FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners, Schriever Fire Protection District, Schriever, Louisiana.

Opinion

We have audited the accompanying financial statements of the governmental activities and General Fund of the Schriever Fire Protection District, (the "District"), a component unit of the Terrebonne Parish Consolidated Government, State of Louisiana, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the District as of December 31, 2021 and the respective changes in net position and budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4 through 10, the Schedule of the District's Proportionate Share of the Net Pension Liability on page 44, and, the Schedule of the District's Contributions on page 45 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on page 46 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2022 on our consideration of Schriever Fire Protection District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Schriever Fire Protection District

December 31, 2021

Management's Discussion and Analysis of the Schriever Fire Protection District's financial performance presents a narrative overview and analysis of the District's financial activities for the year ended December 31, 2021. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

The District's assets exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2021 by \$4,586,699 (net position), which represents a 21.91% increase from last fiscal year.

The District's revenue increased \$64,234 (or 2.70%) primarily due to the increase in ad valorem taxes.

The District's expenses increased \$303,660 (or 23.10%) primarily due to increases in public safety expenditures.

The District did not have a deficit fund balance.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The District's annual report consists of three parts: (1) management's discussion and analysis (this section), (2) financial statements; and (3) various governmental compliance reports and schedules by certified public accountants and management.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

The financial statements include two kinds of statements that present different views of the District:

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The Statement of Activities presents information showing how the District's net position changed during each fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The governmental activity of the District is public safety.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the District are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Governmental Funds (Continued)

The District maintains two individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and Debt Service Fund. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The governmental fund financial statements can be found on pages 11 through 15 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in Exhibit F of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. As of December 31, 2021, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$4,586,699. A large portion of the District's net position (40.98%) reflects its investment in capital assets (e.g., land, buildings, improvements, office furniture, fixtures, and equipment; vehicles, machinery and equipment (includes fire trucks). Consequently, these assets are not available for future spending.

In 2021, the District's ad valorem tax revenue decreased due to decreased taxable values of property within the District's boundaries. Miscellaneous revenues includes impairment gains due to Hurricane Ida insurance claim proceeds exceeding the basis of damaged property. Public safety expenses increased from increases in personal services due to increased employee headcount and additional hours of service in responding to Hurricane Ida. General government expenses also increased over fiscal 2020 due to increase in ad valorem tax adjustments for unpaid taxes.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUND

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds are to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,747,547 which is an increase of \$402,337 in comparison with the prior year. An unassigned fund balance of \$2,206,825 is available for spending at the District's discretion. The remainder of fund balance, \$448,017, is restricted for debt service to indicate that it is not available for new spending and assigned for subsequent year's expenditures of \$92,705.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the fund balance of the General Fund was \$2,299,530 which was classified as assigned for subsequent year's expenditures to support a 2022 budget deficit of \$92,705 and unassigned, \$2,206,825. The fund balance of the District's General Fund increased by \$427,056 during the current fiscal year.

General Fund Budgetary Highlights

The budget was amended once during the year. The primary reason for amending the budget was to prevent compliance violations under state law. The major differences between the original General Fund budget and the final amended budget were as follows:

Expenditures

- Personal services increased to more accurately reflect anticipated expenditures due to increased employee headcount and response to Hurricane Ida.
- Supplies and materials, other services and charges, and repairs and maintenance decreased to more accurately reflect anticipated expenditures.

For the year, actual revenues, were more than budgeted amounts and expenditures were less than budgeted amounts.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of December 31, 2021, amounts to \$3,812,188 (net of accumulated depreciation). This net investment in capital assets includes land, construction in progress, buildings, and improvements, office furniture, fixtures and equipment; vehicles, machinery, and equipment.

	2021	2020
Land	\$ 413,477	\$ 413,477
Construction in progress	1,052,305	850,608
Buildings and improvements	2,225,635	1,902,328
Office furniture, fixtures,

Vehicles, machinery,		
and equipment	4,460,324	4,317,986
Totals	\$8,193,825	\$7,520,071

Major capital asset events during the current fiscal year included the following:

- Purchase of a training tower for \$326,007.
- Purchase of office furniture and equipment for \$6,412.
- Purchase of heavy duty truck and a pick-up truck for \$76,405.
- Purchase of communication equipment for \$44,248.
- Included in construction in progress is a heavy duty rescue truck for \$829,511 and access driveways and roads for the training facility of \$222,794.

Additional information on the District's capital assets can be found in Note 5, Exhibit F of this report.

Long-Term Obligations

As of December 31, 2021, the District had \$1,990,000 in general obligation bonds outstanding, a decrease of \$130,000 that represents the principal payment during 2021. The bonds are rated A-, with a stable outlook, by Standard and Poor's Rating Services. The District has capital lease obligations in the amount of \$72,681, which will be paid in full during fiscal year 2022. The District recognized an increase of \$6,677 in compensated absences payable. Also, the District has a net pension liability of \$113,896 to the Firefighters Retirement System of Louisiana. More detailed information about the District's long-term obligations is presented in Note 7, Exhibit F of

Long-Term Obligations (Continued)

this report. Further information on the Firefighters Retirement System of Louisiana is presented in Note 8, Exhibit F of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board of Commissioners considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

- The ad valorem tax revenue budgeted represents the estimated amount of the November 2021 assessment, which the District will receive, for the most part, in January 2022. A 10% decrease in ad valorem tax revenue is projected as a result of property damages caused by Hurricane Ida.
- Operating expenditures are anticipated to rise with the rise in cost for almost all aspects of basic operations. Personnel service expenditures are anticipated to increase by 62% due to employment of additional full-time firefighters, including an inspector.
- Capital purchases budgeted include the completion of the training field, along with access roads, driveways and building improvements. Also, included in the capital outlay budget is purchases of various firefighting apparatus and equipment.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Board of Directors of the Schriever Fire Protection District, 1529 West Park Avenue, P.O. Box 83, Schriever, LA 70395.

NOTES TO FINANCIAL STATEMENTS

Schriever Fire Protection District

December 31, 2021

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Schriever Fire Protection District (the "District") conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

a) Reporting Entity

The District is a component unit of the Terrebonne Parish Consolidated Government (the "Parish") and as such, these financial statements will be included in the annual comprehensive financial report (ACFR) of the Parish for the year ended December 31, 2021.

GASB Statement No. 14, "The Financial Reporting Entity", and GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units-an amendment of GASB Statement No. 14" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus and Amendment of GASB Statements No. 14 and No. 34" established the criterion for determining which component units should be considered part of the District for financial reporting purposes. The basic criteria are as follows:

- 1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
- 2. Whether the governing authority appoints a majority of the board members of the potential component unit.
- 3. Fiscal interdependency between the District and the potential component unit.
- 4. Imposition of will by the District on the potential component unit.
- 5. Financial benefit/burden relationship between the District and the potential component unit.

a) Reporting Entity (Continued)

The District has reviewed its activities and determined there are no reportable component units as of December 31, 2021.

b) Basis of Presentation

The District's financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Government-Wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues.

Fund Financial Statements

The daily accounts and operations of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of the funds are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows of resources, equity, revenues and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following are the governmental funds of the District:

General Fund - The General Fund is the general operating fund of the District. It is used to account for and report all financial resources not accounted for and reported in another fund. The General Fund is always a major fund.

Debt Service Fund - The Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal, interest and related costs. The Debt Service Fund is reported as a major fund.

c) Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

c) Measurement Focus and Basis of Accounting (Continued)

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied.

Fund Financial Statements

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current position. Governmental funds are maintained on the modified accrual basis of accounting.

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Ad valorem taxes and the related state revenue sharing (intergovernmental revenue) are recognized as revenue in the period for which levied, thus the 2021 property taxes which are being levied to finance the 2022 budget will be recognized as revenue in 2022. The 2021 tax levy is recorded as a deferred inflow of resources - unavailable revenue in the District's 2021 financial statements. Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due. Allocations of cost such as depreciation are not recognized in the governmental funds.

d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e) Operating Budgetary Data

As required by the Louisiana Revised Statutes 39:1303, the Board of Commissioners (the "Board") adopted a budget for the District's General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget, and a public hearing on the budget prior to adoption. Any amendment involving the transfer of monies from one function to another or increases in expenditures must be approved by the Board. In order to remain in compliance with State budgeting laws, the District amended its budget once during the year. All budgeted amounts that are not expended, or obligated through contracts, lapse at year-end.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

The General Fund budget presentation is included in the financial statements.

f) Accounts Receivable

The financial statements for the District contained no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectable portion of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

g) Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

g) Capital Assets (Continued)

Government-Wide Financial Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets purchased or acquired with an original cost of \$1,000 or more and a useful life greater than one year are valued at historical cost or estimated historical cost if actual cost is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20 - 40 years
Vehicles, machinery, and equipment	5 - 25 years
Office furniture, fixtures, and equipment	5 - 20 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

h) Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position and Balance Sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) expenditure until then. The District has deferred outflows of resources related to pensions.

h) Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time. The governmental fund reports unavailable revenues from property taxes and pension related deferred inflows of resources. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reports unavailable revenue when resources associated with imposed non exchange revenue transactions are received or reported as a receivable before (a) the period for which property taxes are levied; or (b) the period when resources are required to be used or when use is first permitted for all other imposed non exchange revenues in which the enabling legislation includes time requirements.

i) Compensated Absences

GASB Statement No. 16, "*Accounting for Compensated Absences*", requires governments to accrue compensated absences only to the extent it is probable that the employer will compensate employees for benefits through cash payments conditioned on the employees' termination or retirement. The District has recorded liabilities for accumulated vacation and sick leave as of December 31, 2021.

In the government-wide financial statements the total compensated absences liability is recorded as an expense and long-term obligations. In accordance with GASB Interpretation No. 6, "*Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*", no compensated absences liability is recorded as of December 31, 2021 in the governmental fund-type fund financial statements.

Employees of the District can earn 144 hours of vacation leave and 16 hours of personal leave. Accumulated vacation leave is due to the employee at the time of termination or death. The vacation policy provides that any unused annual leave in excess of 40 hours on the employee's anniversary date requires the approval of the Board Chairman. Personal leave does not accumulate.

i) Compensated Absences (Continued)

Every firefighter in the employ of a fire protection district shall be entitled to full pay during sickness or incapacity not brought about by his own negligence or culpable indiscretion for a period of no less than fifty-two weeks. A firefighter employed by any fire protection district who draws full pay during sickness or incapacity shall have such pay decreased by the amount of workers' compensation benefits actually received by the employee. A firefighter is entitled to sick leave benefits even though the injury or illness may have occurred while he was off duty. Firefighters are not prohibited from engaging in part-time employment while receiving sick leave. A probationary firefighter who is not a regular or permanent fireman is not entitled to sick leave benefits provided by the District. Sick leave does not accumulate for District employees. Accordingly, there is no accumulated sick leave for the District as of December 31, 2021.

j) Long-Term Obligations

The accounting treatment of long-term obligations depends on whether they are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements

All long-term obligations to be repaid from governmental resources are reported as liabilities in the government-wide statements. Long-term obligations consists of net pension liability, general obligation bonds, capital lease obligations and compensated absences.

Fund Financial Statements

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources while payments of principal and interest are reported as expenditures.

k) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Firefighters' Retirement System of Louisiana (the "System") and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

l) Equity

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if any.
- **b.** Restricted net position Consists of assets and deferred outflow of resources less liabilities and deferred inflows of resources (net position) with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. As of December 31, 2021, the District reported restricted resources for debt service.

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Non-spendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to maintain intact.
- b. Restricted amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed amounts that can be used only for specific purposes determined by a formal action of the District's Board of Commissioners. Commitments may be established, modified, or rescinded only through resolutions approved by the District's Board of Commissioners.

l) Equity (Continued)

Fund Financial Statements (Continued)

- d. Assigned amounts that do not meet the criteria to be classified as either restricted or committed but are intended to be used for specific purposes. Assigned amounts may be established, modified or rescinded only through a majority vote by the District's Board of Commissioners.
- e. Unassigned all other spendable amounts.

For the classification of governmental fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classifications are available. The District's fund balance was classified as restricted, assigned and unassigned as of December 31, 2021.

m) New GASB Statements

During the year ending December 31, 2021, the District implemented the following GASB Statements:

Statement No. 89, "Accounting for Interest Cost Incurred before the End of a Construction Period" establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30. 1989 FASB and AICPA Pronouncements", which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement did not affect the financial statements.

m) New GASB Statements (Continued)

Statement No. 90, "*Majority Equity Interest*" the primary objectives of this statement are to improve the consistency and comparability of reporting government's majority equity interest in legally separate organization and to improve the relevance of financial statement information for certain component units. It specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as component unit. This Statement did not affect the financial statements.

Statement No. 98, "*The Annual Comprehensive Financial Report*" establishes the term *annual comprehensive financial report* and its acronym *ACFR*. That new term and acronym replace instances of *comprehensive annual financial report* and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym sounds like a profoundly objectionable racial slur. The requirements of this Statement are effective for fiscal years ending after December 15, 2021. This Statement did not affect the District's financial statements.

The GASB has issued the following Statements which will become effective in future years as follows:

Statement No. 87, "*Leases*" increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lesse is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

m) New GASB Statements (Continued)

Statement No. 91, "*Conduit Debt Obligations*" provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021 Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 92, "*Omnibus 2020*" establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance related activities of public entity risk pools, fair value measurements, and derivative instruments. The requirements of this Statement apply to all financial statements of all state and local governments at dates varying from upon issuance to fiscal periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 93, "*Replacement of Interbank Offered Rates*" Some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR), most notably, the London Interbank Offered Rate, (LIBOR). The reliability and relevance of reported information will be maintained by requiring that agreements that effectively maintain an existing hedging arrangement continue to be accounted for in the same manner as before the replacement of a reference rate. As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021. This Statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

m) New GASB Statements (Continued)

Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements" improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are effective for years beginning after June 15, 2022. Management has yet to determine the effect of this Statement on the financial statements.

Statement No. 96, "Subscription-based Information Technology Arrangements" provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for the years beginning after June 15, 2022. Management has yet to determine the effect of this Statement on the financial statements.

m) New GASB Statements (Continued)

Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32" provides objectives to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements of this Statement are effective for the years beginning after June 15, 2021. Management has yet to determine the effect of this Statement on the financial statements.

Note 2 - DEPOSITS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or any other federally insured investment, certificates of deposit of any bank domiciled or having a branch office in the state of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Bank Deposits

State law requires that deposits (cash) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

Note 2 - DEPOSITS (Continued)

Bank Deposits (Continued)

The year-end balances of deposits are as follows:

	Bank Balance	Reported Amounts
Cash	\$309,780	\$295,080

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District follows and complies with state law in custodial activities but does not have a written policy for custodial credit risk. As of December 31, 2021, \$59,780 of the District's bank balance of \$309,780 was exposed to custodial credit risk. These deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent and are deemed to be held in the District's name by state statutes.

As of December 31, 2021, cash was adequately collateralized in accordance with the District's policy, similar to state law. The GASB, which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities subject to custodial credit risk. Even though the deposits are considered subject to custodial credit risk under the provisions of GASB Statement No. 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to draw down upon the pledged securities or sell the pledged securities within ten days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

Investments

State statutes authorizes the Board to invest in obligations of the U.S. Treasury, agencies and instrumentalities; guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations; repurchase agreements; and the Louisiana Asset Management Pool (LAMP).

As a means of limiting its exposure to fair value losses arising from interest rates, the District's investment policy emphasized maintaining liquidity to match specific cash flows.

Note 2 - DEPOSITS (Continued)

Investments (Continued)

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy requires the application of the prudent-person rule. This policy states, investments shall be made with the judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived. Primary emphasis shall be placed upon the safety of principal secondly to maintain liquidity to meet operating requirements and finally to obtain the most favorable rate of return. The District's investment policy limits investments to those discussed earlier in this note. LAMP has a Standard & Poor's Rating of AAAm.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools are not exposed to custodial credit risk because of their natural diversification and the diversification required by the Securities and Exchange Commission.

LAMP, a local government investment pool, is administered by LAMP, Inc., a nonprofit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. Accordingly, LAMP investments are restricted to securities issued, guaranteed or backed by the U.S. Treasury, the U.S. Government or one of its agencies, enterprises or instrumentalities, as well as repurchase agreements collateralized by those securities.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. The fair value of investments is determined on a weekly basis to monitor any variances between amortized cost and fair value. For purposes of determining participants' shares, investments are valued at amortized cost. The fair value of participants' position is the same as the value of the pool shares. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. Investments in LAMP as of December 31, 2021, amounted to \$2,451,010 and are considered cash equivalents for reporting purposes.

Note 3 - PROPERTY TAXES

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed for the list of January 1, 2020. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2021 was \$15.00 per \$1,000 of assessed valuation on property within Schriever Fire Protection District for the purpose of acquiring, constructing, maintaining and operating fire protection facilities within the District and paying the cost of obtaining water for the fire protection purposes, including fire hydrant rentals and services and \$1.50 per \$1,000 of assessed valuation for the payment of principal and interest. As indicated in Note 1c, taxes levied November 1, 2021 are for budgeted expenditures in 2022 and will be recognized as revenues in 2022.

In 2021, the District started construction of a project to expand driveways and widen the road at the main station to access a new training facility. Also included in construction in progress as of December 31, 2021, was the purchase of a new heavy duty rescue unit. Purchases during the year ended December 31, 2021 include a new training facility, a heavy duty Ford truck and a Dodge Ram pickup truck and various communications equipment. Other additions included office furniture and kitchen appliances.

Depreciation amounting to \$446,756 was recorded as public safety expenses for the year ended December 31, 2021.

Note 5 - CHANGES IN CAPITAL ASSETS (Continued)

Construction Commitments

The District has two active construction contracts as of December 31, 2021, the District's construction commitments under these contracts are as follows:

Project	Incurred to Date	Remaining Commitment
Main station driveways and road widening Heavy duty rescue unit	\$158,534 829,511	\$635,691
Totals	\$ 988,045	\$635,691

The heavy duty rescue unit was damaged during the construction process and was in the process of being repaired by the manufacturer as of December 31, 2021, accordingly the District has not accepted delivery of the unit as of year-end.

Impairments and Insurance Proceeds

On August 29, 2021, Hurricane Ida severely impacted the District and the financial impact has yet to be determined. Numerous capital assets were damaged and are still being repaired or replaced. In accordance with GASB Statement No. 42, "Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries", the District has reviewed the various capital assets (a) to determine potential impairments from Hurricane Ida through inspection of physical damage and (b) to test for impairment to determine if the magnitude of the decline in service utility of the capital asset is significant and whether the decline in service utility is not part of the normal life cycle of the capital asset. For those properties that are impaired and will continue to be used by the District, a portion of historical cost of the asset and associated accumulated depreciation, will be written off using the Restoration Cost Approach which states that the amount of impairment is derived from the estimated costs to restore the utility of the capital asset.

Impaired capital assets that will no longer be used by the District will be reported at the lower of carrying value or fair value. The District incurred significant roof, exterior and interior damage to the building previously used as its main fire station from Hurricane Ida. This building was being used for storage and in-lieu of rent the District maintained a property insurance policy. The District's active fire stations incurred roof damage but did not sustain losses of service utility. Accordingly, the District's active fire stations have not been impaired. Improvements and attachments, such as manufactured aluminum carports and awnings and a training facility have been impaired. The District received insurance recoveries for its impaired and unimpaired buildings.

Note 7 - LONG-TERM OBLIGATIONS

As of December 31, 2021, the District had outstanding General Obligation Bonds Series 2011 totaling \$1,990,000 bearing an average interest rate of 4.25% over the remaining life of the bonds. The bonds are payable through March 1, 2031 primarily from ad valorem tax revenues, \$2,257,671 for the year ended December 31, 2021.

Note 7 - LONG-TERM OBLIGATIONS (Continued)

During the year ended December 31, 2018, the District entered into a financing lease for the acquisition of a new pumper fire truck for the District. The lease agreement qualified as a capital lease for accounting purposes and has been recorded at the present value of the future minimum lease payments as of the date of inception. The asset acquired through the capital lease has a net book value of \$227,022, net accumulated depreciation of \$131,434 as of December 31, 2021. During the year ended December 31, 2021, the District made one annual lease payment of \$74,806 including \$4,190 of interest.

Through December 31, 2021, the District has recognized obligations in the amount of \$12,224 for compensated absences as further described in Note 1i.

Through December 31, 2021, the District has recognized obligations in the amount of \$113,896 for the defined benefit pension plan as further described in Note 8.

The following presents a summary of the changes in long-term obligations for the year ended December 31, 2021:

Note 8 - DEFINED BENEFIT PLAN

Plan Description - The District contributes to the Firefighters' Retirement System of Louisiana (the "System"), a cost-sharing multiple-employer defined benefit public retirement system, which is controlled and administered by a separate Board of Trustees. The System is governed by Louisiana Revised Statutes 11:2251 through 11:2272, specifically, and other general laws of the State of Louisiana.

Eligibility - Membership in the System is a condition of employment for any full-time firefighter employed by any municipality, parish, or fire protection district in the state in addition to System employees. Any person who has retired from service under any retirement system or pension fund maintained basically for public officers and employees of the state, its agencies or political subdivisions, and who is receiving retirement benefits there from may become a member of this System, provided the person meets all other requirements for membership. Service credit from the retirement system or pension plan from which the member is retired shall not be used for reciprocal recognition of service with this System, or for any other purpose in order to attain eligibility or increase the amount of service credit in this System.

Benefits Provided - The System provides retirement, deferred and disability benefits, survivor's benefits and cost of living adjustments to plan members and beneficiaries. Benefit provisions are authorized within Act 434 of 1979 and amended by Louisiana Revised Statutes 11:2251 through 11:2272. Annual benefits to which retired members are entitled are equal to 3.33% of their final average compensation based on the 36 consecutive months of highest pay multiplied by years of service, not to exceed 100%. The State Legislature authorized the System to establish a deferred retirement option plan (DROP). After completing 20 years of creditable service and age 50 or 25 years at any age, a member may elect to participate in DROP for up to 36 months. When a member enters DROP their status changes from active to retired even though they continue to work and draw their salary. Upon commencement of participation in the deferred retirement option plan, employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the deferred retirement option plan account. Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account or an annuity based on the deferred retirement option plan account balance in addition to his regular monthly benefit. If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the deferred retirement option plan account until the participant retires.

Contributions - Employer contributions are actuarially determine each year. The employer contributions rate for employers above the poverty line/below the poverty line for the period January 1, 2021 through June 30, 2021 was 32.25%/34.25% and 33.75%/35.75% for the period July 1, 2021 through December 31, 2021. Plan members above the poverty line are required to contribute 10.00% of their annual covered payroll, and 8.00% for those below the poverty line.

The District's contributions to the System for the year ending December 31, 2021, were \$26,868.

Pension Liabilities - As of December 31, 2021, the District reported a net pension liability of \$113,896 for its proportionate share of the System's net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of the contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of June 30, 2021, the District's proportion was 0.032139%, which is an increase of .021015% over its proportion as of December 31, 2021.

Pension Expense - For the year ended December 31, 2021, the District recognized pension expense of \$26,311.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - As of December 31, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources as follows:

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Difference between expected		
and actual experience	\$ 1,625	\$ (10,228)
Changes in assumptions	24,680	-
Change in proportion	152,500	-
Net difference between projected		
and actual earnings on pension		
plan investments	-	(69,119)
Contributions subsequent to the		
measurement date	13,770	
	\$ 192,575	\$ (79,347)

The District reported \$13,770 as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
December 31,	Amount
2022	\$16,159
2023	15,584
2024	11,930
2025	7,208
2026	29,116
2027	19,461
	\$99,458

Actuarial Assumptions - The actuarial assumptions used in the June 30, 2021 valuation were based on the assumptions used in the June 30, 2021 actuarial funding valuation. A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2021 are as follows:

Valuation Date Actuarial Cost Method Estimated Remaining Service Life	June 30, 2021 Entry Age Normal 7 years, closed period
Investment Rate of Return Inflation Rate	6.90% per annum (net of investment expenses, included inflation).2.50 % per annum
Salary Increase	14.10% in the first two years of service and 5.20% with 3 or more years of service; includes inflation and merit increases.
Cost of Living Adjustments	Only those previously granted.

The mortality rate assumptions were updated in fiscal year 2020 to reflect changes from the recent experience study and rates set in the Pub-2010 Public Retirement Plans Mortality tables, as compared to the RP-2000 Combined Healthy and Disabled Lives tables that were used for the previous valuation. For the June 30, 2020 valuation, assumptions for mortality rates were based on the following:

- For active members, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Employees.
- For annuitants and beneficiaries, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Below-Median Healthy Retirees.
- For disabled retirees, mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for Safety Disabled Retirees.
- In all cases the base table was multiplied by 105% for males and 115% for females, each with full generational projection using the appropriate MP2019 scale.

The estimated long-term expected rate of return on pension plan investments was determined by the System's actuary using the System's target asset allocation and the G.S. Curran & Company Consultant Average study for 2021. The consultant's average study included projected nominal rates of return, standard deviations of returns, and correlations of returns for a list of common asset classes collected from a number of investment consultants and investment management firms. Each consultant's response included nominal expected long term rates of return. In order to arrive at long-term expected arithmetic real rates of return, the actuary normalized the data received from the consultant's responses in the following ways. Where nominal returns were geometric, the actuary converted the return to arithmetic by adjusting for the long-term standard deviation and then reduced the assumption by the long-term inflation assumption. Using the target asset allocation for the System and average values for expected real rates of return, standard deviation of returns, and correlation of returns, an arithmetic expected nominal rate of return and standard deviation for the portfolio was determined. The System's long-term assumed rate of inflation of 2.50% was used in this process for the fiscal year ended June 30, 2021.

The long-term expected real rate of return is an important input into the actuary's determination of the reasonable range for the discount rate which is used in determining the total pension liability. Prior year's financial reports presented the long-term expected real rate of return provided by the System's investment consultant, whereas this year's report presents this information for both fiscal years 2021 and 2020 from the System's actuary. The actuary's method incorporates information from multiple consultants and investment firms regarding future expected rates of return, variances, and correlation coefficients for each asset class. The actuary's method integrates data from multiple sources to produce average values thereby reducing reliance on a single data source.

Best estimates of real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2021 are summarized in the following table presented as follows:

	Target	Long-Term
	Asset	Expected Real
Asset Class	Allocation	Rate of Return
Equity:		
U.S. Equity	27.50%	5.86%
Non-U.S. Equity	11.50%	6.44%
Global Equity	10.00%	6.40%
Emerging Market Equity	7.00%	8.64%
Fixed income:		
U.S. Core Fixed Income	18.00%	0.97%
U.S. TIPS	3.00%	0.40%
Emerging Market Debt	5.00%	2.75%
Alternatives:		
Private Equity	9.00%	9.53%
Real Estate	6.00%	5.31%
Private Equity	3.00%	***
Multi-Asset Strategies:		
Global Tactical Asset Allocation	0.00%	4.17%
Risk Party	0.00%	4.17%
	100.00%	

*** Subsequent to the actuary's calculation of the long term expected real rate of return in January 2021, the Board voted to amend the target asset allocation (which included a target weight in private real assets).

Discount Rate - The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined rates taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the participating employers calculated using the discount rate of 6.90%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.90%) or one percentage-point higher (7.90%) than the current rate as of June 30, 2021:

	Current		
	1%	Discount	1%
	Decrease	Rate	Increase
	(5.90%)	(6.90%)	(7.90%)
District's proportionate share			
of the net pension liability	\$218,501	\$113,896	\$26,656

Pension Plan Fiduciary Net Position - The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. The report may be obtained by writing to Firefighters' Retirement System, 3100 Brentwood Drive, Baton Rouge, Louisiana 70809 or on the System's website, <u>www.ffret.com</u>.

Note 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to workers' compensation; torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters for which the District carries commercial insurance. No settlements were made during the year that exceeded the District's insurance coverage.

Note 10 - COMPENSATION OF BOARD MEMBERS

No compensation was paid to Board Members for the year ended December 31, 2021.

Note 11 - STATE OF LOUISIANA TAX ABATEMENTS

The District's ad valorem tax revenues were reduced by \$248,167 under agreements entered into with the State of Louisiana.

Note 12 - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of financial statements in determining the accounting for and disclosure of transactions and events that effect the financial statements. Subsequent events have been evaluated through June 21, 2022, which is the date the financial statements were available to be issued.

SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners, Schriever Fire Protection District, Schriever, Louisiana.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Schriever Fire Protection District (the "District") as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's financial statements and have issued our report thereon dated June 21, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charges with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bourgeois Bennett, L.L.C.

STATEWIDE AGREED-UPON PROCEDURES

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners, Schriever Fire Protection District, Schriever, Louisiana.

We have performed the procedures described in Schedule 4 on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA) Statewide Agreed-Upon Procedures (SAUP) for the fiscal period January 1, 2021 through December 31, 2021. Schriever Fire Protection District's (the "District") management is responsible for those C/C areas identified in the SAUPs.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in the LLA's SAUPs for the fiscal period January 1, 2021 through December 31, 2021. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purpose. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are described in Schedule 4.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with the attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on these C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet out other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statue 24:513, this report is distributed by the LLA as a public document.

SCHEDULE OF PROCEDURES AND ASSOCIATED FINDINGS OF THE STATEWIDE AGREED-UPON PROCEDURES

Schriever Fire Protection District

For the year ended December 31, 2021

The required procedures and our findings are as follows:

Procedures Performed on the District's Written Policies and Procedures:

- 1. Obtain and inspect the District's written policies and procedures and observe that they address each of the following categories and subcategories if applicable to public funds and the District's operations:
 - a) Budgeting, including preparing, adopting, monitoring, and amending the budget. Performance: Obtain and read the District's budgeting policy. Exceptions: There were no exceptions noted.
 - b) Purchasing, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.

Performance: Obtained and read the written policy for purchasing.

Exceptions: The purchasing policy does not address how vendors are added to the vendor list.

c) Disbursements, including processing, reviewing, and approving.

Performance: Obtained and read the written policy for disbursements, and found it to address all the functions list above.

Exceptions: There were no exceptions noted.

d) Receipts/Collections, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of each type of revenue or agent fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).

Performance: Obtained and read the written policy for receipts.

Exceptions: The policy did not contain any of the required provisions.

Procedures Performed on the District's Written Policies and Procedures: (Continued)

- e) Payroll/Personnel, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.
 Performance: Obtained and read the District's payroll/personnel policy.
 Exceptions: The policy does not address the approval process for employee pay rates.
- f) Contracting, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
 Performance: Obtained and read the District's contracting policy.
 - Exceptions: The contracting policy lacks descriptions of (l) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, and (5) monitoring process.
- g) Credit Cards (and debit cards, fuel cards, P-Cards, if applicable), including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).

Performance: Obtained and read the District's credit card policy. Exceptions: The policy does not include an approval process on credit card purchases.

- h) Travel and Expense Reimbursement, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
 Performance: Obtained and read the written policy for travel and expense reimbursement.
 Exceptions: The policy did not contain provisions requiring dollar thresholds by category.
- i) Ethics, including (1) the prohibitions as defined in Louisiana Revised Statute 42: 1111-1121,
 (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the District's ethics policy.

Performance: Obtained and read the District's ethics policy.

- Exceptions: The District's ethics policy does not include (1) the prohibitions as defined in Louisiana Revised Statute 42: 1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the District's ethics policy.
- j) Debt Service, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
 Performance: Obtained and read the District's ethics policy.
 - Exceptions: The District's policy does not include continuing disclosure/EMMA reporting requirements, debt reserve requirements, and debt service requirements.

Procedures Performed on the District's Written Policies and Procedures: (Continued)

- k) Information Technology Disaster Recovery/Business Continuity, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
 - Performance: Obtained and read the District's information technology disaster recovery/business continuity policy.
 - Exceptions: The District's policy does not include provisions on the requirements of the use of antivirus software and timely application of software updates and patches policy.
- 1) Sexual Harassment, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

Performance: Obtained and read the written sexual harassment policy.

Exceptions: The policy does not contain a provision on the annual reporting requirement.

Procedures Performed on the District's Board or Finance Committee:

- 2. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period and:
 - a) Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, or other equivalent document.

Performance: Obtained and read the written minutes of the Board meetings. The Board is required to meet every month. All meetings held had a quorum.

Exceptions: There were no exceptions noted. However, the September 2021 meeting was cancelled due to Hurricane Ida. The cancellation is not considered an exception.

b) For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund and major special revenue funds, as well as monthly financial statements (or budget-to-actual comparisons, if budgeted) for major proprietary funds.

Performance: Obtained and read the written minutes of all Board meetings. Exceptions: There were no exceptions noted.

Procedures Performed on the District's Board or Finance Committee: (Continued)

- c) For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
 - Performance: Obtained the prior year's audit report and observed the unassigned fund balance in the General Fund. The General Fund did not have a negative ending unrestricted fund balance.

Exceptions: There were no exceptions noted.

Procedures Performed on the District's Bank Reconciliations:

3. Obtain a listing of the District's bank accounts from management and management's representation that the listing is complete. Ask management to identify the main operating account. Select the District's main operating account and select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that: Performance: Obtained the listing of bank accounts from management and received management's representation in a separate letter.

Exceptions: There were no exceptions noted.

a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);

Performance: Obtained monthly bank reconciliation for the month of December for the operating bank account and 4 additional accounts selected.

Exceptions: There were no exceptions noted.

- b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
 - Performance: Inspected the District's documentation for the December bank reconciliation for all bank accounts.
 - Exceptions: The payroll bank account reconciliation lacked documentation that it was reviewed.
- c) Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.
 - Performance: Inspected documents for items outstanding for more than 12 months. We noted no checks outstanding for longer than 12 months as of the end of the fiscal period.

Procedures Performed on the District's Collections (Excluding Electronic Funds Transfers):

4. Obtain a listing of deposit sites for the fiscal period where deposits for cash/check/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

Performance: Obtained the listing of deposit sites from management, and received management's representation in a separate letter.

Exceptions: There were no exceptions noted.

5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

Performance: Obtained the listing of collection locations from management, and received management's representation in a separate letter.

Exceptions: There were no exceptions noted.

- a) Employees that are responsible for cash collections do not share cash drawers/registers.
 Performance: Inspected policy manuals, inquired of management and observed the District's deposits are ACH or mailed checks, cash drawers are not used.
 Exceptions: There were no exceptions noted.
- b) Each employee responsible for collection cash is not responsible for preparing/making bank deposits, unless another employee or official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit.

Performance: Inspected policy manuals, inquired of management and observed the person collecting cash/checks at the main fire station does not reconcile collections during the fiscal period.

Exceptions: There were no exceptions noted.

c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

Performance: Inspected policy manuals, inquired of management and observed receipts and general ledger transactions.

Procedures Performed on the District's Collections (Excluding Electronic Funds Transfers): (Continued)

d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, are not responsible for collecting cash, unless another employee/official verifies the reconciliation.

Performance: Inspected policy manuals, inquired of management and observed employees collecting cash do not make general ledger postings.

Exceptions: There were no exceptions noted.

6. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was enforced during the fiscal period.

Performance: Obtained a listing of all employees who have access to cash and inquired of management if these employees are covered by a bond or insurance policy for theft. Observed that the bond or insurance policy was enforced during the fiscal period. Exceptions: There were no exceptions noted.

- 7. Randomly select 2 deposit dates for each of the 5 bank accounts selected for procedures #3 under "Procedures Performed on the District's Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternately, the practitioner may use a document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
 - a) Observe that receipts are sequentially pre-numbered.

Performance: Obtained supporting documentation for the selected deposits and observed that receipts were ACH deposits and sequentially pre-numbered receipts not needed. Exceptions: There were no exceptions noted.

b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

Performance: Traced supporting documentation to the deposit slip. Exceptions: There were no exceptions noted.

c) Trace the deposit slip total to the actual deposit per the bank statement.
 Performance: Traced deposit slip total to actual deposit per bank statement.
 Exceptions: There were no exceptions noted.

Procedures Performed on the District's Collections (Excluding Electronic Funds Transfers): (Continued)

- d) Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and cash is stored securely in a locked safe or drawer).
 - Performance: Observed that the deposits tested were made. Date of receipt of the deposit is not noted on receipt documentation. Testing of timeliness of deposit could not be performed.
 - Exceptions: The date of receipt by the District should be noted on the documentation of the receipt retained.
- e) Trace the actual deposit per the bank statement to the general ledger. Performance: Traced the actual deposit per the bank statement to the general ledger. Exceptions: There was no exception noted.

Procedures Performed on the District's Non-Payroll Disbursements (Excluding Card Purchases/Payments, Travel Reimbursements, and Petty Cash Purchases)

- 8. Obtain a listing of locations that process payments for the fiscal period, and management's representation that the listing is complete. Select 5 locations (or all locations if less than 5). Performance: Obtained a listing of locations that process payments from management and management's representation that the listing is complete in a separate letter. Exceptions: There were no exceptions noted.
- 9. For each location selected under #8 above, obtain a listing of those employees involved with nonpayroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the District has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:

Performance: Obtained a listing of employees involved in non-payroll purchasing and payment functions and reviewed written policies and procedures related to employee job duties. Observed if the job duties were properly segregated.

- Exceptions: There were no exception noted.
- a) At least 2 employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
