INDEPENDENT AUDITOR'S REPORT

The Board of Commissioners
West Vernon Parish Waterworks District
Anacoco, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of the West Vernon Parish Waterworks District (District), a component unit of the Vernon Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District, as of December 31, 2022, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

The District has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying comparative statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the comparative statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The prior year comparative amounts included in this information have been derived from the District's 2021 financial statements, which were subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly presented, in all material respects, in relation to the basic financial statements from which they were derived.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the various schedules included in the other information section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 12, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The financial statements of West Vernon Parish Waterworks District (District) have been prepared in conformity with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies are described below.

A. Financial Reporting Entity

The District was created in 2002 under the provisions of Louisiana Revised Statutes 33:3811-3837, for the purpose of providing water service to the rural western portion of Vernon Parish. The District is governed by a board of commissioners composed of five members appointed by the Vernon Parish Police Jury.

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Because the Vernon Parish Police Jury appoints the District's governing body, the District was determined to be a component unit of the Vernon Parish Police Jury, the governing body of the parish and the governmental entity with oversight responsibility. The accompanying financial statements present information only on the proprietary fund maintained by the District and do not present information on the Vernon Parish Police Jury, the general government services provided by that governmental entity, or the other governmental entities that comprise the financial reporting entity.

B. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental entities and as a governmental entity provides certain disclosures required by the Governmental Accounting Standards Board.

C. Fund Accounting

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

WEST VERNON PARISH WATERWORKS DISTRICT
Anacoco, Louisiana

Notes to Basic Financial Statements (Continued)

The District maintains only one fund as described below:

Proprietary Fund –

Enterprise Fund

The Enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

D. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

The enterprise fund utilizes an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

The proprietary fund statements are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when the liability is incurred, or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized in accordance with the requirements of GASB Statement No. 33 “Accounting and Financial Reporting for Nonexchange Transactions.”

E. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity

Cash and cash equivalents

Cash and cash equivalents consist of demand deposits. They are stated at cost, which approximates market.

WEST VERNON PARISH WATERWORKS DISTRICT
Anacoco, Louisiana

Notes to Basic Financial Statements (Continued)

Investments

Local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. Investments are stated at fair value.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. Enterprise fund activities report customer utility service receivables as their major receivables. This receivable is reported net of an allowance for doubtful accounts, if any. There was no allowance recorded at December 31, 2022 due to immateriality.

Unbilled receivables resulting from services rendered between the date of meter reading and billing and the end of the month, are recorded at year-end.

The District also has major receivable balances for ad valorem taxes. This receivable is reported net of an allowance for uncollectible accounts, if any. There was no allowance recorded at December 31, 2022 due to immateriality.

Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets. They are reported at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at acquisition value at the time of donation. The District maintains a threshold level of \$1,000 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. Depreciation of all exhaustible fixed assets used by the proprietary fund is charged as an expense against its operations. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Plant and Distribution System	40 years
Buildings	25 years
Equipment and Vehicles	5-7 years

Long-term Debt

All long-term debt to be repaid from business-type resources is reported as liabilities. The long-term debt consists of bonds and certificates of indebtedness payable.

WEST VERNON PARISH WATERWORKS DISTRICT
Anacoco, Louisiana

Notes to Basic Financial Statements (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has no deferred outflows of resources at December 31, 2022 .

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The District has no deferred inflows of resources at December 31, 2022.

Equity Classifications

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- b. Restricted net position consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation. At December 31, 2022, the District reported \$508,577 of restricted net position, none of which was restricted by enabling legislation. It is the District's policy to use restricted net position prior to the use of unrestricted net position when both restricted and unrestricted net position are available for an expense which has been incurred.
- c. Unrestricted net position consists of all other assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not meet the definition of "restricted" or "net investment in capital assets."

WEST VERNON PARISH WATERWORKS DISTRICT
Anacoco, Louisiana

Notes to Basic Financial Statements (Continued)

F. Revenues and Expenses

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds generally are those that result from providing services and producing and delivering goods and/or services in connection with a proprietary fund's principle ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and services. The District also recognizes as operating revenue the portion of new installation and tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

Nonoperating Revenues and Expenses

Nonoperating revenues are funds primarily provided by investing activities, such as financial institution interest income, gains on disposal of assets, and insurance recoveries on property loss. Nonoperating expenses are those expenses not directly related to the production of revenue and include items such as interest expense and losses on disposal of assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from those estimates.

Notes to Basic Financial Statements (Continued)

(2) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied in November and are actually billed to the taxpayers in December. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year. Tax revenues are recognized in the year they are billed.

The taxes are based on assessed values determined by the Tax Assessor of Vernon Parish and are collected by the Sheriff. The taxes are remitted to the West Vernon Parish Waterworks District net of deductions for Pension Fund Contributions.

For the year ended December 31, 2022, taxes of 10 mills were levied on property with net assessed valuations totaling \$9,800,976 and were dedicated to paying the operations and maintenance costs of the District. Total taxes levied during 2022 were \$98,010. Taxes receivable at December 31, 2022 totaled \$98,010.

(3) Cash and Cash Equivalents

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of the state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2022, the District had cash and cash equivalents (book balances) totaling \$1,103,955.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered, or the District will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the pledging financial institution. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the financial institution. These securities are held in the name of the pledging financial institution in a holding or custodial bank that is mutually acceptable to both parties.

Deposit balances (bank balances) at December 31, 2022, were as follows:

Bank balances	<u>\$1,108,579</u>
At December 31, 2022, bank balances are secured as follows:	
Insured	500,000
Pledged securities	<u>608,579</u>
Total	<u>\$1,108,579</u>

WEST VERNON PARISH WATERWORKS DISTRICT
Anacoco, Louisiana

Notes to Basic Financial Statements (Continued)

Deposits in the amount of \$608,579 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the District's name. The District does not have a policy for custodial credit risk. The District follows state law regarding its deposits and investments; however, it has not adopted a formal deposit and investment policy.

(4) Investments

The District participates in Louisiana Asset Management Pool (LAMP). LAMP is administered by Lamp, Inc., a nonprofit corporation organized under the laws of the State of Louisiana. Only local governmental entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955.

Accounting standards require disclosure of credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with accounting standards. The following facts are relevant for investment pools:

- Credit risk: LAMP is rated AAAM issued by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: LAMP's pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.
- Foreign currency risk: Not applicable

The investment in LAMP totaling \$117,360 is stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

Under the terms of the bond indentures for Notes 91-01, 91-03, and 91-05, all income and revenues (hereinafter referred to as revenue) of every nature, earned or derived from operation of the Water Utility System are pledged and dedicated to the retirement of said bonds and are to be set aside into the following special funds:

Each month there will be set aside into a “Debt Service Reserve Fund” an amount equal to five (5) percent of the annual payment of all notes. This monthly deposit should continue until the balance in the reserve fund reaches the total of one annual installment of all notes.

Funds will also be set aside into a “Depreciation and Contingency Fund” to care for extensions, additions, improvements, renewals and replacements necessary to properly operate the system, by transferring from the operation account an initial deposit of \$26,250 prior to loan closing and a monthly deposit of \$888 in perpetuity for the life of all loans.

All of the revenues received in any fiscal year and that are not required to be paid into any of the above noted funds in such fiscal year shall be regarded as surplus and may be used for any lawful purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Commissioners
West Vernon Parish Waterworks District
Anacoco, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the West Vernon Parish Waterworks District (District), a component unit of the Vernon Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 12, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of current and prior year audit findings and management's corrective action plan as item #2022-001, that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of current and prior year audit findings and management's corrective action plan as item #2022-002.

West Vernon Parish Waterworks District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the findings identified in our audit and described in the accompanying schedule of current and prior year audit findings and management's corrective action plan. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Schedule of Current and Prior Year Audit Findings
and Management's Corrective Action Plan (Continued)
Year Ended December 31, 2022

Part I: Current Year Findings and Management's Corrective Action Plan

A. Internal Control Over Financial Reporting

2022-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: Unknown

CONDITION: The District did not have adequate segregation of functions within the accounting system.

CRITERIA: AU-C§315.04, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement*, defines internal control as follows:

“Internal control is a process, affected by those charged with governance, management, and other personnel, designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.”

CAUSE: The cause of the condition is the fact that the District does not have a sufficient number of staff performing administrative and financial duties so as to provide adequate segregation of accounting and financial duties.

EFFECT: Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

RECOMMENDATION: Management should evaluate the cost vs. benefit of complete segregation and whenever possible, reassign incompatible duties among different employees to ensure that a single employee does not have a control of more than one of the following responsibilities: (1) authorization; (2) custody; (3) recording keeping; and (4) reconciliation.

MANAGEMENT'S CORRECTIVE ACTION PLAN: The District has determined that it is not cost effective to achieve complete segregation of duties within the accounting department.

B. Compliance

2022-002 Untimely Reporting of Theft

Fiscal year finding initially occurred: 2022

CONDITION: In September 2022, the District discovered attempted third-party fraud when reviewing the monthly credit card statement and did not notify the Legislative Auditor or the District Attorney in writing as required by state law. The fraudulent charges were immediately reported to the bank. The bank reversed the charges, closed the affected account, and reopened a new account.

CRITERIA: State law [Louisiana Revised Statute (R.S. 24:523 A)] states that an agency head of an auditee who has actual knowledge of or reasonable cause to believe that there has been a misappropriation of public funds or assets shall immediately notify, in writing, the legislative auditor and the district attorney of the parish in which the agency is domiciled.

CAUSE: The cause of the condition is the fact that management misinterpreted the requirements of LA R.S. 24:523 A since all fraudulent charges were reversed.

EFFECT: The failure to notify the Legislative Auditor and District Attorney of the third-party fraud violates LA R.S. 24:523 A.

RECOMMENDATION: Management should notify the Legislative Auditor and the District Attorney immediately in writing when a misappropriation is identified.

MANAGEMENT'S CORRECTIVE ACTION PLAN: The District will timely notify the Legislative Auditor and the District Attorney in writing of any misappropriations in the future.

2021-001 Inadequate Segregation of duties

CONDITION: The District did not have adequate segregation of functions within the accounting system.

RECOMMENDATION: Management should evaluate the cost vs. benefit of complete segregation and whenever possible, reassign incompatible duties among different employees to ensure that a single employee does not have a control of more than one of the following responsibilities: (1) authorization; (2) custody; (3) recording keeping; and (4) reconciliation..

CURRENT STATUS: Unresolved. See item 2022-001.
