INDEPENDENT AUDITORS' REPORT

Honorable Victor Jones Natchitoches Parish Sheriff P. O. Box 266 Natchitoches, Louisiana 71458

We have audited the accompanying financial statements of the governmental and business-type activities of the Natchitoches Parish Sheriff, Natchitoches, Louisiana, as of and for the year ended June 30, 2004, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Natchitoches Parish Sheriff'. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental and business-type activities of the Natchitoches Parish Sherifi'as of June 30, 2004, and the results of its operations and cash flows of its business-type activities for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated October 29, 2004, on our consideration of the Natchitoches Parish Sheriff's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and the budgetary information on pages 3 through 8 and 31, respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the Natchitoches Parish Sheriff taken as a whole. The accompanying supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Hines, Jackson & Hines

Natchitoches, Louisiana October 29, 2004

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>MANAGEMENT'S DISCUSSION, AND ANALYSIS</u> <u>JUNE 30, 2004</u>

The Management's Discussion and Analysis of the Natchitoches Parish Sheriff's financial performance presents a narrative overview and analysis of the Natchitoches Parish Sheriff's financial activities for the year ended June 30, 2004. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with the additional information contained in the Natchitoches Parish Sheriff's financial statements, which begin on page 9.

FINANCIAL HIGHLIGHTS

Governmental Activities

- 6) The Natchitoches Parish Sheriff had salaries of \$1,488,897 for the year ended June 30, 2004 which represents an increase of \$232,930 from prior year.

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>MANAGEMENT'S DISCUSSION, AND ANALYSIS (CONTINUED)</u> <u>JUNE 30, 2004</u>

OVERVIEW OF THE FINANCIAL STATEMENTS

The following graphic illustrates the minimum requirements for the Natchitoches Parish Sheriff as established by Governmental Accounting Standards Board Statement 34. <u>Basic Financial Statements</u> and <u>Management's Discussion</u> and <u>Analysis-for State and Logal Governments</u>.

Management Discussion and Analysis

Basic Financial Statements

Required Supplementary Information (Other than MD&A)

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

This annual report consist of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 9 and 10) provide information about the activities of the Natchitoches Parish Sheriff as a whole and present a longer-term view of the Sheriff's finances. Fund financial statements start on page 11. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report he Sheriff's operations in more detail than the government-wide statements by providing information about the Sheriff's most significant funds.

Reporting the Sheriff as a Whole

The Statement of Net Assets and the Statement of Activities

One of the most important questions asked about the Sheriff's finances is, "Is the Sheriff'as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the Sheriff as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when eash is received or paid.

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>MANAGEMENT'S DISCUSSION, AND ANALYSIS (CONTINUED)</u> <u>JUNE 30, 2004</u>

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Reporting the Sheriff as a Whole (Continued)

The Statement of Net Assets and the Statement of Activities (Continued)

These two statements report the Sheriff's Net assets and changes in them. You can think of the Sheriff's net assets, the difference between assets and liabilities, as one way to measure the Sheriff's financial health, or financial position. Over time, increases or decreases in the Sheriff's net assets are one indicator of whether its financial health is improving or deteriorating.

In the Statement of Net Assets and the Statement of Activities, we divide the Sheriff into two kinds of activities:

<u>Governmental Activities</u>: The Sheriff's basic operations are reported here. These activities are financed by taxes, intergovernmental revenues, fees, charges and commissions for services and interest.

<u>Business-Type Activities:</u> The Sheriff's housing of male inmates (state and local) are reported here. These activities are financed by charges for services.

Reporting the Sheriff's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the Sheriff as a whole. Some funds are required to be established by state law and by bond covenants. However, the Sheriff establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The Sheriff's two kind of funds, governmental and proprietary, use different accounting approaches.

<u>Governmental Funds</u>: Most of the Sheriff's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the Sheriff's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Sheriff's activities as well as what remains for future spending.

<u>Proprietary Funds</u>: When the Sheriff charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and Statement of Activities. In fact, the Sheriff's enterprise funds are the same as the business-type activities we reported in the government-wide statements but provide more detail and additional information, such as cash flows.

NATCHITOCHES PARISH SHERIFF NATCHITOCHES, LOUISIANA MANAGEMENT'S DISCUSSION, AND ANALYSIS (CONTINUED) JUNE 30, 2004

Total	<u>\$ 196.044</u>	<u>s o</u>		

VARIATIONS BETWEEN ORIGINAL AND FINAL BUDGETS

Actual revenues were \$158,956 more than budgeted amounts due to fees, charges, and commissions for services being more than expected.

Actual expenditures were \$615,343 more than budgeted amounts due to personal services and capital outlay being more than expected.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Management of the Natchitoches Parish Sheriff considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

Governmental Activities

- 1) Taxes
- 2) Intergovernmental revenues (local, state and federal grants)
- 3) Fees, charges, and commissions for services

The Natchitoches Parish Sheriff does not expect any significant changes in next year's results as compared to the current year.

Business-Type Activities

- 1) Number of inmates
- 2) Intergovernmental revenues (local, state and federal grants)
- 3) Cost of Operations

The Natchitoches Parish Sheriff does not expect any significant changes in nonoperating activities in next year's results as compared to the current year. However, the Sheriff expects the construction of a work release dormitory to be completed in October 2004 which will house 48 inmates. The effect of the completion of this project on the Sheriff's financial statements will be based on the number and timing of any new inmates being housed in the facility.

CONTACTING THE NATCHITOCHES PARISH SHERIFF'S MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Natchitoches Parish Sheriff's finances and to show the Natchitoches Parish Sheriff's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Victor Jones, Sheriff, P. O. Box 266, Natchitoches, Louisiana 71458.

----- ------ --

.

- - --- ----- ----

Net Change in Fund Balances-Total Governmental Funds (Exhibit E)	S	(79.050)
The change in Net Assets reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$373,106) exceeds depreciation (\$176,546) in the current period.		196,560
Some expense reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(3,492)
Some capital outlay additions were financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the state of net assets, the lease obligation is reported as a liability.		(297,570)
Repayment of capital lease obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		101,526

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article V. Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The sheriff also administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, serving subpoenas, et cetera.

As the chief law enforcement officer of the parish, the sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs, anti-drug abuse programs, et cetera. Additionally, the sheriff, when requested, provides assistance to other law enforcement agencies within the parish.

As the ex-officio tax collector of the parish, the sheriff is responsible for the collection and distribution of ad valorem taxes, parish occupational licenses, state revenue sharing funds, and fines, costs, and bond forfeitures imposed by the district court.

A. Basis of Accounting

The accompanying financial statements of the Natchitoches Parish Sheriff have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, issued in June 1999.

B. Reporting Entity

The Natchitoches Parish Sheriff is an independent elected parish official. His office receives funding primarily through ad valorem taxes, state revenue sharing, intergovernmental revenues and fees, charges, and commissions for services. The office is independent and receives no financial benefit from the Natchitoches Parish Police Jury other than the provision of office space and utilities related to the office space. The Natchitoches Parish Sheriff was determined not to be a component unit of the Natchitoches Parish Police Jury.

Based on the application of criteria established by GASB Statement No. 14, it was determined that the Natchitoches Parish Sheriff has no financial accountability and exercises no oversight responsibility for any other entity. Therefore, the accompanying financial statements present information only on the funds maintained by the Natchitoches Parish Sheriff.

C. Fund Accounting

The Natchitoches Parish Sheriff uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Sheriff functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. Funds of the Sheriff are classified into three categories: governmental, proprietary and fiduciary, as follows:

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>NOTES TO FINANCIAL STATEMENTS (CONTINUED)</u> <u>JUNE 30, 2004</u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Fund Accounting (Continued)

Governmental Funds

Governmental funds account for all or most of the Natchitoches Parish Sheriff's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the Sheriff. The following are the Sheriff's governmental funds:

General Fund - The general fund, as provided by Louisiana Revised Statute 33:1422, is the principal fund of the Natchitoches Parish Sheriff and is used to account for the operations of the Sheriff's office. The Sheriff's primary source of revenue is an ad valorem tax. Other sources of revenue include state revenues sharing, intergovernmental revenues and fees, charges and commissions for services. General operating expenditures are paid from this fund.

Proprietary Funds

Proprietary funds account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator. The Natchitoches Parish Sheriff applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

Enterprise Fund - The enterprise fund is used to account for operations a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or b) where the governing body has decided the periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Funds

Fiduciary funds reporting focuses on net assets and changes in net assets. The only funds accounted for in this category by the Sheriff are agency funds. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Consequently, the agency funds have no measurement focus, but use the modified accrual basis of accounting.

Agency Fund - The agency funds are used as depositories for ad valorem taxes, civil suits, cash bonds, taxes and fees. Disbursements from the funds are made to various parish agencies, litigants in suits, and others, in the manner prescribed by law.

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>NOTES TO FINANCIAL STATEMENTS (CONTINUED)</u> <u>JUNE 30, 2004</u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus/Basis of Accounting

Government - Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets, Exhibit A, and the Statement of Activities. Exhibit B) report information on all of the nonfiduciary activities of the Natchitoches Parish Sheriff. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, state revenue sharing, intergovernmental revenues and fees, charges, and commissions for services, are reported separately from business-type activities, which rely to a significant extent on fees, charges, and commissions for services.

The government-wide financial statements were prepared using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets and liabilities resulting from nonchange transactions are recognized in accordance with the requirements of GASB Statement No. 33. Accounting and Financial Reporting for Nonexchange Transactions. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet (Exhibit C). The Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit E) reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government - wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government - wide statements and the statements for governmental funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

Governmental funds and the agency fund use the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Transfers between funds that are not expected to be repaid (or any other similar type items, such as capital lease transactions, sale of fixed assets, debt extinguishment, long-term proceeds, et cetera) are accounted for as other financing sources/(uses). These other financing sources/(uses) are recognized at the time the underlying events occur.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The Natchitoches Parish Sheriff prepares and adopts a budget each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The Sheriff amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

F. Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows and consistent with GASB Statement 9, the Natchitoches Parish Sheriff, Louisiana defines cash and cash equivalents as follows:

Cash ~ includes not only currency on hand but also demand deposits with banks or other financial institutions and other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

Cash equivalents - includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than three months qualify under this definition.

G. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

H. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At June 30, 2004, \$0 and \$0 of Governmental and Business-Type Activities receivables, respectively, were considered to be uncollectible.

I. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the Natchitoches Parish Sheriff are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 40 years for buildings and other improvements and 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Deferred Debt Expense

Bond issue costs and bond discounts are capitalized and amortized over the terms of the respective bonds using a method which approximates the effective interest method. Total bond issue costs and bond discounts (deferred debt expense) paid by the enterprise fund, Detention Center, was \$209,592. The amortization expense related to deferred debt expense was \$10,480 for the year ended June 30, 2004.

K. Compensated Absences

Employees of the Natchitoches Parish Sheriff that have been employed one year or more earn two weeks of vacation leave per year. Vacation leave is prorated for employees having less than a year of service. Vacation leave does not earryover or accumulate from one fiscal year to the next, and there are no vesting privileges. Therefore no liability for compensated absences has been recorded in the accompanying financial statements.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 LEVIED TAXES

The Natchitoches Parish Sheriff levies taxes on real and business personal property located within its boundaries. Ad valorem taxes are assessed on a calendar year basis, levied and become due on November 15 of each year and become an enforceable lien on property as of December 31 of each year. The following is a summary of authorized and levied ad valorem taxes as of June 30, 2004:

	Authorized Millage	Levied Millage	Expiration Date
Law enforcement	18.14	18.14	Statutory

NOTE 3 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions includes savings, demand deposits, time deposits, and certificates of deposit. Under state law the Natchitoches Parish Sheriff may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the Fund may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank.

Bank of Montgomery	S 105,92	0
City Bank & Trust Company	2,308.34	9
Exchange Bank		0
Total	<u>S 2,446.68</u>	9

B. Investments

The Natchitoches Parish Sheriff maintains investment accounts as authorized by the Louisiana Revised Statutes. Under state law, the Sheriff may invest in obligations of the U. S. Treasury and U. S. Agencies, or certificates of deposit. Investments are carried at fair market value as of the balance sheet date.

Investments can be classified according to the level of risk to the entity. Investments made by the Natchitoches Parish Sheriff as of June 30, 2004 are summarized below by the category of risk.

Category 1 Insured or registered in the entity's name, or security held by the entity or its agent in the entity's name.

Category 2 Uninsured or registered with securities held by the counterparty's trust department or agent in the entity's name.

Category 3 Unsecured and unregistered with securities held by the counterparty, or by its trust department or agent but not in the entity's name.

NOTE 9 LEASES

On November 14, 2003, the Natchitoches Parish Sheriff entered into a lease agreement with an original recorded amount of \$297,570 for the purchase of 15 police cars. The agreement provides for three (3) annual payments of \$105,060. At the maturity of the lease term, the Sheriff may purchase the vehicles for one (1) dollar. The original recorded amount of the vehicles is included in capital assets.

The following is a schedule of future minimum lease payments and the present value of the net future minimum lease payments as of June 30, 2004:

---- -- -- -- --

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>NOTES TO FINANCIAL STATEMENTS (CONTINUED)</u> <u>JUNE 30, 2004</u>

NOTE 9 LEASES (CONTINUED)

Year Ending

Total minimum lease payments		210,120
Less amount representing interest		(14,076)
Present value of minimum lease payments	<u>S</u>	196,044

The Natchitoches Parish Sheriff was not obligated under any operating leases at June 30, 2004.

NOTE 10 PENSION PLANS

Substantially all employees of the Natchitoches Parish Detention Center's office are members of the Sheriff's Pension and Relief Fund ("System"), a multiple-employer, cost-sharing public employee retirement system (PERS). The System is a statewide public retirement system for the benefit of sheriff's and their staff's, which is administered and controlled by a separate board of trustees. Contributions of participating sheriff's, together with shared local and state revenues, are pooled within the System to fund accrued benefits, with employer/employee contribution rates approved by the Louisiana Legislature.

All sheriffs and all deputies who are found to be physically fit, who earn at least \$400 per month and who are between the ages of 18 and 50 at the time of original employment are required to participate in the system. Employees are eligible to retire at or after age 55 with at least 12 years of credited service and receive a benefit, payable monthly for life, equal to a percentage of their average final salary for each year of credited service. The percentage factor to be used for each year of service is 2.5 percent if total service is at least 12 but less than 15 years, 2.75 percent if total service is at least 15 but less than 20 years, and 3 percent if total service is at least 20 years. In any case, the retirement benefit cannot exceed 100 percent of the final average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service, and who do not withdraw their employee contributions, may retire at or after age 55 and receive the benefits accrued to their date of termination. Employees who terminate with at least 20 years of credited service are also eligible to elect early benefits between the ages of 50 and 55 with reduced benefits equal to the actuarial equivalent of the benefit to which they would otherwise be entitled at age 55. The system also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Sheriff's Pension & Relief Fund, Monroe, Louisiana, 71210-3163 or by calling (318) 362-3188.

Contributions to the system include one-half of one percent of the taxes shown to be collectible by the tax rolls of each parish and a direct appropriation from the state of Louisiana. State statute requires covered employees to contribute 9.8 percent of their salary to the system and requires an employer contribution equal to 9.25 percent of each covered employee's salary. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Natchitoches Parish Detention Center's contributions to the System for the years ending June 30, 2004, 2003 and 2002 were \$276.681, \$206.300 and \$178.291, respectively, equal to the required contribution for each year.

<u>NATCHITOCHES PARISH SHERIFF</u> <u>NATCHITOCHES, LOUISIANA</u> <u>NOTES TO FINANCIAL STATEMENTS (CONTINUED)</u> <u>JUNE 30, 2004</u>

NOTE 11 LITIGATION

The Natchitoches Parish Sheriff is a defendant in various litigations as of the close of business on June 30, 2004. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Sheriff's legal counsel, resolution of these matters would not create a liability in excess of insurance coverage, and therefore would not have a material adverse effect on the financial condition of the Sheriff'.

NOTE 12 RISK MANAGEMENT

The Natchitoches Parish Sheriff is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Sheriff maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Sheriff.

NOTE 13 EXPENSES OF THE SHERIFF'S OFFICE PAID BY THE PARISH POLICE JURY

The Natchitoches Parish Police Jury provided office space and paid the utilities related to the office space for the Natchitoches Parish Sheriff for the year ended June 30, 2004.

NOTE 14 PRIOR YEAR RESTATEMENT OF NET ASSETS

The following adjustments were made to restate beginning net assets for June 30, 2004:

<u>Governmental Activities</u> Fund Balance,	beginning of year as previously reported	S	1,027,396
Adjustments:	Investments in Capital Assets, beginning of year Accumulated Depreciation, beginning of year	_	1.680.233 (1 <u>.351.664</u>)
Net Assets, beg	inning of year as restated	<u>s</u>	1,355,965

NOTE 15 SUBSEQUENT EVENTS

Revenue Refunding Bonds, Series 2004

On September 15, 2004, the Natchitoches Parish Sheriff entered into an agreement to issue, sell and deliver not exceeding \$2,600,000 of Revenue Refunding Bonds, series 2004, for the defeasing and refunding of \$2,600,000 of the outstanding Series 1995 Revenue Bonds which mature June 1, 2005 through June 1, 2015.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH <u>GOVERNMENT AUDITING STANDARDS</u>

Honorable Victor Jones Natchitoches Parish Sheriff P. O. Box 266 Natchitoches, Louisiana 71458

We have audited the basic financial statements of the Natchitoches Parish Sheriff, Natchitoches, Louisiana, as of and for the year ended June 30, 2004, and have issued our report thereon dated October 29, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Natchitoches Parish Sheriff's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance that are required to be reported under <u>Government Auditing Standards</u>. A description of the findings can be found in findings 2004-01 and 2004-02 of the accompanying Corrective Action Plan For Current Year Audit Findings. Schedule 4.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Natchitoches Parish Sheriff's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatement in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the Natchitoches Parish Sheriff, federal awarding agencies, pass-through entities and the Legislative Auditor of the State of Louisiana and is not intended to be, and should not be, used by anyone other than the specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Honorable Victor Jones Natchitoches Parish Sheriff P. O. Box 206 Natchitoches, Louisiana 71458

We are writing this letter as a follow-up to our recent audit of the basic financial statements of the Natchitoches Parish Sheriff, Natchitoches, Louisiana, as of June 30, 2004, and for the year then ended. We offer the following observations and recommendations, which are intended to help improve record keeping procedures and general operations of the Natchitoches Parish Sheriff and are intended to be constructive in nature:

1) Existing Conditions

At June 30, 2004, the bank deposit balances of the Natchitoches Parish Sheriff exceeded federal deposit insurance corporation (FDIC) coverage. This resulted in bank deposits not being secured against loss because the depositing banks did not pledge sufficient securities at a third party custodian to cover the excess deposits.

LSA-RS 39:1225 requires that the amount of security maintained on bank deposits shall at all times be equal to one hundred percent of the amount of bank deposits except that portion of the deposits insured by the FDIC.

Recommended Action

We suggest management of the Natchitoches Parish Sheriff review on a quarterly basis the amount of securities being pledged at each institution that deposits are maintained to ensure that proper security is being maintained over the funds as required by LSA-RS 39:1225.

Management's Response

The amount of securities being pledged to secure bank deposits will be reviewed quarterly with each financial institution.

2) Existing Conditions

We noted that actual expenditures for the general fund were \$615,343 (18,54%) more than budgeted amounts in 2004.

LSA-R.S. 39:1310 requires the Natchitoches Parish Sheriff to amend its budget whenever actual revenues and expenditures are projected to be less than or exceed budgeted amounts by more than five percent.

Recommended Action:

We suggest management of the Natchitoches Parish Sheriff closely monitor and amend it adopted budget whenever there has been a change in operations upon which the original adopted budget was developed. Care should be exercised to maintain actual revenues and expenditures within the five percent limit established by statute.

Management's Response:

The management of the Natchitoches Parish Sheriff will closely monitor its budget and make amendments to it as necessary to accurately reflect expected revenues and expenditures and to satisfy legal requirements.

These comments and recommendations are not all inclusive and are not intended to be critical of anyone. We would like to thank the Natchitoches Parish Sheriff's management and staff for their courtesy and cooperation during our engagement. If you have any questions or concerns, please let us know.

Hines, Jackson & Hines

Natchitoches, Louisiana October 29, 2004
