Management's Discussion and Analysis

This section of St. Tammany Parish Hospital Service District No. 2's (Slidell Memorial Hospital, or SMH or the Hospital) annual financial report presents background information and management's analysis of the Hospital's financial performance during the fiscal year that ended on December 31, 2017. This should be read in conjunction with the financial statements in this report.

Executive Summary

In 2017, Slidell Memorial Hospital continued to make strategic investments in physician alignment, service growth, and quality improvement to position the facility for the future. The SMH Physician Network has grown to a complement of 33 practitioners. In 2017, the Physician Network recruited five physicians in the specialty areas of orthopedic, internal medicine and gastroenterology. Management and the Board are committed to a strategy of improving quality and cost through reducing variation in medical practice patterns and increasing access to primary care in the market place. Although they are hard to fund with only 6.6% EBIDA, in 2017, these strategies are in keeping with the Mission: To Improve the Quality of Life in Our Community.

SMH signed a 20-year Joint Operating Agreement (JOA) with Ochsner Health System (OHS), effective January 1, 2016. The JOA creates collaboration between SMH and Ochsner to achieve more effective and efficient operations by maximizing the utility of our combined assets. The two organizations retain ownership and ultimate control of their assets, but contractual, clinical, and financial integration align incentives to become dispassionate about the location of services. The JOA will be managed by a consolidated management team in order to establish a single culture and an enterprise mindset in decision making. The JOA creates a Strategy and Oversight Committee (SOC) with equal representation from SMH's Board of Commissioners and from OHS. The SOC represents the group through which the two organizations will collaborate on things like what services are delivered in the market, where those services are delivered, physician recruitment, and other strategic objectives. The JOA not only creates opportunity for significant cost reduction, but with critical mass in some services the JOA becomes a quality improvement and growth strategy as well. Together, our volumes are expected to be material enough to offer additional services locally.

In 2017, SMH and Ochsner Northshore consolidated several service lines including cardiac catheterization services and total joint replacements. The benefit of consolidating these service lines is to increase quality, increase access to care, to grow local services and to decrease costs. Also, in February 2017, the Louisiana Heart Hospital closed in Lacombe Louisiana.

SMH Regional Cancer Center provides a comprehensive, disciplinary coordinated care model with services ranging from an appearance center, library, laboratory, pharmacy, outpatient chemotherapy and infusion service, and radiation oncology. The board certified medical oncologists are providing care to the region. The provision of services allows patients to remain close to home with the support of family and the community. SMH's cancer program has been accredited by the American College of Surgeons Commission on Cancer since 1992. The Radiation Oncology Department has been accredited by the American College of Radiation Oncology since 2012.

d/b/a SLIDELL MEMORIAL HOSPITAL

Management's Discussion and Analysis

Slidell Memorial Hospital is no different than most other community hospitals in the United States in struggling with the transformation of the healthcare delivery system from fee for service to fee for value. Without significant capital on the balance sheet, it is precarious to under-shoot or over-shoot the unknown glide-path of change. Moving too fast will erode revenues while increasing expenses associated with infrastructure to manage for value. Moving too slow will expose the organization on the backside of the conversion to risk of massive market share loss to early adopters of the transition to managing population utilization and cost. Here again, the JOA with OHS provides a partner with existing infrastructure and scale to be much more effective in this area as we align around the commitment to improving quality, improving access, lowering costs, and growing local services.

Financial Highlights

Net patient service revenue increased by 19% from the prior year. Acute admissions were up 17% over prior year and patient days were up 15%. Cardiac catheterization patients increased 70% over prior year. Compared to prior year, infusion therapy volume increased 20%, open heart surgeries were up 24%, emergency room visits were up 9%, and physician clinic visits were up 18%. As volumes increased over prior year, there was also a slight unfavorable shift in the Hospital's payer mix, the Medicaid population slightly increased, Medicare population slightly increased, and Commercial population slightly decreased.

In 2017, operating expenses before depreciation and amortization increased 18% from the prior year. This increase is primarily due to salary, benefit, and supply expense being up as a direct result of increased volumes. Management operates the facility on a daily productivity management system to flex variable labor by shift. Departmental Operating Statements are published monthly with flex budget reporting to guide management on budget variance action plans.

The Hospital's total net position increased by \$6.6 million from the prior year. The assets of the Hospital exceeded liabilities at the close of the 2017 fiscal year by \$112.2 million. Of this amount, \$63.8 million (unrestricted net position) may be used to meet ongoing obligations to the Hospital's patients and creditors, and \$40.4 million is net investment in capital assets.

Management's Discussion and Analysis

Overview of the Financial Statements

This annual report consists of four components - the management's discussion and analysis (this section), the independent auditor's report, the financial statements, and supplementary information.

The financial statements of Slidell Memorial Hospital report the financial position of the Hospital and the results of its operations and its cash flows. The financial statements are prepared on the accrual basis of accounting. These statements offer short-term and long-term financial information about the Hospital's activities.

The statements of net position include all of the Hospital's assets, deferred outflows, and liabilities and provide information about the nature and amounts of investments in resources (assets) and the obligations to the Hospital's creditors (liabilities) for both the current year and the prior year. They also provide the basis for evaluating the capital structure of the Hospital, and assessing the liquidity and financial flexibility of the Hospital.

All of the current year's revenues and expenses are accounted for in the *statements of revenues, expenses, and changes in net position*. This statement measures the performance of the Hospital's operations over the past two years and can be used to determine whether the Hospital has been able to recover all of its costs through its patient service revenue and other revenue sources.

The primary purpose of the *statements of cash flows* is to provide information about the Hospital's cash from operations, investing, and financing activities. The cash flow statement outlines where the cash comes from, what the cash is used for, and the change in the cash balance during the reporting period.

The annual report also includes notes to financial statements that are essential to gain a full understanding of the data provided in the financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

Financial Analysis of the Hospital

The statements of net position and the statements of revenue, expenses, and changes in net position report information about the Hospital's activities. These two statements report the net position of the Hospital and changes in them. Increases or improvements, as well as decreases or declines in net position, are one indicator of the financial state of the Hospital. Other non-financial factors that should also be considered include changes in economic conditions (including uninsured and working poor) and population growth.

Management's Discussion and Analysis

Summary of Revenues, Expenses, and Changes in Net Position

The following table presents a summary of the Hospital's historical revenues and expenses for each of the fiscal years ended December 31, 2017, 2016, and 2015:

	Fiscal Year 2017	Fiscal Year 2016	Fiscal Year 2015
	(In Thousands)		
Net Patient Service Revenue	\$ 184,384	\$ 154,994	\$ 140,267
Other Operating Revenue Excluding Interest Income	3,208	3,535	3,634
Total Operating Revenues	187,592	158,529	143,901
Operating Expenses before Depreciation/Amortization	175,179	147,929	134,557
Earnings before Interest, Depreciation, and Amortization and Non-Operating Revenues (Expenses) (EBIDA)	12,413	10,600	9,344
Depreciation and Amortization Expense	9,691	9,829	9,854
Operating Net Income (Loss)	2,722	771	(510)
Non-Operating Revenues (Expenses)			
Interest Income	992	682	430
Interest Expense	(1,687)	(1,797)	(1,908)
Property Tax Revenue	4,607	4,403	4,431
Other, Net	-	-	-
Excess of Revenues Over Expenses	6,634	4,059	2,443
Total Net Position - Beginning of Year	105,609	101,550	99,107
Total Net Position - End of Year	\$ 112,243	\$ 105,609	\$ 101,550

The following table represents the relative percentage of gross charges billed for patient services by payer for the fiscal years ended December 31, 2017, 2016, and 2015:

	Fiscal Year 2017	Fiscal Year 2016	Fiscal Year 2015
Medicare and Medicare HMO	53%	50%	52%
Medicaid	16%	14%	12%
Managed Care and Commercial Insurance	29%	32%	32%
Uninsured Patients	2%	4%	4%
Total Gross Charges	100%	100%	100%

Management's Discussion and Analysis

Operating and Financial Performance

The following summarizes the Hospital's statements of revenues, expenses, and changes in net position between 2017, 2016, and 2015:

- In 2017, the Hospital had 8,749 acute inpatient admissions. This is an increase of 17% from fiscal year 2016. This increase is a result of the closure of the Louisiana Heart Hospital in February 2017 and in addition to service line consolidations. During 2016, the Hospital had 7,460 acute inpatient admissions. This was an increase of 7% from fiscal year 2015.
- Emergency registrations were 42,624 and 39,151, in 2017 and 2016, respectively, representing an increase of 9% in 2017 over 2016. There was an increase of 7% in 2016 compared to fiscal year 2015. The new Emergency Room was opened in 2014.
- Cardiac catheterization patient volume increased 70% from fiscal year 2016. This increase is a result of physician recruitment and consolidating service lines.
- During 2017, net patient service revenue increased \$29.4 million, or 19%, from 2016. This increase is a result of an increase in both inpatient and outpatient volumes from prior year. During 2016, net patient service revenue increased \$14.7 million, or 11%, from 2015.
- In 2017, salaries, wages, and benefits increased 20% from prior year reflecting increased staff to handle volume increases as well as a change in the SMH employee benefit plan. During 2016, salaries, wages, and benefits increased 5% from prior year reflecting increased staff required to handle volume increases
- In 2017, supplies and materials increased 30%, primarily due to increases in inpatient and outpatient volumes. During 2016, supplies and materials increased approximately 6% compared to 2015, primarily due to volume increases in specialty areas.
- Professional fees decreased 31% from prior year as a result of decrease physician agreements. Professional fees increased 13% from 2015 to 2016, compared to an increase in physician agreements.
- In 2017, other direct expenses increased 11% from prior year. Other direct expenses increased as a result of an increase in physician agreements.

Management's Discussion and Analysis

Performance Against Budget

	FY 2017 Budget	FY 2017 Actual	Favorable (Unfavorable) Variance
	(In Thousands)		
Revenues			
Net Patient Service Revenue	\$ 167,479	\$ 184,384	\$ 16,905
Other Operating Revenue	2,919	3,208	289
Total Revenues	170,398	187,592	17,194
Operating Expenses			
Salaries, Wages, and Benefits	84,454	93,954	(9,500)
Supplies and Other	65,644	70,564	(4,920)
Professional and Contractual Services	12,740	10,660	2,080
Total Operating Expenses before Depreciation/Amortization and Non-Operating Revenues (Expenses)	162,838	175,178	(12,340)
EBIDA	7,560	12,414	4,854
Interest Income	400	993	593
Interest Expense	(1,688)	(1,687)	1
Depreciation and Amortization	(9,802)	(9,691)	111
Property Tax Revenue	4,336	4,607	271
Excess of Revenues Over Expenses	806	6,636	5,830
Increase in Net Position	\$ 806	\$ 6,636	\$ 5,830

- Net patient service revenue was over budget for 2016 by 5.5% as a result of an increase in several service lines including infusion therapy, radiation center therapy, open heart procedures, and emergency room visits.
- Salaries, wages, and benefits were over budget for 2016 as a direct result in patient volumes.
- Supplies were over budget for 2016 as a result of the patient volume increases.
- Professional fees were over budget for 2016 as a result of physician contracts being over budget due to volume increases.

Net Capital Assets	\$ 90,361	\$ 92,436	\$ (2,075)	-2%

Economic Factors and Next Year's Budget

The Hospital's Board and Management considered many factors when setting the fiscal year 2018 budget. Management will continue to focus on recruiting employed physicians in the primary care specialty. In addition, the broad economy is of significant importance in setting the 2018 budget, which takes into account market forces and environmental factors such as:

- The effect of general weakness in the broad economy signaling changes in employment, employment-related benefits, and ultimately managed care tightness on utilization and rates.
- Continuing federal budget deficit related cuts threatening critical programs which ensure services in the local community such as the 340B drug program.
- The State of Louisiana continues to face deficits which place Medicaid rates and other reimbursement methods at risk.
- SMH will continue investment in physician alignment and information systems which can result in financial losses in the short run but are anticipated to be a key part of long-term success if not survivability of hospitals in an era of pay for performance, bundled payment, and/or accountable care organizations.
- The industry will continue to face growing utilization of costly technology without adequate reimbursement.
- The industry will continue to face the growing number of high cost of drugs, such as chemotherapy agents and new genetic custom specialty drugs, without adequate reimbursement.
- The industry will continue to face increased compliance costs due to pay for performance, HIPAA, and other regulations.

Management's Discussion and Analysis

Contacting the Hospital Financial Manager

This financial report is designed to provide our citizens, customers, and creditors with a general overview of the Hospital's finances. If you have any questions about this report or need additional financial information, please contact the Chief Financial Officer, Slidell Memorial Hospital, 1001 Gause Blvd., Slidell, LA 70458.

Independent Auditor's Report

To the Board of Commissioners
St. Tammany Parish Hospital Service District No. 2
Slidell, Louisiana

Report on Financial Statements

We have audited the accompanying financial statements of the St. Tammany Parish Hospital Service District No. 2 (d/b/a Slidell Memorial Hospital) (the Organization) as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Organization's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the St. Tammany Parish Hospital Service District No. 2 (d/b/a Slidell Memorial Hospital), as of December 31, 2017 and 2016, and the changes in financial position and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages i - ix be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Organization's basic financial statements. The schedule of compensation paid to board of commissioners is presented for the purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of compensation paid to board of commissioners is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of compensation paid to board of commissioners is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2018 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies

Organization and Nature of Operations

Slidell Memorial Hospital (the Hospital) is a nonprofit corporation organized as St. Tammany Parish Hospital Service District No. 2 (the District), a political subdivision of the State of Louisiana as established in Act 180 of the 1984 Regular Session of the Legislature, as amended, and is exempt from federal and state income taxes. The governing authority of the District is the St. Tammany Parish Hospital Service District No. 2 Board of Commissioners (the Board), which are appointed by a cross-section of representatives of city, parish, and state government bodies. The Board is authorized to oversee the assets and govern the operations of the District. The Hospital operates a full service acute care community hospital located in Slidell, Louisiana.

Reporting Entity

The basic financial statements present the Hospital and its component units, entities for which the Hospital is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government.

Blended Component Units:

Slidell Memorial Hospital Foundation, Inc. (the Foundation) is a Louisiana non-profit corporation exempt from federal income taxes under section 501(c)(3) of the Internal Revenue Code. The Foundation's sole member is the District. The Foundation is operated by the District.

SMH Physician Practice Services, Inc. (PPS) is a Louisiana non-profit corporation originally organized to assist the Hospital in providing medical services to the community in a cost effective and efficient manner by assuring the availability of competent health care personnel. PPS is owned by the District and is a taxable non-profit corporation. PPS is currently inactive.

The Hospital, the Foundation, and PPS are collectively referred to as the Organization. There are no other organizations or agencies whose financial statements should be included and presented with these financial statements.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Basis of Accounting

The financial statements of the Organization have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets, and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated nonexchange transactions (principally, government grants) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated non-exchange transactions that are not program specific, investment income, and interest on capital assets-related debt are included in nonoperating revenues and expenses. The Organization first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position is available. All significant inter-entity accounts have been eliminated in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the allowance for uncollectible accounts receivable and amounts estimated to be recovered from third-party payors are particularly sensitive estimates and are subject to change.

Cash and Cash Equivalents

Cash and cash equivalents are recorded at fair value. The Organization reports short-term, highly liquid investments whose use is not limited (that are both readily convertible to known amounts of cash and mature within three months or less from date of purchase) as cash equivalents. As of December 31, 2017 and 2016, the Organization's cash, cash equivalents, and certificates of deposit were entirely insured or collateralized with securities held by its agent in the Organization's name.

Inventories

Inventories, which consist primarily of drugs and supplies, are valued at the lower of cost (first-in, first-out method) or market.

Capital Assets

Land, buildings, and equipment acquisitions are recorded at historical cost except for assets donated to the Organization. Donated assets are recorded at fair value on the date of donation. Depreciation of buildings and equipment is computed using the straight-line method in amounts sufficient to amortize the cost of these assets over their estimated useful lives.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted consist of cash and investments reported at fair value with gains and losses included in the statements of revenues, expenses, and changes in net position.

Impairment of Long-Lived Assets

The Organization reviews long-lived assets, consisting of property and equipment and cost in excess of net assets acquired, for impairment and determines whether an event or change in facts and circumstances indicates that their carrying amount may not be recoverable. The Organization determines recoverability of the assets by comparing the carrying value of the asset to net future undiscounted cash flows that the asset is expected to generate. The impairment recognized is the amount by which the carrying amount exceeds the fair market value of the asset. There were no asset impairments recorded during 2017 and 2016.

Net Patient Service Revenue and Related Receivables

Net patient service revenue and the related accounts receivable are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. The Organization provides care to patients even though they may lack adequate insurance or may be covered under contractual arrangements that do not pay full charges. As a result, the Organization is exposed to certain credit risks. The Organization manages such risk by regularly reviewing its accounts and contracts, and by providing appropriate allowances. Provisions for bad debts are reported as offsets to net patient service revenues consistent with reporting practices for governmental entities.

Medicare and Medicaid Reimbursement Programs

The Hospital is reimbursed under the Medicare Prospective Payment System for acute care inpatient services provided to Medicare beneficiaries and is paid a predetermined amount for these services based, for the most part, on the Diagnosis Related Group (DRG) assigned to the patient. In addition, the Hospital is paid prospectively for Medicare inpatient capital costs based on the federal specific rate. The Hospital qualifies as a disproportionate share provider under the Medicare regulations. As such, the Hospital receives an additional payment for Medicare inpatients served. Except for Medicare disproportionate share reimbursement and Medicare bad debts, there is no retroactive settlement for inpatient costs under the Medicare inpatient prospective payment methodology.

The Hospital is paid a prospective per diem rate for Medicaid inpatients. The per diem rate is based on a peer grouping methodology, which assigns a per diem rate to each hospital in the peer group.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Medicare and Medicaid Reimbursement Programs (Continued)

Medicare outpatient services (excluding clinical lab and outpatient therapy) are reimbursed by the Outpatient Prospective Payment System (OPPS), which establishes a number of Ambulatory Payment Classifications (APC) for outpatient procedures in which the Hospital is paid a predetermined amount per procedure. Medicaid outpatient services (excluding ambulatory surgery, therapy, and clinical lab) were reimbursed at 71.13% and 66.46% of the lower of cost or charges as of December 31, 2017 and 2016, respectively. Medicare and Medicaid outpatient clinical lab and Medicaid ambulatory surgery and outpatient therapy services are reimbursed based upon the respective fee schedules.

Retroactive cost settlements, based upon annual cost reports, are estimated for those programs subject to retroactive settlement and recorded in the financial statements. Final determination of retroactive cost settlements to be received under the Medicare and Medicaid regulations is subject to review by program representatives. The difference between a final settlement and an estimated settlement in any year is reported as an adjustment of net patient service revenue in the year the final settlement is made. Adjustments to estimated settlements resulted in an increase to net patient service revenue of approximately \$248,000 and \$208,000 in 2017 and 2016, respectively.

Electronic Health Record Incentive Program

The Health Information Technology for Economic and Clinical Health Act, established by the American Recovery and Reinvestment Act of 2009, provides for Medicare and Medicaid incentive payments for eligible organizations and providers that adopt and meaningfully use certified electronic health record (EHR) technology. For the years ended December 31, 2017 and, 2016, the Hospital recorded EHR incentive revenue of \$68,039 and \$110,470, respectively, within other revenues on the statement of revenues, expenses, and changes in net position.

Attestation of the Hospital's compliance with meaningful use criteria is subject to audit by the federal government or its designee and EHR incentive payments received are subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were determined.

Grants and Contributions

From time to time, the Hospital and its Foundation receive grants from the State of Louisiana, as well as contributions from individuals and private organizations. Revenues from grants and contributions (including contributions of capital assets) are recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as non-operating revenues. Amounts restricted to capital acquisitions are reported after non-operating revenues and expenses.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Restricted Resources

When the Organization has both restricted and unrestricted resources available to finance a particular program, it is the Organization's policy to use restricted resources before unrestricted resources.

Net Position

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as amended*, net position is classified into three components: net investment in capital assets: restricted; and unrestricted. These classifications are defined as follows:

Net Investment in Capital Assets

This component of net position consists of the historical cost of capital assets, including any restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.

Restricted

This component of net position consists of assets that have constraints that are externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted

All other net position is reported in this category.

Employee Health and Workers' Compensation Insurance

The Organization is self-insured for hospitalization and workers' compensation claims. Estimated amounts for claims incurred but not reported are calculated based on claims experience and, together with unpaid claims, are included in accrued interest and other expenses on the statements of net position.

Statements of Revenues, Expenses, and Changes in Net Position

All revenues and expenses directly related to the delivery of health care services are included in operating revenues and expenses in the statements of revenues, expenses, and changes in net position. Non-operating revenues and expenses consist of revenues and expenses related to financing and investing type activities and result from non-exchange transactions or investment income.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Property Tax Revenues

The Hospital receives dedicated property tax revenues in amounts sufficient to fund annual debt maturities of the general obligation bonds and related interest costs (see Note 7). Such revenues are considered non-operating in the accompanying statements of revenues, expenses, and changes in net position. Unexpended property tax revenues are accumulated in a restricted fund held in trust and are exclusive of governmental debt service.

Compensated Absences

The Organization's employees earn paid time off at varying rates depending on years of service. The estimated amount of paid time off as termination payments is reported as a component of the current liability for salaries, wages, and benefits payable in both 2017 and 2016.

Recently Issued Accounting Principles

In March 2017, the Government Accounting Standards Board (GASB) issued Statement No. 85. The objective of GASB Statement No. 85, Omnibus 2017, is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Management is still evaluating the potential impact of adoption on the Organization's financial statements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2017.

In June 2017, the GASB issued Statement No. 87 (GASB 87). The objective of GASB Statement No. 87, Leases, is to better meet the information needs of the financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Management is still evaluating the potential impact of adoption on the Organization's financial statements. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

ST. TAMMANY PARISH HOSPITAL SERVICE DISTRICT NO. 2
d/b/a SLIDELL MEMORIAL HOSPITAL

Notes to Financial Statements

Note 2. Cash and Assets Whose Use is Limited or Restricted

Custodial Credit Risk – Deposits: Statutes authorize the Organization to invest in direct obligations of the U.S. Government, certificates of deposit of state banks and national banks having their principal office in the State of Louisiana, and any other federally insured investments, guaranteed investment contracts issued by a financial institution having one of the two highest rating categories published by Standard & Poor’s or Moody’s, and mutual or trust fund institutions registered with the Securities and Exchange Commission (provided the underlying investments of these funds meet certain restrictions). The Organization’s cash deposits and money market accounts included in cash and cash equivalents and assets whose use is limited on its statements of net position, as of December 31, 2017 and 2016, were entirely covered by federal depository insurance or collateralized with securities held by the pledging financial institution’s trust department or agent in the Organization’s name.

Concentration of Credit Risk: As required under GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, an Amendment of GASB Statement No. 3, concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government’s investment in a single issuer. GASB 40 further defines an at-risk investment to be one that represents more than five percent (5%) of the fair value of the total investment portfolio and requires disclosure of such at-risk investments. GASB 40 specifically excludes investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments from the disclosure requirement. At December 31, 2017 and 2016, the Organization had no investments requiring concentration of credit risk disclosure.

Assets Whose Use is Limited or Restricted: The terms of the Organization’s bond issues require certain funds to be maintained on deposit with the trustee. The funds on deposit with the trustee, funds designated by the Board for capital improvements, and donated funds restricted by donor stipulations, as of December 31, 2017 and 2016, were as follows:

	2017	2016
Current Assets		
Dedicated Property Tax Revenue, Under Bond Indenture	\$ 4,392,565	\$ 4,317,257
Total	\$ 4,392,565	\$ 4,317,257
Non-Current Assets		
Dedicated Property Tax Revenue, and Amounts Under Bond Indenture	\$ 2,886,261	\$ 2,905,814
By State Department of Workers' Compensation	700,000	700,000
By Board Direction	292,689	310,470
Total	\$ 3,878,950	\$ 3,916,284

Notes to Financial Statements

Note 3. Third-Party Payor Arrangements

The Hospital participates in the Medicare and Medicaid programs as a provider of medical services to program beneficiaries. During the years ended December 31, 2017 and 2016, approximately 68% and 64%, respectively, of the Hospital's gross patient service charges were derived from services provided to Medicare and Medicaid program beneficiaries. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Revenue derived from the Medicare program is subject to audit and adjustment by the fiscal intermediary and must be accepted by the United States Department of Health and Human Services before settlement amounts become final. Revenue derived from the Medicaid program is subject to audit and adjustment and must be accepted by the State of Louisiana, Department of Health before the settlement amount becomes final. The fiscal intermediary has completed its review of estimated Medicare settlements for fiscal years ended through December 31, 2013. The fiscal intermediary has completed its review of estimated Medicaid settlements for fiscal years ended through December 31, 2008 as well as for fiscal years ended December 31, 2010 and 2012. Annually, management evaluates the recorded estimated settlements and adjusts these balances based upon the results of the intermediary's audit of filed cost reports and additional information becoming available. Although the fiscal intermediary has not completed its audits (or reopened the review) of the estimated settlements for the years ended December 31, 2010 and 2012 through 2017 for Medicare and for the years ended December 31, 2009, 2011, and 2013 through 2017 for Medicaid, the Hospital does not anticipate significant adverse adjustments to the recorded settlements for those years.

The Hospital has also entered into payment agreements with certain commercial insurance carriers and managed care organizations. The basis for payment to the Hospital under these arrangements includes prospectively determined daily rates and discounts from established charges.

ST. TAMMANY PARISH HOSPITAL SERVICE DISTRICT NO. 2
d/b/a SLIDELL MEMORIAL HOSPITAL

Notes to Financial Statements

Note 4. Net Patient Service Revenue

Net patient service revenue for the years ended December 31, 2017 and 2016, was as follows:

	2017	2016
Gross Patient Service Revenue		
Medicare	\$ 340,324,827	\$ 265,525,611
Medicaid	190,336,862	136,209,923
Medicare HMO	298,447,015	210,847,253
Managed Care/Commercial	348,691,134	298,982,007
Self Pay/Uninsured	26,169,595	33,584,585
Total	1,203,969,433	945,149,379
Contractual Adjustments	(985,796,571)	(750,743,223)
Charity Care	(11,102,903)	(13,563,444)
Provisions for Bad Debts	(22,686,164)	(25,849,169)
Total	\$ 184,383,795	\$ 154,993,543

Note 5. Community Benefits

As a community health care provider, the Hospital's stated mission is "To Improve the Quality of Life in our Community". As such, total revenue includes that revenue generated from direct patient care, rentals from various medical office buildings, and sundry revenue related to the operation of the Hospital and its member organizations.

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. As shown in Note 4, charity care provided during the years ended December 31, 2017 and 2016, measured at established rates, totaled \$11,102,903 and \$13,563,444, respectively.

The Hospital has also entered into a series of agreements related to funding healthcare for low income populations which are detailed in Note 12.

The Hospital also sponsors or participates in numerous activities to benefit the community. Many of these activities are sponsored with the knowledge that they will not be self-supporting or financially viable. Annually, the Hospital sponsors several health fairs and programs regarding such issues as diabetes, breast cancer, smoking cessation, nutrition, exercise, cardiology, women's health, parenting skills, development topics, etc., to provide the community access to health-related information. Also, the Hospital provides health screenings at no cost, or a reduced cost, to the community. These include prostate cancer, cholesterol, colorectal, skin cancer, glucose, and thyroid screenings.

ST. TAMMANY PARISH HOSPITAL SERVICE DISTRICT NO. 2
d/b/a SLIDELL MEMORIAL HOSPITAL

Notes to Financial Statements

Note 5. Community Benefits (Continued)

During 2017, the SMH Community Outreach Center held 583 free or low cost health education programs with 17,296 attendees. Also during 2017, SMH performed free or low cost health screens for 1,198 people. The total lives touched through 646 community outreach programs, classes, and events was projected to be 39,791.

The Hospital encourages its employees to volunteer for charitable organizations and to participate in fundraising activities and, in some cases, pays employees to perform public services such as health screenings.

Note 6. Leases

Operating Commitments

The future minimum lease payments at December 31, 2017, for noncancelable operating leases are as follows:

	Operating Leases
2018	\$ 454,825
2019	337,631
2020	268,536
2021	125,250
Total	\$ 1,186,242

The Hospital also leases medical and administrative equipment under operating leases with terms that vary from month-to-month to five years. Total rental expense included in other direct expenses on the statements of revenues, expenses, and changes in net position was \$1,060,873 and \$804,003, for the years ended December 31, 2017 and 2016, respectively.

Rental Income

The Hospital leases space to physicians through a combination of cancelable and noncancelable lease agreements accounted for as operating leases. Rental income earned under these agreements was \$1,589,329 and \$1,737,857, for the years ended December 31, 2017 and 2016, respectively.

ST. TAMMANY PARISH HOSPITAL SERVICE DISTRICT NO. 2
d/b/a SLIDELL MEMORIAL HOSPITAL

Notes to Financial Statements

Note 6. Leases (Continued)

The future minimum lease payments to be received on noncancelable leases are summarized as follows:

For the Year Ended December 31,	Amount
2018	\$ 1,415,597
2019	701,398
2020	377,514
2021	244,731
2022	49,968
Total	\$ 2,789,208

Note 7. Long-Term Debt

A summary of the Hospital's long-term debt outstanding is as follows:

Summary	2017	2016
General Obligation Bonds	\$ 42,625,000	\$ 45,770,000
Hospital Indebtedness	7,615,000	8,725,000
Total Long-Term Debt	\$ 50,240,000	\$ 54,495,000

The following table, for the years ended December 31, 2017 and 2016, summarizes the changes in long-term debt:

	2017	2016
Balance of Long-Term Debt at January 1,	\$ 54,495,000	\$ 58,645,000
Less: Repayment of Bonds and Notes Payable	(4,255,000)	(4,150,000)
Balance of Long-Term Debt at December 31,	\$ 50,240,000	\$ 54,495,000

Notes to Financial Statements

Note 7. Long-Term Debt (Continued)

General Obligation Bonds

The Hospital's general obligation bonds are payable from the annual levy and collection of unlimited ad valorem taxes on all the taxable property located within the boundaries of St. Tammany Hospital Service District No. 2 sufficient to pay such bonds in principal and interest as they mature.

Series 2009

On June 1, 2009, the Hospital issued \$17.5 million in General Obligation Bonds with interest rates ranging from 4% to 6%, for the purpose of financing construction of its \$20 million full service Cancer Center and related health care facilities project. The bonds were authorized by the voters of the District in a special election held on November 17, 2007.

Series 2011 and 2012

On April 30, 2011, the voters of St. Tammany Parish approved a referendum authorizing the Hospital to issue up to \$25 million of general obligation bonds for the purpose of constructing, improving and expanding its facilities, including new emergency room services, cardiology services, and the conversion of existing semi-private rooms into private rooms.

The Hospital issued the first of this series of general obligation bonds on August 4, 2011, in the amount of \$9.8 million. Scheduled interest rates over the term of the 2011 bonds range from 2% to 4.75%.

The Hospital issued Series 2012 general obligation bonds in the amount of \$15.2 million on March 1, 2012. Scheduled interest rates over the term of the 2012 bonds range from 2% to 3.125%.

All of the District's general obligation bonds are secured by a pledge of dedicated property tax millages described in Note 1.

Interest on the general obligation bonds is payable semi-annually on March 1 and September 1 each year. The Series 2004 bonds mature in annual installments on March 1 each year until 2024 and can be called for early redemption after March 1, 2014. The Series 2009 bonds mature in annual installments on March 1 each year until 2029 and can be called for early redemption after March 1, 2019. The Series 2011 bonds also mature in annual installments due on March 1 each year from 2013 until 2036, and can be called for redemption in full or in part on or after March 1, 2021. The Series 2012 bonds mature in annual installments due on March 1 each year from 2015 until 2032, and can be called for redemption in full or in part on or after March 1, 2022.

Notes to Financial Statements

Note 7. Long-Term Debt (Continued)

General Obligation Refunding Bonds

Series 2012

On May 30, 2012, the Hospital issued \$5,980,000 of general obligation refunding bonds, Series 2012. The bonds were issued for the purpose of refunding a portion of the Hospital's outstanding Series 2004B general obligation bonds. The refunding bonds bear interest at a rate of 2.20%. Interest is payable semi annually on March 1 and September 1 each year. The bonds mature in annual installments on March 1 of each year until 2024. The bonds are not callable for early redemption.

The loss incurred in connection with the advanced refunding of the Hospital's Series 2004B general obligation bonds has been deferred and is being amortized over the life of the refunding bond issue. Amortization of this deferred loss was \$41,815 at December 31, 2017 and 2016. Amortization is included in interest expense.

Series 2014

In January 2014, the hospital issued \$815,000 of general obligation refunding taxable bonds, Series 2014. The bonds were issued for the purpose of refunding the Hospital's outstanding Series 2004C taxable general obligation bonds. The refunding taxable bonds bear interest at a rate of 3.06%. Interest is payable semi annually on March 1 and September 1 each year. The bonds mature in annual installments on March 1 of each year until 2024. The bonds are not callable for early redemption.

In January 2014, the hospital issued \$7,650,000 of general obligation refunding tax-exempt bonds, Series 2014. The bonds were issued for the purpose of refunding the Hospital's outstanding Series 2004A and 2004B general obligation bonds. The refunding tax-exempt bonds bear interest at a rate of 1.860%. Interest is payable semi annually on March 1 and September 1 each year. The bonds mature in annual installments on March 1 of each year until 2024. The bonds are not callable for early redemption.

The loss incurred in connection with the advanced refunding of the Hospital's Series 2004A, 2004B, and 2004C general obligation bonds has been deferred and is being amortized over the life of the refunding bond issue. Amortization of this deferred loss was \$4,570 at December 31, 2017 and 2016. Amortization is included in interest expense.

Note 7. Long-Term Debt (Continued)

Hospital Indebtedness Obligations

On November 1, 2013, the Hospital issued \$10 million of Hospital Indebtedness Obligations to finance the cost of constructing, acquiring, and/or improving hospital facilities and equipment for the Hospital. The obligations bear interest at a rate of 2.99% and are payable in annual installments through July 1, 2023. The obligations are not callable for redemption prior to their stated maturity dates. The obligations are secured by a pledge of the net income, revenues, and receipts of the Hospital.

Combined Existing Debt Service Commitments

Principal and interest payments due on general obligation bonds and notes payable outstanding as of December 31, 2017, is as follows:

Years Ended		Principal	Interest
December 31,			
2018	\$	4,395,000	\$ 1,567,595
2019		4,515,000	1,477,805
2020		4,650,000	1,352,476
2021		4,785,000	1,226,191
2022		4,920,000	1,091,714
2023-2027		14,795,000	3,523,634
2028-2032		9,635,000	1,367,463
2033-2036		2,545,000	244,163
Total	\$	50,240,000	\$ 11,851,041

Notes to Financial Statements

Note 8. Employee Benefits

The Hospital and its member organizations maintain qualified defined contribution retirement and deferred compensation plans which provide benefits for eligible employees. Beginning in April, 2002, the Hospital initiated a combined deferred compensation and contributory employee savings plan for full-time employees. Each employee's interest in a previous plan was fully vested and was transferred over to the new plan.

The retirement plan provides a discretionary employer match of participant elective deferrals up to 4%, beginning January 1, 2006, rather than contributions based on salaries. Plan participants, who attained age 50 as of September 26, 2005, and were contributing 8% at that time, continue to receive the employer match up to 8% of their elective deferral. Employees are eligible to participate at their date of hire. Participants are immediately vested in their contributions plus actual earnings thereon.

Vesting in the Hospital's contribution is based on years of service. After three years of eligible service, the employee is 100% vested. Prior to that time, the employee is 0% vested.

The total eligible payroll for the years ended December 31, 2017 and 2016 was \$72,225,149 and \$62,223,852, respectively. During the years ended December 31, 2017 and 2016, the Hospital and member organizations made required contributions to the plan of \$1,842,414 and \$1,497,281, respectively.

Note 9. Risk Management and Regulatory Matters

Risk Management

The Hospital participates in the Louisiana Patients' Compensation Trust Fund (PCF) for insurance coverage on professional liability (medical malpractice) claims. As a participant, the Hospital has a statutory limitation of liability which provides that no award can be rendered against it in excess of \$500,000, plus interest and costs. The PCF provides coverage on a claims occurrence basis for claims over \$100,000 and up to the \$500,000 statutory limitation. The Hospital is self-insured with respect to the first \$100,000 of each claim.

The Hospital also participates in the Louisiana Hospital Association Trust Fund (LHA Trust Fund), which provides general liability coverage up to \$1,000,000 per claim. The LHA Trust Fund also insures excess general liability claims in excess of \$1,000,000 but limited to \$9,500,000 per claim. The Hospital's insurance coverage under the LHA Trust Fund is subject to a deductible of \$100,000 on a claims made basis.

The Hospital is involved in litigation arising in the ordinary course of business. Claims alleging malpractice have been asserted against the Hospital and are currently in various stages of litigation. As of December 31, 2017 and 2016, the Hospital has recorded professional and general liability accruals, totaling \$1,776,107 and \$1,680,823, respectively, as an estimated provision for both asserted claims and for claims incurred but not reported.

Notes to Financial Statements

Note 9. Risk Management and Regulatory Matters (Continued)

Risk Management (Continued)

This provision is included as a component of accrued interest and other expenses on its statement of net position. Additional claims may be asserted against the Hospital arising from services provided to patients through December 31, 2017, exceeding these coverage limits; however, management believes it has adequately provided for them.

The Hospital is self-insured for workers' compensation up to \$450,000 per claim, and employee health up to \$185,000 per claim. A liability is recorded when it is probable that a loss has been incurred and the amount of that loss can be reasonably estimated. Liabilities for claims incurred are re-evaluated periodically to take into consideration claims incurred but not reported, recently settled claims, frequency of claims, and other economic and social factors. The Hospital carries commercial insurance which provides coverage for workers' compensation and employee health claims in excess of the self-insured limits.

As of December 31, 2017, the Hospital has recorded workers' compensation and employee health accruals, totaling \$674,166 and \$641,277, respectively, as an estimated provision for both asserted claims and for claims incurred but not reported. This provision is included as a component of accrued interest and other expenses on its statement of net position.

As of December 31, 2016, the Hospital has recorded workers' compensation and employee health accruals, totaling \$866,509 and \$613,422, respectively, as an estimated provision for both asserted claims and for claims incurred but not reported. This provision is included as a component of accrued interest and other expenses on its statement of net position.

Changes in the Hospital's aggregate claims liability for professional, general liability, workers' compensation, and employee health, which are included in accrued interest and other expenses on the accompanying statements of net position, were as follows for the years ended December 31, 2017 and 2016:

Years Ended December 31,	Beginning of Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Year End
2017	\$ 3,160,754	\$ 15,178,744	\$ 15,247,948	\$ 3,091,550
2016	\$ 3,433,927	\$ 9,712,986	\$ 9,986,159	\$ 3,160,754

Regulatory Matters

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, and reimbursement for patient services. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers.

Notes to Financial Statements

Note 9. Risk Management and Regulatory Matters (Continued)

Regulatory Matters (Continued)

Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that the Organization is in compliance with fraud and abuse, as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

To ensure accurate payments to providers, the Tax Relief and Healthcare Act of 2006 mandated the Centers for Medicare & Medicaid Services (CMS) to implement a so-called Recovery Audit Contractor (RAC) program on a permanent and nationwide basis. The program uses RACs to search for potentially improper Medicare payments that may have been made to health care providers that were not detected through existing CMS program integrity efforts, on payments that have occurred at least one year ago but not longer than three years ago. Once a RAC identifies a claim it believes to be improper, it makes a deduction from the provider's Medicare reimbursement in an amount estimated to equal the overpayment.

A five-state pilot program concluded in March 2008, with a nationwide rollout of the RAC effort done in phases beginning in 2009. The experiences during the pilot found far more overpayments than underpayments.

Similarly, the Centers for Medicare & Medicaid Services (CMS) created new entities titled Audit Medicaid Integrity Contractors (MIC) in order to continue its efforts to ensure the highest integrity of its healthcare programs. The goal of the provider audits is to identify overpayments and to ultimately decrease the payment of inappropriate Medicaid claims. The MIC is to review claims submitted by all types of Medicaid providers, including all settings of care and types of services, with most audits taking place at staff headquarters and on occasion on-site at a provider's place of business.

The Organization was the subject of ongoing RAC and MIC audits during 2017 and 2016, and deducts from revenue amounts assessed under the RAC audits at the time a notice is received, until such time that estimates of net amounts due can be reasonably estimated. Annual net assessments against the Organization have not been significant through December 31, 2017.

In March 2010, the Patient Protection and Affordable Care Act (PPACA) was signed into law. The PPACA has created sweeping changes across the healthcare industry, including how care is provided and paid for. A primary goal of this comprehensive reform legislation is to extend health coverage to uninsured legal U.S. residents through a combination of public program expansion and private sector health insurance reforms. To fund the expansion of insurance coverage, the legislation contains measures designed to promote quality and cost efficiency in health care delivery and to generate budgetary savings in the Medicare and Medicaid programs. Management of the Hospital is studying and evaluating the anticipated effects and developing strategies needed to prepare for implementation, and is preparing to work cooperatively with other consultants to optimize available reimbursement.

d/b/a SLIDELL MEMORIAL HOSPITAL

Notes to Financial Statements

Note 10. Concentrations of Credit Risk

The Hospital grants credit without collateral to its patients, most of who are local residents and are often insured under third-party payor agreements. The mix of receivables from patients and third-party payors, net of contractual allowances and discounts, at December 31, 2017 and 2016, was as follows:

	2017	2016
Medicare	4%	4%
Medicaid	4%	7%
Medicare HMO	11%	9%
Managed Care and Other Payors	31%	30%
Patients	50%	50%
Total	100%	100%

Note 11. Changes in Capital Assets

Capital asset activity for the fiscal year ended December 31, 2017, was as follows:

Note 12. Louisiana Medicaid Collaboration and Cooperative Endeavor Agreements

The Organization routinely provides a substantial amount of uncompensated care to patients in its service area. For the years ended December 31, 2017 and 2016, management estimated that the total costs associated with providing uncompensated care were in excess of \$11 million and \$13 million, respectively.

To improve or expand allowable healthcare services for Medicaid beneficiaries or low-income, uninsured patients, during 2017 and 2016, the Organization entered into a series of collaborative agreements and cooperative endeavors designed to allow additional Medicaid funds for providing these services in the community.

Notes to Financial Statements

**Note 12. Louisiana Medicaid Collaboration and Cooperative Endeavor Agreements
(Continued)**

These agreements are detailed below:

East Jefferson General Hospital Cooperative Endeavor Agreement. The Organization entered into a cooperative endeavor agreement, which became effective January 12, 2016, with East Jefferson General Hospital (EJGH) (a Louisiana hospital service district) and other participating hospital service districts (HSDs). The Centers for Medicare and Medicaid Services (CMS) have previously approved Medicaid State Plan Amendments (SPA), submitted by the Louisiana Department of Health (LDH), which provides for reimbursement to non-rural, non-state public hospitals up to the Medicare inpatient upper payment limits.

Under this agreement, EJGH has agreed to cooperate in the establishment of a funding program by contributing a portion of the upper payment limit (UPL) payments that result from SPAs to the other HSDs, including Lane Regional Medical Center, for the purpose of ensuring that adequate and essential healthcare services are accessible and available to low-income and/or indigent citizens and medically underserved non-rural populations in Louisiana in a manner defined in the agreement. Funding for each participating hospital service district is based upon a formula utilizing each districts' reported Medicaid patient days. The term of this agreement is one year with automatic renewals for additional terms of one year unless earlier terminated.

Low Income and Needy Care Collaboration Agreement. Under the terms of this agreement with a private health care provider dated March 31, 2011, the Organization agreed to use public funds for purposes of funding Medicaid supplemental payments authorized under Medicaid State Plan Amendments LA 09-5S and LA 09-56. In exchange the private healthcare provider agrees to work cooperatively with Slidell Memorial Hospital to improve access to health care for low income and needy persons. The agreement may be terminated by either party with thirty days written notice.

Physicians' UPL Agreement with the Louisiana Department of Health (LDH). On December 8, 2011, the Organization entered in to an agreement with LDH which was approved by CMS. Under the program LDH began making payments under the Physician's Supplemental Payment Program for non-state owned public hospitals (HSD's) for dates of service effective July 1, 2010. The purpose of this program is to enhance payments to physicians employed or contracted by the public hospitals. Slidell Memorial Hospital agreed to transfer funds to LDH to be used as Medicaid matching funds for the purpose of making physician supplemental payments and providing the State with additional resources to assist in the medical costs to the State.

Notes to Financial Statements

**Note 12. Louisiana Medicaid Collaboration and Cooperative Endeavor Agreements
(Continued)**

Physicians' UPL Agreement with the Louisiana Department of Health (LDH) (Continued).

These matching funds are comprised of (1) an amount to be utilized as the "Non-Federal share" of the supplemental payments for services provided by the identified physician, and other healthcare professionals and (2) the "state retention amount," which is 22.5%, effective September 2016, of the "Non-Federal share", for the State to utilize in delivering healthcare services. In turn, LDH agrees to make supplemental Medicaid payments to the Hospital. The supplemental payments include the "Non-Federal share" and the "Federal funds" generated by the "Non-Federal share" payments. The total amount of the supplemental payments is intended to represent the difference between the Medicaid payments otherwise made to these qualifying providers and the Average Community Rate for these services.

Summary. During 2017, in accordance with the funding provisions of the above agreements, the Organization recognized \$8,679,818 as an offset to Medicaid contractual adjustments resulting in a corresponding increase in net patient service revenue. Payments to LDH in conjunction with the Low Income and Needy Care Collaboration Agreement totaled \$5,800,000, which is being amortized monthly over the effective term of the agreement. A total of \$5,800,000 was recognized as other direct expenses during 2017. The Organization also recognized \$1,324,357 as other direct expenses, funds paid or payable to LDH under the terms of the Physicians' UPL agreement during 2017 as income was recognized from the Medicaid Supplemental Payments.

During 2016, in accordance with the funding provisions of the above agreements, the Organization recognized \$6,184,191 as an offset to Medicaid contractual adjustments resulting in a corresponding increase in net patient service revenue. Payments to LDH in conjunction with the Low Income and Needy Care Collaboration Agreement totaled \$1,655,000, which is being amortized monthly over the effective term of the agreement. A total of \$5,155,000 was recognized as other direct expenses during 2016. The Organization also recognized \$680,631 as other direct expenses, funds paid or payable to LDH under the terms of the Physicians' UPL agreement during 2016 as income was recognized from the Medicaid Supplemental Payments.

Notes to Financial Statements

**Note 12. Louisiana Medicaid Collaboration and Cooperative Endeavor Agreements
(Continued)**

Physician Rate Enhancement Program. LDH has implemented a supplemental payment program for non-state owned public hospitals, such as the Organization, to enhance Medicaid fee for service payments to physicians employed by or contracted to provide services at such hospitals. LDH contracts with the Healthy Louisiana Program (formerly known as Bayou Health Program) managed care organizations, including those currently under contract with LDH, specifically, Aetna Better Health of Louisiana, Amerigroup Louisiana, Inc., AmeriHealth Caritas Louisiana, Inc., Louisiana Healthcare Connections, Inc., and UnitedHealthcare of Louisiana, Inc., to provide core benefits and services for individuals enrolled in the Healthy Louisiana Program (Medicaid enrollees) that are compensated by specified monthly capitation rates on a per member per month (PMPM) basis.

To ensure uniform reimbursement in the Medicaid program for physician services, provide greater opportunity and incentives for managed care organizations contracted with LDH to provide services to Medicaid beneficiaries to improve recipient health outcomes, add benefits for Medicaid enrollees, and support the health care safety-net for low income and needy patients, LDH increased the PMPM rate for reimbursement of physician services to include the full Medicaid pricing (FMP) component of the Mercer Rate Methodology (enhanced PMPM rate) for safety-net physicians to receive rates more consistent with their fee-for-service payments (referred to herein as Physician Rate Enhancement Funds and the Physician Rate Enhancement Program).

Physician Rate Enhancement Funds can be paid to a hospital political subdivision, such as the Organization, that elects to provide the State match for the federal funding associated with these Physician Rate Enhancement Payments, if an assignment agreement is in place between the hospital and a physician group that has contracted with the hospital to provide inpatient and outpatient physician services and is eligible to receive Physician Rate Enhancement Funds as a result of such services. The Organization obtained assignments from several physician groups that have contracted with the Organization to provide inpatient and outpatient services to the Organization's patients. As a result of these assignments, the Organization received Physician Rate Enhancement Funds from the five managed care organizations participating in the Healthy Louisiana Program totaling \$2,791,038 and \$1,501,299 for the year ended December 31, 2017 and 2016, respectively.

End of Year	\$ 58,198,575	\$ 253,145	\$ -	\$ -	\$ 58,451,720

Note 14. Deferred Outflows of Resources

The Hospital has recorded deferred outflows of resources of \$286,040 and \$332,425 at December 31, 2017 and 2016, respectively, related to deferred bond losses resulting from refunding bond issuances.

Notes to Financial Statements

Note 15. Current Economic Conditions

The current economic conditions continue to present hospitals with difficult circumstances and challenges, which in some cases have resulted in large declines and unanticipated declines in the fair value of investments and other assets, constraints on liquidity and difficulty obtaining financing. The financial statements have been prepared using values and information currently available to the Hospital.

Unemployment rates have made it difficult for certain patients to pay for services rendered. As employers make adjustments to health insurance plans or more patients become unemployed, services provided to self-pay and other payers may significantly impact net patient service revenue, which could have an adverse impact on the Hospital's future operating results. Further, the effect of economic conditions on the state may have an adverse effect on cash flows related to the Medicaid program.

Given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change rapidly, resulting in material future adjustments in asset values, including allowances for accounts receivable that could negatively impact the Hospital's ability to meet debt covenants or maintain sufficient liquidity.

Note 16. Joint Operating Agreement

On July 2, 2015, the Organization signed a Joint Operating Agreement (JOA) with Ochsner Clinic Foundation (owners and operators of Ochsner Medical Center - Northshore) and Ochsner Health Systems (collectively OHS) in order to accomplish over time the following clinical integration and healthcare delivery goals: continuing the charitable and public service missions; optimizing delivery of healthcare beyond what any of the parties can do alone so that community based primary and secondary services can be efficiently performed; reducing costs and improving quality and operational efficiencies beyond what any of the parties can do alone by integrating SMH and OHS clinical and administrative systems; pooling complementary clinical resources to improve quality outcomes and keeping care local and reducing outmigration of care from the community beyond what any of the parties can do alone; and accessing and efficiently utilizing capital.

The parties intend to operate the JOA coordinated operations as a coordinated delivery system, a clinically integrated system, and a financially integrated collaboration. The parties will integrate financially by sharing all financial risk as well as the rewards of their collaboration in accordance with the JOA.

As part of the JOA, during the year ended December 31, 2017, the Organization made the following changes to the service lines offered: (1) all cardiac catheterization procedures will now be performed only at SMH and (2) total joint procedures are primarily performed at the Ochsner Northshore Campus.

Notes to Financial Statements

Note 16. Joint Operating Agreement (Continued)

As part of the JOA, during the year ended December 31, 2016, the Organization made the following changes to the service lines offered: (1) all inpatient rehabilitation services offered by the Organization are now performed only at the Ochsner Northshore Campus, (2) all pediatric inpatient/observation services offered by the Organization are now performed only at the Ochsner Northshore Campus, (3) all Sleep lab services offered by the Organization are now provided only at the SMH sleep center, and (4) infusion procedures are performed at the SMH Regional Cancer Center.

Financial consideration as a result of this agreement is based on a pre-established and pre-defined combined adjusted operating income (SMH and OHS) for the area of service as defined by the agreement.

Beginning January 1, 2016 and for each year thereafter during the term of the agreement, the parties will share all combined adjusted operating income or loss based on pre-established percentages. For the years ended December 31, 2017 and 2016, the Organization recognized approximately \$4.5 and \$5.3 million, respectively, in expenses as a result of the JOA which is included in other direct expense on the statement of revenues, expenses, and changes in net position.

The agreement will continue for a term of twenty years, and will automatically renew for one year terms thereafter.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

To the Board of Commissioners
St. Tammany Parish Hospital Service District No. 2
Slidell, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of St. Tammany Parish Hospital Service District No. 2 (d/b/a Slidell Memorial Hospital) (the Organization) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Organization's basic financial statements, and have issued our report thereon dated May 18, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Independent Auditor's Report on Supplementary Information

To the Board of Commissioners
St. Tammany Parish Hospital Service District No. 2
Slidell, Louisiana

We have audited the financial statements of the St. Tammany Parish Hospital Service District No. 2 (d/b/a Slidell Memorial Hospital) as of and for the years ended December 31, 2017 and 2016, and have issued our report thereon dated, May 18, 2018, which expressed an unmodified opinion on those financial statements. Our audits were performed for the purpose of forming an opinion on the financial statements as a whole. We have not performed any procedures with respect to the audited financial statements subsequent to May 18, 2018.

The accompanying supplementary information is presented for the purpose of additional analysis, as required by Louisiana Revised Statutes, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Louisiana Revised Statute 24:513(A)(3) as amended by Act 706 of the 2014 Regular Legislative Session requires that the total compensation, reimbursements, and benefits of an agency head or political subdivision head or chief executive officer related to the position, including but not limited to travel, housing, unvouchered expense, per diem, and registration fees be reported as a supplemental report within the financial statements of local government and quasi-public auditees. In 2015, Act 462 of the 2015 Regular Session of the Louisiana Legislature further amended R.S. 24:513(A)(3) to clarify that nongovernmental entities or not-for-profit entities that received public funds shall report only the use of public funds for the expenditures itemized in the supplemental report.

AGREED-UPON PROCEDURES REPORT
St. Tammany Parish Hospital Service District No. 2
d/b/a Slidell Memorial Hospital

Independent Accountant's Report
On Applying Agreed-Upon Procedures

For the Year Ended December 31, 2017

To the Board of Commissioners St. Tammany Parish Hospital Service District No. 2
d/b/a Slidell Memorial Hospital:

We have performed the procedures enumerated below as they are a required part of the engagement. We are required to perform each procedure and report the results, including any exceptions. Management is required to provide a corrective action plan that addresses all exceptions noted. For any procedures that do not apply, we have marked "not applicable."

Management of St. Tammany Parish Hospital Service District No. 2 d/b/a Slidell Memorial Hospital (the Hospital) is responsible for its financial records, establishing internal controls over financial reporting, and compliance with applicable laws and regulations. These procedures were agreed to by management of the Hospital and the Legislative Auditor, State of Louisiana, solely to assist the users in assessing certain controls and in evaluating management's assertions about the Hospital's compliance with certain laws and regulations during the year ended December 31, 2017, in accordance with Act 774 of 2014 Regular Legislative Session. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and results are as follows:

Pharmacy Operations and Inventory

1. Obtain the entity's written policies and procedures over pharmacy operations and inventory (or report that the entity does not have any written policies and procedures over pharmacy operations and inventory) and report whether those written policies and procedures address (1) procurement, (2) receipt, (3) distribution, (4) control, (5) accountability, (6) waste, (7) disposal of outdated drugs, (8) requirement of background checks before hiring any pharmacy personnel, (9) monthly checks of all pharmacy staff and contractors to the LEIE list of exclusions, (10) theft or loss reporting protocol to DEA, and (11) random audits of pharmacy security logs.

Results: The Hospital's written policies and procedures addressed all of the elements listed above except for item (9).

2. Report if Schedule II controlled dangerous substances are maintained on a perpetual inventory system.

Results: Schedule II controlled dangerous substance are maintained on a perpetual inventory system.

3. Report last date on which a complete inventory was conducted on Schedule II controlled dangerous substances.

Results: The last date on which a complete inventory was conducted on Schedule II controlled dangerous substance was June 1, 2017.

4. Obtain a listing of pharmaceutical (drug) orders during the year under review and management's representation that the listing is complete.

Results: Obtained the listing of pharmaceutical orders during the year under review and management's representation that the listing is complete.

5. Randomly select 5 drug orders for testing and report:

- a. If a record was maintained of the quantity received, the name, address and wholesale distributor license number of person from whom the drugs were procured, and
- b. If the bill of lading, or equivalent, for the drug order being tested ties to the order entered into the pharmacy tracking system.

Results: There were no exceptions noted for items (a) and (b) above for the five randomly selected drug order selected.

6. Report if the hospital utilizes an automated medication system.

Results: The Hospital utilizes an automated medication system.

7. If the hospital utilizes an automated medication system:

- a. Obtain the entity's written policies and procedures over pharmacy automated medication system (or report that the entity does not have any written policies and procedures over pharmacy automated medication system) and report whether those written policies and procedures address criteria set forth in the Louisiana Administrative Code Title 46, part LIII, section 1209.

Results: The Hospital's written policies and procedures over pharmacy automated medication system addressed the criteria listed above.

8. Report if the hospital utilizes a drug cabinet (i.e. emergency/after-hours "crash" cart).

Results: The Hospital utilizes a drug cabinet.

9. If the hospital utilizes a drug cabinet:

- a. Obtain the entity's written policy and procedures over pharmacy drug cabinet utilization (or report that the entity does not have any written policies and procedures over pharmacy drug cabinet utilization) and report whether those written policies and procedures address (1) emergency use, (2) security, (3) inventory, (4) labeling, (5) quantities, (6) accessibility (to include proof of use), and (7) requirement of inspection every thirty days.

Results: The Hospital's written policy and procedures over pharmacy drug cabinet utilization addressed the items listed above.

Deferred Compensation Plan Employer Match

1. Obtain a listing of employees participating in the entity's deferred compensation plan, with their related salaries, and obtain management's representation that the listing is complete. Randomly select one payroll period during the period under review and:
 - a. Obtain the employee deferred compensation enrollment form from each participant's file or the entity's overall deferred compensation file, as applicable.
 - b. Obtain payment support for each participant in the deferred compensation plan for the selected period and perform a recalculation of the participant's deferred compensation contributions
 - c. Report whether the amount deducted from the participant's pay matches the elected contribution amount shown on the participant's deferred compensation enrollment form.
 - d. Obtain the payment support for the deferred compensation payment from the entity for the selected period and perform a recalculation of the employer's deferred compensation contributions.
 - e. Report whether the employer's deferred compensation payment(s) match the required employer contributions, per the policy/agreement.

Results: Obtained the listing of employees participating in the Hospital's deferred compensation plan with their related salaries and management's representation that the listing is complete. Randomly selected one payroll period during the year and obtained the supporting documentation listed in items (a) through (e) for 20 randomly selected employees. There were no exceptions noted to the criteria listed above in items (a) through (e).

Payroll and Personnel

1. Obtain the entity's written policies and procedures over payroll/personnel (or report that the entity does not have any written policies and procedures over payroll/personnel) and report whether those written policies and procedures address (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.

Results: The Hospital's written policies and procedures addressed all of the elements listed above.
2. Obtain a listing of employees (and elected officials, if applicable) with their related salaries, and obtain management's representation that the listing is complete. Randomly select five employees/officials, obtain their personnel files, and:
 - a. Review compensation paid to each employee during the fiscal period and report whether payments were made in strict accordance with the terms and conditions of the employment contract or pay rate structure.
 - b. Review changes made to hourly pay rates/salaries during the fiscal period and report whether those changes were approved in writing and in accordance with written policy.

Results: Obtained the listing of employees with their related salaries and management's representation that the listing is complete. No exceptions to the requirements listed above were noted for the five randomly selected employees.

3. Obtain attendance and leave records and randomly select one pay period in which leave has been taken by at least one employee. Within that pay period, randomly select 25 employees/officials (or randomly select one-third of employees/officials if the entity had less than 25 employees during the fiscal period), and:

Note: The sample of employees/officials selected for testing should include the Hospital Chief Executive Officer (CEO).

- a. Report whether all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, an elected official is not eligible to earn leave and does not document his/her attendance and leave. However, if the elected official is earning leave according to policy and/or contract, the official should document his/her daily attendance and leave.)
- b. Report whether there is written documentation that supervisors approved, electronically or in writing, the attendance and leave of the selected employees/officials.
- c. Report whether there is written documentation that the entity maintained written leave records (e.g., hours earned, hours used, and balance available) on those selected employees/officials that earn leave.

Results: Randomly selected one pay period in which leave was selected. There were no exceptions to items (a), (b), and (c) listed above for the 25 randomly selected employees, which included the CEO.

4. Obtain existing written documentation (e.g. policy manual, written procedure) and report whether the entity has a process specifically defined (identified as such by the entity) to periodically review changes to leave records by a person without access to change said leave records.

Results: The Hospital has a process to periodically review changes to leave records by a person without access to change the leave records.

5. Obtain from management a list of those employees/officials that terminated during the fiscal period and management's representation that the list is complete. If applicable, select the two largest termination payments (e.g., vacation, sick, compensatory time) made during the fiscal period and obtain the personnel files for the two employees/officials. Report whether the termination payments were made in strict accordance with policy and/or contract and approved by management.

Results: Obtained a list of employees that terminated during the fiscal year and management's representation that the list is complete. The two largest termination payments were made in accordance with policy and approved by management.

6. Obtain supporting documentation (e.g. cancelled checks, EFT documentation) relating to payroll taxes and retirement contributions during the fiscal period. Report whether the employee and employer portions of payroll taxes and retirement contributions, as well as the required reporting forms, were submitted to the applicable agencies by the required deadlines.

Results: The employer portions of payroll taxes and retirement contributions, as well as the required reporting forms, were submitted to the applicable agencies by the required deadlines.

This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to perform, and did not perform, an examination or review, the objective of which would be the expression of an opinion or conclusion. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management St. Tammany Parish Hospital Service District No. 2 d/b/a Slidell Memorial Hospital and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
