INDEPENDENT AUDITOR'S REPORT

The Honorable Ruby Key Dawson, Mayor and Town Council
Town of Dubach
P.O. Box 252
Dubach, Louisiana 71235

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the Town of Dubach, Louisiana, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Dubach's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Dubach, Louisiana, as of June 30, 2020, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 8 and on pages 30 through 31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Dubach, Louisiana's basic financial statements. The supplemental schedule of per diem payments and schedule of compensation, benefits and other payments are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental schedule of per diem payments and schedule of compensation, benefits and other payments are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplemental schedule of per diem payments and schedule of compensation, benefits and other payments are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, I have also issued my report dated December 31, 2020, on my consideration of the Town of Dubach's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Dubach's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Town of Dubach, Louisiana's internal control over financial reporting and compliance.

Don M. McGehee

Certified Public Accountant

REQUIRED SUPPLEMENTAL INFORMATION (PART I)

TOWN OF DUBACH P.O. BOX 252 DUBACH, LOUISIANA 71235

MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND FOR THE YEAR ENDED JUNE 30, 2020

The discussion and analysis of the Town of Dubach's performance provides an overview of the financial activities for the year ended June 30, 2020. It is based upon currently known facts, decisions, and conditions. Please read it in conjunction with the financial statements which begin on page 10.

Basic Financial Statements

The basic financial statements include government-wide and fund financial statements. The government-wide statements consist of a Statement of Net Position and a Statement of Activities and provide information about the financial activities of the Town as a whole. The government-wide statements present a long-term view of our finances. Fund financial statements consist of the respective fund's balance sheet and the fund's statement of revenues, expenditures and changes in fund balance, if applicable. The fund statements tell how the Town's services were financed in the short-term and what remains for future spending. The primary difference between the fund and government-wide statement presentation methods is that expenditures for capital assets are expensed in the fund financial statements but capitalized and depreciated in the government-wide statements.

Statement of Net Position and Statement of Activities

One of the most important questions asked about the Town's finances is, "As a result of the year's financial activities, is the Town of Dubach as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Town as a whole and about our activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is a method similar to accounting used by most private-sector companies. All revenues and expenses of the current year are reported under this method regardless of when cash is received or disbursed.

These two statements report the Town's net position and the changes in the net position. You can think of the net position - the difference between assets and liabilities - as one way to measure the financial health, or financial position, of the Town. Increases/(decreases) in the Town's net position is one indicator of whether its financial health is improving/(deteriorating). You will need to consider other nonfinancial factors, however, such as changes in the Town's tax base and the condition of the Town's roads, to assess the overall health of the Town.

In the Statement of Net Position and Statement of Activities, we divide the finances of the Town into two kinds of activities:

Governmental Activities - Most of the Town's basic services are reported here, including the police, sanitation, highways and streets, cemetery, and general administration. Sales tax, occupational licenses, property taxes, franchise fees, charges for services, and grants finance most of these activities. Expenses primarily include salaries, depreciation, and utilities.

Business-Type Activities - The Town charges a fee to customers to help cover all or most of the cost of certain services it provides. The Town's water and sewer system is reported here. Charges for water and sewer services and grants finance most of these activities. Expenses primarily include salaries, repairs and maintenance, depreciation, and utilities.

Government-Wide Financial Analysis

As noted above, the net position may serve as a useful indicator of the Town's financial position. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Town's governmental and business-type activities.

Table 1
Total Net Position

Total

						I Ot	aı		
		Governmental Activities		Busines Activ	ss-Type ities	Primary Government			
	_	2020	2019	2020	2019	2020	2019

Total Assets	_	955,264	1,016,267	2,153,672	2,214,026	3,108,936	3,230,293		
Liabilities	_	13,133	14,279	<u>65,919</u>	<u>55,610</u>	79,052	69,889		
Net Position: Investment in Capital									
Assets		334,287	326,579	1,581,920	1,644,400	1,916,207	1,970,979		
Restricted Unrestricted	_	14,146 593,698	13,574 <u>661,835</u>	0 <u>505,833</u>	0 <u>514,016</u>	14,146 <u>1,099,531</u>	13,574 <u>1,175,851</u>		
Total Net Position	\$_	942,131	\$ <u>1,001,988</u>	\$ <u>2,087,753</u>	\$ <u>2,158,416</u>	\$ <u>3,029,884</u>	\$ <u>3,160,404</u>		

The largest portion of the Town's net position (63% for 2020 and 62% for 2019) is invested in capital assets. The net position invested in capital assets consist of land, buildings, water and sewer system, and equipment. The Town uses these capital assets to provide services to its citizens; consequently, these amounts are not available for future spending.

Unrestricted net position for 2020 and 2019 was 36% and 37%, respectively, of total net position. Nearly all unrestricted net position is composed of cash and investments. Unrestricted net position can be used to finance the day-to-day operations of the Town without constraints.

The remaining restricted net position (less than 1% for both years) represents resources that are restricted to the perpetual care of a cemetery and the maintenance of the flag.

	`=			`						

Governmental financial activities changed the Town's net position for the years ending June 20, 2020 and 2019, by a 6% decrease and a 2% increase (\$59,857 and \$17,603, respectively). Governmental activities 2020 revenues decreased 20% (\$94,961) from the prior year. Expenses decreased 2% (\$8,490) from the prior year with a decrease of \$17,374 in the general government expenses, an increase of \$612 in the police department, a decrease of \$501 in the street department, and an increase of \$8,773 in the garbage department.

Business-type activities decreased net position by 3% (\$70,663) for the year ended June 30, 2020, compared to a 3% (\$75,131) decrease in the prior year. Charges for services revenue increased 4% (\$8,413) in 2020 compared to the prior year. Expenses decreased 4% (\$11,298) in 2020 compared to the prior year.

Fund Financial Statements

As of June 30, 2020, the governmental funds reported a fund balance of \$606,746, which is a decrease of 10% (\$66,986) in the total fund balance from the previous year. Included in this year's total change in fund balance is a revenue deficit of \$38,742 in the Town's general fund and a revenue deficit of \$29,509 in the Town's garbage fund compared to a \$36,317 revenue surplus in the prior year general fund and a \$15,376 revenue deficit in the prior year garbage fund. Twentynine percent (29%) of the total fund balance is restricted due to external limitations on its use. These uses include garbage fund restrictions for \$163,683 and the cemetery fund for \$10,943. Five percent (5%) is considered unspendable because it has been used for prepaid items (\$16,307) and perpetual care of the cemetery (\$12,896). Less than 1% (\$1,250) is restricted to the flag fund by donors. The remaining sixty-six percent (66%) or \$401,667 is unassigned.

The general fund is the main operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the general fund was \$401,667, while total fund balance was \$413,694. As a measure of the general fund's liquidity, it may be useful to compare the unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance exceeds total general fund expenditures by \$60,918 and total fund balance exceeds it by \$72,945.

The key elements for the change in 2020 compared to the prior year are as follows:

- (1) Fines decreased \$56,750 from the prior year.
- (2) Sales tax revenues decreased \$18,619 from the prior year.
- (3) General fund expenditures decreased \$19,186 from the prior year.
- (4) The Town received a payment of \$9,011 from the insurance company for the stolen police car.

Amounts reported for business-type activities in the Town's individual funds are identical to the business-type activities reported in the government-wide presentation.

General Fund Budgetary Highlights

The budget is amended when it is determined that there are unexpected differences between actual and anticipated revenues and/or expenditures. The amended budget for 2020 was adopted just prior to year end. The differences between the original and final amended budget were a 16% (\$40,000) decrease in revenues and a 8% (\$30,855) decrease in expenditures. The change in budgeted revenues included a \$33,000 decrease in fines and a \$7,000 decrease in licenses. The decrease in budgeted expenditures included a \$13,850 decrease in general government expenditures, a \$12,355 decrease in police expenditures, and a \$30,160 increase in capital outlay. There were no other significant general fund budget adjustments.

The significant variances between actual results compared to the general fund budget, as reported on page 30, were that sales tax revenues were \$33,676 more than budgeted, licenses were \$27,234 more than budgeted, fines were \$4,078 more than budgeted, hotel tax was \$4,413 more than budgeted, and franchise tax revenue was \$7,797 more than budgeted. Capital outlay was \$11,655 more than budgeted.

Capital Assets

The Town invested \$42,565 in capital assets during the fiscal year ending June 30, 2020. This investment was funded by the proceeds from an insurance policy on the police car of \$9,011 and the balance financed by the Town's general fund. For the upcoming year, the Town plans to continue to make improvements and purchase equipment as needed. There are no plans to issue debt to finance any projects. More detailed information about the Town's capital assets is presented in the notes to the financial statements.

Currently Known Facts, Decisions, or Conditions

As a result of the spread of the COVID-19 Coronavirus and the resulting stay-at-home orders issued by the State of Louisiana in which the Town of Dubach operates, the Town expects this matter to continue to negatively impact its results of operations in 2020; however, the extent of the impact of COVID-19 will depend on future developments.

Requests for Additional Information

This financial report is designed to provide citizens and taxpayers with a general overview of the finances of the Town of Dubach and to show accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Town of Dubach at 7833 Annie Lee Street, Dubach, LA 71235. The phone number for the Town is (318) 777-3321.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020

NET CHANGE IN FUND BALANCES-GOVERNMENTAL FUNDS

\$ (66,986)

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Governmental Funds report capital outlays as expenditures.

However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. An adjustment is required for the amount by which capital outlay exceeded depreciation expense in the current period.

7,708

Governmental Funds report ad valorem taxes as revenue when collected or available to fund current period expenses. Revenue in the statement of activities is recognized when the taxes become due. An adjustment is required for ad valorem taxes that do not provide current resources:

Accrued revenue for ad valorem taxes that were not received within sixty days of year end, net of amounts received for the previous year not recognized as revenue in that year due to non-collection within sixty days of year end.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

The Town of Dubach, Louisiana, was incorporated in 1898 under the provisions of the Lawrason Act. The Town operates under a Mayor-Council form of government with five council members. Services provided by the Town include police protection, sanitation, and street maintenance. The Town also operates a water distribution system and sewer system for about 400 customers.

The accompanying basic financial statements of the Town of Dubach, Louisiana, are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles for state and local governments through its pronouncements (Statements of Interpretations). The more significant accounting policies established in GAAP and used by the Town are discussed below.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

These financial statements present the Town of Dubach as the primary government. GASBS No. 14 establishes the criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under the provisions of this Statement, the Town of Dubach is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASBS No. 14, fiscally independent means that the municipality may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. Component units can be identified by financial accountability and whether exclusion would create misleading or incomplete financial statements. No component units were identified for the Town of Dubach.

B. Basic Financial Statements--Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Town's police protection, highways and streets, sanitation, cemetery, and general administrative services are classified as governmental activities. The Town's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis by column. They are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts--invested in capital assets, net of related debt; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net costs of each of the Town's functions and business-type activities. The functions are also supported by general government revenues (property taxes, sales and use taxes, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating grants, and capital grants. Program revenues must be directly associated with the function (police, public works, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reports capital-specific grants. The net costs (by function or business-type activity) are normally covered by general revenue (taxes, intergovernmental revenues, interest income, etc.). The Town does not allocate indirect costs. The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basic Financial Statements--Fund Financial Statements

The financial transactions of the Town of Dubach are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASBS No. 34 sets forth minimum criteria for the determination of major funds. All funds were considered by the Town to be major funds.

The following funds are used by the Town of Dubach:

Governmental Funds—The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds reported by the Town of Dubach:

General Fund

The General Fund is the Town's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specific purposes.

Permanent Fund

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for the purposes that support the reporting government's programs.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

Proprietary Funds--The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the Town:

Enterprise Funds

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Water and Sewer Enterprise fund of the Town meets this criteria and operates the Town's water distribution system and its sewer system, which primarily serve Town residents.

The activities reported in this fund are reported as business-type activities in the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Property taxes are reported in the period for which levied. Sales tax collected and held by the sales tax collection agency at year end on behalf of the government are reported in the period for which they were collected. Other nonexchange revenues, including intergovernmental revenues and grants, are reported when all eligibility requirements have been met. Fees and charges and other charges and other exchange revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Property tax revenues are recognized in the period for which levied provided they are also available. Sales tax collected and held by the sales tax collection agency at year end on behalf of the government are reported in the period for which they were collected provided they are also available. Intergovernmental revenues and grants are recognized when all eligibility requirements are met and the revenues are available. Expenditures are recognized when the related liability is incurred. Exceptions to this general rule include principal and interest on general obligation long-term debt and employee vacation and sick leave, which are recognized when due and payable.

The Town reports deferred revenue on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

E. Cash Deposits and Investments

Cash and cash equivalents consist of cash on hand, demand deposits, interest-bearing demand deposits, and short-term time deposits with original maturities of three months or less from date of acquisition.

Under state law, the Town of Dubach may invest funds in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Restricted Assets

Restricted assets represent resources that must be expended in a specific manner. The "customers' deposits" account is used to report proceeds from customers' meter deposits. A corresponding liability is presented to record these funds held by the enterprise fund. The "flag fund" account is used for donations dedicated to the purchase and repair of flags for the flag pole.

G. Compensated Absences

Employees earn either one or two weeks of vacation time each year, depending upon years of service. Employees earn 12 days of sick leave each year. Vacation can be accumulated. The Town accrues accumulated unpaid vacation when earned by the employee. There were \$7,135 in accrued vacation benefits at year end. There were no accumulated and vested sick leave benefits at year end.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

H. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

I. Interfund Activity

Interfund activity is reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements. At the end of the fiscal year, outstanding funds are referred as "due to/from other funds" on the fund financial statements balance sheets. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

J. Receivables

Ad valorem tax and proprietary fund receivables are shown net of an allowance for uncollectible amounts. Estimated uncollectible amounts are recognized as a reduction in revenue in the general fund and as bad debt expense in the proprietary fund through an allowance established based upon collection experience and other factors which indicate possible uncollectibility.

K. Deferred Outflows of Resources and Deferred Inflows of Resources

The Town reports decreases in net assets that relate to future periods as deferred outflows of resources and increases in net assets that relate to future periods as deferred inflows of resources in a separate section of its government-wide and proprietary fund statements of net position. There were no deferred outflows or deferred inflows of resources reported in this year's financial statements.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

L. Property Tax and Sales Tax Revenues

Ad Valorem taxes are levied by the Town on a calendar year basis and become delinquent on December 31. The Town bills and collects its own Ad Valorem taxes. For the 2019 Ad Valorem Taxes, one rate of tax was levied on property within the corporate limits, as follows:

6.92 mills for the general maintenance of the Town. This millage was approved by the Town Council May 20, 2019. This millage is the maximum millage that can be assessed without the approval of voters.

For the year ended June 30, 2020, taxes of \$23,919 were levied on property. Taxes receivable at June 30, 2020 consisted of the following:

Taxes Receivable	\$ 1,822
Allowance for Uncollectible Taxes	 <u>(664</u>)
Net Ad Valorem Taxes Receivable	\$ 1,1 <u>58</u>

The following are the principal taxpayers and their related ad valorem tax revenue for the Town:

First Guaranty	\$ 1,878
Dubach Apartments	664
Centerpoint Energy Arkla	616
Rosenfeld	450
ETC Field Services	 <u>436</u>
Total	\$ 4,044

The qualified electors of the Town of Dubach authorized a one cent sales and use tax levy to be dedicated and used for the purpose of providing funds for any lawful corporate purpose of the Town.

The qualified electors of Lincoln Parish authorized a half cent sales and use tax levy to be dedicated and used for the purpose of solid waste disposal. The proceeds of the sales tax, after paying reasonable and necessary cost and expenses of collecting and administering the tax and cost of operating and maintaining parish-wide solid waste disposal facilities and necessary equipment in connection therewith, is allocated and divided between the Lincoln Parish Police Jury and the incorporated municipalities of the parish according to a formula based upon the ratio that the population of each municipality or entity bears to the total population of the parish as shown by the most recent federal decennial census. The proceeds are restricted for use in the operation and maintenance of solid waste collection facilities, including equipment, furnishings, and other property in connection therewith.

M. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost, except that general infrastructure capital assets consisting of streets, bridges, sidewalks, and drainage systems acquired before July 1, 2003, are excluded from capital assets. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Capital Assets (continued)

All capital assets, other than land, are depreciated using the straight-line method over the following estimated useful lives:

Buildings and Building Improvements 30 years

Water and Sewer Systems 10-50 years

Machinery and Equipment 3-20 years

Improvements other than Buildings 30 years

N. Defining Operating Revenues and Expenses

The Town's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the Town's water and sewer fund consist of charges for services and costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

O. Government-wide and Proprietary Fund Net Position

Government-wide and proprietary fund net position are divided into three components:

Invested in capital assets, net of related debt--consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

Restricted net position--consist of a net position that is restricted by the Town's creditors, by grantors, and by other contributors.

Unrestricted--all other net position is reported in this category.

P. Governmental Fund Balance

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable Fund Balance - amounts that are not in spendable form (such as prepaids) or are required to be maintained intact.

<u>Restricted Fund Balance</u> - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Committed Fund Balance</u> - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.

<u>Assigned Fund Balance</u> - amounts the government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

<u>Unassigned Fund Balance</u> - amounts that are available for any purpose; positive amounts are reported only in the general fund.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

P. Governmental Fund Balance (continued)

The Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the Town's policy is to first apply the expenditure toward restricted resources and then toward unrestricted resources. In governmental funds, the Town's policy is to first apply the expenditure toward restricted fund balance and then to other, less restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.

Q. Prepaid Insurance

Payments made to insurance companies for insurance coverage that will benefit periods beyond June 30, 2020, are recorded as prepaid items in the asset section of the fund financial statements balance sheet.

R. Budget Information

The Town of Dubach prepared operating budgets on its General Fund and Special Revenue Fund for the year ended June 30, 2020. The proposed budgets were published in the official journal and made available for public inspection. A public hearing for the proposed budgets was held on June 17, 2019, and the budgets were adopted by the mayor and council members. There were legally adopted budget amendments prior to year end. The budgets presented anticipated revenues and expenditures on a basis consistent with generally accepted accounting principles. Budgetary amounts were monitored by management and amended as deemed necessary. Appropriations lapse at year-end and must be reappropriated for the following year to be expended.

NOTE 2 - CASH AND INVESTMENTS

At June 30, 2020, the Town had cash and restricted cash (book balances) totaling \$614,927 and investments and restricted investments (book balances) totaling \$474,503, as follows:

	Cash	<u>Inv</u>	<u>estments</u>
Cash on Hand	\$ 50	\$	0
Demand Deposits	612,317		0
Time Deposits	<u>2,560</u>	_	<u>474,503</u>
Total	\$ <u>614,927</u>	\$_	474,503

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. Ordinarily, these securities are held in the name of the pledging agent bank in a holding or custodial bank that is mutually acceptable to both parties.

The Town maintains its cash accounts in various banks. Each bank provides Federal Deposit Insurance Corporation (FDIC) coverage of \$250,000 for all demand deposits and \$250,000 for all time deposits. At June 30, 2020, the Town had \$1,095,707 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance of \$728,407 and \$367,300 of pledged securities held by custodial banks in the name of the fiscal agent banks.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 3 - RECEIVABLES

The receivables of \$62,685 at June 30, 2020, are as follows:

	General Fund	Garbage Fund	Permanent Fund	Enterprise Fund	Total
Taxes	<u> </u>				
Ad Valorem, net of					
allowance of \$664	\$ 1,158	\$ 0	\$ 0	\$ 0	\$ 1,158

Police	10,044
Highways and Streets	<u>1,632</u>
Total Governmental Depreciation Expense	\$ <u>34,857</u>

NOTE 8 - ON-BEHALF PAYMENTS

Employees of the Town of Dubach's Police Department received salary supplements of \$10,450 from the State of Louisiana for the year ended June 30, 2020. There were no fringe benefits paid on this supplemental salary.

NOTES TO FINANCIAL STATEMENTS
JUNE 30. 2020

NOTE 9 - COMMITMENTS

The Town of Dubach has one active project as of June 30, 2020, a business-type activity endeavor for additions and improvements to the sewer system. The project is financed with a Louisiana Community Development Block Grant and funds provided by the Town. The grant has been approved for \$623,997 in May, 2020. There is a signed contract for \$94,840 of engineering fees and \$41,400 of consulting fees as of June 30, 2020. The Town's utility fund will be used to pay the contracts for engineering and consulting fees.

NOTE 10 - SUBSEQUENT EVENTS

As a result of the spread of the COVID-19 Coronavirus and the resulting stay-at-home orders issued by the State of Louisiana in which the Town of Dubach operates, the Town is experiencing reduced fee income in 2020. The duration of the reduction in fees may be only temporary, but it will depend on future developments, including the duration and spread of the outbreak and the length of stay-at-home orders, all of which are highly uncertain and cannot be predicted at this time. The related financial impact cannot be reasonably estimated at this time.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Ruby Key Dawson, Mayor and Town Council
Town of Dubach
P.O. Box 252
Dubach, Louisiana 71235

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Dubach, Louisiana, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of Dubach's basic financial statements and have issued my report thereon dated December 31, 2020.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Town of Dubach's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Dubach's internal control. Accordingly, I do not express an opinion on the effectiveness of the Town of Dubach's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, I identified certain deficiencies in internal control that I consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

I consider the deficiency in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as #2020-1 to be a material weakness, as described above.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. I consider the deficiencies described as #2020-2 in the accompanying schedule of findings and questioned costs to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Dubach's financial statements are free from material misstatement, I performed tests on its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed one instance of noncompliance or other matters that are required to be reported under <u>Government Auditing</u> <u>Standards</u> and which is described in the accompanying schedule of findings and questioned costs as #2020-3.

Town of Dubach's Response to Findings

The Town of Dubach's response to the findings identified in my audit is described in the accompanying schedule of findings and questioned costs. The Town of Dubach's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Don M. McGehee

Certified Public Accountant

December 31, 2020

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2020

I have audited the financial statements of the Town of Dubach, Louisiana, as of and for the year ended June 30, 2020, and have issued my report thereon dated December 31, 2020. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. My audit of the financial statements as of June 30, 2020 resulted in an unqualified opinion. The following is a summary of my audit observations on internal control, tests of compliance, and findings related to the financial statements that are required to be reported in accordance with Government Auditing Standards:

Section 1 Summary of Auditors' Reports

leport on Internal Control and Compliance Materia	ii to the Financial Statem	ents		
Internal Control			_	
Material Weaknesses 🏻 Yes 🗌 No	Significant Deficiencies	⊠ Ye	\$ [_]	No
Compliance Compliance Material to Financial Statements	□ Ves ☑ No			
Compliance Material to Financial Statements	☐ 162 ☑ INO			

Section 2 Financial Statement Findings

Finding 2020-1. Inadequate Segregation of Duties. The Town of Dubach's Office has too few personnel involved in the accounting system to have adequate segregation of duties for internal control.

Finding 2020-2. Inadequate Controls over Preparation of the Financial Statements. Personnel for the Town of Dubach do not have sufficient financial expertise to prepare the financial statements without some technical assistance in applying accounting principles that are in conformity with GAAP. However, they can understand the key issues identified, make any required management decisions, and fulfill the competency requirements, such that they can accept responsibility for the financial statements.

Finding 2020-3. Unfavorable Budget Variance in Excess of 5%. The Town of Dubach's final budget for the year ended June 30, 2020 included total estimated revenues of \$101,300 in the garbage fund, which is a special revenue fund. The actual revenues were only \$76,234, an unfavorable budget variance of 25%.

MANAGEMENT'S CORRECTIVE ACTION PLAN FOR THE YEAR ENDED JUNE 30, 2020

The findings from the Schedule of Findings and Questioned Costs for the year ended June 30, 2020, are discussed below with management's response for a corrective action plan.

INTERNAL CONTROL AND COMPLIANCE MATERIAL TO THE FINANCIAL STATEMENTS

2020-1. Inadequate Segregation of Duties. The Town is required to design internal control with proper segregation of duties to prevent, or detect and correct, misstatements in the accounting system. There are too few personnel involved in the accounting system to have adequate segregation of duties for internal control. Recommend that the Town involve additional personnel in the accounting system to allow for adequate segregation of duties.

<u>Response</u>: The Town has an accounting workload that can be easily managed by two employees. The hiring of additional employees to provide enhanced internal control does not appear to be the best use of the Town's resources.

2020-2. Inadequate Controls over Preparation of the Financial Statements. The Town is required to have controls in place to prevent, or detect and correct, misstatements in the financial statements. Personnel do not have sufficient financial expertise to prepare the financial statements without some technical assistance in applying accounting principles that are in conformity with GAAP. Recommend controls be strengthened by providing personnel with additional training.

<u>Response</u>: The Town has employees with the ability to record cash receipts and disbursements, prepare adjusting entries, and prepare draft financial statements. However, there are times that they do not have the expertise to apply certain accounting principles. Providing employees with additional education does not appear to be the best use of the Town's resources, but the Town will encourage the employees to use technical assistance available.

2020-3. Unfavorable Budget Variance.

The garbage fund had an unfavorable budget variance of 25% from actual revenues. According to state law, the budget should be amended when anticipated amounts exceed budget estimates by more than 5%. It appears that when budget amendments were made that garbage fees were incorrectly increased. I recommend that the budget and actual amounts be monitored and when unfavorable budget estimates in excess of 5% have been identified by the clerk, that the mayor prepare budget amendments to propose to the council for approval.

<u>Response</u>: The mayor will prepare proposed budget amendments upon notification by the clerk, Charla Thompson, that budget amendments are needed. The proposed budget amendments will be presented to the council for approval.

STATUS OF PRIOR YEAR FINDINGS FOR THE YEAR ENDED JUNE 30, 2020

SECTION I INTERNAL CONTROL AND COMPLIANCE MATERIAL TO THE FINANCIAL **STATEMENTS**

FINDINGS

MANAGEMENT'S RESPONSES

2019-1. Separation of Duties. Too few personnel involved in the accounting system to have adequate separation of duties for internal control.

Unresolved. See Finding 2020-1.

2019-2. Preparation of Financial Statements. Unresolved. See Finding 2020-2. Personnel do not have sufficient financial expertise to prepare the financial statements without some technical assistance in applying accounting principles that are in conformity with GAAP.

2019-3. Late submission of Audit Report. Town's annual audit report was not submitted to the Legislative Auditor within six months of year end.

Resolved.

Resolved. 2019-4. Budgeted Expenditures in Excess of Estimated Funds Available. The budget for the Town of Dubach's general fund and the special revenue fund included proposed expenditures in excess of total estimated funds available.
