INDEPENDENT AUDITOR'S REPORT

The Honorable Jill Sessions
Bossier Parish Clerk of Court
Benton, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the major fund, and each fiduciary fund type of the of the Bossier Parish Clerk of Court (Clerk of Court), Benton, Louisiana, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Clerk of Court's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Bossier Parish Clerk of Court, as of June 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in **Government Auditing Standards**, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Clerk of Court and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clerk of Court's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Clerk of Court's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clerk of Court's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the information listed in the table of contents as Required Supplemental Information Part I and Part II be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to Required Supplemental Information Part I in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bossier Parish Clerk of Court's basic financial statements. The supplementary information, listed in the table of contents as Other Supplemental Information, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information and Required Supplemental Information Part II are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2022, on our consideration of the Bossier Parish Clerk of Court's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and in considering the Bossier Parish Clerk of Court's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Louisiana Legislative Auditor, we have issued a report, dated December 10, 2022, on the results of our state-wide agreed-upon procedures performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards*. The purpose of that report is solely to describe the scope of testing performed on those control and compliance areas identified in the Louisiana Legislative Auditor's state-wide agreed-upon procedures, and the results of that testing, and not to provide an opinion on control or compliance.

The financial highlights are explained in more detail in the "financial analysis" section of this document.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Clerk of Court's basic financial statements. The Clerk of Court's basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains additional required supplementary information (budgetary schedules) and other supplementary information in addition to the basic financial statements. These components are described below:

Government-wide Financial Statements

The government-wide financial statements provide a broad view of the Clerk of Court's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the Clerk of Court's financial position, which assists users in assessing the Clerk of Court's economic condition at the end of the year. These statements are prepared using the economic resources measurement focus and the accrual basis of accounting similar to methods used by most businesses. These statements report all revenues and expenses connected with the year even if cash has not been received or paid and include all assets of the Clerk of Court as well as all liabilities. The government-wide financial statements include two statements:

- **The *statement of net position*** presents all of the Clerk of Court's assets and liabilities, with the difference between the two reported as "net position". Over time, increases or decreases in the Clerk of Court's net position may serve as a useful indicator of whether the financial position of the Clerk of Court is improving or deteriorating.

- **The *statement of activities*** presents information showing how the Clerk of Court's net position changed during the most recent year using the full accrual basis of accounting. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Therefore, some revenues and some expenses that are reported in this statement will not result in cash flows until future years.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Clerk of Court, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The funds of the Clerk of Court can be divided into two categories; governmental funds and fiduciary funds.

- *Governmental funds.* The services provided by the Clerk of Court are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the year. Such information may be useful in evaluating the Clerk of Court's near-term financing requirements. This approach is known as using the flow of financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed short-term view of the Clerk of Court's finances and assists in determining whether there will be adequate financial resources available to meet the current needs of the Clerk of Court.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, users may better understand the long-term impact of the Clerk of Court's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and the governmental activities. These reconciliations are presented on the page immediately following each governmental funds financial statement.

The Clerk of Court has one governmental fund, the General Fund, which is classified as a major fund.

- *Fiduciary funds.* Fiduciary funds, which consist solely of custodial funds, are used to account for resources held for the benefit of parties outside of the government. The Clerk of Court is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The Clerk of Court's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. Fiduciary fund financial statements are presented as part of the basic financial statements in this report. The fiduciary funds use the accrual basis of accounting.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the governmental fund financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section includes a budgetary comparison schedule, which includes reconciliation between the statutory fund balance for budgetary purposes and the fund balance of the General Fund as presented in the governmental fund financial statements. Additionally, this section includes information about employee and retiree health and pension benefits. Following the required supplementary information is other supplementary information that is provided to show additional details.

Other Supplementary Information

The schedule of compensation, benefits and other payments to agency head or chief executive officer is presented to fulfill the requirements of Louisiana Revised Statute 24:513(A)(3). The justice system funding reporting schedules are presented to fulfill the requirements of Louisiana Revised Statute 24:515.2.

FINANCIAL ANALYSIS OF THE CLERK'S INDIVIDUAL FUNDS

As noted earlier, the Clerk of Court uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Clerk of Court's governmental fund is to provide information on the near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Clerk of Court's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Clerk of Court's net resources available for spending at the end of the year. As of the end of the year, the Clerk of Court's governmental fund (general fund) reported an ending fund balance of \$6,588,953, an increase of \$205,741 (3.22%) compared to the prior year. A total of \$6,586,091 (99.96%) of the ending fund balance is unassigned and is available for spending in the coming year while \$2,862 (.04%) is non-spendable and represents amounts expended for prepaid items.

The general fund is the operating fund of the Clerk of Court. As a measure of the general fund's liquidity, it may be useful to compare the unassigned fund balance to total fund expenditures. Unassigned general fund balance as of June 30, 2022, (\$6,586,091) represents 132.78% of the total general fund expenditures (\$4,960,268) for the year ended.

NOTES TO THE FINANCIAL STATEMENTS

**BOSSIER PARISH CLERK OF COURT
BENTON, LOUISIANA**

**Notes to the Financial Statements
June 30, 2022**

INTRODUCTION

As provided by Article V, Section 28 of the Louisiana Constitution of 1974, the Clerk of Court serves as the ex-officio notary public; the recorder of conveyances, mortgages, and other acts; and has other duties and powers provided by law. The Clerk of Court is elected for a four-year term.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying basic financial statements of the Bossier Parish Clerk of Court have been prepared in conformity with governmental accounting principles generally accepted in the United States of America applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513 and to the industry audit guide, *Audits of State and Local Governments*.

The significant accounting and reporting policies and practices used by the Clerk of Court are described below.

B. REPORTING ENTITY

Governmental Accounting Standards Board Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. Oversight responsibility is determined on the basis of appointment of governing body, ability to significantly influence operations, accountability for fiscal matters, and the nature and significance of an organization's relationship with the primary government. Considering the foregoing criteria, the Bossier Parish Clerk is deemed to be a separate reporting entity. The accompanying financial statements present information only on the funds maintained by the Bossier Parish Clerk. There are no component units to be included in the Clerk's reporting entity.

For financial reporting purposes, the Clerk's basic financial statements include all funds and activities that are controlled by the Clerk as an independently elected parish official. The Clerk is solely responsible for the operations of his office, which include the hiring and retention of employees, authority over budgeting, responsibility for deficits, and the receipt and disbursement of funds. Although the Bossier Parish Police Jury maintains and operates the building in which the Clerk's office is located, the Clerk is financially independent. Accordingly, the Clerk is a primary government for reporting purposes.

C. FUND ACCOUNTING

The Clerk of Court uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds of the Clerk of Court are classified into two categories: governmental (General Fund) and fiduciary (custodial funds). These funds are described as follows:

C. FUND ACCOUNTING (continued)

Governmental Funds

Governmental funds account for all or most of the Clerk of Court's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the Clerk of Court. The following is the Clerk of Court's governmental fund:

General Fund- The General Fund (Salary Fund), as provided by Louisiana Revised Statute (R.S.) 13:781, is the principal fund of the Clerk of Court and accounts for the operations of the Clerk of Court's office. The various fees and charges due to the Clerk of Court's office are accounted for in this fund. General operating expenditures are paid from this fund.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The only funds accounted for in this category by the Clerk of Court are custodial funds. The Advance Deposit and Registry of Court custodial funds account for assets held by the Clerk of Court in a trustee capacity or as an agent for litigants pending court action and do not involve measurement of results of operations. Consequently, the custodial funds have no measurement focus, but use the accrual basis of accounting.

D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Fund Financial Statements

The amounts reflected in the General Fund are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the Clerk of Court's operations.

The amounts reflected in the General Fund use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Clerk of Court considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING (continued)

Revenues

Recordings, cancellations, court attendance, criminal costs, and other fees, charges and commissions for services are recorded in the year in which they are earned.

Interest income on time deposits is recorded when the time deposits have matured and the income is available.

Substantially, all other revenues are recorded when received by the Clerk of Court.

Based on the above criteria, recordings, court attendance, criminal costs, and other fees, charges, and commissions for services are treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Salaries and related payroll taxes and benefits are recorded when employee services are provided to the Clerk.

Capital outlays are reported at the time purchased.

The emphasis of the fund financial statements is on major governmental funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the entity; therefore, the Clerk of Court reports the General Fund as a major fund.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Clerk of Court as a whole. These statements include all the financial activities of the Clerk of Court, except for fiduciary activities. Information contained in these columns reflects the economic resources measurement focus and the accrual basis of accounting. The accounting objectives of the economic resources measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets and liabilities (whether current or noncurrent) associated with the Clerk of Court's activities are reported. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or the economic asset is used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Clerk of Court's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Program revenues reduce the cost of the function to be financed from the Clerk of Court's general revenues.

Revenues that are not classified as program revenues, including interest, are presented as general revenues.

D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING (Continued)

Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Fiduciary Net Position – Custodial Funds and a Statement of Changes in Fiduciary Net Position – Custodial Funds. The only funds accounted for in this category by the Clerk of Court are custodial funds. Data from the fiduciary funds is not incorporated in the government-wide financial statements.

E. CASH, INTEREST BEARING DEPOSITS, AND INVESTMENTS

Cash includes cash on hand, amounts in demand deposits, interest bearing demand deposits, and money market accounts. Investments include time deposits (certificates of deposit), short-term, highly liquid investments with original maturities of approximately 90 days or less when purchased, and amounts invested with the Louisiana Asset Management Pool, Inc. (LAMP). LAMP is a non-profit corporation formed by an initiative of the State Treasurer and organized under the laws of the State of Louisiana, which operates as a local government investment pool. Under state law, the Clerk of Court may deposit funds in demand deposits, interest bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

F. RECEIVABLES

All trade receivables are shown net of an allowance for uncollectible accounts. Trade accounts receivable outstanding in excess of 120 days comprise the trade accounts receivable allowance for uncollectible accounts.

G. PREPAID ITEMS

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as deferred outflows of resources in the financial statements.

H. CAPITAL ASSETS AND DEPRECIATION

Capital assets are reported at historical cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Clerk of Court maintains a threshold level of \$2,500 or more for capitalizing assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are reported in the statement of net position. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Life</u>
Office Equipment	5 years
Furniture and Fixtures	7 years
Building Improvements	7-20 years

Depreciation of all exhaustible capital assets is reported as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

I. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. In addition to liabilities, the statement of financial position reports a separate section for Deferred Inflows of Resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Clerk of Court recognizes differences between expected and actual factors in total pension liability measurements, changes in assumptions about future factors in the total pension liability measurements, and the differences between projected and actual earnings on pension plan investments within these financial statement sections.

The Clerk of Court reports unearned revenue on both its government-wide and fund financial statements. Unearned revenues arise when potential revenues do not meet both the “available” and “measurable” criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria have been met or the Clerk of Court has legal claim to the resources, the unearned revenue is removed from the balance sheet and revenue is recognized. The Clerk of Court’s unearned revenue consists of prepaid portal fees.

J. COMPENSATED ABSENCES AND LEAVE POLICIES

The Clerk of Court’s recognition and measurement criteria for compensated absences follows GASB Statement No. 16 which provides that paid time off leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if *both* of the following conditions are met:

- a. The employees’ rights to receive compensation are attributable to services already rendered.
- b. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payment at termination or retirement.

The Clerk of Court has the following policies relating to leave:

The Clerk of Court provides 16 paid holidays.

At the discretion of the Clerk of Court, employees are provided every other Friday off during the year except for the month of December.

Full-time employees of the Clerk of Court are given a one day of leave for their birthday annually.

Following completion of one year of continuous service and depending on length of service, employees of the Clerk of Court’s office earn paid time off (PTO) leave between of between 22 work days and 27 work days annually based on the calendar year. Employees continuously employed for over 20 years as of 12/31/2018, are entitled to 32 work days of PTO annually. Unused PTO at December 31, does not carry over to the following year, however, employees are compensated for any unused PTO up to 96 hours at the end of December.

K. NET POSITION AND FUND EQUITY

The Clerk of Court has implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. In the government-wide financial statements, the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources is classified as net position and can be reported in three components:

**BOSSIER PARISH CLERK OF COURT
BENTON, LOUISIANA**

**Notes to the Financial Statements
June 30, 2022**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. NET POSITION AND FUND EQUITY (Continued)

- a. Net investment in capital assets - Consists of capital assets net of accumulated depreciation.
- b. Net investment in right-of-use assets – Consists of right-of-use assets net of accumulated amortization.
- c. Restricted net position – Net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the Clerk’s bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
- d. Unrestricted net position – Consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets.

The Clerk of Court has implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balance more transparent. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Clerk of Court is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent.

In the fund financial statements, governmental fund balance is presented in five possible categories:

- *Nonspendable* – resources which cannot be spent because they are either (a) not in spendable form (such as prepaid items) or; (b) legally or contractually required to be maintained intact.
- *Restricted* – resources with constraints placed on the use of resources that are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- *Committed* – resources which are subject to limitations or constraints to specific purposes the government imposes upon itself at its highest level of decision making (the Clerk of Court). These amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.
- *Assigned* – resources neither restricted nor committed for which the Clerk of Court has a stated intended use for a specific purpose.
- *Unassigned* – resources that are available for any purpose.

The Clerk of Court establishes (and modifies and rescinds) fund balance commitments and assignments through adoption and amendment of the budget.

The Clerk of Court would typically use restricted fund balances first, followed by committed resources and assigned resources as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

R.S. 13:785 requires that every four years (at the close of the term of office) the Clerk of Court must pay the parish treasurer the portion of the General Fund’s fund balance that exceeds one-half of the revenues of the Clerk’s last year of his term of office. The amount owed to the parish treasurer under R.S. 13:785 is limited to no more than the funds provided by the parish treasurer under provisions of R.S. 13:784 (A) to help defray the costs of capital assets and record books during the Clerk of Court’s four-year term. At June 30, 2022, there was no amount due to the parish treasurer.

BENTON, LOUISIANA**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. PENSION PLAN

The Bossier Parish Clerk of Court is a participating employer in a cost-sharing, multiple-employer defined benefit pension plan as described in Note 5. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to / deductions for the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within the plan.

M. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

N. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

The Bossier Clerk of Court follows GASB Statement 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which requires the accrual of other postemployment benefits for retired employees. The Clerk of Court has recorded a liability for other postemployment benefits (see Note 6). In the government-wide financial statements, the OPEB liability is recorded as an expense and non-current liability and allocated on a functional basis. In the fund financial statements, OPEB expenditures are recognized in the amount contributed to the plan or expected to be liquidated with expendable available financial resources. Expendable available financial resources generally refer to OPEB payments due and payable as of the end of the year.

O. CHANGE IN ACCOUNTING PRINCIPLES

For the year ended June 30, 2022, the Clerk of Court implemented Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset. This change required a restatement of beginning net position as follows:

	<u>Government-wide</u> <u>Governmental</u> <u>Activities</u>
Total Net Position (deficit), June 30, 2021, as previously reported	\$ (1,309,228)

2. CASH, INTEREST BEARING DEPOSITS, AND INVESTMENTS

Cash: At June 30, 2022, the Clerk of Court had cash (book balances) totaling \$35,469,568 as follows:

	Governmental Fund	Fiduciary Funds	Total
Cash	\$ 570	\$ -	\$ 570
Interest bearing demand deposits	5,251,086	30,202,826	\$ 35,453,912
Non interest-bearing demand deposits	-	15,086	15,086
	\$ 5,251,656	\$ 30,217,912	\$ 35,469,568

Investments: At June 30, 2022, the Clerk of Court had investments (book balances) totaling \$2,052,139 as follows:

	Governmental Fund	Fiduciary Funds	Total
Time Deposits	\$ 807,545	\$ 600,000	\$ 1,407,545
LAMP	519,594	125,000	644,594
	\$ 1,327,139	\$ 725,000	\$ 2,052,139

These deposits are stated at cost, which approximates market value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Clerk of Court that the fiscal agent bank has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Clerk of Court's name.

The cash equivalents and investments of the Clerk of Court are subject to the following risks:

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. At year end, the Clerk of Court had collected bank balances of \$37,057,046 which were fully protected by \$250,000 of federal depository insurance and the pledge of securities with a market value of \$37,154,404 held by the custodial bank in the name of the Clerk of Court.

Interest Rate Risk: The Clerk of Court's certificates of deposit have maturities of one year or less which limits exposure to fair value losses arising from rising interest rates.

Credit Risk: The Clerk of Court's investments comply with Louisiana Statutes (LSA R.S. 33:2955). Under state law, the Clerk of Court may deposit funds with a fiscal agent organized under the laws of Louisiana, the laws of any other state in the union, or the laws of the United States. The Clerk of Court may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Investments held at June 30, 2022, include \$644,594 (collected balances) invested with the Louisiana Asset Management Pool (LAMP), a local government investment pool.

5. PENSION PLAN

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Louisiana Clerks' of Court Retirement and Relief Fund, and additions to/deductions from the system's fiduciary net position have been determined on the same basis as they are reported by the systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Plan Description. Substantially all employees of the Bossier Parish Clerk of Court are members of the Louisiana Clerks' of Court Retirement and Relief Fund (System), a cost sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees.

The Fund was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of R.S. Title 11:1501 for eligible employees of the clerk of the supreme court, each of the district courts, each of the courts of appeal, each of the city and traffic courts in cities having a population in excess of four hundred thousand at the time of entrance into the Fund, the Louisiana Clerks' of Court Association, the Louisiana Clerks of Court Insurance Fund, and the employees of the Fund. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the Fund in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

Retirement Benefits: A member or former member shall be eligible for regular retirement benefits upon attaining 12 or more years of credited service, attaining the age of 55 years (age 60 if hired on or after January 1, 2011), and terminating employment. Regular retirement benefits, payable monthly for life, is equal to 3% percent of the member's monthly average final compensation multiplied by the number of years of credited service, not to exceed 100% of the monthly average final compensation. The retirement benefit accrual rate is increased to 3½% for all service credit accrued after June 30, 1999 (for members hired prior to January 1, 2011). For members hired before July 1, 2006 and who retire prior to January 1, 2011, monthly average final compensation is based on the highest 36 consecutive months, with a limit increase of 10% in each of the last three years of measurement. For members hired after July 1, 2006, monthly average final compensation is based on the highest compensated 60 consecutive months, or successive joined months if service was interrupted, with a limit increase of 10% in each of the last five years of measurement. For members who were employed prior to July 1, 2006 and who retire after December 31, 2010, the period of final average compensation is 36 months plus the number of whole months elapsed since January 1, 2011, not to exceed 60 months.

Disability Benefits: Disability benefits are awarded to active members who are totally and permanently disabled as a result of injuries sustained in the line of duty or to active members with 10 or more years of credible service who are totally disabled due to any cause. A member who is officially certified as totally or permanently disabled by the State Medical Disability Board will be paid monthly disability retirement benefits equal to the greater of forty percent of their monthly average final compensation or 75% of their monthly regular retirement benefit computed as per R.S. 11:1521 (C).

Survivor Benefits: Upon the death of any active contributing member with less than five years of credited service, his/her accumulated contributions are paid to his/her designated beneficiary. Upon the death of any active contributing member with five or more years of credited service, automatic option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with option factors used as if the member had continued in service to earliest normal retirement age. Benefit payments are to commence on the date a member would have first become eligible for normal retirement assuming continued service until that time. In lieu of a deferred survivor benefit, the surviving spouse may elect benefits payable immediately with benefits reduced ¼ of 1% for each month by which payments commence in advance of member's earliest normal retirement age. If a member has no surviving spouse, the surviving minor children under 18 or disabled children shall be paid ½ of the member's accrued retirement

benefit in equal shares. Upon the death of any former member with less than 12 years of service, the designated beneficiary may receive his/her accumulated contributions. Upon the death of any former member with 12 or more years of service, automatic option 2 benefits are payable to the surviving spouse with payments to commence on the member's retirement eligibility date. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

Deferred Retirement Option Plan: In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in the Deferred Retirement Option Plan (DROP) for up to 36 months and defer the receipt of benefits. Upon commencement of participation in the plan, active membership in the Fund terminates and the participant's contributions cease; however, employer contributions continue. Compensation and creditable service remain as they existed on the effective date of commencement of participation in the plan. The monthly retirement benefits that would have been payable, had the member elected to cease employment and receive a service retirement allowance, are paid into the DROP account. Upon termination of employment at the end of the specified period of participation, a participant in the program may receive, at his option, a lump sum payment from the DROP account equal to the payments to the account or a true annuity based upon his account (subject to approval by the Board of Trustees). In addition, the member receives the monthly benefits that were paid into the DROP fund during his period of participation.

If employment is not terminated at the end of the participation period, payments into the account cease and the member resumes active contributing membership in the Fund. Interest is paid on DROP account balances for members who complete their DROP participation but do not terminate employment. The interest earnings are based on the actual rate of return on funds in such accounts. These interest accruals cease upon termination of employment.

Upon termination, the member receives a lump-sum payments from the DROP fund equal to the payments made to that fund on his behalf or a true annuity based in his account (subject to approval by the Board of Trustees). The monthly benefit payments that were being paid into the DROP fund are paid to the retiree and an additional benefit based on his additional service rendered since termination of DROP participation is calculated using the normal method of benefit computation. Prior to January 1, 2011, the average compensation used to calculate the additional benefit is that used to calculate the original benefit unless his period of additional service is at least 36 months. Effective January 1, 2011, the average compensation for members whose additional service is less than 36 months is equal to the lessor amount used to calculate hid original benefit or the compensation earned in the period of additional service divided by the number of months of additional service. For former DROP participants who retire after December 30, 2010, the period used to determine final average compensation for post-DROP service is 36 months plus the number of whole months elapsed from January 1, 2011 to the date of DROP entry. In no event can the entire monthly benefit amount paid to the retiree exceed 100% of the average compensation used to compute the additional benefit. If a participant dies during the period of participation in the program, a lump sum payment equal to his account balance is paid to his named beneficiary or, if none, to his estate.

Cost of Living Adjustments: The Board of Trustees is authorized to grant retired members and widows of members who have been retired for at least one full calendar year an annual cost of 2.5% of their benefit (not to exceed \$40 per month), and all retired members and widows who are 65 years of age or older a 2% increase in their original benefit (or their benefit as of October 1, 1977, if they retired prior to that time). In order to grant the 2.5% COLA, the increase in the consumer price index must have exceeded 3% since the last COLA granted. In order for the Board to grant either of these increases, the Fund must meet certain other criteria as detailed in the Louisiana statute relating to funding status. In lieu of granting the above cost of living increases, Louisiana statutes allow the Board to grant a cost-of-living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost of living amount which cannot exceed \$1.

5. PENSION PLAN (continued)

Contributions: According to state statute, contribution requirements for all employers are actuarially determined each year. For the year ending June 30, 2021, the actual employer contribution rate was 22.25%.

In accordance with state statute, the Fund also receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities. Non-employer contributions are recognized as revenue during the year and excluded from pension expense. Non-employer contribution revenue for the Clerk of Court for the year ended June 30, 2021 was \$240,921.

Schedule of Employer Allocations: The schedule of employer allocations reports the historical employer contributions in addition to the employer allocation percentages for each participating employer. The historical employer contributions are used to determine the proportionate relationship of each employer to all employers of Louisiana Clerks' of Court Retirement and Relief Fund. The employer's proportion was determined on a basis that is consistent with the manner in which contributions to the pension plan are determined. The resulting allocation percentages were used in calculating each employer's proportionate share of the pension amounts.

The allocation method used in determining each employer's proportion was based on each employer's contributions to the Fund during the fiscal year ended June 30, 2021 as compared to the total of all employers' contributions received by the Fund during the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the Bossier Parish Clerk of Court reported a liability of \$2,663,747 for its proportionate share of the net pension liability of the Plan. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Clerk of Court's proportion of the net pension liability was based on a projection of the Clerk of Court's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021 (Plan's measurement date), the Clerk of Court's proportion was 2.002458% which was an increase of 0.086110% from the proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the Clerk of Court recognized a pension expense of \$153,381, representing its proportionate share of the Plan's net expense, including amortization of deferred amounts.

At June 30, 2022, the Clerk of Court reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 74,260	\$ 44,694
Changes of assumptions	575,063	-
Net difference between projected and actual earnings on pension plan investments	-	1,178,209
Changes in proportion and differences between Employer contributions and proportionate share of contributions	115,499	-
Differences between employer and proportionate share of contributions	128,533	874
Employer contributions subsequent to the measurement date	488,279	-
Total	\$ 1,381,634	\$ 1,223,777

5. PENSION PLAN (continued)

The Clerk of Court reported a total of \$488,279 as deferred outflow of resources related to pension contributions made subsequent to the measurement period of June 30, 2021, which will be recognized as a reduction in net pension liability in the retirement's year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>June 30,</u>		
2022	\$	120,970
2023		33,371
2024		(92,955)
2025		(391,808)
Total	\$	<u>(330,422)</u>

Actuarial Methods and Assumptions: The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position. The components of the net pension liability of the Clerk of Court as of June 30, 2021 are as follows:

Total Pension Liability	\$	18,250,646
Plan Fiduciary Net Position		(15,586,900)
Total Net Pension Liability	\$	<u>2,663,747</u>

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2021 is as follows:

Valuation Date	June 30, 2021
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Expected Remaining Service Life	5 Years
Investment Rate of Return	6.55%, net of investment expense, including inflation
Inflation rate	2.40%
Projected Salary Increases	1-5 years of service - 6.2% 5 years or more - 5%
Mortality Rates	Pub - 2010 Public Retirement Plans multiplied by 120% Mortality Table with full generation projection using the appropriate MP-2019 improvement scale.
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost-of-living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The actuarial assumptions used are based on the assumptions used in the 2021 actuarial funding valuation which (with the exception of mortality) were based on results of an actuarial experience study for the period July 1, 2014 through June 30, 2019, unless otherwise specified. In cases where benefit structures were changes after the experience study period, assumptions were based on future experiences.

5. PENSION PLAN (continued)

Mortality Rate. The mortality rate assumption used was verified by combining data from this plan with two other statewide plans which have similar workforce composition in order to produce a credible experience. The aggregated data was collected over the period July 1, 2014 through June 30, 2019. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected real rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long term expected rate of return was 6.02%, for the year ended June 30, 2021. Best estimates of geometric real rates of return for each major asset class included in the Fund's target asset allocation as of June 30, 2021, is summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed Income:		
Domestic Bonds	25.00%	2.50%
International Bonds		3.50%
Domestic Equity:	38.00%	7.50%
International Equity:	22.00%	8.50%
Real Estate	15.00%	4.50%
	<u>100.00%</u>	

Discount Rate. The discount rate used to measure the total pension liability was 6.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Clerk of Court's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the Clerk of Court calculated using the discount rate of 6.55 percent, as well as what the Clerk's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.55 percent) or one percentage point higher (7.55 percent) than the current rate:

	Changes in Discount Rate		
	1% Decrease 5.55%	Current Discount Rate 6.55%	1% Increase 7.55%
Net Pension Liability	<u>\$ 4,695,429</u>	<u>\$ 2,663,747</u>	<u>\$ 952,390</u>

Change in Net Pension Liability: The changes in the net pension liability for the year ended June 30, 2021, were recognized in the current reporting period as pension expense except as follows:

5. PENSION PLAN (continued)

Differences between Expected and Actual Experience: The differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized as pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

Differences between Projected and Actual Investment Earnings: The differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period.

Changes of Assumptions or Other Inputs: The changes of assumptions about future economic or demographic factors were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan.

Changes in Proportion: Changes in the employer's proportionate shares of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date were recognized in employer's pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan.

Contributions—Proportionate Share: Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense (benefit) using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the schedule of employer amounts due to differences that could arise between contributions reported by the Fund and contributions reported by the participating employer.

Funding Policy: Plan members are required by state statute to contribute 8.25% of their annual covered salary to the plan. The Bossier Parish Clerk of Court is required to contribute to the plan at an actuarially determined rate. The rate for the fiscal year ended June 30, 2022, was 22.25% of the annual covered payroll. Contributions to the System also include one-fourth of one percent (one-half of one percent for Orleans Parish) of the taxes shown to be collectible by the tax rolls of each parish. The contribution requirements of plan members and the Bossier Parish Clerk of Court are established and may be amended by state statute. As provided by R.S. 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year.

The Bossier Parish Clerk of Court's contributions to the System for the years ending June 30, 2022, 2021, and 2020 were \$488,279, \$424,391, and \$360,908, respectively, equal to the required contributions for each year.

Plan Fiduciary Net Position. The System issues an annual publicly available financial report that includes financial statements, required supplementary information for the System and detailed information about the plan's fiduciary net position. Access to the report can be found on the Office of Louisiana Legislative Auditor's official website: www.la.state.la.us or by writing to the Louisiana Clerks of Court Retirement and Relief Fund, 11745 Bricksome Avenue, Suite B1, Baton Rouge, Louisiana 70816, or by calling (225) 293-1162.

**Notes to Required Supplemental Information
as of and for the year ended June 30, 2022**

Budgetary Information

The budget for the General Fund (Salary Fund) is prepared and is adopted annually on the cash basis of accounting. A preliminary budget for the General Fund for the ensuing year is prepared by the Clerk of Court during May of each year. The availability of the proposed budget for public inspection and the date of the public hearing on the budget are then advertised in the official journal. During June, the Clerk of Court holds a public hearing on the proposed budget in order to receive comments from the public and other interested parties. The General Fund budget is adopted during June of each year and notice is published in the official journal.

The proposed budget, prepared on the cash basis of accounting, was published in the official journal ten days before the public hearing. The budget hearing was held at the Clerk's office on June 3, 2021.

Louisiana Revised Statute (LSA-R.S.) 39:1311 requires the chief executive or administrative officer of the Clerk of Court's office to advise the Clerk in writing when:

- (1) Total revenue and other sources plus projected revenue and other sources for the remainder of the year, within a fund, are failing to meet total budgeted revenues and other sources by five percent or more.
- (2) Total actual expenditures and other uses plus projected expenditures and other uses for the remainder of the year, within a fund, are exceeding the total budgeted expenditures and other uses by five percent or more.
- (3) Actual beginning fund balance, within a fund, fails to meet estimated fund balance by five percent or more and fund balance is being used to fund current year expenditures.

The Clerk prepares necessary budget amendments when, in her judgment, actual operations differ materially from those anticipated in the original budget and formally adopts the amendments. The adoption of the amendments is published in the official journal. The budget for the fiscal year ended June 30, 2022, was amended once.

Expenditures may not legally exceed appropriations at the fund level. Appropriations that are not expended lapse at year-end. Formal budget integration is employed as a management control device during the year. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. The Clerk is in compliance with the Louisiana Local Government Budget Act.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Jill Sessions
Bossier Parish Clerk of Court
Benton, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the major fund, and each fiduciary fund type of the Bossier Parish Clerk of Court, Benton, Louisiana as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Bossier Parish Clerk of Court's basic financial statements, and have issued our report thereon dated December 10, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Bossier Parish Clerk of Court's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bossier Parish Clerk of Court's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bossier Parish Clerk of Court's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Bossier Parish Clerk of Court's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Bossier Parish Clerk of Court, management, and the Louisiana Legislative Auditor, and is not intended to be and should not be used by anyone other than these specified parties. However, this restriction is not intended to limit the distribution of this report which is a matter of public record and is distributed by the Legislative Auditor under Louisiana Revised Statute 24:513.

Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for selected each account, and observe that:

For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only).
