Management's Discussion and Analysis

Within this section of the Recreation District No. 9 of Cameron Parish, Louisiana's (District) annual financial report, the District's management is pleased to provide this narrative discussion and analysis of the financial activities of the District for the fiscal year ended December 31, 2003. The District's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

FINANCIAL HIGHLIGHTS

- The District's assets exceeded its liabilities by \$204,283 (net assets) for the fiscal year reported.
- Total revenues of \$65,958 exceeded total expenses of \$51,339, which resulted in a current year surplus of \$14,619.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt, of \$87,354 include property and equipment, net of accumulated depreciation. There is no outstanding debt related to the purchase or construction of capital assets.
 - (2) Unrestricted net assets of \$116,929 represent the portion available to maintain the District's continuing obligations to taxpayers and creditors.
- At the end of the current fiscal year, unreserved net assets were 228% of total expenses and 177% of total revenues.
- Overall, the District continues to maintain a strong financial position and is continuing to work to improve on this financial position.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

OVERVIEW OF FINANCIAL STATEMENTS

This Management's Discussion and Analysis document introduces the District's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The District also includes in this report additional information to supplement the basic financial statements. Comparative data is presented when available. All applicable tables will present comparative data in fiscal year 2004.

RECREATION DISTRICT NO. 9 OF CAMERON PARISH

Management's Discussion and Analysis (Continued)

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the District's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of position presenting information that includes all of the District's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other nonfinancial factors such as diversification of the taxpayer base, or the condition of District infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the District's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided by the District's taxpayers.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by tax and from activities that are intended to recover all or a significant portion of their costs through user fees and charges.

FUND FINANCIAL STATEMENTS

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole.

The District has one kind of fund:

Governmental fund is reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental fund. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

RECREATION DISTRICT NO. 9 OF CAMERON PARISH

Management's Discussion and Analysis (Continued)

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information concerning the District's budget presentations. Budgetary comparison statements are included as "required supplemental information" for the general fund. This schedule demonstrates compliance with the District's adopted and final revised budget.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District implemented the new financial reporting model used in this report beginning with the current fiscal year ended December 31, 2003. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the District as a whole.

The District's net assets at fiscal year-end are \$204,283. The following table provides a summary of the District's net assets:

Assets:	
Current assets	\$ 124,514
Capital assets, net	<u>87,354</u>
Total assets	211,868
Liabilities:	
Current liabilities	<u>7,585</u>
Net assets:	
Investment in capital assets	87,354
Unrestricted	<u>116,929</u>
Total net assets	<u>\$ 204,283</u>

RECREATION DISTRICT NO. 9 OF CAMERON PARISH

Management's Discussion and Analysis (Continued)

The District continues to maintain a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio is 16.4 to 1. Net assets increased by \$14,619 for the current year. Note that approximately 43% of the net assets are tied up in capital. The District uses these capital assets to provide services to its taxpayers.

Since this is the first year in which government-wide information is available, comparative data is not presented. However, comparative data will be accumulated and presented to assist analysis in future years. The following table provides a summary of the District's changes in net assets:

Revenues	\$ 65,958
Expenses	<u>51,339</u>
Change in Net Assets	14,619
Beginning Net Assets	<u>189,664</u>
Ending Net Assets	<u>\$ 204,283</u>

GOVERNMENTAL REVENUES

The District is heavily reliant on property taxes to support governmental operations. Property taxes provided 88% of the District's total revenues. As a result, the general economy and the local businesses have a major impact on the District's revenue streams.

BUDGETARY HIGHLIGHTS

The General Fund - The expenditure side of the original budget for the General Fund was revised by \$110,000 or 43% this year. The primary change in the general fund's expenditure budget relates to the swimming pool renovations capital outlay.

The actual revenues exceeded the final budget revenues by \$458 or 1% and the final budget expenditures exceeded the final actual expenditures by \$20,968 or 28%.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

The District's investment in capital assets, net of accumulated depreciation as of December 31, 2003, was \$87,354. See Note D for additional information about changes in capital assets during the fiscal year and outstanding at the end of the year. The following table provides a summary of capital asset activity.

Percentage depreciated	<u>52 %</u>
Book value-all assets	\$ <u>87,354</u>

Long-term debt

At the end of the fiscal year, the District had no debt.

ECONOMIC CONDITIONS AFFECTING THE DISTRICT

Since the primary revenue stream for the District is property taxes, the District's property tax revenues are subject to changes in the economy. Since property taxes are considered an "elastic" revenue stream, tax collections are higher in a flourishing economy and are lower in a depressed economy.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations, and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, contact the District's Accountant, Darrell Williams, P.O. Box 366, Cameron, LA 70631.

Board of Commissioners
Recreation District No. 9 of Cameron Parish
Grand Chenier, Louisiana

We have compiled the accompanying financial statements of the Recreation District No. 9 of Cameron Parish, a component unit of the Cameron Parish Policy Jury, as of December 31, 2003 and for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

In accordance with the Louisiana Government Audit Guide and the provisions of state law, I have issued a report, dated June 28, 2004, on the results of our agreed-upon procedures.

As described in Note B to the basic financial statements, the Recreation District No. 9 of Cameron Parish adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments, Statement No. 37, Basic Financial Statements-and Management's Discussion and Analysis-For State and Local Governments; Omnibus, Statement No. 38 Certain Financial Statement Note Disclosures, and Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements. This results in a change in the format and content of the basic financial statements.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recreation District No. 9 of Cameron Parish was created by the Cameron Parish Police Jury as authorized by Louisiana Revised Statute 33:4562. The District is governed by a board of seven commissioners who are appointed by the Cameron Parish Police Jury. The District owns and operates recreational facilities and engages in activities designed to encourage recreation and promote the general health and well being of youths of the community.

1. Reporting Entity

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Statement No. 14, the Recreation District No. 9 of Cameron Parish includes all funds, account groups, et cetera, that are within the oversight responsibility of the Recreation District No. 9 of Cameron Parish.

As the governing authority, for reporting purposes, the Cameron Parish Police Jury is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Cameron Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body and
 - a. The ability of the Cameron Parish Police Jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Cameron Parish Police Jury.
2. Organizations for which the Cameron Parish Police Jury does not appoint a voting majority but are fiscally dependent on the Cameron Parish Police Jury.
3. Organizations for which the reporting entity financial statements could be misleading if data of the organization is not included because of the nature of significance of the relationship.

Based upon the application of these criteria, Recreation District No. 9 of Cameron Parish is a component unit of the Cameron Parish Police Jury's reporting entity.

2. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", issued in June 1999. As a result, an entirely new financial presentation format has been implemented.

Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities display information about the District as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The statement of activities presents a comparison between direct expenses and program revenues for each of the functions of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Program revenues include (a) fees and charges paid by the recipients of services offered by the District; and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

The District has one fund, the General Fund, which is therefore considered its major fund.

3. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net assets and the statement of activities, the activities are presented using the economic resources measurement focus. In the fund financial statements, the "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Basis of Accounting

In the government-wide statement of net assets and statement of activities, the activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting.

4. Cash

Cash includes amounts in demand deposits and time deposits with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At December 31, 2003, the District had \$66,394 in deposits (collected bank balances), of which all was secured from risk by federal deposit insurance.

5. Budgets

A General Fund budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations lapse at fiscal year end.

On or before the last meeting of the year, the budget is prepared by function an activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the government's Board of Commissioners for review. The board holds a public hearing and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimate.

Expenditures may not legally exceed budgeted appropriations at the activity level.

6. Accounts Receivable

Uncollectible amounts due for ad valorem taxes and other receivables of governmental funds are recognized as bad debts at the time information becomes available which would indicate that the particular receivable is not collectible.

7. Capital Assets

Capital assets, which include property, plant and equipment are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Property and plant	20-40 years
Equipment	7 years

RECREATION DISTRICT NO. 9 OF CAMERON PARISH
Grand Chenier, Louisiana

Notes to Basic Financial Statements
December 31, 2003

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

8. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

9. Equity Classification

In the government-wide statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

In the fund statements, governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

NOTE B - CHANGES IN ACCOUNTING PRINCIPLES

For the year ended December 31, 2003, the District has implemented GASB Standard No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments. GASB Statement No. 34 creates new basic financial statements for reporting the District’s financial activities. The financial statements now include government-wide financial statements prepared on the accrual basis of accounting, and fund financial statements which present information for individual major funds rather than by fund type which has been the mode of presentation in previously issued financial statements. The District also implemented GASB Standard No. 38, Certain Financial Statement Note Disclosures, and Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements.

The implementation of GASB Standard No. 34 caused the opening fund balance at December 31, 2002 to be restated in terms of “net assets” as follows:

Total fund balance-Governmental Fund at December 31, 2002		\$ 104,993
Add: Cost of capital assets at December 31, 2002	\$ 194,993	
Less: Accumulated depreciation at December 31, 2002	<u>110,322</u>	<u>84,671</u>
Net assets at December 31, 2002		<u>\$ 189,664</u>

NOTE E - PER DIEM

As provided by Louisiana Revised Statute 33:4504, the board members may receive \$10 per diem for each regular and special meeting attended, but shall not be paid for more than twelve meetings in each year.

The board has decided not to receive per diem.

NOTE F - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

**INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED-UPON PROCEDURES**

June 28, 2004

Board of Commissioners
Recreation District No. 9 of Cameron Parish
Grand Chenier, Louisiana

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the management of Recreation District No. 9 of Cameron Parish and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about Recreation District No. 9 of Cameron Parish's compliance with certain laws and regulations during the year ended December 31, 2003 included in the accompanying Louisiana Attestation Questionnaire. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$15,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

There were no expenditures made during the year for materials and supplies exceeding \$15,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by management in agreed-upon procedure appeared on the list provided by management in agreed-upon procedure.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with the original adopted budget for 2003.

6. Trace the budget adoption and amendments to the minute book.

Traced the adopted budget for 2003 to approval in the minutes.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5% or more or if actual expenditures exceeded budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues and expenditures for the year did not exceed budgeted amounts by more than 5%.

Accounting and Reporting

8. Randomly select 6 disbursements made during the period under examination and:

- (a) trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- (b) determine if payments were properly coded to the correct fund and general ledger account.

The payments were properly coded to the correct fund and general ledger account.

- (c) determine whether payments received approval from proper authorities.

The payments received proper approvals.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

The District is only required to post a notice of each meeting and the accompanying agenda in the recreation building, a public place. We found no evidence of noncompliance.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

A reading of the minutes of the District and a review of payroll records indicated no payments for any bonuses, advances or gifts.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of Recreation District No. 9 of Cameron Parish and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
