Independent Auditor's Report

**To the Board of Commissioners
Sabine River Authority
State of Louisiana
Many, Louisiana**

Qualified Opinion

We have audited the accompanying financial statements of the business-type activities of the Sabine River Authority, as of and for the years ended June 30, 2026 and 2025, and the related notes to the financial statements, which collectively comprise the Sabine River Authority's basic financial statements as listed in the table of contents.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Sabine River Authority, as of June 30, 2026 and 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Sabine River Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Matter Giving Rise to the Qualified Opinion

In a preceding year, certain opening balances relating to capital assets could not be audited. See Note 6 for additional information.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sabine River Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sabine River Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sabine River Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. This report is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 12, 2026, on our consideration of the Sabine River Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sabine River Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sabine River Authority's internal control over financial reporting and compliance.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(1) Introduction

The mission of the Sabine River Authority of Louisiana, consistent with Louisiana Revised Statutes 38:2321 - 2337, and with Article 48 of the Federal Power Commission License, Project 2305, is to provide for economic utilization and preservation of the waters of the Sabine River and its tributaries by promoting economic development, irrigation, navigation, improved water supply, drainage, public recreation, and hydroelectric power for the citizens of Louisiana.

(2) Summary of Significant Accounting Policies

(a) Reporting Entity

The Sabine River Authority, State of Louisiana (the Authority), was created by the Louisiana Legislature under the provisions of Louisiana Revised Statute 38:2321. The Authority is an autonomous, self-supporting governmental unit with no taxing authority.

The Authority is a component unit of the State of Louisiana and is included in the State of Louisiana's Annual Comprehensive Financial Report as a discretely presented component unit. A voting majority of the Authority's governing board is appointed by the State, and the State is able to impose its will on the Authority through its ability to remove board members at will.

The Authority's financial statements include all funds, departments, and activities over which the Authority exercises financial accountability. The Authority has no component units.

(b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Authority is a special-purpose government engaged only in business-type activities. The Authority's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of related cash flows.

The Authority distinguishes operating revenues and expenses from nonoperating revenues and expenses. In accordance with GASB Statement No. 103, *Financial Reporting Model Improvements*, operating revenues and expenses are those revenues and expenses that are not classified as nonoperating. Nonoperating revenues and expenses include revenues and expenses related to financing, investment income and expenses, resources from the disposal of capital assets and inventory, and contributions to permanent and term endowments. Revenues and expenses that otherwise meet the definition of nonoperating revenues and expenses are classified as operating revenues and expenses when the related transactions constitute the Authority's principal ongoing operations.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(c) Financial Statements

The Authority is a special-purpose government engaged only in business-type activities and presents its financial statements in accordance with accounting principles generally accepted in the United States of America applicable to proprietary funds. The financial statements include a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows.

(d) Cash and Cash Equivalents / Investments

Cash and cash equivalents include demand deposits in various financial institutions. The caption “cash and cash equivalents” on the statement of net position includes all cash on deposit at banks, including certificates of deposit with an original maturity of less than 90 days. If the original maturity exceeds 90 days, they are classified as investments.

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana or any other federally insured investments, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Louisiana state law requires deposits (cash and certificates of deposit) of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision. The market value of the demand deposits and certificates of deposit is equal to their cost.

(e) Receivables, net

The Authority considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operating expenses when that determination is made.

At June 30, 2026, accounts receivable included approximately \$517,716 due from one customer under a water-capacity reservation agreement. Payment is expected upon the customer obtaining financing and proceeding with construction of its proposed facility. The project remains active, and the customer has obtained land, permits, and an approved tax credit; however, financing had not been finalized as of the financial statement issuance date. The Authority considers the receivable valid and collectible and has not recorded an allowance for doubtful accounts. Collection of the balance is not expected within one year.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(f) Capital Assets

Property, plant, and equipment are stated at historical cost. Capital assets in excess of \$1,000 are capitalized. Depreciation is computed using the straight-line method over the following estimated useful lives:

Dams and electric plant	67 years
Water and pumping plant	20 - 67 years
Recreation and conference center	5 - 40 years
Recreation site improvements	5 - 25 years
Buildings	20 - 50 years
Equipment	5 - 25 years
Roads and parking lots	20 - 30 years
Fish pavilions	30 years
Golf course	50 years
FERC license	50 years

(g) Compensated Absences

Employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The Authority recognizes a liability for accumulated annual and sick leave attributable to services already rendered when it is more likely than not that the leave will be used for time off or otherwise paid or settled. In estimating the amount of accumulated leave that is more likely than not to be used or otherwise paid or settled, the Authority applies an estimated usage rate of 65% based on a study of historical leave usage by State employees. The liability is measured using employees' applicable rates of pay at the financial statement date.

(h) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(i) Long-Term Obligations

In the financial statements, long-term debt and other long-term debt obligations are recognized as liabilities in the applicable statement of net position. Long-term obligations are reported at face value.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(j) Net Position

In accordance with GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB No. 63, net position is classified into three components; net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

1. **Net Investment in Capital Assets** - This component of net position consists of capital assets, net of accumulated depreciation and amortization, reduced by the outstanding principal of debt attributable to the acquisition, construction, or improvement of those assets and adjusted for related deferred outflows and deferred inflows of resources.
2. **Restricted** - This component of net position consists of assets that have constraints that are externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.
3. **Unrestricted** - All other net position is reported in this category.

Restricted net position consists of amounts restricted for debt service and the power agreement and amounts restricted for capital projects. Net position restricted for debt service and the power agreement totaled \$664,763 and \$637,620 as of June 30, 2026 and 2025, respectively. Net position restricted for capital projects was \$2,061,720 and \$2,689,888 as of June 30, 2026 and 2025, respectively.

(k) Operating and Nonoperating Revenues and Expenses

Operating revenues of the Authority primarily consist of power sales, water sales, park and recreational revenues, permit fees, lease revenues, and other charges for services. Operating expenses primarily consist of the costs of providing these services, administrative expenses, and depreciation and amortization.

Nonoperating revenues and expenses consist of items classified as nonoperating in accordance with GASB Statement No. 103. For the years ended June 30, 2026 and 2025, the Authority's nonoperating revenues and expenses consisted principally of investment income and interest expense.

When both restricted and unrestricted resources are available for the same purpose, it is the Authority's policy to use restricted resources first, followed by unrestricted resources as needed.

(l) Rates and Regulations

Electric rates are established by a contract between Nextera Energy Marketing, LLC and the Authority. Water rates are established by the Authority's Board of Commissioners.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(m) Budget Policies

The Authority prepares a budget for use in planning and controlling costs. The budget and any changes are approved by the Board of Commissioners.

(n) Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(o) New Accounting Pronouncements Adopted

During the fiscal year ended June 30, 2025, the Authority adopted GASB Statement No. 102, *Certain Risk Disclosures*. The Statement establishes disclosure requirements related to certain concentrations or constraints that may make a government vulnerable to a substantial impact. The adoption of GASB Statement No. 102 did not have a material effect on the Authority's financial statements.

During the year ended June 30, 2026, the Authority implemented GASB Statement No. 103, *Financial Reporting Model Improvements*. The Statement establishes revised requirements for the classification of operating and nonoperating revenues and expenses and other financial reporting requirements. Implementation of the Statement did not have a material effect on the Authority's beginning net position or the recognition or measurement of assets, liabilities, deferred outflows of resources, deferred inflows of resources, revenues, or expenses.

(3) Cash and Cash Equivalents

At June 30, 2026, the Authority had cash and cash equivalents (book balances) totaling \$28,925,897 which were demand deposits at local financial institutions. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must always equal the amount on deposit with the fiscal agent. These securities are held by a custodial bank in the name of the Authority. Of these amounts, \$2,412,803 was restricted for debt service, power agreement, and capital projects and \$26,513,094 was unrestricted.

At June 30, 2026, the Authority had \$29,053,906 in deposits (collected bank balances). These deposits were secured from risk by \$1,250,000 of federal deposit insurance and \$27,803,906 of pledged securities held by a custodial bank in the name of the Authority.

Notes to the Financial Statements

June 30, 2026

At June 30, 2025, the Authority had cash and cash equivalents (book balances) totaling \$25,417,167 which were demand deposits at local financial institutions. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must always equal the amount on deposit with the fiscal agent. These securities are held by a custodial bank in the name of the Authority. Of these amounts, \$2,716,189 was restricted for debt service, power agreement, and capital projects and \$22,700,978 was unrestricted.

At June 30, 2025, the Authority had \$25,417,167 in deposits (collected bank balances). These deposits were secured from risk by \$1,250,000 of federal deposit insurance and \$24,167,167 of pledged securities held by a custodial bank in the name of the Authority.

(4) Investments

Investments at June 30, 2026 are comprised of:

<u>Investment</u>	<u>Percentage</u>	<u>Fair Value</u>
Corporate bonds	3.3%	\$ 890,602
Municipal bonds	16.2%	4,300,124
Federal agency bonds	6.1%	1,612,726
U.S. Treasuries	<u>74.4%</u>	<u>19,787,882</u>
Total	<u>100.0%</u>	<u>\$ 26,591,334</u>

Of these amounts, \$313,680 was restricted for debt service, power agreement, and capital projects and \$26,277,654 was unrestricted.

Investments at June 30, 2025 are comprised of:

<u>Investment</u>	<u>Percentage</u>	<u>Fair Value</u>
Corporate bonds	2.0%	\$ 527,106
Municipal bonds	13.1%	3,495,847
Federal agency bonds	6.6%	1,770,304
U.S. Treasuries	<u>78.3%</u>	<u>20,848,374</u>
Total	<u>100.0%</u>	<u>\$ 26,641,631</u>

Of these amounts, \$611,319 was restricted for debt service, power agreement, and capital projects and \$26,030,312 was unrestricted.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits the Authority's investments pursuant to Louisiana Revised Statute 33:2955. The Authority does not have policies to further limit credit risk. Obligations of the U.S. government and obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and, therefore, are not included in the credit quality ratings presented below. The credit quality ratings of the Authority's investments subject to credit risk are as follows:

At June 30, 2026:

	<u>AAA</u>	<u>AA+</u>	<u>AA</u>	<u>AA-</u>	<u>A+</u>	<u>Not rated</u>	<u>Total</u>
Corporate bonds	\$ -	890,602	-	-	-	-	890,602

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Custodial risk for investments is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy states that the assets of the Authority shall be held in trust by the fiduciary designated by the Authority. For U.S. Treasury Obligations and U.S. Government Obligations state law provides these are backed by the full faith and credit of the United States of America.

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Authority's investment policy states that the bond portfolio may not hold more than 30% at cost of any single bond issue. The Authority had no investments in any one issuer, excluding investments exempt from the concentration disclosure, that represented 5 percent or more of total investments.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State law as applicable to political subdivisions does not address interest rate risk. In addition, the Authority manages its exposure to declines in fair values by permitting shifts along the yield curve and between sectors of the fixed income market.

(5) Fair Value Measurements

GASB Statement No. 72, Fair Value Measurement and Application, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels.

- (a) Level 1 inputs - the valuation is based on quoted market prices for identical assets or liabilities traded in active markets.
- (b) Level 2 inputs - the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.
- (c) Level 3 inputs - the valuation is determined by using the best information available under the circumstances, might include the government's own data, but it should adjust the data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

The Authority's investments classified within Level 2 of the fair value hierarchy are valued using observable inputs, including quoted prices for similar securities and other market-corroborated inputs.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Fair values of assets measured on a recurring basis at June 30, 2026 are as follows:

	<u>Fair Value</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
Corporate bonds	\$ 890,602	-	890,602	-

STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

(6) Capital Assets

Prior to July 1, 1994, the capital assets of the Authority were not reported in a proprietary fund. During the fiscal year ended June 30, 1995, it was determined that the Authority should report as a proprietary fund. At that time, supporting documents and records could not be located for certain water and pumping plant assets constructed by the State of Louisiana in the mid to late 1970s and early 1980s and subsequently transferred to the Authority. As of June 30, 2026, these unsupported capital asset balances are estimated to include approximately \$21,500,000 of cost and \$15,400,000 of accumulated depreciation. Management has attempted to locate or reconstruct the historical documentation supporting these assets; however, sufficient records are no longer available to substantiate the historical cost and accumulated depreciation balances. Accordingly, sufficient supporting documentation remains unavailable, and the limitation that resulted in the qualified audit opinion continues to exist.

Capital assets and depreciation activity as of and for the year ended June 30, 2026 for the Authority is as follows:

	Balance June 30, <u>2025</u>	<u>Increases</u>	<u>Decreases</u>	Balance June 30, <u>2026</u>

Total capital assets, net	\$ <u>75,587,161</u>	<u>604,955</u>	<u>(699,149)</u>	<u>75,492,967</u>

The Authority recorded \$3,687,065 and \$3,842,622 of depreciation and amortization expense on its capital assets for the years ending June 30, 2026 and 2025, respectively.

Public law 98-571 directed the Federal Energy Regulatory Commission (FERC) to waive annual administration charges for the use of United States lands during the remaining term of the license to operate the Toledo Bend Joint Project (Project). The license expires fifty years from August 29, 2014. The waiver is contingent upon FERC determining that the power from the Project is sold to the public without profit. All exemptions applied for through June 30, 2026 have been approved.

(7) Long-Term Obligations

Bonds Payable

On September 6, 2018, the Authority issued \$12,000,000 of Limited Tax Certificates, Series 2018 (bonds). The proceeds of the bonds were used to fund construction costs and pay costs of issuance of the Series 2018 bonds. The bonds are secured by an irrevocable pledge and dedication of net revenue. These bonds require future annual debt service installments of \$1,301,000 to \$1,394,000 through September 1, 2028. The bonds carry interest rates at 3.10% and interest to maturity at June 30, 2026 and 2025 totals \$190,837 and \$335,623 through September 1, 2028, respectively. Interest expense for the years ended June 30, 2026 and 2025 was \$131,105 and \$169,663, respectively.

(8) Post-Retirement Health Care and Life Insurance Benefits

Plan Description: The Authority's employees may participate in the State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan) which is administered by the Office of Group Benefits (OGB). The State OGB Plan provides medical and life insurance benefits to eligible active employees, retirees, and their beneficiaries. The postemployment benefits plan is a multiple-employer plan for financial reporting purposes since the plan is not administered as a formal trust. R.S. 42:801-883 provides the authority to establish and amend benefit provisions of the plan. OGB does not issue a publicly available financial report of the State OPEB Plan; however, it is included in the State of Louisiana's Annual Comprehensive Financial Report. You may obtain a copy of the ACFR on the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2025. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

Medical Benefits: Retirees under the age of 65 can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Retirees age 65 and over can elect coverage under the following plans:

- BCBS Pelican HRA
- BCBS Magnolia Local/Local Plus
- BCBS Magnolia Open Access
- People's Medicare Advantage HMO
- BCBS Medicare Advantage HMO (varies by region)
- Humana Medicare Advantage HMO (varies by region)
- Via Benefits HRA

Monthly Contributions: Retirees with continuous OGB medical coverage starting before January 1, 2002 pay approximately 25% of the cost of coverage in retirement. Employees with an OGB medical participation start (or re-start) date after December 31, 2001 pay a percentage of the total retiree contribution rate based on the following schedule:

<u>OGB Participation</u>	<u>Employer Contribution Percentage</u>	<u>Employee Contribution Percentage</u>
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

Monthly rates effective January 1, 2025 are as follows:

<u>Medical Plan</u>	<u>Pre-Medicare Member</u>				<u>Medicare Member</u>

STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

For purposes of the OPEB valuation, the above amounts were trended back six months to the valuation date.

Life Insurance Benefits: OGB provides eligible retirees the following life insurance plans:

	<u>Basic</u>	<u>Supplemental Maximum</u>
Under age 65	\$ 5,000	50,000
Ages 65 to 70	4,000	38,000
After age 70	3,000	25,000

In force life insurance amounts are reduced to 75% of the initial value at age 65 and 50% of the original amount at age 70. Spouse life insurance amounts of \$1,000, \$2,000, or \$4,000 are available. Retiree pays 50% of the Prudential Company of America premium. Retiree pays 100% of the Prudential Company of America premium for spousal coverage.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability:

At June 30, 2026, the Authority reported a liability of \$5,150,292 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2025 and was determined by an actuarial valuation as of that date.

At June 30, 2025, the Authority reported a liability of \$5,206,011 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2024 and was determined by an actuarial valuation as of that date.

The Authority's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At July 1, 2025, the Authority's proportion was 0.0682%.

The Authority's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At July 1, 2024, the Authority's proportion was 0.0666%.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Actuarial Assumptions:

Valuation Date: July 1, 2025.

Measurement Date: July 1, 2025.

Actuarial Cost Method: Entry Age Normal, level percent of pay. Service Costs are attributed through all assumed ages of exit from active service. For current DROP participants, assumed exit from active service is the date at which DROP ends.

Discount Rate: The discount rate used as of July 1, 2025 is 5.20% based on the Bond Buyer 20 Index rate as of June 30, 2025.

Inflation Rate: 2.40%

Salary Increases: The rates of salary increases are consistent with the assumption used in the June 30, 2025 Louisiana State Employees' Retirement System Actuarial Valuation.

Healthcare Cost Trend Rates: The combined effect of price inflation and utilization on gross eligible medical and prescription drug charges is according to the table below. The initial trend rate was developed using our National Health Care Trend Survey. The survey gathers information on trend expectations for the coming year from various insurers and PBMs. These trends are broken out by drug and medical, as well as type of coverage (e.g. PPO, HMO, POS). We selected plans that most closely match the State of Louisiana's benefits to set the initial trend. The ultimate trend is developed based on a building block approach which considers CPI, GDP, and Technology growth. The healthcare cost trend rates applicable to medical and prescription drug benefits are as follows:

<u>Year</u>	<u>Medical and Drug Pre-65</u>	<u>Medical and Drug Post-65</u>
2025-2026	8.25%	7.00%
2026-2027	8.00%	6.50%
2027-2028	7.75%	6.30%
2028-2029	7.50%	6.10%
2029-2030	7.00%	6.00%
2030-2031	6.50%	5.75%
2031-2032	6.00%	5.50%
2032-2033	5.50%	5.25%
2033-2034	5.00%	5.00%
Thereafter	4.50%	4.50%

The retiree contribution trend is the same as the medical and drug trend.

Healthcare Claim Cost: Per capita costs for the self-insured plans administered by LA Blue were based on medical and prescription drug claims and enrollment for retired participants for the period January 1, 2024 through December 31, 2025. The claims experience was trended to the valuation date. Prescription drug per capita costs have been reduced for expected rebate payments. Prescription drug

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

per capita costs for Medicare retirees under the self-insured plans have been further reduced for expected EGWP subsidies based on projections provided by CVS.

It is the Actuary's understanding that effective January 1, 2025 Liviniti became the new commercial Pharmacy Benefit Manager (PBM). We considered the impact of this change when developing our per capita cost assumptions based on information regarding the expected impact provided.

Per capita costs for the fully insured HMO and Medicare Advantage plans were based on calendar year 2026 premiums adjusted to the valuation date using the Medicare trend assumption on the prior page.

Per capita costs were adjusted for expected age-related differences in morbidity applicable to retirees, except for costs for the Via Benefits HRA plan, which provides a flat monthly subsidy. Details regarding the Age Morbidity Curve are found under Age Related Morbidity assumptions below.

The table below indicates the assumed 2025 per capita costs normalized to male retiree age 65:

<u>Plan</u>	<u>Without Medicare Retirement Date Before 3/1/15</u>	<u>With Medicare Retirement Date Before 3/1/15</u>	<u>Without Medicare Retirement Date After 3/1/15</u>	<u>With Medicare Retirement Date After 3/1/15</u>
People's MA HMO	N/A	3,646	N/A	3,646
LA Blue MA HMO	N/A	2,681	N/A	2,681
Humana MA HMO	N/A	1,842	N/A	1,842
Via Benefits HRA	N/A	2,400	N/A	2,400
LA Blue Pelican HRA	18,197	4,096	18,197	4,096
LA Blue Magnolia Local/Local Plus	23,633	4,829	23,771	4,743
LA Blue Magnolia Open Access	25,586	4,476	25,296	3,409

Administrative Expenses: Included in medical claim is a 10% load for life insurance. The 10% load is consistent with industry standards and covers insurer administrative costs, premium taxes, as well as insurer margin and profit (where applicable).

Age Related Morbidity: Per capita costs are adjusted to reflect expected cost differences due to age and gender. Age morbidity factors for pre-Medicare morbidity were developed from "Health Care Costs – From Birth to Death" sponsored by the Society of Actuaries and prepared by Dale H. Yamamoto (May 2013)8. Table 4 from Mr. Yamamoto's study formed the basis of Medicare morbidity factors that are gender distinct and assumed a cost allocation of 60% for pharmacy, 20% for inpatient, 10% for outpatient, and 10% for professional services. Adjustments were made to Table 4 factors for inpatient costs at age 70 and below to smooth out what appears to be a spike in utilization for Medicare retirees gaining healthcare for the first time through Medicare. While such retirees were included in the study, their specific experience is not applicable for a valuation of an employer retiree medical plan where participants had group active coverage before retirement.

90	1.3235	1.3303
95	1.3047	1.2765
100	1.2878	1.1701

Basis for Demographic Assumptions: The actuary relied upon the assumptions used in the June 30, 2025 Louisiana State Employees' Retirement System (LASERS) pension valuation for the mortality, retirement, termination, disability, and salary scale assumptions.

Mortality: For General active lives: the PubG-2010 Employee Table, adjusted by 1.055 for males and 1.034 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021.

For General healthy retiree lives: the PubG-2010 Retiree Table, adjusted by 1.215 for males and 1.277 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021.

For General disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 0.936 for males and 1.065 for females, not projected with mortality improvement.

For Public Safety active lives: the PubS-2010 Below Median Employee Table, adjusted by 1.050 for males and 0.974 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021.

For survivors: the PubG-2010 Contingent Survivor Table, adjusted by 1.264 for males and 1.326 for females, projected from 2020 on a fully generational basis by Mortality Improvement Scale MP-2021.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Participation Rate - Medical: Active employees who do not have current medical coverage are assumed not to participate in the medical plan as retirees. The percentage of employees and their dependents who are currently covered for medical coverage that are assumed to participate in the retiree medical plan is outlined in the table below. This assumption is based on a review of plan experience from July 1, 2021 through June 30, 2024.

<u>Years of Service</u>	<u>Participation %</u>
<10	33%
10 - 14	60%
15 - 19	80%
20+	88%

Participation Rate - Life Insurance: 36% of future retirees are assumed to participate in the life insurance. This assumption is based on a review of plan experience from July 1, 2021 through June 30, 2024. Future retirees are assumed to elect a total of \$45,000 in basic life insurance and supplemental life insurance coverage, before any age reductions. Spouses are assumed to elect \$2,000 of coverage.

Plan Election Percentage: Current retirees are assumed to remain in their current plan. Future retirees are assumed to elect coverage based on the coverage elections of recent retirees, as follows:

<u>Medical Plan</u>	<u>Pre-Medicare %</u>	<u>Medicare %</u>
LA Blue Pelican HRA	13%	8%
LA Blue Magnolia L/LP	80%	71%
LA Blue Magnolia OA	7%	13%
People's MA HMO	N/A	1%
LA Blue MA HMO	N/A	4%
Humana MA HMO	N/A	2%
Via Benefits HRA	N/A	1%

This assumption has been updated since the prior valuation based on a review of the past three years of experience.

Dependents: Actual data was used for spouses of current retirees. Of those future retirees electing coverage at retirement, 35% are assumed to be married at time of retirement and elect to cover their spouse in the same medical arrangement that they have elected. 35% of future retirees are also assumed to elect life insurance benefit for their spouses.

For future retirees, male retirees are assumed to be three years older than their spouses and female retirees are assumed to be two years younger than their spouses.

No divorce or remarriage after widowhood was reflected.

These assumptions are based on a review of plan experience from July 1, 2021 through June 30, 2024.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Medicare Eligibility: 99% of future retirees are assumed to be eligible for Medicare at age 65. Retirees under age 65 at July 1, 2017 are assumed to become eligible for Medicare at age 65 at varying rates based on how soon they turn age 65, as follows:

<u>Turns Age 65 by</u>	<u>Medicare Eligibility %</u>
7/1/2025	94%
7/1/2026	95%
7/1/2027	96%
7/1/2028	97%
7/1/2029	98%
After 7/1/2030	99%

Retirees over age 65 are valued according to their reported Medicare status, which is assumed to never change. All current spouses are assumed to be Medicare eligible at age 65. Medicare eligibility assumptions for future spouses are consistent with the assumptions for future retirees. These assumptions are based on a review of experience from July 1, 2021 through June 30, 2024.

DROPS: Current DROPS are valued using actual DROP end dates, where available. Otherwise, the DROP period was assumed to be three years from the DROP start dates. This assumption is consistent with the plan provisions of the DROP program in LASERS.

60% of retirements in the first year of normal retirement eligibility are assumed to be DROPS. 50% of DROPS are assumed to return to active employment at the end of the DROP period.

The following changes in actuarial assumptions have been made since the prior measurement date:

- The discount rate has increased from 3.93% to 5.20%.
- Baseline per capita costs (PCCs) were updated to reflect 2025 claims and enrollment.
- The Medicare trend was updated to be the same as the Pre-Medicare trend, which more accurately reflects recent healthcare trend survey results, industry-wide expectations, and the current high-inflationary environment. Medicare trend has been revised to 8.25%, trending down to an ultimate rate of 4.5% by FYE 2035.
- Agency 4030 was an excluded agency as of July 1, 2024 but is an included agency as of July 1, 2025. In addition, several excluded agencies were removed from the valuation as of July 1, 2025 because of no activity and no OPEB liability balance.

June 30, 2028	\$ 168,361
June 30, 2029	\$ 69,507

(9) Retirement System

Plan Description

Employees of the Authority are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by statute and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006 may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing 10 years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015 may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and may also retire at any age with a reduced benefit after 20 years of creditable service. Hazardous duty members are eligible to retire with 12 years of creditable service at age 55, 25 years of creditable service at any age, or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary employed after January 1, 2011 was eliminated by Act 992. Specialty plan and regular members hired prior to January 1, 2011 who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and may also retire at any age with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annually earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual while

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

judges receive a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014 may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age but after completing certain minimum service requirements becomes eligible for a benefit provided that the member lives to the minimum service retirement age and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004 are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Disability Benefits

Generally, active members with 10 or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making an application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a, is an amputee incapable of serving as a law enforcement officer, or is permanently or legally blind, there is no reduction to the benefit if the retiree becomes gainfully employed.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of 20 years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is 10 years for a surviving spouse with no minor children and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years earned immediately prior to death and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease upon remarriage, and children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse or 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Employer Contributions

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership.

The Authority's contractually required composite contribution rates for the years ended June 30, 2026 and 2025 were 33.15% and 34.7%, respectively, of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Authority were \$747,635 and \$754,955 for the years ended June 30, 2026 and 2025, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2026, the Authority reported a liability of \$3,862,600 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2025 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2025, the Authority's proportion was 0.0857%, which was an increase of 0.0013% from its proportion measured as of June 30, 2024.

For the year ended June 30, 2026, the Authority recognized pension expense of \$736,399, including the effect of amortizing changes in proportion and differences between the Authority's contributions and its proportionate share of contributions.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

At June 30, 2025, the Authority reported a liability of \$4,591,271 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2024, the Authority's proportion was 0.08443%, which was an increase of 0.013181% from its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, the Authority recognized pension expense of \$471,671, including the effect of amortizing changes in proportion and differences between the Authority's contributions and its proportionate share of contributions. Additionally, during the year ended June 30, 2025, the Authority recognized other income totaling \$25,432 for its proportionate share of funds contributed to the System by the State of Louisiana.

At June 30, 2026, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 53,654	(661,489)
Difference between expected and actual return on investments	-	-
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Difference between proportionate share of employer contributions and actual contribution	47,233	-
Employer contributions subsequent to measurement date	<u>747,635</u>	<u>-</u>
	<u>\$ 848,522</u>	<u>(661,489)</u>

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

\$747,635 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2027. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:

June 30, 2027	\$ 84,198
June 30, 2028	\$ (327,112)
June 30, 2029	\$ (251,926)
June 30, 2030	\$ (65,762)

At June 30, 2025, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 32,095	(547,413)
Difference between expected and actual return on investments	-	(20,306)
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	-	-
Difference between proportionate share of employer contributions and actual contribution	-	-
Employer contributions subsequent to measurement date	<u>754,955</u>	<u>-</u>
	<u>\$ 787,050</u>	<u>(567,719)</u>

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

\$754,955 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:

June 30, 2026	\$ (329,186)
June 30, 2027	\$ 141,437
June 30, 2028	\$ (210,980)
June 30, 2029	\$ (136,895)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2025 are as follows:

Valuation Date	June 30, 2025
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Lives	2 years
Investment Rate of Return	7.25% per annum, net of investment expenses
Inflation Rate	2.40% per annum
Mortality	Non-disabled members – The PubG-2010 Healthy Retiree on a fully generational basis by Mortality Improvement Scale MP-2021.
	Disabled members – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five year (2019-2023) experience study of the System's members.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Salary Increases

Salary increases were projected based on a 2019-2023 experience study of the System's members. The salary increase ranges for specific types of members are:

<u>Member Type</u>	<u>Lower Range</u>	<u>Upper Range</u>
Regular	3.3%	14.0%
Judges	2.4%	4.8%
Corrections	4.4%	15.3%
Hazardous Duty	4.4%	15.3%
Wildlife	4.4%	15.3%

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.40% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term nominal rate of return is 8.30% for 2025. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2025 are summarized in the following table:

<u>Asset Class</u>	<u>Long-term Expected Real Rate of Return</u>
Cash	0.85%
Domestic equity	4.42%
International equity	5.22%
Domestic Fixed Income	2.53%
International Fixed Income	5.37%
Alternative Investments	7.43%
Total Fund	5.75%

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and contributions from participating employers will be made at the actuarially determined rates approved by PRSAC, taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the net pension liability as of June 30, 2026 using the discount rate of 7.25%, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Employer's proportionate share of the net pension liability	\$ <u>5,879,749</u>	<u>3,862,600</u>	<u>2,519,499</u>

The following presents the Employer's proportionate share of the net pension liability as of June 30, 2025 using the discount rate of 7.25%, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Employer's proportionate share of the net pension liability	\$ <u>6,340,424</u>	<u>4,591,271</u>	<u>3,104,893</u>

The information above can be found in the current GASB 68 Schedules of Employer located at <https://lasersonline.org/employers/gasb-68-resources/>.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued current LASERS Annual Comprehensive Financial Report at www.lasersonline.org.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Payables to the Pension Plan

As of June 30, 2026 and 2025, the Authority had no employee and employer contributions that were due to the pension plan.

(10) Commitments and Contingencies

Risk Management

The Authority is exposed to various risks of loss resulting from personal injury; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To protect against these risks of loss, the Authority purchases various types of insurance from commercial carriers.

Contingent Liabilities

Litigation

The Authority is subject to various claims and lawsuits which may arise in the ordinary course of business. After consulting with counsel representing the Authority in connection with such claims and lawsuits, it is the opinion of management and counsel that the disposition or ultimate determination of such claims and lawsuits will not have a material effect on the financial position of the Authority. In addition, the Authority is a defendant in one matter involving alleged property damage. Based on information currently available, management and legal counsel believe a loss is reasonably possible; however, they are unable to estimate the amount or range of any potential loss. Accordingly, no liability has been recorded in the accompanying financial statements.

(11) Lease of Recreational Facility

The Authority leased property and facilities, including the conference center, golf course, club house, cart storage building, service center buildings, restaurants, stores, tennis courts, activity center, pool, and other commercial property, if and when constructed on the leased property for 75 years beginning on May 1, 2000 to ALH Properties No. Five, Inc. ALH will pay rent to the Authority as follows:

- Opening date through December 31, 2001 - 1% of annual gross revenue.
- Calendar year 2002 through 2004 - 1.5% of annual gross revenue.
- Calendar year 2005 and thereafter - 2.0% of annual gross revenue up to \$5,000,000, 4.0% of annual gross revenue between \$5,000,000 and \$6,000,000, 5.0% of annual gross revenue between \$6,000,000 and \$7,000,000, 5.5% of annual gross revenue between \$7,000,000 and \$8,000,000, 6.0% of annual gross revenue between \$8,000,000 and \$9,000,000, 6.5% of annual gross revenue between \$9,000,000 and \$10,000,000, and 7.0% of annual gross revenue over \$10,000,000.

All lease payments under the agreement are variable payments based on future gross revenues. Accordingly, no lease receivable or deferred inflow of resources related to the lease has been recognized.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

Variable lease payments received for the year ended June 30, 2026 and 2025 were \$0 and \$0, respectively. The Authority has entered into an Agreement (the "Agreement") with Sabine Bank & Trust Company (the Bank). It provides for the Authority to subordinate any and all liens, privileges, pledges, or other rights granted to the Authority by Louisiana Civil Code Article 2705, et seq., or Louisiana Civil Code Article 3218, et seq., with respect to all of ALH's inventory, goods, equipment, and other movable property (collateral) situated on property the Authority leased to ALH to the rights of the Bank. The Authority also agreed that in the event of any foreclosure, sale, or other disposition of any of the collateral, the rights of the Bank in said collateral shall in all respects prime those of the Authority and the Bank shall be paid by preference and priority to and over any claim of the Authority.

(12) Toledo Bend Project Joint Operation

The Toledo Bend Project Joint Operation (the Joint Operation) is an existing, federally licensed hydroelectric project jointly owned and operated by the Authority and the Sabine River Authority of Texas (SRA-TX).

The Joint Operation is located on the Sabine River where it forms the boundary between the states of Texas and Louisiana in Panola, Shelby, Sabine, and Newton counties in Texas, and DeSoto, Sabine, and Vernon parishes in Louisiana. The existing facilities at the Joint Operation include a dam and powerhouse, three dikes, gated spillway and excavated channel, tailrace and excavated channel, switchyard, turbines, penstocks, and transmission line. The Toledo Bend Reservoir extends approximately 132 river miles up the Sabine River to just north of Logansport, Louisiana, from river mile (RM) 147 to RM 279, a distance of approximately 70 navigation miles. The Joint Operation boundary encompasses approximately 201,600 acres. The reservoir has a surface area of approximately 185,000 acres (at water level elevation 172 ft-msl). The reservoir has approximately 1,130 miles of shoreline and numerous opportunities for recreation.

The Joint Operation, which was originally licensed in 1963 by the Federal Energy Regulatory Commission's (FERC or Commission) predecessor agency, the Federal Power Commission, was conceived, licensed, and developed for water supply, and secondary purposes include hydroelectric power generation and recreation. On August 29, 2014, the Commission issued a new license to the Authorities for the continued operation of the Project.

Because the Authority and SRA-TX jointly own and operate the Joint Operation, one half of its financial position and results of operations are reported in these financial statements.

(13) Related Party Transactions

The Authority is a joint owner of the Toledo Bend Project Joint Operation (the Joint Operation), which is jointly owned and operated by the Sabine River Authority, State of Louisiana, and the Sabine River Authority of Texas. As discussed in Note 12, the Authority reports its proportionate share of the Joint Operation's financial position and results of operations in the accompanying financial statements. Accordingly, transactions between the Authority and the Joint Operation are considered related-party transactions.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

Notes to the Financial Statements

June 30, 2026

At June 30, 2026 and 2025, amounts due from the Joint Operation totaled \$197,202 and \$195,939, respectively, and are included in receivables, net on the statement of net position. Amounts due to the Joint Operation totaled \$40,675 and \$155,523, respectively, and are included in the accounts payable and retainage payable.

(14) Prior Period Adjustment

Change in Accounting Principle

Net position as of June 30, 2024 has been restated as follows for implementation of GASB Statement No. 101, *Compensated Absences*, as amended.

	Governmental <u>Activities</u>
Net position as previously reported at June 30, 2024	\$ 109,878,292
Prior period adjustment - implementation of GASB No. 101	
Change in compensated absences payable	<u>(975,143)</u>
Net position as restated, June 30, 2024	<u>\$ 108,903,149</u>

(15) Subsequent Events

The Authority evaluated subsequent events through August 12, 2026, the date on which the financial statements were available to be issued.

Subsequent to June 30, 2026, the Authority completed the acquisition of certain interests and operating assets associated with Cypress Bend Resort from ALH Properties No. Five, Inc. for approximately \$9.5 million. Prior to the transaction, the Authority owned the underlying property and facilities and leased them to ALH as described in Note 11. Upon closing, the Authority acquired ALH's interests and related resort operating assets and assumed direct control of resort operations. Management expects the acquisition to support the Authority's recreational and economic development objectives. The acquisition was funded using existing Authority cash resources. Accordingly, neither the acquired assets nor the related cash disbursement are reflected in the accompanying financial statements.

2026	747,635	747,635	-	2,255,314	33.15%

This schedule represents the employer contributions subsequent to the measurement date and recognized as a reduction of the net pension liability in future years.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

**Notes to Required Supplementary Information - Schedule of Employer's Proportionate
Share of Net Pension Liability and Schedule of Employer's Pension Contributions**

Last Ten Fiscal Years

Changes in Benefit Terms:

Measurement Date: June 30, 2016:

1. A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.
2. Added benefits for members of the Harbor Police Retirement System, which was merged with the LASERS effective July 1, 2015 by Act 648 of 2014.

Measurement Date: June 30, 2019:

1. Act 595 of 2018 provides for a disability benefit equal to 100 percent of final average compensation for members of the Hazardous Duty, Corrections Primary and Secondary, and Wildlife and Harbor Police plans who are totally and permanently disabled in the line of duty by an intentional act of violence.

Measurement Date: June 30, 2021:

1. Act 37 of 2021 provided a monthly benefit increase to retirees that on June 30, 2021 have attained age 60, have 30 or more years of service, have been retired 15 or more years, receive a monthly benefit less than \$1,450, and have not participated in DROP or the Initial Benefit Option. The benefit increase is the lesser of \$300 per month or the amount needed to increase the monthly benefit to \$1,450.

Changes in Assumptions:

Measurement Date: June 30, 2017:

1. The LASERS adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments, beginning July 1, 2017. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017 valuation. A 7.65% discount rate was used to determine the projected contribution requirements for fiscal year 2018/2019.
2. The LASERS reduced the inflation assumption from 3.0% to 2.75%, effective July 1, 2017. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.
3. The projected contribution requirement for fiscal year 2018/2019 includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.

Measurement Date: June 30, 2018:

1. In accordance with the LASERS' adopted plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.70% to 7.65%.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

**Notes to Required Supplementary Information - Schedule of Employer's Proportionate
Share of Net Pension Liability and Schedule of Employer's Pension Contributions**

Last Ten Fiscal Years

Measurement Date: June 30, 2019:

1. In accordance with the LASERS adopted plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.7% to 7.60.
2. The LASERS reduced the inflation assumption from 2.75% to 2.50%, effective July 1, 2019. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .25%.

Measurement Date: June 30, 2020:

1. In accordance with the LASERS adopted plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.60% to 7.55%.
2. LASERS reduced the inflation assumption from 2.50% to 2.30%, effective July 1, 2020. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions decreased by .20%.

Measurement Date: June 30, 2021:

1. In accordance with the LASERS' adopted plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.55% to 7.4%.

Measurement Date: June 30, 2022:

1. In accordance with the LASERS' adopted plan to gradually reduce the discount rate beginning July 1, 2017, the discount rate was reduced from 7.4% to 7.25%.
2. The expected long-term real rates of return were increased from 5.81% to 5.91%.

Measurement Date: June 30, 2023:

1. The expected long-term real rates of return were decreased from 5.91% to 5.75%.

Measurement Date: June 30, 2024:

1. The LASERS increased the inflation assumption from 2.30% to 2.40%, effective July 1, 2024. Since the inflation assumption is a component of the salary increase assumption, all salary increase assumptions increased by .10%.
2. The LASERS conducted an experience study for the observation period of July 1, 2018 through June 30, 2023. The results of the study impacted actuarial assumptions, mortality assumptions, disability assumption, retirement/DROP assumption, termination assumption, salary growth, and converted leave.

Measurement Date: June 30, 2025:

1. There were no changes in assumptions or methods from the prior valuation.

There are no assets accumulated in a trust that meets the requirements in paragraph 4 of GASB Statement No. 75 to pay related benefits.

Changes in Assumptions:

Measurement Date: July 1, 2017:

1. The discount rate increased from 2.71% to 3.13%.

Measurement Date: July 1, 2018:

1. The discount rate decreased from 3.13% to 2.98%.
2. Baseline per capita costs were updated to reflect 2018 claims and enrollment and retiree contributions were updated based on 2020 premiums. The impact of the High Cost Excise Tax was revisited, reflecting updated plan premiums.
3. The mortality assumption for the Louisiana State Employees' Retirement System was updated from the RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections using projection scale MP-2017 to the RP-2014 Healthy Annuitant and Employee tables for males and females using projection scale MP-2018.
4. The percentage of future retirees assumed to elect medical coverage was modified based on recent plan experience.

Measurement Date: June 30, 2019:

1. The discount rate was decreased from 3.5% to 2.21%.

Measurement Date: June 30, 2020:

1. The discount rate was increased from 2.21% to 2.66%.
2. Mortality assumptions were changed from the RP-2014 table without projection to the following:
 - a. For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.
 - b. For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018.
 - c. For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.
3. Healthcare cost trend rate assumptions that were changed from an expected rate of increase in medical cost is based on an annual rate of 5.5% for the first 10 years and 4.5% thereafter to the assumptions described above.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

**Notes to Required Supplementary Information - Schedule of
Employer's Proportionate Share of Collective OPEB Liability**

Last 10 Fiscal Years

4. Termination rate assumptions were changed from an age-related turnover scale based on actual experience as described by administrative staff (approximately 13%) to rates consistent with pension valuation assumptions based on age and years of service (rates ranging from 50% to 5%).
5. Life insurance participation rates for future retirees was decreased from 52% to 36%.
6. Rates of salary increases were changed from an annual salary increase of 4% to the following:

Years of Service	Increase
0	12.80%
5	4.90%
10	3.60%
15	3.20%
20	3.00%
25	3.00%
30	3.00%

Measurement Date: June 30, 2021:

1. The discount rate was decreased from 2.66% to 2.18%.
2. Baseline per capita costs were updated to reflect 2021 claims and enrollment.
3. Medical plan election percentages were updated based on the coverage elections of recent retirees.
4. The healthcare cost trend rate assumption was revised based on updated National Health Care Trend Survey information.

Measurement Date: June 30, 2022:

1. The discount rate has increased from 2.18% to 4.09%.
2. Baseline per capita costs were updated to reflect 2022 claims and enrollment.
3. Medical plan election percentages were updated based on the coverage elections of recent retirees.

Measurement Date: June 30, 2023:

1. The discount rate has increased from 4.09% to 4.13%.
2. Baseline per capita costs (PCCs) were updated to reflect 2023 claims and enrollment.
3. Medical plan election percentages were updated based on the coverage elections of recent retirees.
4. The mortality, retirement, termination, disability, and salary increase rates for the TRSL, LSERS, and LSPRS groups were updated. Additionally, all TRSL assumptions that were based on the Regular plan assumptions only have been updated to vary by sub-plan as applicable (Regular, Higher Ed, and Lunch).
5. The healthcare cost trend was updated.

**SABINE RIVER AUTHORITY
STATE OF LOUISIANA**

**Notes to Required Supplementary Information - Schedule of
Employer's Proportionate Share of Collective OPEB Liability**

Last 10 Fiscal Years

Measurement Date: June 30, 2024:

1. The discount rate decreased from 4.13% based on the S&P Municipal Bond 20-Year High Grade Rate Index as of June 30, 2023 to 3.93% based on the Bond Buyer 20 Index as of June 30, 2024.
2. Baseline per capita costs (PCCs) and medical plan election percentages were updated to reflect 2024 claims and enrollment. Plan claims and premiums increased more than had been expected, which increased the Plan's liability.
3. The mortality, retirement, termination, disability, and salary increase rates for the LASERS groups were updated to be consistent with the pension valuation assumptions.
4. The healthcare cost trend was updated.

Measurement Date: June 30, 2025

1. The discount rate increased from 3.93% based on the Bond Buyer 20 Index as of June 30, 2024 to 5.20% as of June 30, 2025.
2. Baseline per capita costs (PCCs) and medical plan election percentages were updated to reflect 2025 claims and enrollment. Plan claims and premiums increased more than had been expected, which increased the Plan's liability.
3. The Medicare trend was updated to be the same as the Pre-Medicare trend, which more accurately reflects recent healthcare trend survey results, industry-wide expectations, and the current high-inflationary environment. Medicare trend has been revised to 8.25%, trending down to an ultimate rate of 4.5% by FYE 2035.
4. Agency 4030 was an excluded agency as of July 1, 2024 but is an included agency as of July 1, 2025. In addition, several excluded agencies were removed from the valuation as of July 1, 2025 because of no activity and no OPEB liability balance.

Changes in Benefit Terms:

There have been no changes in benefit terms for the OPEB Plan during any of the years presented.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2025 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the OGB Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported.	285,143.00
--	------------

Covered Employee Payroll for the PRIOR fiscal year (not including related benefits)	1,748,244.00
--	--------------

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2025 - 6/30/2026). This information will be provided to the actuary for the valuation report early next year.	0.00
---	------

For agencies that have employees that participate in the **LSU Health Plan**, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2026 for their OPEB valuation report.)

Covered Employee Payroll for the CURRENT fiscal year (not including related benefits)	0.00

CERTAIN RISK DISCLOSURES (GASB 102)

A concentration or constraint must meet the following criteria before disclosure is required:

- a. The concentration or constraint is known prior to the issuance of the financial statements.
 - b. The concentration or constraint makes the reporting unit vulnerable to the risk of a substantial impact.
 - c. An event associated with the concentration or constraint that could cause a substantial impact has occurred, has begun to occur, or is more likely than not to begin to occur within 12 months of the date the financial statements are issued.
- Note: The State's financial statements are issued December 31 for the fiscal year ended June 30.

If the concentration or constraint meets all the criteria above, disclose the following for each concentration or constraint.
Note: If the agency has taken mitigation action that causes any of the disclosure criteria not to be met, no disclosure is required.

Do you have any concentrations or constraints to disclose that meet the criteria described above? No

List each event associated with the concentration or constraint that could cause a substantial impact if the event has occurred, has begun to occur, or is more likely than not to begin to occur prior to December 31, 2027.

Disclose the actions taken by the entity to mitigate the risk.

List the concentration or constraint:

ANNUAL FISCAL REPORT (AFR)
FOR 2026

AGENCY: 20-31 - Sabine River Authority

SUBMITTAL DATE: 08/13/2026 12:48 PM

UNUSUAL OR INFREQUENT ITEMS

This disclosure is for any inflows or outflows occurring during the fiscal year that are either unusual in nature or infrequent in occurrence. Unusual in nature means the underlying event or transaction possesses a high degree of abnormality and is clearly unrelated to, or only incidentally related to, the ordinary and typical activities of the agency, taking into account the environment in which the agency operates. Infrequent in occurrence means the underlying event or transaction that occurred is not reasonably expected to recur in the foreseeable future, taking into account the environment in which the agency operates.

Does your agency have any material unusual or infrequent items? No

Describe each unusual or infrequent item separately and indicate whether the item was within the control of management. Also, describe inflows and outflows separately.

Example: The agency experienced a flood during March of 20X5 that was a catastrophic event outside the control of management. The agency incurred expenses to clean up flood damage in the amount of \$10 million. The agency also received \$2.5 million in grants from the federal government to assist with the cleanup effort.

FUND BALANCE/NET POSITION RESTATEMENT

ERROR CORRECTIONS

For each beginning net position restatement resulting from a correction of an error, select the SNP account and the SOA account affected by the error. Only material errors should be restated. Immaterial errors should be corrected through current period revenue or expenses, as applicable. In the description field, explain the nature of the error, and its correction, including periods affected by the error.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Error Corrections	\$0.00

CHANGES IN ACCOUNTING PRINCIPLE

For each beginning net position restatement resulting from the application of a new accounting principle, select the SNP account and the SOA account that are affected by the change in accounting principle. In the description field explain the nature of the change in accounting principle and the reason for the change. If the change is due to the implementation of a new GASB pronouncement, identify the pronouncement that was implemented.

Account Name/Description	Beginning Net Position Restatement Amount
Total Restatement - Changes in Accounting Principle	\$0.00

CHANGES IN REPORTING ENTITY

Describe the nature and reason for the change to or within the financial reporting entity and list the effect (amount) on beginning net position.

Description	Effect on Beginning Net Position
	0.00
Total Restatement - Changes in Reporting Entity	\$0.00

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Commissioners
Sabine River Authority
State of Louisiana
Many, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Sabine River Authority, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise Sabine River Authority's basic financial statements, and have issued our report thereon dated August 12, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sabine River Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sabine River Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Sabine River Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sabine River Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the Board of Commissioners
Sabine River Authority
State of Louisiana
Many, Louisiana

In planning and performing our audit of the financial statements of the business-type activities of Sabine River Authority (the Authority), as of and for the year ended June 30, 2026, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

However, during our audit, we noted the following matter involving internal control that is presented for your consideration. We do not consider this matter to be a material weakness or significant deficiency. The comment has been discussed with the appropriate members of management and is intended to improve internal control over cash collections.

Revenue and Receivable Reconciliation

During our audit procedures, we noted that Resort Data Processing (RDP)-generated reports did not include certain recreational vehicle (RV) monthly rental revenue and related receivables. Management determined that a new sales tax code had been created in RDP; however, automatic transactions continued to use the previous code and were therefore excluded from the reports used in the monthly reconciliation process. After identifying the issue, management worked with RDP to rerun the reports using the correct code and recorded an adjustment to debit Park Accounts Receivable by \$137,909, credit RV Monthly Rental Income by \$133,950.00, and credit Sabine Parish Hotel Tax Payable by \$3,959.

The issue was not identified through the Authority's normal monthly review because management generally focused on larger debit balances in accounts receivable. We recommend that the Authority expand its monthly reconciliation procedures to include review of unusual credit balances, verification that new or modified transaction codes are included in automated reports, and reconciliation of RDP revenue and receivable reports to the general ledger. Management indicated that these additional procedures will be incorporated into the monthly reconciliation process.

Re: Fiscal Year 2026 Audit Management Letter

Dear Mr. Furman,

In response to the above reference Management Letter, the Sabine River Authority acknowledges the letter and agrees to take the following corrective actions.

Revenue and Receivable Reconciliation

Auditor's Comment:

During our audit procedures, we noted that Resort Data Processing (RDP)-generated reports did not include certain recreational vehicle (RV) monthly rental revenue and related receivables. Management determined that a new sales tax code had been created in RDP; however, automatic transactions continued to use the previous code and were therefore excluded from the reports used in the monthly reconciliation process. After identifying the issue, management worked with RDP to rerun the reports using the correct code and recorded an adjustment to debit Park Accounts Receivable by \$137,909, credit RV Monthly Rental Income by \$133,950.00, and credit Sabine Parish Hotel Tax Payable by \$3,959.

The issue was not identified through the Authority's normal monthly review because management generally focused on larger debit balances in accounts receivable. We recommend that the Authority expand its monthly reconciliation procedures to include review of unusual credit balances, verification that new or modified transaction codes are included in automated reports, and reconciliation of RDP revenue and receivable reports to the general ledger. Management indicated that these additional procedures will be incorporated into the monthly reconciliation process.

Management's Response:

We will expand our monthly reconciliation procedures to include review of unusual credit balances, verification that new or modified transaction codes are included in automated reports, and will reconcile RDP revenue and receivable reports to the general ledger.

Sincerely,

A blue ink signature of Warren Founds, written in a cursive style.
