The Honorable Mayor James Fultz and Members of the Board of Aldermen Village of Tangipahoa, Louisiana

Commissioners:

I have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Village of Tangipahoa, Louisiana, as of June 30, 2004, and for the year then ended, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village of Tangipahoa's management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Village of Tangipahoa. The information has been subjected to the auditing procedures applied in the examination of the financial statements and, in my opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

In my opinion, the basic financial statements and supplemental information referred to in the above paragraphs, present fairly, in all material respects, the financial position of the governmental activities, business-type activities, and each major fund, of the Village of Tangipahoa, Louisiana, as of June 30, 2004, and the respective changes in financial position and cash flows of it's proprietary fund types, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Page 2

In accordance with Government Auditing Standards, I have also issued my report dated December 6, 2004, on my consideration of the Village of Tangipahoa, Louisiana's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

Management's Discussion and Analysis on pages 3-10 is not a required part of these basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted primarily of inquires of management regarding the methods of measurement and presentation of the supplemental information. However, I did not audit the information and express no opinion on it.

William R. Durden, CPA

December 6, 2004

# Required Supplemental Information (Part I) Management's Discussion and Analysis

## Management's Discussion and Analysis As of and for the Year Ended June 30,2004

#### Introduction

The Village of Tangipahoa, Louisiana (the Village) is pleased to present its Annual Financial Statements developed in compliance with Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - Management's Discussion and Analysis - For State and Local Governments* (GASB 34), and related standards. The Village was not required to implement GASB 34 until the fiscal year ending June 30, 2004.

1

The Village's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Village's financial activity, (c) identify changes in the Village's financial position, (d) identify any significant variations from the Village's financial plan, and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the Village's financial statements on pages 17 through 31 of this report.

#### **Financial Highlights**

• At June 30, 2004, the Village's assets exceeded its liabilities by \$1,434,887 (net assets). Of this amount, \$295,367 (unrestricted net assets) may be used to meet the Village's ongoing obligations to its citizens.

• For the year ended June 30, 2004, the Village's total net assets increased by \$6,631.

• At June 30, 2004, the Village's governmental funds reported combined ending fund balances of \$63,695, a decrease of \$858 for the year. Of this amount, 89%, or \$56,724 is available for spending at the Village's discretion (unreserved fund balances).

• At June 30, 2004, the Village's proprietary funds reported combined ending net assets of \$1,342,087, a decrease of \$9,523 for the year. Of this amount, approximately 18%, or \$238,647, is available for spending at the Village's discretion (unrestricted net assets).

#### **Overview of the Annual Financial Report**

The financial statement focus is on both the Village as a whole and on the major individual funds. Both perspectives, government-wide and major funds, allow the user to address relevant questions, broaden a basis for comparison, and enhance the Village's accountability. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The MD&A is intended to serve as an introduction to the Village's basic financial statements, which consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

## Management's Discussion and Analysis As of and for the Year Ended June 30,2004

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances in a manner similar to a private-sector business. Governmental and business-type activities are presented in separate columns along with a total column for the primary government. Component unit information, if applicable, is presented separately in the notes to the financial statements. ŧ.

ż.

The Statement of Net Assets presents information on the Village's assets and liabilities using the accrual basis of accounting, in a manner similar to the accounting used by private business enterprises. The difference between the assets and liabilities is reported as net assets. Over time, the increases or decreases in net assets and changes in the components of net assets may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the Village's net assets changed during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the Village's general tax and other revenues. This is intended to summarize and simplify the reader's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

In both of the government-wide financial statements, the Village's activities are divided into two types:

• Governmental activities - Most of the Village's basic services are reported here, including general government, public safety, highways and streets, sanitation, health and welfare. These activities are financed primarily by property taxes, franchise taxes, sales taxes, and fines.

• Business-type activities - The Village charges a fee to customers to help it cover all of the cost of the services provided. The Village's water, natural gas, and sewer utility systems are reported in this section.

The government-wide financial statements include the Village of Tangipahoa, Louisiana (primary government) only and can be found on pages 11 through 13 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related and legal requirements. The Village uses two categories of funds to account for financial transactions: governmental funds and proprietary funds. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

## Management's Discussion and Analysis As of and for the Year Ended June 30,2004

Governmental funds are used to account for most of the Village's basic services. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances that are left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Village's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. The basic governmental fund financial statements can be found on pages 20 through 25 of this report.

Proprietary funds account for water, natural gas, and sewer utility services provided by the Village to its customers. Proprietary funds statements provide the same type of information as the government-wide financial statements, but the fund presentation provides more detail. The basic proprietary fund financial statements can be found on pages 21 through 25 of this report.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, there are differences in the information presented for government funds and for governmental activities in the government-wide financial statements. Review of these differences provides the reader of the financial statements insight on the long-term impact of the Village's more immediate decisions on the current use of financial resources. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The reconciliation can be found on pages 16 and 19 of this report.

#### Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on ages 26 through 39 of this report.

#### **Government-Wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The following table provides a summary of the Village's net assets for the current year as compared to the prior year. For more detailed information, see the Statement of Net Assets on page 11 of this report.

| Invested in Capital Assets, |    |           |       |            |    |              |     |           |    |           |      |           |
| Net of Related Debt         |    | 29,105    |       | 12,093     |    | 1,098,690    |     | 1,129,992 |    | 1.127,795 |      | 1.142.085 |
| Restricted                  |    | 6,975     |       | -          |    | 4,750        |     | 4,778     |    | 11,725    |      | 4.778     |
| Unrestricted                | _  | 56,720    | _     | 64,553     |    | 238,647      | _   | 216,840   |    | 295,367   | _    | 281,393   |
| Total Net Assets            | \$ | 92,800    | \$    | 76,646     | \$ | 1,342.087    | \$  | 1,351,610 | \$ | 1,434,887 | -    | 1.428,256 |

Approximately 78% of the Village's net assets reflect its investment in capital assets (land, buildings, equipment, infrastructure, and improvements) net of any outstanding related debt used to acquire those capital assets. These capital assets are used to provide services to citizens and do not represent resources available for future spending. Approximately 1% of the Village's net assets represent resources that are subject to external restriction on how they may be used. The Village's restricted net assets consist of cash for customer deposits net of corresponding liabilities, and sales tax collections restricted for garbage expenditures.

Approximately 21% of the Village's net assets are unrestricted and may be used to meet the Village's ongoing obligations to its citizens.

At the end of the current fiscal year, the Village was able to report positive balances in all three categories of net assets, both for the Village as a whole, as well as for separate governmental and business-type activities. The same held true for the prior fiscal year.

The Village's activities increased its total net assets by \$6,631, with governmental activities increasing net assets by \$16,154 and business-type activities decreasing net assets by \$9,523.

In order to further understand what makes up the changes in net assets, the following table provides a summary of the results of the Village's activities for the current year as compared to the prior year. An analysis of the primary sources of these changes follows the table. For more detailed information, see the Statement of Activities on pages 18 and 19 of this report.

#### **Governmental Activities**

The Village's governmental net assets increased by \$16,154, or 21% of the prior year ending net assets, to \$92,800. As compared to the prior fiscal year, the "Change in Net Assets Before Transfers" decreased by \$159,745, primarily because capital grants for the Louisiana Community Development Block Grant (LCDBG) of \$169,731 were recorded in fiscal year 2003 as compared to \$17,860 recorded in fiscal year 2004 for a new LCDBG project. In addition, the operating transfers out for the fiscal year 2003 were restated to reflect a transfer of \$428,492 from the capital projects fund (LCDBG) to the utility fund for completion of a sewer project. Other notable changes for governmental activities include an \$11,562 decrease in fines revenue and an increase of \$18,162 in sales tax revenue.

## Management's Discussion and Analysis As of and for the Year Ended June 30,2004

#### **Business-Type Activities**

The Village's business-type net assets decreased by \$9,523 of the prior year ending net assets, to \$1,342,087. Revenues and expenses were relatively constant from fiscal year 2003 to fiscal year 2004, with the "Change in Net Assets Before Transfers" decrease of \$21,112 primarily due to the effect of a \$12,000 operating grant that had increased revenues for fiscal year 2003 and increase in current year bad expense of \$4,800. The effect of the operating transfer in for completion of the LCDBG sewer project was noted in the "Governmental Activities" analysis above.

#### **Fund Financial Analysis**

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spend able resources. Such information is useful in assessing the Village's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Village's net resources available for spending at the end of the year. The basic governmental fund financial statements can be found on pages 20 through 25 of this report.

At the end of the current year, the Village's governmental funds reported combined ending fund balances of \$63,695, all of which are unreserved and available for spending at the Village's discretion except for \$6,975 reserved in the sales tax fund for garbage collection expenditures. This represents a decrease of \$858, or 1% of the prior year's ending balances.

The general fund is the chief operating fund of the Village. At the end of the current year, the total fund balance for the general fund was \$35,647, all of which was unreserved. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 41% of total general fund expenditures.

During the current year, the Village's general fund balance decreased by \$15,204. The reduction in general fund balance is primarily caused by a decrease in grant revenue of \$12,971 and an increase of \$1,622 in police protection from the prior year.

#### **Proprietary Funds**

The Village's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

#### Management's Discussion and Analysis As of and for the Year Ended June 30,2004

#### **General Fund Budgetary Highlights**

The Village of Tangipahoa is required to demonstrate legal compliance by adopting and amending its budget in accordance with provisions of the Local Government Budget Act. As required by state law, actual revenues and other sources must be within 5% of budgeted revenues and other sources, and actual expenditures must not exceed budgeted expenditures and other uses by 5%. Budget compliance findings for expenditures are noted for the general fund, sales tax fund, and summer food service fund within *Footnote 2 - Stewardship, Compliance, and Accountability.* 

For the general fund, original budgeted revenues and other sources were \$77,200 and final budgeted revenues and other sources were \$55,900. Original budgeted expenditures and other uses were \$77,000 and final budgeted expenditures and other uses were \$79,000.

Significant variations from the general fund's original and final amended budgets were as follows:

• Budgeted revenues decreased by \$21,300 due to the large decrease in operating transfers in from the Enterprise Fund and Special Revenue Fund.

• Budgeted expenditures increased by \$2,000, due to increase in street expenditures (\$4,800) and decrease in police department expenditures (\$2,900).

#### **Capital Assets**

The Village's investment in capital assets for its governmental and business-type activities as of June 30, 2004 amounts to \$1,127,795 (net of depreciation). The total decrease in the Village's investment in capital assets for the current fiscal year was \$14,290 (net of depreciation).

Major capital asset events during the current year included gas utility system extensions, and purchase of a vehicle.

The following table provides a summary of the Village's capital assets (net of depreciation) at the end of the current year as compared to the prior year. For more detailed information, see Note 8 to the financial statements on pages 40 to 42 of this report.

# Management's Discussion and Analysis As of and for the Year Ended June 30,2004

#### Other Factors Affecting the Village

The Village of Tangipahoa's management approach is conservative. When possible, the Mayor and Aldermen attempt to provide services for the Village based on existing revenues and to finance long-term projects only when absolutely necessary. The Village also attempts to keep utility rates at the minimum required to cover the costs of utility system operation. However, gas system rates are largely dependent on the amounts charged the Village for the cost of gas sold. In addition, the Village was required to respond to the need for sewer system improvements as mandated for municipalities by the United States Environmental Protection Agency and the Louisiana Department of Environmental Quality.

÷.

#### Contacting the Village's Financial Management

This financial report is designed to provide the Village's citizens, taxpayers, creditors and investors with a general overview of the Village's finances and show the Village's accountability for the money it receives. Questions regarding this report or requests for additional information should be addressed to the Village of Tangipahoa, Post Office Box 156, Tangipahoa, Louisiana 70465, telephone (985) 229-8300.

#### Village of Tangipahoa Notes to the Financial Statements

#### As of and for the Year Ended June 30, 2004

#### Introduction

The Village of Tangipahoa was incorporated July 1, 1959, under the provisions of the Lawrason Act. The Village operates under a Mayor-Board of Aldermen form of government. The Mayor and each of the three aldermen are elected at large for a term of four years. The Village is located approximately 4 miles south of Kentwood, Louisiana, on Highway 51 east of Interstate 55. The total population of the Village of Tangipahoa, Louisiana is 747, as reported by the U.S. Census Bureau, Census 2000. The Village provides police protection services, services to maintain or develop streets, drainage, sanitation, support of recreational activities, general and administrative services, and utilities services for area residents. Utility services include water, sewer, and gas and are provided to a total of 296 water customers, 212 sewer customers and 55 gas customers. The Village employees 5 full-time employees and 1 part-time employee in addition to the Mayor and Board of Aldermen.

Governmental Accounting Standards Board (GASB) Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this statement, the Village is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASB Statement No. 14, fiscally independent means that the Village may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt.

#### 1. Summary of Significant Accounting Policies

#### A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses have a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are presented as separate columns in the fund financial statements.

#### Notes to the Financial Statements As of and for the Year Ended June 30, 2004

#### B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

٩

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable, if any, due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when the government receives cash.

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds.

The Special Revenue Funds account for the proceeds of specific revenue sources that is legally restricted to expenditures for specific purposes. For the fiscal year ending June 30, 2004, the Village elected to report all special revenue funds, including the Sales Tax Fund, Cops Fines Fund, and the Summer Feeding Fund, as major governmental funds.

The *Capital Project Fund* accounts for financial resources received and used for the acquisition, construction, or improvement of capital facilities not reported in other governmental funds. For the fiscal year ending June 30, 2004, the Village elected to report transactions of a Louisiana Community Development Block Grant (LCDBG) within the capital projects fund.

The Village reports the following major proprietary funds:

The *Enterprise Fund* accounts for operations (a) that are financed and operated in a manner similar to private business enterprise where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user fees, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

#### Notes to the Financial Statements As of and for the Year Ended June 30, 2004

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule, if applicable, are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are user charges for the services provided by the enterprise funds. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### C. Deposits and Investments

The Village's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the Village's investment policy allow the Village to invest in collateralized certificates of deposit, government-backed securities, commercial paper, the state-sponsored investment pool and mutual funds consisting solely of government-backed securities.

Investments for the Village, as well as for its component units, are reported at fair market value. The state investment pool, LAMP, operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares

#### D. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between

#### Notes to the Financial Statements As of and for the Year Ended June 30, 2004

the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Property taxes are levied on a calendar year basis and become due on January 1 of each year. The following is a summary of authorized and levied ad valorem taxes:

|                            | Authorized | Levied  |
|----------------------------|------------|---------|
|                            | Millage    | Millage |
| General Corporate Purposes | 5.95       | 5.95    |
| Fire Protection            | 6.46       | 6.46    |
| Total                      | 12.41      | 12.41   |

Two separate sales and use taxes are levied, each at one percent. The proceeds of the ad valorem taxes and the sales and use taxes are dedicated for general corporate purposes and for specific uses as detailed in *Footnote 3* - *Levied Taxes*.

#### E. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out method. Inventories of the governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### F. Restricted Assets

Cash held for customers' meter deposits has been set aside in separate cash accounts and is classified as a restricted asset on the balance sheet.

#### G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value

#### Notes to the Financial Statements As of and for the Year Ended June 30, 2004

at the date of donation. The Village maintains a threshold level of \$500 or more for capitalizing capital assets.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend their lives are not capitalized.

5

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All capital assets, other than land, are depreciated using the straight-line basis over the following useful lives:

| Buildings              | 15 - 30 Years |
|------------------------|---------------|
| Improvements           | 20 - 45 Years |
| Vehicles and Equipment | 5 - 15 Years  |
| Infrastructure         | 20 - 45 Years |
| Water Utility System   | 20 - 45 Years |
| Gas Utility System     | 20 - 45 Years |
| Sewer Utility System   | 20 - 45 Years |

#### **H.** Compensated Absences

The Village of Tangipahoa's recognition and measurement criteria for compensated absences follows:

All regular employees of the Village of Tangipahoa earn one day of vacation leave and one day of sick leave each month. Vacation and sick leave must be used in the year earned.

In accordance with GASB-16, Accounting for Compensated Absences, no liability has been accrued for unused employee sick leave.

## I. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### J. Comparative Data/Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

## K. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

**8**1-9

## L. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets is presented in Statement D of the basic financial statements. Explanation of certain differences between the governmental fund statement of revenues, expenses, and change in fund balance and the government-wide

# 2. Stewardship, Compliance and Accountability

The Village uses the following budget practices:

1. The Village Clerk prepares a proposed budget and submits same to the Mayor and Board of Aldermen no later than fifteen days prior to the beginning of each fiscal year.

2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.

3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.

4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.

5. Budgetary amendments involving the transfer of funds from one department, program or function to another or involving the increase in expenditures resulting from revenues exceeding amounts estimated, require the approval of the Board of Aldermen.

6. All budgetary appropriations lapse at the end of each fiscal year.

7. Budgets for the general and enterprise funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for enterprise funds are presented on the accrual basis of accounting. Other governmental funds are presented on the modified accrual basis of accounting. Accordingly, the budgetary comparison schedules present actual expenditures in accordance with the

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. All budgetary amounts presented reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the year).

The following funds had expenditures over budgeted expenditures for the year ended June 30, 2004, which result in violations of the Local Government Budget Act:

| Fund                | Orig<br>Budg |        | Final | Budget | Actual |        | ivorable<br>ance |
|---------------------|--------------|--------|-------|--------|--------|--------|------------------|
| General Fund        | \$           | 77,000 | \$    | 79,000 | \$     | 87,104 | \$<br>(8,104)    |
| Sales Tax Fund      |              | 58,100 |       | 54,400 |        | 69,903 | (15,503)         |
| Summer Food Service |              | 14,065 |       | 12,000 |        | 14,856 | (2,856)          |

General Fund actual expenditures exceeded budgeted expenditures by \$8,104 (10.02%). The variance was due primarily to excess expenditures of \$4,917 for police department operating expenses and \$4,275 for police department capital expenditures. Actual expenditures in the Sales Tax Fund exceeded budgeted expenditures by \$15,503 (28.50%) due primarily to additional operating transfers for excess sales tax collections due the General Fund and Utility Fund. The variance of actual expenditures over budgeted expenditures of \$2,856 (23.80%) for the Summer Food Fund occurred primarily because of recording operating transfers of \$1,450 for General Fund expenditures paid on behalf of the Summer Food Program and the allocation of expenses between grant periods. Management of the Village of Tangipahoa has stated that they will more closely monitor budget compliance on a monthly basis.

#### 3. Levied Taxes

On May 3, 1972, the Village adopted Ordinance 62 authorizing the Village to levy a one-cent sales and use tax. The proceeds of this one cent sales and use tax, levied by the Village, are for the purposes of purchasing and/or constructing sewers, drains, drainage canals, pumping plants, sewerage disposal works, and all facilities necessary or convenient for the completion and maintenance of an adequate sewerage disposal system. In addition, the proceeds are for the purposes of acquiring necessary property, appurtenances, or equipment, or for any one or more of any such purposes, or for any other lawful corporate purpose in connection with the acquisition, construction, and/or maintenance of such a sewerage system.

On April 10, 1985, the Village adopted Ordinance 1 authorizing the collection of an additional one-cent sales tax. Up to 50% of the proceeds was restricted for the purpose of establishing the regular collection of garbage and refuse, and acquiring necessary equipment for the maintenance of such garbage system and the remainder of the proceeds is to be used for the purpose of constructing and improving streets and street lights and acquiring necessary equipment for the resolution.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

On August 13, 2003, the Village adopted a resolution levying an ad valorem tax of 12.41 mills on the assessed valuation of all property subject to taxation within the Village for the year 2003. Of the 12.41 mills levied, 6.46 mills was dedicated to fire protection and 5.95 mills was dedicated to general corporate purposes.

ţ

For the year ending June 30, 2004, the Village assessed Entergy, Inc. and Charter Communications, Inc. public utilities franchise taxes totaling \$8,081 for the privilege of providing services to the Village's citizens.

## 4. Cash and Cash Equivalents

The following is a summary of cash and cash equivalents (book balances) at June 30, 2004:

| Demand Deposits                 | \$ 245,947 |
|---------------------------------|------------|
| Time Deposits                   | 11,607     |
| Louisiana Asset Management Pool | 50,820     |
|                                 | \$ 308,374 |

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2004, the Village has \$265,911 in deposits (collected bank balances). These deposits are secured from risk by \$111,607 of federal deposit insurance and \$154,304 in pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Village that the fiscal agent has failed to pay deposited funds upon demand.

## 5. Investments

Investments are categorized into these three categories of credit risk:

1) Insured or registered, or securities held by the Village or its agent in the Village's name, 2) uninsured and unregistered, with securities held by the counter party's trust department or agent in the Village's name, or 3) uninsured and unregistered, with securities held by the counter party, or by its trust department or agent but not in the Village's name.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

All investments held by the Village fall into category I credit risk, defined as "insured or registered, or securities held by the Village of Tangipahoa or its agent in the Village of Tangipahoa's name." In accordance with GASB 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, all investments are carried at fair market value, with the estimated fair market value based on quoted market prices.

At fiscal year-end, the Village's investment balances were as follows:

|                                 | Car | rying     | Fair   |
|---------------------------------|-----|-----------|--------|
|                                 | Am  | ount      | Value  |
| Time Deposits                   | \$  | 11,607\$  | 11,607 |
| Louisiana Asset Management Pool |     | 50,820    | 50,820 |
|                                 | \$  | 62,427 \$ | 62,427 |

In accordance with GASB Codification Section 150.165, the investment in LAMP at June 30, 2004, is not categorized in the three risk categories provided by GASB Codification Section 150.164 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form. LAMP is administered by LAMP, Inc., a nonprofit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. The corporation is governed by a board of directors comprising the State Treasurer, representatives from various organizations of local government, the Government Finance Office Association of Louisiana, and the Society of Louisiana CPAs. Only local governments having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

#### 6. Receivables

The following is a summary of governmental fund receivables at June 30, 2004:

|                                 |    | General<br>Fund | Special<br>Revenue<br>Funds | Total |
|---------------------------------|----|-----------------|-----------------------------|-------|
| Taxes:                          |    |                 |                             |       |
| Public Utility Franchise        | \$ | 1,645 \$        | - \$                        | 1,645 |
| Sales and Use                   |    | -               | 3,879                       | 3,879 |
| Intergovernmental:              |    |                 |                             |       |
| Summer Feeding Program          |    |                 | 1056                        | 1056  |
| Louisiana Beer Tax Distribution | _  | 468             | -                           | 468   |
|                                 | \$ | 2,113 \$        | 4,935 \$                    | 5,992 |
|                                 | -  |                 |                             |       |

The following is a summary of enterprise fund accounts receivable at June 30, 2004:

| Current                     | \$<br>11,986 |
|-----------------------------|--------------|
| 31 - 60 Days                | 6,755        |
| 61 - 90 Days                | 4,184        |
| Over 90 Days                | 11,960       |
| Subtotal                    | <br>34,885   |
| Less Allowance for Bad Debt | 12,000       |
| Accounts Receivable, Net    | <br>22,885   |
| Accrued Billings            | 11,814       |
|                             | \$<br>34,699 |
|                             |              |

#### 7. Interfund Receivables/Payables

The following is a detailed list of interfund balances reported in the fund financial statements on June 30, 2004:

|                      | Due From Other<br>Funds | Due To<br>Other Funds |
|----------------------|-------------------------|-----------------------|
| General Fund         | \$<br>47,214 \$         | 16,298                |
| Special Revenue Fund | -                       | 75,230                |
| Capital Project Fund | -                       | -                     |
| Enterprise Fund      | 44,314                  | -                     |
|                      | \$<br>91,528 \$         | 91,528                |

### 8. Capital Assets

As a Phase III government (a government with annual revenues of less than \$10 million), the Village elected not to retroactively report infrastructure assets prior to implementation of GASB 34. Historically, a government's largest group of assets, infrastructure assets (roads, bridges, street lighting, etc.) have not been reported nor depreciated in governmental financial statements. Beginning with the fiscal year ended June 30, 2004, these assets are now valued and reported within the governmental activities column of the government-wide financial statements.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

Capital assets and depreciation activity as of and for the year ended June 30, 2004 for governmental activities is as follows:

|   | eginning<br>alance | Increases | Decreases | Ending<br>Balance |
|---|--------------------|-----------|-----------|-------------------|
| Capital Assets Not Being Depreciated:       |                    |           |           |                   |
| Land  | \$<br>400\$        | - \$      | -         | \$ 400            |

| Capital Assets Being Depreciated, Net        | 1,129,993         | (31,303)  | -         |       | 1,098,690 |
| Business-Type Activities Capital Assets, Net | \$<br>1,129,993\$ | (31,303)  | S         | _\$ _ | 1,098,690 |

#### 9. Accounts, Salaries, and Other Payables

The payables of \$11,115 at June 30, 2004 are as follows:

|              | General<br>Fund | Special<br>Revenue<br>Funds | Proprietary<br>Fund | Total  |
|--------------|-----------------|-----------------------------|---------------------|--------|
| Accounts     | \$<br>4,046\$   | 725 \$                      | 4,563\$             | 9,334  |
| Withholdings | 810             | 971                         | -                   | 1,781  |
|              | \$<br>4,856\$   | 1,696 \$                    | <u>4,563</u> \$     | 11,115 |

#### **10. Intergovernmental Cooperative Agreement**

On December 12, 1984, the Village entered into an agreement with the Tangipahoa Parish Council to allow the Parish Section 8 Program to operate within its corporate limits. The U.S. Department of Housing and Urban Development (HUD) allows these programs to operate within communities without such programs. The Village has attempted to find such assistance through federal and state rental subsidy programs, but has been turned down for such assistance because of its small size and the cut back in federal funding for housing.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

## 11. Short-Term Debt

The Village had no short-term debt outstanding at June 30, 2004, and had no short-term debt activity during the year then ended.

## 12. Restricted Assets - Enterprise Fund

Restricted assets were as follows at June 30, 2004:

| Customers' Deposits | Ş | 23,083 |
|---------------------|---|--------|
|                     | 5 | 23,083 |

## 13. Contingent Liabilities

At June 30, 2004, the Village is not aware of any pending or threatened litigation, claims, or assessments or unasserted claims or assessments that are required to be accrued or disclosed in the financial statements in accordance with Statement of Financial Accounting Standards No. 5, and has not consulted a lawyer concerning litigation, claims, or assessments.

#### 14. Sanitation Contract

The Village contracts with Waste Management, Inc. for the pickup and disposal of solid waste. Sales tax in the amount of 1% of 1% is dedicated to pay for the cost of this contract.

## 15. 2003 LCDBG Grant

The Village of Tangipahoa received a Louisiana Community Development Block Grant in the amount of \$441,981 for sewer improvements. On April 9, 2003, the Village received authorization to incur costs for planning and administration which includes the preparation of engineering plans and specifications and the environmental review record. At June 30, 2004, \$17,860 was incurred under this grant. On April 17, 2003, The Village of Tangipahoa entered into a contract with Spinks Construction, Inc. in the amount of \$338,000 for sewer improvement.

#### 16. Interfund Transfers

The following is a detailed list of interfund transfers reported in the fund financial statements on June 30, 2004:

|                       | Transfers From |    | Transfers To |
|-----------------------|----------------|----|--------------|
|                       | Other Funds    |    | Other Funds  |
| General Fund          | \$<br>22,832   | \$ | 1,450        |
| Special Revenue Funds | 1,450          |    | 43,059       |
| Enterprise Fund       | 28,706         | _  | 8,479        |
|                       | \$<br>52,988   | \$ | 52,988       |

## Notes to the Financial Statements As of and for the Year Ended June 30, 2004

#### 17. Reserved and Designated Fund Balances/Net Assets

At June 30, 2004, the sales tax fund recorded \$6,975 as reserved fund balance. The amount of \$6,975 represents excess sales tax collections (above expenditures for garbage collection) for the fiscal year ending June 30, 2004, that must be reserved for operation of the solid waste collection program. Since, as noted in *Footnote 3 - Levied Taxes*, these excess funds relate to a legal obligation to expend sales tax collections for the solid waste program, the amount of \$6,975 is also recorded within the government-wide Statement of Net Assets as restricted net assets.

At June 30, 2004, the proprietary fund had restricted net assets of \$4,750, representing the Village's funds restricted for customers for meter deposits, net of the related liability.

÷

#### 18. Risk Management

The Village is exposed to various risks of loss related to theft, damage, or destruction of assets, torts, injuries, natural disasters, and many other unforeseeable events. The Village purchases commercial insurance policies and bonds for any and all claims related to the aforementioned risks. The Village's payment of the insurance policy deductible is the only liability associated with these policies and bonds. There has been no significant decrease in insurance coverage from the prior year, and the amount of settlements has not exceeded the insurance coverage for the past three fiscal years.

# Supplemental Information Schedules ( Part II)

# General Fund

ť

t

The general operating fund of the Village accounts for all financial resources, except those required to be accounted for in other funds.

(Concluded)

The accompanying notes arean integral part of these statements.

# **Special Revenue Funds**

COPS UHP Fund - To account for the Village's administration of its participation in the COPS Universal Hiring Program for law enforcement. Funding is received through the U.S. Department of Justice.

Sales Tax Fund - To account for the receipt and use of proceeds of the Village of Tangipahoa's 2% sales and use taxes.

The proceeds from the 1% sales and use tax are dedicated to purchasing and/or constructing sewers, drains, drainage canals, pumping plants, sewerage disposal works, and all facilities necessary or convenient for the implementation and maintenance of an adequate sewerage disposal system, the acquisition of necessary property, appurtenances or equipment, or for any other lawful corporate purpose in connection with acquisition, construction and/or maintenance of such a sewerage system.

The proceeds from the other 1% sales and use tax are dedicated for garbage collection and streets. Up to 50% of the proceeds are restricted for the purpose of establishing the regular collection of garbage and refuse, and acquiring necessary equipment for the maintenance of such garbage system, and the remainder of the proceeds is to be used for the purpose of constructing and improving streets and streetlights, and acquiring necessary equipment for the maintenance thereof.

Summer Food Service Program Fund - To account for the Village's administration of its participation in the Summer Food Service Program for children. Funding is received through Louisiana Department of Education, Bureau of Food and Nutrition Services.

## REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH <u>GOVERNMENT AUDITING STANDARDS</u>

The Honorable Mayor, C. James Fultz and the Board of Aldermen Village of Tangipahoa, Louisiana

I have audited the basic financial statements of the Village of Tangipahoa, Louisiana, as of and for the year ended June 30, 2004, and have issued my report thereon dated December 6, 2004. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether the Village of Tangipahoa, Louisiana's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, which noncompliance with could have a direct and material effect on the determination of financial statement amounts. However; providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my test disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards*, which are described in the accompanying *Summary Schedule of Prior* Year *Audit Findings* as Reference Number 2002-C2, and Reference Number 2002-F1, and in the accompanying *Corrective Action Plan for Current Year Audit Findings* as Reference Number 2004-C1.

#### Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Village of Tangipahoa, Louisiana's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to a material weakness.

Page 2

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be a material weakness.

This report is intended solely for the information and use of the Mayor and Board of Aldermen of the Village of Tangipahoa, Louisiana, the State of Louisiana Legislative Auditor, and the Federal Cognizant Agent. However, this report is a matter of public record, and its distribution is not limited.

## Summary Schedule of Prior Year Audit Findings For the Year Ended June 30, 2004

#### Section I-Internal Control and Compliance Material to the Financial Statements:

#### Reference Number: 2002-C2

#### Description of Finding:

During the audits of the years ending June 30, 2003 and June 30, 2002, it was noted that the Village of Tangipahoa had several related party transactions. These transactions are listed as follows:

- 1. The Village's General Fund contained purchases of office supplies, such as, cleaning supplies and coffee from a local store owned by the mayor's brother. These purchases totaled \$1,121 for 2002, \$837 for 2003, and \$237 for 2004.
- The Village's Summer Food Program paid the chief of police for the use of his school bus to transport children for the program. These payments totaled \$1,450 for 2002, and \$1,450 for 2003.

#### **Corrective Action Planned (Response by Management):**

We will no longer purchase items from the store belonging to the mayor's brother. Payments made to the chief of police from the Village's Summer Food Program were made before we were made aware that this was unallowable. These payments have been discontinued and will not occur in the future.

#### Corrective Action Taken: Final

The Village ceased purchasing items from the store owned by the mayor's brother in November 2003, and did not make any additional purchases through the end of the fiscal year. The Village's Summer Food Program did not pay the chief of police, for use of his school bus to transport children for the program, during the fiscal year that ended June 30, 2004. The Village reached a settlement with the State of Louisiana and reimbursed the state \$1,450

#### Section II-Internal Control and Compliance Material to Federal Awards:

#### Reference Number: 2002-F1

#### **Description of Finding:**

The finding for the fiscal year ended June 30, 2002, applied to a non-major program, U.S. Department of Justice Public Safety and Community Policing Grants (CFDA 16.710). For the fiscal year ended June 30, 2002, total funds received to-date were \$83,500, with eligible expenditures for the project totaling only \$39,586, resulting in deferred revenue of \$43,914.

(continued)

## Summary Schedule of Prior Year Audit Findings For the Year Ended June 30, 2004

For the fiscal year ended June 30, 2003, total funds received to-date were \$107,500 with eligible expenditures for the project totaling only \$81,709 resulting in deferred revenue of 25,791. For the fiscal year ended June 30, 2004, funds received to-date totaled \$145,615 with eligible expenditures to-date totaled \$125,434 resulting in deferred revenue of \$20,181. This program is funded on an expenditure reimbursement basis, therefore funds were requested in excess of actual expenditures in each of the three fiscal years.

#### **Corrective Action Planned (Response by Management):**

The Village will complete this grant during the fiscal year ending June 30, 2005. Funds yet to be received for the grant at June 30, 2004 are \$205. We will expense \$20,386 during the fiscal year ending June 30, 2005; therefore matching receipts with expenditures.

#### Corrective Action Taken: Partial

#### Additional Description of Corrective Action Taken:

Corrective action is listed as partial, pending final accounting of grant expenditures during the fiscal year ending June 30, 2005

(Concluded)

## Corrective Action Plan for Current Year Audit Findings For the Year Ended June 30, 2004

#### Section I-Internal Control and Compliance Material to the Financial Statements:

Reference Number: 2004-C1

#### **Description of Findings:**

The Village failed to properly amend their budget for the fiscal year ended June 30, 2004. Actual expenditures in the general fund exceeded budget amounts by 12%, actual expenditures in the sales tax fund exceeded budget amounts by 29%, and actual expenditures in the summer feeding program exceeded budget amounts by 24%.

÷'

#### **Corrective Action Planned (Response by Management):**

We amended our budget but failed to take into consideration year-end adjustments that had to be made prior to compiling the financial statements. We will review our budget/actual expenditure schedule during the year and have our accountant (Bruce Harrell & Co. CPAs) prepare adjustments prior to preparing the final amended budget.

#### Section II - Internal Control and Compliance Material to Federal Awards:

There were no Section II findings.

#### Section III - Management Letter:

#### Reference Number: 2004-M1.

#### **Description of Finding:**

The Village failed to properly monitor utility accounts receivable and at June 30, 2004 accounts over 90 days past due exceeded 34% of total accounts receivable.

#### **Corrective Action Planned (Response by Management):**

We have instituted the following collection procedures:

Accounts 30-day past due will be sent a notice that their services will be disconnected with in 10 days unless payment is received at City Hall.

Cut-off day established and services will be disconnected if payment is not received by cut-off date.

Re-connect fee has been increased from \$10 to \$25 as an additional incentive to pay Promptly, and partial payments are not accepted.

#### (Continued)

## Corrective Action Plan for Current Year Audit Findings For the Year Ended June 30, 2004

#### Corrective Action Taken: Partial

Corrective action is listed as partial until delinquent accounts are substantially reduced.

#### Reference Number: 2004 - M2

#### **Description of Findings:**

Village of Tangipahoa had excess gas losses or unaccounted for gas purchases during the fiscal year ended June 30, 2004. Unaccounted for gas purchases totaled \$4,977 (762 mcf's), which represents 19,77% of total gas purchases.

#### **Corrective Action Planned (Response by Management):**

We will commence a program of upgrading or replacing gas meters in our distribution system and perform repairs as indicated on our leak survey.

#### **Corrective Action Taken: Partial**

Corrective action listed as partial until gas losses can b substantially reduced.

#### Reference Number: 2004 – M3

#### **Description of Findings:**

Village does not have adequate accounting of police ticket books. Police Chief issues the ticket books to patrolmen but tickets received by the town clerk are not reconciled to insure all tickets are accounted for.

#### **Corrective Action Planned (Response by Management):**

In the future the town clerk will reconcile tickets received for payment of fines with ticket books issued by the police chief. Any tickets not accounted for as issued, or voided, will have written explanation of the ticket's disposition provided by the police chief.

#### Corrective Action Taken: Partial

Corrective action listed as partial until verification is received that the tickets are being Reconciled.

(Concluded)
