### Why We Conducted This Audit

We conducted a financial statement audit of the Louisiana Agricultural Finance Authority (Authority) as of and for the year ended June 30, 2019, as to determine whether the financial statements are fairly stated.

### What We Found

- The Authority's financial statements, as adjusted, are fairly stated, and we found no weaknesses that require reporting in the Authority's report.
- As shown in the chart, the Authority's net position steadily increased each fiscal year from 2015 to 2018 before leveling off in 2019. The steady increase in net position was a result of the Authority paying off its bond debt for several years; the bonds were defeased in fiscal year 2018.
