### INDEPENDENT AUDITORS' REPORT

The Honorable Sherbin Collette, Mayor  
and Members of the Town Council  
Town of Henderson, Louisiana

#### Report on the Audit of the Financial Statements

##### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Henderson, Louisiana, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town of Henderson, Louisiana's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Henderson, Louisiana, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

##### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Henderson, Louisiana and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

##### *Change in Accounting Principle*

As described in Note 21 to the financial statements, in 2022, the Town of Henderson, Louisiana adopted new accounting guidance, GASB Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Henderson, Louisiana's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Henderson, Louisiana's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Henderson, Louisiana's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and notes to the required supplementary information on pages 38 through 40 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Henderson, Louisiana's basic financial statements. The Justice System Funding Reporting Schedules (reporting schedules) were created by Act 87 of the Louisiana 2020 Regular Legislative Session. These reporting schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the reporting schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the schedule of insurance in force, schedule of number of sewer customers and rates, and schedule of aged accounts receivable but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 6, 2022, on our consideration of the Town of Henderson, Louisiana’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Henderson, Louisiana’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Henderson, Louisiana’s internal control over financial reporting and compliance.

### Notes to Basic Financial Statements

#### (1) Summary of Significant Accounting Policies

The Town of Henderson, Louisiana (the "Town") was incorporated in March 1971, under the provisions of the Lawrason Act, State of Louisiana. The Town operates under a Mayor-Town Council form of government and provides the following services as authorized by its charter; public safety (police and fire), streets, sanitation, health and social services, culture and recreation, public improvements, planning and zoning, and general administrative services.

The accounting and reporting practices of the Town of Henderson conform to generally accepted accounting principles as applicable to governmental units on a consistent basis between periods. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the industry audit guide, *Audits of State and Local Governmental Units*, published by the American Institute of Certified Public Accountants. The Town's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The Town Council is composed of five (5) members, duly elected by the citizens of the Town. The Town is located in the Northeast section of St. Martin Parish and has approximately 1,600 persons living within the town limits.

The following is a summary of certain significant accounting policies:

#### A. Financial Reporting Entity

As the municipal governing authority, for reporting purposes, the Town of Henderson is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (municipality), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town has no component units as described in (b) and (c) above.

The accompanying financial statements of the Town of Henderson (Town) have been prepared in conformity with generally accepted accounting principles (GAAP) generally accepted in the United States of America as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

The Town of Henderson has no authority over, nor is it involved in the record keeping of the Henderson Volunteer Fire Department; therefore, the Department is not considered to be a component unit of the Town and accordingly, is not included in the Town's audited financial statements.

#### B. Basis of Presentation

##### Government-Wide Financial Statements (GWFS)

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities presents a comparison between direct expenses and program revenues for the business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

##### Fund Financial Statements

The accounts of the Town are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The various funds of the Town are classified into two categories: governmental and proprietary (enterprise). The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

TOWN OF HENDERSON, LOUISIANA

Notes to Basic Financial Statements (Continued)

Several funds of the Town are considered to be major funds and are described below:

Governmental Fund Types-

General Fund

The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund –

Sales Tax Fund

To account for the receipt and use of proceeds of the Town's 1% sales and use tax approved in a special election in June 1972 and rededicated in April of 2016. These taxes are dedicated for the purpose of constructing, acquiring, improving, operating and maintaining public streets, including incidental drainage, parks and recreational facilities, public buildings, and sewage collection and disposal system, including land, equipment, fixtures and furnishings for said purposes and, maintaining and operating garbage and solid waste collection and disposal facilities.

Proprietary Fund Type –

Enterprise Fund

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are derived from charges for services. All other revenues are reported as nonoperating. The Town applies all applicable principles under the Governmental Accounting Standards Board (GASB) in accounting and reporting for its enterprise fund. The Town's enterprise fund is the Utility Fund.

The Town's nonmajor funds are described below:

Debt Service Fund

To account for the payment of the principal and interest of the Series 2016 Sales Tax Revenue Bonds.

Park Fund

To account for the revenues for park usage fees and expenses for maintaining the park.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government-wide statement of net position and statement of activities, governmental and business-type activities are presented using the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 “Accounting and Financial Reporting for Nonexchange Transactions.”

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within 60 days of the end of the fiscal year. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Operating

### Notes to Basic Financial Statements (Continued)

statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net total position. Ad valorem taxes are recognized as revenue in the year for which they are budgeted, that is, in the year they are billed and collected. Other major revenues considered susceptible to accrual are earned grant revenues.

Proprietary fund-type operating statements present increases (e.g. revenues) and decreases (e.g. expenses) in net total position. The proprietary fund utilizes the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

#### D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Equity

##### Cash and interest-bearing deposits

For purposes of the Statement of Net Position, cash and interest-bearing deposits include all demand accounts of the Town. For the purpose of the proprietary fund Statement of Cash Flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less. See Note (2) for additional disclosures.

##### Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.

##### Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received.

##### Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2022 are recorded as prepaid items. The only prepaid item that existed at June 30, 2022 was prepaid insurance.

##### Restricted Assets

Restricted assets include cash and interest-bearing deposits of the proprietary fund that are legally restricted as to their use. The restricted assets are related to cash comprising of the following: sinking fund, renewal and replacement fund, and reserve

TOWN OF HENDERSON, LOUISIANA

Notes to Basic Financial Statements (Continued)

fund. These enterprise fund cash accounts are restricted for future payments on long-term debt.

Capital Assets

The accounting treatment for buildings, improvements and equipment (capital assets) depends on whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. Interest costs are capitalized as they relate to fixed assets. The Town maintains a threshold level of \$1,000 or more for capitalizing capital assets.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. Land and construction in progress are not depreciated. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20-40 years
Sewer distribution system	25 years
Equipment and vehicles	3-10 years
Infrastructure	10-40 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Prior to the adoption of GASB 34, it was the Town's policy not to record infrastructure; therefore, the Town did not have a complete listing of infrastructure. However, through the years, a partial list of infrastructure was maintained. The Town has opted not to do a detailed analysis of existing infrastructure. Rather, we will include the infrastructure for which we do have cost information available, and begin accumulating infrastructure information prospectively.

Compensated Absences

Vacation and sick leave are awarded on a calendar year basis and cannot be carried over to the next year. Full-time employees of the Town earn from 5 to 10 days of noncumulative vacation leave, depending upon length of service. An employee may accept payment in lieu of taking actual vacation time, with the approval of the Mayor and the Town Council. Upon termination, all unused vacation time within the calendar year is payable at the hourly rate being earned by that employee at separation, with the exception of the police officers. The policy for the police officers for the Town is no vacation time is paid upon termination.

## TOWN OF HENDERSON, LOUISIANA

### Notes to Basic Financial Statements (Continued)

Full-time employees of the Town earn from 9 to 12 days of noncumulative sick leave each year, depending upon length of service. No sick leave is paid upon termination.

#### Unearned revenue

Revenue received that has not been spent is recorded as unearned revenue. Unearned revenue as of June 30, 2022, was grant funds from the American Rescue Plan Act (ARPA).

#### Long-term debt

All long-term debt to be repaid from governmental and business-type funds is reported as liabilities in the government-wide statements. The long-term debt consists of bonds payable and financed purchase liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt is reported as other financing sources and payment of principal and interest reported as expenditures.

#### Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively.

#### Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use, either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

In the fund financial statements, governmental fund equity is classified as fund balance. Proprietary fund equity is classified the same as in the government-wide statements.

TOWN OF HENDERSON, LOUISIANA

Notes to Basic Financial Statements (Continued)

*Nonspendable* – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted* – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

*Committed* – amounts that can be used only for specific purposes determined by a formal action of the Town Council. The Council is the highest level of decision-making authority for the Town. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by Council members.

*Assigned* – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Town’s adopted policy, only Council members or the Mayor may assign amounts for specific purposes.

*Unassigned* – all other spendable amounts.

As of June 30, 2022, fund balances are composed of the following:

	<u>General Fund</u>	<u>Sales Tax Fund</u>	<u>Nonmajor Governmental Fund</u>	<u>Total Governmental Funds</u>
Nonspendable:				
Prepaid items	\$ 8,005	\$ -	\$ -	\$ 8,005
Restricted:				
Sales tax	-	1,246,214	-	1,246,214
Park maintenance	-	-	44,314	44,314
Debt service	-	-	73,024	73,024
Committed:	-	-	-	-
Assigned:	-	-	-	-
Unassigned:	<u>3,004,342</u>	<u>-</u>	<u>-</u>	<u>3,004,342</u>
	<u>\$ 3,012,347</u>	<u>\$ 1,246,214</u>	<u>\$ 117,338</u>	<u>\$ 4,375,899</u>

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or

TOWN OF HENDERSON, LOUISIANA

Notes to Basic Financial Statements (Continued)

unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Council members have provided otherwise in its commitment or assignment actions.

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and interest-bearing deposits

Under state law, the Town may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Town may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2022, the Town has cash and interest-bearing deposits (book balances) totaling \$4,734,929.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Town's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the pledging financial institution. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit within the financial institution. These securities are held in the name of the pledging financial institution in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at June 30, 2022 are secured as follows:

Bank balances	<u>\$4,766,358</u>
At June 30, 2022 the deposits are secured as follows:	
Federal deposit insurance	\$ 500,000
Pledged securities	<u>4,266,358</u>
Total	<u>\$4,766,358</u>

Deposits in the amount of \$4,266,358 were exposed to custodial credit risk. These are uninsured and collateralized with securities held by the pledging financial institution's trust department or agent but not in the Town's name. The Town does not have a policy for custodial credit risk.

(20) Risks and Uncertainties

The COVID-19 outbreak in the United States has caused business disruption through mandated closings, reduction of operating hours, or operational restrictions for nonessential businesses, including retail stores, restaurants, personal service businesses and all entertainment venues. While the disruption is expected to be temporary, there is still uncertainty about the duration of and the implications of the closings. The Town of Henderson, Louisiana expects this matter to negatively impact availability of resources and operating results. The financial impact cannot be reasonably estimated at this time.

(21) New Accounting Pronouncement

In June of 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, *Leases*. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Town of Henderson, Louisiana adopted this standard in the year ended June 30, 2022. The implementation of this standard had no material effect on the Town of Henderson, Louisiana's financial statements for the year ended June 30, 2022.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Sherbin Collette, Mayor  
and Members of the Town Council  
Town of Henderson, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Henderson, Louisiana, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town of Henderson, Louisiana's basic financial statements, and have issued our report thereon dated October 6, 2022.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Henderson, Louisiana's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Henderson, Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Henderson, Louisiana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of prior and current year audit findings and management's corrective action plan as items 2022-001 and 2022-002 that we consider to be material weaknesses.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town of Henderson, Louisiana's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of prior and current year audit findings and management's corrective action plan as item 2022-003.

### **Town of Henderson, Louisiana's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Town of Henderson, Louisiana's response to the findings identified in our audit and described in the accompanying schedule of prior and current year audit findings and management's corrective action plan. The Town of Henderson, Louisiana's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

Schedule of Prior and Current Year Audit Findings and  
Management's Corrective Action Plan (continued)

Management's Corrective Action Plan:

Mr. Sherbin Collette, Mayor, has evaluated the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP and determined that it is in the best interest of the government to outsource this task to its independent auditors, and to carefully review the draft financial statements and notes prior to approving them and accepting responsibility for their contents and presentation.

Compliance

2022-003 – Noncompliance with Louisiana Local Government Budget Act; Year Initially Occurred – 6/30/2022

Condition and Criteria:

Louisiana Revised Statute (LSA-R.S.) 39:1301-1315, known as the Local Government Budget Act, requires that the budget be amended when actual revenues and other sources plus projected revenues and other sources are failing to meet the budgeted revenues and other sources by five percent or more. The Town revenues and other sources of the General Fund failed to meet the budgeted revenue by approximately 6.57%.

Effect:

This condition represents a violation of the Louisiana Local Government Budget Act.

Cause:

The condition resulted because the Town was not aware that revenue received but not expended should be recorded as unearned revenue resulting in an overstatement of budgeted revenue. Accordingly, the American Rescue Plan Act (ARPA) budgeted revenues were overstated by \$269,243.

Recommendation:

The Town should consider revenue received not yet expended when comparing actual revenues to budgeted revenues to determine if the budget needs to be amended.

TOWN OF HENDERSON, LOUISIANA

For the Year Ended June 30, 2022

Management's Corrective Action Plan:

Mr. Sherbin Collette, Mayor, and Mrs. Sue Dupuis, Town Clerk, are now aware that revenue received not yet expended may be considered unearned revenue and should not be included as budgeted revenue. This will be properly considered in future budgets.

IBERVILLE PARISH SHERIFF  
Plaquemine, Louisiana

Management's Response to Statewide Agreed-Upon Procedures  
For the Year Ended June 30, 2022

Management's Response to Item:

- 1j           Iberville Parish Sheriff's Office (IPSO) will consider creating a policy, however, the lease was recently paid off and IPSO is not expected to enter into another lease or issue any other type of debt in the near future.
- 5a           Although employees in the courthouse share a cash drawer, there are compensating controls over the cash drawer that make management comfortable with such. No changes deemed necessary.
- 9b           IPSO does require Sheriff approval of invoices greater than \$5,000 that are non-recurring and non-payroll related. No other changes deemed necessary at this time.
- 12b          Credit card payments were previously being mailed; the process has changed to make credit card payments online to avoid potential mailing delays. In addition, payments may be delayed if certain support for charges are not received promptly.
- 13           These transactions were for recurring monthly charges; a monthly invoice is not available for these types of transactions.
- 15d          This invoice was not received by IPSO from the vendor until 6 months after the date of the invoice. Once the invoice was received, it was promptly paid.
