INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Red River, Atchafalaya and Bayou Boeuf Levee District
Alexandria, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Red River, Atchafalaya and Bayou Boeuf Levee District (the District), a discrete component unit of the State of Louisiana, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the government activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2026, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considering in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A) and the required supplemental information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the MD&A and required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental schedules as listed in the table of contents and the division of administration annual fiscal report (AFR) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules and AFR are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 19, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Red River, Atchafalaya and Bayou Boeuf Levee District's internal control over financial reporting and compliance.

Lake Charles, Louisiana
August 19, 2026

REQUIRED SUPPLEMENTAL INFORMATION
(PART 1 OF 2)

The Management's Discussion and Analysis of Red River, Atchafalaya and Bayou Boeuf Levee District's (the District) financial performance presents a narrative overview and analysis of the District's financial activities for the year ended June 30, 2026. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the District's financial statements.

1. Overview of the Financial Statements

The financial statements are comprised of three components: Management's Discussion and Analysis (this section), the basic financial statements, and Required Supplementary Information. The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains additional information to supplement the basic financial statements, such as required supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector businesses.

The Statement of Net Position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is net position and may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's assets changed during the most recent fiscal year. Regardless of whether cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, transactions are included in that will not affect cash until future periods.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses a single fund to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's only fund, the General Fund.

The District only uses one fund type, the governmental fund. The governmental fund is used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Fund Financial Statements (continued)

Because the view of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilities this comparison between the governmental fund and governmental activities.

Notes to the Financial Statements

The notes to the financial statements provide additional information and narrative explanations that are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information and Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information concerning the District's proportionate share of the net pension liability, the District's Contributions – LASERS, the District's proportionate share of the total collective OPEB liability, and the budgetary comparison schedule required by GASB. The Schedule of Per Diem and Salary Paid to Board Commissioners presents the compensation received by the Board commissioners in accordance with Louisiana Revised Statue 38:308 and Schedule of Compensation, Benefits, and Other Payments to Agency Head represents information required to be reported by the Louisiana Legislative Auditor.

2. Financial Summary

The following information summarizes the changes in the District's net position for the current and prior fiscal years, establishing a baseline for the detailed analysis that follows:

- The District's assets and deferred outflows exceeded the liabilities and deferred inflows at the close of fiscal year 2026 by $3,811,240, which represents an increase from last year. Assets consist primarily of investments and capital assets. Net position increased by $1,561,417 or 69.40% over the previous year.

- The District's revenue totaled $4,149,059 for the year ended June 30, 2026. These revenues are comprised primarily of Ad Valorem taxes. Revenues increased $79,485, or 1.95%, compared to the prior fiscal year.

- The District's expenditures totaled $2,587,642 for the year ended June 30, 2026. These expenditures are comprised primarily of salaries and benefits and levee maintenance. Expenditures decreased $202,522, or 7.26%, compared to the prior fiscal year.

2. Financial Summary (continued)

The following table provides analysis of the District's net position for the current and prior fiscal years:

SUMMARY OF NET POSITION
Governmental activities
As of June 30

Assets	2026	2025	Variance	Percent Change

2. Financial Summary (continued)

The following table provides analysis of the changes in the District's net position for the current and prior fiscal years:

STATEMENT OF ACTIVITIES
Governmental activities
For the Years Ended June 30

Revenues	2026	2025	Variance	Percent Change
Charges for services	$ 203,327	$ 184,139	19,188	10.42%
General Revenues:				
Ad valorem taxes	3,525,139	3,420,987	104,152	3.04%
State revenue sharing	74,755	75,404	(649)	-0.86%
Interest income	231,758	234,927	(3,169)	-1.35%
Miscellaneous	114,080	154,117	(40,037)	-25.98%
Total Revenues	4,149,059	4,069,574	79,485	1.95%
Expenses				
Public Safety/Flood Protection	2,587,642	2,790,164	(202,522)	-7.26%
Change in net position	1,561,417	1,279,410	282,007	22.04%
Net position, beginning	2,249,823	970,413	1,279,410	131.84%
			-	
Net position, ending	$ 3,811,240	$ 2,249,823	1,561,417	69.40%

3. Detailed Analyses

- The District's total net position increased by $1,561,417 or 69.40% over the prior year. The district had total revenues of $4,149,059 in fiscal year 2026 and total expenses of $2,587,642 in fiscal year 2026. This growth is predominantly driven by an increase in revenues of $79,485 over the prior year, or 1.95%, and a decrease in expenses of $202,522, or 7.26% over the prior year.

- Approximately 85% of the District's 2026 revenue is derived from ad valorem taxes levied on the parishes of Avoyelles, Rapides and St. Landry. For 2025, approximately 84% was derived from ad valorem taxes. Ad valorem tax revenue accounted for the majority of the increase in revenues in the current year.

- Other sources of 2026 revenues include charges for services (4.9% of total), state revenue sharing (1.8% of total), interest income (5.6% of total), and miscellaneous sources (2.7% of total). These totals were comparable to prior year totals.

- Current assets increased by $990,598 over the prior year. This was primarily driven by an increase in investments of $1,281,149. The increase in the District's investments is attributed to investment income of $231,149 along with the excess of contributions to the investment account over distributions from the investment account in fiscal year 2026.

- Capital assets increased by $152,058, or 5.85%, over the prior year. The increase is due to the excess of current year capital asset additions over current year disposals and depreciation expense. The District purchased two new dump trucks, three trucks and two box blades in the current year and sold five used trucks.

- Total liabilities decreased by $418,505 or 5.82%, over the prior year. This decrease is primarily driven by changes in the pension and OPEB liabilities. These liabilities are determined by actuarial calculations.

- Total assets on the Governmental Funds Balance Sheet increased by $972,447, or 14.77%. This increase it attributable to the increase in investments in the current year.

- Total Governmental Fund Balance increased by $1,000,928 from June 30, 2025 to June 30, 2026.

4. Significant Capital Asset and Long-Term Financing Activity

Capital Asset Portfolio Developments

As of June 30, 2026, the District's net investment in capital assets was $2,752,369. Notable activity for the current period included machinery and equipment additions of $440,778 and disposals of $179,831 for a net increase of $260,947. The additions consisted of dump trucks, trucks, and box blades. Depreciation expense was $288,720 for the year ended June 30, 2026, and accumulated depreciation increased by $108,889 as the current year disposed assets of $179,831 were all fully-depreciated. The table below provides further analysis of the changes in the current year:

CAPITAL ASSETS
Net of Accumulated Depreciation
Governmental Activities

	2026	2025	Variance	Percent Change
Land	$ 412,005	$ 412,005	-	0.00%
Buildings and improvements	740,847	740,847	-	0.00%
Machinery and equipment	4,600,458	4,339,511	260,947	6.01%
Office equipment	12,272	12,272	-	0.00%
Construction in progress	-	-	-	0.00%
Total Capital Assets	5,765,582	5,504,635	260,947	4.74%
Accumulated Depreciation	(3,013,213)	(2,904,324)	(108,889)	3.75%
Captial Assets Net of Depr.	$ 2,752,369	$ 2,600,311	152,058	5.85%

Long-Term Liabilities

As of June 30, 2026, the District's long-term liabilities totaled $6,681,034, which represented a decrease of $390,024, or 5.52% over the prior year. The District had no long-term financing through financial institutions as of year-end. Long-term liabilities consisted of compensated absences calculated in accordance with GASB Statement No. 101, *"Compensated Absences"* of $566,899, OPEB Payable of $4,461,730 and Net Pension Liability of $1,652,405. The table below provides further analysis of the changes in the current year:

Long-term Liabilities
Governmental Activities

	2026	2025	Variance	Percent Change
Compensated absences	$ 566,899	$ 522,682	$ 44,217	8.5%
OPEB payable	4,461,730	4,586,484	(124,754)	-2.7%
Pension liability	1,652,405	1,961,892	(309,487)	-15.8%
Total long-term liabilities	$ 6,681,034	$ 7,071,058	(390,024)	-5.5%

5. Currently Known Facts, Decisions, or Conditions

Management of Red River, Atchafalaya and Bayou Boeuf Levee District has evaluated events, decisions and actions that will impact the District's financial position during the upcoming fiscal year. In an effort to ensure proper maintenance of the levee systems, management has budgeted approximately $450,000 for the purchase of three new tractors and approximately $32,000 for the purchase of a new batwing cutter. In addition to these capital purchases, the District has engaged an engineering firm to conduct a feasibility study, budgeted at $80,000, to develop cost estimates, conceptual plans, and hydraulic modeling for two potential future projects within the district.

Request for Information

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations and demonstrate the District's commitment to public accountability. Any questions or requests for additional information can be obtained by contacting Brian Cespiva, Executive Director, at 10 Calvert Drive, Alexandria, Louisiana 71303 or calling 318-443-9646.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT
OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITES
(See Accompanying Notes and Independent Auditors' Report)
For the Year Ended June 30, 2026

Net Change in Fund Balances - Total Government Funds	$ 1,000,928
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded captial outlays in the current period.	152,057
Lease recognition under GASB 87 does not require the use of current financial resources and is not reported in governmental funds.	4,293
Some expenses reported in the Statement of Activities do not require the use of current financial resources and are not reported as expenditures in governemental funds. These include the net change in:	
Compensated absences	(44,217)
OPEB liability	183,499
Net pension liability	264,857
Change in Net Position - Governmental Activities	$ 1,561,417

The accompanying notes are an intergral part of this statements.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2026

INTRODUCTION

The Red River, Atchafalaya and Bayou Boeuf Levee District (District), a component unit of the State of Louisiana, was created by Louisiana Revised Statute (R.S.) 38:291 (M). The District is domiciled in Alexandria, Louisiana, and serves as a multi-parish authority to accomplish flood protection through the maintenance of levees and drainage. Its service area includes all or portions of Avoyelles, Rapides and St. Landry parishes. The Board of Commissioners administers the operations and responsibilities of the District in accordance with the provisions of Louisiana statutes. The five members of the Board of Commissioners which governs the District are appointed by the Governor of the State of Louisiana.

Commissioners, as authorized by R.S. 38:308 receive a per diem to attend meetings or conduct board-approved business not to exceed 75% of the rate allowable pursuant to 26 U.S.C. 162(h)(1)(B)(ii) for up to 36 days per year. The president receives a salary in lieu of the per diem provision in an amount not to exceed $1,000 per month.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting practice of the Red River, Atchafalaya and Bayou Boeuf Levee District conforms to generally accepted principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513 and to the guides set forth in the *Louisiana Governmental Audit Guide*, and to the industry audit guide Audits of State and *Local Governmental Units.*

The following is a summary of certain significant accounting policies:

Basis of Presentation – The Governmental Accounting Standards Board (GASB) promulgates accounting principles generally accepted in the United States of America and reporting standards for state and local governments. These principles are found in the *Codification of Governmental Accounting and Financial Reporting Standards,* published by GASB. The accompanying financial statements have been prepared in accordance with such principles.

Reporting Entity – GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The District is considered a discrete component unit of the State of Louisiana because the State exercises oversight responsibility in that the Governor appoints the majority of the board members and public service is rendered within the State's boundaries. The accompanying financial statements present only the transactions of the Red River, Atchafalaya and Bayou Boeuf Levee District.

Government–Wide and Fund Financials – In accordance with Government Accounting Standards Board, the District has presented a statement of net position and statement of activities for the District as a whole. Government-wide accounting is designed to provide a more comprehensive view of the government's operations and financial position as a single economic entity. The District has also presented a fund balance sheet and statement of revenues, expenditures, and changes in fund balance. Fund accounting is designed to demonstrate legal compliance and to aid financial management by demonstrating the current resources of the District. Government-wide and governmental fund statements distinguish between governmental and business-type activities. The District's general fund is classified as governmental activities.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Policies specific to the government-wide statements are as follows:

Capitalizing Assets – Tangible and/or intangible assets used in operations with an initial useful life that extends beyond one year and exceed $1,000 in cost are capitalized. Infrastructure assets such as roads and bridges are also capitalized along with interest on debt incurred during construction. Capital assets are recorded at their historical cost and are depreciated using the straight-line method of depreciation over their estimated useful lives. They are reported net of accumulated depreciation on the statement of net position.

Using the requirements of GASB Statement No. 34, the District is considered a Phase 3 government, as its total annual revenues are less than $10 million. Such governments are not required to report major general infrastructure assets retroactively. The District has opted not to retroactively report these types of capital assets.

Program Revenues – The Statement of Activities presents two categories of program revenues (1) charges for services and (2) state revenue sharing. Charges for services are those revenues arising from charges to customers who purchase, use or directly benefit from goods and services provided by the District. State revenue sharing revenues are revenues arising from receipts from the State of Louisiana.

Indirect Expenses – Expenses are reported according to function except for those that meet the definition of special or extraordinary items. Direct expenses are specifically associated with a service or program. Indirect expenses include general government or administration that cannot be to other functions, and the District has chosen not to do so.

Basis of Accounting/Measurement Focus

The government-wide statements are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of governmental and business-type activities are included in the statement of net assets. Revenues and recognized when earned, and expenses are recognized at the time the liabilities are incurred in the statement of activities. In these statements, capital assets are reported and depreciated in each fund, and long-term debt is reported.

The fund statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements present increase and decreases in net current assets. Expenditures for capital assets are reported as current expenses, and such assets are not depreciated. Principle and interest paid on long-term debt is reported as current expenses.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets and Budgetary Accounting – The District adopts an annual budget for all of its funds, prepared in accordance with the basis of accounting utilized by that fund. The Board must approve any revisions that alter the total expenditures. Budgeted amounts shown are as originally adopted and as amended by the Board. The District amends its budget when projected revenues are expected to be less than budgeted revenues by 5% or more and/or projected expenditures are expected to be more than budgeted amounts by 5% or more.

Cash and Cash Equivalents – Cash includes amounts in interest bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Investments – The District utilizes the Louisiana Asset Management Pool (LAMP), an external investment pool for investment funds. The investments are carried at fair market value and amortized cost.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Receivables – Receivables are recorded net of any allowance for uncollectible amounts in both governmental and business-type activities.

Capital Assets – The District's assets are recorded at historical cost or estimated historical cost if actual is not available. Donated fixed assets are recorded at their estimated fair value on the date of donation. Its policy is to capitalize assets with an original cost of $1,000 or more. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows:

Buildings/improvements	10-40 years
Machinery/equipment	5-15 years
Office equipment	5-10 years

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences – Employees of the District earn annual and sick leave at varying rates, depending on their years of service. Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon termination, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes. The District computes the liability in accordance with GASB 101 – Compensated Absences, which was effective for fiscal years beginning after December 15, 2023.

Long-Term Obligations – Long-term liabilities consist of compensated absences, post-employment benefits liability, and net pension liability in the government-wide statements. In the fund financial statements, however, long-term liabilities are not reported and payments of long-term liabilities are recognized as expenditures when paid. The District recognizes OPEB liability based on the actuarially determined liability of the State. For the purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Inflows of Resources – The statement of net position reports in a separate section deferred inflows and outflows of resources. Deferred outflow or resources is a consumption of net assets by the government that is applicable to a future reporting period while deferred inflows of resources is an acquisition of net assets by the government that is applicable to the future reporting period. The District reported deferred inflows and outflows of resources related to pension and OPEB.

Property Taxes – Article 6, Section 39 of the Louisiana Constitution of 1974 provides that, for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection and all other purposes incidental thereto, the District may levy annually a tax not to exceed five mills. Ad valorem taxes attach as an enforceable lien on property as of January 1st of each year. They are levied in November, billed in December and become delinquent on January 1 of the following year.

Net Position/Fund Balances

In the statement of net position, the difference between a government's assets and liabilities is recorded as net position. Net position is classified in the following components:

(a) *Investment in capital assets* consists of the District's total investment in capital assets, net of accumulated depreciation. The District does not have any outstanding debt obligations related to capital assets.
(b) *Restricted* consists of net position with constraints placed on its use either by external groups or through enabling legislation and provisions.
(c) *Unrestricted* consists of the net amounts of the assets, deferred outflows, liabilities and deferred inflows of resources that are not included in the determination of investment in capital assets. Unrestricted net position is used to transactions relating to the general operations of the District and may be used at its discretion to meet current year expenses.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the fund financial statements, fund balance for the governmental fund are classified as follows:

(a) *Nonspendable* – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

(b) *Restricted* – amounts for which constraints have been placed on the use of the resource either by (a) externally imposed by creditors, (b) imposed by law through constitutional provisions or enabling legislation.

(c) *Committed* – amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Commissioners. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

(d) *Assigned* – amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This classification also includes the remaining positive fund balance for all governmental funds except for the general fund.

(e) *Unassigned* – residual fund balance for governmental fund.

NOTE 2: CASH AND CASH EQUIVALENTS

Deposits are stated at cost, which approximates market. Custodial credit risk is the risk that in the vent of a bank failure, the District's deposits may not be returned. Under state law, they must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding, or custodial bank that is mutually acceptable to both parties.

As of June 30, 2026, the District's deposits were secured from risk by federal deposit insurance and pledged securities. As of June 30, 2026, the District's bank balance was not exposed to custodial credit risk.

NOTE 3: INVESTMENTS

As of June 30, 2026, the District's investments are maintained in the Louisiana Asset Management Pool, Inc. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA R.S. 33:2955.

NOTE 3: INVESTMENTS (CONTINUED)

GASB Statement No. 40- Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invests in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

Credit risk: LAMP is AAAm by Standard & Poor's.

Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares in the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

Concentration of credit risk: Pooled investments are excluded from the 5% disclosure requirement.

Investment rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days of 762 days for U.S. Government floating/variable rate investments.

Foreign currency risk: Not applicable.

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares. The fair value at June 30, 2026 was $7,073,464.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company. Financial statements can be obtained at www.lamppool.com.

NOTE 4: CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2026 was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance
Capital Assets, not being depreciated				
Land	$ 412,005	$ -	$ -	$ 412,005
Construction in Progress	-		-	-
Capital Assets, being depreciated				
Buildings and improvements	740,847	-	-	740,847
Machinery and equipment	4,339,511	440,778	(179,831)	4,600,458
Office equipment	12,272	-	-	12,272
Total	5,504,635	440,778	(179,831)	5,765,582
Less: accumulated depreciation	(2,904,324)	(288,720)	179,831	(3,013,213)
Capital Assets, net	$ 2,600,311	$ 152,058	$ -	$ 2,752,369

Depreciation expense was $288,720 for the year ended June 30, 2026.

NOTE 5: RETIREMENT SYSTEM

Plan Description

Employees of the District are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R..S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plana and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

NOTE 5: RETIREMENT SYSTEM: (CONTINUED)

Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by stature, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at age 55 upon completing 25 years of creditable service, or at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015 may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the members average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.56% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after fiver years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service retirement for benefits varies depending upon the members employer and service classification.

Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbo Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching the retirement age, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of the final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or the benefit is permanently legally binding, there is no reduction to the benefit if the retiree becomes gainfully employed.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Service Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If a member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation, and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease up remarriage, and children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse of 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and the benefit is paid to children until 18.

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the Payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS by participating employers. The rates in effect during the year ended June 30, 2025 for the various plans follow:

Plan	Plan Status	Employer Rate
Regular Employees hired before 7/1/06	Closed	34.74%
Regular Employees hired on or after 7/1/06	Closed	34.74%
Regular Employees hired on or after 1/1/11	Closed	34.74%
Regular Employees hired on or after 7/1/15	Open	34.74%

The agency's contractually required composite contribution rate for the year ended June 30, 2025, was 34.74% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Liability. Contributions to the pension plan from the District were $307,731 for the year ended June 30, 2026.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2026, the District reported a liability of $1,652,405 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of July 1, 2025 and the total pension liability used to calculate the net Pension liability was determined by an actuarial valuation as of that date. The Agency's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2026, the District's proportion was 0.03665%, which was an increase of 0.00057% from its proportion measured as of June 30, 2025.

For the year ended June 30, 2026, the District recognized pension expense of $42,875 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions.

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

At June 30, 2026, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 22,953	$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	40,300	282,982
Changes in proportion and differences between Employer contributions and proportionate share of contributions	23,400	14,309
Employer contributions subsequent to the measurement date	307,731	-
Total	$ 394,384	$ 297,291

The District reported $307,731 as deferred outflows of resources related to pensions resulting from Agency contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2027	$	(261,271)
2028	$	(139,937)
2029	$	(107,773)
2030	$	(48,339)

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2025 are as follows:

Valuation Date	June 30, 2025
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	2 years
Investment Rate of Return	7.25% per annum, net of investment expenses*
Inflation Rate	2.40% per annum
Mortality	Non-disabled members - The PubG-2010 Healthy Retiree on a fully generational basis by Mortality Improvement Scale MP-2021. Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five year (2019-2023) experience study of the System's members.
Salary Increases	Salary increases were projected based on 2019-2023 experience study of the System's members. The salary increase ranges for specific types of members are:

Member Type	Lower Range	Upper Range
Regular	3.3%	14.0%
Judges	2.4%	4.8%
Corrections	4.4%	15.3%
Hazardous Duty	4.4%	15.3%
Wildlife	4.4%	15.3%

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.40% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term nominal rate of return is 8.30% for 2025. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2025, are summarized in the following table:

Expected Long Term Real Rates of Return

Asset Class	2025
Cash	0.85%
Domestic Equity	4.42%
International Equity	5.22%
Domestic Fixed Income	2.53%
International Fixed Income	5.37%
Alternative Investments	7.43%
Total Fund	**5.75%**

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the pension plan's actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 5: RETIREMENT SYSTEM (CONTINUED)

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the Net Pension Liability using the discount rate of 7.25%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
Employer's proportionate share of the net pension liability	$ 2,515,334	$ 1,652,405	$ 1,077,832

Pension Plan Fiduciary Net Pension

Detailed information about the pension plan's fiduciary net position is available in the separately issued current LASERS Comprehensive Annual Financial Report at www.lasersonline.org.

Payables to the Pension Plan

At June 30, 2026, the District owed $33,060 to LASERS for the June 2026 employer and employee contributions.

NOTE 6: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

The District provides certain continuing health care and life insurance benefits for its retired employees. Substantially, all District employees become eligible for these benefits if the reach normal retirement age while working for the District.

Plan Description – The Office of Group Benefits (OGB) administers the State of Louisiana Post-Retirement Benefits Plan-a defined-benefit, multi-employer other postemployment benefit plan. The plan provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employee's Retirement System, or Louisiana State Police Retirement System) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3:303. Benefit provisions are established under R.S. 42:962 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contribution entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802. The Plan does not issue a stand alone report.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, and OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2026. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

NOTE 6: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB): (CONTINUED)

Employer Contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare part A and Part B coverage also have access to four fully insured Medicare Advantage plans. The employer contribution percentage is based on the date of participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participated or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

Years of Service	Employer %	Employee %
0-10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

As of June 30, 2026, the state does not use an OPEB trust. A trust was established with an effective date of July 1, 2008, but was not funded, has no assets, and hence a funded ratio of zero.

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retiree and spouses of retirees, subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. The total monthly premium for retirees varies according to age group.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability

At June 30, 2026, the District reported a liability of $4,461,730 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2025 and was determined by an actuarial valuation as of that date.

The District's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability. In relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At July 1, 2025, the District's proportion was 0.0590% which was a increase of 0.0003% from the District's proportion at July 1, 2024.

NOTE 6: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB): (CONTINUED)

The total collective OPEB liability in the July 1, 2025 actuarial valuation was determined using the following actuarial methods, assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

- Actuarial Cost Method-Entry Age Normal, level percentage of pay
- Estimated Remaining Service Lives – 4.7
- Inflation Rate – 2.40%
- Salary Increase Rate – consistent with the pension valuation assumptions
- Discount Rate – 5.20% based on the Bond Buyer 20 Index rate.
- Mortality rates – for general active lives: the PubG-2010 Employee Table, adjusted by 1.055 for males and 1.034 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021. For general healthy retiree lives: the the PubG-2010 Retiree Table, adjusted by 1.215 for males and 1.277 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021. For general disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 0.936 for males and 1.065 for females, not projected with mortality improvement.
- Healthcare costs trend rate- 8.25% for pre-Medicare eligible employees grading down by .25% each year to an ultimate rate of 4.5%; 7.5% for post-Medicare eligible employees grading down to an ultimate rate of 4.5%; the initial trend using a building block approach which considers Consumer Price Index, Gross Domestic Product, and technology growth.

Sensitivity of the proportionate share of the total collective OPEB liability to changes in the discount rate

The following presents the District's proportionate share of the total collective OPEB liability using the current discount rate as well as what the District's proportionate share of the total collecting OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease 4.20%	**Current Discount Rate 5.20%**	**1% Increase 6.20%**
Proportionate Share of Total Collective OPEB Liability	$ 5,134,562	$ 4,461,730	$ 3,914,891

Sensitivity of the proportionate share of the total collective OPEB liability to changes in the healthcare cost trend rates

The following presents the District's proportionate share of the total collective OPEB liability using the current healthcare cost trend rates as well as what the District's proportionate share of the total collective OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower of one percentage point higher than the current rates:

	1% Decrease 7.25%	**Current Healthcare Cost Trend Rates 8.25%**	**1% Increase 9.25%**
Proportionate Share of Total Collective OPEB Liability	$ 3,906,012	$ 4,461,730	$ 5,148,706

NOTE 6: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB): (CONTINUED)

OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2026 the District recognized OPEB expense of $6,489. At June 30, 2026, the District reported deferred outflows and deferred inflows related to OPEB from the following sources:

	Deferred Outflows	Deferred Inflows
Differences between expected and actual experience	$ 103,124	$ -
Changes in assumptions or other inputs	204,333	431,660
Changes in employer's proportionate share	159,436	44,120
Difference between proportionate share of employer benefit payments and actual benefit payments	-	23,716
Current year amounts paid by the employer for OPEB subsequent to the measurement date	189,989	-
Total	$ 656,882	$ 499,496

Deferred outflows of resources related to OPEB resulting from the District's benefit payments subsequent to the measurement date will be recognized as a reduction of the total collective OPEB liability in the year ended June 30, 2026.

Amounts reported as deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year Ended	Net Amount Recognized in OPEB Expense
2027	$ (100,093)
2028	90,992
2029	9,620
2030	(33,121)
	$ (32,602)

NOTE 7: RISK MANAGEMENT AND INSURANCE

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 8: LEASES

The District owns vacant land that is leased for campsites, homesites, hunting, grazing, and agriculture. The leases are awarded to the highest bidder for a three-year period with options to extend the original lease by three additional years. These leases are recognized in accordance with GASB Statement No. 87, *Leases*. As of June 30, 2026, the District's lease receivable was $742,230, The District has a deferred inflow of resources associated with these leases that will be recognized as revenue over the lease term. As of June 30, 2026, the balance of the deferred inflow of resources was $725,080. These amounts are based on the present value of future lease payments, discounted using a rate of 5.00%. Future minimum lease payments to be received as of June 30, 2026 are as follows:

Year Ending June 30:	
2027	$ 155,421
2028	163,192
2029	171,351
2030	252,266
	$ 742,230

NOTE 9: LONG-TERM LIABILITIES

The following is a summary of long-term liabilities at June 30, 2026:

	Beginning Balance	Additions	Deletions	Ending Balance
Compensated Absences	$ 522,682	$ 44,217	$ -	$ 566,899
OPEB	4,586,484	-	124,754	4,461,730
Net Pension Liability	1,961,892	-	309,487	1,652,405
	$ 7,071,058	$ 44,217	$ 434,241	$ 6,681,034

NOTE 10: RELATED PARTY TRANSACTIONS

The District had no related party transactions in the year ended June 30, 2026.

NOTE 11: RECENT ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 87, *"Leases"* increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a defined inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB 87 was issued in June 2017 and became effective for fiscal years beginning after June 15, 2021.

GASB Statement No. 101, *"Compensated Absences"* establishes a unified model for recognizing and measuring liabilities for compensated absences, superseding GASB Statement No. 16. Under GASB Statement No. 101, a liability for compensated absences is recognized for leave attributable to services already rendered, that accumulates and is more likely than not (greater than 50% probability) to be used for time off, paid in cash, or settled through noncash means. The liability is measured using the employee's pay rate as of the financial statement date, including salary-related payments such as the employer's share of payroll taxes and contributions to defined contribution pension plans. The standard requires retroactive application, resulting in a restatement of the beginning net position for the earliest period presented. GASB 101 was issued in June 2022 and became effective for fiscal years beginning after December 15, 2023.

In April, 2024, the Governmental Accounting Standards Board issued Statement No. 103, "*Financial Reporting Model Improvements."* GASB Statement No. 103 is intended to improve the effectiveness of the financial reporting model by providing information that is essential for decision-making and assessing accountability. The Statement includes changes to management's discussion and analysis, the presentation of proprietary fund statements, the reporting of unusual or infrequent items, the presentation of major component units, and budgetary comparison information. The requirements of GASB Statement No. 103 are effective for fiscal years beginning after June 15, 2025.

NOTE 12: SUBSEQUENT EVENTS

The District had evaluated all subsequent events through August 19, 2026, the date the financial statements were available to be issued and there were no events between the close of the year through the issuance of this report that would materially impact those financial statements.

Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the year ended June 30, 2026

Net Pension Liability

Changes of Benefit Terms include:

2017 3) A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session, and,
2017 4) Added benefits for members of the Harbor Police Retirement System which was merged with LASERS effective July 1, 2015 by Act 648 of 2014.
2018 No changes in benefit terms in the June 30, 2017 valuation.
2019 No changes in benefit terms in the June 30, 2018 valuation.
2020 No changes in benefit terms in the June 30, 2019 valuation.
2021 No changes in benefit terms in the June 30, 2020 valuation.
2022 No changes in benefit terms in the June 30, 2021 valuation.
2023 No changes in benefit terms in the June 30, 2022 valuation.
2024 No changes in benefit terms in the June 30, 2023 valuation.
2025 No changes in benefit terms in the June 30, 2024 valuation.
2026 No changes in benefit terms in the June 30, 2025 valuation.

Changes of Assumptions include:

2018 There were several changes in assumptions for the June 30, 2017 valuation. The Board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments, beginning July 1, 2017. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017 valuation. A 7.65% discount rate was used to determine the projected contribution requirements for fiscal year 2018/2019. The Board reduced the inflation assumption from 3.0% to 2.75%, effective July 1, 2017. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%. In addition, the projected contribution requirement for fiscal year 2018/2019 includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.

2019 For the valuation year ended June 30, 2018, the investment rate of return was decreased from 7.70% to 7.65%. The inflation rate was also decreased from 2.75% to 2.5%.

2020 For the valuation year ended June 30, 2019, the investment rate of return was decreased from 7.65% to 7.60%.

2021 For the valuation year ended June 30, 2020, the investment rate of return was decreased from 7.60% to 7.55%. The inflation rate was also decreased from 2.5% to 2.3%.

2022 For the valuation year ended June 30, 2021, the investment rate of return was decreased from 7.55% to 7.40%.

2023 For the valuation year ended June 30, 2022, the investment rate of return was decreased from 7.40% to 7.25%.

2024 For the valuation year ended June 30, 2023, the investment rate of return was unchanged at 7.25%.

2025 For the valuation year ended June 30, 2024, the investment rate of return was unchanged at 7.25%. The inflation rate was also increased from 2.3% to 2.4%.

2026 For the valuation year ended June 30, 2025, the investment rate of return was unchanged at 7.25%. The inflation rate was also unchanged at 2.4%.

OPEB Liability

There are no assets accumulated in a trust that meet the requirements in paragraph 4 of GASB Statement 75 to pay related benefits.

Changes in assumptions -

2018 In the valuation for 2017, the discount rate increased from 2.71% to 3.13%.

2019 In the valuation for 2018, the discount rate decreased from 3.13% to 2.98%. Baseline per capita costs were updated to reflect 2018 claims and enrollment and retiree contributions were updated based on 2019 premiums. The impact of the High Cost Excise Tax was revised for the Louisiana State Police Retirement System, the Louisiana School Employees' Retirement System and the Teachers' Retirement System of Louisiana to reflect experience studies. The mortality assumption for the Louisiana State Employees' Retirement System was updated from the RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections using projection scale MP-2018. The percentage of future retirees assumed to elect medical coverage was modified based on recent plan experience.

2020 For the July 1, 2019 valuation, the discount rate changed from 2.98% to 2.79%. Baseline per capital costs wer updated to reflect 2019 claims and enrollment and retiree contributions were updated based on 2020 premiums. Life insurance contributions wre updated to reflect 2020 premium schedules. The impact of the High Cost Excise Tax was removed. The High Cost Excise Tax was repealed in December 2019. Demographic assumptions were revised for the Louisiana State Employees' Retirement System to reflect the recent experience study.

2021 For the July 1, 2020 valuation, the discount rate changed from 2.79% to 2.66%. Baseline per capita costs were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed by not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, the actuary does not believe this experience is reflective of what can be expected in future years. The salary scale assumptions were revised for the Louisiana State Employees' Retirement System and the Teachers' Retirement System of Louisiana.

2022 For the July 1, 2021 valuation, the discount rate changed from 2.66% to 2.18%. Baseline per capita costs were updated to reflect 2021 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2022 premiums. 2021 medical claims and enrollment experience were reviewed by not included in the projection of expected 2022 plan costs.

2023 For the July 1, 2022 valuation, the discount rate changed from 2.18% to 4.09%. Baseline per capita costs were updated to reflect 2022 claims and enrollment. Plan claims and premiums increased less than had expected, which decreased the Plan's liability.

2024 For the July 1, 2023 valuation, the discount rate changed from 4.09% to 4.13%. Baseline per capita costs were updated to reflect 2023 claims and enrollment. Plan claims and premiums increased less than had expected, which decreased the Plan's liability.

2025 For the July 1, 2024 valuation, the discount rate changed from 4.13% to 3.93%. Baseline per capita costs were updated to reflect 2024 claims and enrollment. Plan claims and premiums increased more than had been expected, which increased the Plan's liability.

2026 For the July 1, 2025 valuation, the discount rate changed from 3.93% to 5.20%. Baseline per capita costs were updated to reflect 2025 claims and enrollment. Plan claims and premiums increased more than had been expected, which increased the Plan's liability.

INDEPENDENT AUDTIORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNEMENT AUDITING STANDARDS*

Board of Commissioners of the
Red River, Atchafalaya and Bayou Boeuf Levee District
Alexandria, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Red River, Atchafalaya and Bayou Boeuf Levee District (the District), as of and for the year ended June 30. 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon date August 19, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our test disclosed no instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

One Lakeside Plaza, 127 West Broad Street, Suite 800, Lake Charles, LA 70601

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing on internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2025 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the **OGB** Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported.	189,989.00
Covered Employee Payroll for the **PRIOR** fiscal year (not including related benefits)	863,301.00
For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2025 - 6/30/2026). This information will be provided to the actuary for the valuation report early next year.	0.00

For agencies that have employees that participate in the **LSU Health Plan**, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2026 for their OPEB valuation report.)

Covered Employee Payroll for the **CURRENT** fiscal year (not including related benefits)	0.00

CERTAIN RISK DISCLOSURES (GASB 102)

A concentration or constraint must meet the following criteria before disclosure is required:

a. The concentration or constraint is known prior to the issuance of the financial statements.
b. The concentration or constraint makes the reporting unit vulnerable to the risk of a substantial impact.
c. An event associated with the concentration or constraint that could cause a substantial impact has occurred, has begun to occur, or is more likely than not to begin to occur within 12 months of the date the financial statements are issued. Note: The State's financial statements are issued December 31 for the fiscal year ended June 30.

If the concentration or constraint meets all the criteria above, disclose the following for each concentration or constraint. Note: If the agency has taken mitigation action that causes any of the disclosure criteria not to be met, no disclosure is required.

Do you have any concentrations or constraints to disclose that meet the criteria described above? No

List the concentration or constraint:	List each event associated with the concentration or constraint that could cause a substantial impact if the event has occurred, has begun to occur, or is more likely than not to begin to occur prior to December 31, 2027.	Disclose the actions taken by the entity to mitigate the risk.

UNUSUAL OR INFREQUENT ITEMS

This disclosure is for any inflows or outflows occurring during the fiscal year that are either unusual in nature or infrequent in occurrence. Unusual in nature means the underlying event or transaction possesses a high degree of abnormality and is clearly unrelated to, or only incidentally related to, the ordinary and typical activities of the agency, taking into account the environment in which the agency operates. Infrequent in occurrence means the underlying event or transaction that occurred is not reasonably expected to recur in the foreseeable future, taking into account the environment in which the agency operates.

Does your agency have any material unusual or infrequent items? No

Describe each unusual or infrequent item separately and indicate whether the item was within the control of management. Also, describe inflows and outflows separately.

Example: The agency experienced a flood during March of 20X5 that was a catastrophic event outside the control of management. The agency incurred expenses to clean up flood damage in the amount of $10 million. The agency also received $2.5 million in grants from the federal government to assist with the cleanup effort.

FUND BALANCE/NET POSITION RESTATEMENT

ERROR CORRECTIONS

For each beginning net position restatement resulting from a correction of an error, select the SNP account and the SOA account affected by the error. Only material errors should be restated. Immaterial errors should be corrected through current period revenue or expenses, as applicable. In the description field, explain the nature of the error, and its correction, including periods affected by the error.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Error Corrections	**$0.00**

CHANGES IN ACCOUNTING PRINCIPLE

For each beginning net position restatement resulting from the application of a new accounting principle, select the SNP account and the SOA account that are affected by the change in accounting principle. In the description field explain the nature of the change in accounting principle and the reason for the change. If the change is due to the implementation of a new GASB pronouncement, identify the pronouncement that was implemented.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Changes in Accounting Principle	**$0.00**

CHANGES IN REPORTING ENTITY

Describe the nature and reason for the change to or within the finamical reporting entity and list the effect (amount) on beginning net position.

Description	Effect on Beginning Net Position
	0.00
Total Restatement - Changes in Reporting Entity	**$0.00**
