Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of the Legislative Budgetary Control Council, State of Louisiana, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Legislative Budgetary Control Council, State of Louisiana's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Legislative Budgetary Control Council, State of Louisiana as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Legislative Budgetary Control Council, State of Louisiana, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Legislative Budgetary Control Council, State of Louisiana's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Legislative Budgetary Control Council, State of Louisiana's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Legislative Budgetary Control Council, State of Louisiana's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identify during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2025, on our consideration of the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Legislative Budgetary Control Council's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Legislative Budgetary Control Council's internal control over financial reporting and compliance.

LEGISLATIVE BUDGETARY CONTROL COUNCIL
STATE OF LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025

Management's discussion and analysis of the Legislative Budgetary Control Council, State of Louisiana's (Council) financial performance presents a narrative overview and analysis of the Council's financial activities for the year ended June 30, 2025. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. This analysis should be read in conjunction with the basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The Council's net position increased by \$1,031,392 from June 30, 2024 to June 30, 2025.
- The general revenues of the Council were \$23,479,331, which is a decrease of \$2,687,813 from the prior year. The decrease in revenues can be attributed primarily to miscellaneous income recognized in the prior year related to a reimbursement from FEMA for COVID-19 costs in prior years.
- The total expenses of the Council were \$15,734,983, which is an increase of \$421,886 from the prior year. The increase can be attributed to a significant increase in personnel services expenses in the current year.
- The net other financing uses of the Council were \$6,712,956 which is an increase of \$2,458,366. The increase can primarily be attributed to unused appropriations being recognized as transfers back to the Louisiana State Treasury in the current year.
- The implementation of GASB Statement No. 101, *Compensated Absences*, led to the recognition of an additional \$745,241 in compensated absences as of June 30, 2024, compared to the amount previously reported. As a result, the beginning net position was restated, reflecting a total decrease of \$745,241.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three sections: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. Management's discussion and analysis is intended to serve as an introduction to the Council's basic financial statements. The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains additional information to supplement the basic financial statements, such as required supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Council's finances in a manner similar to a private-sector business.

MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-wide Financial Statements (Continued)

The Statement of Net Position presents information on the Council's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. This statement is designed to display the financial position of the Council. Over time, increases or decreases in net position help determine whether the Council's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the Council's net position changed during the most recent fiscal year. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, transactions may be included that will not affect cash until future fiscal periods.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Council uses a single fund to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Council's only fund, the General Fund.

The Council uses only one fund type, the governmental fund. The governmental fund is used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Council's near-term financing requirements.

Because the focus of the governmental fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between the governmental fund and the governmental activities.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Council's budgetary comparison, proportionate share of the total collective other postemployment benefits liabilities, proportionate share of the net pension liabilities, and pension contributions.

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Council, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$81,562,836 at the close of the most recent fiscal year. Included in the Council's net position is its net investment in capital assets. These assets are not available for future spending.

The following presents the condensed comparative statements of net position of the Council:

**CONDENSED COMPARATIVE STATEMENTS OF NET POSITION

Total assets of the Council increased by \$1,980,977 or 2.3%. The increase in assets is due primarily to increases in cash.

MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES (Continued)

Amounts due from the State Treasury decreased by approximately \$6.3 million. The decrease can primarily be attributed to appropriation drawdowns and unused appropriations returned to the State Treasury related to Act 410 of the 2021 Regular Session of the Louisiana Legislature, which authorized the State Treasurer to transfer \$15 million out of the Louisiana Rescue Plan Fund into the Legislative Capitol Technology Enhancement Fund in accordance with the provisions of the American Rescue Plan Act of 2021 authorizing the use of the Coronavirus State Fiscal Recovery Fund for the provision of government services to the extent of a reduction in state revenues.

Total liabilities of the Council increased by \$1,078,921, or 23.4%. The increase in liabilities is due primarily to an increase in compensated absences liabilities.

The following presents the condensed comparative statements of activities of the Council:

**CONDENSED COMPARATIVE STATEMENTS OF ACTIVITIES
FOR THE YEARS ENDED JUNE 30, 2025 AND 2024**

	<u>2025</u>	<u>(Restated)</u> <u>2024</u>	<u>Change</u>	<u>Percentage</u> <u>Change</u>
General revenues	\$ 23,479,331	\$ 26,167,144	\$ (2,687,813)	(10.3%)
Expenses	15,734,983	15,313,097	421,886	2.8%
Other financing sources (uses)	(6,712,956)	(4,254,590)	(2,458,366)	57.8%
Change in net position	<u>\$ 1,031,392</u>	<u>\$ 6,599,457</u>	<u>\$ (5,568,065)</u>	(84.4%)

The June 30, 2024, net position was restated due to the implementation of GASB Statement No. 101, *Compensated Absences*, which required the recognition of certain compensated absences that were not previously reported. As a result, an additional \$745,241 in compensated absences liability was recognized, reducing the net position as of June 30, 2024. In addition, expenses for the year ended June 30, 2024, were restated to reflect the impact of GASB 101, resulting in an increase in reported expenses related to compensated absences.

The Statement of Activities reflects a positive change for the year. Net position increased by \$1,031,392 in 2025, compared to an increase of \$6,599,457 in 2024. The change in net position decreased in the year ended June 30, 2025, primarily due a decrease in miscellaneous income revenues and an increase in expenses due to the increase in new employees and their related salaries and benefits.

The decrease in general revenues can primarily be attributed to the prior year receipt of cost-reimbursement from FEMA for expenses covered under a COVID-19 Streamlined Project for Emergency Protective Measures. A total of approximately \$8.1 Million was expended for this project of which approximately \$5.2 Million was funded by the CARES Act in fiscal year ending June 30, 2021. The remaining approximately \$2.9 Million was received in the prior year ended June 30, 2024.

LEGISLATIVE BUDGETARY CONTROL COUNCIL
STATE OF LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES (Continued)

The increase in expenses can primarily be attributed to an increase in personnel expenses, which increased approximately \$1.7 million in the year ended June 30, 2025.

Other financing uses increased by approximately \$2.5 million in the current year. The increase is primarily attributable to unused appropriations that were recognized as being returned to the State Treasurer in the current year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The Council's investment in capital assets, net of accumulated depreciation, as of June 30, 2025, is \$21,902,589. The investment in capital assets includes building improvements, furniture and equipment, computer equipment, and construction in progress. The total decrease in capital assets for the current fiscal year was 3.8%. The decrease can be attributed primarily to the increase in accumulated depreciation in the current year.

The Council's investment in right-of-use subscription assets, net of accumulated amortization, as of June 30, 2025, is \$215,000. The investment in right-of use subscription assets includes a 4-year software subscription for the Council's concealed weapons detection platforms.

The Council has no long-term debt outstanding at year-end. However, there are long-term liabilities related to other postemployment benefits, pensions, and compensated absences.

BUDGET ANALYSIS

A comparison of budget to actual operations is presented in the accompanying required supplementary information. Total revenues were \$1,404,999 above budgeted amounts. Total expenditures and other financing uses were \$808,186 below budgeted expenditure amounts.

ECONOMIC OUTLOOK

The Legislative Budgetary Control Council's fiscal year 2026 budget was approved with an approximate 9.55% increase in State General Fund Appropriation from the fiscal year ended June 30, 2025.

*Explanations:

- (1) Capital assets and subscription right-of-use assets used in governmental activities are not current financial resources and, therefore, are not reported in the General Fund.
- (2) Long-term liabilities, such as compensated absences, net pension liability, and other postemployment benefits payable and the deferred inflows and deferred outflows related to those long-term liabilities, are not due and payable in the current period and, therefore, are not reported in the General Fund.

***Explanations:**

- (1) Expenses and revenues of long-term obligations for compensated absences, other postemployment benefits, and pension plans reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures and revenues in the General Fund.
- (2) Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation and amortization expense.

See accompanying notes.

LEGISLATIVE BUDGETARY CONTROL COUNCIL
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2025

NATURE OF OPERATIONS:

The Legislative Budgetary Control Council, State of Louisiana, (the Council) created by Title 24, Section 38 of the Louisiana Revised Statutes, maintains rules and regulations designed to control the budget and spending procedures within the legislative branch of government, approves budget requests for all legislative budget units, and funds projects for the legislature such as: the joint computer operations, the upkeep and renovations of the Capitol complex, and the funding of national legislative organizations. Appropriated funds are allocated to the Council to defray the expenses of the Louisiana Legislature, including the expenses of the House of Representatives, the Senate, the Louisiana State Law Institute, the Louisiana Legislative Auditor, and the Legislative Fiscal Office.

The Council is composed of 10 members and 32 full-time employees.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Governmental Accounting Standards Board (GASB) promulgates accounting principles generally accepted in the United States of America and reporting standards for state and local governments. These principles are found in the codification of *Governmental Accounting and Financial Reporting Standards*, published by the GASB. The accompanying financial statements have been prepared in accordance with such principles.

Financial Reporting Entity:

The application of Section 2100 of the GASB Codification defines the governmental reporting entity (in relation to the Legislative Budgetary Control Council, State of Louisiana) to be the State of Louisiana. The accompanying financial statements of the Legislative Budgetary Control Council contain sub-account information of the General Fund of the State of Louisiana. Annually, the State of Louisiana issues general purpose financial statements, which include the activity contained in the accompanying financial statements. However, the activity may be presented or classified differently due to perspective differences. The Legislative Budgetary Control Council has no fiduciary funds or component units.

Fund Accounting:

The Legislative Budgetary Control Council uses fund accounting (separate set of self-balancing accounts) to reflect the sources and uses of available resources and the budgetary restrictions placed on those funds by the Louisiana Legislature. The Legislative Budgetary Control Council has only a General Fund, supported by an appropriation from the State of Louisiana used to account for all of the Legislative Budgetary Control Council's activities, including the acquisition of capital assets and the servicing of long-term liabilities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Basis of Accounting:

Within the accompanying statements, the General Fund column of the Statement of Net Position and the Statement of Activities reports all activities of the Legislative Budgetary Control Council using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Management considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. However, as management considers it available regardless of when received, the legislative appropriation is recorded during the year, and for the year, the appropriation is made, and interest and other revenues are recorded when earned. Expenditures are recorded when a liability is incurred, as in accrual accounting. However, compensated absences, pension costs, and other postemployment benefits (OPEB) costs are recorded when payment is due.

The General Fund column is adjusted to create a Statement of Net Position and a Statement of Activities. Within this column, amounts are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Cash in Banks:

The Legislative Budgetary Control Council defines cash as interest-bearing demand deposits. Under state law, the Legislative Budgetary Control Council may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana and designated by the presiding officer of the Legislative Budgetary Control Council. These deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Deferred Outflows of Resources and Deferred Inflows of Resources:

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure/expense) until that future time.

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

Capital and Right-of-Use Assets:

The accompanying Statement of Net Position reflects building improvements, furniture and equipment, and computer equipment used by the Legislative Budgetary Control Council, State of Louisiana, and funded by legislative appropriation, in daily operations. These assets are recorded at cost. The accompanying financial statements do not include the value of land and buildings provided without cost to the Legislative Budgetary Control Council. These assets are recorded with the annual financial statements of the State of Louisiana.

Capital assets with acquisition costs of \$5,000 or greater are capitalized, recorded at cost, and are depreciated using the straight-line method of allocating costs over the following useful lives:

Building improvements	20 years
Furniture and equipment	7 years
Computer equipment	7 years

The costs of normal maintenance and repairs that do not add value to an asset or materially extend the life of an asset are not capitalized.

Right-of-use assets have been recorded for information technology subscription contracts in accordance with GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*. The right-of-use asset is initially measured at the amount of the related subscription liability, adjusted for payments made at or before the commencement of the subscription term, and increased by certain initial direct costs. Subsequently, the right-of-use asset is amortized on a straight-line basis over the term of the subscription contract.

Right-of-use assets for subscription-based information technology arrangements are capitalized when associated with contract in which the value exceeds \$100,000. Right-of-use assets are amortized over the length of the associated contract.

Budgetary Practices:

The Legislative Budgetary Control Council is required to submit to the members of the Council an estimate of the financial requirements for the ensuing fiscal year. The General Fund appropriation is enacted into law by the legislature and sent to the Governor for his signature. The Legislative Budgetary Control Council is authorized to transfer budget amounts between accounts in the General Fund. Revisions that alter total appropriations must be approved by the legislature. The level of budgetary responsibility is by total appropriation. All annual appropriations lapse at fiscal year-end, and require that any amounts not expended or encumbered at the close of the fiscal year be returned to the State General Fund unless otherwise reappropriated by subsequent Legislative action. Current appropriation legislation authorizes such reappropriation of prior year funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Budgetary Practices:

The budget of the General Fund is prepared on the budgetary (legal) basis of accounting. In compliance with budgetary authorization, the Legislative Budgetary Control Council includes the prior year's fund balance represented by appropriate liquid assets remaining in the fund as a budgeted revenue in the succeeding year. The result of operations on a GAAP basis does not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Encumbrance accounting is used during the year to reserve portions of the annual appropriation for unfilled purchase orders. Year-end encumbrances are not charged against the current year appropriation and are carried forward into the next budget year.

Compensated Absences:

Accumulated unpaid annual, sick, and compensatory leave is reported in the Statement of Net Position and Statement of Activities within the accompanying financial statements. The Legislative Budgetary Control Council, State of Louisiana's employees accrue unlimited amounts of annual and sick leave at varying rates as established by the Legislative Budgetary Control Council's personnel manual. Upon resignation or retirement, unused annual leave of up to 300 hours is paid to employees at the employees' current rate of pay. Upon retirement, annual leave in excess of 300 hours and unused sick leave are credited as earned service in computing retirement benefits.

Furthermore, employees earn unlimited compensatory leave for hours worked in excess of 40 hours per week. The compensatory leave may be used similarly to annual or sick leave, and any unused compensatory leave of up to 300 hours is paid to the employee upon resignation or retirement.

Postemployment Benefits:

The Legislative Budgetary Control Council provides certain healthcare and life insurance benefits for retired employees. Substantially all of the Council's employees may become eligible for those benefits if they reach normal retirement age while working for the Council. These benefits for retirees, and similar benefits for active employees, are provided through the State's Office of Group Benefits Plan and the LSU System Health Plan. Monthly premiums are paid jointly by the employee and the Council. The Council recognizes the cost of providing these benefits as expenditures in the year paid in the General Fund. For the year ended June 30, 2025, those costs totaled \$2,722, which covered 1 retired employee, funded through the legislative appropriation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Fund Balance:

Fund balance is classified in the following components:

- (a) *Nonspendable* includes fund balance amounts that cannot be spent either because it is in nonspendable form (such as inventory) or because of legal or contractual constraints.
- (b) *Restricted* includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers (such as grantors, bondholders, and higher levels of government) or amounts constrained due to constitutional provisions or enabling legislation.
- (c) *Committed* includes fund balance amounts that are constrained for specific purposes that are internally imposed by the Council itself, using its highest level of decision-making authority. To be reported as *committed*, amounts cannot be used for any other purpose unless the Council takes the same highest-level action to remove or change the constraint.
- (d) *Assigned* includes fund balance amounts that the Council intends to use for a specific purpose that are neither considered restricted nor committed. Intent can be expressed by the Council or by an official or body to which the Council delegates the authority.
- (e) *Unassigned* fund balance amounts include the residual amounts of fund balance which do not fall into one of the other components. Positive amounts are reported only in the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Council considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Council considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Council has provided otherwise in its commitment or assignment actions. The Council does not have a formal minimum fund balance policy.

Noncurrent Liabilities:

Noncurrent liabilities include estimated amounts for accrued compensated absences, other postemployment benefits payable, and pension liabilities that will not be paid within the next fiscal year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Noncurrent Liabilities: (Continued)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and Teachers' Retirement System of Louisiana (TRSL) and additions to/deductions from LASERS's and TRSL's fiduciary net position have been determined on the same basis as they are reported by LASERS and TRSL. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Net Position:

Net position comprises the various net earnings from revenues and expenses. Net position is classified in the following components:

- (a) *Net investment in capital assets* consists of the Council's total investment in capital assets, net of accumulated depreciation.
- (b) *Restricted* consists of resources restricted by external sources such as creditors, grantors, contributors, or by law.
- (c) *Unrestricted* consists of resources derived from state appropriations, interest earnings, and other miscellaneous sources. These resources are used for transactions relating to general operations of the Council and may be used at its discretion to meet current expenses and for any purpose.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

LEGISLATIVE BUDGETARY CONTROL COUNCIL
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Adoption of New Accounting Principles:

In June 2022, the Governmental Accounting Standards Board (GASB) issued Statement No. 101, *Compensated Absences*, effective for fiscal years beginning after December 31, 2023, which the Legislative Budgetary Control Council implemented in the fiscal year ended June 30, 2025. This statement provides guidance to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. It establishes a consistent approach for all types of leave, eliminating potential comparability issues between governments with different leave policies. This Statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if the leave is (1) attributable to services already rendered, (2) accumulates, and (3) is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The change in accounting principle had a material impact on the entity's financial statements, as this updated model required the recognition of additional liability for annual and sick leave.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*, effective for fiscal years beginning after June 15, 2024, which the Legislative Budgetary Control Council implemented in the fiscal year ended June 30, 2025. The objective of this Statement is to provide users of governmental financial statements with information about risks related to a government's vulnerabilities due to certain concentrations or constraints that is essential to their analyses for making decisions or assessing accountability. The implementation of this standard did not require any changes to the Legislative Budgetary Control Council's reporting requirements.

2. CASH IN BANK:

At June 30, 2025, the carrying amount of the Legislative Budgetary Control Council's cash accounts was \$64,263,000, and the bank balance was \$64,326,344. These balances are entirely secured from risk by federal depository insurance or by pledged securities held by the Legislative Budgetary Control Council's custodial bank in the name of the Legislative Budgetary Control Council.

5. PENSION PLAN:

Plan Description:

Substantially all employees of the Legislative Budgetary Control Council are members of two statewide, public employee retirement systems, Louisiana State Employees' Retirement System (LASERS) and Teachers' Retirement System of Louisiana (TRSL). Both plans are administered by separate boards of trustees and are cost-sharing, multiple-employer defined benefit pension plans. The State of Louisiana guarantees benefits granted by the retirement systems by provisions of the Louisiana Constitution of 1974. Article 10, Section 29 of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions to the state legislature. The systems issue annual, publicly available financial reports that include financial statements and required supplementary information for the systems. The reports for TRSL and LASERS may be obtained at www.trsl.org and www.lasersonline.org, respectively.

Benefits Provided:

Retirement Benefits - LASERS:

LASERS administers a plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in R.S. 11:411-417. The age and years of creditable service required in order for a member to retire with full benefits are established by statute and vary depending on the member's hire date, employer, and job classification.

5. PENSION PLAN: (Continued)

Benefits Provided: (Continued)

Retirement Benefits - LASERS: (Continued)

The rank-and-file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of creditable service, and at age 60 upon completing 10 years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015, may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with 12 years of creditable service at age 55, 25 years of creditable service at any age, or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Retirement Benefits - LASERS: (Continued)

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

Retirement Benefits - TRSL:

TRSL administers a plan to provide retirement, disability, and survivor benefits to employees who meet the legal definition of a "teacher" as provided for in R.S. 11:701.

Members of the Regular Plan whose first employment makes them eligible for membership in a Louisiana state retirement system on or after July 1, 2015, may retire with a 2.5% benefit factor after attaining age 62 with at least five years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members of the Regular Plan whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, may retire with a 2.5% benefit factor after attaining age 60 with at least five years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. All other members, if initially hired on or after July 1, 1999, are eligible for a 2.5% benefit factor at the earliest of age 60 with five years of service, age 55 with 25 years of service, or at any age with 30 years of service. Members may retire with an actuarially reduced benefit with 20 years of service at any age. If hired before July 1, 1999, members are eligible for a 2.0% benefit factor at the earliest of age 60 with five years of service, or at any age with 20 years of service and are eligible for a 2.5% benefit factor at the earliest of age 65 with 20 years of service, age 55 with 25 years of service, or at any age with 30 years of service.

Benefits Provided: (Continued)

Retirement Benefits - TRSL: (Continued)

Retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of creditable service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

A retiring TRSL member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member may elect to receive a reduced monthly benefit payable in the form of a Joint and Survivor Option, or a monthly benefit (maximum or reduced Joint and Survivor Option) with a lump sum that can't exceed 36 months of the members' maximum monthly benefit option.

Effective July 1, 2009, members may make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

Deferred Benefits - LASERS:

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked.

For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits.

Deferred Benefits - LASERS: (Continued)

For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

Deferred Benefits - TRSL:

In lieu of terminating employment and accepting a service retirement, an eligible TRSL member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed three years. A member has a 60-day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three-year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Disability Benefits - LASERS:

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching retirement age, the disability retiree may receive a regular retirement benefit by applying to the Board of Trustees.

Disability Benefits - TRSL:

Active members of TRSL whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit, are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor's Benefits - LASERS:

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011, who was in state service at the time of death, must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of 20 years of service credit, regardless of when earned, in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is 10 years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, two years being earned immediately prior to death, and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

Survivor's Benefits - TRSL:

A surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, and the deceased member had at least 10 years of creditable service, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

Benefits Provided: (Continued)

Permanent Benefit Increases/Cost-of-Living Adjustments:

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS and TRSL allow for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions:

Employee contribution rates are established by La. R.S. 11:62. The employer contribution rates are established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the Systems' actuaries. Each plan pays a separate actuarially-determined employer contribution rate. However, all assets of each plan are used for the payment of benefits for all classes of members within each system, regardless of their plan membership.

The employee contribution rate for LASERS and TRSL was 8% of covered payroll, except for LASERS members hired before July 1, 2006, who contribute 7.5% of covered payroll, and LASERS Hazardous Duty members, who contribute 9.5% of covered payroll.

For the year ended June 30, 2025, the employer contribution rate for LASERS and TRSL was 34.74% and 21.51%, respectively. For the year ended June 30, 2025, the employer contribution rate for LASERS Hazardous Duty was 40.41%. Employer contributions to LASERS and TRSL were \$515,949 and \$40,635, respectively, for the year ended June 30, 2025.

Legislative Acts Income:

Legislative Acts contributions may include appropriations by the Louisiana State Legislature to cover unfunded accrued pension liabilities. During the year ended June 30, 2025, the Legislative Budgetary Control Council recognized other income totaling \$12,648 for its proportionate share of Legislative Acts funds contributed to LASERS by the State of Louisiana.

Support of Non-employer Contributing Entities:

Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The Legislative Budgetary Control Council recognizes revenue in an amount equal to its proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended June 30, 2025, the Legislative Budgetary Control Council recognized revenues as a result of support received from non-employer contributing entities \$1,684 for its participation TRSL.

Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At June 30, 2025, the Legislative Budgetary Control Council reported a liability for LASERS and TRSL of \$2,283,400 and \$279,990, respectively, for its proportionate share of the net pension liabilities. The net pension liabilities were measured as of June 30, 2024, and the total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations as of that date. The Legislative Budgetary Control Council's proportion of the net pension liability for each retirement system was based on a projection of the Legislative Budgetary Control Council's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2024, the most recent measurement date, the Legislative Budgetary Control Council's proportion for LASERS and TRSL was 0.04199% and 0.00324%, respectively. This reflects an increase for LASERS of 0.00639% and a decrease for TRSL of 0.00003%, from the Council's proportions measured as of June 30, 2023.

For the year ended June 30, 2025, the Legislative Budgetary Control Council recognized pension expense, for which there were no forfeitures, as follows:

	Pension Expense
LASERS	\$ 150,103
TRSL	79,745
Total	\$ 229,848

At June 30, 2025, the Legislative Budgetary Control Council reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: (Continued)

During the year ended June 30, 2025, employer contributions totaling \$515,949 and \$40,635 were made subsequent to the measurement date for LASERS and TRSL, respectively. These contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension expense will be recognized in pension expense as follows:

<u>Year ending June 30:</u>	<u>LASERS</u>	<u>TRSL</u>	<u>Total</u>

Termination, disability, and retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2019-2023) experience study of the System's members.	Termination, disability, and retirement assumptions were projected based on a 5-year (2018-2022) experience study of the System's members.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (2.40%) and an adjustment for the effect of rebalancing / diversification. The resulting expected long-term nominal rates of return for LASERS and TRSL are 8.15% and 8.68%, respectively. The target allocation and best estimates of geometric (LASERS) and arithmetic (TRSL) real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2024, are summarized in the following table:

Discount Rates:

The discount rate used to measure the total pension liability for LASERS and TRSL was 7.25%. The projection of cash flows used to determine the discount rates assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the pension plans' actuaries. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following presents the Legislative Budgetary Control Council's proportionate share of the net pension liability using the current discount rate as well as what the Council's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

Pension Plan Fiduciary Net Position:

Detailed information about the pension plans' fiduciary net position is available in the separately issued LASERS and TRSL 2024 Annual Comprehensive Financial Reports at www.lasersonline.org and www.trsl.org, respectively.

Payables to the Pension Plan:

At June 30, 2025, payables to LASERS and TRSL were \$15,500 and \$905, respectively, for June 2025 employee and employer legally required contributions.

6. OTHER POSTEMPLOYMENT BENEFITS:

Substantially all Legislative Budgetary Control Council employees become eligible for postemployment healthcare and life insurance benefits if they reach normal retirement age while working for the Legislative Budgetary Control Council. The Legislative Budgetary Control Council offers its employees the opportunity to participate in one of two medical coverage plans. One plan is from the state's Office of Group Benefits (OGB) which also offers a life insurance plan, and the other plan is with the Louisiana State University (LSU) System Health Plan. Information about each of these two plans is presented on the following pages.

Plan Descriptions:

State OGB Plan:

The Legislative Budgetary Control Council employees may participate in the State of Louisiana's Other Postemployment Benefit Plan (OPEB Plan), a cost-sharing, multiple-employer defined benefit plan, but classified as an agent multiple-employer defined benefit OPEB Plan for financial reporting purposes since the plan is not administered as a formal trust. The Office of Group Benefits administers the plan.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2025.

The Office of Group Benefits does not issue a publicly available financial report of the OPEB Plan; however, it is included in the State of Louisiana's Annual Comprehensive Financial Report (ACFR). You may obtain a copy of the ACFR on the Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap.

Plan Descriptions: (Continued)

LSU System Health Plan:

The LSU System Health Plan originally began as a pilot program within the State Office of Group Benefits (OGB), the office that provides health benefits to state employees pursuant to the provisions of R.S. 42:851. The state agency participation is not material and, as such, the plan is identified as a single-employer defined benefit healthcare plan that is not administered as a trust or equivalent arrangement. There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75.

The LSU System Health Plan selects claim and pharmaceutical administrators to administer its program. Both claim and pharmacy administrators are selected through a formal Request for Proposals process followed by negotiations between the System and qualified vendors.

The Health Plan does not issue a publicly available financial report, but it is included in the LSU System's audited Financial Report. The Financial Report may be obtained from the LSU System's website at <http://www.lsu.edu/>.

Benefits Provided:

State OGB Plan:

The OPEB Plan provides medical, prescription drug, and life insurance benefits to eligible active employees, retirees, disabled retirees, and their beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employees' Retirement System, Teachers' Retirement System of Louisiana, Louisiana School Employees' Retirement System, or Louisiana State Police Retirement System) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3.303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits.

LSU System Health Plan:

The Health Plan offers eligible employees, retirees, and their beneficiaries the opportunity to participate in comprehensive health and preventive care coverage that gives members a unique, consumer-driven health-care approach to pay routine health expenses and provides coverage for major healthcare expenses.

6. OTHER POSTEMPLOYMENT BENEFITS: (Continued)

Contributions:

State OGB Plan:

The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802. The plan is funded on a “pay-as-you-go basis” under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving benefits. The retirees contribute to the cost of their postemployment benefits based on a service schedule.

Employer contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. Employer contributions to the OPEB plan were \$-0- during the year ended June 30, 2025. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage also have access to three fully insured Medicare Advantage Plans and an Individual Medicare Market Exchange Plan that provides monthly health reimbursement arrangement credits.

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

<u>Years of Participation</u>	<u>Employer Contribution Percentage</u>	<u>Employee Contribution Percentage</u>
Under 10 years	19%	81%
10 - 14 years	38%	62%
15 - 19 years	56%	44%
20+ years	75%	25%

State OGB Plan: (Continued)

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. The life insurance benefits offered by the State OGB Plan are also available to retirees who elect to participate in the LSU System Health Plan. Basic and supplemental life insurance is available for the individual retirees and spouses of retirees subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. The total monthly premium for retirees varies according to age group.

While actuarially determined, the plan rates must be approved by OGB under R.S. 42:851(B). Plan rates are in effect for one year, and members have the opportunity to switch providers during the open enrollment period, which usually occurs during October.

LSU System Health Plan:

Employer participation in contributions to the LSU System Health Plan for retirees follows the same schedule that is used for retirees in the State OGB Plan, which is described previously. Prior participation in the State OGB Plan counts toward service time when determining the employer contribution rate. Employer contributions to the LSU System Health Plan were \$2,722 during the year ended June 30, 2025.

The plan is financed on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits. This expense includes all expected claims and related expenses and is offset by retiree contributions.

The LSU System Health Plan does not use a trust fund to administer the financing of the plan and the payment of benefits. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the cost of retiree healthcare based on a service schedule.

While actuarially determined, the plan rates must be approved by the LSU First Benefits Oversight Committee. Plan rates are in effect for one year and members have the opportunity to switch providers during the open enrollment period, which usually occurs during October.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

At June 30, 2025, the Legislative Budgetary Control Council reported a liability of \$320,471 and \$377,828 for the State OGB Plan and the LSU System Health Plan, respectively, for its proportionate share of the collective total OPEB liability. The collective total OPEB liability for the State OGB Plan was measured as of July 1, 2024, and was determined by an actuarial valuation as of that date. The collective total OPEB liability for the LSU System Health Plan was determined by an actuarial valuation as of January 1, 2025, which was rolled forward to a measurement date of June 30, 2025.

The Legislative Budgetary Control Council’s proportionate share percentage is based on the employer’s individual OPEB actuarial accrued liability (AAL) in relation to the total OPEB AAL liability for all participating entities included in the State of Louisiana reporting entity. For the State OGB Plan, the Council’s proportion was 0.00410% as of the measurement date of July 1, 2024, an increase of 0.00032% from the measurement date of July 1, 2023. For the LSU System Health Plan, the Council’s proportion was 0.05345% as of the measurement date of June 30, 2025, an increase of 0.00408% from the measurement date of June 30, 2024.

For the year ended June 30, 2025, the Legislative Budgetary Control Council recognized net OPEB expense of \$107,995, or \$66,652 and \$41,343 for the State OGB Plan and LSU System Health Plan, respectively.

At June 30, 2025, the Legislative Budgetary Control Council reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

7. LITIGATION, CLAIMS, AND SIMILAR CONTINGENCIES:

Losses arising from litigation, claims, and similar contingencies are considered state liabilities and are paid by special appropriations made by the Louisiana Legislature. Any applicable litigation, claims and similar contingencies are not recognized in the accompanying financial statements. At June 30, 2025, the Council was not involved in any lawsuits or threatened litigations.

8. RISK MANAGEMENT:

The Legislative Budgetary Control Council limits its exposure to risk of loss through the Office of Risk Management, a statewide insurance program. Through the payment of premiums to the program, the Legislative Budgetary Control Council transfers the risk of loss from theft, torts, damage to and destruction of assets, workers' compensation, errors and omissions, and natural disasters.

9. LEASES:

GASB Statement No. 87, *Leases*, improves the usefulness of governments' financial statements by requiring the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases. Under this statement, a lessee government will recognize a lease liability and an intangible right-to-use lease asset and a lessor government will recognize a lease receivable and a deferred inflow of resources at the beginning of the lease term.

The Legislative Budgetary Control Council has adopted the guidelines of the Louisiana Office of Statewide Reporting and Accounting Policy for the GASB Statement No. 87 reporting of leases. Leases with a total contract value (the gross (undiscounted) aggregate value of fixed and fixed-in-substance cash flows remaining over the term of the contract, including reasonably certain renewal periods) of \$100,000 are evaluated for lease reporting under GASB Statement No. 87. Leases with a total contract value under \$100,000 are not evaluated for lease reporting under GASB Statement No. 87 and any lease that is below the \$100,000 threshold is recorded in the same manner as a short-term lease with rent payments reported as expense or revenue in the statement of activities as those payments are due based on the terms of the lease.

During the year ended June 30, 2021, the Legislative Budgetary Control Council entered into a lease agreement with Canon Financial Services, Inc. for the lease of a copier. The term of the lease agreement was for 60 months in the amount of \$89.24 per month. During the year ended June 30, 2025, the Legislative Budgetary Control Council entered into a lease agreement with WJS Enterprises, Inc. The term of the lease agreement was for 60 months in the amount of \$90.03 per month. The leases are recorded in the same manner as a short-term lease, as the total contract values do not exceed the Council's threshold for leases to be reported under GASB Statement No. 87.

9. LEASES: (Continued)

Future minimum lease payments under these non-cancelable operating leases as of June 30, 2025, are as follows:

Year Ending June 30:	Lease Payments	
2026	\$	1,616
2027		1,080
2028		1,080
2029		1,080
Total	\$	4,856

Expenditures relating to this lease were \$2,151 for the year ended June 30, 2025.

10. CHANGES IN LONG-TERM LIABILITIES:

The following is a summary of the changes in the Legislative Budgetary Control Council's long-term liabilities for the year ended June 30, 2025:

	(Restated)		Balance June 30, 2025	Due Within One Year
	Balance June 30, 2024	Net Change		
Compensated absences	\$ 933,442	\$ 701,288	\$ 1,634,730	\$ 117,951

Information about the changes in the net pension liability and the OPEB liability is contained in notes 5 and 6, respectively.

11. FUND BALANCE:

As of June 30, 2025, the Legislative Budgetary Control Council has an unassigned balance of \$58,564,801. The fund balance also includes amounts classified as restricted and assigned for the following purposes:

	General Fund
Restricted:	
Future capital outlay and renovations	\$ 140,000

Due to Senate	68,606	68,606
Total due to other legislative agencies	<u>\$ 137,212</u>	<u>\$ 137,212</u>

13. OTHER COSTS:

The State of Louisiana, through other appropriations, provides office space, utilities, and janitorial services for the operations in the State Capitol, all of which are not included in the accompanying financial statements.

14. DEFERRED COMPENSATION PLAN:

Certain employees of the Legislative Budgetary Control Council participate in the Louisiana Public Employees Deferred Compensation Plan adopted under the provisions of the Internal Revenue Code Section 457. Complete disclosures relating to the Plan are included in the separately issued audit report for the Plan, available from the Louisiana Legislative Auditor, Post Office Box 94397, Baton Rouge, Louisiana 70804-9397. The Council did not make any contributions to the Plan during June 30, 2025.

15. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENT:

The Legislative Budgetary Control Council entered into a subscription-based information technology arrangement (SBITA) on January 17, 2025, and recognized an intangible right-of use asset as required by GASB 96, *Subscription-Based Information Technology Arrangements*. The arrangement consists of a term of four years, which was paid in full at the commencement of the arrangement. There was no corresponding liability recorded at the commencement of the arrangement as payment was made in full for the entire term of the arrangement. The software is being amortized over the term of the agreement as a right-of-use asset. The value of the SBITA asset as of the end of the current fiscal year was \$240,000, less accumulated amortization of \$25,000. During the fiscal year ended June 30, 2025, amortization expense was \$25,000.

16. CHANGE IN ACCOUNTING PRINCIPLE:

For the fiscal year ended June 30, 2025, the Legislative Budgetary Control Council has implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. The provisions of this Statement are effective for fiscal years beginning after December 15, 2023, and are required to be applied retroactively by restating beginning balances.

This new standard supersedes prior guidance and establishes a unified model for the recognition and measurement of compensated absences. Previously, the entity only reported a compensated absence liability for the cash payout that would be owed to an employee upon termination or retirement. As a result of this change, the Legislative Budgetary Control Council is now required to recognize a more comprehensive liability for compensated absences, which includes an estimation for earned annual, sick, and compensatory leave that is more likely than not to be settled at a future date as paid in cash or paid time off, which was not previously required to be accrued. The change results in a restatement of the government-wide Statement of Net Position. The effect of the restatement on June 30, 2024, beginning balance is as follows:

	Net Position
Balance at June 30, 2024, as previously reported	
Adjustment for implementation of GASBS 101:	
Recognition of compensated absences liability	(745,241)
Balance at June 30, 2024, as restated	\$ 80,531,444

Explanation of differences:

- (1) Budgets include reappropriated fund balances carried over from prior years to cover expenditures of the current year. The results of operations on a GAAP basis do not recognize these amounts as revenue since they represent prior period's excess of revenues over expenditures.
- (2) Personnel services and related benefits are budgeted only to the extent expected to be paid, rather than on the modified accrual basis.
- (3) The amount reported as "fund balance" on the budgetary basis of accounting derives from the basis of accounting used in preparing the budget. (See Note 1 for a description of the Council's budgetary accounting method.) This amount differs from the fund balance reported in the Statement of Revenues, Expenditures, and Changes in Fund Balances because of the cumulative effect of transactions such as those described above.

1. STATE OGB PLAN:

There are no assets accumulated in a trust that meets the requirements in paragraph 4 of GASB Statement No. 75 to pay benefits.

Changes in Assumptions:

- The valuation report as of July 1, 2017 increased the discount rate from 2.71% to 3.13%.
- The valuation report as of July 1, 2018 made the following changes:
 - The discount rate decreased from 3.13% to 2.98%.
 - Baseline per capita costs were adjusted to reflect 2018 claims and enrollment, and retiree contributions were updated based on 2019 premiums. The impact of the high-cost excise tax was revisited, reflecting updated plan premiums.
 - The percentage of future retirees assumed to elect medical coverage was adjusted based on recent plan experience.
 - Demographic assumptions were revised for the Teachers' Retirement System of Louisiana, Louisiana School Employees Retirement System, and Louisiana State Police Retirement System to reflect recent experience studies.
 - Mortality assumptions for members in LASERS were updated from using projection scale MP-2017 to using projection scale MP-2018.
- The valuation report as of July 1, 2019 made the following changes:
 - The discount rate decreased from 2.98% to 2.79%.
 - Baseline per capita costs were adjusted to reflect 2019 claims and enrollment, and retiree contributions were updated based on 2020 premiums.
 - Life insurance contributions were updated to reflect 2020 premium schedules.
 - The impact of the High-Cost Excise Tax was removed. The High-Cost Excise Tax was repealed in December 2019.

Changes in Assumptions: (Continued)

- Demographic assumptions were revised for the Louisiana State Employees' Retirement System to reflect the recent experience study.
- The valuation report as of July 1, 2020 made the following changes:
 - The discount rate decreased from 2.79% to 2.66%.
 - Baseline per capita costs were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, this experience was not believed to be reflective of what can be expected in future years.
 - The salary scale assumptions were revised for the Louisiana State Employees' Retirement System and the Teachers' Retirement System of Louisiana.
 - Medical participation rates, life participation rates, the age difference between future retirees and their spouses, Medicare eligibility rates, and medical plan election percentages have all been updated based on a review of OPEB experience from July 1, 2017 through June 30, 2020.
- The valuation report as of July 1, 2021 made the following changes:
 - The discount rate decreased from 2.66% to 2.18%.
 - Baseline per capita costs were updated to reflect 2021 claims and enrollment.
 - Medical plan election percentages were updated based on the coverage elections of recent retirees.
 - The healthcare cost trend rate assumption was revised based on updated National Health Care Trend Survey information.
- The valuation report as of July 1, 2022 made the following changes:
 - The discount rate increased from 2.18% to 4.09%

Changes in Assumptions: (Continued)

- Baseline per capita costs were updated to reflect 2022 claims and enrollment.
- Medical plan election percentages were updated based on the coverage elections of recent retirees.
- The withdrawal assumption for LASERS Wildlife participants and the mortality rate assumptions for LASERS Public Safety participants have been updated.
- The valuation report as of July 1, 2023, made the following changes:
 - The discount rate increased from 4.09% to 4.13%.
 - Life insurance premium rates were updated.
 - Vantage Medical Home HMO and Vantage MA HMO plans will no longer be offered after December 31, 2023. This change was communicated to all retirees prior to July 1, 2023. For valuation purposes, we assumed that Vantage Medical Home HMO participants will transfer to Magnolia Local Plus while Vantage MA HMO participants will transfer to the BCBS MA HMO plan.
 - Baseline per capita costs (PCCs) and medical plan election percentages were updated to reflect 2023 claims and enrollment. Plan claims and premiums increased less than had been expected.
 - The mortality, retirement, termination, disability, and salary increase rates for the TRSL, LSERS, and LSPRS groups were updated to be consistent with the pension valuation assumptions. Additionally, all TRSL assumptions that were based on the Regular plan assumptions only have been updated to vary by sub-plan as applicable (Regular, Higher Ed, and Lunch).
 - The baseline trend was updated to more accurately reflect the current medical cost environment. Pre Medicare trend has been revised to 7.0% for the first two years trending down 25 basis points per year to an ultimate rate of 4.5%. Medicare trend has been revised to 6.5% for the first two years trending down 25 basis points per year to an ultimate rate of 4.5%.

- The Medicare trend was further adjusted to reflect the impact of certain provisions of the Inflation Reduction Act (“IRA”).
- The valuation report as of July 1, 2024, made the following changes:
 - The discount rate increased from 4.13% to 3.93%.
 - Baseline per capita costs (PCCs) were updated to reflect 2024 claims and enrollment.
 - Medical Plan election percentages were updated based on the coverage elections of recent retirees.
 - The mortality, retirement, termination, disability, and salary increase rates for the LASERS group were updated.
 - The pre-Medicare baseline trend was updated to more accurately reflect the healthcare trend survey results, industry-wide expectations, and the current high-inflationary environment. Changes to the Medicare trend were made to reflect revised expectations regarding the impact of the Inflation Reduction Act (IRA) on Medicare prescription drug costs.

2. LSU SYSTEM HEALTH PLAN: (Continued)

Changes in Assumptions: (Continued)

- The mortality projection scale was updated from MP-2019 to MP-2021 to reflect the Society of Actuaries' recent mortality study.
- The valuation report as of June 30, 2023, made the following changes:
 - The discount rate increased from 3.54% to 3.65%.
- The valuation report as of June 30, 2024 made the following changes:
 - The discount rate increased from 3.65% to 3.93%.
 - The trend rates were updated to an initial rate of 7.75% (6.75% for Post 65) grading down to an ultimate rate of 4.00%. The initial rate and the grade down period is extended to account for recent inflationary pressures and price increase over the next couple of years.
 - The retirement, termination rates, and salary rates were updated to the 2023 Teachers' Retirement System of Louisiana Actuarial Valuation and the 2023 Louisiana State Employees' Retirement System Actuarial Valuation.
- The valuation report as of June 30, 2025 made the following changes:
 - The discount rate increased from 3.93% to 5.20%.

1. CHANGES OF BENEFIT TERMS:

LASERS:

- A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the 2014 Louisiana Regular Legislative Session.
- A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.
- Act 37 of the 2021 Regular Session provided a monthly benefit increase to retirees that on June 30, 2021, have attained age 60, have 30 or more years of service, have been retired 15 or more years, receive a monthly benefit less than \$1,450, and have not participated in DROP or the Initial Benefit Option. The benefit increase is the lesser of \$300 per month or the amount needed to increase the monthly benefit to \$1,450.
- Act 656 of the 2022 Regular Session provided a one-time supplemental payment equal to the lesser of the retiree's or beneficiary's monthly benefit, or \$2,000. Eligibility was based on the current statutory COLA eligibility requirements.
- Act 397 of the 2023 Regular Session provided a supplemental appropriation of \$349,741,962 to LASERS, to be applied to the IUAL, which is a component of the Original Amortization Base.
- Act 184 of the 2023 Regular Session provides a new mechanism for funding future Cost of Living Adjustments (COLAs) via an account funding rate (AFC) paid directly by employers and changes the granting and eligibility criteria for COLAs funded by the new mechanism. The Act further provides that the Experience Account funding mechanism will end and the account will close in the fiscal year in which the OAB is paid off.
- The following provisions of Act 95 of the 2016 Regular Session will be implemented as certain trigger are met: 1) the net remaining liability of the OAB and EAAB shall be re-amortized after application of the hurdle payments in fiscal year 2024/2025 and in every fifth year thereafter, until funded ratio reaches 80%, and 2) changes the amortization period for most actuarial changes, gains, or losses from 30 years to 20 years once funded ratio reaches 70%.

1. CHANGES OF BENEFIT TERMS: (Continued)

TRSL:

- A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the 2014 Louisiana Regular Legislative Session.
- The 2015 valuation incorporates a change providing that members employed on or after July 1, 2015 may retire at age 62 with a 2.5% benefit factor with at least 5 years of service credit or at any age after 20 years of service credit (actuarially reduced).
- A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.
- Act 657 of the 2022 Regular Session granted a 2% permanent benefit increase (COLA), effective July 1, 2022, to eligible TRSL retirees, beneficiaries, and survivors calculated on the first \$68,396 of their annual benefit.
- Act 397 of the 2023 Regular Session provided a supplemental appropriation of \$50,663,234 to be applied to the IUAL, which is a component of the Original Amortization Base.
- Act 184 of the 2023 Regular Session provides a new mechanism for funding future Permanent Benefit Increases (PBIs) via an account funding rate (AFC) paid directly by employers and changes the granting and eligibility criteria for COLAs funded by the new mechanism. The Act further provides that the Experience Account funding mechanism will end and the account will close in the fiscal year in which the OAB is paid off.
- Act 95 of the 2016 Regular Session provides that the net remaining liability of the OAB and EAAB shall be re-amortized after the application of the hurdle payments in the fiscal year 2024/2025 and in every fifth fiscal year thereafter until the system is 80% funded.

2. CHANGES IN ASSUMPTIONS:

LASERS:

- Effective July 1, 2017, the LASERS Board reduced the inflation assumption from 3.0% to 2.75%. The inflation rate was reduced to 2.50% for the June 30, 2019 valuation. The inflation rate was reduced from 2.50% to 2.30%, effective July 1, 2020.
- Effective July 1, 2017, the projected contribution requirement includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.
- Effective July 1, 2017, the LASERS board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017 valuation, reduced to 7.65% for the June 30, 2018 valuation, reduced to 7.60% for the June 30, 2019 valuation, and reduced to 7.55% for the June 30, 2020 valuation. The discount rate used to determine the projected contribution requirements for fiscal year 2022 was reduced beyond the original plan to 7.40%. The discount rate used to determine the projected contribution requirements for fiscal year 2023 was reduced beyond the original plan to 7.25%
- Salary increases used to measure the total pension liability changed from a range of 3.00% to 14.50% in the 2016 valuation to a range of 2.80% to 14.30% in the June 30, 2017 valuation. Salary increases used to measure total pension liability changed to a range of 2.80% to 14.00% in the June 30, 2019 valuation. Salary increases used to measure the total pension liability changed to a range of 2.60% to 13.80% in the June 30, 2020 valuation.
- Retirement, termination, disability, inflation, salary increase, and expected service life assumptions and methods were updated with the June 30, 2019, valuation to reflect the results of the most recent experience study observed for the period of July 1, 2013 through June 30, 2018.
- Effective July 1, 2018, the LASERS Board reduced the expected remaining services lives from 3 years to 2 years.

2. CHANGES IN ASSUMPTIONS: (Continued)

LASERS: (Continued)

- Act 95 of the 2016 Regular Session requires re-amortization of the OAB with level dollar payments to 2029 when such re-amortization results in annual payments that are not more than the next annual payment otherwise required under prior law. For the June 30, 2021 valuation, this criterion was met after allocating legislative appropriations and investment experience gains to this schedule. The schedule was re-amortized with level dollar payments to be paid off 2029.
- Effective July 1, 2022, the LASERS Board reduced the discount rate from 7.40% to 7.25%. This change was anticipated in the prior valuation when determining the projected contribution requirements for fiscal year 2023 and is also used to determine the projected contribution requirements for fiscal year 2024.
- Inflation rate, mortality, termination, retirement, disability, and salary increase assumptions were updated with the June 30, 2024 valuation to reflect the results of the most recent experience study observed for the period July 1, 2018 – June 30, 2023.
- As of June 30, 2024, the Unfunded Actuarial Accrued Liability (UAL) funded ratio exceeds 70%; therefore, the change in liability due to assumption changes and the experience gain/loss are amortized over 20 years instead of 30 years, per Act 94 of 2016.

TRSL:

- Effective July 1, 2017, the projected contribution requirement includes direct funding of administrative expenses, rather than a reduction in the assumed rate of return, per Act 94 of 2016.
- Effective July 1, 2017, the TRSL board adopted a plan to gradually reduce the discount rate from 7.75% to 7.50% in .05% annual increments. Therefore, the discount rate was reduced from 7.75% to 7.70% for the June 30, 2017 valuation and reduced to 7.65% for the June 30, 2018 valuation. On November 1, 2018, the TRSL board accelerated the discount rate reduction plan by one year and a 7.55% was used to determine the projected contribution requirements for the June 30, 2019 valuation.

2. CHANGES IN ASSUMPTIONS: (Continued)

TRSL: (Continued)

- On January 9, 2020, the TRSL board accelerated the discount rate reduction plan and a 7.45% rate was used to determine the projected actuarially required contribution rates for the June 30, 2020 valuation. The TRSL board adopted a reduction in the discount rate to 7.40% for purposes of determining the projected contribution requirements for fiscal year 2022. The discount rate used to determine the projected contribution requirements for fiscal year 2023 was reduced beyond the original plan to 7.25%.
- Demographic, mortality, and salary assumptions were updated beginning with the June 30, 2018, valuation to reflect the results of the most recent experience study observed for the period of July 1, 2012, through June 30, 2017.
- Effective June 30, 2020, the inflation assumption was reduced from 2.50% to 2.30% and all salary assumptions were reduced by 0.20%.
- Two triggers set by Act 95 of the 2016 Regular Session were met on June 30, 2021. Since the funded ratio reached 70%, the amortization period for changes in assumptions, experience losses, and most experience gains reduced from 30 years to 20 years. In addition, the OAB was re-amortized with level-dollar payments to 2029 since this re-amortization resulted in annual payments which are less than the fiscal year 2022 payments that would have been required without the re-amortization.
- Effective June 30, 2022, the discount rate was reduced from 7.40% to 7.25%. This change was anticipated in the determination of the projected contribution requirements for fiscal year 2023.
- Inflation rate, mortality, termination, retirement, disability, and salary increase assumptions were updated with the June 30, 2023 valuation to reflect the results of the most recent experience study observed for the period July 1, 2017 – June 30, 2022.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

December 22, 2025

Honorable Cameron Henry, Co-Chair
Honorable Phillip DeVillier, Co-Chair
Legislative Budgetary Control Council
State of Louisiana
Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Legislative Budgetary Control Council, State of Louisiana, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Legislative Budgetary Control Council, State of Louisiana's basic financial statements, and have issued our report thereon dated December 22, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Legislative Budgetary Control Council, State of Louisiana's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Legislative Budgetary Control Council, State of Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of the Legislative Budgetary Control Council, State of Louisiana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Legislative Budgetary Control Council, State of Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
