INDEPENDENT AUDITORS' REPORT

The Board of Directors
The Louisiana Municipal Natural Gas
Purchasing and Distribution Authority

Opinions

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of The Louisiana Municipal Natural Gas Purchasing and Distribution Authority (the Authority), as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities and the aggregate remaining fund information of the Authority as of December 31, 2022 and 2021, and the changes in financial position and its cash flows, thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Louisiana Municipal Natural Gas Purchasing and Distribution Authority and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The schedule of compensation, benefits, and other payments to the Chief Executive Officer included on page 19 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reports Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report on pages 20 and 21, dated June 23, 2023, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis of the Louisiana Municipal Natural Gas Purchasing and Distribution Authority (the Authority or LMNGA) presents a narrative overview and analysis of the Authority's financial activities for the years ended December 31, 2022 and 2021. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. We encourage readers to consider the information presented here in conjunction with the Authority's financial statements, which follow this section.

Financial Highlights

- The assets of the Authority exceeded its liabilities at December 31, 2022 by \$1,621,373 compared to \$1,422,411 as of December 31, 2021, which is a \$198,962 increase from the previous year.
- At December 31, 2022, the Authority's assets totaled \$6,942,188 which consisted primarily of accounts receivable and cash, as compared to a balance of \$4,900,867 at December 31, 2021 which consisted of the same. This increase relates to the increase in accounts receivable from members at year end.
- The Authority purchases and resells gas to members under short term purchase commitments or based on current market prices. The Authority's total gas sales were \$40,308,233 and \$26,051,785 during the years ended December 31, 2022 and 2021, respectively. The increase from the prior year is primarily a result of fluctuations in market prices. The average natural gas rate for the year ended December 31, 2022 and 2021 was \$6.64 and \$3.84, respectively.

Overview of the Financial Statements

This financial report consists of Management's Discussion and Analysis and the basic financial statements. The basic financial statements also include notes to the basic financial statements, which explain some of the information in the basic financial statements in more detail.

The basic financial statements of the Authority report information about the Authority using accounting methods similar to those used by the private sector. The Statements of Net Position include all of the Authority's assets and liabilities and provide information about the nature and amounts of investments in resources (assets) and the obligations to the Authority's members and creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the Authority. All of the years' revenues and expenses are accounted for in the Statements of Revenues, Expenses and Changes in Net Position. These statements measure the success of the Authority's operations over the year and can be used to determine whether the Authority has successfully recovered all its costs through its operating revenue, profitability and credit worthiness. The final required basic financial statements are the Statements of Cash Flows. The primary purpose of these statements is to provide information about the Authority's cash receipts and cash payments throughout the year. These statements report cash receipts, cash payments and net changes in cash resulting from operations, investing, and financing activities.

Fiduciary funds are used to account for resources held for the benefit of outside parties. Fiduciary funds are not reflected in the financial statements because the resources of those funds are not available to support the Authority's programs. The sole fiduciary fund of the Authority is the Settlement Fund, which contains monies belonging to parties involved in a Settlement Agreement.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the Authority

The statements of net position and the statements of revenues, expenses and changes in net position report information in a way that the reader can determine if the Authority is in a better financial position as a result of the year's activities. These statements report the net position of the Authority and changes in them. The net position (difference between assets, deferred outflows, deferred inflows and liabilities) can be used to measure financial health or financial position. Over time, increases and decreases in the Authority's net position are one indicator as to whether its financial health is improving or deteriorating. There are other non-financial factors to consider, such as changes in economic conditions and new or changed government legislation.

Condensed Statements of Net Position

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Total assets	\$ 6,942,188	\$ 4,900,867

Deferred inflows	<u>-</u>	<u>-</u>
Net position	<u>\$ 1,621,373</u>	<u>\$ 1,422,411</u>

At December 31, 2022, the Authority's assets consist primarily of cash and accounts receivable from member municipalities throughout Louisiana. At December 31, 2022, accounts receivable increased by 62% from the prior year due to an increase in the 2022 gas prices. The increase in accounts payable for gas purchases was experienced at the end of 2022 associated with timing of receivable collections, vendor payments and the increase in the average price of natural gas.

Condensed Statements of Revenues and Expenses for the Years Ended December 31:

Operating revenues and interest income	\$ 40,757,525	\$ 26,417,267

In 2022, the Authority reported operating revenues and interest income of \$40,757,525, compared to operating revenues and interest income in 2021 of \$26,417,267. The Authority reported total expenses \$40,558,563, an increase of \$14,372,453 over the prior year. Expenses consist primarily of the cost of natural gas purchased from vendors which fluctuates based on overall market conditions.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Louisiana Municipal Natural Gas Purchasing and Distribution Authority (the Authority or LMNGA) is a quasi-public corporation and an instrumentality of the State of Louisiana, created on November 23, 1987 pursuant to La. R.S. 33:4546.1 et seq. for the purpose of purchasing and distributing natural gas to participating municipalities and political subdivisions.

(a) *Basis of Accounting*

As a proprietary fund, the Authority's operations are accounted for using a flow of economic resources, measurement focus and the accrual basis of accounting. Proprietary funds are used to account for governmental activities that are similar to those found in the private sector where the determination of operating income and changes in net position is necessary or useful to sound financial administration. Under this method of accounting, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The operating statements present increases (revenues) and decreases (expenses) in net position.

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed to the extent they have been made authoritative under Governmental Accounting Standards Statement (GASB) 62, Codification of Accounting and Financial Reporting Guidance contained in Pre-November 30, 1989 FASB and AICPA pronouncements.

The Authority adopted GASB Statement No. 84, which establishes standards of accounting and financial reporting for fiduciary activities. This Statement establishes criteria for fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

This Statement describes four fiduciary funds that should be reported, as applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

The Authority determined that the Settlement Fund, which contains funds belonging to parties involved in a Settlement Agreement, meets the criteria for reporting as a custodial fund. The fund held and current amounts payable are reported in the statement of fiduciary net position. In addition, a new statement of changes in fiduciary net position includes the changes in custodial fund activity. This new statement requires reporting the details of additions to and deductions from custodial fund activities which was not previously required to be reported for agency funds.

PURCHASING AND DISTRIBUTION AUTHORITY**

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) *Net Position*

Net position represents the difference between assets plus deferred outflows of resources, less liabilities, less deferred inflows of resources. The investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any debt proceeds, if any, used for the acquisition, construction, or improvements of those assets.

The *restricted* component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those restricted assets. The restricted component of net position is used when there are limitations imposed on their use of an asset by external parties such as creditors, grantors, laws or regulations of other governments.

The *unrestricted* component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of Net Position.

When both restricted and unrestricted resources are available for use for a particular project or purpose, it is Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Deferred Outflows/Inflows of Resources

The statement of financial position will often report a separate section for deferred outflows and (or) deferred inflows of financial resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

(c) *Allowance for Uncollectible Accounts*

Management of the Authority assesses the status and collectability of accounts receivable and believes all accounts receivable are collectible based upon favorable history over a substantial period of time; therefore, an allowance for uncollectible accounts has not been provided.

(d) *Cash, Cash Equivalents*

Cash and cash equivalents include cash on hand and money market accounts. These deposits are stated at cost, which approximates fair value.

**THE LOUISIANA MUNICIPAL NATURAL GAS
PURCHASING AND DISTRIBUTION AUTHORITY**

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) *Depreciation and Amortization*

Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets as follows:

Furniture and equipment	5-10 years
-------------------------	------------

(f) *Purchase Agent Fee*

The Authority has a contract with a gas management firm to act as the exclusive agent to purchase natural gas for the Authority. The contract was for five (5) years, which would have expired on April 30, 2013, but was extended through June 30, 2022, and shall continue in full force and effect thereafter for successive periods of one year unless and until earlier terminated by either party upon at least six months' prior written notice.

(g) *Management Fee*

In 2018, the Authority contracted with the Louisiana Municipal Association (LMA) to manage the affairs of the Authority. The Authority's Board of Directors and Executive Committee administered and established policies for the management of the Authority. Under this agreement, LMA also provided the Authority with support services necessary to carry out the functions of the Authority and its membership. In 2019, a third party was hired to manage the affairs of the Authority. LMA continues to provide support services for the Authority in accordance with the agreement. For the years ended December 31, 2022 and 2021, amounts paid to LMA by the Authority related to this management fee totaled \$157,375. These fees are included in management fees on the statements of revenues, expenses, and changes in net position. The agreement was originally for a five (5) year period ended April 30, 2013 and was amended on July 1, 2019. Under the amendment, the Authority shall pay LMA the amounts of \$130,000 per year, payable in twelve monthly installments, from the gas purchased by the Authority members other than for sale by such members to a Large Volume User, with this amount to be annually reevaluated and adjusted as needed by mutual agreement of both the Authority and LMA. The amended agreement contains no expiration date.

(h) *Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

(i) *Revenues*

The Authority purchases natural gas for its members and bills them for the cost of the gas plus a fee per unit of natural gas purchased. This fee comprises the Authority's membership dues. Accordingly, receivables from the members and payables to the vendors are generated when gas is delivered into the respective pipelines. The membership dues collected from members are allocated entirely to pay the aforementioned purchase agent and management fees and other operating costs of the Authority.

**THE LOUISIANA MUNICIPAL NATURAL GAS
PURCHASING AND DISTRIBUTION AUTHORITY**

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) *Operating/Non-Operating Revenue and Expenses*

Operating revenues consist of gas sales, membership dues, legal fees billed and late charges assessed as these revenues are generated from the Authority's operations and are needed to carry out its statutory purpose. All expenses incurred for that purpose are classified as operating expenses. Interest income and other revenues and expenses, which are ancillary to the Authority's statutory purpose, are classified as non-operating.

(k) *Income Taxes*

The Authority is exempt from income taxes under Sections 7701 and 115(1) of the Internal Revenue Code.

2. CASH AND CASH EQUIVALENTS

As of December 31, 2022 and 2021, the Authority had the following deposits and investments:

	<u>2022</u>	<u>2021</u>
The Authority:		
Cash and cash equivalents	\$ 417,941	\$ 863,260

For reporting purposes, cash and cash equivalents include cash on hand, demand deposits, unrestricted money market accounts, and all highly liquid investments with an original maturity of three months or less. Cash and cash equivalents are stated at cost, which approximates fair value.

Custodial credit risk is the risk that in the event of a financial institution failure, the Fund's deposits may not be returned to them. The Fund's deposits are secured by federal deposit insurance up to \$250,000.

There is a balance of \$1,056,211 and \$1,038,666 included in cash and cash equivalents on the statements of fiduciary assets and liabilities that is invested in the Louisiana Asset Management Pool (LAMP) for the years ended December 31, 2022 and 2021, respectively. LAMP is considered to be an external investment pool administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33.2955.

2. CASH AND CASH EQUIVALENTS (continued)

The following facts are relevant for LAMP:

Credit risk: LAMP is rated AAAM by Standard & Poor's.

Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.

Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 70 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 22 days as of December 31, 2022.

Foreign currency risk: Not applicable.

3. PURCHASE COMMITMENTS AND SIGNIFICANT RISK CONCENTRATIONS

The Authority routinely enters into short term gas purchase commitments with various vendors in the ordinary course of business. The purchase commitments usually include the volume of gas to be purchased and the purchase price of these volumes. The Authority bills its members based on the actual cost of gas incurred. During 2022, the Authority purchased approximately 85% of its gas purchases from two vendors, which individually comprised purchases of 64% and 21%, respectively. During 2021, the Authority purchased approximately 82% of its gas purchases from two vendors, which individually comprised purchases of 56% and 26%, respectively.

Management continually monitors the financial condition of the counterparties and believes the counterparties have the ability to meet their obligations under the respective agreements. The inability of any counterparty to perform under their contractual obligations over the duration of the contracts would have significant adverse financial and operational impacts on the Authority.

NOTES TO BASIC FINANCIAL STATEMENTS

4. PARTICIPANT REIMBURSEMENT

In accordance with a supply agreement executed by the Authority in 2016, participating members obtain initial discounts of \$0.10 per MMBtu upon monthly purchase of natural gas. Additionally, members may obtain an annual refund from the third party of \$0.03 per MMBtu, if all assumptions underlying the projected amount are realized. Such annual refund, if any, shall be paid to the members as soon as practicable following September 1 of each calendar year or the approval of the third party's annual financial statements by their Board of Directors, whichever is later. During 2022 and 2021 the Authority discounted gas to the participating members on a monthly basis totaling \$386,416 and \$396,794, respectively.

5. TECHNICAL ASSISTANCE PROGRAM

During the year ended December 31, 2022, the Authority entered into an agreement with the Louisiana Rural Water Association (LRWA) to provide a technician to assist current and or potential members of the Authority with natural gas distribution systems. As part of this agreement, the Authority will pay LRWA \$180,000 per year and members will provide \$0.05 of the \$0.10 discount as described in Note 4 to fund the program. The agreement expires on April 6, 2023, but is set to automatically renew for a period of one year unless terminated as agreed upon by both parties. During the year ended December 31, 2022, a net revenue amount of approximately \$32,000 related to this program was reflected in operating revenues on the statements of revenues, expenses, and changes in net position.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS**

To the Board of Directors
The Louisiana Municipal Natural Gas
Purchasing and Distribution Authority
Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate remaining fund information of the Louisiana Municipal Natural Gas Purchasing and Distribution Authority (the Authority) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated June 23, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
