#### ST. CHARLES PARISH PUBLIC SCHOOLS

Dr. Rodney R. Lafon, Superintendent

November 30, 2004

Citizens of St. Charles Parish and Members. Board of Education St. Charles Parish School Board Luling, Louisiana

The Comprehensive Annual Financial Report of the St. Charles Parish School Board, Luling, Louisiana for the fiscal year ended June 30, 2004 is presented on the following pages. The report was prepared by the School Board's business office. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the School Board. We believe the data as presented is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial position and results of operations of the School Board as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the School Board's financial affairs have been included.

#### Reporting Standards

This report was prepared in accordance with guidelines recommended by the Governmental Accounting Standards Board (GASB) of the Financial Accounting Foundation. GASB is the successor organization to the National Council on Governmental Accounting (NCGA) and was established to promulgate standards of financial accounting and reporting for state and local governments. GASB Statement 1 provides for NCGA pronouncements currently in effect to be considered as Generally Accepted Accounting Principles until amended or superseded by GASB. Therefore, NCGA statements and interpretations are often referred to in this report.

#### Report Organization

The Report consists of five sections: the Introductory Section, the Financial Section, the Statistical Section, the Federal Financial Assistance Section and the State Reporting Section. The Introductory Section includes this and the preceding letter of transmittal along with other miscellaneous data concerning the organization of the reporting entity. The Financial Section includes management's discussion and analysis, the government wide financial statements, and the combining and individual fund financial statements and other supplemental information. The Statistical Section includes data prepared from both accounting and non-accounting sources for the purpose of reflecting financial trends and fiscal capacity of the School Board, as well as other social and economic information. The Federal Financial Assistance Section includes all required reports from independent auditors, as well as a detail of all Federal financial assistance received. The State Reporting Section includes performance and statistical data included in reports compiled by the Louisiana Department of Education.

#### Reporting Entity

GASB statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Because the School Board has a separately elected governing body and is legally separate and fiscally independent, the School Board is a separate governmental reporting entity.

#### Services Provided

The St. Charles Parish School Board is a legislative body authorized to govern the public education system of the Parish of St. Charles, Louisiana. It is the responsibility of the School Board to make public education available to the residents of St. Charles Parish. These services include providing instruction personnel, instructional materials, instructional facilities, administrative support, business services, system operations, plant maintenance and bus transportation.

#### **Internal Accounting Control**

The management of the St. Charles Parish School Board is responsible for establishing and maintaining a system of internal accounting control. The objective of a system of internal accounting control is to provide reasonable, but not absolute, assurance that Board policy, administrative procedures and accounting procedures are fully implemented and are being adhered to. In addition, internal accounting controls are designed to provide reasonable but not absolute, assurance regarding: (1) the safe-guarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

#### Accounting Systems and Budgetary Control

The School Board reports on a modified accrual basis of accounting except for the Ethel Schoeffner Scholarship Fund which is a non-expendable trust fund and is reported on the accrual basis of accounting. The School Board's budget is prepared and the School Board's accounting records are generally maintained on the same basis. The Notes to the Financial Statements expand upon this and all other accounting policies.

This is the twenty-first year that the financial statements were prepared in accordance with the standards set forth in the Codification of Governmental Accounting and Financial Reporting Standards (issued by the Governmental Accounting Standards Board), and subsequent pronouncements. The Association of School Business Officials has also adopted these standards. The presentation allows the reader to obtain an overview of the School Board's financial operations by viewing the combined statements in the front of the report. More progressively detailed presentations are available to the reader throughout the remainder of the report.

Budgetary control is maintained at the fund level. Variances with the budget at this level, as well as line item levels, are reported to the School Board's management monthly.

In developing the School Board's accounting system, consideration is given to the adequacy of internal accounting controls. We believe the School Board's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

#### Financial Review

Expenditures increased from \$74,902,512 in 2003 to \$81,072,111 in 2004 in the General Fund, an increase of 8.2%. The revenues of the General Fund increased from \$82,357,387 in 2003 to \$87,805,176, representing an increase of 6.6%. This was due primarily to an increase in revenue from sales tax, ad valorem tax and state revenues. The General Fund closed the year with an undesignated fund balance of \$13,058,409, which reflects an increase of 24.3% from the \$10,504,943 balance at June 30, 2003.

Special Revenue Funds were received and expended in fulfilling the intent of the program design. Revenues increased from \$10,954,986 in 2003 to \$11,869,555 in 2004, which represents an 8.4% increase.

During the year the Debt Service Funds retired principal of \$13,252,000. The Debt Service Funds ended the fiscal year with a fund balance of \$5,870,931, which will be used to pay principal and interest for the remainder of the calendar year.

Both Moody's and Standard and Poors bond rating service rate the School Board's general obligation and revenue bonds. The latest rating given for the March 2002 bond issue was a rating of "A1" by Moody's and "A" by Standard and Poors on the general obligation bonds and a "A2" by Moody's and "A-"on the sales and use tax revenue bonds.

The Capital Projects Funds reflects payments made for the improvement and upkeep of the St. Charles Parish facilities and the construction projects. These funds have a combined fund balance of \$9,646,243 at June 30, 2004 compared to \$17,928,367 for the 2003 fiscal year. This decrease was due to completion of several projects that were part of the 28 million dollar bond issue of March 1, 2002. Revenues were also provided through ad valorem taxes and interest income.

Listed below is a schedule of revenues by source and expenditures by function of the governmental fund types:

	General Fund	Special Revenue	Debt Service	Capital Projects
Revenues:		-		
Local	\$62,080,397	\$ 1,523,157	\$6,292,876	\$3,859,653
State	25,573,492	1,942,425	-	-
Federal	<u> 151,287</u>	<u>8,403,973</u>		<u></u>
Total Revenues	\$87,805,176	<u>\$11,869,555</u>	<u>\$6,292,876</u>	<b>\$3,859,653</b>
Expenditures:				
Instruction	\$50,149,090	\$ 6,242,567	\$ -	\$ -
Support services	30,803,255	5,410,495	164,593	117,567
Community	119,766	-	•	•
Capital outlay	-	-	-	14,024,210
Debt service	-		<u>6,657,144</u>	
Total Expenditures	<u>\$81,072,111</u>	<u>\$11,653,062</u>	<u>\$6,821,737</u>	<u>\$14,141,777</u>

#### **Debt Administration**

All of the School Board's existing long-term debt is scheduled to be retired within twenty years. All bond and interest payments are handled through the fiscal agents for each separate issue.

#### Fixed Assets

The capital assets of the School Board are those fixed assets used in the performance of general governmental functions. As of June 30, 2004, the capital assets of the School Board amounted to \$71,379,454, net of accumulated depreciation. The amount represents the historical cost or estimated historical cost if historical cost is not available, of the assets.

#### Cash Management

The School Board currently invests all idle funds with either the local banks based on competitive bid or invests in governmental securities through national investment firms. The School Board has invested, as of June 30, 2004, \$33,005,134. Investments through the Board's fiscal agents are fully secured through the pledge of bank-owned securities or federal deposit insurance.

#### Risk Management

The School Board has maintained a limited risk management program during the year ended June 30, 2003 for workman's compensation. The School Board continues to carry various forms of liability insurance including, but not limited to excess workers' compensation coverage, property and casualty, error and omissions, and general liability.

#### Independent Audit

The Revised Statutes of the State of Louisiana require an audit of the book of accounts, financial records and transactions of all funds of the School Board. This year's audit was performed by Deloitte & Touche LLP.

#### Financial Forecast

The citizens of St. Charles Parish approved a one-cent increase in sales tax in 2002 that helped the school system address the reduction in revenue of previous years. Additionally, growth in sales tax revenues along with implementation of program budgeting assisted in evaluating programs. Based on input from the schools, programs were continued, combined or eliminated. These moves have placed the St. Charles Parish School Board in a sound financial position.

Several major accomplishments took place during FY2004. The school system implemented the following major programs: Implementation of science textbooks, completion of Luling K-5, adoption of foreign language, music and handwriting textbooks, implemented keyboarding at grade 4 and career tech, AASA Star award, refunded bonds saving over one million dollars and reorganized the sales tax department. Additionally, the students of St. Charles Parish scored in the top five in the state on all standardized tests.

The assessed value of taxable property for the 2004 fiscal year experienced some modest increase from 2003. Based on items coming off ten-year exemption we are expecting moderate growth over the next ten years.

#### Financial Reporting Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to St. Charles Parish School Board for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2003.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

#### **Acknowledgments**

It is our desire that this report contains the necessary information and data, which will provide a better understanding of the operations of our school system. It is further hoped that this report has been designed in a manner to be used as an administrative tool and general source of information so as to enhance our accountability to the public.

We would like to take this opportunity to express our sincere appreciation to the accounting staff and other participating employees whose efforts contributed significantly in the timely preparation of this report.

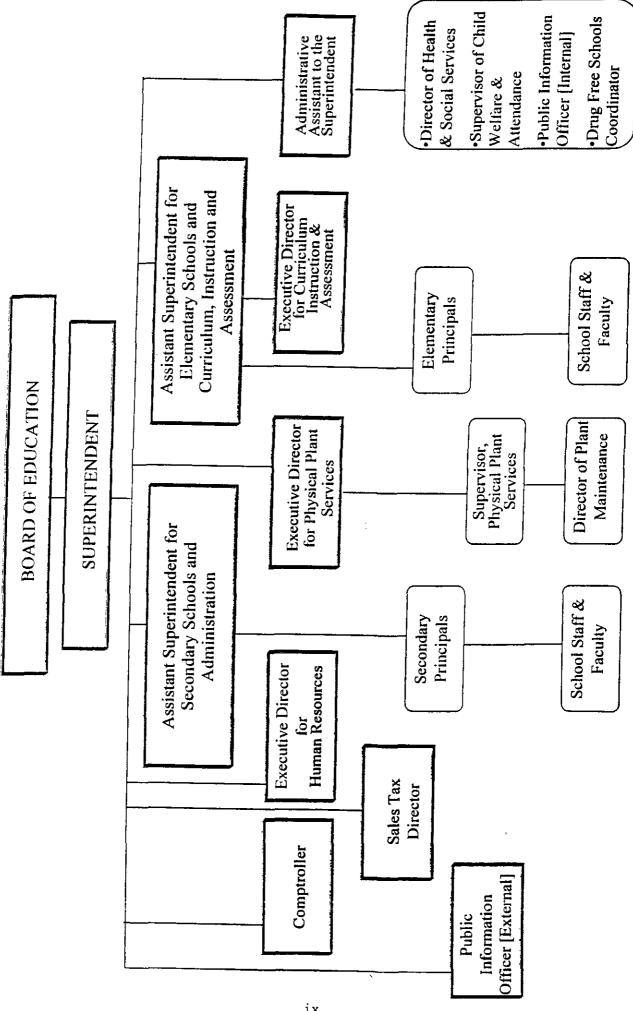

Respectfully submitted,

Dr. Rodney R. Lafon Superintendent

#### INDEPENDENT AUDITORS' REPORT

Members of the School Board of St. Charles Parish, Louisiana:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of The St. Charles Parish School Board as of June 30, 2004 and for the year then ended, which collectively comprise The St. Charles Parish School Board's basic financial statements, as listed in the foregoing table of contents. These financial statements are the responsibility of The St. Charles Parish School Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of The St. Charles Parish School Board as of June 30, 2004, and the respective changes in financial position thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the St. Charles Parish School Board's management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit such information and we do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on the School Board's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplementary information is the responsibility of The St. Charles Parish School Board's management. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on them.

In accordance with Government Auditing Standards, we have also issued our report dated November 30, 2004 on our consideration of The St. Charles Parish School Board's internal control over financial reporting and our tests of its compliance and other matters. The purpose of that report is to describe the scope of our testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Deloitte + Touche LLP

### **General Purpose Financial Statements**

## ST. CHARLES PARISH SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2004 (Unaudited)

As management of the St. Charles Parish School Board, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2004. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages iv to viii of this report.

#### FINANCIAL HIGHLIGHTS

- The District's total net assets of governmental activities increased \$2.2 million which represents a 6.0 percent increase from fiscal year 2003 as a result of current year funding used for capital additions and debt service.
- General revenues amounted to \$97.0 million in revenue, or 88.5 percent of all fiscal year 2004 revenues. Program specific revenues in the form of charges for services and grants and amounted to \$12.6 million. These revenues were offset by program specific charges for services or grants and contributions. General revenues of \$97.0 million were adequate to provide for the remaining costs of these programs.
- Among major funds, the General Fund had \$87.8 million in fiscal year 2004 revenues, which primarily consisted of state aid, sales and property taxes, and \$81.1 million in expenditures. The General Fund's undesignated fund balance increased from \$10.5 million as of June 30, 2003 to \$13.1 million as of June 30, 2004 was primarily due to increased revenues from sales taxes and state aid.
- The District's total general long-term debt decreased by \$3.7 million during the current fiscal year. The key factor in this decrease was the retirement of general obligation and revenue bonds. Additional bonds were sold in the amount of \$9.5 million dollars to refund the June 1, 1996 bonds at a savings in interest of over 1 million dollars over the life of the bonds.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components:

1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases

in *net assets* may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation, and operation of non-instructional services.

The government-wide financial statements can be found on pages 11-12 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund Statement of Revenues, Expenditures and changes in Fund Balance facilitate this comparison between *governmental funds* and *governmental activities*. These reconciliations are on pages 14 and 16, respectively.

In accordance with Louisiana Revised Statutes (L.R.S.), the District maintains individual funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General and Capital Projects Fund #1 which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds along with the major funds are provided in the form of combining statements beginning on page 45 in this report.

The basic governmental fund financial statements can be found on pages 11 - 16 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds.

The basic fiduciary fund financial statement can be found on pages 18 - 19 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20 - 39 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund as required supplementary information. The required supplementary information can be found on page 17 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the major budgetary comparisons. Combining and individual fund statements and schedules can be found on pages 39-79 of this report.

Net assets may serve over time as a useful indication of a government's financial position. In the case of the District, assets exceeded liabilities by \$37.9 million dollars as of June 30, 2004.

The majority of the District's net assets were found in the General Fund (55.2%) with the Capital Projects Fund #1 making up the next highest percentage (20.7%). The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

The following table presents a summary of the District's net assets for the fiscal years ended June 30, 2004 and 2003.

	2004	2003
	Amount	<u>Amount</u>
Current assets	\$ 49,388,335	\$ 51,265,362
Capital assets, net	<u>71,379,454</u>	<u>68,440,006</u>
Total Assets	\$ <u>120,767,789</u>	\$ <u>119,705,368</u>

Total liabilities	<u>82,909,050</u>	<u>84,000,787</u>
Net assets:		
Invested in capital assets, net of		
Related debt	9,283,156	20,390,527
Restricted	15,517,174	6,788,470
Unrestricted	<u>13,058,409</u>	<u>8,525,584</u>
Total net assets	\$ <u>37,858,739</u>	\$ <u>35,704,581</u>

The following are significant current year transactions that have had an impact on the Statement of Net Assets.

- The principal retirement of \$3,712,000 of bonds (net of refunding) for 2004 compared to \$6,307,000 for 2003.
- The addition of \$11.7 and \$17.8 million in capital assets through the construction of a new school, and other school improvements, and purchases of furniture and equipment for 2004 and 2003 respectively.

Changes in net assets. The District's total revenues for the fiscal year ended June 30, 2004 were \$109.6 million compared to \$104.4 for June 30, 2003. The total cost of all programs and services was \$107.5 million in 2004 compared to \$98.1. The following table presents a summary of the changes in net assets for the fiscal year ended June 30, 2004 and 2003.

	2004	2003
	Amount	_Amount
Revenues:		
Program revenues:		
Charges for services	\$1,813,220	\$ 1,588,946
Operating grants and contributions	10,812,411	10,142,924
General revenues:		
Property taxes	41,936,819	39,185,826
Sales taxes	28,861,611	26,197,081
State minimum foundation program	24,790,466	24,423,353
Other revenues	1,432,733	<u>2,872,839</u>
Total Revenues	\$ <u>109,647,260</u>	\$ <u>104,410,969</u>

Governmental activities. The following table presents the cost of the seven major Districts functional activities: instruction, support services – students and staff, support services – administration, operation and maintenance of plant services, student transportation services, operation of non-instructional services and interest on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	2004		2003	
	Total	Net (Expense)	Total	Net (Expense)
	Expenses	Revenue Property of the Revenu	<b>Expenses</b>	Revenue
Instruction	\$57,247,035	(\$50,289,696)	\$53,488,749	(\$46,499,601)
Support services – students and staff	8,356,919	(7,122,138)	7,857,030	(6,710.525)
Support services – administration	9,428,272	(9,285,073)	8,983,981	(8,804,225)
Operation and maintenance	17,110,406	(17,042,103)	14,423,886	(14,356,911)
Student transportation services	6,328,370	(6,315,424)	4,940,697	(4,894,650)
Operation of non-instructional service	s 5,657,795	(1,448,732)	5,181,096	(1,877,657)
Interest on long-term debt	<u>3,364,315</u>	(3,364,315)	<u>3,206,295</u>	(3,206,295)
Total expenses	<u>107,493,112</u>	(\$ <u>94,867,481</u> )	\$ <u>98.081,734</u>	<u>(\$86,349,864</u> )

- The cost of all governmental activities this year was \$107 million compared to \$98 million in 2003.
- Federal and state governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$12.6 million for 2004 and \$11.7 million for 2003.
- Net cost of governmental activities (\$94.9 million) was financed by general revenues, primarily made up of property taxes (\$41.9 million), sales taxes (\$28.9 million), and state aid (\$24.8 million). Investment earnings accounted for \$379,404 of funding.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance my serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$37.1 million, a decrease of \$3.9 due to the completion of several construction projects where the fund balance used was dedicated for that purpose. Approximately \$13.1 million, or 35.3 percent of the fund balance constitutes unreserved and undesignated fund balance, which is available for spending at the District's discretion. The remaining fund balance is reserved or designated to indicate that it is not available for spending because it has already been committed as follows.

- \$5.9 million to pay debt service
- \$666.017 for encumbrances
- \$134,557 for inventory
- \$9.6 million for capital projects
- \$1.7 million for prepaid items
- \$80,000 for school activities
- \$178,680 for self insurance
- \$1.5 million for maintenance projects
- \$2.3 million for satellite high school
- \$500,000 for the bus replacement plan
- \$500,000 for textbooks

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was \$4.5 million, a result of overall utilization below beginning fund balance. The Capital Projects Funds showed a fund balance decrease of approximately \$8.3. The decrease was due to the completion of several large school building projects. The fund balance of the Other Governmental Funds showed an increase of \$1.3 million dollars due primarily to an increase in corporate grant revenue.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the annual expenditure budget for changes in projected revenues. Difference of \$3.7 million dollars between the original budget and the final amended budget are briefly summarized as follows:

- \$2 million dollar cost for one time payment for employees in the General Fund.
- \$1.5 million dollar increase in health insurance and retirement costs.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2004, the District had invested \$103.1 million in capital assets, including school building, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$5.1 million from last year, primarily due to the completion of the final phases of construction on a new school. Total depreciation expense for the year was \$2.2 million dollars.

The following schedule presents capital asset balances net of depreciation for the fiscal year ended June 30, 2004.

	<u>Amount</u>
Land	\$ 5,160,503
Buildings	56,413,113
Furniture and equipment	2,618,140
Construction in progress	<u>7,187,698</u>
Total	\$ <u>71,379,454</u>

Additional information on the District's capital assets can be found in Note 6 on page 32 of this report.

**Debt Administration.** At year-end, the District had \$60,870,000 in general obligation bonds and other long-term debt outstanding, of which \$3,990,000 is due within one year. The following table presents a summary of the District's outstanding long-term debt for the fiscal year ended June 30, 2004

	<u>Amount</u>
General Obligation Bonds	\$45,985,000
Sales Tax Bonds	12,800,000
Certificates of indebtedness	2,085,000
Total	\$ <u>60,870,000</u>

The District maintains a "A1" rating from Moody's and "A-" from Standard & Poors for general obligation debt.

State statutes currently limit the amount of general obligation debt a District may issue to 15 percent of its total assessed valuation. The current debt limitation for the District is \$279,544,081, which is more than the District's outstanding general obligation debt.

Additional information on the District's long-term debt can be found in Note 10 on pages 35-36 of this report.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2004-2005 budget. The primary factor was the District's student population and employee salaries. Also considered in the development of the budget is the local economy.

These indicators were considered when adopting the budget for fiscal year 2004-2005. Budgeted expenditures in the General Fund increased 4.1 percent to \$85,307,542 in fiscal year 2004-2005. Increased employee benefit cost are the primary reason for the increase. No new programs were added to the 2004-2005 budget.

On October 20, 2001, voters in St. Charles Parish passed a school tax referendum, which increased the local sales tax rate from 4% to 5%. Annually, approximately eight million additional dollars raised through the increased sales tax is earmarked for maintaining existing programs K-12 education. Preliminary estimates provided by the state indicate that the District will receive \$25 million dollars in state aid in fiscal year 2005. However, since the new Governor recently assumed office, no assurances can be given as to the ultimate changes that will be made in state funding.

Locally, revenues fluctuate with the conditions within the petrochemical industry. As a highly industrialized parish, over 80 percent of property taxes and 65 percent of sales taxes (use tax) comes from industry. Changes in the national economy greatly influence our local economy.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information contact the Business Department, St. Charles Parish Public Schools, 13855 River Road, Luling, LA 70070.

Amounts reported for governmental activities in the Statement		
of Activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However,		
in the Statement of Activities, the cost of those assets is allocated over		
their estimated useful lives as depreciation expense. This is the amount by		
which depreciation exceeds capital outlays in the period:		
Expenditures for capitalized assets	5,156,728	
Less current year depreciation	(2.247.111)	2,909,617
Repayment of hond principal and capital leases is an expenditure in the		
governmental funds, but the repayment reduces long-term liabilities in the		
Statement of Net Assets		13,252,000
In the Statement of Activities, certain operating expenses - compensated		
absences (vacation and sick leave) - are measured by the amounts earned		
during the year. In the governmental funds, however, expenditures for these		
items are measured by the amount of financial resources used (essentially,		
the amounts actually paid). This year, vacation and sick time earned		
(\$3,405,787) exceeded the amounts used (\$2,653,826) by \$751,961.		(751,961)
Proceeds from sale of bonds for debt refunding are recorded as revenue in the		
governmental funds, however, this item has no impact on the Statement of		
Activities.		(9,540,000)
Interest on long-term debt in the Statement of Activities differs from the amount		
reported in the governmental funds because interest is recognized as an		
expenditure in the funds when it is due, and thus requires the use of current		
financial resources. In the Statement of Activities, however, interest expense		
is recognized as the interest accrues, regardless of when it is due.		145,919
Change in net assets of governmental activities (Statement 2)		\$2,154,148

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Organization

The St. Charles Parish School Board (the School Board) was created by Louisiana Revised Statute (LRS) 17:51 for the purpose of providing free public education for the children within St. Charles Parish. The School Board is authorized by LRS 17:81 to establish policies and regulations for its own government that are consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of seven members who are elected from seven districts for a term of four years.

The School Board operated 19 schools within the parish with a total enrollment of 9,746 pupils for the year of which 397 are prekindergarten. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. Additionally, the School Board provides transportation and school food services for the students.

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate accounting principles generally accepted in the United States of America ("generally accepted accounting principles") and reporting standards with respect to activities and transactions of state and local government entities. The GASB codification of governmental accounting and financial reporting standards is recognized as generally accepted accounting principles for state and local governments.

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Because the School Board has a separately elected governing body and is legally separate and fiscally independent, the School Board is a separate governmental reporting entity. The School Board includes all funds, account groups, activities, et cetera, that are not legally separate from the School Board. There are no separate component units combined to form the School Board reporting entity. The School Board is not financially accountable to any other governmental agency.

### B. Fund Accounting

The accounts of the School Board are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Revenues are accounted for in these individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The School Board maintains the following six fund types:

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### B. Fund Accounting - continued

#### **GOVERNMENTAL FUND TYPES**

#### **General Fund**

The General Fund is the general operating fund of the School Board. It is used to account for all financial resources except those required to be reported in other funds.

#### **Special Revenue Funds**

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

#### **Debt Service Funds**

Debt Service Funds account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

#### **Capital Projects Funds**

The Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

#### FIDUCIARY FUND TYPES

#### Non-expendable Trust Fund

The Trust Fund is used to account for non-expendable assets held by the School Board in a trustee capacity. The Trust Fund is a private purpose trust fund which provides scholarships to qualified graduates of St. Charles Parish Schools.

### **Agency Funds**

The Agency Funds are used to account for assets held by the School Board in a custodial capacity (assets equal liabilities). The Agency Funds do not involve measurement of results of operations.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

### C. Basis of Accounting/Measurement Focus - Government-Wide Financial Statements (GWFS)

The Statement of Net Assets and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the school board, except for the fiduciary funds. Fiduciary funds are reported only in the Statement of Fiduciary Net Assets at the fund balance sheet level.

The GWFS were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

**Program Revenues**- Program revenues included in the Statement of Activities derive directly from parties outside the School Board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's General Revenues.

Allocation of Indirect Expenses – The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense, which can be specifically identified by function, is included in the direct expenses of each function. Depreciation on buildings other than specific school sites is assigned to the "general administration" function due to the fact that school buildings serve multiple purposes. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

The School Board reports the following major governmental funds:

General Fund is the principal operating fund of the School System and receives most of the revenues derived by the School System from local (principally property and sales taxes) and State sources. General Fund expenditures represent the costs of general School System operations and include functional categories of instruction, supporting services and non-instruction. The General Fund is used to account for all financial resources and expenditures except those required to be accounted for in another fund.

Capital Projects Fund #1 is used to account for construction of facilities funded with the issuance of the 2002 General Obligation bonds.

June 30, 2004

### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

### D. Basis of Accounting/Measurement Focus - Fund Financial Statements

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the combined financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

All government fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included in the balance sheet. This is referred to as the modified accrual basis of accounting. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is followed by the Governmental Fund Types and the Agency Funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., both measurable and available). Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than principal and interest on long-term debt, compensated absences, and claims and judgments which are recognized when due, are recorded when the fund liability is incurred, if measurable.

Revenues from local sources consist primarily of sales and use and property taxes. Year-end accrual of sales and use tax revenue is based upon June and prior months' sales and use taxes collected during July and August of the following year. Property tax revenues and revenues received from the State of Louisiana (the State) are recognized as revenue primarily as received except at year end when they are accrued for a period not exceeding 60 days. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Generally, investment earnings are recorded as earned since they are measurable and available.

Grant funds are considered to be earned when qualifying expenditures are made and all other grant requirement have been met and, accordingly, when such funds are received, they are recorded as deferred revenue until earned.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### D. Basis of Accounting/Measurement Focus - Fund Financial Statements - continued

Ad valorem taxes and the related state revenue sharing (which is based on population and homesteads in the parish) are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, becoming due on November 15 of each year and becoming delinquent on December 31. Taxes are generally collected in December of the current year and January and February of the ensuing year. Ad valorem taxes are recognized when levied to the extent that they are determined to be currently collectible. Taxes were levied on April 23, 2003. The School Board has recorded an allowance against receivables for delinquent ad valorem taxes.

Sales tax is payable on the 20<sup>th</sup> of the month following the sale.

OTHER FINANCING SOURCES (USES)

Operating transfers between funds that are not expected to be repaid are accounted for as other financing sources (uses).

#### TRUST AND AGENCY FUNDS

The Nonexpendable Trust Fund is maintained on a cash basis of accounting; however, the fund, as reported in the accompanying combined financial statements, has been converted to an accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when they are incurred. The Nonexpendable Trust Fund is accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the balance sheet.

Agency Fund assets and liabilities are accounted for on the modified accrual basis of accounting.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### E. Budgetary Accounting

The proposed budget, for the fiscal year beginning July 1, 2003 and ending June 30, 2004, was made available for public inspection and comments from taxpayers, at the School Board office on June 5, 2003. At the July 5, 2003 meeting, the proposed budget was legally adopted by the School Board and revised on February 11, 2004 and May 19, 2004. The School Board adopts budgets for the General Fund, Special Revenue Funds, Capital Project Funds and Debt Service Funds. The budgets are prepared on a basis that differs from generally accepted accounting principles.

The budget, which included proposed expenditures and the means of financing them, was published in the official journal fifteen days prior to the public hearing.

Formal budgetary integration is employed as a management control device during the year. The School Board approves budgets at the fund level giving management the authority to transfer amounts between line items within any fund. However, when management is aware that actual revenues, within a fund, are failing to meet estimated annual budgeted revenues, and/or, actual expenditures exceed budgeted expenditures, by five percent or more, a budget amendment is adopted in an open meeting to reflect such change. Budgeted amounts included in the accompanying combined financial statements include the original adopted budget amounts and all subsequent amendments.

The School Board's budget includes encumbered amounts. Accordingly, the budgetary basis expenditure data reflected in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (non-GAAP basis) and Actual (Statement 7) includes encumbrances and, thus, differs from expenditure data reflected in the Combined Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds (Statement 5) by the amount of encumbrances outstanding at year-end (as reflected within Statement 7).

#### F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### G. Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary integration in the Governmental Fund Types. Purchase orders are recorded for the expenditures of monies in order to reserve that portion of the applicable appropriation. Encumbrances do not constitute GAAP expenditures or liabilities. Encumbrances outstanding at year end are reported as reservations of fund balance since they do not constitute expenditures or liabilities, but represent authorization for expenditures in subsequent years. Unencumbered appropriations lapse at year-end.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### H. Cash and Investments

All cash deposits of the School Board are held at financial institutions. At year-end, the carrying amount of the School Board's deposits was \$8,077,440 and the bank balance was \$11,227,959. The difference is primarily due to outstanding checks at June 30, 2004. Of the bank balance, \$415,433 was covered by Federal depository insurance. In compliance with state laws, \$10,812,526 of these deposits are secured by bank owned securities specifically pledged to the School Board and held in joint custody by an independent custodian bank.

Statutes authorize the School Board to invest in the following types of investment securities:

- (1) Fully-collateralized certificates of deposit issued by qualified commercial banks federal credit unions and savings and loan associations located within the State of Louisiana.
- (2) Direct obligations of the U. S. Government, including such instruments as treasury bills, treasury notes and treasury bonds. Obligations of U. S. Government agencies that are deliverable on the Federal Reserve System.
- (3) Repurchase agreements in government securities in (2) above made with the 36 primary dealers that report to and are regulated by the Federal Reserve Bank of New York.

The School Board's investments, as of June 30, 2004, are categorized below to give an indication of the level of risk assumed by the School Board at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the School Board or its agent in the School Board's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the financial institution's trust department or agent in the School Board's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the financial institution, or by its trust department or agent, but not in the School Board's name.

All investments at June 30, 2004 except the investment of \$7,361,028 in the Louisiana Asset Management Pool (LAMP) are classified as Category 1 or 2 and are detailed as follows (at fair value):

1 2 3 U. S. Government Bonds \$17,576,784 \$8,067,322 -

Investments held at June 30, 2004 consist of \$8,171,626 in LAMP, a local government investment pool. In accordance with GASB Codification Section I50.126, the investment in LAMP at June 30, 2004 is not categorized in the three risk categories provided by GASB codification Section I50.125 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### H. Cash and Investments - continued

LAMP is administered by LAMP, inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA – R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities.

Effective August 1, 2002, LAMP's investment guidelines were amended to permit the investment in government-only money market funds. In its Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955(A)(1)(h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "Investment grade (A-1/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMP's Investment Guidelines were amended to allow the limited investment in A-1 or a-1+ commercial paper.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immense access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

#### i. <u>Inventory</u>

Inventories of the General Fund and Special Revenue Funds are stated at cost, under the first in first out (FIFO) method of accounting, and consist of expendable supplies held for consumption. The General Fund costs are recorded as expenditures at the time the items are consumed. The Special Revenue Funds costs are recorded as expenditures at the time the items are purchased and inventories are determined at the end of the year. Inventories at year-end are equally offset by a fund balance reserve except commodity inventory, which is shown as deferred revenue.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### J. Capital Assets

Capital assets consist of land, buildings, machinery, furniture and equipment with an expected useful life of more than one year. All capital assets are stated at historical cost or estimated historical cost if historical cost is not available. Donated capital assets are stated at fair market value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing capital assets.

Capital assets are recorded in the Government-Wide Financial Statements, but are not reported in the Fund Financial Statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the School Board, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives
Land improvements	20 - 30 years
Buildings and building improvements	25 - 50 years
Furniture and fixtures	5 - 10 years
Vehicles	8 - 10 years
Equipment	5 - 10 years

#### K. Compensated Absences

The following information was used to determine information presented in the accompanying statements:

- (1) Vacation is earned from July 1 through June 30. Only twelve-month employees accrue vacation. The amount of vacation claimed during the fiscal year is the reported expenditure of that period in the General Fund. A long-term liability of \$225,583 has been reported for vacation and salary-related benefits in the Government-Wide Financial Statements. This liability represents accumulated vacation at June 30, 2004 and any current portion would be insignificant to the General Fund.
- (2) Employees are awarded sick leave on July 1 for the upcoming year. Nine, ten, eleven and twelve-month employees receive ten, eleven, twelve, and thirteen days, respectively. These days may be accumulated until retirement. On termination, other than retirement, no accumulated sick leave is granted. On retirement, an employee receives credit for a maximum of 25 accumulated days. The state partially reimburses the School Board for accumulated sick leave paid retirees in the year subsequent to that in which the benefit is paid.

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### K. Compensated Absences - continued

The amount of sick leave expenditure reported in the General Fund for the fiscal year is the amount actually claimed by employees during that period. A long-term liability of \$6,980,417 representing salary and salary-related benefits is reported in the Government-Wide Financial Statements. This liability is an estimate based upon historical experience of those benefits paid by the School Board.

(3) Any employee with a teaching certificate is entitled to one semester of sabbatical leave after three or more years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Unused sabbatical leave may be carried forward to one or more periods subsequent to that in which it is earned, but no more than two semesters of leave may be accumulated. Sabbatical leave does not vest. Leave may only be taken for rest and recuperation (approved by the doctor) or professional and cultural improvement. All sabbatical leaves must be approved by the School Board.

The School Board is limited to granting sabbatical leaves totaling a maximum of 5% of eligible employees in any one year. The employee receives his/her salary less a 35% reduction.

The sabbatical leave expenditures reported in the General Fund represents actual sabbatical leave claimed during the fiscal year. A long-term liability of \$1,815,475 representing salary and salary-related benefits is reported in the Government-Wide Financial Statements.

#### L. Reserves and Designations of Fund Balance

Reserves and designations reported in the financial statements represent portions of fund balance which are not appropriable for expenditures or have been segregated for specific future uses. Reserves and designations of fund balance at June 30, 2004 are as follows:

June 30, 2004

#### NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### L. Reserves and Designations of Fund Balance - continued

Amounts set aside for the replacement of band uniforms is shown as designated for school activities. Designated for self-insurance represents an amount set aside for vehicle physical damage claims. Designated for maintenance is set aside for maintenance projects based on capital improvement list. Designated for satellite high school is for the equipment necessary for future high school. Designated for bus replacement represents plan approved in passage of the one-cent sales tax. Designation for textbooks is for early implementation of math textbook adoption.

#### M. Interfund Receivables and Payables

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables or payables." These amounts are eliminated in the statement of net assets except for residual amounts due to fiduciary funds.

#### N. Sales and Use and Ad Valorem Tax

The sales and use tax department of the School Board collects all sales and use taxes for St. Charles Parish. At June 30, 2004, the sales tax department collected a five percent sales and use tax of which two percent is collected for the St. Charles Parish Council for a stipulated fee. The remaining three percent of the sales and use tax can be used by the School Board for any lawful school purpose. Approximately seven percent of collections are deposited into the debt service funds of the School Board as required by bond indenture and the balance is deposited into the General Fund.

The cost of collecting sales and use tax for the year ended June 30, 2004, amounted to \$1,063,538. This expense was reduced by a reimbursement from the St. Charles Parish Council of \$411,016 and recovered audit and legal costs of \$72,295. The net cost of collection to the St. Charles School Board was \$580,227 which is included in the general administration expenditures of the General Fund.

The ad valorem tax is due and becomes an enforceable lien on property on the first day of the month following the filing of the tax rolls by the assessor with the Louisiana Tax Commission by December 1<sup>st</sup>. The tax is delinquent thirty days after the due date. The tax is levied based on property values determined by the St. Charles Parish Assessor's Office. All property is assessed at 13% of its fair market value. The Parish has no official lien date. The tax is billed and collected by the St. Charles Parish Sheriff's office, which receives a certain millage for its service.

June 30, 2004

#### NOTE 2 - SALES AND USE TAXES PAID UNDER PROTEST

The deposit balance of the Sales Tax Agency Fund includes \$640,418 held in escrow for sales and use taxes paid under protest. The amount includes interest earned on the escrow funds invested in addition to the sales and use taxes paid under protest by Pontchartrain Materials, Corp., Shell Oil Refinery, International Matex Tank Terminals, Archer Daniels Midland and Neff Rentals, Inc. These monies are not available for use at June 30, 2004 pending the outcome of litigation involving the above companies and the St. Charles Parish School Board.

#### NOTE 3 - EXPENDITURES - ACTUAL AND BUDGET

The following individual funds had actual expenditures (on a budgetary basis) which exceeded budgeted expenditures for the year ended June 30, 2004:

<u>Fund</u>	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Special Revenue Funds			
NCLB Title I	\$1,309,113	\$1,414,178	\$(105,065)
NCLB Title III	15,137	16,493	(1,356)
Headstart/Early Headstart	1,623,537	1,660,708	(37,171)
Eight G	184,869	377,391	(192,522)
NCLB Title V & VI	43,580	59,627	(16,047)
Debt Service Funds			
Sinking Fund #1	5,274,944	5,302,337	(27,393)
Capital Projects Funds			
Capital Projects Fund No.1	10,080,000	10,270,814	(190,814)

The variance in the NCLB Funds, Headstart/Early Headstart and Eight G Funds was due to additional funds allocated to the district. The variance in the Sinking Fund #1 was due to an increase in bank fees. The Increase in the Capital Projects Fund No. 1 was due to unexpected expenditures at the end of the year.

#### **NOTE 4 - RECEIVABLES**

The receivables of \$6,490,630 at June 30, 2004 are comprised of the following:

Taxes receivable	\$ 2,676,940
Due from Other Governments	3,026,423
Grants from private organizations	50,000
Due from fiduciary funds	153,199
All other	584,068
	<b>\$</b> 6,490,630

# June 30, 2004

### **NOTE 5 - LEVIED TAXES**

The following is a summary of levied ad valorem tax millages: Parishwide taxes:

Constitutional tax	4.10
Maintenance tax	42.97
Construction tax	4.90
Bond and interest tax	6.86

### **NOTE 6 - CHANGES IN CAPITAL ASSETS**

A summary of changes in capital assets follows:

	Balance			Balance

Plant services	66,996
Student transportation services	529,857
Central Services	5,901
Food services	40,688
	<u>\$2,247,111</u>

#### June 30, 2004

#### **NOTE 7 - PAYABLES**

Accounts, salaries and other payables of \$12,043,816 at June 30, 2004 consist of the following:

Accrued salaries	\$ 4,384,862
Accrued benefits and payroll withholding	5,462,400
Insurance liabilities	169,140
Payable to vendors	2,027,414
	<u>\$ 12,043,816</u>

#### **NOTE 8 - RETIREMENT PLAN**

The School Board provides pension benefits for all employees through two separate cost-sharing, multiple-employer, defined benefit public employee retirement systems - the Teachers' Retirement System of Louisiana (TRSL), Regular and Plan A; and the Louisiana School Employees' Retirement System (LSERS). Each plan is administered by a board elected from its membership and issues a separate financial report that includes financial statements and required supplementary information. Those reports may be obtained by writing or calling the plan.

Teachers Retirement System of Louisiana Louisiana School Employees Retirement System

Post Office Box 94123 Post Office Box 44516

Baton Rouge, Louisiana 70804-9123 Baton Rouge, Louisiana 70804-4516

(504) 925-6446 (504) 924-6484

All employees who meet the legal definition of teacher are eligible for membership in the Teachers' Retirement System upon employment. Teachers' Retirement System - Plan A was formed in 1983 when the Teachers' Retirement System merged with the Louisiana School Lunch Retirement System. School Board employees who were in the School Lunch System were transferred into Teachers' - Plan A. This system retained the same benefits and contribution rates as the Louisiana School Lunch Retirement System. All lunch employees hired after July 1, 1983 were enrolled in Teachers' - Regular.

Employees participating in the Teachers' Retirement System - Regular are entitled to a retirement benefit at age 60 with 10 years of creditable service, age 55 with 25 years of service, or at any age with 30 years of creditable service. The retirement benefit is 2% or 2.5% (depending on years of service and age) of the member's average salary of the 36 highest successive months of employment multiplied by the number of years of service. The system also provides death and disability benefits. Benefits are established by state legislation

June 30, 2004

#### **NOTE 8 - RETIREMENT PLAN - continued**

Employees participating in the Teachers' Retirement System - Plan A are entitled to a retirement benefit at age 60 with 10 years of creditable service, age 55 with 25 years of creditable service, or at any age with 30 years of creditable service. The retirement benefit is generally 2.5% or 3% (depending on the years of service or age) of average compensation for the highest 36 consecutive months of employment multiplied by years of service. The system also provides death and disability benefits. Benefits are established by state legislation.

The Louisiana School Employees' Retirement System provides retirement benefits for non-teacher school employees excluding those classified as lunch workers within the Public Educational System of Louisiana. Membership is mandatory for all employees under age 60, employed by the School Board on a permanent basis more than 20 hours per week. Employees are entitled to a retirement benefit at age 60 with 10 years of creditable service, at age 55 with 25 years of creditable service or at any age with 30 years of creditable service. The retirement benefit is generally 2.5% of the average compensation for the 3 highest consecutive years of service multiplied by the number of years of service. For members entering the system prior to July 1, 1986, a supplementary allowance of \$24 per annum is also provided for each year of service. The system also provides death and disability benefits. Benefits are established by state legislation.

For the years ended June 30, 2004, 2003 and 2002, state legislation has established the obligation of the School Board for contributions at 13.8%, 13.1% and 13.1% of employee earnings, respectively, for the Teachers' Regular Plan, and 13.8%, 13.1 and 13.1% of employee earnings, respectively, for the Teachers' Plan A. Additionally, for the years ended June 30, 2004, 2003 and 2002, state legislation has established the obligation of the employees for contributions at 8.0%, 8.0% and 8.0% of employee earnings, for both the Teachers' Regular Plan and Teachers Plan A. For the years ended June 30, 2004, 2003 and required members contribution for the 2002, the Louisiana School Employees Retirement System, the members portion was 7.5%, 6.0% and 6.0% respectively. The employer's portion for the year ended June 30 2004 was 8.5% while 2003 and 2002 was funded through prior year reserves and therefore no contributions were necessary.

Contributions to these retirement systems made and required were as follows for the year ended June 30, 2004:

Teacher's	Teacher's	LA School
Regular	Plan A	<u>Employees</u>
\$6,710,022	\$ 38,828	\$ 414,811
3,895,948	25,604	470,120
6,910,007	46,962	-
3,741,442	33,303	405,364
5,088,611	48,625	-
3,590,709	36,451	396,828
	\$6,710,022 3,895,948 6,910,007 3,741,442 5,088,611	Regular       Plan A         \$6,710,022       \$ 38,828         3,895,948       25,604         6,910,007       46,962         3,741,442       33,303         5,088,611       48,625

June 30, 2004

#### NOTE 9 - POSTRETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

It is School Board policy to provide certain continuing health care and life insurance benefits for its retired employees. Substantially all of the board's employees become eligible for those benefits if they reach normal retirement age or obtain disability retirement while working for the Board. There are 528 and 538 participants currently eligible to receive health care and life insurance benefits, respectively. Those benefits for retirees and similar benefits for active employees are provided through an insurance company whose monthly premiums are paid jointly by the employee and by the Board. The School Board's costs of providing retiree health care and life insurance benefits are recognized as expenditures when the monthly premiums are paid. For 2004, the costs of retiree benefits totaled \$2,506,165, of which, \$326,810, was paid by retirees.

#### NOTE 10 - CHANGES IN GENERAL LONG-TERM DEBT

The following is a summary of the long-term obligation transactions for the year ended June 30, 2004:

	Bonded	Compensated	
	Debt	Absences	_Total_
Long-term obligations at July 1, 2003	\$ 64,582,000	\$ 8,269,514	\$ 72,851,514
Additions	9,540,000	3,405,787	12,945,787
Deductions	13,252,000	2,653,826	<u>15,905,826</u>
Long-term obligations at June 30, 2004	\$ <u>60,870,000</u>	\$ <u>9,021,475</u>	\$ <u>69,891,475</u>
Due within one year	\$ <u>3,990,000</u>	\$	\$ <u>3,990,000</u>

The School Board has revenue and general obligation bonds with maturities from 2005 to 2022 and interest rates ranging from 2.00% to 7.0% as shown below:

<u>Description</u>	Original Amount	Interest Rates	Amount Outstanding
General Obligation Bonds:			_
March 1, 2000 Refunding	10,810,000	3.70 - 4.25%	6,055,000
March 1, 2002	28,000,000	4.20 - 5.00%	28,000,000
February 1, 2003	2,945,000	2.00 - 2.60%	2,390,000
April 1, 2004	9,540,000	2.00 - 5.00%	9,540,000
Sales Tax Debt:			
March 1, 1999	13,850,000	4.00 - 7.00%	11,580,000
September 1, 1999	2,000,000	4.80%	1,220,000
Certificates of Indebtedness:			
March 1, 2003	2,085,000	3.68%	<u>2,085,000</u>
Total Outstanding as of June	30, 2004		<u>\$60,870,000</u>

June 30, 2004

#### NOTE 10 - CHANGES IN GENERAL LONG-TERM DEBT - continued

In the fiscal year ended June 30, 2004, the School Board issued \$9,540,000 general obligation refunding bonds to be repaid from the Sinking Fund #1. These bonds were issued to refund the final installment of \$9,720,000 due on 1996 bond issue.

All principal and interest requirements are funded in accordance with Louisiana law by the annual tax levy on taxable property within the parish taxing districts and by a pledge on one cent on sales tax collections. In addition, at June 30, 2004, the School Board had accumulated \$5,870,931 in the Debt Service Funds for future debt requirements. The bonds are due, in total by year, as follows:

Year Ending	Bond	Interest	
June 30,	<b>Payment</b>	Payment	<u>Total</u>
2005	3,990,000	2,665,671	6,655,671
2006	4,200,000	2,565,682	6,765,682
2007	3,120,000	2,397,914	5,517,914
2008	3,245,000	2,282,943	5,527,943
2009	3,440,000	2,158,180	5,598,180
2010	3,300,000	2,019,002	5,319,002
2011	3,455,000	1,884,092	5,339,092
2012	3,595,000	1,745,195	5,340,195
2013	3,770,000	1,592,990	5,362,990
2014	3,690,000	1,422,920	5,112,920
2015	3,885,000	1,240,925	5,125,925
2016	4,080,000	1,048,888	5,128,888
2017	3,020,000	847,213	3,867,213
2018	3,180,000	698,675	3,878,675
2019	3,355,000	542,263	3,897,263
2020	2,385,000	377,250	2,762,250
2021	2,510,000	258,000	2,768,000
2022	2,650,000	132,500	2,782,500
Totals	\$ <u>60,870,000</u>	\$ <u>25,880,303</u>	\$ <u>86,750,303</u>

In accordance with Louisiana Revised Statute 39:562, the School Board is legally restricted from incurring long-term bonded debt in excess of 35 percent of the assessed value of taxable property. At June 30, 2004, the statutory limit was \$279,544,081 and outstanding bonded general obligation debt totaled \$45,985,000.

June 30, 2004

# NOTE 11 - DUE FROM/TO OTHER FUNDS

Individual fund balances due from/to other funds at June 30, 2004 are as follows:

Total Operating Transfers	<u>\$ 2,514,933</u>	<u>\$2,514,933</u>	

June 30, 2004

#### NOTE 11 - DUE FROM/TO OTHER FUNDS - continued

The General Fund transfers funds to the Special Revenue Funds for prior years pay increases for the Lunch Fund. The General Fund transfers funds to the Debt Service Funds for repayment of revenue bonds issued in FY2000. The General Fund transferred funds to the Capital Project Funds for major construction projects in FY2004. The transfer from Capital Projects Fund #2 to Capital Projects Fund #1 represents close out of all bond projects of the Capital Projects Fund #2 fund.

#### **NOTE 12 - CONTINGENT LIABILITIES**

The sales and use taxes paid under protest (note 2) are being held in escrow in the Sales Tax Agency Fund until the outcome of the litigation is resolved. In addition, the School Board is involved in several other lawsuits. All cases are covered by the Board's insurance. The maximum exposure of the school district is the insurance deductible of \$100,000, and in the opinion of the legal counsel for the School Board, resolution of these cases in excess of the insurance coverage is unlikely and would not involve a substantial liability for the School Board.

The School Board is currently self-insured for workmen's compensation insurance. Premiums were paid into the General Fund and were available to pay claims, claims reserves and administrative costs of the program. An excess coverage policy was purchased by the School Board to limit its potential exposure. Under the excess workers' compensation policy, the School Board pays all individual claims up to \$175,000 with a maximum exposure of \$725,000. The School Board secured an irrevocable letter of credit as required by the Office of Workers' Compensation in the amount of \$100,000. As of June 30, 2004 an accrual for open and known instances has been recorded in the accompanying financial statements in the amount of \$169,140 for liabilities from the previous years. This liability is included in accounts payable on Statement 1. Changes in the General Fund's claims liability amount in fiscal years 2004 and 2003 were:

	<u>2004</u>	<u>2003</u>
Balance at Beginning of Fiscal Year	\$232,609	\$ 35,793
Claims and Changes in Estimates	433,407	335,209
Claims Payments	<u>(496,876</u> )	(138,393)
Balance at End of Fiscal Year	\$169,140	\$232,609

#### **NOTE 13 - FEDERAL GRANTS**

The School Board participates in a number of Federally assisted grant programs. These programs are subject to program compliance audits by the grantors. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. Management is aware of none that would involve a substantial liability for the School Board.

June 30, 2004

#### **NOTE 14 - COMMITMENTS**

The Board has a computer maintenance contract with G. E. Capital Technology Solutions from July 1, 2004 through June 30, 2009 with annual payments of \$279,420, \$287,803, \$296,437, \$305,330, \$314,490 for FY05, FY06, FY07, FY08, FY09 respectively.

#### NOTE 15 - BUDGET TO GAAP RECONCILIAITON

The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual presents comparisons of the legally adopted original budget and final budget (non-GAAP basis) with actual data on a budgetary basis. In the General Fund, accounting principles applied for purposes of developing data on the budgetary basis differ from those used to present financial statements in conformity with GAAP. A reconciliation of this basis and timing differences is presented below:

Excess of revenues and other financing sources over expenditures and other financing uses (budgetary basis) \$	4,364,032
Adjustments:	
To reverse June 30, 2004 encumbrances recorded as expenditures	
on the budgetary basis	666,017
To add back prior year's encumbrances paid in 2004 but not	
recorded as expenditures in 2004	(547,181)
Excess of revenues and other financing sources over expenditures	
And other financing uses (GAAP basis) \$	<u>4,482,868</u>

#### NOTE 16 - COMPOSITION OF OTHER GOVERNMENTAL FUNDS

Except for Capital Projects Fund No. 1, all special revenue, debt service and other capital project funds are considered non-major funds and are reported on a combined basis as "Other Governmental Funds" in the accompanying basic financial statement. The following reconciles the detail financial statements for the individual fund groups to the amounts reported as other governmental funds in the basic financial statements.

					Excess (deficiency) of
					revenues and other sources
	Total	Total	Total Fund	Total	over expenditures

**Special Revenue Funds** 

#### SPECIAL REVENUE FUNDS

No Child Left Behind (NCLB) Title I is a program for economically and educationally deprived children which is federally financed, state administered and locally operated by the School Board. The activities supplement, rather than replace state and locally mandated activities.

No Child Left Behind (NCLB) Title III is a program by which federal government provides money to purchase equipment and materials needed to expand and improve instruction in the schools.

Headstart/Early Headstart Fund is a federally financed program. Medical, dental and mental hygiene, social services, and field trips are available to participating children.

No Child Left Behind (NCLB) Title II is a federally funded program and is governed by Public Law 98-377. It purpose is to assist educational agencies in strengthening elementary and secondary educational programs. The purpose of Title II is to improve the skills of teachers and instruction in mathematics, science, computer learning, and foreign languages, and to increase the access of all students to such instruction, thereby contributing to strengthening the economic security of the United States.

The <u>Louisiana Quality Education Support Fund 8 (g)</u> is a dropout prevention program in place in the two high schools in St. Charles Parish. It is an alternative approach designed to help "at risk" students or potential dropouts and is conducted simultaneously with the regular school program.

No Child Left Behind (NCLB) Title IV is designed to provide a comprehensive substance abuse prevention program in grades K-12. All participants are encouraged to understand the effects of substance abuse on the individual, the family, and society as a whole.

The <u>Lunch Fund</u> accounts for the operation of the school food service programs in the parish school system. The Lunch Fund is supported by sales to students and faculty and by state, federal and local subsidies.

The fund titled <u>Other Grants</u> accounts for the federal and state and Union Carbide grants appropriated for the education of children of St. Charles Parish evaluated to have special needs in addition to the regular instructional programs.

No Child Left Behind (NCLB) Titles V and VI are programs by which federal government provides money to purchase equipment and materials needed to expand and improve instruction in the schools.

**Debt Service Funds** 

#### **DEBT SERVICE FUNDS**

Sinking Fund No. 1 is funded by ad valorem taxes and provides for repayment of general obligation bond issues maturing within the period September 1, 1997 through March 1, 2022.

Sinking Fund No. 2 is funded by the General Fund and provides for repayment of certificates of indebtedness issues maturing within the period January 1, 2001 through September 1, 2003.

Sinking Fund No. 3 is funded by first priority use on sales tax revenue limited to the annual amount required for scheduled repayment. Final payment due March 1, 2019.

Sales Tax Bond Reserve Fund was established and is required by Board resolutions dated February 14, 1979, April 9, 1980 and March 4, 1999. The reserve fund is funded by sales tax revenues and is supportive of Sinking Fund No. 3. Scheduled monthly payments were made into the reserve fund until the fiscal year ended June 30, 1984 at which point the maximum amount to be accumulated pursuant to the resolutions 1979 and 1980 resolutions was achieved.

REVENUES		
Local sources:		
Ad valorem tax	\$	3,493,169
Earnings on investments		3,483
Other local revenue		, -
Federal sources:		
FEMA - Disaster relief		3,573
Total revenues		3,500,225
EXPENDITURES		
Current:		
Support services:		
General administration		117,567
Total support services		117,567
Capital outlay:		_
Salaries and benefits		1,767,876
Sites		-
Furniture and equipment		-
Construction contracts		1,647,827
Consulting services		5,260
Total capital outlay		3,420,963
Total expenditures		3,538,530
(Deficiency) of revenues over		
expenditures		(38,305)
Other financing sources (uses):		
Proceeds from sale of bonds		-
Discount on debt issued		-
Operating transfers in		2,000,000
Transfers out		-
Total other financing sources (uses)		2,000,000
Excess (deficiency) of revenues and other		
sources over expenditures		1,961,695
Fund balances at beginning of year		5,371
Fund balances at end of year	\$	1,967,066

Trust and Agency Funds

#### TRUST AND AGENCY FUNDS

The <u>Ethel Schoeffner Scholarship Fund</u> is a fiduciary fund established by Ms. Schoeffner to aid graduates of the St. Charles Parish School System who are entering college, majoring in either education or nursing.

The Student Activity Fund accounts for student projects in the school. While the funds are under the supervision of the School Board, these funds belong to the individual schools or their student bodies and are not available for use by the School Board.

The <u>Sales Tax Fund</u> accounts for the collection and distribution of St. Charles Parish's five percent sales and use tax. Three percent is dedicated to the St. Charles Parish School Board and two percent is dedicated to the St. Charles Parish Council. The School Board sales tax ordinances provide that the proceeds can be used for general School Board expenses and for debt service.

Region I Service Center accounts for a statewide network of centers designed to improve and develop the professional activities of employees in education. The St. Charles Parish School Board has been designated the fiscal agent for Region I. While these funds are under the supervision of the School Board, they are not owned by the School Board.

## Computation of Direct and Overlapping Bonded Debt

## **General Obligation Bonds**

June 30, 2004 (Unaudited)

<u>JURISDICTION</u>	NET GENERAL OBLIGATION BONDED DEBT OUTSTANDING	PERCENTAGE APPLICABLE TO GOVERMENT	AMOUNT APPLICABLE TO GOVERNMENT
Direct:			
St. Charles Parish School Board	\$45,985,000	100%	\$45,985,000
Overlapping:			
St. Charles Parish Hospital	6,865.000	100%	\$6,865,000
St. Charles Parish Government	41,795,000	100%	41,795,000
Total	\$94,645,000	=	\$94,645,000

All property within St. Charles Parish must bear the debt of the St. Charles Parish School Board; therefore, all other reporting entities within the parish fall under the Board's jurisdiction. The computation of the amount of debt applicable to the Board, within the context that such debt will be serviced through levies upon the same properties which the Board taxes, is determined by applying the above percentages to the net debt outstanding.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS BASED UPON THE AUDIT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the School Board of St. Charles Parish, Louisiana

We have audited the financial statements of The St. Charles Parish School Board, as of and for the year ended June 30, 2004, and have issued our report thereon dated November 30, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered The St. Charles Parish School Board's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether The St. Charles Parish School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the finance committee and management, the State of Louisiana Legislative Auditor, federal awarding agencies, state funding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND INTERNAL CONTROL OVER COMPLIANCE APPLICABLE TO EACH MAJOR FEDERAL AWARD PROGRAM AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Members of the School Board of St. Charles Parish, Louisiana

#### Compliance

We have audited the compliance of The St. Charles Parish School Board, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2004. The St. Charles Parish School Board's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the St. Charles Parish School Board's management. Our responsibility is to express an opinion on the St. Charles Parish School Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about The St. Charles Parish School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on The St. Charles Parish School Board's compliance with those requirements.

In our opinion, The St. Charles Parish School Board complied, in all material respects with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004.

#### Internal Control Over Compliance

The management of The St. Charles Parish School Board is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contract, and grants applicable to federal programs. In planning and performing our audit, we considered The St. Charles Parish School Board's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

#### Schedule of Expenditures of Federal Awards

Selvitte + Touche LLP

We have audited the general purpose financial statements of The St. Charles Parish School Board as of and for the year ended June 30, 2004, and have issued our report thereon dated November 30, 2004. Our audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis as required by OMB Circular A-133 and is not a required part of the general purpose financial statements. This schedule is the responsibility of the management of The St. Charles Parish School Board. Such information has been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects when considered in relation to the general purpose financial statements taken as a whole.

This report is intended solely for the information and use of the St. Charles Parish School Board's finance committee and management, federal awarding agencies, the State of Louisiana Legislative Auditor, state funding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

#### FOOTNOTES TO THE SCHEDULE OF FEDERALLY ASSISTED PROGRAM ACTIVITY

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

The accompanying Schedule of Federally Assisted Program Activity has been prepared on the accrual basis of accounting. Grant revenues are recorded for financial reporting purposes when the School Board has met the qualifications for respective grants. Several programs are funded by State of Louisiana appropriations and federal funds. Cost incurred in programs partially funded by federal grants are applied against federal grant funds to the extent of revenue available when such costs properly apply to the grant. The information in this schedule is presented in accordance with the requirements of OMB Circular A 133, Audits of State, Local Governments, and Non-Profit Organizations. Therefore, some amounts are presented in, or used in the preparation of, the basic financial statements.

#### Accrued and Deferred Reimbursement

Various reimbursement procedures are used for federal awards received by the School Board. Consequently, timing differences between expenditures and program reimbursements can exist at the beginning and end of year. Accrued balances at year-end represented an excess of reimbursable expenditures over each reimbursements received. Generally, accrued balances caused by differences in the timing of cash reimbursements and expenditures will be reversed in the remaining grant period.

CFDA No.

#### ST CHARLES PARISH SCHOOL BOARD

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2004

#### Part I - Summary of Auditor's Results

- 1. The independent auditors' report on the financial statements expressed an unqualified opinion.
- 2. The statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses is not applicable.
- 3. No instance of noncompliance considered material to the financial statements was disclosed by the audit.
- 4. The statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses is not applicable.
- 5. The independent auditors' report on compliance with requirements applicable to major federal award programs expressed an unqualified opinion.
- 6. The audit disclosed no findings required to be reported by OMB Circular A-133.
- 7. The programs tested as major programs for the fiscal year ended June 30, 2004 include:

a.	Headstart	93.600
b.	School Lunch Program	10.555
c.	Breakfast Program	10.553

- 8. A threshold of \$ 300,000 was used to distinguish between Type A and Type B programs as those terms are defined in OMB Circular A-133.
- 9. The Organization did qualify as a low-risk auditee as that term is defined in OMB Circular A-133.

#### Part II - Financial Statement Findings Section

There were no findings related to the financial statements for the year ended June 30, 2004.

#### Part III - Federal Award findings and Questioned Cost Section

The School Board had no findings or questioned costs requiring disclosure for the year ended June 30, 2004.

## SUMMARY OF PRIOR YEAR AUDIT FINDINGS YEAR ENDED JUNE 30, 2004

There were no items identified in the course of the conduct of the prior year's examination that were reported.

#### INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Members of the School Board of St. Charles Parish, Louisiana:

We have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by the management of the St. Charles Parish School Board and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of St. Charles Parish School Board and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE) Bulletin. This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows:

#### General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule H-1)

- 1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:
  - Total General Fund Instructional Expenditures,
  - Total General Fund Equipment Expenditures,
  - Total Local Taxation Revenue,
  - Total Local Earnings on Investment in Real Property,
  - Total State Revenue in Lieu of Taxes,
  - Nonpublic Textbook Revenue, and
  - Nonpublic Transportation Revenue.

#### Education Levels of Public School Staff (Schedule H-2)

 We reconciled the total number of full-time classroom teachers per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule H-4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of June 30, 2004.

- 3. We reconciled the combined total of principals and assistant principals per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule H-4) to the combined total of principals and assistant principals per this schedule.
- 4. We obtained a list of principals, assistant principals, and full-time teachers by classification as of June 30, 2004 and as reported on the schedule. We traced a random sample of 25 teachers to the individual's personnel file and determined that the individual's education level was properly classified on the schedule

#### Number and Type of Public Schools (Schedule H-3)

5. We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application).

#### Experience of Public Principals and Full-time Classroom Teachers (Schedule H-4)

6. We obtained a list of principals, assistant principals, and full-time teachers by classification as of June 30, 2004 and as reported on the schedule and traced the same sample used in procedure 4 to the individual's personnel file and determined that the individual's experience was properly classified on the schedule

#### Public School Staff Data (Schedule H-5)

- 7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined that the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.
- 8. We recalculated the average salaries and full-time equivalents reported in the schedule.

#### Class Size Characteristics (Schedule H-6)

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to the Schedule H-3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1, 2003 roll books for those classes and determined that the class was properly classified on the schedule.

#### Louisiana Educational Assessment Program (LEAP) for the 21st Century (Schedule H-7)

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by the School System.

#### The Graduation Exit Exam for the 21st Century (Schedule H-8)

11. We obtained test scores as provided by the testing authority and reconciled the scores as reported by the testing authority to the scores reported in the schedule by the School System.

#### The Iowa Test (Schedule H-9)

12. We obtained test scores as provided by the testing authority and reconciled the scores as reported by the testing authority to the scores reported in the schedule by the School System.

No exceptions were found as a result of applying the above procedures.

Steloitte + Touche LLP

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of management of St. Charles Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and is not intended to be and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

#### As of June 30, 2004

	All Classroom Teachers	All Classroom Teachers (Excluding ROTC)
Average Classroom		
Teachers' Salary	41,137	40,998
Including Extra Compensation		·
Average Classroom		
Teachers' Salary	40,423	40,267
Excluding Extra Compensation		ŕ
Number of Teacher Full-time		
Equivalents (FTEs) used in	784	773
Computation of Average Salaries		

**Note:** Figures reported include all sources of funding (i.e. federal, state, and local) but exclude employee benefits. Generally, retired teachers rehired to teach receive less compensation than non-retired teachers and ROTC teachers receive more compensation because of federal supplement. Therefore, these teachers are excluded from the computation in the last column. This schedule excludes day-to-day substitutes and temporary employees.

#### **Class Size Characteristics**

#### As of October 1, 2003

	1	Class Size Range											
	1 -	20	21	- 26	27	- 33	34+						
School Type	Percent	Number	Percent	Number	Percent	Number	Percent	Number					
Elementary	70.43%	1,286	28.20%	515	1.15%	21	0.22%	4

Middle School Activity Classes	39.81%	43	23.15%	25	24.07%	26	12.96%	14					
High School	42.67%	367	29.53%	254	27.67%	238	0.12%	1					
High School Activity Classes	65.03%	106	12.88%	21	12.27%	20	9.82%	16					

**Note:** The Board of Elementary and Secondary Education has set specific limits on the maximum size of classes at various grade levels. The maximum enrollment in grades K-3 is 26 students and maximum enrollment in grades 4-12 is 33 students. These limits do not apply to activity classes such as physical education, chorus, band and other classes without maximum enrollment standards. Therefore, these classes are included only as separate line items.

#### The IOWA Tests

#### As of June 30, 2004

	Composite					
	2004	2003	2002			
Test of Basic Skills (ITBS)						
Grade 3	65	64	60			
Grade 5	62	64	58			
Grade 6	56	58	63			
Grade 7	60	61	58			
Tests of Educational Development (ITED)						
Grade 9	57	57	55			

Scores are reported by National Percentile Rank. A student's National Percentile Rank shows the student's relative position or rank as compared to a large, representative sample of students in the same grade from the entire nation. A score of 72 indicates that the student scored the same or better than 72 percent of the students in the norm group.
