INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Mr. David Hale, President
Delhi Volunteer Fire Department, Inc.
Delhi, Louisiana

I have reviewed the accompanying financial statements of the governmental activities of the Delhi Volunteer Fire Department, Inc., as of December 31, 2020, which collectively comprise the Department's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the Department's management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. I have not audited or reviewed such required supplementary information and, accordingly, I do not express an opinion, conclusion, nor provide any assurance on it.

Mr. David Hale, President
Delhi Volunteer Fire Department, Inc.
Delhi, Louisiana

Other Supplementary Information

The other supplementary information is presented for purposes of additional analysis and also is not a required part of the basic financial statements. The information is the representation of management. I have reviewed the information and, based on my review, I am not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. I have not audited the other supplementary information and, accordingly, I do not express an opinion on such information.

Report on Agreed-Upon Procedures

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, I have issued a report, dated May 18, 2021, on the results of the agreed-upon procedures.

MANAGEMENT'S DISCUSSION AND ANALYSIS

DELHI VOLUNTEER FIRE DEPARTMENT, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Our discussion and analysis of the Delhi Volunteer Fire Department, Inc. (the Department) financial statements provides an overview of its activities for the year ended December 31, 2020. Please read it in conjunction with the Department's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Department as a whole.

Reporting the Department as a Whole

The Statement of Net Position and the Statement of Activities

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector entities. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Department's net position and changes in them. The Department's net position (the difference between assets and liabilities) measure the Department's financial position. Increases or decreases in the Department's net position are an indicator of whether its financial position is improving or not.

The Department as a Whole

For the years ended December 31, 2020 net position changed as follows:

	2020	2019
Beginning net position	\$(260,557)	\$(179,337)
Decrease in net position	(221,542)	(81,220)
Ending net position	\$(482,099)	\$(260,557)

The Department's Funds

The following schedule presents a summary of revenues and expenses for the years ended December 31, 2020 and 2019:

BUDGETARY HIGHLIGHTS

The Department's total revenues in 2020 were within 5% of the final budgeted revenue. Actual expenditures in 2020 were also within 5% of the budgeted amounts.

CAPITAL ASSET AND DEBT ADMINISTRATION Capital Assets

At December 31, 2020, the Department had \$1,435,489 invested in capital assets (\$211,469 net of accumulated depreciation) including machinery and equipment and vehicles.

Capital assets, net	\$ 495,837	\$(218,889)	-	\$ 211,468

Debt

At year end, the Department had \$884,449 in long-term obligations. Additional information about the Department's debt is presented in Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Department's revenues are derived mainly from sales taxes and a variety of grants and state fire insurance rebates. The Department is not aware of any significant increases or decreases in those revenue sources or associated expenditures but in light of the current economic volatility, the Department must continue to monitor its limited resources to fit the needs of the citizens of The Town of Delhi, Louisiana and be aware of other funding opportunities that may present themselves.

CONTACTING THE DEPARTMENT'S FINANCIAL MANAGEMENT

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds \$ 5,801

Governmental funds report capital outlays as expenditures, however, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.

Expenditures for capital assets

Less current year depreciation

(284,147)

INTRODUCTION

Delhi Volunteer Fire Department, Inc. (the Department) was created April 26, 2002, for the purpose of purchasing and maintaining fire equipment and providing fire protection for the people included in the Town of Delhi, Louisiana. The Department is governed by a board of officers consisting of eight members. The Department has two employees.

The Department is exempt from federal income tax under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3).

Note 1 - <u>Summary of Significant Accounting Policies</u>

A. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of Activities) report information on all of the nonfiduciary activities of the Department. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

B. <u>MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION</u>

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Note 1 - Summary of Significant Accounting Policies - Continued

Sales taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The General Fund is the entity's primary operating fund. It accounts for all financial resources of the entity, except those required to be accounted for in another fund. The Department has no proprietary fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the entity's policy to use restricted resources first, then unrestricted resources as they are needed.

C. CASH AND CASH EQUIVALENTS

The Department's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the Department's investment policy allow the entity to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities.

D. RECEIVABLES AND PAYABLES

Receivables for sales taxes and grants are shown at their full amount. There is no allowance for uncollectible accounts.

Note 1 - Summary of Significant Accounting Policies - Continued

E. CAPITAL ASSETS

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Department maintains a threshold level of \$5,000 or more for capitalizing capital assets.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No construction occurred during the current fiscal year.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Buildings 40 Years
Autos and Equipment 5-10 Years

F. COMPENSATED ABSENCES

The Department is operated by two full time employees and volunteers and therefore has a policy for compensated absences of five days of paid time off after six months of employment for full time employees only.

G. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

H. FUND EQUITY

GASB Statement No. 54 establishes standards for five fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of resources reported in government funds. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

Note 1 - Summary of Significant Accounting Policies - Continued

H. FUND EQUITY (continued)

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

Restricted Fund Balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Board of Commissioners – the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Board of Commissioners removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Fund Balance — This classification reflects the amounts constrained by the Department's "intent" to be used for specific purposes, but are neither restricted nor committed. The Board of Commissioners and management have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted not committed.

Unassigned Fund Balance – This fund balance is the residual classification for the general fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the Department's policy to use externally restricted resources first, then unrestricted resources – committed, assigned and unassigned – in order as needed.

I. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Stewardship, Compliance, and Accountability Note 2 -

Budget Information: Preliminary budgets for the ensuing year are prepared by the treasurer during November of each year. During November, the Board reviews the proposed budget and makes changes as it deems appropriate. The budget is then adopted during the December meeting. All annual appropriations lapse at year end. Encumbrance accounting is not used by the Department. Budgeted amounts included in the accompanying financial statements include the original adopted budget and one amendment for the year ended December 31, 2020.

Cash and Cash Equivalents Note 3 -

Custodial Credit Risk – deposits. The custodial credit risk is the risk that in the event of a bank failure, the Department's deposits may not be returned to it. The Department's policy to ensure there is no exposure to this risk is to require the financial institution to pledge its own securities to cover any amount in excess of Federal Depository Insurance Coverage. Accordingly, the Department had no custodial credit risk related to its deposits at December 31, 2020.

The Department has cash and cash equivalents (book balances) totaling \$194,183 at December 31, 2020 as follows:

Demand Deposits

\$ 194,183

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash and cash equivalents (bank balances) at December 31, 2020, are secured as follows:

Bank Balances	\$ 196,229
FDIC Insurance Pledged Collateral	250,000
Uninsured Amount	<u>\$</u>

Note 4 -Accounts Receivable

At December 31, 2020, the Department had no accounts receivable.

Note 5 - Property, Plant and Equipment

Capital asset activity for the year ended December 31, 2020 and 2019 is as follows:

	<u>Capital Purchase</u>
Current Portion Long-Term Portion	\$ 73,351
<u>Total</u>	\$ 870,55 <u>3</u>

Long-term obligation at December 31, 2020 in the amount of \$870,553 consists of one lease/purchase agreement with Republic First National that was subsequently sold to local banks. The agreements were for the purchase of 2 fire trucks.

The obligations have maturities from 2020 until 2030 and have an interest rate of 4.0%. Interest expense for 2020 was \$35,333 and is included in public safety expenses. Principal and interest payable in the next fiscal year are \$73,351 and \$32,653, respectively.

Note 6 - Long-Term Obligations (continued)

All principal and interest requirements are funded in accordance with Louisiana law by the sales tax collected and are due as follows:

Year Ended	<u>Principal</u>	<u>Interest</u>	Total
2021	\$ 73,351	\$ 32,653	\$ 106,004

2026-2030	465,233	54,787	520,020

On April 29, 2020, the Department received a Paycheck Protection Program loan (PPP loan) in the amount of \$13,895 at a fixed rate of 1% payable in two years from date of funding. Subsequent to year end, the Department was notified by the Small Business Administration that this loan has been forgiven in full.

Note 7- Subsequent Events

Subsequent events have been evaluated through May 18, 2021, which is the day the financial statements were available to be issued, and it has been determined that no significant events have occurred for disclosure.

DELHI VOLUNTARY FIRE DEPARTMENT, INC. NOTES TO BUDGET COMPARISON SCHEDULE FOR THE YEAR ENDED DECEMBER 31, 2020

Preliminary budgets for the ensuing year are prepared by the secretary-treasurer during November of each year. During November, the Board reviews the proposed budget and makes changes as it deems appropriate. The budget is then adopted during the December meeting. All annual appropriations lapse at year end. Encumbrance accounting is not used by the Department. Budgeted amounts included in the accompanying financial statements include the original adopted budget and one amendment for the year ended December 31, 2020.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

Mr. David Hale, President

Delhi Volunteer Fire Department, Inc. and the Louisiana Legislative Auditor:

I have performed the procedures enumerated below, which were agreed to by the Delhi Volunteer Fire Department, Inc. and the Louisiana Legislative Auditor (the specified parties), on the Department's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2020, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The Department's management is responsible for its financial records and compliance with applicable laws and regulations. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, I make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$30,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1775 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), whichever is applicable; and report whether the expenditures were made in accordance with these laws.

No expenditure was made during the year for materials and supplies exceeding \$30,000, and no expenditures were made for public works exceeding \$250,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided me with the requested information.

3. Obtain a list of all employees paid during the fiscal year.

Management provided me with the requested information.

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

None of the employees included on the list provided by management for agreed-upon Procedure 3 appeared on the list provided by management for agreed-upon Procedure 2.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided the requested information. None of the businesses of board members, employees, and board members' and employees' immediate families appeared as vendors on the list of disbursements.

Budgeting

- 6. Obtain a copy of the legally adopted budget and all amendments.
 - Management provided me with a copy of the original budget. Management represented that there was one amendment to the budget during the year.
- 7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.
 - I traced adoption of the original budget to documentation in the minutes of the meeting of the Department's commissioners held on December 9, 2019. Management represented that there was one amendment to the budget during the year.
- 8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more. (For agencies that must comply with the Licensing Agency Budget Act only, compare the expenditures of the final budget to actual expenditures, and report whether actual expenditures exceeded budgeted amounts by 10% or more per category or 5% or more in total).
 - I compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues exceeded budgeted revenues. Expenditures for the year did not exceed budgeted amounts by more than 5%.

Accounting and Reporting

- 9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:
 - (a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.
 - Each of the six selected disbursements agreed with the amount and payee in the supporting documentation.
 - (b) Report whether the six disbursements were coded to the correct fund and general ledger account.
 - All of the disbursements were properly coded to the correct fund and general ledger account.
 - (c) Report whether the six disbursements were approved in accordance with management's policies and procedures.
 - Of the six payments tested, all had the signature of the person approving payment.

Meetings

- 10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.
 - Management represented that the Department is only required to post a notice of each meeting and the accompanying agenda on the door of the Department's office building. The Department complied with this requirement.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

I scanned copies of all bank deposit slips for the fiscal year, and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

I scanned payroll disbursements and read the meeting minutes of the Department's board of commissioners for the fiscal year. I found no payments or approval for payments to employees that would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The Department's report was submitted timely.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

Management represented that the Department entered into no contracts during the fiscal year that was subject to the public bid law.

Prior-Year Comments

15. Obtain and report management's representation as to whether any prior-year suggestions, exceptions, recommendations, and/or comments have been resolved.

My prior year report, dated May 19, 2020, did include suggestions, exceptions, recommendations, and comments, one of which was resolved and the other is still applicable due to cost/benefit constrictions.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. I was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Department's compliance with the foregoing matters. Accordingly, I do not express such an opinion or conclusion. Had I performed additional procedures, other matters might have come to my attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on the Department's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

LOUISIANA ATTESTATION QUESTIONNAIRE (For Attestation Engagements of Government)

Dear Chief Executive Officer:

Attached is the Louisiana Attestation Questionnaire that is to be completed by you or your staff. This questionnaire is a required part of the review/attestation engagement of Louisiana government agencies. Upon completion, the questionnaire must be presented to and adopted by the governing body, if any, of your organization by means of a formal resolution in an open meeting. Independently elected governmental officials should sign the document, in lieu of such a resolution.

The completed attestation questionnaire and a copy of the adoption instrument, if appropriate, **must be given to the independent certified public accountant at the beginning of the engagement**. The CPA will, during the course of his engagement, perform certain agreed-upon procedures to the responses in the questionnaire. It is not necessary to return the questionnaire to my office.

Certain portions of the questionnaire may not be applicable to your organization. In such cases, it is appropriate to mark the representation "not applicable." However, you must respond to each applicable representation. A 'yes' answer indicates that you have complied with the applicable law or regulation. A 'no' answer to any representation indicates a possible violation of law or regulation and, as such, should be fully explained. These matters will be reviewed by the CPA during the course of his engagement. Please feel free to attach a further explanation of any representation.

Your cooperation in this matter will be greatly appreciated.

Sincerely,

Daryl G. Purpera, CPA, CFE Louisiana Legislative Auditor
