INDEPENDENT AUDITORS' REPORT

The Honorable David Dart
East Feliciana Parish Clerk of Court
P. O. Box 599
Clinton, Louisiana 70722

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental-type activities of the East Feliciana Parish Clerk of Court, a component unit of the East Feliciana Parish Police Jury, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the East Feliciana Parish Clerk of Court's basic financial statements as listed in the table of contents. I have also audited each fiduciary fund type of the East Feliciana Parish Clerk of Court, as of and for the year ended June 30, 2019, as displayed in the Clerk of Court's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether

due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental-type activities as well as each fiduciary fund type of the East Feliciana Parish Clerk of Court, a component unit of the East Feliciana Parish Police Jury, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters - Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule and schedules of change in OPEB liability and related ratios, employer's share of net pension liability and employer contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Matters – Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Feliciana Parish Clerk of Court's basic financial statements. The combining statement of fiduciary net position, schedule of changes in fiduciary net position and schedule of compensation, benefits and other payments to agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements of to the basic financial statements themselves, and other

additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining statement of fiduciary net position, schedule of changes in fiduciary net position and schedule of compensation, benefits and other payments to agency head are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated December 16, 2019, on my consideration of the East Feliciana Parish Clerk of Court's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the East Feliciana Parish Clerk of Court's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2019**

The purpose of the Management’s discussion and analysis (MD&A) is to introduce the basic financial statements and provide an analytical overview of the Clerk of Court’s financial activities. Since this information is designed to focus on the current year’s activities, resulting changes and currently known facts, it should be read in conjunction with the financial statements beginning on page 9.

OVERVIEW OF THE FINANCIAL STATEMENT PRESENTATION

This annual report consists of three components – (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. There is also other supplementary information contained in this report provided for additional information. The government-wide financial statements provide information about the activities of the Clerk of Court as a whole and present a longer-term view of its finances. Fund financial statements depict how these activities were financed in the short-term as well as what remains for future spending.

Government-wide Financial Statements. The government-wide financial statements present financial information for all activities of the Clerk from an economic resource measurement focus using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. They include a statement of net position and statement of activities.

Statement of Net Position. This statement presents information on all of the Clerk’s assets, deferred outflows of resources, liabilities and inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Clerk of Court’s office is improving or not.

Statement of Activities. This statement presents information showing how the Clerk’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This statement is designed to show the Clerk’s financial reliance on general revenues.

The government-wide financial statements can be found on pages 14-15 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Clerk uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Clerk of Court has only one category of funds: governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements except that the

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019**

focus with fund statements is to provide a distinct view of the Clerk of Court's governmental funds only. These statements report short-term fiscal accountability emphasizing the use of spendable resources during the year and balances of spendable resources available at the end of the year.

Because the view of governmental funds is short-term and the view of the government-wide financial statements is long-term, it is useful to compare these two perspectives. The governmental funds provide a reconciliation to the government-wide statements to assist in understanding the differences between the two viewpoints. These statements can be found on pages 17-20 of this report.

Fiduciary Funds. The Clerk of Court is the trustee, or fiduciary, over assets which can only be used for the trust beneficiaries; these include advance deposits, registry of court and indigent transcript funds. The activity of these funds are reported separately in the statement of fiduciary net position on page 21 and schedule of changes in fiduciary net position found in supplementary information. These activities are excluded from government-wide and fund financial statements because the assets of fiduciary funds cannot be used to finance operations of the Clerk.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The index of the notes is found on page 23 with the actual notes beginning immediately afterwards.

FINANCIAL ANALYSIS OF THE CLERK OF COURT

The net assets increased by \$193,415 from (\$35,423) to \$157,992. The net position increased as a result of an increase in cash and the cumulative effects of the pension related and other post-retirement related benefits accounting standards.

Below is a comparison of the current and prior year's net position.

NOTES TO FINANCIAL STATEMENTS

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

INTRODUCTION

The East Feliciana Parish Clerk of Court (hereinafter referred to as the Clerk), as provided by Article V, Section 28 of the Louisiana Constitution of 1974, serves as the ex-officio notary public; the recorder of conveyances, mortgages and other acts; and has other duties and powers provided by law. The Clerk of Court is elected for a four-year term.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting practice of the East Feliciana Parish Clerk of Court conforms to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513 and to the guides set forth in the *Louisiana Governmental Audit Guide*, and to the industry audit guide *Audits of State and Local Governmental Units*.

The following is a summary of certain significant accounting policies:

Financial Reporting Entity: Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The financial reporting entity as defined in GASB Statement No. 14, consists of (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. For financial reporting purposes, the East Feliciana Parish Police Jury is considered the financial reporting entity for East Feliciana Parish. The Clerk, therefore, is considered a component unit of the East Feliciana Parish Police Jury. The accompanying financial statements, however, present only the transactions of the East Feliciana Parish Clerk of Court.

Government-wide Accounting: In accordance with Government Accounting Standards Board Statement No. 34, the Clerk has presented a statement of net position and statement of activities for the Clerk as a whole. These statements include the primary government and its component units, if applicable, with the exception of fiduciary funds. Those funds are reported separately. Government-wide accounting is designed to provide a more comprehensive view of the government's operations and financial position as a single economic entity.

Government-wide statements distinguish between governmental and business-type activities. Governmental activities are those financed through taxes, intergovernmental revenues and other non-exchange revenues and are usually reported in governmental and internal service funds. Business activities are financed in whole or in part through fees charged for goods or services to the general public and are usually reported in proprietary funds.

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Policies specific to the government-wide statements are as follows:

Eliminating Internal Activity

Interfund receivables and payable are eliminated in the statement of net position except for the net residual amounts due between governmental and business-type activities. These are presented as internal balances. The allocation of overhead expenses, from one function to another or within the same function, is eliminated in the statement of activities. Allocated expenses are reported by the function to which they were allocated.

Capitalizing Assets

Tangible and/or intangible assets used in operations with an initial useful life that extends beyond one year are capitalized. Infrastructure assets such as roads and bridges are also capitalized. Capital assets are recorded at their historical cost and are depreciated using the straight-line method of depreciation over their estimated useful lives. They are reported net of accumulated depreciation on the statement of net position.

Program Revenues

The Statement of Activities presents three categories of program revenues – (1) charges for services; (2) operating grants and contributions; and (3) capital grants and contributions. Charges for services are those revenues arising from charges to customers who purchase, use or directly benefit from goods and services provided by the Clerk. Grants and contributions, whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

Indirect Expenses

Expenses are reported according to function except for those that meet the definition of special or extraordinary items. Direct expenses are specifically associated with a service or program. Indirect expenses include general government or administration that cannot be specifically traced to a service or program. Governments are not required to allocate indirect expenses to other functions, and the Clerk has chosen not to do so.

Operating Revenues

Proprietary funds separately report operating and non-operating revenues.

Restricted Net Position

Restricted net position are those for which a constraint has been imposed either externally or by law. The Clerk recognizes the use of restricted resources for expenditures that comply with the specific restrictions. These resources are exhausted before unrestricted net position is used.

Fund Accounting: The Clerk uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

A fund is a separate entity with a self-balancing set of accounts. Funds of the Clerk are classified under two categories: governmental and fiduciary. Each category, in turn, is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

Governmental Funds: Governmental funds account for all or most of the Clerk's general activities, including the collection and disbursement of specific or legally reserved monies, the acquisition or construction of general fixed assets, and the servicing of general long-term obligations. Governmental funds of the Clerk include:

1. General – accounts for all activities not required to be reported in another fund.

Fiduciary Funds: These fund types are used to account for assets held in trust for third-party individuals, private organizations and/or other governmental units/funds. Fiduciary funds include:

1. Agency Funds – The Advance Deposit and Registry of Court agency funds account for assets held by the Clerk as an agent for others, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The Advance Deposit Fund, as provided by Louisiana Revised Statute 13:842, accounts for advance deposits on suits filed by litigants. The advances are refundable to the litigants after all costs have been paid.

The Registry of Court Fund, as provided by Louisiana Revised Statute 13:475, accounts for funds that have been ordered by the judicial system to be held until judgment has been rendered in court litigation. Withdrawal of these funds can be made only upon order of the Court.

Basis of Accounting/Measurement Focus: In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles. The type of financial statement presentation determines the accounting and financial reporting treatment applied to a fund.

The government-wide statements are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of governmental and business-type activities are included in the statement of net position. Revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred in the statement of activities. In these statements, capital assets are reported and depreciated in each fund, and long-term debt is reported.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

The fund statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements present increases and decreases in net current assets. Expenditures for capital assets are reported as current expenses, and such assets are not depreciated. Principle and interest paid on long-term debt is reported as current expenses.

Budgets and Budgetary Accounting: The Clerk adopts an annual budget for its general fund, prepared in accordance with the basis of accounting utilized by that fund. Appropriations lapse at year-end. There was one amendment made to the budget during the fiscal year ended June 30, 2018.

Cash and Cash Equivalents: Cash includes amounts in demand and interest bearing demand deposits. Cash equivalents include amounts in investments with original maturities of 90 days or less. Under state law, the Clerk may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Investments: Investments are limited by Louisiana Revised Statute 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as cash and cash equivalents. In accordance with GASB Statement No. 31, investments are recorded at fair value with the corresponding increase or decrease reported in investment earnings.

Inventory: Inventory is reported at cost. It includes only office supplies, the amount of which is considered immaterial. Therefore, the acquisition of such items is expensed when purchased, and the inventory on hand at year-end is not reported in the accompanying financial statements.

Receivables: Trade receivables are recorded at management's estimate of the amount that is expected to be collected. This is based in part on historical information. There is no allowance recorded in the accompanying financial statements as management expects 100% of its outstanding receivables to be collected. Revenues become susceptible to accrual when they become both measurable and available.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets: The Clerk's assets are recorded at historical cost. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows: equipment and furniture – 5-7 years.

Compensated Absences: The Clerk has the following policy relating to vacation and sick leave:

Vacation leave – Employees receive ten (10) days vacation leave each year on the anniversary of their employment. If an employee terminates at the end of the year, the employee will be paid for unused vacation leave earned.

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Sick leave – Employees receive ten (10) days sick leave each year. Sick leave is non-cumulative, but employees are paid for unused sick leave at the end of the year at their regular salary rate. Sick leave is not paid upon termination.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as current year expenditures in the General Fund when leave is actually earned.

Long-Term Obligations: In the government-wide financial statements, debt principal payments of government activities are reported as decreases in the balance of the liability on the statement of net position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid.

Deferred Outflows/Inflows of Resources: In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. At June 30, 2018, the Clerk of Court's deferred outflows and inflows of resources are attributable to its pension plan and postemployment benefit obligation.

Pension Plan: The Louisiana Clerks' of Court Retirement and Relief Fund prepared its employer schedules in accordance with GASB No. 68 – *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* which provides for the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed.

Net Position/Fund Balances: In the statement of net position, the difference between a government's assets and deferred outflows of resources and its liabilities and deferred inflows of resources is recorded as net position. The three components of net position are as follows:

Net Investment in Capital Assets

This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowings attributable to the acquisition, construction or improvement of capital assets.

Restricted Net Position

Net position that are reserved by external sources, such as banks or by law, are reported separately as restricted net position. When assets are required to be retained in perpetuity, these non-expendable net position are recorded separately from expendable net position. These are components of restricted net position.

Unrestricted Net Position

This category represents net position not appropriable for expenditures or legally segregated for a specific future use.

In the Balance Sheet of governmental funds, fund balances are segregated as follows:

**EAST FELICIANA PARISH CLERK OF COURT
CLINTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Non-spendable

This includes amounts in permanent funds and inventories that are permanently precluded from conversion to cash.

Restricted

Fund balances that are restricted include those resources constrained to a specific purpose by enabling legislation, external parties or constitutional provisions.

Committed

Fund balances may be committed for a specific purpose by the highest level of decision-making authority through a formal action such as the adoption of an ordinance. The removal of or change in this commitment can only be accomplished by the same level of authority through the same type of action taken to commit the fund balances initially.

Assigned

Resources earmarked for a specific purpose by a government's management are reported as assigned fund balances.

Unassigned

This category represents that portion of equity that are available for any purpose.

These deposits are stated at cost, which approximates market. Under state law, they must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding, or custodial bank that is mutually acceptable to both parties.

All deposits of the Clerk are covered by insurance (FDIC) or collateralized with securities that are held by and in the entity's name or registered in the entity's name. Even though the pledged securities are considered uncollateralized under the provision of GASB Statement 3, La R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Clerk of Court that the fiscal agent has failed to pay deposited funds upon demand.

The Clerk has investments in a local government investment pool that is administered by a non-profit corporation, LAMP, Inc. This corporation was organized under the laws of the State of Louisiana, and its purpose is to provide a safe environment for the placement of public funds in short-term, high-quality investments. Because its design allows participants immediate access to their funds, the funds held in LAMP are considered cash equivalents. NOTE 11 – PENSION PLAN

Revised Statute 11:1501 to provide regular, disability and survivor benefits for clerks of court, their deputies and other employees, and their beneficiaries.

Retirement Benefits. All regular employees who are under the age of 60 at the time of original employment are required to participate in the plan. Employees who retire at or after age 55 with at least 12 years of credited service are entitled to a retirement benefit, payable monthly for life, equal to 3 1/3 per cent of their average final compensation multiplied by the number of years of credited service, not to exceed 100% of the monthly average final compensation. These benefits are based on the retirement benefits accrued at the member's date of death with option factors used as if the member had continued in service to earliest normal retirement age. Benefit payments commence on the date a member would have first become eligible for normal retirement assuming continued service until that time. In lieu of a deferred survivor benefit, the surviving spouse may elect benefits payable immediately reduced $\frac{1}{4}$ of 1% for each month by which payments commence in advance of the member's earliest normal retirement age. If a member has no surviving spouse, the surviving minor children under 18 or disabled children shall be paid $\frac{1}{2}$ of the member's accrued retirement benefit in equal shares. Upon the death of any former member with 12 or more years of service, automatic Option 2 benefits are payable to the surviving spouse with payments to commence on the member's retirement eligibility date. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Deferred Retirement Option Plan (DROP). In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in DROP for up to 36 months and defer the receipt of benefits. During the year ended June 30, 2016, participants had to have been an active contributing member for one full year before becoming eligible for DROP. Upon commencement of participation in the plan, active membership in the Fund terminates and the participant's contributions cease; however, employer contributions continue. Compensation and creditable service remain as they existed on the effective date of commencement of participation in the plan. The monthly retirement benefit that would have been payable, had the member elected to cease employment and receive a service retirement allowance, are paid into the DROP account.

Upon termination of employment at the end of the specified period of participation, a participant may receive, at his option, a lump sum payment. If employment is not terminated at the end of the participation period, payments into the account cease and the member resumes active contributing membership in the Fund. Upon termination, the member receives a lump sum payment from DROP equal to the payments made to that

fund on his behalf, or a true annuity based on his account (subject to approval by the Board of Trustees). The monthly benefit payments that were being paid into the DROP fund are paid to the retiree and an additional benefit based on his additional service rendered since termination of DROP participation is calculated using the normal methods of benefit computation. The average compensation used to calculate the additional benefit is that used to calculate the original benefit unless his period of additional service is at least 36 months. In no event can the entire monthly benefit amount paid to the retiree exceed 100% of the average compensation used to compute the additional benefit. If a participant dies during the period of participation in the program, a lump sum payment equal to his account balance is paid to his named beneficiary or, if none, to his estate.

Cost of Living Adjustments. The Board of Trustees is authorized to provide a cost of living increase to members who have been retired for at least one full calendar year. The increase cannot exceed the lesser of 2.5% of the retiree's benefit or an increase of \$40 per month. The Louisiana statutes allow the Board to grant an additional cost of living increase to all retirees and beneficiaries over age 65 equal to 2% of the benefit paid on October 1, 1977, or the member's retirement date if later. In lieu of granting a cost of living increase as described herein, the statutes allow the Board to grant a cost of living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost of living amount which cannot exceed \$1. In order to grant any cost of living increase, the ratio of the actuarial value of assets to the pension benefit obligation must equal or exceed a statutory target ratio.

Contributions: Contribution requirements are actuarially determined each year. For the year ending June 30, 2018, the Clerk's rate was 19% of annual covered payroll while the employees contributed 8.25%. In addition, the Louisiana Legislature passed R.S. 11:1562(C) which allows the Clerk of Court pay the Clerk's operating funds all or any portion of the employee required contributions which would otherwise be deducted from the employee's salary. The Clerk elected to pay 100% of all retirement system contributions to the Louisiana Clerk of Court Retirement and Relief Fund. The Clerk of Clerk's contributions to the system for the years ending June 30, 2019 \$121,351 (normal employer's portion of \$86,413 and employee portion paid by the Clerk of \$34,938),

In accordance with state statute, the Fund receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities. Contributions from non-employer contributing entities were \$47,443.

Pension Liabilities, Pension Expense, Deferred Outflows and Inflows of Resources Related to Pensions. At June 30, 2019, the Clerk reported a liability of 719,404 for its proportionate share of the Fund's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Clerk's proportion of the net pension liability was based on a projection of the Clerk's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Clerk's proportion at that date was .43276%.

Pension expense of \$165,501 was recognized for the year ended June 30, 2019. Deferred outflows and inflows of resources related to pensions were reported from the following sources:

	Deferred Outflows	Deferred Inflows
Difference between expected and actual experience	19,092	7,107
Changes of assumptions	74,744	-
Change in proportion and differences between the employer's contributions and the employer's proportionate share of contributions	(25,573)	13,790
Net differences between projected and actual earnings on plan investments	13,732	-
Employer contributions subsequent to measurement date	121,351	-
Total	<u>203,346</u>	<u>20,897</u>

Deferred outflows of resources of \$121,351 related to pensions resulting from the Clerk's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Actuarial Methods and Assumptions

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

The actuarial assumptions used in the June 30, 2019 valuation (excluding mortality) were based on the assumptions used in the June 30, 2018 actuarial funding valuation, and were initially designed to match, to the extent possible, those used by the prior actuary for the fiscal 2010 valuation. A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2018 is as follows:

Valuation Date	6/30/2018
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Investment rate of return	6.75%, net of investment expense
Projected salary increases	5.00%
Inflation Rate	2.50%
Mortality rates	RP-2000 Employee Table (set back 4 years for males and 3 years for females) RP-2000 Disabled Lives Mortality Table (set back 5 years for males and 3 years for females) RP-2000 Healthy Annuitant Table (set forward 1 year for males) and projected to 2030 using scale AA for males and females.
Expected Remaining Service Lives	2018-5 years 2017-5 years 2016-5 years 2015-5 years 2014-5 years
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed to be substantively automatic.

The actuarial assumptions used are based on the assumptions used in the 2018 actuarial funding valuation which (with the exception of mortality) were based on results of an actuarial experience study for the period July 1, 2009 - June 30, 2014, unless otherwise specified.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

The mortality rate assumption used was verified by combining data from this plan with three other statewide plans which have similar workforce composition in order to produce a credible experience. The aggregated data was collected over the period July 1, 2009 through June 30, 2014. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected real rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term expected rate of return was 7.10% for the year ended June 30, 2018.

The best estimates of geometric real rates of return for each major asset class included in the Fund's target asset allocation as of June 30, 2018 is summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to Changes in Discount Rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate.

1% decrease	5.75%	1,099,809
Current discount rate	6.75%	719,404
1% increase	7.75%	404,082

Payables to the Pension Plan

The Clerk of Court's payable to the LACRF at June 30, 2019 was \$10,404 as the required contribution owed for the 2nd quarter of the 2019 calendar.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued LACRF 2017 annual financial report at www.laclerksofcourt.org

NOTE 12 – DEFERRED COMPENSATION PLAN

All of the employees of the Clerk are eligible to participate in the State of Louisiana deferred compensation plan. Employees may contribute up to 25% of their salary (not to exceed \$18,500 per year) to the plan on a pre-tax basis. The contributions are withheld from the employee's paycheck and the Clerk matches up to \$300 per month for each employee. The contributions are fully vested immediately and are remitted to a third-party administrator each payday where they are deposited to an account in the employee's name. The Clerk of Court does not assume any liability for the funds and does not have any control over the funds once they are remitted to the third-party administrator. During the year ended June 30, 2018, the Clerk's matching funds totaled \$16,511.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND OTHER MATTERS
AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

David Dart, Clerk of Court
East Feliciana Parish
P. O. Box 599
Clinton, Louisiana 70722

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental-type activities and each fiduciary fund of the East Feliciana Parish Clerk of Court, a component unit of the East Feliciana Parish Police Jury, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the East Feliciana Parish Clerk of Court's basic financial statements, and have issued my report thereon dated December 16, 2019.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the East Feliciana Parish Clerk of Court's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the East Feliciana Parish Clerk of Court's internal control. Accordingly, I do not express an opinion on the effectiveness of the East Feliciana Parish Clerk of Court's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

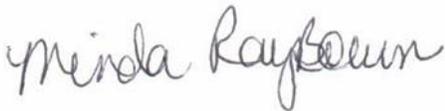

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the East Feliciana Parish Clerk of Court's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that is required to be reported under *Government Auditing Standards*

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, others within the agency, the Legislative Auditor and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

SCHEUDLE OF PRIOR YEAR FINDINGS AND RESPONSES

Finding 2018-001 Noncompliance with Local Government Budget Act

Criteria:

The Clerk must comply with certain provisions of the Local Government Budget Act set forth in state law, LSA R.S. 39:1301-1314. The Act contains various budget requirements for the General Fund and special revenue funds regarding public notification and disclosure, and requires budget to be amended when:

- 1) Total revenues, or other sources plus project revenue and other sources for the remainder of the year are failing to meet total budgeted expenditures and other sources by five percent or more.
- 2) Total actual expenditures and other uses plus projected expenditures and other uses for the remainder of the year are failing to meet total budgeted expenditures and other uses by five percent or more.
- 3) Actual beginning fund balance within a fund, fails to meet estimated beginning fund balance by five percent or more and fund balance is being used to fund current year expenditures.

Condition:

For the fiscal year ended June 30, 2018 in the general fund, actual expenditures and other uses of funds were over budget by 5.65% or \$43,954.

Effect:

If the budget is not monitored on a monthly basis and amended as required and if expenditures exceed available funds, an entity is in violation of the Local Government Budget Act.

Cause:

The external accountant had a family member with a serious illness. As a result, the budget was not amended before the end of the year.

Recommendation:

The Clerk needs to insure before year end that the budget is amended properly for all revenue and transfer items.

Management Response:

The Clerk concurs with the recommendation.

Status:

Resolved.

Collections

3. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

A listing of deposit sites where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete was obtained.

5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

- a) Employees that are responsible for cash collections do not share cash drawers/registers.

The Clerk has a collection location and the cash drawer is shared with multiple employees.

- b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.

The person responsible for collecting cash is not responsible for preparing/making deposits. A different person is responsible for reconciling collection documentation to the deposit.

- c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

The person responsible for collecting cash is not responsible for posting collection entries to the general ledger.

- d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.

 - a) Observe that receipts are sequentially pre-numbered.
 - b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
 - c) Trace the deposit slip total to the actual deposit per the bank statement.
 - d) Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).
 - e) Trace the actual deposit per the bank statement to the general ledger.

System reports were traced to the deposit slip. The deposit slip totals were traced to the actual deposit per the bank statement. All deposits were made within one business day from the receipt of collection. The actual deposits were traced to the general ledger.
