INDEPENDENT AUDITOR'S REPORT

The Honorable Felicia Ann Hendl,
West Feliciana Parish Clerk of Court
P. O. Box 1843
St. Francisville, Louisiana 70775

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental-type activities and the major fund of the West Feliciana Parish Clerk of Court, a component unit of the West Feliciana Parish Police Jury, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements as listed in the table of contents. I have also audited each fiduciary fund type of the West Feliciana Parish Clerk of Court, as of and for the year ended June 30, 2019, as displayed in the Clerk of Court's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental-type activities as well as each fiduciary fund type of the West Feliciana Parish Clerk of Court, a component unit of the West Feliciana Parish Police Jury, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters - Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule and schedule of change in OPEB liability and related ratios, schedule of employer's share of net pension liability and schedule of employer contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

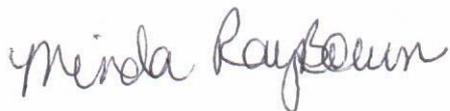

Other Matters - Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements.

The combining statement of fiduciary net position, schedule of changes in fiduciary net position and schedule of compensation, benefits and other payments to agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements of to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining statement of fiduciary net position, schedule of changes in fiduciary net position and schedule of compensation, benefits and other payments to agency head are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated December 22, 2019, on my consideration of the West Feliciana Parish Clerk of Court's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the West Feliciana Parish Clerk of Court's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019**

The purpose of management's discussion and analysis (MD&A) is to introduce the basic financial statements and provide an analytical overview of the Clerk of Court's financial activities. Since this information is designed to focus on the current year's activities, resulting changes and currently known facts, it should be read in conjunction with the financial statements beginning on page 9.

OVERVIEW OF THE FINANCIAL STATEMENT PRESENTATION

This annual report consists of three components - (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. There is also other supplementary information contained in this report provided for additional information. The government-wide financial statements provide information about the activities of the Clerk of Court as a whole and present a longer- term view of its finances. Fund financial statements depict how these activities were financed in the short-term as well as what remains for future spending.

Government-wide Financial Statements. The government-wide financial statements present financial information for all activities of the Clerk from an economic resource measurement focus using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. They include a statement of net position and statement of activities.

Statement of Net Position. This statement presents information on all of the Clerk's assets, deferred outflows of resources, liabilities and inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Clerk of Court's office is improving or not.

Statement of Activities. This statement presents information showing how the Clerk's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This statement is designed to show the Clerk's financial reliance on general revenues.

The government-wide financial statements can be found on pages 12-13 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Clerk uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Clerk of Court has only one category of funds, governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements except that the focus with fund statements is to provide a distinct view of the Clerk of Court's governmental funds only. These statements report short-term fiscal accountability emphasizing the use of spendable resources during the year and balances of spendable resources available at the end of the year.

Because the view of governmental funds is short-term and the view of the government-wide financial statements is long-term, it is useful to compare these two perspectives. The governmental funds provide a reconciliation to the government-wide statements to assist in understanding the differences between the two viewpoints. These statements can be found on pages 15-18 of this report.

Fiduciary Funds. The Clerk of Court is the trustee, or fiduciary, over assets which can only be used for the trust beneficiaries; these include advance deposits, registry of court and indigent transcript funds. The activity of these funds are reported separately in the statement of fiduciary net position on page 19 and schedule of changes in fiduciary net position found in supplementary information. These activities are excluded from government-wide and fund financial statements because the assets of fiduciary funds cannot be used to finance operations of the Clerk.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes begin on page 20.

FINANCIAL ANALYSIS OF THE CLERK OF COURT

The net position increased by \$215,921 or 43%. Total assets increased \$232,714. This was a result in cash and investments. Total current liabilities increased \$4,960 due to an increase in accounts payable and other accrued liabilities. Total long-term liabilities increased \$150,164. This was due to the accounting adjustments for pensions and other post-retirement benefits other than pensions required by GASB.

Below is a comparison of the current and prior year's net position.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

INTRODUCTION

The West Feliciana Parish Clerk of Court (hereinafter referred to as the Clerk), as provided by Article V, Section 28 of the Louisiana Constitution of 1974, serves as the ex-officio notary public; the recorder of conveyances, mortgages and other acts; and has other duties and powers provided by law. The Clerk of Court is elected for a four-year term.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accounting and reporting practice of the West Feliciana Parish Clerk of Court conforms to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513 and to the guides set forth in the *Louisiana Governmental Audit Guide*, and to the industry audit guide *Audits of State and Local Governmental Units*.

The following is a summary of certain significant accounting policies:

Financial Reporting Entity: Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Codification Section 2100, the West Feliciana Parish Police Jury is the financial reporting entity for West Feliciana Parish. The Clerk, therefore, is considered a component unit of the West Feliciana Parish Police Jury. It has been determined that the financial statements of the Council would be misleading if data of the Clerk is not included because of the nature or significance of the relationship. The accompanying financial statements, however, present only the transactions of the West Feliciana Parish Clerk of Court.

Government-wide Accounting: In accordance with Government Accounting Standards Boards Statement No. 34, the Clerk has presented a statement of net position and statement of activities for the Clerk as a whole. These statements include the primary government and its component units, if applicable, with the exception of fiduciary funds. Those funds are reported separately. Government-wide accounting is designed to provide a more comprehensive view of the government's operations and financial position as a single economic entity.

Government-wide statements distinguish between governmental and business-type activities. Governmental activities are those financed through taxes, intergovernmental revenues and other non-- exchange revenues and are usually reported in governmental and internal service funds. Business activities are financed in whole or in part through fees charged for goods or services to the general public and are usually reported in proprietary funds.

Policies specific to the government-wide statements are as follows:

Eliminating Internal Activity

Interfund receivables and payable are eliminated in the statement of net position except for the net residual amounts due between governmental and business-type activities. These are presented as internal balances. The allocation of overhead expenses, from one function to another or within the same function, is eliminated in the statement of activities. Allocated expenses are reported by the function to which they were allocated.

WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Capitalizing Assets

Tangible and/or intangible assets used in operations with an initial useful life that extends beyond one year are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Clerk maintains a threshold level of \$500 or more for capitalizing assets. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows: equipment and furniture - 5-7 years. Capital assets are reported net of accumulated depreciation on the statement of net position.

Program Revenues

The statement of activities presents three categories of program revenues: (1) charges for services; operating grants and contributions; and (3) capital grants and contributions. Charges for services are those revenues arising from charges to customers who purchase, use or directly benefit from goods and services provided by the Clerk. Grants and contributions, whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

Indirect Expenses

Expenses are reported according to function except for those that meet the definition of special or extraordinary items. Direct expenses are specifically associated with a service or program. Indirect expenses include general government or administration that cannot be specifically traced to a service or program. Governments are not required to allocate indirect expenses to other functions, and the Clerk has chosen not to do so.

Operating Revenues

Proprietary funds separately report operating and non-operating revenues.

Restricted Net Position

Restricted net position is those for which a constraint has been imposed either externally or by law. The Clerk recognizes the use of restricted resources for expenditures that comply with the specific restrictions. Restricted resources are exhausted before unrestricted net position is used.

Fund Accounting: The Clerk uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate entity with a self-balancing set of accounts. Funds of the Clerk are classified under two categories: governmental and fiduciary. Each category, in turn, is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

Governmental Funds: Governmental funds account for all or most of the Clerk's general activities, including the collection and disbursement of specific or legally reserved monies, the acquisition or construction of general fixed assets, and the servicing of general long-term obligations. Governmental funds of the Clerk include:

General - accounts for all activities not required to be reported in another fund.

Fiduciary Funds: These fund types are used to account for assets held in trust for third-party individuals, private organizations and/or other governmental units/funds. Fiduciary funds include:

WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Agency Funds -The Advance Deposit and Registry of Court agency funds account for assets held by the Clerk as an agent for others, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The Advance Deposit Fund, as provided by Louisiana Revised Statute 13:842, accounts for advance deposits on suits filed by litigants. The advances are refundable to the litigants after all costs have been paid.

The Registry of Court Fund, as provided by Louisiana Revised Statute 13:475, accounts for funds that have been ordered by the Clerk to be held until judgment has been rendered in court litigation. Withdrawal of these funds can be made only upon order of the Court.

Basis of Accounting/Measurement Focus: In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The type of financial statement presentation determines the accounting and financial reporting treatment applied to a fund.

The government-wide statements are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of governmental and business-type activities are included in the statement of net position. Revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred in the statement of activities. In these statements, capital assets are reported and depreciated in each fund, and long-term debt is reported.

The fund statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements present increases and decreases in net current assets. Expenditures for capital assets are reported as current expenses, and such assets are not depreciated. Principle and interest paid on long-term debt is reported as current expenses.

Budgets and Budgetary Accounting: The Clerk adopts an annual budget for its general fund, prepared in accordance with the basis of accounting utilized by that fund. Appropriations lapse at year-end. There were amendments made to the budget during the fiscal year ended June 30, 2019.

Cash and Cash Equivalents: Cash includes amounts in demand deposits, interest bearing demand deposits and time certificates. Cash equivalents include amounts in investments with original maturities of 90 days or less. Under state law, the Clerk may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Investments: Investments are limited by Louisiana Revised Statute 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as

cash and cash equivalents. In accordance with GASB Statement No. 31, investments are recorded at fair value with the corresponding increase or decrease reported in investment earnings.

Inventory: Inventory is reported at cost. It includes only office supplies, the amount of which is considered immaterial. Therefore, the acquisition of such items is expensed when purchased, and the inventory on hand at year-end is not reported in the accompanying financial statements.

Receivables: Trade receivables are recorded at management's estimate of the amount that is expected to be collected. This is based in part on historical information. There is no allowance recorded in the accompanying financial statements as management expects nearly 100% of its outstanding receivables to be collected. Revenues become susceptible to accrual when they become both measurable and available.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Compensated Absences: The Clerk has the following policy relating to vacation and sick leave:

Vacation leave - All full-time employees of the Clerk of Court earn vacation leave at varying rates depending on their length of employment with the Clerk's office. Such leave is non-cumulative beyond the year in which it is earned. If an employee terminates at the end of the year, he/she will be paid for his/her unused vacation leave earned.

Sick leave - Sick leave is earned at a rate of one to one and one-half days per month, depending upon their length of service. Sick leave may be carried forward from year to year.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current-year expenditure in the General Fund when leave is actually earned. Because leave is non-cumulative, no provision for compensated absences is recorded in the accompanying financial statements.

Long-Term Obligations: In the government-wide financial statements, debt principal payments of government activities are reported as decreases in the balance of the liability on the statement of net position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid.

Deferred Outflows/Inflows of Resources: In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. At June 30, 2019, the Clerk of Court's deferred outflows and inflows of resources are attributable to its pension plan and postemployment benefit obligation.

Pension Plan: The Louisiana Clerks' of Court Retirement and Relief Fund prepared its employer schedules in accordance with GASB No. 68 - *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* which provides for the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Net Position/Fund Balances: In the statement of net position, the difference between a government's assets and deferred outflows of resources and its liabilities and deferred inflows of resources is recorded as net position. The three components of net position are as follows:

Net Investment in Capital Assets

This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowings attributable to the acquisition, construction or improvement of capital assets.

Restricted Net Position

Net position that is reserved by external sources, such as banks or by law, is reported separately as restricted net position. When assets are required to be retained in perpetuity, this non-expendable net position is recorded separately from expendable net position. These are components of restricted net position.

Unrestricted Net Position

This category represents net position not appropriable for expenditures or legally segregated for a specific future use.

In the Balance Sheet of governmental funds, fund balances are segregated as follows:

Non-spendable

This includes amounts in permanent funds and inventories that are permanently precluded from conversion to cash.

Restricted

Fund balances that are restricted include those resources constrained to a specific purpose by enabling legislation, external parties or constitutional provisions.

Committed

Fund balances may be committed for a specific purpose by the highest level of decision-making authority through a formal action such as the adoption of an ordinance. The removal of or change in this commitment can only be accomplished by the same level of authority through the same type of action taken to commit the fund balances initially.

Assigned

Resources earmarked for a specific purpose by a government's management are reported as assigned fund balances.

Unassigned

This category represents that portion of equity that is available for any purpose.

Louisiana R.S. 13:785 requires that the Clerk, at the close of his/her term of office (every four years), must pay the parish treasurer the portion of the general fund's fund balance that exceeds ½ of the revenues of the Clerk's last year of his/her term. At June 30, 2019, there was no amount due as this was not the last year of the Clerk's term of office, and no determination of the amount that will be due, if

any, can be made at this time.

Inter-fund Transactions: All interfund transactions except quasi-external transactions are reported as operating transfers. These are eliminated in the government-wide statements.

NOTE 2 - CASH AND CASH EQUIVALENTS

Deposits are stated at cost, which approximates market. Under state law, they must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Even though pledged securities are considered uncollateralized under the provisions of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified that the fiscal agent has failed to pay deposited funds upon demand.

With the adoption of GASB Statement No. 40, only deposits that are considered exposed to custodial credit risk are required to be disclosed. The Clerk has no deposits exposed to custodial credit risk.

At June 30, 2019, the Clerk had cash and cash equivalents (book balances) as follows:

	Governmental Activities	Fiduciary Activities
Demand Deposits	319,912	842,789
LAMP, Inc.	971,279	380,930
Total	1,291,191	1,223,719

NOTE 3 - INVESTMENTS

The Clerk has investments in a local government investment pool that is administered by a non-profit corporation, LAMP, Inc. This corporation was organized under the laws of the State of Louisiana, and its purpose is to provide a safe environment for the placement of public funds in short-term, high-quality investments. Investments in its portfolio are restricted to those issued, guaranteed or backed by the U.S. Treasury, the U.S. Government or one of its assigns in accordance with La. R.S. 33:2955.

GASB Statement No. 40 Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

**WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Credit Risk

LAMP is rated AAAM by Standard & Poor's.

Custodial Credit Risk

Participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

Concentration of Credit Risk

Pooled investments are excluded from the 5% disclosure requirements.

Interest Rate Risk

LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is (NUMBER - days) (from LAMP's monthly Portfolio Holdings) as of (DATE - month-end).

Foreign Currency Risk. This type of risk is not applicable to money market-like pools.

LAMP, Inc. is subject to the regulatory oversight of the State Treasurer and a board of directors. It is not registered with the SEC as an investment company. Administrative offices can be reached at 800- 249-5267 for questions or additional information.

NOTE 4-RECEIVABLES

The net receivables, with the exception of inter-fund transactions, at June 30, 2019, totaled \$2,089. All are for charges for services and no allowance has been recorded because all are expected to be collected. The Clerk utilizes the direct write-off method for any receivables considered as bad debts.

NOTE 8 - ON-BEHALF PAYMENTS

Certain operating expenditures of the Clerk's office are paid by the West Feliciana Parish Police Jury. Additionally, the Police Jury provides office space and certain furniture for the Clerk's use. These expenditures are not reported in the accompanying financial statements.

NOTE 9 - LEASES

There is an operating lease for a copier. Rental and maintenance paid during the year on this equipment totaled \$3,901. The Clerk has no capital leases.

NOTE 10 - PENSION PLAN

Plan Description. Substantially, all employees of the West Feliciana Parish Clerk of Court are members of the Louisiana Clerks of Court Retirement and Relief Fund, a cost-sharing, multiple- employer defined benefit pension plan, which was established in accordance with La. R.S. 11:1501 to provide regular, disability and survivor benefits for clerks of court, their deputies and other employees, and their beneficiaries.

Retirement Benefits. All regular employees who are under the age of 60 at the time of original employment are required to participate in the plan. Employees who retire at or after age 55 with at least 12 years of credited service are entitled to a retirement benefit, payable monthly for life, equal to 3 1/3 per cent of their average final compensation multiplied by the number of years of credited service, not to exceed 100% of the monthly average final compensation. Final average compensation for those hired prior to July 1, 2006, is based on the employee's highest compensated 36 consecutive months, with a limit of increase of 10% in each of the last 3 years of measurement. For those hired on or after that date, in accordance with Act 273 of the 2010 regular session, compensation is based on the highest compensated 60 consecutive months with a limit of 10% increase in each of the last 6 years of measurement. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 and receive the benefit accrued to their date of termination. Act 273 increased retirement age to age 60 with an accrual rate of 3% for those hired on or after January 2, 2011.

Disability Benefits. The plan also provides disability benefits, established by La. R.S. 11:218. Effective through June 30, 2008, a member who has been certified as totally and permanently disabled by the State Medical Disability Board shall be paid disability retirement benefits determined and computed as follows:

- (1) A member who is totally and permanently disabled solely as a result of injuries sustained in the performance of his official duties shall be paid monthly benefits equal to the greater of 1/2 of his monthly average final compensation or, at the option of the disability retiree, 2 1/2 percent of his monthly average final compensation multiplied by the number of years of credited service; however, such monthly benefit shall not exceed \$25 for each year of his credited service or 2/3rds of his monthly average final compensation, whichever is less.
- (2) A member who has 10 or more years of credited service and who is totally and permanently disabled due to any cause not the result of injuries sustained in the performance of his official duties shall be paid monthly benefits equal to 3% of his monthly average final compensation multiplied by the number of years of credited service; however, such monthly benefit shall not exceed \$35 for each year of credited service or 80% of his monthly average final compensation, whichever is less.

Effective for applications approved or payable on or after June 30, 2008, employees that have been officially certified as totally and permanently disabled pursuant to La. R.S. 11:218 and either (1) the disability was caused

**WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS

solely as a result of injuries sustained in the performance of his/her official duties; or (2) the employee has at least 10 years of service credit are eligible for disability benefits. The member shall be paid the greatest of 40% of their monthly average final compensation or 75% of their monthly regular retirement benefit computed pursuant to La. R.S. 11:1521(c).

For members leaving covered employment before attaining early retirement age but after completing 12 years of credited service become eligible for a deferred allowance, provided he lives to the minimum service retirement age and does not withdraw his accumulated contributions.

Survivor Benefits. If a member who has less than 5 years of credited service dies, his accumulated contributions are paid to his designated beneficiary. If a member has 5 or more years of credited service, automatic Option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with option factors used as if the member had continued in service to earliest normal retirement age. Benefit payments commence on the date a member would have first become eligible for normal retirement assuming continued service until that time. In lieu of a deferred survivor benefit, the surviving spouse may elect benefits payable immediately reduced $\frac{1}{4}$ of 1% for each month by which payments commence in advance of the member's earliest normal retirement age. If a member has no surviving spouse, the surviving minor children under 18 or disabled children shall be paid $\frac{1}{2}$ of the member's accrued retirement benefit in equal shares. Upon the death of any former member with 12 or more years of service, automatic Option 2 benefits are payable to the surviving spouse with payments to commence on the member's retirement eligibility date. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

Deferred Retirement Option Plan (DROP). In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in DROP for up to 36 months and defer the receipt of benefits. During the year ended June 30, 2007, participants had to have been an active contributing member for one full year before becoming eligible for DROP. Upon commencement of participation in the plan, active membership in the Fund terminates and the participant's contributions cease; however, employer contributions continue. Compensation and creditable service remain as they existed on the effective date of commencement of participation in the plan. The monthly retirement benefit that would have been payable, had the member elected to cease employment and receive a service retirement allowance, are paid into the DROP account.

Upon termination of employment at the end of the specified period of participation, a participant may receive, at his option, a lump sum payment. If employment is not terminated at the end of the participation period, payments into the account cease and the member resumes active contributing membership in the Fund. Upon termination, the member receives a lump sum payment from DROP equal to the payments made to that fund on his behalf, or a true annuity based on his account (subject to approval by the Board of Trustees). The monthly benefit payments that were being paid into the DROP fund are paid to the retiree and an additional benefit based on his additional service rendered since termination of DROP participation is calculated using the normal methods of benefit computation. The average compensation used to calculate the additional benefit is that used to calculate the original benefit unless his period of additional service is at least 36 months. In no event can the entire monthly benefit amount paid to the retiree exceed 100% of the average compensation used to compute the additional benefit. If a participant dies during the period of participation in the program, a lump sum payment equal to his account balance is paid to his named beneficiary or, if none, to his estate.

Cost of Living Adjustments. The Board of Trustees is authorized to provide a cost of living increase to members who have been retired for at least one full calendar year. The increase cannot exceed the lesser of 2.5% of the retiree's benefit or an increase of \$40 per month. The Louisiana statutes allow the Board to grant an additional cost of living increase to all retirees and beneficiaries over age 65 equal to 2% of the benefit paid on October 1,

**WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

1977, or the member's retirement date if later. In lieu of granting a cost of living increase as described herein, the statutes allow the Board to grant a cost of living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost of living amount which cannot exceed \$1. In order to grant any cost of living increase, the ratio of the actuarial value of assets to the pension benefit obligation must equal or exceed a statutory target ratio.

Contributions. Contribution requirements are actuarially determined each year. For the year ending June 30, 2019, the Clerk's rate was 19% of annual covered payroll while the employees contributed 8.25%. In addition, the Louisiana Legislature passed R.S. 11: 1562(C) which allows the Clerk of Court to pay out of the Clerk's operating funds all or any portion of the employee required contributions which would otherwise be deducted from the employee's salary. The Clerk has elected to pay 100% of all retirement system contributions to the Louisiana Clerk of Court Retirement and Relief Fund. The West Feliciana Clerk of Court's contributions to the Fund for the year ended June 30, 2019 were \$72,250 (normal employer portion of \$50,494 and employee portion paid by the Clerk of \$21,756).

In accordance with state statute, the Fund receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities. Contributions from non-employer contributing entities were \$29,519.

Pension Liabilities, Pension Expense, Deferred Outflows and Inflows of Resources Related to Pensions. At June 30, 2019, the Clerk reported a liability of \$447,614 for its proportionate share of the Fund's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Clerk's proportion of the net pension liability was based on a projection of the Clerk's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The Clerk's proportion at that date was .0269112%.

Pension expense of \$94,237 was recognized for the year ended June 30, 2019. Deferred outflows and inflows of resources related to pensions were reported from the following sources:

	Deferred Outflows	Deferred Inflows
Difference between expected and actual experience	11,879	4,422
Changes of assumptions	46,506	-
Change in proportion and differences between the employer's contributions and the employer's proportionate share of contributions	83,574	442
Net differences between projected and actual earnings on plan investments	8,544	-
Employer contributions subsequent to measurement date	72,238	-
Total	222,741	4,864

**WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

Deferred outflows of resources of \$72,238 related to pensions resulting from the Clerk’s contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	
2020	49,940
2021	36,900
2022	9,088
2023	<u>16,620</u>
	<u><u>112,546</u></u>

Actuarial Methods and Assumptions. The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

The actuarial assumptions used in the June 30, 2018 valuation (excluding mortality) were based on the assumptions used in the June 30, 2017 actuarial funding valuation, and were initially designed to match, to the extent possible, those used by the prior actuary for the fiscal 2010 valuation. A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2018 is as follows:

Valuation Date	6/30/2018
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions:	
Investment rate of return	6.75%, net of investment expense
Projected salary increases	5.00%
Inflation rate	2.50%
Mortality rates	RP-2000 Employee Table (set back 4 years for males and 3 years for females) RP-2000 Disabled Lives Mortality Table (set back 5 years for males and 3 years for females) RP-2000 Healthy Annuitant Table (set forward 1 year for males) and projected to 2030 using scale AA for males and females.
Expected Remaining Service Lives	2018-5 years 2017-5 years 2016-5 years 2015-5 years 2014-5 years
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed to be substantively automatic.

**WEST FELICIANA CLERK OF COURT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

The actuarial assumptions used are based on the assumptions used in the 2018 actuarial funding valuation which (with the exception of mortality) were based on results of an actuarial experience study for the period July 1, 2009 - June 30, 2014, unless otherwise specified.

The mortality rate assumption used was verified by combining data from this plan with three other statewide plans which have similar workforce composition in order to produce a credible experience. The aggregated data was collected over the period July 1, 2009 through June 30, 2014. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected real rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The long-term expected rate of return was 7.10% for the year ended June 30, 2018.

The best estimates of geometric real rates of return for each major asset class included in the Fund's target asset allocation as of June 30, 2018 is summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Fixed Income:		
Core fixed income	5.00%	1.75%
Core plus fixed income	15.00%	2.00%
Domestic Equity:		
Large cap domestic equity	21.00%	4.50%
Non-large cap domestic equity	7.00%	4.75%
International Equity:		
Large cap international equity	14.00%	4.75%
Small cap international equity	6.50%	4.50%
Emerging markets	6.50%	6.25%
Real Estate	10.00%	4.00%

Discount Rate. The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity to Changes in Discount Rate. The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 6.75%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate.

1% decrease	5.75%	684,302
Current discount rate	6.75%	447,614
1% increase	7.75%	251,420

Payables to the Pension Plan. The Clerk of Court's payable to the LACRF at June 30, 2019 was zero as the required contribution owed for the 2nd quarter of the 2019 calendar year was paid in full at the end of the fiscal year.

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued LACRF 2018 annual financial report at www.laclerksofcourt.org.

NOTE 11 - DEFERRED COMPENSATION PLAN

All of the employees of the Clerk are eligible to participate in the State of Louisiana deferred compensation plan. Employees may contribute up to 25% of their salary (not to exceed \$18,500 per year) to the plan on a pre-tax basis. The contributions are withheld from the employee's paycheck and the Clerk matches up to \$200 per month for each employee. The contributions are fully vested immediately and are remitted to a third-party administrator each payday where they are deposited to an account in the employee's name. The Clerk of Court does not assume any liability for the funds and does not have any control over the funds once they are remitted to the third-party administrator. During the year ended June 30, 2019, the Clerk's matching funds totaled \$17,587.

NOTE 12 – POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

General Information about the OPEB Plan

Plan description – The West Feliciana Parish Clerk of Court (the Clerk) provides certain continuing health care and life insurance benefits for its retired employees. The West Feliciana Parish Clerk of Court's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Clerk. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Clerk. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 *Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit*.

Benefits Provided – Medical, dental, vision, and life benefits are provided through comprehensive plans and are

made available to employees upon actual retirement. Employees are covered by the Louisiana Clerks' of Court Retirement and Relief Fund, whose retirement eligibility (D.R.O.P. entry) provisions are as follows: Attainment of age 55 and 12 years of service; or, attainment of age 60 and 12 years of service; employees hired on and after January 1, 2011 are not able to retire or enter DROP until age 60 without actuarial reduction in benefits.

Life insurance coverage is provided to retirees and 100% of the blended rate (active and retired) is paid by the employer. The amount of insurance coverage while active is continued after retirement, but insurance coverage amounts are reduced to 50% of the original amount at age 70.

Employees covered by benefit terms – At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	0
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	5
	5

Total OPEB Liability

The Clerk's total OPEB liability of \$396,933 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	3.0%, including inflation
Prior Discount rate	3.87% annually
Discount rate	3.50% annually
Healthcare cost trend rates	Flat 5.5% annually

The discount rate was based on the Bond Buyers' 20 Year General Obligation municipal bond index on the applicable measurement dates.

The RP-2000 combined healthy without projection.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2019.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Felicia Ann Hendl,
West Feliciana Parish Clerk of Court
P. O. Box 1843
St. Francisville, Louisiana 70775

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental-type activities and each fiduciary fund of the West Feliciana Parish Clerk of Court, a component unit of the West Feliciana Parish Police Jury, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the West Feliciana Parish Clerk of Court's basic financial statements, and have issued my report thereon dated December 22, 2019.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the West Feliciana Parish Clerk of Court's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the West Feliciana Parish Clerk of Court's internal control. Accordingly, I do not express an opinion on the effectiveness of the West Feliciana Parish Clerk of Court's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and

corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

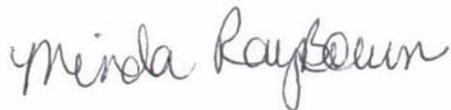

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the West Feliciana Parish Clerk of Court's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that is required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, others within the agency, the Legislative Auditor and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

**SCHEDULE OF PRIOR YEAR FINDINGS
AND RESPONSES
YEAR ENDED JUNE 30, 2019**

Finding 2018-001 Noncompliance with Local Government Budget Act

Criteria:

The Clerk must comply with certain provisions of the Local Government Budget Act set forth in state law, LSA R.S. 39:1301-1314. The Act contains various budget requirements for the General Fund and special revenue funds regarding public notification and disclosure, and requires budget to be amended when:

- 1) Total revenues, or other sources plus project revenue and other sources for the remainder of the year are failing to meet total budgeted expenditures and other sources by five percent or more.
- 2) Total actual expenditures and other uses plus projected expenditures and other uses for the remainder of the year are failing to meet total budgeted expenditures and other uses by five percent or more.
- 3) Actual beginning fund balance within a fund, fails to meet estimated beginning fund balance by five percent or more and fund balance is being used to fund current year expenditures.

Condition:

For the fiscal year ended June 30, 2019 in the general fund, actual expenditures and other uses of funds were over budget by 5.75%.

Effect:

If the budget is not monitored on a monthly basis and amended as required and if expenditures exceed available funds, an entity is in violation of the Local Government Budget Act.

Cause:

Expenditures were over budget by \$27,400 or 5.75%.

Recommendation:

The Clerk needs to insure before year end that the budget is amended properly for all revenue and transfer items.

Management Response:

The Clerk concurs with the recommendation.

Status:

Resolved.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

December 22, 2019

To the Honorable Felicia Ann Hendl
West Feliciana Parish Clerk of Court
PO Box 1843
St. Francisville, LA 70775
And Louisiana Legislative Auditor:

I have performed the procedures enumerated below, which were agreed to by West Feliciana Clerk of Court (Entity) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period July 1, 2018 through June 30, 2019. The Entity's management is responsible for those C/C areas identified in the SAUPs.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, I make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Written Policies and Procedures

1. Obtain and inspect the entity's written policies and procedures and observe that they address each of the following categories and subcategories (if applicable to public funds and the entity's operations):
 - a) ***Budgeting***, including preparing, adopting, monitoring, and amending the budget
 - b) ***Purchasing***, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and

purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.

- c) **Disbursements**, including processing, reviewing, and approving
- d) **Receipts/Collections**, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- e) **Payroll/Personnel**, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.
- f) **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process
- g) **Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases)
- h) **Travel and expense reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers
- i) **Ethics**, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the entity's ethics policy.
- j) **Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

There were no exceptions to the

Collections (excluding EFTs

- 2. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).

A listing of cash collections and management's representation that the listing is complete was obtained.

3. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

- a) Employees that are responsible for cash collections do not share cash drawers/registers.

The Clerk has one cash drawer and is shared by multiple employees.

- b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.

The person responsible for collecting cash can prepare/make deposits. However, there is another person responsible for reconciling collection documentation to the deposit.

- c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.

There is a separate person responsible for posting collection entries to the general ledger and a separate person responsible for collecting cash.

- d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.

The person responsible for reconciling cash collections to the general ledger by revenue source and agency fund additions is not responsible for collecting cash.

4. Inquire of management that all employees who have access to cash are covered by a bond or insurance policy for theft.

The employees who have access to cash are not covered by a bond or insurance policy for theft.

5. Randomly select two deposit dates for the entity's main operating account and 4 additional accounts (or all accounts if less than 5) (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). *Alternately, the practitioner may use a source document other than bank statements when selecting the*

deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:

- a) Observe that receipts are sequentially pre-numbered.
- b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
- c) Trace the deposit slip total to the actual deposit per the bank statement.
- d) Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).
- e) Trace the actual deposit per the bank statement to the general ledger.

No exceptions were noted for procedures a) through e).

Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

6. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

A list of locations that process payments and management's representation that the listing is complete was obtained.

7. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:

- a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.

The Clerk approves purchases and places the order or makes the purchase.

- b) At least two employees are involved in processing and approving payments to vendors.

The Clerk process and approves payments to vendors.

- c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.

The Clerk has the authority to process payments and can add and modify the vendor files.

- d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

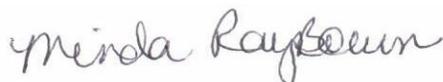

The Clerk signs the checks. Mail is picked up at the office.

- 8. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:
 - a) Observe that the disbursement matched the related original invoice/billing statement.
 - b) Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

No exceptions were noted for procedures a) and b).

I was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, I do not express such an opinion or conclusion. Had I performed additional procedures, other matters might have come to my attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
