Georgetown, Louisiana

Management is responsible for the accompanying financial statements of the governmental activities of the Fire Protection District No. 4 of Grant Parish (a component unit of the Grant Parish Police Jury, Louisiana), as of and for the year ended June 30, 2022, which collectively comprise the Fire Protection District No. 4 of Grant Parish's basic financial statements, in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Management has omitted management's discussion & analysis and budgetary comparison schedule that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Reconciliation of the Statement of Revenues, Expenditures, & Changes in Fund Balances
of Government Funds to the Statement of Activities
Year Ended June 30, 2022**

Net change in fund balance – total governmental funds \$ 16,003

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount which capital outlays exceeded depreciation in the current period.

Capital Outlay	14,172
Depreciation	(31,832)
	(17,660)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.
