INDEPENDENT AUDITOR'S REPORT

Board Members of the Louisiana Soybean and Grain Research and Promotion Board Department of Agriculture and Forestry Baton Rouge, Louisiana

Report on the Financial Statements

I have audited the accompanying financial statements of the business type activities of Louisiana Soybean and Grain Research and Promotion Board, a component unit of the State of Louisiana, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise of Louisiana Soybean and Grain Research and Promotion Board basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on the financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant ant accounting estimates made by management, as well as evaluation the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Louisiana Soybean and Grain Research and Promotion Board a component unit of the State of Louisiana, as of June 30, 2020, and the respective changes in financial position, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America, require that the budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles general accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information.

Other information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of the Louisiana Soybean and Grain Research and Promotion Board basic financial statements. The accompanying supplemental schedules as listed in the table of contents are presented for purposes of additional analysis and not a required part of the basic financial statements.

The accompanying supplemental schedules and the Division of Administration Annual Fiscal Report listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statement themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the accompanying supplemental schedules and the Division of Administration Annual Fiscal Report listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reports

Internal Control Over Compliance

In accordance with Government Audit Standards, I have also issued my report dated August 21, 2020, on my consideration of Louisiana Soybean and Grain Research and Promotion Board internal control over financial reporting and my test of its compliance with certain provision of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Louisiana Soybean and Grain Research and Promotion Board internal control over financial reporting and compliance.

Compliance with the Act, and Order

Michael K. Slow CPA, APRE

In accordance with the Soybean Promotion, Research and Consumer Information Act of 1990 (the Act), the Soybean Promotion and Research Order (the Order), I have also issued my report dated August 21, 2020, on my consideration of Louisiana Soybean and Grain Research and Promotion Board compliance in the use of funds collected by the Board. The purpose of that report is to provide negative assurance regarding compliance with the Act and the Order, which describe the use of funds collected by the Board insofar as they related to the accounting matters. That report is not a required report by *Government Auditing Standards* but is a required report by the Qualified State Soybean Board (QSSB).

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based On An Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

Louisiana Soybean and Grain Research and Promotion Board Department of Agriculture and Forestry State of Louisiana Baton Rouge, Louisiana

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statement of the business-type activities of the Louisiana Soybean and Grain Research and Promotion Board, a component unit of the State of Louisiana, as of and for the year ended June 30, 2020, and the related notes to the financial statements which collectively comprise the Louisiana Soybean and Grain Research and Promotion Board basic financial statements and have issued my report thereon dated August 21, 2020

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered Louisiana Soybean and Grain Research and Promotion Board internal control over financial reporting to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Louisiana Soybean and Grain Research and Promotion Board internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Louisiana Soybean and Grain Research and Promotion Board internal control.

A deficiency in internal control exits when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies, in internal controls such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I considered to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Louisiana Soybean and Grain Research and Promotion Board, a component unit of the Department of Agriculture and Forestry, State of Louisiana, financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreement, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on the compliance with those provisions was not an objective on my audit and, accordingly, I do not express such an opinion. The results of my test disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Report on Compliance and Internal Control Page 2 August 21, 2020

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Report on Compliance with the Soybean Promotion, Research, and Consumer Information Act of 1990 and The Soybean Promotion and Research Order, Based on an Audit Performed in Accordance with Government Auditing Standards

Louisiana Soybean and Grain Research and Promotion Board Department of Agriculture and Forestry State of Louisiana Baton Rouge, Louisiana

I have audited the financial statement of the Qualified State Soybean Board of Louisiana Soybean and Grain Research and Promotion Board, a component unit of the State of Louisiana, as of and for the year ended June 30, 2020, and have issued my report thereon dated August 21, 2020.

I conducted my audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.

Compliance with the Soybean Promotion Research and Consumer Information Act of 1990 (the Act) and the Soybean Promotion and Research Order (the Order) relative to the use of funds collected by the State Board and with the terms described in Section 1220.228(a) of the Order relative to prohibited uses of funds collected by the State Board, and in Section 1220.211(j) of the Order relative to the investment of funds collected by the State Board, is the responsibility of the Qualified State Soybean Board of the Louisiana Soybean and Grain Research and Promotion Board management. As part of my audit, I assessed the risk that noncompliance with the Act and the Order as explained above, could cause the financial statements to be materially misstated

In connection with my audit, nothing came to my attention, that caused me to believe the State Board failed to comply with terms insofar as they relate to the accounting matters of the Soybean Promotion, Research and Consumer Information Act of 1990 (the Act) and the Soybean Promotion and Research Order (the Order) relative to the use of funds collected by the State Board and with the terms described in Section 1220.228(a) of the Order relative to prohibited uses of funds collected by the State Board.

In connection with my audit, nothing came to my attention, that caused me to believe the State Board failed to comply with terms insofar as they relate to the accounting matters of the Soybean Promotion, Research and Consumer Information Act of 1990 (the Act) and the Soybean Promotion and Research Order (the Order) relative to the investment of funds collected by the State Board and with provisions of Section 1220.211(j). However, my audit was not directed primarily toward obtaining knowledge of such noncompliance in the use and investment of funds

This report is intended for the information and use of the Directors and management of the Qualified State Soybean Board, the USB, the United States Department of Agriculture and the Legislative Auditor's Office and is not intended to be and should not be used by anyone other than these specified parties. However, under Louisiana Revised Statue 24:513, this report is distributed by the Legislative Auditor as a public document.

Notes to the Financial Statements

INTRODUCTION

The Louisiana Soybean and Grain Research and Promotion Board is a component unit of the State of Louisiana created by Louisiana Revised Statute 3:3551 within the Department of Agriculture and Forestry. The Board is charged with the responsibility of promoting the growth and development of the soybean, corn and grain, and grain sorghum industries in Louisiana through research and promotions.

The Board is composed of twelve producer members appointed by the Governor of the State of Louisiana and serve terms concurrent with the Governor. Of the twelve members, eight shall be soybean producers while four shall be practical producers of wheat, com or grain sorghum. The Commissioner of Agriculture serves as an ex-officio member.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the Louisiana Soybean and Grain Research and Promotion Board (the Board) have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The basic financial statements present the financial position, results of operations, and cash flows of the Board as of and for the year ended June 30, 2020.

Reporting Entity

Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included in the reporting entity. In conformance with GASB Codification Section 2100, this entity is a component unit of the State of Louisiana because the Council is not legally separate and the state holds the Council's corporate powers. The accompanying basic financial statements present only the transactions of the Louisiana Soybean and Grain Research and Promotion Board.

Basis of Presentation

Proprietary funds are used to account for the Board's ongoing operations and activities which are similar to those in the private sector. Proprietary funds are accounted for using a flow of economic resources measurement focus under which all assets and all liabilities associated with the operation of these funds are included in the balance sheet and are prepared in conformity with accounting principles generally accepted in the United States of America. Application of GAAP often requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates. The Government Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Such principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -- Con't.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest bearing demand deposits, and time deposits. Cash equivalents include amounts in time deposits that mature within 90 days or less when purchased. Under state law, the Council may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or under the laws of the United States.

Under state law, the districts may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days. However, if the original maturities are 90 days or less, they are classified as cash equivalents.

Deferred Outflows/Inflows of Resources

The statement of net position reports in a separate section deferred inflows and outflows of resources. Deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period while deferred inflows of resources is an acquisition of net assets by the government that is applicable to the future reporting period.

Revenues and Expenses

Revenues and expense are recorded on the accrual basis of accounting. Operating revenues and expenses include income and expenditures related to the continuing operation of the Board. Principal operating revenues are federally imposed by the Soybean Promotion, Research, and Consumer Information Act of 1990 at a rate of one-half a percent per bushel net selling price (this is a value based assessment), these revenues are collected and remitted to the board by the Louisiana Department of Agriculture and Forestry. Half of the assessments collected for soybean sales are remitted to the United Soybean Board, the remaining revenues are expended on promotion and research of soybean and soybean products with a limit of 5% of the assessments to be expended on administrative expense and staff. Principal operating expenses are the costs of providing services and include administrative expenses. Other revenues and expenses are classified as non-operating in the financial statements. Using the accrual method of accounting, the revenues for assessments are recorded in the Statement of Revenue, Expenses and Changes in Fund Net Position as earned. Expenses are recorded as they occur.

Revenues collected by the Louisiana Department of Agriculture and Forestry and remitted to the Board in subsequent months for assessment that are for earlier months creating a receivable to the Board.

The expenses are from contracts initiated through-out the year for the promotion and research of soybean, corn and grain and sorghum. The period of the contracts are each for a year and the cost of the contract are prorated over the term of the contract. Where amount that were paid on the contract exceed the prorated expense, the balance is recorded as a deferred outflow of resources.

Encumbrances

Encumbrance accounting is used to record contract cost from a contract that have not incurred for budgetary reporting purposes.

Statement of Cash Flows

This statement is prepared using the direct method. For purposes of this statement, this entity considers all highly liquid investments with a maturity of three months or less when purchased as a cash equivalent.

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Con't.

Fund Balance Equity Policies

GASB 54 Statement No. 54 establishes standards for five fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of resources reported in government funds. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

Restricted Fund Balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Board – the highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Board removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual requirements.

Assigned Fund Balance – These are amounts that are constrained by the Board's *intent* to be used for specific purposes, but are neither restricted nor committed, The board's management has the authority to assign amount to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned Fund Balance – This fund balance is the residual classification for the general fund. This represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

When both restricted and unrestricted resources are available for use, it is the board's policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – in order as needed

Budgets and Budgetary Accounting

The Board adopts an annual budget prepared on the modified accrual basis of accounting. Budget amounts included original adopted budget amounts and all subsequent amendments.

Capital Assets

Capital assets are recorded at historical cost. Depreciation is recorded using the straight-line method over the useful lives of the assets. Generally, the Board includes all capital acquisitions with a cost of \$5,000 in its fixed asset inventory. However, certain items at a cost below that amount may be capitalized if benefits of the item will extend beyond one year and/or the Board wants to monitor the item. The Board does not have any capital assets at year end.

NOTE 2 - CASH AND CASH EQUIVALENTS

The following is a summary of cash and cash equivalents at June 30, 2020:

Book Balance Bank Balance

Interest-bearing demand deposits <u>\$ 2,994,621</u> \$ 3,979,157

These deposits are stated at cost which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge or securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2020, the Board's bank balance was secured from risk by federal deposit insurance and pledged securities and was not exposed to custodial credit risk.

NOTE 3 - RECEIVABLES

At June 30, 2020, the balance of receivables was \$62,936. These are assessments on the sale of soybean and grain and corn through June 30, 2020 that were not collected until after June 30, 2020. The Board uses the direct write off method for allowance for bad debts. Although this is not an acceptable method under generally accepted accounting principles, the Board does not consider any material difference between this method and the allowance method used for GAAP. All receivables at June 30, 2020 were collected after year end.

NOTE 4 - LEASES

The Board did not have any operating or capital lease a year end.

NOTE 5 - ACCOUNTS PAYABLES

At June 30, 2020 the balance of accounts payable was \$30,872 for the assessments due to the United Soybean Board.

NOTE 6 - CONTRACT COMMITMENTS

The Board has entered into several contract that extend beyond the end of the fiscal year to promoting the growth and development of the soybean, corn and grain, and grain sorghum industries in Louisiana through research and promotions. The usual term of the contract begins in January and ends in December of each year.

Below is a schedule of the remaining unpaid balance of the contracts as of the end of the fiscal year. All of the amounts remaining to be paid on each contract are due within the next fiscal year ended June 30, 2020.

CHANGES IN VALUATION TECHNIQUES

Type of Investment

Current Year Valuation Technique

Prior Year Valuation Technique

Reason For Change

GASB Statement No. 72 requires governments to use valuation techniques in assessing the fair value of investments. Per the standard, these valuation techniques should be applied consistently across accounting periods. However, when a government determines that another measurement is more representative of fair value, a change of valuation technique is permitted and disclosure is required.

ASSET RETIREMENT OBLIGATION (ARO)

Describe the ARO and associated tangible capital assets, as well as the source of obligations:

What are the methods and assumptions used to measure the liabilities?

What are the estimated remaining useful life of the tangible capital assets?

How are any legally required funding and assurance provisions associated with AROs being met?

List the amount of asset restricted for payments of the liabilities:

0.00

PENSIONS

System:	Employer Contributions to the Pension Plan between the Measurement Date and the Employer's Fiscal Year-end	Covered Payroll during the Entity's Current Fiscal Year	Calendar Year Entities Only! *Employer Contributions to the Pension Plan between January and June of the next reporting calendar year
LASERS	0.00	0.00	0.00
TRSL	0.00	0.00	0.00
LSERS	0.00	0.00	0.00
DARS	0.00	0.00	0.00
LCCRRF	0.00	0.00	0.00
ROVERS	0.00	0.00	0.00

Note: Calendar year entities (Barbers Examiners Board; Louisiana Cemetery Board, and Louisiana State Board of Medical Examiners) should report employer's contributions for the calendar year as follows:

Column 1 - record the amount from July - December of the current calendar year being reported.

^{*}Column 3 - record the amount of contributions from January - June of the calendar year following the current year being reported. OSRAP is capturing this info early, which will be used in preparing next year's pension spreadsheet.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2019 measurement date for their OPEB valuation.)

Benefit payments made subsequent to the measurement date of the OGB Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year-end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported.

Covered Employee Payroll for the PRIOR fiscal year (not including related benefits) 0.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2019 - 6/30/2020). This information will be provided to the actuary for the valuation report early next year.

For agencies that have employees that participate in the LSU Health Plan, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2020 for their OPEB valuation report.)

Covered Employee Payroll for the CURRENT fiscal year (not including related benefits)

0.00
