Independent Accountant's Review Report

To the Board of Commissioners

District #6 Claiborne Parish Fire Department, Inc.

Lisbon, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and the General Fund of the District #6 Claiborne Parish Fire Department, Inc, a component unit of Claiborne Parish Police Jury, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA, and the standards applicable to review engagements contained in Government Auditing Standards, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the District #6 Claiborne Parish Fire Department, Inc, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Budgetary Comparison Schedule on page 28 be presented to supplement the basic financial statements. Such information is presented for purposes of additional analysis and, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. The required supplementary information has not been audited, reviewed, or compiled and we do not express an opinion, a conclusion, nor provide any assurance on it.

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The results of our review of the basic financial statements are not affected by this missing information.

Supplementary Information

The accompanying schedule of compensation, benefits, and other payments to or on behalf of the agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in our review of the basic financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report dated June 27, 2026, on the results of our agreed-upon procedures.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

District #6 Claiborne Parish Fire Department, Inc. was originally created as the Lisbon Fire Protection District by resolution of the Claiborne Parish Police Jury on May 7, 1987. The District was incorporated on August 6, 1987. The name of the District was changed to District #6 Claiborne Parish Fire Department, Inc., by resolution of the Police Jury on February 11, 1988. The District was created to purchase and maintain fire equipment and provide fire protection for people within the District as provided by Louisiana Revised Statutes 40:1491-1501. Fire protection for the District is provided totally by volunteers. The District has fire stations located in Lisbon, Sharon, Arizona, and Antioch. A resolution by the Claiborne Parish Police Jury on August 5, 1993, allowed District #6 Claiborne Parish Fire Department, Inc., to annex the station at Summerfield and to add stations at Hebron, Bailey Town, and Gorden. The District is governed by a five-member board of commissioners: two members appointed by the Claiborne Parish Police Jury, two members appointed by the Mayor and Board of Aldermen of the Village of Lisbon, and one member by the other four members. Members serve two-year terms.

The accompanying financial statements of the District #6 Claiborne Parish Fire Department, Inc. have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis for State and Local Governments*, issued in June 1999, as amended.

Reporting Entity

As the governing authority of the parish, for reporting purposes, the Claiborne Parish Police Jury is the financial reporting entity for Claiborne Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Claiborne Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the Police Jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Police Jury,
2. Organizations for which the Police Jury does not appoint a voting majority but are fiscally dependent on the Police Jury.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

**DISTRICT #6 CLAIBORNE PARISH FIRE DEPARTMENT, INC.
LISBON, LOUISIANA**

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Because the Police Jury created the District, appoints certain commissioners of the District, and has the ability to impose its will on the District, the District was determined to be a component unit of the Claiborne Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the Claiborne Parish financial reporting entity.

Basic Financial Statements - Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major fund). Both government-wide and fund financial statements categorize primary activities as either governmental or business type. All activities of the District are classified as governmental. The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the District. In the Statement of Net Position, governmental activities are presented on a consolidated basis and are presented on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term obligations. Net position is reported in three parts; invested in capital assets, net of any related debt; restricted net position; and unrestricted net position. The District first uses restricted resources to finance qualifying activities. The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions, Program Revenues*. Program revenues included in the Statement of Activities are derived directly from parties outside the District's taxpayers or citizenry. Program revenues reduce the cost of the function to be financed from the District's general revenues. The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense, which can be specifically identified by function, is included in the direct expenses of each function.

Basic Financial Statements - Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. A fund is a separate accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public as opposed to proprietary funds where the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. The District's current operations require the use of only a General Fund, a governmental fund. The General Fund is used to account for the operations of the District's office.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The various fees and charges due to the District's office are accounted for in this fund. General operating expenditures are paid from this fund.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

Accrual

The governmental type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures.

Revenues

Ad valorem taxes are budgeted in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December of the current year and January and February of the ensuing year. The taxes are normally collected in December of the current year and January and February of the ensuing year. Other intergovernmental revenues are recorded when the District is entitled to the funds. Interest income on demand deposits is recorded when the interest has been earned and the amount is determinable.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Based on the above criteria, ad valorem taxes and other intergovernmental revenues have been treated as susceptible to accrual.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied by the District in September or October, are actually billed to the taxpayers in November and are due and payable on or before December 31 of the same year. Billed taxes become delinquent on January 1 of the following year. Revenues from ad valorem taxes are budgeted in the year they are billed. The Claiborne Parish Sheriff bills and collects the District's property taxes using the assessed value determined by the assessor of Claiborne Parish and approved by the State of Louisiana Tax Commission. The District renewed an authorized millage of 11.15 mills in 2018 to continue until 2027. For the year ended December 31, 2025, taxes of 11.33 mills were levied on property with assessed valuations totaling \$35,219,236.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Equity Classifications (Continued)

- c. Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

In the fund financial statements, governmental fund equity is classified as fund balance. The District adopted GASB Statement 54 for the year ended December 31, 2018. As such, fund balances of the governmental funds are classified as follows:

- a. Nonspendable - represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.
- b. Restricted - represents balances where constraints have been established by parties outside the Fire District or imposed by law through constitutional provisions or enabling legislation.
- c. Committed - represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the Fire District's highest level of decision-making authority.
- d. Assigned - represents balances that are constrained by the government's intent to be used for specific purposes but are not restricted nor committed.
- e. Unassigned - represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the general fund.

If applicable, the District would typically use restricted fund balances first, followed by committed resources and assigned resources as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Budgets

The District (Board of Commissioners) adopts an annual budget for the General Fund prior to December 31. The annual budget is prepared in accordance with the basis of accounting utilized by the fund. The budgetary comparison schedule, included as supplementary information in the accompanying financial statements, includes the original and amended budgeted amounts. All annual appropriations lapse at fiscal year-end.

Capital assets

Capital assets are recorded at either historical cost or estimated historical cost and depreciated over their estimated useful lives (excluding salvage value). Donated capital assets are recorded at their estimated fair value at the date of donation. The capitalization threshold for equipment is \$1,000. Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives:

Buildings and building improvements	40 years
Machinery and equipment	3-20 years
Vehicles	5-20 years

NOTE 2 – CASH AND CASH EQUIVALENTS

NOTE 2 – CASH AND CASH EQUIVALENTS (CONTINUED)

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, the deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must always equal or exceed the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent bank has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the District's name. As of December 31, 2025, the District's bank balances were exposed to custodial credit risk as follows.

Insured by FDIC	<u>\$ 415,923</u>
Uninsured and uncollateralized	-
Collateralized by pledged securities	<u>400,000</u>
Total balances exposed to custodial credit risk	<u>400,000</u>
Total bank balances	<u><u>\$ 815,923</u></u>

NOTE 3 - INVESTMENTS

The District has not formally adopted an investment policy but considers state law to be its policy.

Investments held at December 31, 2025, consist of \$29,047 in the Louisiana Asset Management Pool (LAMP), a local government investment pool. In accordance with GASB Codification Section 150.126, the investment in LAMP at December 31, 2025 is not categorized in the three risk categories provided by GASB Codification Section 150.125 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form.

NOTE 3 – INVESTMENTS (CONTINUED)

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. Effective August 1, 2001, LAMP's investment guidelines were amended to permit the investment in government-only money market funds. In its 2001 Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955(A)(1)(h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "investment grade (A-I/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMP's Investment Guidelines were amended to allow the limited investment in A-L or A-1+ commercial paper. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares, LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.
