Report on the Financial Statements

We have reviewed the accompanying financial statements of the governmental activities and the major fund of Natchitoches Soil and Water Conservation District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the Natchitoches Soil and Water Conservation District. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

The Natchitoches Soil and Water Conservation District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with the *Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the AICPA and applicable standards of *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements of the Natchitoches Soil and Water Conservation District in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Other Matter Paragraphs

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule be presented to supplement the basic financial statements. Such information is presented for purposes of additional analysis and, although not a required part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in appropriate operation, economic, or historical context. Such information is the responsibility of management. We have not audited or reviewed the budgetary comparison schedule and do not express an opinion, a conclusion, nor provide any assurance on such information.

Management has omitted the Management's Discussion and Analysis that Governmental Accounting Standards Board requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers them to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Report on Other Legal and Regulatory Requirements

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report, dated December 20, 2022, on the results of our agreed-upon procedures. Also presented as required is the Louisiana Attestation Questionnaire.

NOTES TO THE FINANCIAL STATEMENTS

NATCHITOCHEs SOIL AND WATER CONSERVATION DISTRICT

Notes to the Financial Statements
June 30, 2022

INTRODUCTION

The District was created by and in accordance with provisions of Louisiana Revised Statute (LSA-R.S.) 3:1201 and serves citizens within the boundaries of District 38, Area III of the State of Louisiana. The purpose of the District is to provide for the conservation of the soil and soil resources of their district, to control and prevent soil erosion and floodwater and sediment damages, and for furthering the conservation, development, utilization, and disposal of water. The District is to also preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect public lands, and protect and promote the health, safety, and general welfare of the people of their district.

The governing authority of each district shall consist of five supervisors who shall be landowners or farm operators and qualified voters within the state. Three of the supervisors will be elected within the district on the second Saturday in June each year and the other two are appointed by the State Soil and Water Conservation District.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the Natchitoches Soil and Water Conservation District have been prepared in conformity with governmental accounting principles generally accepted (GAAP) in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, issued in June 1999; Statement 63, *Financial Reporting of Deferred Outflows of Resources, and Net Position* and Statement 65, *Items Previously Reported as Assets and Liabilities*. Such accounting and reporting policies also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the *Louisiana Governmental Audit Guide*.

The significant accounting policies established in GAAP and used by the Natchitoches Soil and Water Conservation District are discussed below.

A. REPORTING ENTITY

Governmental Accounting Standards Board Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The basic criterion for including a potential component unit within the reporting entity is financial accountability. Oversight responsibility is determined on the basis of appointment of governing body, ability to significantly influence operations, accountability for fiscal matters, and the nature and significance of an organization's relationship with the primary government. For financial reporting purposes, in conformance with GASB Statement No. 14, the District includes all funds that are within the oversight responsibility of the Natchitoches Soil and Water Conservation District. Based on consideration of the foregoing criteria, the Natchitoches Soil and Water Conservation District is deemed to be a separate reporting entity.

B. BASIS OF PRESENTATION

The Natchitoches Soil and Water Conservation District's basic financial statements consists of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. BASIS OF PRESENTATION (continued)

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include the fund of the reporting entity, which is considered to be a governmental activity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. These funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations. The minimum number of funds is maintained consistent with legal and managerial requirements.

A fund is considered major if it is the primary operating fund of the entity. The only and major fund of the District is classified as a governmental fund and is described below:

General Fund. The General Fund, as provided by Louisiana Revised Statute 47:1906 is the primary operating fund of the Fund and is used to account for the operations of the Fund. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the Fund's policy.

C. MEASUREMENT FOCUS/ BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues, expenditures, expenses, transfers of assets, deferred outflows of resources, liabilities, and deferred inflows of resources—are recognized in the accounts and reported in the financial statements.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets and liabilities (whether current or non-current) associated with its activities are reported. Government-wide fund equity is classified as net position.

NATCHITOCHEs SOIL AND WATER CONSERVATION DISTRICT

Notes to the Financial Statements
June 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS/ BASIS OF ACCOUNTING (continued)

In the fund financial statements, the “current financial resources” measurement focus is used. Only current financial assets and liabilities are generally included on its balance sheet. Their statement of revenues, expenditures, and changes in fund balance reports sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of available spendable financial resources during a given period. This approach is then reconciled, through adjustment, to a government-wide view of the operations.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues are classified by source and expenditures are classified by function and character. Expenditures (including capital outlays) generally are recorded when a liability is incurred, as under accrual accounting.

D. ASSETS, LIABILITIES, AND EQUITY

Cash and Investments

Cash includes amounts in demand deposits and interest-bearing demand deposits. The cash includes amounts in time deposits and investments with original maturities of 90 days or less as cash equivalents. Under state law (LSA R.S. 33:2955), the District may deposit funds with a fiscal agent organized under Louisiana law or any other state of the United States, or under the laws of the United States. In addition, local governments in may invest in certificates and time deposits of state banks organized under Louisiana laws and national banks having principal offices in Louisiana.

Receivables / Payables

Receivables consist of all revenues earned at year-end and not yet received. Major receivables for the governmental activities are related to intergovernmental revenue. All receivables are current and therefore due within one year. Allowances are reported when accounts are proven to be uncollectible. There are no allowances reported.

Payables consist of necessary and ordinary expenses of the Fund.

Capital Assets

Capital Assets, which includes equipment, are reported in the government-wide financial statements. All capital assets are depreciated using the straight-line method over their estimated useful lives, ranging from three to ten years depending upon the expected durability of the particular asset. Depreciation of all exhaustible capital assets is recorded as an expense in the statement of net position.

NATCHITOCHEs SOIL AND WATER CONSERVATION DISTRICT

Notes to the Financial Statements
June 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. ASSETS, LIABILITIES, AND EQUITY (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized.

Capital assets and depreciation expenses are reported in the Statement of Net Position and Statement of Activities. In the fund financial statements, fixed assets are accounted for as capital outlay expenditures upon acquisition.

Equity Classifications

Net Position

The District classifies net position in the government-wide financial statements, as follows:

- *Net investment in capital assets* – Consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
- *Restricted net position* – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the District's bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
- *Unrestricted net position* – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

The District's policy is to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balances

In accordance with GASB 54, the district classifies fund balances in governmental funds as follows:

- *Nonspendable* – Amounts that are not in spendable form (such as prepaid expenses) because they are legally and contractually required to be maintained intact.
- *Restricted* – Amounts constrained to specific purposes by their providers (such as grantors or higher levels of government), through constitutional provisions, or by enabling legislation.
- *Committed* – Amounts constrained by the District itself. To be reported as committed, amounts cannot be used for any other purpose unless the Board takes the action to remove or change the constraint.
- *Assigned* – Amounts the District intends to use for a specific purpose. Intent can be expressed by an official or body to which the governing body delegates the authority.
- *Unassigned* – All amounts not included in other spendable.

The District would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

The General Fund, the Districts's only governmental fund, has an unassigned fund balance of \$343,089.

E. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. CASH

At June 30, 2022, the Natchitoches Soil and Water Conservation District has cash (book balances) totaling \$340,013.

Interest bearing demand deposits	\$ 37,239
Demand deposits	149,258
Time deposits	<u>153,516</u>
	<u>\$ 340,013</u>

The cash of the Natchitoches Soil and Water Conservation District is subject to the following risks:

Custodial Credit Risk: Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent.

At June 30, 2022, the Natchitoches Soil and Water Conservation District has \$340,225 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance.

OTHER REPORTS REQUIRED BY
LOUISIANA GOVERNMENTAL AUDIT GUIDE

Independent Accountant's Report on Applying Agreed-Upon Procedures

Natchitoches Soil and Water Conservation District
6949 Highway 1 Bypass
Natchitoches, LA 71457

We have performed the procedures enumerated below on the Natchitoches Soil and Water Conservation District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the year ended June 30, 2022, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Gude*. The District's management is responsible for its financial records and compliance with applicable laws and regulations.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the District's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2022. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for material and supplies exceeding \$30,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1755 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), or the regulations of the Division of Administration and the State Purchasing Office, whichever is applicable; and report whether the expenditures were made in accordance with these laws.

No expenditures were made during the year for materials and supplies exceeding \$30,000 or public works exceeding \$250,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member and management as defined by LSA-RS 42:1101-1124 (the code of ethics).

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the fiscal year.

Management provided us with the required list.

4. Report whether any employees' names appear on both lists obtained Procedures 2 and 3.

None of the employees included on the list of employees provided by management (agreed-upon procedure No. 3) appeared on the list provided by management in agreed-upon procedure No. 2.

5. Obtain a list of all disbursements made during the year, and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided the requested information. None of the businesses of the board members, employees, and board members' and employees' immediate families appeared as vendors on the list of disbursements.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original and amended budgets.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

The budget was adopted July 13, 2021. The budget was amended twice.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budget to actual revenue and expenditures. Actual revenues and actual expenses were within the 5% acceptable range.

Accounting and Reporting

9. Obtain the list of disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and

- (a) Report whether the six disbursements agree to the amount and payee in the supporting documentation.

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- (b) Report whether the six selected disbursements are coded to the correct fund and general ledger account

All payments were properly coded to the correct fund and general ledger account.

- (c) Report whether the six disbursements were approved in accordance with policies and procedures

All payments were properly approved.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by RS 42:11 through 42:28 (the open meeting law) and report whether there are any exceptions.

The District is only required to post a notice of each meeting and the accompanying agenda on the door of the district. We were supplied with copies of the agendas signed by the chairman.

Debt

11. Obtain bank deposit slips for the fiscal year and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We scanned deposits for the period under examination and found no indication of new bank loans, bonds, or like indebtedness in the fiscal year ended June 30, 2022.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

We scanned records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The report was filed timely.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A(2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

Management represented that the District did not enter into any contracts that utilized state funds while the District was not in compliance with the audit law.

Prior-Year Comments and Recommendations

15. Review any prior-year suggestions, recommendations, and or comments to determine the extent to which such matters have been resolved.

Capital Assets. The District has an inventory of assets, but all assets of the District are not included. Purchases of assets are not posted into capital outlay accounts for proper monitoring. This caused omissions in the inventory list for the current year.

Recommendation. We recommend that the District set up separate capital outlay accounts in their general ledger for posting fixed assets. We also recommend that they set a threshold amount to be used for capitalizing assets in the future.

Unresolved.

Management's response. We agree and will use a capital outlay account.

Payroll compliance. Several transactions were noted that may have required Form 1099s. However, no 1099s were issued for the year end 2020.

Resolved.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the District's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
