- General revenues (interest) in the amount of almost \$60,000 decreased by 28% from the prior fiscal year.
- Total expenses including salaries and benefits and office supplies, increased by \$939,890 or 24% over the prior fiscal year. The decrease is due to the significant decrease in the pension and OPEB liabilities by \$323,434.

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

The Clerk uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The focus of the governmental funds is to provide information on near term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for funding future operational needs.

Major Governmental Fund

The General Fund is the chief operating fund. At the end of the current fiscal year, fund balance totaled \$10,980,113, of which all was unassigned.

The fund balance of the General Fund increased by \$766,457 during the current fiscal year, as compared to the prior fiscal year. This increase as compared to the prior fiscal year is due to increases in revenues – mainly fees for recording.

**LAFOURCHE PARISH CLERK OF COURT

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Lafourche Parish Clerk of Court, (the Clerk) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund, as of and for the year ended June 30, 2022, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Clerk, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management's for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statement that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Management is responsible for the other information included in the annual report. The other supplemental information as listed in the table of contents does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other supplemental information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other supplemental information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2022, on our consideration of the internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control over financial reporting and compliance.

LAFOURCHE PARISH CLERK OF COURT
Notes to Financial Statements
For the Year Ended June 30, 2022

INTRODUCTION

As provided by Article V, Section 28 of the Louisiana Constitution of 1974, the Clerk of Court serves as ex-officio notary public, the recorder of conveyances, mortgages, and other acts; and has other duties and powers provided by law. The Clerk of Court is elected for a four-year term. The current term ends June 30, 2024.

The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies established in GAAP used are discussed below.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

These financial statements present the Lafourche Parish Clerk of Court (Clerk of Court) as the primary government as defined by GASBS No. 14; component units are legally separate entities that are included in the reporting entity because of the significance of their operating or financial relationships. GASB has established several criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Since, the Clerk of Court is an independently elected official, and is legally separate and fiscally independent; they are considered a separate governmental reporting entity.

There are unrecorded financial transactions between the Lafourche Parish Council (the Council) and the Clerk of Court where the Council provides office space and utilities for the Clerk of Court. These transactions between the Clerk of Court and the Parish Council are mandated by state statute and do not reflect fiscal dependency; thereby, they do not reflect financial accountability.

B. Basic Financial Statements

Basic financial statements are presented at both the government-wide and fund financial statement level. Both levels of statements categorize primary activities as governmental. Government-wide financial statements (GWFS) report information about the reporting unit as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the entity and the change in aggregate financial position resulting from the activities of the year.

For the Year Ended June 30, 2022

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basic Financial Statements (continued)

These aggregated statements consist of the Statement of Net Position and the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include fees and charges to the public customers who use, or directly benefit from services, or privileges provided by a given function. Other items not reported as program revenues are reported instead as general revenues.

C. Measurement Focus / Basis of Accounting

The GWFS are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements (FFS) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. A one-year availability period is used for revenue recognition. Expenditures are recorded when the related fund liability is incurred.

Fund Financial Statements (FFS)

The financial transactions of the Clerk of Court are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

Governmental Funds

Governmental funds account for all or most of the general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid.

C. Measurement Focus / Basis of Accounting (continued)

The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources that may be used to finance future period programs or operations. The following are the clerk's governmental funds:

General Fund

The General Fund (Salary Fund), as provided by Louisiana Revised Statute 13:781, is the principal fund and accounts for the operations of the office. The various fees and charges due to the office are accounted for in this fund. General operating expenditures are paid from this fund.

Fiduciary Funds – Agency Funds

Fiduciary fund (Advanced Deposit and Registry of the Court Funds) reporting focuses on net assets and changes in net assets. These funds are held for the benefit of individuals, but not derived from the Clerk's own source revenue, and over which the Clerk has no direct financial involvement. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Consequently, these funds have no measurement focus, but use the modified accrual basis of accounting.

Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*.

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual: The governmental-type activities in the GWFS and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

C . Measurement Focus / Basis of Accounting (continued)

Modified Accrual: The governmental FFS are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

D. Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest bearing demand deposits, money market accounts and cash on hand. Cash equivalents include time deposits maturing within 90 days. Under state law, governmental entities may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or certificates of deposit with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

E. Investments

Investments are limited by Louisiana Revised Statute 25 33:2955 and the investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities of investments are 90 days or less, they are classified as cash and cash equivalents. The investments consist of time deposits with maturities between 91 and 270 days.

F. Capital Assets

Capital assets purchased or acquired with a cost of \$1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

F. Capital Assets (continued)

| <u>Description</u> | <u>Estimated Lives</u> |
|----------------------|----------------------------|
| Office Equipment | 5 years |
| Furniture & Fixtures | 10 years |
| Automobiles | 5 years |
| Leased Equipment | 5 years |

G. Interfund Activities

The Clerk of Court transfers interest earned on the investments of the Advance Deposit Fund to the Salary Fund to be utilized by the Salary Fund in its operations. In those cases where the physical transfer of assets has not taken place as of year-end, or where repayment is expected, these amounts are accounted for through the various due to and due from accounts.

H. Fees Transferred from Advance Deposit Agency Fund

These fees represent revenue earned from everyday operations such as copying and faxing for litigants. These fees are collected by a transfer of litigant's money deposited in the Advance Deposit Fund to the Salary Fund.

I. Budgetary Practices

The Clerk of Court annually adopts a budget for the General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget and public hearings on the budget. Any amendments to the budget are published in the official journal. Budgetary integration is employed as a management tool.

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting is not utilized in the funds.

J. Compensated Absences

The Clerk of Court's policy calls for accrual of accumulated unpaid vacation and sick leave and associated employee-related costs when earned (or estimated to be earned) by the employee.

J. Compensated Absences (continued)

Each full-time employee is entitled to earn vacation time up to 10 days per year. Vacation time will be earned at 2.70 hours per pay period. Effective January 1, 2018, additional vacation time will be earned based on years of service as follows:

- 5-9 years 1 additional day per year
- 10-14 years 2 additional days per year
- 15-19 years 3 additional days per year
- 20-24 years 4 additional days per year
- 25+ years 5 additional days per year

Any vacation time accumulated by the employee over 10 days will be forfeited as of December 15 of each year.

The Clerk allows a maximum of 30 unused personal leave days to accumulate. Any personal leave time accumulated over 30 days will be paid to the employee annually through the pay period endings December 15th of each year. Accumulated personal leave is paid upon separation of employment. Based on this policy, all unpaid sick and vacation leave is considered to be a long term liability.

K. Net Position and Fund Equity

Government-wide Financial Statements

Equity is classified as net assets and displayed in three components:

- Net Investment in capital assets,—Consists of capital assets net of accumulated depreciation and net of capital related debt.
- Restricted net assets—consists of net assets with constraints placed on the use by law through constitutional provisions or enabling legislation.
- Unrestricted net assets—all other net assets that do not meet the definition of “restricted” or “invested in capital assets.”

When both restricted and unrestricted resources are available for use, it is the policy to use restricted resources first.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Fund Financial Statements

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- *Non-spendable* fund balance cannot be spent because of its form.
- *Restricted* fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions.
- *Committed* fund balance is a limitation imposed by the Clerk through approval.
- *Assigned* fund balances is a limitation imposed by a designee of the Clerk.
- *Unassigned* fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes.

K. Net Position and Fund Equity (continued)

Louisiana R.S. 13:785 requires that every four years (at the close of the term of office) the clerk of court must pay the parish treasurer the portion of the General Fund fund balance that exceeds one-half of the revenues of the clerk's last year of the term of office, which amount shall be limited to no more than that which was received by the clerk in accordance with R.S. 1784 (A) during said term in office. The Parish Council has not provided any funding to the Clerk under statute R.S. 13:784 (A) for items such as office furniture, equipment, and record books. At June 30, 2022, there was no amount due the parish treasurer.

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Clerk has recognized deferred outflows of resources for pension contributions and other postemployment benefits (OPEB) contributions.

In addition to liabilities, the statement of financial position also reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Clerk has recognized deferred inflows of resources for pension liability and other postemployment benefits (OPEB) liability based on actuarial valuation that was performed.

Note 2 DEPOSITS AND INVESTMENTS

Deposits (demand deposits, interest bearing demand deposits and certificates of deposit) are recorded at cost, which approximates fair value.

The carrying amounts of deposits are as follows:

| | Balances | |
|---------------------------------|----------------------|----------------------|
| | Book | Bank |
| Governmental Fund – Cash | \$ 7,431,982 | \$ 7,403,869 |
| Governmental Fund – Investments | 2,638,129 | 2,638,129 |
| Fiduciary Fund – Cash | 1,719,943 | 1,976,070 |
| Fiduciary Fund – Investments | 5,572,432 | 5,572,582 |
| Total deposits | \$ 17,362,486 | \$ 17,590,650 |

The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. Under state law, the book deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance (FDIC) must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Note 2 **DEPOSITS AND INVESTMENTS (continued)**

Custodial Credit Risk—Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2022, \$15,855,291 of the bank balance was considered exposed to custodial credit risk. Pledged securities secure these deposits from risk. The pledged securities are held at the pledging bank's trust department or other bank, acting as the pledging bank's agent, in the Clerk of Court's name.

Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Clerk of Court that the fiscal agent has failed to pay deposited funds upon demand.

Note 3 **RECEIVABLES**

The accounts receivables of \$59,959 consists of amounts due from attorneys and individuals for recording court fees and expenses related to cases in progress, from abstractors for certified copies, and interest.

Plan Description and Provisions

The Fund was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of R.S. Title 11:1501 for eligible employees of the clerk of the supreme court, each of the district courts, each of the courts of appeal, each of the city and traffic courts in cities having a population in excess of four hundred thousand at the time of entrance into the Fund, the Louisiana Clerks' of Court Association, the Louisiana Clerks of Court Insurance Fund, and the employees of the Fund.

Note 6 PENSION PLAN (continued)

The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the fund in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained from the Louisiana Clerks of Court Retirement and Relief Fund, 11745 Bricksome Avenue, Suite B1, Baton Rouge, Louisiana, 70816, or by calling (225) 293-1162.

The following is a brief description of the plan benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

A member or former member is eligible for regular retirement benefits upon attaining 12 or more years of credited service, attaining the age of 55 (age 60 if hired on or after January 1, 2011), and terminating employment. Regular retirement benefits, payable monthly for life, equal 3% of the member's average final compensation multiplied by the number of years of credited service, not to exceed 100% of the monthly average final compensation. The retirement benefit accrual rate is increased to 3 1/3% for all service credit accrued after June 30, 1999 (for members hired prior to January 1, 2011). For those members hired before July 1, 2006, monthly average final compensation is based on the highest compensated 60 consecutive months, or successive joined months if service was interrupted, with a limit of 10% increase in each of the last 5 years of measurement. For members who were employed prior to July 1, 2006 and who retire after December 31, 2010, the period of final average compensation is 36 months plus the number of whole months elapsed since January 1, 2011, not to exceed 60 months.

Disability Benefits

Disability benefits are awarded to active members who are totally and permanently disabled as a result of injuries sustained in the line of duty or to active members with 10 or more years of credible service who are totally disabled due to any cause. A member who is officially certified as totally or permanently disabled by the State Medical Disability Board will be paid monthly disability retirement benefits equal to the greater of 40% of their monthly average final compensation or 75% of their monthly regular retirement benefit computed as per R.S. 11:1521 (C).

Note 6 **PENSION PLAN (continued)**

Survivor Benefits

If a member who has less than five years of credited service dies, his accumulated contributions are paid to his designated beneficiary. If the member has five or more years of credited service, automatic Option 2 benefits are payable to the surviving spouse.

Deferred Retirement Option Plan

In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in DROP for up to 36 months and defer the receipt of benefits.

Cost of Living Adjustments

The Board of Trustees is authorized to provide a cost of living increase to members who have been retired for at least one full calendar year. The increase cannot exceed the lesser of 2.5% of the retiree's benefit or an increase of \$40 per month. The LA statutes allow the board to grant an additional cost of living increase to all retirees and beneficiaries over age 65 equal to 2% of the benefit paid on October 1, 1977 or the member's retirement date if later.

Employer Contributions

According to state statute, contribution requirements for all employers are actuarially determined each year. For the year ending June 30, 2021, the actuarially determined employer contribution rate was 21%. Effective July 1, 2021 the employer contribution rate was 22.25%.

In accordance with state statute, the Fund also receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities but are not considered special funding situations. The amount of proportionate share of non-employer contributions for the Clerk for June 30, 2021 was \$167,979.

The Clerk is not required to but is allowed to pay the employee and employer portion of the required contribution. The Clerk's entire contribution for the years ending June 30, 2020, 2021, and 2022 were \$355,923, \$403,443, and \$449,327 respectively, which were equal to the required contributions for each year.

LAFOURCHE PARISH CLERK OF COURT
Notes to Financial Statements
For the Year Ended June 30, 2022

Note 6 PENSION PLAN (continued)

Pension liabilities, pension expense and deferred outflows of resources and deferred inflows of resources:

As of June 30, 2022, the Clerk reported a liability of \$1,857,254 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The proportion of the net pension liability was based on a projection of the long-term contributions to the plans relative to the projected contributions of all participating employers, actuarially determined.

At June 30, 2021, the proportion of the plan was 1.396181%, an increase of 0.01898% from the prior valuation.

For the year ended June 30, 2022 (measured at June 30, 2021), the Clerk recognized pension expense of \$296,330 and the following deferred outflows and inflows of resources related to pensions from the following sources:

| | Deferred Outflows | Deferred Inflows |
|---|-------------------|------------------|
| Difference between expected and actual experience | \$ 51,777 | \$ (31,162) |
| Net difference between projected and actual earnings on investments | - | (821,487) |
| Changes in assumptions | 400,954 | - |
| Change in proportion | 25,451 | (79,827) |
| Employer contributions subsequent to the measurement date | 329,432 | - |
| | \$ 807,614 | \$ (932,476) |

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the following year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Assumptions

The total pension liabilities in the actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurements:

| | |
|----------------------------------|--|
| Valuation date | June 30, 2021 |
| Actuarial cost method | Entry Age Normal |
| Investment rate of return | 6.55% |
| Projected salary increases | 1-5 years of service - 6.20% 5 years or more – 5.0% |
| Inflation Rate | 2.40% |
| Expected remaining service lives | 5 years |

Mortality rates were based on Pub-2010 Public Retirement Plans multiplied by 120%. Mortality Table with full generational projection using the appropriate MP-2019 improvement scale.

The long-term expected real rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return are developed for each major asset class. The long term expected rate of return was 6.02% for the year ended June 30, 2021.

Note 6 PENSION PLAN (continued)

Best estimates of arithmetic real rates of return for each major class included in the System's target asset allocation as of June 30, 2021 are summarized in the following table:

| Asset Class | Target Asset Allocation | Long-Term Expected Portfolio Real Rate of Return |
|------------------------------------|-------------------------|--|
| Fixed Income – Domestic Bonds | 25.0% | 2.50% |
| Fixed income – International Bonds | 25.0% | 3.50% |
| Domestic Equity | 38.0% | 7.50% |
| International Equity | 22.0% | 8.50% |
| Real Estate | 15.0% | 4.50% |
| Totals | 100.0% | |

Discount Rate

The discount rate used to measure the total pension liability was 6.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Plan's actuary.

Based on these assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Sensitivity to changes in the discount rate

The following presents the net pension liability of the participating employers calculated using the discount rates as shown above, as well as what the net pension liability would be if they were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

| | 1% Decrease 5.55% | Current Discount Rate 6.55% | 1% Increase 7.55 |
|-----------------------|-------------------------|-----------------------------------|------------------------|
| Net Pension Liability | \$3,273,811 | \$ 1,857,254 | \$ 664,038 |

Note 7 **DEFERRED COMPENSATION PLAN**

The Clerk of Court employees participate in the State of Louisiana Deferred Compensation Plan. This Plan was established pursuant to IRC Section 457 and Louisiana R.S. 42:1301-1308. The Plan provides state, parish, and municipal employees with the opportunity to invest money on a before-tax basis, using payroll deduction. Participants defer federal or state income tax on their contributions. In addition, interest or earnings on the participant's account accumulate tax-deferred.

The participants may choose the amount to contribute with the maximums defined by the Internal Revenue Code and the investment option(s). The Clerk of Court agreed to match each participant's contribution up to a maximum of 10% for the current fiscal year. Total contributions made by the Clerk of Court on behalf of the employees were \$86,855.

Note 8 **EXPENDITURES OF THE CLERK OF COURT PAID BY THE PARISH COUNCIL**

The Clerk of Court's office is located in the parish courthouse. The expenditures for maintenance and operation of the parish courthouse are paid by the Lafourche Parish Council and are not included in the accompanying financial statements. The amount of these expenditures paid by the Parish Council is indeterminate.

Note 9 **RISK MANAGEMENT**

GENERAL LIABILITY INSURANCE

The Clerk of Court is exposed to various risks of loss related to tort, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Clerk of Court purchases commercial insurance policies for any and all claims relating to the above types of risks.

The payment of the deductible is the only liability associated with these insurance policies. There has been no significant reduction in insurance coverage in the prior year. The amount of settlements has not exceeded insurance coverage for each of the past three fiscal years.

HEALTH INSURANCE

The Clerk of Court provides health and life insurance to employees through the Louisiana Clerk of Court Association. Under this insurance program, the Clerk pays initial premiums based on the level of the employee's participation and has no further liabilities on any claims.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Annette M. Fontana
Lafourche Parish Clerk of Court
Thibodaux, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major fund as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated October 27, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Honorable Annette M. Fontana
Lafourche Parish Clerk of Court
Page 2

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
