February 6, 2026

Mr. Perry Anderson, President,
Members of the Claiborne Parish School Board
And Citizens of Claiborne Parish
Homer, Louisiana

State law requires the School Board to publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2025.

The Louisiana State Auditor granted an extension for the date required for submission of this report to March 31, 2026.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive internal control framework designed both to protect the School Board's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the Claiborne Parish School Board's financial statements. Because the costs of internal controls should not outweigh their benefits, the Claiborne Parish School Board's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

Allen, Green & Williamson, LLP, a firm of licensed certified public accountants, have issued an unmodified (clean) opinion on the School Board's financial statements for the year ended June 30, 2025. The independent auditor's report is presented as the first component in the financial section of this report.

GAAP requires management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The School Board's MD&A can be found immediately following the report of the independent auditor in the financial section of this report.

Profile of the School Board

The School Board is authorized by LSA-R.S. 17:81 to establish policies and procedures for its own government consistent with the laws of the state of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. Although created as a political subdivision of the State, the School Board legally stands on its own, is fiscally independent, and elects its own governing body who is accountable for the financial activities of the Claiborne Parish School Board. Therefore, it is considered a primary government under the provision of Governmental Accounting Standards Board Statement No. 61. The School Board has no component units nor is it a component unit of any other entity. All funds and activities of the Claiborne Parish School Board are included in this annual report.

The Claiborne Parish School Board serves approximately 1,539 students not including Pre-K as of February 1, 2025, employs over 300 full time employees, and offers a full range of educational services for students from pre-kindergarten through twelfth grade, including regular and special education services for the disabled, vocational education, and alternative education programs, in addition to auxiliary services such as student transportation and food service. These services are provided through the Central Office and its 6 school sites housed throughout the parish. Student enrollment is not anticipated to make a significant change in 2025-2026 school year. To learn more about the Claiborne Parish School Board, visit our web site at www.claibornepsb.org.

Age of School Buildings

The Claiborne Parish School Board has several buildings and non-instructional buildings that were constructed or purchased with Capital Project Funds. The method of financing for these capital expenditures occurred by (a) borrowing monies after tax propositions were approved by the public, or (b) by saving money over a period of years. Therefore, the decision to add a public facility or make extensive repairs is based on the understanding of needs of the students, teachers, parents, and taxpayers of the community. See Table 17 of the Statistical Section included in this report for additional details regarding the age of school buildings.

Local Economy

Claiborne Parish is located in the north-central region of the state of Louisiana with the county seat being Homer, Louisiana. It has a land area of 759 square miles which is situated between the two largest metropolitan cities in North Louisiana: the City of Shreveport approximately 51 miles to the west and the City of Monroe approximately 69 miles to the east. Claiborne Parish is also within the same proximity to Dallas, Texas; Little Rock, Arkansas; and Jackson, Mississippi. The economy in Claiborne Parish is firmly rooted in oil and gas industry, farming, cattle, and timber. With a population of 14,038 the citizens in Claiborne Parish enjoy all the benefits offered by life in a smaller, family-oriented community, without big-city hassles. If a need does arise, however, proximity to metropolitan areas allows area citizens big city convenience at a moment’s notice without sacrificing the safety and security of a non-urban lifestyle. These are the qualities that continue to spur the prosperous economic growth in Claiborne Parish

Long Term Financial Planning and Major Initiatives

Effort in State Funding. The School Board ranks 43rd in local funding for education per pupil amount. This is according to Table 7 – Local Revenue of the state Minimum Foundation Program (MFP) for fiscal year 2024-2025. The following is a chart which shows the changes in local revenues over the past three years and the local revenue per pupil compared to the state average.

<u>Fiscal Year</u>	<u>Total Pupils Served</u>	<u>Total Local Tax Revenues</u>	Claiborne Parish <u>Local Revenue Per Pupil</u>
2022-2023	1,592	\$7,284,000	\$4,237
2023-2024	1,520	7,440,896	4,442
2024-2025	1,538	7,391,237	4,565

School Board Strives to Meet Required Percent of Instruction. The MFP requires each school system in Louisiana to spend a minimum of 70% of total actual expenditures in the area of instruction. Claiborne Parish continues to strive to meet this requirement as in years past, as well as exceed the state’s average expenditures for instruction. During the budget process, expenditures in the General Fund are analyzed to determine if any non-instructional expense could legally and financially be accounted for in other funds in order to keep the instructional expenditures percentage at or above the 70% minimum.

Average Teacher Salary. The average classroom teacher salary at the Claiborne Parish School Board in 2024-2025 is \$52,736. The salary is partly the result of a greater number of certified employees, local sales tax checks and the attraction of new teachers to Claiborne Parish.

Budget Process

We normally start the process for building a budget for the coming year in March or April. Since the numbers from the Budget Revision process are still fresh in our minds when we launch into the Budget for the coming year, we basically use the Revisions as actual for the new budget.

First thing we do is make a determination as to (1) projected student enrollment, (2) employer rates for retirement programs and impact on budget, (3) employer premiums for hospitalization programs, and (4) staffing level based on student enrollments (as of February 1 student count) and pupil teacher ratios.

Since the General fund budget is 91%, more or less, salary and related benefits, we enter the salaries and benefits for the coming year. If we have to reduce personnel, the reductions are applied to the budget. We then look into non salary related areas of the budget and make adjustments based upon input from other departments of needs for textbooks, supplies, travel, etc. The General fund and all Special Revenue funds are budgeted each year with the exception of Debt Service and Capital Projects. The Board approves budgets at the function level and management can transfer amounts between line items within a function.

Once we have these completed, the budget is done and we prepare to present it to the Board.

Relevant Financial Policies

The Claiborne Parish School Board was created by LRS 17:51 to provide public education for the children of Claiborne Parish. The ten-member Board establishes policies and regulations for its own government consistent with the laws of the State of Louisiana and regulations of the Louisiana Board of Elementary and Secondary Education.

The School Board is legally separate and fiscally independent. It includes all funds and activities in its financial reports that are within the oversight and responsibility of the Board.

All accounts of the School Board are organized and operated on a fund basis. Each fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

Acknowledgments

The School Board strives for excellence in financial reporting each year. Once again, as in previous years, we received the Certificate of Excellence Award from the Association of School Business Officials for our submission of the 2024 Annual Comprehensive Financial Report and the Certificate of Excellence Award from the Government Finance Officers Association for our submission of the 2024 Annual Comprehensive Financial Report.

It is our desire that this report contain the necessary information and data which will provide a better understanding of the operations of the school system. It is further hoped that this report has been designed in a manner that to be used as an administrative tool and general source of information so as to enhance our accountability to the public. We would like to take this opportunity to express our sincere appreciation to the staff of the business department whose extraordinary efforts contributed to the publication of this report.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Claiborne Parish School Board as of and for the year ended June 30, 2025, and the related notes to the financial statements which collectively comprise the School Board's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of the Claiborne Parish School Board, as of June 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Claiborne Parish School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Emphasis of Matters

As described in Note 19 to the financial statements, the School Board adopted new accounting guidance, GASB Statement No. 101 – *Compensated Absences*, during the fiscal year ended June 30, 2025. GASB Statement 101 establishes updated guidance for the recognition and measurement of liabilities for compensated absences and replaces previous guidance. The adoption of this standard resulted in a change in accounting principle. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in the Total OPEB Liability and Related Ratios, Schedule of Employer's Proportionate Share of the Net Pension Liability, Schedule of Employer Contributions to Pension Plans, the Budgetary Comparison Schedules, and the notes to the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Claiborne Parish School Board's basic financial statements. The accompanying supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the accompanying supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information, as listed in the table of contents, comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report, under separate cover, dated February 6, 2026, on our consideration of the Claiborne Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Claiborne Parish School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION
AND ANALYSIS (MD&A)**

Claiborne Parish School Board
Management's Discussion and Analysis (MD&A)
June 30, 2025

Our discussion and analysis of Claiborne Parish School Board's financial performance provides an overview of the School Board's financial activities for the fiscal year ended June 30, 2025. Please read it in conjunction with the School Board's financial statements which follow this Management's Discussion and Analysis.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2024-2025 fiscal year include the following:

- Statement of Net Position – The liabilities and deferred inflows of resources of the Claiborne Parish School Board exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$13,448,828 (net position). Of this amount, unrestricted net position is a deficit of \$(39,206,366) due mainly to the recording of OPEB and pension liabilities.
- Statement of Activities – The total net position of the Claiborne Parish School Board increased by \$7,855,995 for the year ended June 30, 2025, compared to the prior year increase of net position of \$8,177,712. This increase is due to total revenues continuing to exceed total expenses.
- Governmental Funds Balance Sheet – As of the close of the current fiscal year, the Claiborne Parish School Board's governmental funds reported a combined ending fund balance of \$24,505,207, a decrease of \$64,946 in comparison with the prior fiscal year. This fund balance is comprised of (1) \$18,721,652 in the General Fund and (2) \$5,783,555 in the Special Revenue Funds.
- Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances – Total revenues for the year ended June 30, 2025 for the governmental funds of the Claiborne Parish School Board amounted to \$31,627,713. Approximately 88% of this amount is received from four major revenue sources: (1) \$13,456,270 from State Source-Equalization, (2) \$6,592,594 from federal sources, (3) \$4,310,774 from local ad valorem taxes and (4) \$3,467,319 from local sales and use taxes.
- General Fund's Ending Fund Balance – At the end of the current fiscal year, fund balance for the General Fund was \$18,721,652, or 87% of total General Fund expenditures. Of this amount, \$511,325 is committed for future claims and contingencies, equipment replacement, and specific projects and \$1,367,806 is restricted for salaries, benefits and workers compensation, while \$16,488,049 is unassigned and available for spending at the Board's discretion.

NEW GASB STANDARDS

The School Board adopted GASB Statement 101 – *Compensated Absences* in the current fiscal year. This statement requires recognition of liabilities for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled upon separation from employment. The adoption of this standard did not materially impact the School Board's financial statements.

The School Board also implemented GASB Statement 102 – *Certain Risk Disclosures*. This statement requires the School Board to assess whether a concentration or constraint make the School Board vulnerable to the risk of a substantial impact to revenue debt. Additionally, this statement requires the School Board to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. The implementation of this standard had no effect on the School Board.

USING THIS ANNUAL REPORT

The School Board's annual report consists of a series of financial statements that show information for the School Board as a whole, its funds, and its fiduciary responsibilities. The Statement of Net Position and the Statement of Activities provide information about the activities of the School Board as a whole and present a longer-term view of the School Board's finances. Our fund financial statements are included later in this report. For our governmental activities, these statements tell how we financed our services in the short-term as well as what remains for future spending. Fund statements also may give you some insights into the School Board's overall financial health. Fund financial statements also report the School Board's operations in more detail than the government-wide financial statements by providing information about the School Board's most significant funds: the General Fund, Maintenance Fund, and Title I. The remaining statements - the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position presents financial information about activities for which the School Board acts solely as a custodian for the benefit of other governmental entities.

Reporting the School Board as a Whole

The Statement of Net Position and the Statement of Activities

Our analysis of the School Board as a whole begins with the government-wide financial statements. One of the most important questions asked about the School Board is, "Is the School Board as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Position and the Statement of Activities, which appear first in the School Board's financial statements, report information on the School Board as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities and deferred outflows/inflows of resources, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School Board's net position - the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, as reported in the Statement of Net Position - as one way to measure the School Board's financial health, or financial position. Over time, increases or decreases in the School Board's net position - as reported in the Statement of Activities - are one indicator of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School Board's operating results. However, the School Board's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the School Board.

The Statement of Net Position and Statement of Activities report the following activity for the School Board:

Governmental activities - All of the School Board's services are reported here, including instruction, plant services, transportation, and food services. Property taxes, sales taxes, Minimum Foundation Program funds, and state and federal grants finance most of these activities.

Reporting the School Board's Most Significant Funds

Fund Financial Statements

The School Board's fund financial statements provide detailed information about the most significant funds - not the School Board as a whole. Some funds are required to be established by State law and by bond covenants. However, the School Board establishes many other funds to help it control and manage money for particular purposes (like the School Food Service) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (like grants the School Board receives from the U.S. Department of Education). The School Board's governmental funds use the following accounting approach:

Governmental funds - All of the School Board's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year-end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School Board's operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School Board's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation on Statements D and F.

The School Board as Trustee

Reporting the School Board's Fiduciary Responsibilities

The School Board is the trustee, or fiduciary, for its sales tax collection agency. All of the School Board's fiduciary activities are reported in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. We exclude these activities from the School Board's other financial statements because the School Board cannot use these assets to finance its operations. The School Board is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE SCHOOL BOARD AS A WHOLE The School Board's net position was \$(13,448,828) at June 30, 2025. Of this amount \$(39,206,366) was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net position for day-to-day operations. Our analysis below focuses on the net position, (Table 1) and the change in net position (Table 2) of the School Board's governmental activities.

The \$(39,206,366) in unrestricted net position of governmental activities represents accumulated results of all past year's operations. It means that if the School Board had to pay off all of its bills today including all of its non-capital liabilities such as other post-employment benefits (OPEB), net pension liability and compensated absences, there would be a shortfall of \$39,206,366.

Governmental Activities As reported in the Statement of Activities, the cost of all governmental activities this year was only \$23,751,234. The amount that taxpayers ultimately financed for these activities was \$15,894,748 because some of the cost was paid by those who benefited from the program \$19,306 or by other governments and organizations who subsidized certain programs with grants and contributions \$7,837,180. The remaining balance was paid by MFP funds of \$13,456,270 and other revenues which are mainly interest earnings and other miscellaneous revenue, and from prior year net position.

Management's Discussion and Analysis (MD&A)
June 30, 2025**

In the table below we have presented the cost of each of the School Board's six largest functions - Regular programs, Special programs, Other instructional, Instructional staff support, School administration, and Plant services, as well as each program's net cost (total cost less revenues generated by the activities). Net cost shows the financial burden that was placed on the School Board's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

THE SCHOOL BOARD'S FUNDS As we noted earlier, the School Board uses funds to help it control and manage money for particular purposes. Looking at funds helps you consider whether the School Board is being accountable for the resources taxpayers and others provide to it but may also give you more insight into the School Board's overall financial health.

For reporting purposes, the General Fund column of the fund financials includes the following individual funds of the School Board: General Fund, Contingency Fund, Sales Tax Collections Fund, 1996 Sales Tax Fund, Medicaid Fund, Payroll Fund and the 1978 Sales Tax Fund.

The fund balance of the General Fund increased by \$148,674. This increase is due mainly to an increase in investment income and expenditures were also closely monitored.

The Maintenance Funds account for the proceeds of ad valorem taxes levied to maintain and improve school facilities in the parish. This fund balance decreased by \$195,356 during the year mainly due to the change from individual district tax collections to one parish wide ad valorem tax during the 2024-2025 school year.

The Title 1 funds are cost reimbursement funds and do not carry a fund balance.

The fund balances for Nonmajor Governmental Funds decreased by \$18,264 during 2025. The funds which are included are state and federal special revenue funds. The decrease was mainly due to the decrease in School Food Service but was offset by an increase in Student Activity Funds.

General Fund Budgetary Highlights As mentioned earlier, the School Board revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. (A schedule showing the School Board's original and final budgets compared with actual results for the General Fund and major special revenue funds with legally adopted budgets are provided in the required supplemental information section of this report as Exhibits 3-1 through 3-3.)

The General Fund's actual revenues matched the budgeted revenue amounts. Total actual expenditures for the General Fund were \$2 less than the budgeted expenditures.

The General Fund budget was amended during the year. The significant change that was made to the budgeted revenue to reflect the increase of the original budget for a net result of \$776,973, which was due to an increase in the amount of state funding and ad valorem tax collections.

Expenditures were also amended to reflect an increase over the original budgeted amounts with a net result of changes being an overall increase of \$290,780, due to an increase in salaries and benefits and closely monitoring expenditures throughout the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets At June 30, 2025, the School Board had \$18,658,703 invested in a broad range of capital assets, including land, construction in progress, buildings, and furniture and equipment. This amount represents a net decrease (including additions, deductions and depreciation) of \$373,921 or 2% from last year.

Totals	\$ 18,658,703	\$ 19,032,624	\$ (373,921)

This year's additions included four buses, multiple heating and cooling systems, a plumbing upgrade at one of the locations, a walk-in freezer, school signage for some locations, and a new server for the parish.

Debt Administration At June 30, 2025, the School Board had no issued debt. Under state statute, the School Board is legally restricted from incurring long-term bonded debt in excess of 50% of the assessed value of taxable property.

Additional information on capital assets and long-term debt can be found in Note 5 and Note 11, respectively, of the notes to financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES The following are currently known economic factors to be considered for the 2025-2026 fiscal year:

1. Monitoring of the employer costs for retirement and health insurance for employees.
2. MFP must continue to be monitored closely along with the student count.
3. Other major revenues such as property tax and sales tax must be closely monitored.

**GOVERNMENTAL FUNDS
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2025**

Statement F

Total net change in fund balances - governmental funds		\$ (64,946)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation in the period:		
Depreciation expense	\$ (1,218,053)	
Capital outlays	<u>865,616</u>	(352,437)
In the Statement of Activities, scrapping of capital assets are reported as gain or loss net of the book value.		
Cost of assets scrapped/sold	(30,331)	
Accumulated depreciation	<u>8,847</u>	
Net loss		(21,484)
The recognition of pension expense in the Statement of Activities is based on projected benefit payments discounted to actuarial present value and attributed to periods of employee service. Pension expenditures in the fund financial statements are the amounts actually paid.		
		385,454
In the Statement of Activities, certain operating expenses-compensated absences (vacations and sick leave) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, compensated absences increased by:		
		(642,515)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in government funds

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES The accompanying financial statements of the Claiborne Parish School Board have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. REPORTING ENTITY The Claiborne Parish School Board was created by Louisiana Revised Statute (LSA-R.S.) 17:51 to provide public education for the children within Claiborne Parish. The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of ten members who are elected for four years.

The School Board operates six schools within the parish with a total enrollment of 1,636 pupils, including 98 PreK students, for the year ended June 30, 2025. In conjunction with the regular educational programs, some of these schools offer special education and/or vocational education programs. In addition, the School Board provides transportation and school food services for the students.

GASB Statements No. 61 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Because the School Board has a separately elected governing body and is legally separate and fiscally independent, the School Board is a separate governmental reporting entity. The School Board includes all funds, activities, et cetera, that are within the oversight responsibility of the School Board.

Certain units of local government, such as the parish police jury and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from those of the School Board.

B. FUNDS The accounts of the School Board are organized and operated on the basis of funds. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

Funds of the School Board are classified into two categories: governmental and fiduciary. In turn, each category is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

Governmental Funds Governmental funds account for all or most of the School Board's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets, and the servicing of long-term debt. The School Board reports the following major governmental funds:

General - The general operating fund of the School Board accounts for all financial resources, except those accounted for in other funds.

Maintenance Fund - The maintenance fund accounts for the proceeds of ad valorem taxes levied to maintain and improve school facilities in the parish.

Title I - This program accounts for federal sources and was designed to improve educational opportunities of educationally deprived children by helping them succeed in the regular school program, attain grade level

proficiency and improve achievement in basic and more advanced skills. Primarily for provision of compensatory instructional activities to educationally deprived children that reside in low-income areas and have been selected on the basis of a needs assessment, services supplement, not supplant, those normally provided by state and local educational agencies.

Fiduciary Funds - account for assets held by the government in a trustee capacity or as an agent on behalf of outside parties, including other governments.

Custodial funds are used to account for assets that the government holds for others in an agency capacity. These custodial funds are as follows:

Sales tax collections fund - accounts for monies collected on behalf of other taxing authorities in Claiborne Parish.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Government-Wide Financial Statements (GWFS) The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities was prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, liabilities and deferred outflows/inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, liabilities and deferred outflows/inflows of resources resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions".

Program revenues Program revenues include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions; program revenues reduce the cost of the function to be financed from the School Board's general revenues. Charges for services are primarily derived from cafeteria sales. Operating grants and contributions consist of the many educational grants received from the federal and state government.

Allocation of indirect expenses The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities.

Fund Financial Statements (FFS)

Governmental Funds The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes are recognized when all applicable eligibility requirements are met and the resources are available.

Sales taxes are recognized when the underlying exchange takes place and the resources are available.

Interest income on time deposits and investments is recorded when the interest becomes measurable and available to finance expenditures of the fiscal period.

Federal and state entitlements which include state equalization and state revenue sharing are recorded as unrestricted grants-in-aid when available and measurable. Federal and state restricted grants are recorded when the reimbursable expenditures have been incurred.

Expenditures

Salaries are recorded as paid. Salaries for nine-month employees are paid over twelve months and accrued at June 30.

Principal and interest on long-term debt is recognized when due.

Inventory items are expensed as purchased except for inventory of the school food service fund which is expensed as consumed.

Compensated absences are recognized as expenditures when leave is actually taken or upon termination of employment due to retirement or death.

Other Financing Sources (Uses) Transfers between funds that are not expected to be repaid (or other types, such as sale of capital assets, debt extinguishments, and long-term debt proceeds) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Fiduciary Funds *Custodial funds* are used to report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds, or private-purpose trust funds. Custodial funds are accounted for using the accrual basis of accounting and the economic resources measurement focus.

D. CASH AND CASH EQUIVALENTS Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the School Board may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

Under state law, the School Board may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less they are classified as cash equivalents and are stated at cost.

The School Board participates in the Louisiana Asset Management Pool, Inc. (LAMP) which is an external investment pool that is not SEC-registered. Because the LAMP is an arrangement sponsored by a type of governmental entity, it is exempt by statute from regulation by the SEC.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955.

GASB Statement No. 40 Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invests in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

- Credit risk: Lamp is rated AAAM by Standard & Poor's.
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investment is 55 days as of June 30, 2025.
- Foreign currency risk: Not applicable.

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

LAMP issues financial reports. These financial reports can be obtained by writing: LAMP, Inc., 650 Poydras Street, Suite 2220, New Orleans, LA 70130 or contact the LAMP administrative office at 800-249-5267.

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

E. INVESTMENTS Investments are limited by R.S. 33:2955 and the School Board's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

The investments are reflected at fair value except for the following which are required/permitted as per GASB Statement No. 31:

1. Investments in *nonparticipating* interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, are reported using a cost-based measure.
2. The School Board reported at amortized cost money market investments and *participating* interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less.

Definitions:

Interest-earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

Money market investments are short-term, highly liquid debt instruments that include U. S. Treasury obligations.

F. SHORT-TERM INTERFUND RECEIVABLES/PAYABLES During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

G. ELIMINATION AND RECLASSIFICATIONS In the process of aggregating data for the statement of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

H. INVENTORY AND PREPAID ITEMS Inventory items are expensed as purchased except for inventory of the school food service fund. Inventory of the school food service special revenue fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. Inventory is accounted for on the consumption method. Inventory items are valued at cost (first in - first out) and commodities are assigned values based on information provided by the United States Department of Agriculture. Inventories are classified as nonspendable fund balance which indicates that these do not constitute "available spendable resources", even though they are a component of total assets.

Certain payments to vendors reflect cost applicable to future accounting periods and are reported as prepaid items using the purchases method.

I. CAPITAL ASSETS Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed and depreciated over their estimated useful lives (including salvage value). Donated capital assets, donated works of art and similar items and capital assets received in a service concession arrangement are reported at acquisition value. The capitalization threshold is \$5,000 for all capital assets other than intangibles. The threshold for intangibles is \$250,000. Estimated useful life is management's estimate of how long the asset is expected to meet service demands.

**Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025**

Straight line depreciation is used based on the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and building improvements	20-40 years
Furniture and fixtures	5-10 years
Vehicles	5-15 years
Equipment	5-20 years
Intangibles	5-20 years

J. UNEARNED REVENUES Unearned revenues arise when resources are received by the School Board before it has a legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when the School Board has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized.

K. COMPENSATED ABSENCES All full-time employees earn vacation leave each year, ranging from 2 days to 15 days depending on position and years of experience. Vacation leave cannot be accumulated. Upon separation of employment, all unused vacation leave is forfeited.

All School Board employees earn from ten to eighteen days of sick leave each year, depending upon the length of service. Sick leave can be accumulated without limitation. Upon retirement or death, unused accumulated sick leave of up to twenty-five days is paid to the employee or to the employee's estate at the employee's current rate of pay. Under the Louisiana Teachers' Retirement System, and the Louisiana School Employees' Retirement System, all unpaid sick leave is used in the retirement benefit computation as earned service.

The School Board's recognition and measurement criteria for compensated absences follow:

GASB 101 provides that vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by employees if all the following conditions are met:

- (1) leave has been earned for services previously rendered by employees,
- (2) leave accumulates and is allowed to be carried over to subsequent years, and
- (3) leave is more likely than not to be used as time off or settled upon separation from employment.

L. NET PENSION LIABILITY For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems and additions to/deductions from the retirements systems fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 6 for additional information on pensions.

M. OTHER POST EMPLOYMENT BENEFITS Effective with fiscal year ended June 30, 2018, the School Board implemented Government Accounting Standards Board Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (GASB 75), which replaces GASB 45. See Note 7 for additional information on Other Postemployment Benefits.

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

Plan Description - In accordance with state statutes, the School Board provides certain continuing health care and life insurance benefits for its retired employees on a pay-as-you-go basis. The School Board OPEB plan is a single employer defined benefit “substantive plan” as understood by past practices of the School Board and its employees. Although no written plan or trust currently exists or is sanctioned by law, the OPEB plan is reported based on communication to plan members. Also, no stand-alone financial report was prepared. Substantially all of the School Board’s employees become eligible for these benefits if they reach normal retirement age while working for the School Board. These benefits and similar benefits for active employees are provided through an insurance program, whose monthly premiums are paid jointly by the employee and the School Board.

Funding Policy - The contribution requirements of plan members and the School Board are established and may be amended by LRS 42:801-883. Employees do not contribute to their post-employment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the cost of retiree healthcare based on a rate schedule. Contribution amounts are approximately 25% retiree/75% employer of the stated costs of healthcare coverage.

N. RESTRICTED NET POSITION For the government-wide statement of net position, net position is reported as restricted when constraints placed on net position use are either:

Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; Imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed. Of the \$7,098,835 reported as restricted the Statement of Net Position, \$5,295,415 is restricted through enabling legislation.

O. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School Board does have deferred outflows related to the net pension liability and the OPEB liability. Refer to Notes 6 and 7 for additional information.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The School Board does have deferred inflows related to the net pension liability and the OPEB liability. Refer to Notes 6 and 7 for additional information.

P. FUND BALANCE OF FUND FINANCIAL STATEMENTS: GASB 54 *Fund Balance Reporting and Governmental Fund Type Definitions* requires the fund balance amounts to be reported within the fund balance categories as follows:

Nonspendable: Fund balance that is not in spendable form or legally or contractually required to be maintained intact. This category includes items that are not easily converted to cash such as inventories and prepaid items.

Restricted: Fund balance that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

Committed: Fund balance that can only be used for specific purposes determined by the School Board's highest level of decision making authority. The Board is the highest level of decision making authority for the School Board that can, by adoption of resolution prior to the end of the fiscal year commit fund balance. Committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action it employed to previously commit the funds.

Assigned: Fund balance that is constrained by the School Board's intent to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by the Board or Finance Committee.

Unassigned: Fund balance that is the residual classification for the general fund. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amount restricted, committed, or assigned for those purposes.

The School Board reduces committed amounts, followed by assigned amounts and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used. The School Board considers restricted amounts to have been spent when an expenditure has been incurred for purposes for which both restricted and unrestricted fund balance is available.

Q. INTERFUND ACTIVITY Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

R. SALES TAX On January 21, 1978 the voters of Claiborne Parish approved the assessment of a one percent sales tax. The net revenues from the tax, which may be used for any school purpose, are primarily used to supplement salaries and related benefits of school board employees. The tax is collected by the School Board and has no expiration date.

Claiborne Parish voters, on September 21, 1996 approved the assessment of a one percent sales tax, to be effective January 1, 1997. Net revenues from the tax are dedicated fifty percent to provide a source of funding for salaries and benefits for the employees of the school board and fifty percent for the general fund. In March 2021, the voters approved to renew the sales tax for an additional 10 years, with an expiration date of December 2031.

S. BUDGETS

General Budget Practices The School Board follows these procedures in establishing the budgetary data reflected in the combined financial statements:

State statute requires budgets to be adopted for the general fund and all special revenue funds, except for the Student Activity Funds.

Each year prior to September, the Superintendent submits to the Board proposed annual budgets for the general fund and special revenue funds. Public hearings are conducted, prior to the Board's approval, to obtain taxpayer comments. The operating budgets include proposed expenditures and the means of financing them.

**Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025**

Appropriations (unexpended budget balances) lapse at year-end.

Formal budget integration (within the accounting records) is employed as a management control device. All budgets are controlled at the function level. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. These revisions were considered insignificant by the Board.

Encumbrances Encumbrance accounting, under which purchase orders are recorded in order to reserve that portion of the applicable appropriation, is not employed. However, outstanding purchase orders are taken into consideration before expenditures are incurred in order to assure that applicable appropriations are not exceeded. There were no significant encumbrances at fiscal year-end.

Budget Basis of Accounting The major governmental funds' budgets are prepared on the modified accrual basis of accounting, a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgeted amounts are originally adopted or amended by the Board. Legally, the Board must adopt a balanced budget; that is, total budgeted revenues and other financing sources including fund balance must equal or exceed total budgeted expenditures and other financing uses. State statutes require the Board to amend its budgets when revenues plus projected revenues within a fund are expected to be less than budgeted revenues by five percent or more and/or expenditures within a fund are expected to exceed budgeted expenditures by five percent or more. The School Board approves budgets at the function level and management can transfer amounts between line items within a function.

T. USE OF ESTIMATES The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2 - LEVIED TAXES The School Board levies taxes on real and business personal property located within Claiborne Parish's boundaries. Property taxes are levied by the School Board on property values assessed By the Claiborne Parish Tax Assessor and approved by the State of Louisiana Tax Commission.

The Claiborne Parish Sheriff's Office bills and collects property taxes for the School Board. Collections are remitted to the School Board monthly.

Assessed values are established by the Claiborne Parish Tax Assessor each year on a uniform basis at the following ratios of assessed value to fair market value:

10%	land	15%	industrial improvements
15%	machinery	15%	commercial improvements
10%	residential improvements	25%	public service properties, excluding land

A revaluation of all property is required after 1978 to be completed no less than every four years. The last revaluation was completed for the tax roll of January 1, 2024. Total assessed value was \$143,223,412 in calendar year 2024. Louisiana state law exempts the first \$75,000 of assessed value of a taxpayer’s primary residence from parish property taxes. This homestead exemption was \$20,422,078 of the assessed value in calendar year 2024.

State law requires the sheriff to collect property taxes in the calendar year in which the assessment is made. Property taxes become delinquent January 1 of the following year. If taxes are not paid by the due date, taxes bear interest at the rate of 1.25% per month until the taxes are paid. After notice is given to the delinquent taxpayers, the sheriff is required by the *Constitution of the State of Louisiana* to sell the least quantity of property necessary to settle the taxes and interest owed.

All property taxes are recorded in the general fund, special revenue maintenance fund and sinking fund. Revenues in such funds are recognized in the accounting period in which an enforceable legal claim arises. Estimated uncollectible taxes are those taxes based on past experience which will not be collected in the subsequent year and are primarily due to subsequent adjustments to the tax roll. The School Board uses the lien date to establish the enforceable legal claim date.

The tax roll is prepared by the parish tax assessor in November of each year. The collection of the 2024 property taxes occurs in December, and January and February of the next year. As a result, no property taxes receivable for 2024 taxes is included on the accompanying balance sheet because none is available within 60 days of the School Board's year-end.

Historically, virtually all ad valorem taxes receivable are collected since they are secured by property. Therefore, there is no allowance for uncollectible taxes.

The following is a summary of adjusted maximum and levied (tax rate per \$1,000 Assessed Value) ad valorem taxes:

	Adjusted Maximum <u>Millage</u>	Levied <u>Millage</u>	<u>Expiration Date</u>

NOTE 3 - DEPOSITS AND INVESTMENTS Deposits are stated at cost, which approximates fair value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2025, the School Board had the following deposits and investments:

Interest Rate Risk: The School Boards' policy does not address interest rate risk. For information regarding the interest rate risk on LAMP investments, see note 1D.

Credit Rate Risk: The School Board's policy does not address credit rate risk.

Custodial Credit Risk: At year-end, the School Board's carrying amount of deposits was \$25,418,587, which includes \$5,393,610 in LAMP, and the bank and LAMP balance was \$25,745,139. These deposits are reported as follows: Statement A- cash and cash equivalents, \$25,308,747, which includes \$5,393,610 in LAMP and Statement A- Investments, \$109,840. Of the bank balance, \$500,000 was covered by federal depository insurance or by collateral held by the School Board's agent in the School Board's name. The remaining bank balance was collateralized with securities held by the pledging financial institution's trust department or agent but not in the School Board's name. Even though the pledged securities are considered uncollateralized under the provision of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the School Board that the fiscal agent has failed to pay deposited funds upon demand. The School Board's policy does not address custodial credit risk.

As of June 30, 2025, the School Board had a certificate of deposit managed by a financial institution which was classified on Statement A as an investment. The \$109,840 certificate of deposit is entrusted to the Office of Workers' Compensation because the School Board is self-insured; however, the required amount is only \$100,000.

NOTE 4 - RECEIVABLES The balance of receivables at June 30, 2025, is shown below. The School Board expects to collect the full amount; therefore, no allowance for doubtful accounts has been established.

NOTE 6 - PENSION PLANS

The School Board is a participating employer in two statewide, public employee retirement systems, the Louisiana School Employees' Retirement System (LSERS) and the Teacher's Retirement System of Louisiana (TRSL). Both systems have separate boards of trustees and administer cost-sharing, multiple-employer defined benefit pension plans, including classes of employees with different benefits and contribution rates (sub-plans). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all sub-plans administered by these systems to the State Legislature. Each system issues a public report that includes financial statements and required supplementary information. Copies of these reports for LSERS and TRSL may be obtained at www.lsers.net and www.trsl.org, respectively.

TRSL also administers an optional retirement plan (ORP), which was created by Louisiana Revised Statute 11:921-931 for academic and administrative employees of public institutions of higher education and is considered a defined contribution plan (see Optional Retirement Plan note below). A portion of the employer contributions for ORP plan members is dedicated to the unfunded accrued liability of the TRSL defined benefit plan.

General Information about the Pension Plans

Plan Descriptions/Benefits Provided:

Louisiana School Employees' Retirement System: LSERS administers a plan to provide retirement, disability, and survivor's benefits to non-teacher school employees excluding those classified as lunch workers and their beneficiaries as defined in R.S. 11:1001. The age and years of creditable service (service) required in order for a member to receive retirement benefits are established by R.S. 11:1141-1153 and vary depending on the member's hire date.

A member who joined the system on or after July 1, 2015 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 62. A member who joined between July 1, 2010 and June 30, 2015 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60. A member who joined the system on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, or 10 years of creditable service and is at least age 60. All members are eligible for retirement with 20 years of creditable service regardless of age with an actuarially reduced benefit.

For members who joined the system prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the 3 highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the system on or after July 1, 2006 through June 30, 2010, 3 1/3% of the average compensation is used to calculate benefits, however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation. For members who joined the system on or after July 1, 2010, 2 1/2% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation. The supplemental allowance was eliminated for members entering the plan on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

A member is eligible to retire and receive disability benefits if the member has at least 5 years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service who has withdrawn from active service prior to the age at which that person is eligible for retirement benefits, is eligible for a disability benefit until normal retirement age. A member who joins the system on or after July 1, 2006, must have at least 10 years of service to qualify for disability benefits. Upon the death of a member with five or more years of creditable service, the plan provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, a spouse is entitled to 75% of the member's benefit.

Teachers' Retirement System of Louisiana: TRSL administers a plan to provide retirement, disability, and survivor benefits to employees who meet the legal definition of a “teacher” as provided for in R.S 11:701. Eligibility for retirement benefits and the calculation of retirement benefits are provided for in R.S. 11:761. Statutory changes closed existing, and created new, sub-plans for members hired on or after January 1, 2011 and July 1, 2015.

Most members are eligible to receive retirement benefits 1) at the age of 60 with 5 years of service, 2) at the age of 55 with at least 25 years of service, or 3) at any age with at least 30 years of service. For members joining on or after July 1, 2015, retirement benefits are paid at age 62 with at least 5 years of service credit. Members may retire with an actuarially reduced benefit with 20 years of service credit. Retirement benefits are calculated by applying a percentage ranging from 2% to 3% of final average salary multiplied by years of service. Average compensation is defined as the member’s average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to January 1, 2011, or highest 60 consecutive months of employment for members employed after that date.

Under R.S. 11:778 and 11:779, members who have suffered a qualified disability are eligible for disability benefits if employed prior to January 1, 2011 and attained at least 5 years of service or if employed on or after January 1, 2011 and attained at least 10 years of service. Members employed prior to January 1, 2011 receive disability benefits equal to 2½% of average compensation multiplied by the years of service, but not more than 50% of average compensation subject to statutory minimums. Members employed on or after January 1, 2011 receive disability benefits equivalent to the regular retirement formula without reduction by reason of age.

Survivor benefits are provided for in R.S. 11:762. In order for survivor benefits to be paid, the deceased member must have been an active member at the time of death and must have a minimum of five years of service, at least two of which were earned immediately prior to death, or must have had a minimum of twenty years of service regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Survivor benefits are equal to 50% of the benefit to which the member would have been entitled if retired on the date of death using a factor of 2½% regardless of years of service or age, or \$600 per month, whichever is greater. Benefits are payable to an unmarried child until age 21, or age 23 if the child remains a full-time student. The minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or a qualified handicapped child.

Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible LSERS or TRSL member can begin participation in the DROP on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60-day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three-year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account. Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Cost of Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, LSERS and TRSL allow for the payment of permanent benefit increases, also known as cost-of-living adjustments, or COLAs, that are funded through investment earnings when recommended by the board of trustees and approved by the Legislature. These ad hoc COLAs are not considered to be substantively automatic.

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer’s portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems’ Actuarial Committee. For those members participating in the TRSL defined contribution ORP, a portion of the employer contributions are used to fund the TRSL defined benefit plans’ unfunded accrual liability.

Employer contributions to LSERS for fiscal year 2025 were \$330,182, with active member contributions ranging from 7.5% to 8%, and employer contributions of 25.8%. Employer defined benefit plan contributions to TRSL for fiscal year 2025 were \$2,855,392, with active member contributions of 8%, and employer contributions of 21.51%. Non-employer contributions to TRSL, which are comprised of \$112,788 from ad valorem tax revenue for fiscal year 2025, and were recognized as revenue by the School Board.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the School Board reported liabilities of \$1,673,823 and \$18,758,021 under LSERS and TRSL, respectively, for its proportionate share of the Net Pension Liability (NPL). This liability will be liquidated by the general fund and special revenue funds with recorded salaries. The NPL for LSERS and TRSL was measured as of June 30, 2024, and the total pension liabilities used to calculate the NPL were determined by actuarial valuations as of that date. The School Board’s proportions of the NPL were based on projections of the School Board’s long-term share of contributions to the pension plans relative to the projected contribution of all participating employers, actuarially determined. As of June 30, 2024, the most recent measurement date, the School Board’s proportions and the changes in proportion from the prior measurement date were 0.330045%, or an increase of 0.007516% for LSERS and 0.21727% or an increase of 0.00231% for TRSL.

For the year ended June 30, 2025, the School Board recognized a total pension expense of \$2,800,119 or \$152,911 and \$2,647,208 for LSERS and TRSL, respectively. The School Board reported deferred outflows of resources and deferred inflows of resources related to pensions as components of unrestricted net position from the following sources:

Deferred outflows of resources related to pensions resulting from the School Board’s contributions subsequent to the measurement date will be recognized as a reduction of the LSERS and TRSL NPL in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Claiborne Parish School Board
Notes to the Financial Statements
June 30, 2025

For LSERS the long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward-looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

For TRSL, the long-term expected rate of return was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting long-term geometric nominal expected rates of return are 8.68% for 2024. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation are summarized for each plan in the following table:

	Target Allocation	LT Expected Real Rate of Return
TRSL (arithmetic)		
Domestic equity	22.50%	4.45%
International equity	11.50%	4.29%
Domestic fixed income	8.00%	2.79%
International fixed income	6.00%	1.66%
Private equity	37.00%	8.24%
Other private assets	15.00%	4.51%
Total	100.00%	
LSERS (arithmetic)		
Fixed income	26.00%	0.97%
Equity	39.00%	2.66%
Alternatives	23.00%	1.81%
Real estate	12.00%	0.60%
Total	100.00%	6.04%
Inflation		2.40%
Expected arithmetic nominal return		8.44%

Discount Rate. The discount rate used to measure the total pension liability was 6.80% for LSERS and 7.25% for TRSL, which were the same discount rates used in the 2023 valuations. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position. Detailed information about LSERS and TRSL fiduciary net position is available in the separately issued financial reports referenced above.

Payables to the Pension Plan. At June 30, 2025, the School Board had \$48,786 and \$570,597 in payables to LSERS and TRSL, respectively, for the June 2025 employee and employer legally required contributions.

NOTE 7 - OTHER POST EMPLOYMENT BENEFITS

Plan description - In accordance with state statutes, the School Board provides certain continuing health care and life insurance benefits for its retired employees on a pay-as-you-go basis. The School Board OPEB plan is a single-employer defined benefit “substantive plan” as understood by past practices of the School Board and its employees. Although no written plan or trust currently exists or is sanctioned by law, the OPEB plan is reported based on communication to plan members. Also, no stand-alone financial report was prepared. Substantially all of the School Board’s employees become eligible for these benefits if they reach normal retirement age while working for the School Board. These benefits and similar benefits for active employees are provided through the Office of Group Benefits, whose monthly premiums are paid jointly by the employee and the School Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided and Funding Policy - The plan provides medical and life insurance benefits for retirees and their dependents. The contribution requirements of plan members and the School Board are established and may be amended by LRS 42:801-883. Employees do not contribute to their post-employment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute approximately 25% of the medical premium with the School Board contributing the balance. This percentage will be greater for eligible retirees with less than 20 years of service. Medical coverage is provided through options under the Louisiana Office of Group Benefits (OGB). A Medicare supplement benefit is provided at Medicare eligibility. Benefits continue for life. A life insurance benefit depending on final salary is provided at retirement prior to age 65. The life insurance benefit may continue for life if the retiree pays premiums. The cost of life insurance is shared with the retiree and the School Board.

Employees Covered by Benefit Terms - At June 30, 2025, the following employees were covered by the benefit terms:

Active employees	206
Inactive employees or beneficiaries currently receiving benefit payments	215
Employees with life insurance benefit only (no medical)	19

Total OPEB Liability - The School Board's total OPEB liability of \$23,227,720 was measured as of June 30, 2025 and was determined by an actuarial census information as of July 1, 2023. Update procedures were used to roll forward the total OPEB liability to the measurement date. The OPEB liability will be liquidated by the general fund and all special revenue funds with recorded salaries.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the actuarial valuation measured at June 30, 2025 was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial method	Entry Age Normal Cost Method
Inflation	2.30%
Discount rate	5.20% based on the Bond Buyer General Obligation 20-Bond Municipal Index
Healthcare trend	Range from 6.3% - 3.7% for pre-65 and 6.4% - 3.7% for post-65

* The compensated absences are reported net of additions and deletions.

The compensated absences liability attributable to the governmental activities will be liquidated primarily by the General Fund.

In accordance with Louisiana Revised Statute 39:562(0), the School Board is legally restricted from incurring long-term bonded debt in excess of 50 percent of the assessed value of taxable property. At June 30, 2025 the statutory limit was \$71,611,706 and outstanding net bonded debt totaled \$0.

NOTE 12 - INTERFUND ASSETS/LIABILITIES (FFS LEVEL ONLY) Interfund Receivable/Payable balance at year end is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Title I	\$ 253,418
General Fund	Nonmajor Governmental	162,742
		<u>\$ 416,160</u>

The purpose of the interfund assets/liabilities was to cover current-year expenditures on cost reimbursement programs until the reimbursement requests are received.

NOTE 13 - INTERFUND TRANSFERS (FFS LEVEL ONLY) Transfer ins and outs for fiscal year is as follows:

Transfer Out	Transfer In	Amount
General Fund	Maintenance Fund	\$ 77,008
Maintenance Fund	General Fund	60,000
General Fund	Nonmajor Governmental	309,193

NOTE 14 - LITIGATION, COMMITMENTS AND CONTINGENCIES

Litigation At June 30, 2025 the School Board was involved in various litigations. It is the opinion of legal counsel for the School Board that ultimate resolution of these lawsuits would not materially affect the financial statements.

Grant Disallowances The School Board participates in a number of state and federally assisted grant programs. The programs are subject to compliance audits under the single audit approach. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under terms of the grants. School Board management believes that the amount of disallowances, if any, which may arise from future audits will not be material.

Tax Arbitrage Rebate Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year-end.

Construction Commitment The School Board has not entered into construction contracts that were outstanding at year-end.

NOTE 15 - RISK MANAGEMENT The School Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. A risk management program for workers' compensation was established by the School Board several years ago. The general fund pays claims, claim reserves, and administrative costs of the program. The School Board has contracted with a third-party administrator to handle all workers' compensation claims. The School Board maintains stop loss coverage with an insurance company for individual claims in excess of \$400,000 and for total claims that exceed \$1,000,000 in a three-year period.

Changes in the claims amount for the three years ended June 30, 2025 were as follows:

<u>Years Ended June 30,</u>	<u>Beginning of Fiscal Year Liability</u>	<u>Claims and Changes in Estimates</u>	<u>Benefit Payment and Claims</u>	<u>Ending of Fiscal Year Liability</u>
2022-2023	\$ -	\$ 209,087	\$ 209,087	\$ -
2023-2024	-	155,905	155,905	-
2024-2025	-	154,516	154,516	-

The School Board continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 16 - ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES On-behalf payments for fringe benefits and salaries are direct payments made by an entity (the paying agent) to a third-party recipient for the employees of another, legally separate entity (the employer entity). GASB Statement No. 24 requires employer governments to recognize revenue and expenditures or expenses for these on-behalf payments.

Notes to the Financial Statements
June 30, 2025

The Parish Tax Collector makes pension contributions to the Teacher’s Retirement System of Louisiana on behalf of the School Board. These remittances are a portion of the property taxes and state revenue sharing collected which are statutorily set aside for teacher’s retirement. The basis for recognizing the revenues and expenditures is the actual contributions made by the Tax Collector’s office. For the 2025 fiscal year, the Tax Collector paid the Teacher’s Retirement System of Louisiana \$103,851 on behalf of the School Board. The amount was recognized as ad valorem and state revenue sharing revenue and a reduction in the School Board’s required contribution.

NOTE 17 - ECONOMIC DEPENDENCY The Minimum Foundation Funding provided by the state to all public school systems in Louisiana is primarily based on October 1 student count. However the state adjusts the funding based on February 1 student count. The state provided \$13,456,270 to the School Board, which represents approximately 42.5% of the School Board's total revenue for the year.

NOTE 18 - FUND BALANCE The following are details of the fund balance classifications at year end:

	General	Maintenance Fund	Nonmajor Governmental	Total

Total	<u>\$ 18,721,652</u>	<u>\$ 4,027,609</u>	<u>\$ 1,755,946</u>	<u>\$ 24,505,207</u>

NOTE 19 - NEW GASB STANDARDS The School Board adopted GASB Statement 101 – *Compensated Absences* in the current fiscal year. This statement requires recognition of liabilities for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled upon separation from employment. The adoption of this standard did not materially impact the School Board’s financial statements.

The School Board also implemented GASB Statement 102 – *Certain Risk Disclosures*. This statement requires the School Board to assess whether a concentration or constraint make the School Board vulnerable to the risk of a substantial impact to revenue debt. Additionally, this statement requires the School Board to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. The implementation of this standard had no effect on the School Board.

NOTE 20 - SUBSEQUENT EVENTS In July 2025, the School Board purchased 2 new school buses with the General Fund in the amount of \$178,000.

General Fund and Major Special Revenue Funds With Legally Adopted Annual Budgets

GENERAL FUND The general fund accounts for all activities of the School Board except those that are accounted for in other funds.

MAINTENANCE FUNDS The maintenance funds account for the proceeds of ad valorem taxes levied to maintain and improve school facilities in the parish. The Parishwide Maintenance Fund is financed by a Parish wide ad valorem tax levy to provide additional support to operate and maintain all school facilities in the parish. Districts No. 11, No. 13 and No. 26, Maintenance Funds are financed by an ad valorem tax levy for each district, which provides additional funds to operate and maintain school facilities in the respective districts. In 2025, the School Board consolidated district taxes, with voter approval. These are reported in the Consolidated School District Fund.

TITLE I This program accounts for federal sources and was designed to improve educational opportunities of educationally deprived children by helping them succeed in the regular school program, attain grade level proficiency and improve achievement in basic and more advanced skills. Primarily for provision of compensatory instructional activities to educationally deprived children that reside in low-income areas and have been selected on the basis of a needs assessment, services supplement, not supplant, those normally provided by state and local educational agencies.

Claiborne Parish School Board
Notes to the Budgetary Comparison Schedules
For the Year Ended June 30, 2025

A. BUDGETS

General Budget Practices The School Board follows these procedures in establishing the budgetary data reflected in the combined financial statements:

State statute requires budgets to be adopted for the general fund and all special revenue funds, except for the Student Activity Funds.

Each year prior to September, the Superintendent submits to the Board proposed annual budgets for the general fund and special revenue funds. Public hearings are conducted, prior to the Board's approval, to obtain taxpayer comments. The operating budgets include proposed expenditures and the means of financing them.

Appropriations (unexpended budget balances) lapse at year-end.

Formal budget integration (within the accounting records) is employed as a management control device. All budgets are controlled at the function level. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments. These revisions were considered insignificant by the Board.

Encumbrances Encumbrance accounting, under which purchase orders are recorded in order to reserve that portion of the applicable appropriation, is not employed. However, outstanding purchase orders are taken into consideration before expenditures are incurred in order to assure that applicable appropriations are not exceeded. There were no significant encumbrances at fiscal year-end.

Budget Basis of Accounting The major governmental funds' budgets are prepared on the modified accrual basis of accounting, a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgeted amounts are originally adopted or amended by the Board. Legally, the Board must adopt a balanced budget; that is, total budgeted revenues and other financing sources including fund balance must equal or exceed total budgeted expenditures and other financing uses. State statutes require the Board to amend its budgets when revenues plus projected revenues within a fund are expected to be less than budgeted revenues by five percent or more and/or expenditures within a fund are expected to exceed budgeted expenditures by five percent or more. The School Board approves budgets at the function level and management can transfer amounts between line items within a function.

SCHOOL FOOD SERVICE This program assists school boards through cash grants and food donations in providing a nutritious breakfast and lunch service for school students and encourages the domestic consumption of nutritious agricultural commodities.

SPECIAL EDUCATION This program was designed to provide grants to states to assist them in providing a free appropriate education to all children with exceptionalities.

TITLE II This program provides funds to the School Board for projects that are designed to improve the skills of teachers and instruction in the areas of mathematics, science, computer learning, and foreign languages and to Increase the accessibility of such instruction to all students.

RURAL EDUCATION ACHIEVEMENT PROGRAM This program was designed to provide financial assistance to rural districts to carry out activities to help improve the quality of teaching and learning.

VOCATIONAL EDUCATION This program was designed to make the United States more competitive in the world economy by developing more fully the academic and occupational skills of all segments of the population, principally through concentrating resources on improving education programs leading to academic and occupational skills needed to work in a technologically advanced society.

PRESCHOOL This fund is designed to provide grants to assist states in providing free appropriate public education to preschool children with exceptionalities age three through five years.

STRIVING READERS COMPREHENSIVE LITERACY This program was designed to advance literacy skills, including pre-literacy skills, reading and writing for students from birth through 12th grade, including limited - English- proficient students and students with disabilities.

STUDENT SUPPORT AND ACADEMIC ENRICHMENT This program was designed to provide all students with access to a well-rounded education, improve school conditions for student learning, and improve the use of technology in order to improve the academic achievement and digital literacy for students.

EARLY CHILDHOOD This program is to be used for the purpose of cleaning and sanitation, and other activities necessary to maintain or resume the operation of programs, including for fixed costs and increased operating expenses paid with the Child Care and Development Block Grant funds.

EDUCATION STABILIZATION - This program accounts for federal sources funded by the CARES Act and American Rescue Plan Act to assist the School Board in meeting the challenges in providing educational services as a result of the COVID-19 pandemic.

STUDENT ACTIVITY FUNDS This fund accounts for the student activity funds for each of the schools within the School District.

Notes:

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School Board. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the School Board.
- (2) Various tax districts exist within Claiborne Parish that involve a small percentage of parish taxpayers. These districts' debt is not included as the amounts and impact on this schedule is not significant.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

Board Members
Claiborne Parish School Board
Homer, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Claiborne Parish School Board, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated February 6, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

Report on Compliance For Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

Board Members
Claiborne Parish School Board
Homer, Louisiana

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Claiborne Parish School Board's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2025. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the School Board complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Claiborne Parish School Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School Board's compliance with the compliance requirements referred to above

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the School Board's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the School Board's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgement and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the School Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as item 2025-001. Our opinion on each major federal program is not modified with respect to these matters.

Governmental Auditing Standards requires the auditor to perform limited procedures on the School Board's response to the noncompliance findings identified in our compliance audit described in the described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plan for Current Year Findings and Questioned Costs. The School Board's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item 2025-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditors to perform limited procedures on the School Board's response to the internal control over compliance findings identified in our compliance audit described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plan for Current Year Findings and Questioned Costs. The School Board's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements. We issued our report, under separate cover, thereon February 6, 2026 which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

Claiborne Parish School Board
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2025

NOTE 1 - GENERAL The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the Federal award activity of Claiborne Parish School Board under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The School Board’s reporting entity is defined in Note 1 of the Notes to the financial statements of the School Board’s Annual Comprehensive Financial Report. Because the Schedule presents only a selected portion of the operations of the School Board, it is not intended to and does not present the financial position or change in net position of the Claiborne Parish School Board.

NOTE 2 - BASIS OF ACCOUNTING Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting, which is described in Note 1 of the Notes to the financial statements of the Annual Comprehensive Financial Report. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - RELATIONSHIP TO BASIC FINANCIAL STATEMENTS Federal awards revenues are reported in the School Board's basic financial statements as follows:

Major fund:	
General Fund	\$ 27,444
Maintenance	45,000
Title I	1,545,898
Nonmajor special revenue funds:	
School Food Service	1,167,332
Special Education	603,546
Title II	242,579
Rural Education Achievement Program	132,883
Vocational Education	3,168
Preschool	41,679
Striving Readers Comprehensive Literacy	325,858
Student Support and Academic Enrichment	235,146
Early Childhood	5,273
Education Stabilization	2,216,788
Total	\$ 6,592,594

NOTE 4 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with accounting principles generally accepted in the United States of America.

NOTE 5 - MATCHING REVENUES For those funds that have matching revenues and state funding, federal expenditures were determined by deducting matching revenues from total expenditures.

NOTE 6 - NONCASH PROGRAMS The commodities received, which are noncash revenues, are valued using prices provided by the United States Department of Agriculture.

NOTE 7 - INDIRECT COST RATE Claiborne Parish School Board has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

PART III – Findings and questioned costs for federal awards which are required to be reported under the Uniform Guidance:

Reference # and title: **2025-001** **Untimely Completion of Time Certifications**

<u>Federal program and specific federal award identification:</u>	<u>AL Number</u>	<u>Award Year</u>
FEDERAL GRANTER/ PASS THROUGH GRANTOR/PROGRAM NAME		
United States Department of Agriculture; passed through Louisiana Department of Education		
Child Nutrition Cluster:		
School Breakfast Program	10.553	2025
National Lunch Program	10.555	2025

Criteria or specific requirement: Federal regulations require that salaries and wages charged to federal programs be supported by time and effort documentation that accurately reflects the work performed and is completed in a timely manner, in accordance with 2 CFR §200.430.

Condition found: In testing a sample of Child Nutrition payroll, it was noted for all eleven employees tested, the Child Nutrition Program did not complete required time certifications in a timely manner. Several certifications were completed after an extensive amount of time, resulting in noncompliance with federal documentation requirements.

Context: This finding appears to be systemic.

Possible asserted effect (cause effect):

Cause: The School Board did not have an sufficient procedures or monitoring controls to ensure that time certifications for Child Nutrition Program employees are completed timely and in accordance with federal requirements.

Effect: The School Board’s internal controls over allowable costs were weakened.

Recommendations to prevent future occurrences: The School Board should implement written procedures to ensure all Child Nutrition Program employees complete time certifications timely and in accordance with federal requirements. Management should also establish a review and monitoring process to verify certifications are completed accurately and retained on file prior to charging payroll costs to the program.

Origination date and prior year reference (if applicable): This finding originated fiscal year ended June 30, 2025.

View of responsible official: The School Board agrees and will comply with the recommendations.

Title IV – SSAE		84.424	2024
Stronger Connections Grant Program		84.424F	2023

Condition: Good internal controls require that all requests for reimbursement submitted to the Louisiana Department of Education (LDOE) are adequately reviewed and approved either before submission or after submission, but in a timely manner, to ensure amounts reported are complete and accurate.

In testing a sample of a requests for reimbursements across all SSAE grants, it was noted that for the Stronger Connections Grant, the request for reimbursement was not reviewed and approved in a timely manner, in which the review and approval did not occur until three months after submission. When testing a sample of claims for reimbursements for the Title IV grants, it was noted that the reimbursements were not reviewed and approved by the supervisor. It was further noted that these reports were not printed until the auditor had requested them. In testing a sample of a periodic expense report from each of the School Board's ESSER subgrants, it was noted that the ESSER III Formula subgrant did not agree with the School Board's general ledger expenditures.

Corrective action taken: The Grants Supervisor had updated procedures for the grants department. To ensure a proper review process were followed, the grants secretary completed the reimbursement request in the system and the Grants Supervisor reviewed the request. The Grants Supervisor submitted the request to LDOE ensuring all requests were reviewed before they were submitted. This finding is considered cleared.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING STATEWIDE AGREED-UPON PROCEDURES

Board Members
Claiborne Parish School Board
Homer, Louisiana

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal year ended June 30, 2025. Claiborne Parish School Board's management is responsible for those C/C areas identified in the SAUPs.

The School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal year ended June 30, 2025. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

An agreed-upon procedures engagement involves the practitioner performing specific procedures that the engaging party has agreed to and acknowledged to be appropriate for the intended purpose of the engagement and reporting on findings based on the procedures performed. The procedures and associated findings are as follows:

1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations:
 - i. **Budgeting**, including preparing, adopting, monitoring, and amending the budget.
 - ii. **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.
 - iii. **Disbursements**, including processing, reviewing, and approving.

- iv. **Receipts/Collections**, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- v. **Payroll/Personnel**, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee rates of pay or approval and maintenance of pay rate schedules.
- vi. **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- vii. **Travel and Expense Reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- viii. **Credit Cards (and debit cards, fuel cards, purchase cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- ix. **Ethics** including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
- x. **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- xi. **Information Technology Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- xii. **Prevention of Sexual Harassment**, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - i. Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
 - ii. For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual comparisons, at a minimum, on all proprietary funds, and semi-annual budget-to-actual comparisons, at a minimum, on all special revenue funds. *Alternately, for those entities reporting on the not-for-profit accounting model, observe that the minutes referenced or included financial activity relating to public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.*

- iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
- iv. Observe whether the board/finance committee received written updates of the progress of resolving audit finding(s), according to management's corrective action plan at each meeting until the findings are considered fully resolved.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

3) Bank Reconciliations

- A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
 - i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
 - ii. Bank reconciliations include written evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation within 1 month of the date the reconciliation was prepared (e.g., initialed and dated or electronically logged); and
 - iii. Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

5) Non-Payroll Disbursements (excluding card purchases, travel reimbursements, and petty cash purchases)

- A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
- B. For each location selected under procedure #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, then inquire of employees about their job duties), and observe that job duties are properly segregated such that
 - i. At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order or making the purchase;
 - ii. At least two employees are involved in processing and approving payments to vendors;
 - iii. The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files;
 - iv. Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments; and

- v. Only employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.

[Note: Findings related to controls that constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality) should not be reported.]

- C. For each location selected under procedure #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and
 - i. Observe whether the disbursement, whether by paper or electronic means, matched the related original itemized invoice and supporting documentation indicates that deliverables included on the invoice were received by the entity, and
 - ii. Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under procedure #5B above, as applicable.
- D. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that each electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select alternative month and/or account for testing that does include electronic disbursements.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

9) Payroll and Personnel

- A. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.
- B. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under procedure #9A above, obtain attendance records and leave documentation for the pay period, and
 - i. Observe that all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory);
 - ii. Observe whether supervisors approved the attendance and leave of the selected employees or officials;
 - iii. Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records; and
 - iv. Observe the rate paid to the employees or officials agrees to the authorized salary/pay rate found within the personnel file.
- C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials and

obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee's or official's cumulative leave records, agree the pay rates to the employee's or official's authorized pay rates in the employee's or official's personnel files, and agree the termination payment to entity policy.

- D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

Comment: One exception was noted in which the daily attendance was not completed properly until after the auditor brought it to the attention of school board personnel.

No other exceptions were noted as a result of applying the agreed upon procedures.

Managements Response: The School Board will continue to educate all employees on the importance of accurate attendance records.

10) Ethics

- A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A obtain ethics documentation from management, and
 - i. Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the calendar year as required by R.S. 42:1170; and
 - ii. Observe whether the entity maintains documentation which demonstrates that each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.
- B. Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

14) Prevention of Sexual Harassment

- A. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A, obtain sexual harassment training documentation from management, and observe that the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year as required by R.S. 42:343.
- B. Observe that the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).
- C. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe that the report includes the applicable requirements of R.S. 42:344:
 - i. Number and percentage of public servants in the agency who have completed the training requirements;
 - ii. Number of sexual harassment complaints received by the agency;

- iii. Number of complaints which resulted in a finding that sexual harassment occurred;
- iii. Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
- iv. Amount of time it took to resolve each complaint.

Comment: Two exceptions were noted in which employees had not adequately completed the required training..

No other exceptions were noted as a result of applying the agreed upon procedures.

Managements Response: The School Board will place more oversight on the process and continue to educate the employees on the importance of completing the trainings.

We were engaged by the Claiborne Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING BESE AGREED-UPON PROCEDURES

Board Members
Claiborne Parish School Board
Homer, Louisiana

We have performed the procedures enumerated below on the performance and statistical data accompanying the annual financial statements of the Claiborne Parish School Board, for the fiscal year ended June 30, 2025. The Claiborne Parish School Board's management is responsible for the performance and statistical data.

Management of the Claiborne Parish School Board, Louisiana Department of Education, and the Louisiana Legislative Auditor (the specified parties), have agreed to and acknowledge that the procedures performed are appropriate to meet the intended purpose of assisting users to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE), in compliance with Louisiana Revised Statute 24:514(I). This report may not be suitable for any other purposes. The procedures performed may not address all items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

An agreed-upon procedures engagement involves the practitioner performing specific procedures that the engaging party has agreed to and acknowledged to be appropriate for the intended purpose of the engagement and reporting on findings based on the procedures performed. The procedures and findings related to the accompanying schedules of supplemental information are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a sample of 25 transactions, reviewed supporting documentation, and observed that the sampled expenditures/revenues are classified correctly and are reported in the proper amounts among the following amounts reported on the schedule:

Total General Fund Instructional Expenditures,
Total General Fund Equipment Expenditures,
Total Local Taxation Revenue,
Total Local Earnings on Investment in Real Property,
Total State Revenue in Lieu of Taxes,
Nonpublic Textbook Revenue, and
Nonpublic Transportation Revenue.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

Class Size Characteristics (Schedule 2)

2. We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced a sample of 10 classes to the October 1 roll books for those classes and observed that the class was properly classified on the schedule.

Comment: Although there were no exceptions noted in testing the roll books, it was noted that the School Board's system regarding schedule 2 could not be reconciled to EdLink.

Management's Response: Reconciling information to the EdLink system continues to be a difficult process.

Education Levels/Experience of Public School Staff (No Schedule)

3. We obtained October 1st PEP data submitted to the Department of Education (or equivalent listing prepared by management), including full-time teachers, principals, and assistant principals by classification, as well as their level of education and experience, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's education level and experience was properly classified on the PEP data or equivalent listing prepared by management.

Comment: No exceptions were noted as a result of applying the agreed upon procedures.

Public Staff Data: Average Salaries (No Schedule)

4. We obtained June 30th PEP data submitted to the Department of Education (or equivalent listing provided by management) of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to the individual's personnel file, and observed that each individual's salary, extra compensation, and full-time equivalents were properly included on the PEP data (or equivalent listing prepared by management).

Comment: There were several exceptions noted in regards to a difference between the base pay & the base pay amount listed on the PEP report.

Management's Response: The School Board will review the payroll system to implement corrections that could assist with the reconciliation process and to report accurate base pay totals.

We were engaged by Claiborne Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the

expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Claiborne Parish School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

The purpose of this report is solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the School Board, as required by Louisiana Revised Statute 24:514(I), and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
