NOTES TO FINANCIAL STATEMENTS

WASHINGTON ECONOMIC DEVELOPMENT FOUNDATION, INC.
Notes to Financial Statements
December 31, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Activities

The Washington Economic Development Foundation, Inc. (The Foundation), was organized as a nonprofit corporation on May 6, 1981, under the laws of the State of Louisiana. The Foundation's purpose is to promote economic development in Washington Parish through an intensive program to relocate or establish manufacturing and service firms in the parish in order to create a significant number of new job opportunities. The Foundation's primary support is derived from a "co-operative endeavor agreement" with the City of Bogalusa (note 7), and dues paid by individuals and members of the business community.

Basis of presentation

The financial statements of the Foundation have been prepared in accordance with U.S. generally accepted accounting principles ("US GAAP"), which require the Foundation to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Foundation's management and the board of directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

Measure of operations

The statements of activities report all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributable the Foundation's ongoing economic development services and interest and dividends earned on investments. Nonoperating activities are limited to resources that generate return

from investments and other activities considered to be of a more unusual or nonrecurring nature.

Concentrations of credit risk

Financial instruments that potentially subject the Foundation to concentrations of credit risk consist principally of cash and cash equivalents and investments. The Foundation maintains its cash and cash equivalents in various bank accounts that, at times, may exceed federally insured limits. The Foundation's cash and cash equivalent accounts have been placed with high credit quality financial institutions. The Foundation has not experienced, nor does it anticipate, any losses with respect to such accounts.

Contribution's receivable

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Discount amortization is included in contribution revenue. Conditional promises to give are not included as support until the conditions are met.

Cash and cash equivalents

The Foundation's cash consists of cash on deposit with banks. Cash equivalents represent money market funds or short-term investments with original maturities of three months or less from the date of purchase, except for those amounts that are held in the investment portfolio which are invested for long-term purposes.

Investments

Investments are reported at cost, if purchased, or at fair value, if donated. Thereafter, investments are reported at their fair values in the statements of financial position, and changes in fair value are reported as investment return in the statements of activities.

Purchases and sales of securities are reflected on a trade-date basis. Gains and losses on sales of securities are based on average cost and are recorded in the statements of activities in the period in which the securities are sold. Interest is recorded when earned. Dividends are accrued as of the ex-dividend date.

WASHINGTON ECONOMIC DEVELOPMENT FOUNDATION, INC.
Notes to Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurements

Fair value is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. Fair value should be based on the assumptions market participants would use when pricing an asset. US GAAP establishes a fair value hierarchy that prioritizes investments based on those assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to an entity's assumptions (unobservable inputs). The Foundation groups assets at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- | | |
|---------|---|
| Level 1 | Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date. |
| Level 2 | Other observable inputs, either directly or indirectly, including: <ul style="list-style-type: none">• Quoted prices for similar assets/liabilities in active markets;• Quoted prices for identical or similar assets in non-active markets;• Inputs other than quoted prices that are observable for the asset/liability; and,• Inputs that are derived principally from or corroborated by other observable market data. |
| Level 3 | Unobservable inputs that cannot be corroborated by observable market data. |

Property and equipment, net

Property and equipment are stated at cost at the date of purchase or, for donated assets, at fair value at the date of donation, less accumulated depreciation. Depreciation is calculated using the straight-line method over the lesser of the estimated useful lives of the assets or the lease term. The useful lives range from three to seven years. The Foundation's policy is to capitalize renewals and betterments acquired for greater than \$500 and expense normal repairs and maintenance as incurred. The Foundation's management periodically evaluates whether events or circumstances have occurred indicating that the carrying amount of long-lived assets may not be recovered.

WASHINGTON ECONOMIC DEVELOPMENT FOUNDATION, INC.
Notes to Financial Statements
December 31, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions

Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Contributed property and equipment are recorded at fair value at the date of donation. Contributions with donor-imposed stipulations regarding how long the contributed assets must be used are recorded as net assets with donor restrictions; otherwise, the contributions are recorded as net assets without donor restrictions.

Public Support and Revenue

Annual membership dues are generally available for unrestricted use during the current year. Dues are recorded as revenue in the membership year pledged and any unpaid dues at year-end are recorded as receivables, at their net realizable value. There is no allowance for bad debts due to a history of having all dues paid on a current basis.

Grants are recorded as revenue when the corresponding reimbursable expenditures have been incurred.

Functional expenses

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among industrial development and supporting services benefitted. Such allocations are determined by management on an equitable basis. The expenses are allocated based on percentages.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates that affect certain reported amounts and disclosures. Therefore; actual results could differ from those estimates.

WASHINGTON ECONOMIC DEVELOPMENT FOUNDATION, INC.
Notes to Financial Statements
December 31, 2021

Income taxes

The Foundation is exempt from income tax under IRC section 501(c)(3), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. The Foundation has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions. The Foundation has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.
