#### **Independent Accountant's Review Report**

To the Board of Commissioners St. Tammany Parish Sewerage District No. 1 Covington, Louisiana

We have reviewed the accompanying statement of net position of St. Tammany Parish Sewerage District No. 1 (the District), a component unit of St. Tammany Parish, Louisiana, as of December 31, 2019, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management of the District. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to preparation and fair presentation of the financial statements that are free from material misstatements whether due to fraud or error.

#### Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

#### Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

In accordance with standards established by the American Institute of Certified Public Accountants, the *Louisiana Governmental Audit Guide*, and the provisions of state law, we have issued a report dated July 20, 2020, on the results of our agreed-upon procedures.

#### Notes to Financial Statements

#### Introduction

St. Tammany Parish Sewerage District No. 1 (the District) was created by the St. Tammany Parish Police Jury on October 27, 1960, as provided by Louisiana Revised Statute (LRS) 33:3885. The District has the authority to manage and operate a sewerage system within the boundaries of the District not served by municipal systems. The governing board is made up of five commissioners who serve four-year terms, and are residents of and own real estate in the District. Four commissioners are appointed by the St. Tammany Parish Council and one is appointed by the Parish President. At December 31, 2019, the District had approximately 436 customers.

#### Note 1. Summary of Significant Accounting Policies

#### **Reporting Entity**

In accordance with Governmental Accounting Standards Board (GASB) Codification Section 2100, the District is considered a component unit of the St. Tammany Parish (the Parish) reporting entity because (1) commissioners of the District are appointed by the Parish and (2) the District provides sewerage services to residents within the Parish. While the District is an integral part of the Parish reporting entity, and should be included within the financial statements of that reporting entity, GASB Codification Section 2600 provides that a component unit may also issue financial statements separate from those of the reporting entity. Accordingly, the accompanying financial statements present information only on the financial operations of the District and do not present information on the Parish, the general government services provided by the Parish, or on other component units that comprise the St. Tammany Parish reporting entity.

#### Fund Accounting

The accounts of the District are organized on the basis of proprietary fund accounting used by governmental entities. The proprietary fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

#### **Basis of Accounting**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The proprietary fund is accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the statements of net position.

#### Notes to Financial Statements

#### Note 1. Summary of Significant Accounting Policies (Continued)

#### Basis of Accounting (Continued)

The District's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

In accordance with GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB No. 63, net position is classified into three components: net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

- a. Net Investment in Capital Assets This component of net position consists of the historical cost of capital assets, including any restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets, plus deferred outflows of resources, less deferred inflows of resources, related to those assets.
- b. *Restricted* This component of net position consists of assets that have constraints that are externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.
- c. Unrestricted All other net position is reported in this category.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary fund are charges to customers for sales and services. Operating expenses for the proprietary fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### Notes to Financial Statements

#### Note 1. Summary of Significant Accounting Policies (Continued)

#### **Financial Statements**

GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, provides that special-purpose governments engaged only in business-type activities should present only the financial statements required for proprietary funds. For these governments, basic financial statements and required supplementary information (RSI) consist of:

- 1. Management's discussion and analysis (MD&A). (The District's management has not presented MD&A that the GASB has determined to be required to supplement, although not required to be part of, the basic financial statements.)
- 2. Statement of net position.
- 3. Statement of revenues, expenses, and changes in net position.
- 4. Statement of cash flows.
- 5. Notes to financial statements.
- 6. RSI, if applicable.

The District is a special-purpose government engaged only in business-type activities.

#### Cash and Cash Equivalents and Investments

Cash and cash equivalents include amounts in interest-bearing and non-interest-bearing demand deposits. The District may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state of the union, or the laws of the United States. Under state laws, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. LRS 39:1225 provides that the amount of security shall at all times be equal to 100% of the amount on deposit to the credit of each depository authority, except that portion of the deposit insured by the United States of America. State law also allows the District to invest in collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government-backed securities. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. At December 31, 2019, the District had \$100,000 in certificates of deposit with original maturities that exceed 90 days.

#### **Revenues Receivable**

The District bills customers in the month following the month in which services were provided. Unbilled service charges are accrued for the month of December at year-end. Revenues receivable on the accompanying statement of net position are considered to be fully collectible at December 31, 2019. Uncollectible amounts are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of an account.

#### Notes to Financial Statements

#### Note 1. Summary of Significant Accounting Policies (Continued)

#### **Capital Assets**

All capital assets of the proprietary fund are recorded at historical cost. Depreciation of all exhaustible capital assets is charged as an expense against operations. Preconstruction costs associated with the development of the sewer system, which include engineering, legal, and interest costs, are capitalized and will be depreciated over their useful lives using the straight-line method.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. The following estimated useful lives are used to compute depreciation:

	Estimated Useful Lives
Sewer System	35 Years
Equipment	10 - 15 Years

#### Federal Income Taxes

The District is not subject to federal income taxes in accordance with Internal Revenue Code (IRC) Section 115 regarding income of states, municipalities, political subdivisions, etc.

#### Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

#### **New Accounting Pronouncements**

GASB 89, Accounting for Interest Cost Incurred before the End of a Construction Period, is to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. This GASB was early-adopted by the District.

The GASB issued Statement No. 87, *Leases*, in June 2017. The objective of GASB 87 is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. Under this Statement, a lessee is required to recognize a lease liability and a tangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. This Statement will be effective for the District for the fiscal year ending December 31, 2022.

#### Notes to Financial Statements

#### Note 11. Subsequent Events

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern", and on March 10, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had, and are expected to continue to have, an adverse impact on the economies and financial markets of many countries, including the geographical area in which the District operates. It is unknown how long these conditions will last and what the complete financial effect will be to the District.

Independently elected government officials should sign the document, in lieu of such a resolution.

The completed and signed attestation questionnaire and a copy of the adoption instrument, if appropriate, **must be given to the independent certified public accountant at the beginning of the engagement**. The CPA will, during the course of his/her engagement, perform certain agreed-upon procedures to the responses in the questionnaire. It is not necessary to return the questionnaire to the Legislative Auditor's office.

Certain portions of the questionnaire may not be applicable to your organization. In such cases, it is appropriate to mark the representation "not applicable." However, you must respond to each applicable representation. A 'yes' answer indicates that you have complied with the applicable law or regulation. A 'no' answer to any representation indicates a possible violation of law or regulation and, as such, should be fully explained. These matters will be reviewed by the CPA during the course of his/her engagement. Please feel free to attach a further explanation of any representation.

Your cooperation in this matter will be greatly appreciated.

Sincerely,

Daryl G. Purpera, CPA, CFE Louisiana Legislative Auditor
