INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners Timberlane Neighborhood Improvement and Beautification District Gretna, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of the Timberlane Neighborhood Improvement and Beautification District (the District), as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Timberlane Neighborhood Improvement and Beautification District, as of March 31, 2023, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the *Louisiana Governmental Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Board of Commissioners

Timberlane Neighborhood Improvement and Beautification District September 18, 2023

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Board of Commissioners Timberlane Neighborhood Improvement and Beautification District September 18, 2023

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of the District's basic financial statements. The accompanying Schedule of General and Administrative Expenses is presented for purposes of additional analysis and is not a part of the basic financial statements. The accompanying Schedule of Compensation, Benefits and Other Payments to Agency Head is presented to comply with the Act 706 of the 2014 Louisiana Legislative Session and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of General and Administrative Expenses and the Schedule of Compensation, Benefits, and Other Payments to Agency Head are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board of Commissioners Timberlane Neighborhood Improvement and Beautification District September 18, 2023

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued out report dated September 18, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance *Government Auditing Standards* in considering the Timberlane Neighborhood Improvement and Beautification District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

TIMBERLANE NEIGHBORHOOD IMPROVEMENT AND BEAUTIFICATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED MARCH 31, 2023

This section of the Timberlane Neighborhood Improvement and Beautification District's (the District) annual financial report presents management's analysis of the District's financial performance for the year ended March 31, 2023. This analysis should be read in conjunction with the audited financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position increased by \$415,597.
- The operating revenues of the District were \$893,787 and general revenues were \$1,206,476.
- The total expenditures/expenses and other financing uses of the District were \$1,684,666.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three sections: Management's Discussion and Analysis, audited financial statements and supplementary information. The financial statements also include notes that provide additional detail of the information included in the financial statements.

Government Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments,* provides that special purpose governments engaged only in business-type activities should present only the financial statements required for enterprise funds. For these governments, basic financial statements and required supplemental information (RSI) consist of:

- Management's Discussion and Analysis (MD&A)
- Statement of Net Position
- Statement of Revenues, Expenses, and Changes in Net Position
- Statement of Cash Flows
- Notes to the Financial Statements
- RSI other than MD&A, if applicable

Enterprise Fund Financial Statements

The basic financial statements present information for the District as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the statement of net position, the statement of revenues, expenses and changes in net position, and the statement of cash flows.

The statement of net position and the statement of revenues, expenses and changes in net position provide information to present the change in the District's financial condition for the current year's operations. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most businesses. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

TIMBERLANE NEIGHBORHOOD IMPROVEMENT AND BEAUTIFICATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED) <u>AS OF AND FOR THE YEAR ENDED MARCH 31, 2023</u>

These two statements report the District's net position and its changes. Net position – the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources – is a measure of the financial position of the District. Increases or decreases in the District's net position are an indicator of whether the District's financial position is improving or deteriorating.

The statement of cash flows provides information on the changes in cash during the year. This statement reports the net cash provided or used by operating, non-capital financing activities, capital and related financing activities, and investing activities.

FINANCIAL ANALYSIS OF THE ENTITY

The following presents condensed financial information of the District:

(1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

ENABLING LEGISLATION

The Timberlane Neighborhood Improvement and Beautification District (the District) was created by Jefferson Parish Ordinance No. 25121, on December 5, 2018, under authority of the provision of Article 6, Section 19 of the Louisiana Constitution of 1974, Section 2.01 (7) of the Jefferson Parish Home Rule Charter.

The primary objective and purpose of the District shall be to promote and encourage the improvement, beautification, and overall betterment of the neighborhood located within the boundaries of the District in order to add to the quality of life of District residents by maintaining property values, increasing the tax base, fostering economic growth, and providing for recreational activities.

The District shall constitute a special taxing district and political subdivision and it shall have the power and privilege to incur debt, to issue bonds and to levy and collect taxes, special assessments and fees, upon a majority vote of the electorate of the District; to issue certificates of indebtedness; and has the authority to acquire property located within the boundaries of the District; however, the District is not authorized to acquire property by expropriation.

Reporting Entity

The Governmental Accounting Standards Board issued GASB Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statement No. 14 and No. 34, which established criteria for determining the reporting entity and component units that should be included within the reporting entity and other reporting relationships. The basic criteria for including a potential component unit within the reporting is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- Appointing a voting majority of an organization's governing body, and the ability of the primary government to impose its will on that organization and/or the potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.
- Organizations for which the primary government does not appoint a voting majority but are fiscally dependent on the primary government.
- Organizations for which the reporting entity financial statements would be misleading if the data of the organization is not included because of the nature or significance of the relationship.

Based upon the previous criteria, the District has determined it has no component units and the financial statements only include the funds of the District, the reporting entity. The District is governed by a Board of Commissioners consisting of 5 members, four of whom are elected by parcel owners of the District. Each parcel owner gets one vote.

(1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

Basis of Presentation (continued)

The District's financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the District are discussed below.

The accompanying basic financial statements have been presented in conformity with GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, issued in June 1999, as amended by GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.

The accounts of the District are organized and operated as an enterprise fund. Enterprise funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Fund equity is classified as net position.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. The accompanying financial statements have been prepared on the full accrual basis in accordance with GAAP. Revenues are recognized when they are earned, and expenses are recognized at the time liabilities are incurred or economic asset used.

Budgetary Accounting

The District prepares the annual budget for internal management purposes, and the budget is based on what is expected to be collected during the fiscal year. The budget is approved by the Board of Commissioners. The adopted budget constitutes the authority of the District to incur liabilities and authorize expenses from the respective budgeted funds. In addition, certain expenses are approved monthly by the Board before payment. The District is not required to present a budget comparison in its financial statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

(1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

Cash and Cash Equivalents (continued)

Louisiana revised statutes authorize the District to invest in (1) United States bonds, treasury notes or certificates, or time certificates of deposit of state banks organized under the laws of Louisiana and national banks having their principal offices in the State of Louisiana, an investment as stipulated in LSA-R.S. 39:1271, or any other federally insured investments or (2) in mutual or trust fund institutions, which are registered with the Securities and Exchange Commission under the Securities Act of 1933 and the Investment Act of 1940, and which have underlying investments consisting solely of and limited to securities of the U.S. Government or its agencies. At March 31, 2023, the District had no such investments.

Parcel Assessment Revenue and Receivables

Parcel assessments are recorded as revenues in the fiscal year in which they are levied, provided they are collected in the current period or within sixty days thereafter. Parcel assessment revenue receivables presented in the financial statements represent the estimated parcel assessments collectable assessed in the current fiscal year.

Inventories

Inventories, which consist primarily of items sold in the golf pro shop and horticultural supplies for the upkeep of the golf course and surrounding green space, are valued at the lower of cost or market on a first-in, first-out method.

Capital Assets

Capital assets purchased or acquired are reported at cost. Contributed assets are reported at fair market value at date received. Additions, improvements, and other capital outlays that are greater than \$2,500 and extended the useful life of an asset for more than one year are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets, other than land and construction in progress, is provided on the straight-line basis over the following estimated useful lives:

Description	Useful Life
Land	N/A
Machinery and equipment	5 – 15
Land improvements	20 - 30
Buildings	25 - 40
Building improvements	7 - 30
Infrastructure	20 - 50

(1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

Right of Use Assets

The District has recorded right of use lease assets as a result of implementing GASB 87. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less incentives, and plus ancillary charges necessary to place the lease into service. Such assets are reported net of amortization. Right of use assets are amortized at the lesser of the useful life or lease term.

Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the Statement of Net Position will sometimes report a separate section for deferred outflows and inflows of resources. These separate financial statement elements represent an acquisition of net position that applies to future period(s) and will not be recognized as an outflow of resources (expense) or inflow of resources (revenue) until that time.

Equity Classification

In the financial statements, equity is classified as net position and displayed in three components:

- a. <u>Net investment in capital assets</u> consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.
- b. <u>Restricted net position</u> consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. <u>Unrestricted net position</u> net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

When both restricted and unrestricted net position are available for use, it is the District's policy to use restricted resources first, then unrestricted as needed.

(1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)</u>

Operating Revenues and Expenses

The District's Statement of Revenues, Expenses and Change in Net Position distinguishes between operating and non-operating revenues and expenses. Operating revenues result from exchange transactions associated with golf operations, merchandise sales, and facility rental, – the District's principal activity. Non-exchange revenues represent special assessments and donations received. Operating expenses are all expenses incurred to provide services, other than financing costs.

Donations

The District may receive donations from individuals and private organizations. Donation revenue (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements are met. Donations may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenues. Amounts restricted to capital acquisitions are reported after nonoperating revenues and expenses.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Date of Management's Review

Management has evaluated subsequent events through September 18, 2023, the date which the financial statements were available to be issued.

Newly Adopted Accounting Pronouncements

As of April 1, 2022, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. Even though there is no interest included in the lease agreements, it establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. These changes were incorporated in the District's 2023 financial statements and had no effect on the beginning net position of the District or the fund statements.

(2) <u>CASH AND CASH EQUIVALENTS</u>

At March 31, 2023, the District had cash (book balances) totaling \$1,770,969. The District is authorized under state law to deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, and the laws of the United States. The District may also invest in U.S. Treasury securities and other evidence of indebtedness issued or guaranteed by federal agencies and time certificates of deposit with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of such pledged securities and federal deposit insurance must equal or exceed the amount on deposit with the fiscal agent.

At March 31, 2023, the District's deposits were secured from risk by federal deposit insurance at local institutions and through the promontory insured cash sweep service (ICS). Financial institutions that use ICS benefit from the Promontory Network advantage and the confidence of knowing that ICS is endorsed by the American Bankers Association and enjoys strategic marketing alliances with key trade associations across the United States. When a customer submits funds to a Promontory Network member (Gulf Coast Bank and Trust) for placements through ICS, that institution places the funds into deposit accounts at FDIC-insured banks that are also members of the ICS Network. This occurs in increments below the standard FDIC insurance maximum (\$250,000) so that both principal and interest are eligible for FDIC insurance. By working directly with just one institution (Gulf Coast Bank and Trust), the District is able to receive FDIC coverage from many financial institutions while only working with a single bank (Gulf Coast Bank and Trust). At March 31, 2023, the Districts' cash equivalent bank balances held in Promontory Insured Cash Sweep accounts were \$1,456,984.

(3) <u>PARCEL ASSESSMENT RECEIVABLE AND REVENUE</u>

Parcel assessments are reported as revenues in the period for which they are levied.

The District levies an annual parcel assessment on all parcels within the District as of November 15 of each year. Current parcel assessments are received beginning in December of each year and become delinquent after January 31 of the following year. Parcel assessments are billed and collected by the Jefferson Parish Sheriff's Office which retains a fee for its services.

In 2019, the parcel owners of the District voted and approved a special assessment not to exceed \$1,950 per parcel for a term of 10 years (2019-2028) for use in the improvement, beautification and overall betterment of the District. Annually, the Commissioners vote to set the special assessment rate for the upcoming year.

During the 2023 fiscal year the District recorded revenues of \$1,015,950, which is presented net of related tax collection fees of \$10,033 in the statement of revenues, expenses, and changes in net position. At March 31, 2023, the District was owed \$54,677 for future collections of 2022 calendar year taxes. The District did not calculate an allowance of uncollectible parcel assessment revenues of the current year assessment as it believes all parcel assessments are collectible.

(8) <u>CONCENTRATIONS OF CREDIT RISK</u>

From Accounts Receivable

The District grants credit to its members, most of who are residents of the District. Members are only allowed to charge with a valid credit card on file which is charged monthly.

From Revenues

The District is located in Gretna, Louisiana and relies on parcel assessments, which were approximately 48% of its total revenues for 2023.

(9) <u>MANAGEMENT AGREEMENT</u>

On April 1, 2020, the District entered into a management agreement with CGPM Managers, LLC for the management of the operation golf course and pro shop. The agreement authorizes CGPM Managers, LLC to perform operational, managerial, administrative, supervisory, accounting, and other services related to the management of the golf course facility, golf pro shop, and membership services, under the supervision of the Board of Commissioners of the District. The agreement is for an initial period of three years with an automatic extension of two years, if certain metrics are met. The base management fee is \$7,000 per month for the first year and the \$8,000 for years two and three. The agreement also entitles CGPM Managers, LLC for an incentive payment based upon metrics in the agreement. During the year ended March 31, 2023, the District recorded \$96,000 of management fees and \$6,144 of incentive fees paid to CGPM Managers, LLC, which is included in golf course management expense on the statement of revenues, expenses, and changes in net position. (10) <u>LAND COVENANTS</u>

(11) <u>RISK MANAGEMENT</u>

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District carries commercial insurance in amounts sufficient to insure itself against claims resulting from any of those risks.

(12) <u>COMMITMENTS</u>

In March of 2023, the District entered into a \$86,400 construction commitment for a new maintenance building. As of March 31, 2023, the District had paid \$28,866 towards the commitment and had \$57,534 remaining for work that had not been performed by the contractor.

Prior to the District obtaining the real property of the Timberlane Country Club, Inc (the Seller), the Seller executed a lease in December 2019 with Café Hope Inc. (the Tenant) as the Tenant of the main club house building, swimming pool, and other recreational properties except for the golf course. The lease is for a term of 99 years.

The District assumed this lease in the purchase of the real property of the Seller. The rent for this lease is the performances of the respective obligations and covenants of the Tenant and Landlord to each other whereby each of the parties obtains an advantage in exchange for his obligation, the parties obligate themselves reciprocally, so that the obligation of each party is correlative to the obligation of the other, the rights granted to Tenant by Landlord and the rights retained by Landlord, for the use and enjoyment of the Demised Premises. Rent includes the payment by Tenant of the cost of all repairs, maintenance, renovations, and improvements to the premises and the other obligations of Tenant set forth. As of the report date, the Tenant had not yet completed significant renovations and improvements as outlined in the agreement.

For the first ten years of the lease, beginning January 1, 2020, the District shall pay the tenant a portion of the building maintenance and operation expense for resident members' use of the premises in the amount of \$28.00 per month per taxable parcel within the district. During the year ended March 31, 2023, the District recorded expense of \$175,056 under the terms of this agreement. The District has not made payment for the previous 25 months due to the Tenant's noncompliance with its obligations under the agreement. At March 31, 2023, the District has accrued but not paid \$364,700 in connection with this agreement, which is included in accrued liabilities on the statement of net position.

The GASB has issued Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements." The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and publicpublic partnership arrangements (PPPs). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The District plans to adopt this Statement as applicable by the effective date.

The GASB has issued Statement No. 96, "Subscription-Based Information Technology Arrangements." Under this Statement, a government generally should recognize a rightto-use subscription asset—an intangible asset—and a corresponding subscription liability. A government should recognize the subscription liability at the commencement of the subscription term, —which is when the subscription asset is placed into service. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The District plans to adopt this Statement as applicable by the effective date.

OTHER REPORT REQUIRED BY GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To The Board of Commissioners and Management of the Timberlane Neighborhood Improvement and Beautification District Gretna, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Timberlane Neighborhood Improvement and Beautification District (the District), as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated September 18, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

To The Board of Commissioners and Management of the Timberlane Neighborhood Improvement and Beautification District September 18, 2023

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
