## **INDEPENDENT AUDITOR'S REPORT**

The Honorable Stewart Hughes,  
West Feliciana Parish Clerk of Court  
P. O. Box 1843  
St. Francisville, Louisiana 70775

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

I have audited the financial statements of the governmental-type activities, the major fund, and the aggregate remaining fund information of the West Feliciana Parish Clerk of Court, a component unit of West Feliciana Parish Government, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements as listed in the table of contents.

In my opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental-type activities, the major fund, and the aggregate remaining fund information of the West Feliciana Parish Clerk of Court, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

I conducted my audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of West Feliciana Parish Clerk of Court, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the West Feliciana Parish Clerk of Court's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of West Feliciana Parish Clerk of Court's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the West Feliciana Parish Clerk of Court's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

**Other Matters - Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule, schedule of change in net other post-retirement benefits liability and related ratios, and schedule of employer's share of net pension liability and schedule of employer contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

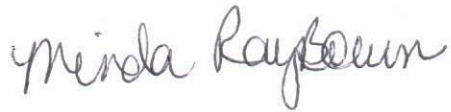

**Other Matters - Other Information**

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements. The combining schedule of compensation, benefits and other payments to agency head and Justice System funding schedule-collecting/dispersing entity are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements of to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of compensation, benefits and other payments to agency head and Justice System funding schedule-collecting/dispersing entity are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, I have also issued my report dated December 31, 2024 on my consideration of the West Feliciana Parish Clerk of Court's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope

of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the West Feliciana Parish Clerk of Court's internal control over financial reporting and compliance.

## **NOTES TO FINANCIAL STATEMENTS**

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

**INTRODUCTION**

The West Feliciana Parish Clerk of Court (hereinafter referred to as the Clerk), as provided by Article V, Section 28 of the Louisiana Constitution of 1974, serves as the ex-officio notary public; the recorder of conveyances, mortgages and other acts; and has other duties and powers provided by law. The Clerk of Court is elected for a four-year term.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation:** The accounting and reporting practice of the West Feliciana Parish Clerk of Court conforms to generally accepted accounting principles as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

The financial report has been prepared in conformity with GASB Statement 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*.

**Financial Reporting Entity:** Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Codification Section 2100, the West Feliciana Parish Government is the financial reporting entity for West Feliciana Parish. The Clerk, therefore, is considered a component unit of the West Feliciana Parish Government. It has been determined that the financial statements of the Council would be misleading if data of the Clerk is not included because of the nature or significance of the relationship. The accompanying financial statements, however, present only the transactions of the West Feliciana Parish Clerk of Court.

**Government-wide Accounting:** In accordance with Government Accounting Standards Boards Statement No. 34, the Clerk has presented a statement of net position and statement of activities for the Clerk as a whole. These statements include the primary government and its component units, if applicable, with the exception of fiduciary funds. Those funds are reported separately. Government-wide accounting is designed to provide a more comprehensive view of the government's operations and financial position as a single economic entity.

Government-wide statements distinguish between governmental and business-type activities. Governmental activities are those financed through taxes, intergovernmental revenues and other non-- exchange revenues and are usually reported in governmental and internal service funds. Business activities are financed in whole or in part through fees charged for goods or services to the general public and are usually reported in proprietary funds.

Policies specific to the government-wide statements are as follows:

*Eliminating Internal Activity*

Interfund receivables and payable are eliminated in the statement of net position except for the net residual amounts due between governmental and business-type activities. These are presented as internal balances. The allocation of overhead expenses, from one function to another or within the same function, is eliminated in the statement of activities. Allocated expenses are reported by the function to which they were allocated.

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

*Program Revenues*

The statement of activities presents three categories of program revenues: (1) charges for services; operating grants and contributions; and (3) capital grants and contributions. Charges for services are those revenues arising from charges to customers who purchase, use or directly benefit from goods and services provided by the Clerk. Grants and contributions, whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

*Indirect Expenses*

Expenses are reported according to function except for those that meet the definition of special or extraordinary items. Direct expenses are specifically associated with a service or program. Indirect expenses include general government or administration that cannot be specifically traced to a service or program. Governments are not required to allocate indirect expenses to other functions, and the Clerk has chosen not to do so.

*Operating Revenues*

Proprietary funds separately report operating and non-operating revenues.

*Restricted Net Position*

Restricted net position is those for which a constraint has been imposed either externally or by law. The Clerk recognizes the use of restricted resources for expenditures that comply with the specific restrictions. Restricted resources are exhausted before unrestricted net position is used.

**Fund Accounting:** The Clerk uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate entity with a self-balancing set of accounts. Funds of the Clerk are classified under two categories: governmental and fiduciary. Each category, in turn, is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

**Governmental Funds:** Governmental funds account for all or most of the Clerk's general activities, including the collection and disbursement of specific or legally reserved monies, the acquisition or construction of general fixed assets, and the servicing of general long-term obligations. Governmental funds of the Clerk include:

General - accounts for all activities not required to be reported in another fund.

**Fiduciary Funds:** These fund types are used to account for assets held in trust for third-party individuals, private organizations and/or other governmental units/funds. Fiduciary funds include:

Custodial Funds -The Advance Deposit and Registry of Court agency funds account for assets held by the Clerk as an agent for others, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The Advance Deposit Fund, as provided by Louisiana Revised Statute 13:842, accounts for advance deposits on suits filed by litigants. The advances are refundable to the litigants after all costs have been paid.

The Registry of Court Fund, as provided by Louisiana Revised Statute 13:475, accounts for funds that

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

have been ordered by the Clerk to be held until judgment has been rendered in court litigation. Withdrawal of these funds can be made only upon order of the Court.

**Basis of Accounting/Measurement Focus:** In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The type of financial statement presentation determines the accounting and financial reporting treatment applied to a fund.

The government-wide statements are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of governmental and business-type activities are included in the statement of net position. Revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred in the statement of activities. In these statements, capital assets are reported and depreciated in each fund, and long-term debt is reported.

The fund statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements present increases and decreases in net current assets. Expenditures for capital assets are reported as current expenses, and such assets are not depreciated. Principle and interest paid on long-term debt is reported as current expenses.

**Budgets and Budgetary Accounting:** The Clerk adopts an annual budget for its general fund, prepared in accordance with the basis of accounting utilized by that fund. Appropriations lapse at year-end. There were amendments made to the budget during the fiscal year ended June 30, 2024.

**Cash and Cash Equivalents:** Cash includes amounts in demand deposits, interest bearing demand deposits and time certificates. Cash equivalents include amounts in investments with original maturities of 90 days or less. Under state law, the Clerk may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

**Investments:** Investments are limited by Louisiana Revised Statute 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as cash and cash equivalents. In accordance with GASB Statement No. 31, investments are recorded at fair value with the corresponding increase or decrease reported in investment earnings.

**Inventory:** Inventory is reported at cost. It includes only office supplies, the amount of which is considered immaterial. Therefore, the acquisition of such items is expensed when purchased, and the inventory on hand at year-end is not reported in the accompanying financial statements.

**Receivables:** Trade receivables are recorded at management's estimate of the amount that is expected to be collected. This is based in part on historical information. There is no allowance recorded in the accompanying financial statements as management expects nearly 100% of its outstanding receivables to be collected. Revenues

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

become susceptible to accrual when they become both measurable and available.

**Capital Assets:** Capital assets, which include property, plant, and equipment, are reported in the governmental activities' column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Clerk maintains a threshold level of \$500 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. In the fund financial statements, capital assets used in government fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Depreciation is provided over the assets' following estimated useful lives using the straight-line method of depreciation.

| Furniture             | 7 Years  |
| Office Equipment      | 7 Years  |
| Technology Equipment  | 5 Years  |

**Compensated Absences:** The Clerk has the following policy relating to vacation and sick leave:

*Vacation leave* - All full-time employees of the Clerk of Court earn vacation leave at varying rates depending on their length of employment with the Clerk's office. Such leave is non-cumulative beyond the year in which it is earned. If an employee terminates at the end of the year, he/she will be paid for his/her unused vacation leave earned.

*Sick leave* - Sick leave is earned at a rate of one to one and one-half days per month, depending upon their length of service. Sick leave may be carried forward from year to year.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current-year expenditure in the General Fund when leave is actually earned. Because leave is non-cumulative, no provision for compensated absences is recorded in the accompanying financial statements.

**Long-Term Obligations:** In the government-wide financial statements, debt principal payments of government activities are reported as decreases in the balance of the liability on the statement of net position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid.

**Deferred Outflows/Inflows of Resources:** In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. At June 30, 2024, the Clerk of Court's deferred outflows and inflows of resources are attributable to its pension plan and postemployment benefit obligation. Deferred outflows total \$458,824 and deferred inflows total \$190,863.

**Pension Plan:** The Louisiana Clerks' of Court Retirement and Relief Fund prepared its employer schedules in accordance with GASB No. 68 - *Accounting and Financial Reporting for Pensions - an amendment of GASB*

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

*Statement No. 27* which provides for the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed.

**Use of Estimates:** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Net Position/Fund Balances:** In the statement of net position, the difference between a government's assets and deferred outflows of resources and its liabilities and deferred inflows of resources is recorded as net position. The three components of net position are as follows:

*Net Investment in Capital Assets*

This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowings attributable to the acquisition, construction or improvement of capital assets.

*Restricted Net Position*

Net position that is reserved by external sources, such as banks or by law, is reported separately as restricted net position. When assets are required to be retained in perpetuity, this non-expendable net position is recorded separately from expendable net position. These are components of restricted net position.

*Unrestricted Net Position*

This category represents net position not appropriable for expenditures or legally segregated for a specific future use.

In the Balance Sheet of governmental funds, fund balances are segregated as follows:

*Non-spendable*

This includes amounts that cannot be spent because they are either a) not in spendable form, or b) legally or contractually required to be maintained intact.

*Restricted*

These are amounts that can be spent only for specific purposes, because of constitutional provisions, enabling legislation or constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

*Committed*

These are amounts that can be used only for specific purposes pursuant to constraints determined by the Clerk of Court. These amounts cannot be used for any other purpose unless the Clerk of Court removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing sources have been specifically committed for use in satisfying those contractual demands.

*Assigned*

These are amounts that are reported in governmental funds other than the General Fund that are neither restricted or committed and amounts in the General Fund that are intended to be used for a specific purpose in accordance with the provisions of GASB Statement 54. The intent of an assigned fund balance should be

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

expressed by the Clerk of Court who has the authority to assign amounts for specific purposes.

*Unassigned*

These are amounts that have not been assigned to other funds and amounts that have not been restricted, committed, or assigned to specific purposes within the general fund. Also, within other governmental funds, these include expenditure amounts incurred for specific purposes which exceed the amounts restricted, committed or assigned for those purposes.

**Inter-fund Transactions:** All interfund transactions except quasi-external transactions are reported as operating transfers. These are eliminated in the government-wide statements.

**New Accounting Pronouncement:** For 2024, the Clerk implemented GASB Statement No 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset.

**NOTE 2 - CASH AND CASH EQUIVALENTS**

At June 30, 2024, the Clerk had cash and cash equivalents (book balances) as follows:

|                 | Governmental<br>Activities | Fiduciary<br>Activities |
|-----------------|----------------------------|-------------------------|
| Demand Deposits | \$ 110,662                 | \$ 987,169              |
| LAMP, Inc.      | 1,516,218                  | 381,820                 |
| Total           | <u>\$ 1,626,880</u>        | <u>\$ 1,368,989</u>     |

Deposits are stated at cost, which approximates market. Under state law, they must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Even though pledged securities are not held in the entity's name, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Clerk of court that the fiscal agent has failed to pay deposited funds upon demand.

Custodial risk as it relates to cash deposits is the risk that in the event of a bank failure, the government's deposits may not be returned. The Clerk of Court does not have a formal policy for custodial risk. However, under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank.

At June 30, 2024, the bank balances are \$1,126,882. Of these bank balances, \$750,000 is covered by FDIC insurance (for general fund and two custodial funds) and \$376,882 is uninsured but collateralized with securities held in the name of various federal agencies in the name of the fiscal agent bank.

During the year, the Clerk adopted GASB Statement No 96, Subscription- Based Information Technology Arrangements (SBITAs). There result of implementation was the addition of SBITA greater than 12 months recorded as a right-of-use asset, a subscription asset, categorized as a capital asset, along with a subscription payable in the governmental activities. The subscription liability is measured at the present value of payments expected to be made during the subscription term. The subscription asset is measured at the initial measurement of the lease liability, plus any payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term and capitalizable initial implementation costs, less any SBITA vendor incentives. The subscription asset is amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets. The Clerk uses the straight-line method for amortizing subscription assets.

All depreciation and amortization expense was charged to governmental activities. The expense was \$5,646. Amortization expense was \$31,494.

**NOTE 8 - ON-BEHALF PAYMENTS**

Certain operating expenditures of the Clerk's office are paid by the West Feliciana Parish Government. Additionally, the Parish Government provides office space and certain furniture for the Clerk's use. These expenditures are not reported in the accompanying financial statements.

**NOTE 9 – LEASES**

The Clerk has made an accounting policy election not to recognize right-of-use assets and lease liabilities that arise from short-term leases for any class of underlying asset. The Clerk has a 12-month lease of a copier. The Clerk has considered all relevant factors and determined that it is not reasonably certain to exercise any options to extend. Because at lease commencement the Clerk is not reasonably certain to extend any options, the lease term is 12 months. Rental paid during the year on this equipment totaled \$3,600.

**NOTE 10 - PENSION PLAN**

**Plan Description.** Substantially all employees of the West Feliciana Parish Clerk of Court are members of the Louisiana Clerks of Court Retirement and Relief Fund, a cost-sharing, multiple-employer defined benefit pension plan, which was established in accordance with La. Revised Statute 11:1501 to provide regular, disability and survivor benefits for clerks of court, their deputies and other employees, and their beneficiaries.

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

**Retirement Benefits.** A member or former member shall be eligible for regular retirement benefits upon attaining 12 or more years of credited service, attaining the age of 55 years (age 60 if hired on or after January 1, 2011), and terminating employment. Regular retirement benefits, payable monthly for life, is equal to 3% percent of the member's monthly average final compensation multiplied by the number of years of credited service, not to exceed 100% of the monthly average final compensation. The retirement benefit accrual rate is increased to 3½% for all service credit accrued after June 30, 1999 (for members hired prior to January 1, 2011). For members hired before July 1, 2006 and who retire prior to January 1, 2011, monthly average final compensation is based on the highest 36 consecutive months, with a limit increase of 10% in each of the last three years of measurement. For members hired after July 1, 2006, monthly average final compensation is based on the highest compensated 60 consecutive months, or successive joined months if service was interrupted, with a limit increase of 10% in each of the last five years of measurement. For members who were employed prior to July 1, 2006 and who retire after December 31, 2010, the period of final average compensation is 36 months plus the number of whole months elapsed since January 1, 2011, not to exceed 60 months.

**Disability Benefits.** Disability benefits are awarded to active members who are totally and permanently disabled as a result of injuries sustained in the line of duty or to active members with 10 or more years of credible service who are totally disabled due to any cause. A member who is officially certified as totally or permanently disabled by the State Medical Disability Board will be paid monthly disability retirement benefits equal to the greater of forty percent of their monthly average final compensation or 75% of their monthly regular retirement benefit computed as per R.S. 11:1521 (C).

**Survivor Benefits.** Upon the death of any active contributing member with less than five years of credited service, his/her accumulated contributions are paid to his/her designated beneficiary. Upon the death of any active contributing member with five or more years of credited service, automatic option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with option factors used as if the member had continued in service to earliest normal retirement age. Benefit payments are to commence on the date a member would have first become eligible for normal retirement assuming continued service until that time. In lieu of a deferred survivor benefit, the surviving spouse may elect benefits payable immediately with benefits reduced ¼ of 1% for each month by which payments commence in advance of member's earliest normal retirement age. If a member has no surviving spouse, the surviving minor children under 18 or disabled children shall be paid ½ of the member's accrued retirement benefit in equal shares. Upon the death of any former member with less than 12 years of service, the designated beneficiary may receive his/her accumulated contributions. Upon the death of any former member with 12 or more years of service, automatic option 2 benefits are payable to the surviving spouse with payments to commence on the member's retirement eligibility date. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

**Deferred Retirement Option Plan (DROP).** In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in the Deferred Retirement Option Plan (DROP) for up to 36 months and defer the receipt of benefits. Upon commencement of participation in the plan, active membership in the Fund terminates and the participant's contributions cease; however, employer contributions continue.

**WEST FELICIANA CLERK OF COURT  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2024**

Compensation and creditable service remain as they existed on the effective date of commencement of participation in the plan. The monthly retirement benefits that would have been payable, had the member elected to cease employment and receive a service retirement allowance, are paid into the DROP account. Upon termination of employment at the end of the specified period of participation, a participant in the program may receive, at his option, a lump sum payment from the DROP account equal to the payments to the account or a true annuity based upon his account (subject to approval by the Board of Trustees). In addition, the member receives the monthly benefits that were paid into the DROP fund during his period of participation.

If employment is not terminated at the end of the participation period, payments into the account cease and the member resumes active contributing membership in the Fund. Interest is paid on DROP account balances for members who complete their DROP participation but do not terminate employment. The interest earnings are based on the actual rate of return on funds in such accounts. These interest accruals cease upon termination of employment.

Upon termination, the member receives a lump-sum payments from the DROP fund equal to the payments made to that fund on his behalf or a true annuity based in his account (subject to approval by the Board of Trustees). The monthly benefit payments that were being paid into the DROP fund are paid to the retiree and an additional benefit based on his additional service rendered since termination of DROP participation is calculated using the normal method of benefit computation. Prior to January 1, 2011, the average compensation used to calculate the additional benefit is that used to calculate the original benefit unless his period of additional service is at least 36 months. Effective January 1, 2011, the average compensation for members whose additional service is less than 36 months is equal to the lesser amount used to calculate the original benefit or the compensation earned in the period of additional service divided by the number of months of additional service. For former DROP participants who retire after December 30, 2010, the period used to determine final average compensation for post-DROP service is 36 months plus the number of whole months elapsed from January 1, 2011 to the date of DROP entry. In no event can the entire monthly benefit amount paid to the retiree exceed 100% of the average compensation used to compute the additional benefit. If a participant dies during the period of participation in the program, a lump sum payment equal to his account balance is paid to his named beneficiary or, if none, to his estate.

**Cost of Living Adjustments.** The Board of Trustees is authorized to grant retired members and widows of members who have been retired for at least one full calendar year an annual cost of 2.5% of their benefit (not to exceed \$40 per month), and all retired members and widows who are 65 years of age or older a 2% increase in their original benefit (or their benefit as of October 1, 1977, if they retired prior to that time). In order to grant the 2.5% COLA, the increase in the consumer price index must have exceeded 3% since the last COLA granted. In order for the Board to grant either of these increases, the Fund must meet certain other criteria as detailed in the Louisiana statute relating to funding status. In lieu of granting the above cost of living increases, Louisiana statutes allow the Board to grant a cost-of-living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost-of-living amount which cannot exceed \$1.

**WEST FELICIANA CLERK OF COURT  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2024**

**Contributions.** Contribution requirements are actuarially determined each year. For the year ending June 30, 2024, the Clerk's rate was 23.00% of annual covered payroll while the employees contributed 8.25%. In addition, the Louisiana Legislature passed R.S. 11: 1562(C) which allows the Clerk of Court to pay out of the Clerk's operating funds all or any portion of the employee required contributions which would otherwise be deducted from the employee's salary. The Clerk has elected to pay 100% of all retirement system contributions to the Louisiana Clerk of Court Retirement and Relief Fund. The West Feliciana Clerk of Court's contributions to the Fund for the year ended June 30, 2024 were \$97,726 (normal employer portion of \$72,237 and employee portion paid by the Clerk of \$25,489).

In accordance with state statute, the Fund receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities. Contributions from non-employer contributing entities were \$32,228.

**Pension Liabilities, Pension Expense, Deferred Outflows and Inflows of Resources Related to Pensions.** At June 30, 2024, the Clerk reported a liability of \$547,841 for its proportionate share of the Fund's net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Clerk's proportion of the net pension liability was based on a projection of the Clerk's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Clerk's proportion at that date was .254662%, which was a decrease of 0.005157% from the prior year.

Pension expense of \$119,968 was recognized for the year ended June 30, 2024. Deferred outflows and inflows of resources related to pensions were reported from the following sources:

|   | Deferred<br>Outflows | Deferred<br>Inflows |
|---|----------------------|---------------------|
| Difference between expected and actual experience   | \$ 2,958             | \$ (5,576)          |
| Changes of assumptions  | 27,311               | -                   |
| Change in proportion and differences between the employer's contributions and the employer's proportionate share of contributions | 137,935              | (42,634)            |
| Net differences between projected and actual earnings on plan investments   | 61,105               | -                   |
| Employer contributions subsequent to measurement date   | 97,726               | -                   |
| Total   | <u>\$ 327,035</u>    | <u>\$ (48,210)</u>  |

Deferred outflows of resources of \$97,726 related to pensions resulting from the Clerk's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**WEST FELICIANA CLERK OF COURT

|                            | <u>\$ 137,218</u> |

**Actuarial Methods and Assumptions.** The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2024 is as follows:

|                                  |  |
|----------------------------------|--|
| Valuation Date                   | 6/30/2023  |

|                                  | 2020-5 years   |
|                                  | 2019-5 years   |
| Cost of Living Adjustments       | The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed to be substantively automatic. |

The actuarial assumptions used are based on the assumptions used in the 2023 actuarial funding valuation which (with the exception of mortality) were based on results of an actuarial experience study for the period July 1, 2014 - June 30, 2019, unless otherwise specified.

The mortality rate assumption used was verified by combining data from this plan with three other statewide plans which have similar workforce composition in order to produce a credible experience. The aggregated data was collected over the period July 1, 2014 through June 30, 2019. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected

**WEST FELICIANA CLERK OF COURT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024**

forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected real rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term expected rate of return was 5.81% for the year ended June 30, 2023.

The best estimates of geometric real rates of return for each major asset class included in the Fund's target asset allocation as of June 30, 2023 is summarized in the following table:

| <u>Asset Class</u>   | <u>Target<br/>Asset<br/>Allocation</u> | <u>Long-Term<br/>Expected<br/>Portfolio Real<br/>Rate of Return</u> |
|----------------------|--|---|
| Fixed Income:        |  |   |
| Domestic Bonds       | 30.00%                                 | 2.50%   |
| International Bonds  |  | 3.50%   |
| Domestic Equity      | 35.00%                                 | 7.50%   |
| International Equity | 20.00%                                 | 8.50%   |
| Real Estate          | 15.00%                                 | 4.50%   |
| Totals               | <u>100.00%</u>                         |   |

**Discount Rate.** The discount rate used to measure the total pension liability was 6.55%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity to Changes in Discount Rate.** The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 6.55%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.55%) or one percentage point higher (7.55%) than the current rate.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Stewart Hughes,  
West Feliciana Parish Clerk of Court  
P. O. Box 1843  
St. Francisville, Louisiana 70775

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental-type activities, the major fund, and the aggregate remaining fund information of the West Feliciana Parish Clerk of Court, a component unit of the West Feliciana Parish Government, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements, and have issued my report thereon dated December 31, 2024.

**Internal Control over Financial Reporting**

In planning and performing my audit of the financial statements, I considered the West Feliciana Parish Clerk of Court's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the West Feliciana Parish Clerk of Court's internal control. Accordingly, I do not express an opinion on the effectiveness of the West Feliciana Parish Clerk of Court's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a

material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the West Feliciana Parish Clerk of Court's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* in the schedule of findings and responses.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, others within the agency, the Legislative Auditor and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

  - iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
  - iv. Observe whether the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

**3) *Bank Reconciliations***

---

1. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
  - i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
  - ii. Bank reconciliations include written evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation within 1 month of the date the reconciliation was prepared (e.g., initialed and dated or electronically logged); and

- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (e.g., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if there are no written policies or procedures, then inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that
  - i. Employees responsible for cash collections do not share cash drawers/registers;
  - ii. Each employee responsible for collecting cash is not also responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit;
  - iii. Each employee responsible for collecting cash is not also responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit; and
  - iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or custodial fund additions, is (are) not also responsible for collecting cash, unless another employee/official verifies the reconciliation.
- C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe that the bond or insurance policy for theft was in force during the fiscal period.
- D. Randomly select two deposit dates for each of the 5 bank accounts selected for Bank Reconciliations procedure #3A (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). *Alternatively, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc.* Obtain supporting documentation for each of the 10 deposits and
  - i. Observe that receipts are sequentially pre-numbered.
  - ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.

- iv. Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
- v. Trace the actual deposit per the bank statement to the general ledger.

*No exceptions noted.*

**5) Non-Payroll Disbursements (excluding card purchases, travel reimbursements, and petty cash purchases)**

---

1. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
2. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, then inquire of employees about their job duties), and observe that job duties are properly segregated such that
  - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order or making the purchase;
  - b) At least two employees are involved in processing and approving payments to vendors;
  - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files;
  - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments; and
  - e) Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.

*[Note: Findings related to controls that constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality) should not be reported.]*

3. For each location selected under procedure #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and
  - i. Observe whether the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity, and
  - ii. Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under procedure #5B above, as applicable.
4. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if

less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. *Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.*

Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and
  - a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved) by someone other than the authorized card holder (those instances requiring such approval that may constrain the legal authority of certain public officials, such as the mayor of a Lawrason Act municipality, should not be reported); and
  - b) Observe that finance charges and late fees were not assessed on the selected statements.
- C. Using the monthly statements or combined statements selected under procedure #7B above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to inspection). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

*EXCEPTIONS NOTED: One card statement had receipts missing for recurring charges for employee supplemental health insurance premiums, Adobe, and Microsoft charges. The Clerk of Court verified the charges with documentation.*

*MANAGEMENT RESPONSE: The Clerk of Court will ensure all receipts are attached for all charges each month when the statement is reviewed and processed for payment.*

- C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials and obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee's or official's cumulative leave records, agree the pay rates to the employee's or official's authorized pay rates in the employee's or official's personnel files, and agree the termination payment to entity policy.
