INDEPENDENT AUDITORS' REPORT

To the Members of the West Feliciana Parish School Board
St. Francisville, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the West Feliciana Parish School Board (the "School Board") as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedule, the schedule of changes in total other post-employment benefits liability and related ratios, the schedule of the school board's proportionate share of the net pension liability for the retirement systems, the schedule of employer contributions to the retirement systems, and the notes to the required supplementary information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, the schedule of board members' compensation, the schedule of compensation, benefits, and other payments to the superintendent, and the schedule of collections, distributions, and costs of collection - cash basis, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of board members' compensation, the schedule of compensation, benefits, and other payments to the superintendent, and the schedule of collections, distributions, and costs of collection - cash basis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2025, on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

WEST FELICIANA PARISH SCHOOL BOARD

Management's Discussion and Analysis As of June 30, 2025

The Management's Discussion and Analysis (MD&A) of the West Feliciana Parish School Board's (the School Board) financial performance provides an overall review of the School Board's financial activities for the year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with the School Board's basic financial statements, which follows this MD&A. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information.

Financial Highlights

- The School Board's total net position increased by \$7,114,229 during the current fiscal year.
- The School Board's liabilities and deferred inflows of resources exceed the assets and deferred outflows of resources for fiscal year ending 2025 by \$17,737,036. Of this net position deficit amount, there is a \$38,505,757 unrestricted net deficit primarily due to the recording of the total other post-employment benefit liability of \$21,525,844 and a net pension liability of \$31,806,905.
- The School Board's governmental funds reported combined ending fund balances of \$15,988,921, a decrease of \$607,670 in comparison with the prior year predominantly due to increased revenue from sales tax and grant revenue offset by facility acquisition and construction costs. Of this fund balance, \$12,002,691 is available for spending at the School Board's discretion (unassigned fund balance), \$3,720,414 is restricted for debt service, \$503,405 is restricted for student activities, and \$17,518 is restricted for capital projects.
- The General Fund had \$41,431,197 in fiscal year revenues, which primarily consisted of state aid, sales and property taxes. Significant sources of financing included proceeds from an insurance claim for the loss of assets of approximately \$1.1 million, sale of capital assets of approximately \$853,000, and proceeds from new leases of approximately \$1.1 million. The School Board's General Fund had \$40,380,395 in expenditures. The General Fund's fund balance increased from \$11,008,752 as of June 30, 2024 to \$12,002,691 as of June 30, 2025.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the School Board's financial statements. The School Board's financial statements comprise three components: Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements) and required supplementary information. The following illustrates the minimum requirements for Special Purpose Governments:

- MD&A
- Basic Financial Statements
- Required Supplementary Information (Other than MD&A)

Government-wide financial statements - The government-wide financial statements are designed to provide readers with a broad overview of the School Board's finances, in a manner similar to a private-sector business. The government-wide financial statements include the following two statements:

- The *statement of net position* presents information on all of the School Board's assets, liabilities, and deferred inflows and deferred outflows with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School Board is improving or deteriorating.

WEST FELICIANA PARISH SCHOOL BOARD

Management's Discussion and Analysis As of June 30, 2025

- The *statement of activities* presents information showing how the net position of the School Board changed as a result of the current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying event giving rise to the change occurs. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements can be found on pages 13-14 of this report.

Fund financial statements - A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School Board can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the School Board's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These governmental fund statements are on pages 15-21 of this report.

The School Board maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Construction Fund, Debt Service Fund, and Julius Freyhan Fund, which are considered major funds, and other non-major funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the School Board. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the School Board's own programs. The School Board's fiduciary funds consist of custodial funds for sales and occupancy tax collections for other taxing authorities.

The statements related to the School Board's fiduciary fund net position can be found on pages 22-23 of this report.

Notes to the basic financial statements - The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 24.

Government-wide Financial Analysis

This is primarily due to the reporting of the School Board's Pension and OPEB liabilities. The comparative statements below show the composition of June 30, 2025 and 2024:

Management's Discussion and Analysis As of June 30, 2025

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- Unrestricted net position contains a deficit of \$38,505,757, a deficit decrease of \$4,495,747 over last fiscal year. This deficit is primarily attributable to the net pension liability and total other post-employment benefit liability.
- Increase in the total other post-employment benefit liability of approximately \$1,900,000 for 2025 as a result of changes in valuation by the School Board's actuary.
- Net pension liability decreased by approximately \$2,900,000 as a result in changes in the valuation by the actuary.
- Bonds payable decreased by \$1,085,000 from debt service payments on the School Board's Series 2019 and Series 2020 bonded debt.
- The \$17.2 million of net investment in capital assets was predominantly related to the recent completion of construction for projects at the Fieldhouse and Julius Freyhan Building.

WEST FELICIANA PARISH SCHOOL BOARD

Management's Discussion and Analysis As of June 30, 2025

The key elements for the increase of the School Board's net position for the year ended June 30, 2025 are as follows:

- Overall revenues increased approximately \$5.5 million and expenses increased approximately \$1.1 million.
- Local revenues consisting of sales and property taxes are approximately 56% of total revenue. The increase in sales tax of \$1.4 million is the result of increased sales activity in the parish. The increase in property taxes of \$1.9 million is a result of changes in the assessments of property values within the parish. Other revenue increased approximately \$1.5 million primarily as a result of proceeds from insurance proceeds and the sale of capital assets.
- The increase in total expenses of approximately \$1.1 million is primarily attributable to general increases in instruction and support education costs.

Financial Analysis of the School Board's Funds

The School Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The School Board's basic services are reported in the governmental funds, which focus on how money flows into and out of these funds and the balances left at year end that are available for spending. The governmental fund statements provide a detailed short-term view of the School Board's general government operations and the basic services it provides. Governmental fund information is useful in assessing the School Board's financing requirements.

- As the School Board completed the fiscal year its governmental funds reported a combined fund balance of \$15,988,921 a decrease of \$607,670 over the prior year fund balance. Unassigned fund balance is \$11,716,213, Nonspendable fund balance is \$31,371, and Restricted fund balance is \$4,241,337.

WEST FELICIANA PARISH SCHOOL BOARD

Management's Discussion and Analysis As of June 30, 2025

- The majority of the School Board's financial activity occurs in the General Fund. The fund balance at June 30, 2025 is \$12,002,691 compared to \$11,008,752 at the end of 2024, or an increase of \$993,939. This fund balance is the result of accumulated operating surpluses from the current and prior fiscal years and serves to sustain the system during periods of decreased revenue or need for additional major expenditures.
- The Construction Fund, a major capital projects fund, reported a total fund balance of \$17,518 that is restricted. The fund accounts for the proceeds generated from the Series 2019 and 2020 bond issuances for construction of new facilities and building improvements of the School Board.

Variation Between Original and Final Budgets

Over the course of the year, the School Board revised the annual General Fund budget for changes in projected revenues and expenditures. The difference between the original budgeted amount and the final amended budget was primarily due to an increase in projected revenue and an increase in expenditures due to additional amounts for salaries and benefits. The General Fund, with actual revenues of \$41,431,197 operated within the available resources as planned through respective budgets.

Capital Asset and Debt Administration

Capital assets. The School Board's investment in capital assets for its governmental activities as of June 30, 2025, totaled \$69,794,756 (net of accumulated depreciation and amortization). WEST FELICIANA PARISH SCHOOL BOARD

Notes to the Financial Statements June 30, 2025

1. Summary of Significant Accounting Policies

The accompanying basic financial statements of West Feliciana Parish School Board (the School Board) have been prepared in conformity with accounting principles generally accepted in the United States of America. (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the School Board's significant policies.

a. Reporting Entity

The School Board was created by Louisiana Revised Statute (LSA-R.S.) 17:51 for the purpose of providing public education for the residents of West Feliciana Parish (the Parish). The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is authorized to establish public schools as it deems necessary, to provide adequate school facilities for the children of the parish, to determine the number of teachers to be employed, and to determine local supplement to their salaries. The School Board is currently comprised of 7 members who are elected from 7 districts for a term of four years.

The School Board operates 4 schools within the Parish with a total enrollment of approximately 2,200 pupils. In conjunction with the regular educational programs, these schools offer special education programs. Additionally, the School Board provides transportation and school food services for the students.

The Governmental Accounting Standards Board (GASB) *Codification of Government Accounting and Financial Reporting Standard* establishes criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under the provisions, the School Board is considered a *primary government*, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the School Board may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue debt in its own name with the approval of the state bond commission. The School Board also has no *component units*, defined by GASB as other legally separate organizations for which the elected school board members are financially accountable. There are no other primary governments with which the School Board has a significant relationship.

b. Fund Accounting

The financial transactions of the School Board are recorded in individual funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate.

Emphasis of fund financial reporting is on the major funds. Non-major funds (by category) or fund type are summarized into a single column. The major funds of the School Board are the General Fund, the Construction Fund, the Debt Service Fund and the Julius Freyhan Fund.

General Fund - The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

Construction Fund - The Construction Fund is used to account for capital projects funded by the Series 2019 and 2020 General Obligation Bonds.

WEST FELICIANA PARISH SCHOOL BOARD

Notes to the Financial Statements June 30, 2025

1. Summary of Significant Accounting Policies (continued)

b. Fund Accounting (continued)

Debt Service Fund - The Debt Service Fund is used to account for the payment of the 2019 and 2020 General Obligation Bonds.

Julius Freyhan Fund - The Julius Freyhan Fund accounts for the capital project funding used to restore the Julius Freyhan building as a community center and as a museum of early West Feliciana Parish education.

Revenues are accounted for in these individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The funds presented in the financial statements are described as follows:

Governmental Fund Types:

Governmental funds are those through which most governmental functions of the School Board are financed. The acquisition, use and balances of the School Board's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the School Board's governmental fund types:

General Fund - The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

Special Revenue Funds - Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted or have been received from contributors for expenditures related to specified purposes. These funds account for the revenues and expenditures related to federal and state grant and entitlement programs established for various educational objectives and for school activity accounts.

Debt Service Fund - The Debt Service Fund, established to meet requirements of bond ordinances, is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Capital Projects Fund - The Capital Projects Fund, established to account for funds dedicated to capital improvements, including construction of new facilities and renovations.

Fiduciary Fund Type - Custodial Funds:

These funds are used to account for collecting and disbursing activities that the School Board performs on behalf of other local governments in a custodial capacity.

c. Measurement Focus/Basis of Accounting

Government-Wide Financial Statements (GWFS)

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the school board, except for the fiduciary activities. The fiduciary activities are only reported in the Statement of Fiduciary Net Position at the Fund Financial Statement level.

WEST FELICIANA PARISH SCHOOL BOARD

Notes to the Financial Statements June 30, 2025

1. Summary of Significant Accounting Policies (continued)

c. Measurement Focus/Basis of Accounting (continued)

Government-Wide Financial Statements (GWFS) (continued)

The GWFS were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from the exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB No. 33, *Accounting and Reporting for Nonexchange transactions*.

Program Revenues

Program revenues included in the Statement of Activities are derived directly from parties outside of the school board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the school board's general revenues.

Allocation of Indirect Expenses

The school board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable by function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense which can be specifically identified by function is included in the direct expenses of each function. Depreciation on the buildings is assigned to the plant operation and maintenance function due to the fact that school buildings serve multiple purposes. Interest on long term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Fund Financial Statements (FFS)

Governmental Funds

The accounting and financial reporting treatments applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Governmental Funds are accounted for on the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized in the accounting period in which they become susceptible to accrual - that is, when they become measurable and available to pay current period liabilities. Ad valorem taxes revenues reported in the governmental funds are considered to be available if collected within sixty days after year-end. Sales and use taxes are considered "available" when expected to be collected within the next month. Revenue from state and federal grants is recorded when the reimbursable expenditures have been incurred and is anticipated to be collected within one year.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Costs of accumulated unpaid vacation, sick leave and other employee benefit amounts are reported in the period due and payable rather than the period earned by employees and general long-term obligations principal and interest payments are recognized only when due.

Fund Financial Statements (FFS) (continued)

Fiduciary Funds

Fiduciary (Custodial) Funds are accounted for using the accrual basis of accounting and are used to account for assets held in a trustee capacity. These funds are custodial in nature and held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the School Board. The fiduciary fund consists of the collection and disbursement of sales taxes in its capacity as the collection agent for the parish.

d. Budget and Budgetary Accounting

The proposed budgets for fiscal year 2024-2025 were completed and made available for public inspection on June 28, 2024 at the School Board office. A public hearing was held on July 16, 2024 for suggestions and comments from taxpayers. The proposed fiscal year 2025 budgets were formally adopted by the School Board after the public hearing. The budgets, which included proposed expenditures and the means of financing them for the General and Special Revenue Funds, were published in the official journal ten days prior to the public hearings.

The budgets for the General and Special Revenue Funds were prepared on the modified accrual basis of accounting. Formal budgetary integration is used during the year as a management control device.

The School Board is authorized to transfer amounts between line items within any fund. When actual total revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual total expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments.

e. Cash, Cash Equivalents, and Investments

Under state law, the School Board may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, notes, bills, Louisiana Asset Management Pool, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Cash and cash equivalents include cash on hand, cash on deposit, certificates of deposit and money market accounts. These deposits are stated at cost, which approximates market. Under state law, the resulting bank balances of these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent.

f. Federal Grants Receivable

Federal grants receivable consists of receivables for reimbursement of expenditures under various federal programs and grants. All amounts are expected to be collected within the next twelve months.

g. Inventory

Inventory of the School Food Service Special Revenue Fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Education. The commodities are recorded as revenues when received. All inventory items purchased are valued at the lower of cost (first-in, first-out) or market, and donated commodities are assigned values based on information provided by the United States Department of Agriculture.

h. Capital Assets

Capital assets are capitalized at historical cost, or estimated historical cost for assets where the actual historical cost is not available. Donated assets are recorded as capital assets at their acquisition value at the date of the donation. The system for the accumulation of fixed asset cost data does not provide the means for determining the percentage of assets valued at actual and those valued at estimated cost or acquisition value. The School Board maintains a \$5,000 threshold level for capitalizing assets. See Note 1(i) for consideration of right-of-use assets.

Capital assets are recorded in the GWFS, but are not recorded in the FFS. All capital assets are depreciated or amortized using the straight-line method over their estimated useful lives or term of lease agreement, as applicable. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the school board, no salvage value is taken into consideration for depreciation purposes. Useful lives are approximately 40 years for buildings and 3 to 20 years for equipment.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

i. Leases

The School Board is a lessee under noncancellable lease agreements for copiers and school buses used for administration activities and transportation of students. In accordance with GASB Statement No. 87, *Leases*, the School Board recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the financial statements. Lease liabilities are recorded for lease contracts with an initial individual value of \$10,000 or more and with lease periods greater than one year.

At the commencement of a lease, the School Board initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its remaining lease term with consideration of optional renewal periods. Key estimates and judgments related to leases include (1) the discount rate used to present value the expected lease payment, (2) lease term, and (3) lease payments.

- The School Board uses the interest rate charged by the lessor as the discount rate, if provided. When the interest rate charged by the lessor is not provided, the School Board uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease terms includes the noncancellable period of the lease and optional renewal periods. Lease payments included in the measurement of the lease liability are composed of fixed payments through the noncancellable term of the lease and renewal periods that management considers reasonably certain to be exercised.

i. Leases (continued)

The School Board monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with capital assets and lease liabilities are reported with long-term debt on the Statement of Net Position.

j. Compensated Absences

All 12-month employees earn from 10 to 20 days of vacation leave each year, depending on length of service with the School Board. Vacation leave may be accumulated up to 40 days; the School Board will pay the balance of unused vacation upon separation.

All school board employees earn 10 to 12 days of sick leave each year depending on the number of months employed within a year. Sick leave may be accumulated without limitation. Upon death or retirement, a maximum of 25 days of unused sick leave is paid to the employee or designated heir at the employee's current rate of pay. Under the Louisiana Teacher's Retirement System, the unused sick leave is used in the retirement benefit computation as earned service. Under the Louisiana School Employees Retirement System, all unpaid sick leave, which excludes the 25 days paid, is used in the retirement benefit computation as earned service.

Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Leave may be granted for rest and recuperation and professional and cultural improvement.

The cost of compensated absence privileges is recognized as current year expenditure in the General Fund when leave is actually taken, or when employees or their heirs are paid for accrued leave upon retirement or death.

GASB Statement No. 101, Compensated Absences, requires accrual of a liability for compensated absences that has not been used if all of the following are true:

1. The leave is attributable to services already rendered.
2. The leave accumulates.
3. The leave is more likely than not to be used for time off or otherwise paid in cash or settled in noncash means.

The School Board has recorded the following liabilities, including the salary-related benefits associated with the payment of compensated absences as of June 30, 2025:

1. Vacation leave accrued up to 40 days which is estimated to be more likely than not to be paid.
2. Sick leave up to 25 days for those employees vested in the pension plans and for nonvested employees the estimated percentage that is more likely than not to be paid.
3. Applicable percentages of Medicare.

The School Board does not have any employees currently on sabbatical leave.

In the government-wide financial statements, the total compensated absences liability is recorded as an expense and a long-term obligation. A current liability is recorded for the estimated leave taken in a year.

k. Pension Plans

The School Board is a participating employer in three defined benefit pension plans (plans) as described in Note 8. For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of each of the plans, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by each of the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments have been reported at fair value within each plan.

l. Sales, Use and Property Taxes

The West Feliciana Parish School Board receives a three percent sales tax dedicated for salaries and related benefits and for maintaining and operating the public schools within the Parish.

The School Board is authorized to collect one percent sales and use tax levied by the West Feliciana Parish Government and the Town of St. Francisville for all sales within the incorporated area of the Town of St. Francisville. The additional two percent sales and use tax is levied by the West Feliciana Parish Government for all sales outside the incorporated area of the Town of St. Francisville.

Ad valorem taxes are collected by the West Feliciana Parish Sheriff's Office and remitted to the School Board on a monthly basis. Values are established by the West Feliciana Parish Assessor's Office each year.

Ad valorem taxes are assessed and levied on a calendar year basis, based on the assessed value on January 1 of the assessment year. However, before taxes can be levied, the tax rolls must be submitted to the State Tax Commission for approval. Taxes are due and payable by November 15. An enforceable lien attaches on the property as of November 15. As of December 31, taxes become delinquent and interest and penalty accrue. Taxes are generally collected in December, January, February and March of the fiscal year.

m. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities to the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

n. Inter-fund transactions

During the course of normal operations, the School Board has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets and service debt. The accompanying fund financial statements generally reflect such transactions as operating transfers.

o. Net Position of Government-Wide Financial Statements

Equity is classified as net position and displayed in three components:

1. *Net invested in capital assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced generally by the outstanding balances of any bonds, mortgages, notes deferred charged on refunding, or other borrowings accounts payable associated with the capital assets, and unspent debt proceeds that are attributable to the acquisition, construction, or improvement of those assets.
2. *Restricted net position* – Consists of net position with constraints placed on the use either by:
 - a. External groups such as creditors, grantors, contributors, or laws or regulations of other governments, or
 - b. Law through constitutional provisions or enabling legislation.
3. *Unrestricted net position* – All other net positions that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

p. Fund Equity of Fund Financial Statements

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

Nonspendable – represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.

Spendable

Restricted – represents balances where constraints have been established by parties outside the School Board or imposed by law through constitutional provisions or enabling legislation.

Committed – represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the School Board’s highest level of decision-making authority.

Assigned – represents balances that are constrained by the School Board’s or its designee’s intent to be used for specific purposes, but are not restricted nor committed.

Unassigned – represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the general fund.

When expenditures are incurred for the purposes for which both restricted and unrestricted amounts are available, the School Board reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for purposes for which committed, assigned, and unassigned amounts are available, the School Board reduces committed amounts first, followed by assigned amounts and then unassigned amounts.

1. Summary of Significant Accounting Policies (continued)

q. Current Year Adoption of New Accounting Standards

The School Board implemented GASB Statement 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. The objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The adoption of this standard did not significantly impact to these financial statements.

The School Board implemented GASB Statement 102, *Certain Risk Disclosures*. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If a government determines that those criteria for disclosure have been met for a concentration or constraint, it should disclose information in notes to financial statements in sufficient detail to enable users of financial statements to understand the nature of the circumstances disclosed and the government's vulnerability to the risk of a substantial impact. The adoption of this standard did not significantly impact to these financial statements.

2. Ad Valorem Taxes

Ad valorem (property) taxes were levied for the fiscal year 2025 by the School Board on September 30, 2024 based on the assessed valuation of property as of January 1, 2024. These taxes become due and payable on November 15 of each year and become delinquent after December 31 of the year levied.

Total assessed value was \$487,566,312 in calendar year 2024. Louisiana state law exempts the first \$75,000 of assessed value of a taxpayer's primary residence from parish property taxes. This homestead exemption was \$19,381,833 of the assessed value in calendar year 2024.

The following is a summary of authorized and levied parish-wide ad valorem taxes collected during the fiscal year ended June 30, 2025:

	Authorized Millage	Levied Millage	Expiration Date
Constitutional School Tax	5.00	4.46	N/A
Special	14.75	14.75	2028
General Fund	3.75	3.75	2031

3. Sales Taxes

4. Cash, Deposits, and Investments

Deposits

The carrying amount of the School Board's deposits with financial institutions was \$4,081,218 and the bank balances were \$5,931,797. Custodial credit risk is the risk that in the event of a financial institution failure, the School System's deposits may not be returned to them. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent financial institution. As of June 30, 2025, the School Board's deposits were not exposed to custodial credit risk. Securities that may be pledged as collateral consist of obligations of the U.S. Government and its agencies, obligations of the State of Louisiana and its municipalities and school districts.

Investments

As of June 30, 2025, the Board had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>
Investments measured at the net asset value (NAV)	
External investment pool	<u>\$ 15,098,324</u>

The \$15,098,324 in investments is invested in LAMP. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33.2955.

- Credit risk: LAMP is rated AAAm by Standard & Poor's.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.
- Concentration of credit risk: The School Board does not have a limit on the amount the School Board may invest in one issuer. One hundred percent of the School Board's investments are in LAMP funds.
- Foreign currency risk: Not applicable. LAMP complies with the provisions of Louisiana Law concerning permissible investments for municipalities, parishes and other political subdivisions set forth in La R.S. 33:2955 and the investment policy does not provide for investment in foreign obligations.

The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and board of directors. LAMP is not registered with the SEC as an investment company.

An annual audit of LAMP is conducted by an independent certified public accountant. The Legislative Auditor of the State of Louisiana has full access to the records of LAMP. LAMP issues financial reports which can be obtained by writing: LAMP, Inc., 228 St. Charles Avenue, Suite 1123, New Orleans, LA 70130.

At June 30, 2025, the total assessed value of taxable property for the parish was \$487,566,312, which resulted in a statutory limit of \$243,783,156.

The School Board is a lessee under noncancellable lease agreements for copiers and school buses used for administration activities and transportation of students. These leases range in terms from 3 to 5 years, with various renewal options available, and payment terms vary in both frequency and amounts. In accordance with GASB Statement No. 87, *Leases*, a liability has been recorded for the present value of lease payments over the lease term for each agreement. As of June 30, 2025, the combined value of the lease liabilities was \$920,496. In determining the present values, discount rates of 2.85% to 3.07% were applied, depending on the duration of the lease agreement and other factors. The recorded value of the right-to-use assets as of the end of the current fiscal year was \$1,714,775 and accumulated amortization of these assets was \$867,663. The future principal and interest lease payments as of June 30, 2025, are as follows:

7. Long-term Liabilities (continued)

The lease agreements have non-appropriation exculpatory clauses that allow lease cancellation if the School Board does not make an appropriation for its continuation during any future fiscal period. However, such clauses were disregarded in determining the term of the lease for the purpose of measuring the lease assets and liabilities.

The following is a schedule of the recorded amounts and accumulated amortization of leased assets by underlying asset class:

Additions and deductions to compensated absences payable are disclosed on a net basis.

The claims and judgments will be liquidated from the General Fund.

8. Retirement Systems

The School Board (the School Board) is a participating employer in three cost-sharing defined benefit pension plans. These plans are administered by three public employee retirement systems, the Teachers' Retirement System of Louisiana (TRSL), the Louisiana School Employees' Retirement System (LSERS) and the Louisiana State Employees' Retirement System (LASERS). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of these plans to the State Legislature. Each system is administered by a separate board of trustees and all Systems are component units of the State of Louisiana.

Each of the Systems issues an annual publicly available financial report that includes financial statements and required supplementary information for the system. These reports may be obtained by writing, calling or downloading the reports as follows:

Plan Descriptions:

Teachers' Retirement System of Louisiana (TRSL) is the administrator of a cost-sharing defined benefit pension plan. The plan provides retirement, disability, and survivor benefits to employees who meet the legal definition of a "teacher" as provided for in LRS 11:701. Eligibility for retirement benefits and the calculation of retirement benefits are provided for in LRS 11:761.

Louisiana School Employees' Retirement System (LSERS) is the administrator of a cost-sharing defined benefit pension plan. The plan provides retirement, disability, and survivor benefits to school employees as defined in LRS 11:1002. Eligibility for retirement benefits and the computation of retirement benefits are provided for in LRS 11:1141.

Louisiana State Employees' Retirement System (LASERS) is the administrator of a cost-sharing defined benefit pension plan. Cost of Living Adjustments

The pension plans in which the School System participates have the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. COLAs may be granted to these systems, (TRSL, LSERS, and LASERS) if approved with a two-thirds vote of both houses of the Legislature, provided the plan meets certain statutory criteria related to funded status and interest earnings.

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. In accordance with state statute, TRSL receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations.

Contributions to the plans are required and determined by State statute (which may be amended) and are expressed as a percentage of covered payroll. The contribution rates in effect for the year ended June 30, 2025, for the School Board and covered employees were as follows:

	<u>School Board</u>	<u>Employees</u>
Teachers' Retirement System:		
Regular Plan	21.51%	8.00%

School Employees' Retirement System	25.80%	7.50%- 8.00%
State Employees' Retirement System	34.74%	7.50% - 8.00%

The contributions made to the Systems for the past three fiscal years, which equaled the required contributions for each of these years, were as follows:

	<u>2025</u>	<u>2024</u>	<u>2023</u>
Teachers' Retirement System	\$ 4,450,084	\$ 4,835,373	\$ 4,862,297

Actuarial Assumptions (continued)

The following schedule list the methods used by each of the retirement systems in determining the long term rate of return on pension plan investments:

TRSL	LSERS	LASERS
The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting long-term geometric nominal expected rate of return was 8.68% for 2024.	The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward-looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Discount Rate

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate used to measure the total pension liability for TRSL, LSERS and LASERS was 7.25%, 6.80% and 7.25%, respectively for the year ended June 30, 2024.

Plan Description

The West Feliciana Parish School Board (the School Board) provides certain continuing health care and life insurance benefits for its retired employees. The West Feliciana Parish School Board's OPEB plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the School Board. The School Board has the authority to establish and/or amend the obligation of the employer, employees and retirees as provided by Louisiana Revised Statute Title 17 Sections 1221 through 1224. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board (GASB) Statement No. 75.

Benefits Provided

Medical benefits are provided through an insured comprehensive medical plan and insured life insurance programs to employees upon actual retirement. Employees are covered by the Teachers' Retirement System of Louisiana (TRSL), whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; or, age 65 and 20 years of service.

Basic life insurance of \$5,000 and additional life insurance coverage in varying amounts are provided to retirees. The employer pays for 50% of the basic coverage and 50% of the additional coverage (maximum of \$35,000 additional coverage). The rates used for basic coverage are blended for all active and retired combined, while unblended rates are used for the additional coverage. Since GASB 74/75 requires the use of "unblended" rates, the valuation used a mortality table to determine the "unblended" rates for the basic coverage so as to reproduce the composite blended rate overall as the rate structure to calculate the actuarial valuation results for life insurance. All of the assumptions used for the valuation of the medical benefits have been used except for the trend assumption; zero trend was used for life insurance.

Total OPEB Liability

The School Board's total OPEB liability of \$21,525,844 was measured as of June 30, 2025 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the June 30, 2025 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	4.0%, including inflation
Prior discount rate	3.93%, annually (beginning of year to determine ADC)
Discount rate	5.20%, annually (as of end of measurement date)
Healthcare cost trend rates	Getzen Model, initial rate of 5.5%

The discount rate was based on the average of the Bond Buyers' 20 Year General Obligation municipal bond index on the measurement dates.

Mortality rates were based on the RP-2014 Table modified according to TRSL experience study.

The actuarial assumptions used in the June 30, 2025 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2025.

11. Contingencies

Litigation

The School Board is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the School Board's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the School Board. An accrual of \$150,000 has been made within the statement of net position to cover any potential exposure.

Grant Disallowances

The School Board participates in a number of state and federally assisted grant programs. The programs are subject to audits under the single audit approach as well as audits conducted by the Louisiana and U.S. Department of Education. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under the terms of the grants.

15. Tax Revenues Abated

The Louisiana Industrial Ad Valorem Tax Exemption program (Louisiana Administrative Code, Title 13, Chapter 5) is a state incentive program which abates, up to ten years, local ad valorem taxes on a manufacturer's new investment and annual capitalized additions related to the manufacturing site. Applications to exempt qualified property for five years are approved by the Board of Commerce and Industry. The exemption may be renewed for an additional five years. For the fiscal year ending June 30, 2025, approximately \$491,000 in West Feliciana Parish School Board ad valorem tax revenues were abated by the state of Louisiana through the Louisiana Industrial Ad Valorem Tax Exemption program.

16. Appropriations to Charter Schools

Appropriations to Type 2 Charter Schools during the year ended June 30, 2025 were as follows:

Advantage Charter Academy	\$ 13,251
Louisiana Virtual Charter Academy	23,852
University View Academy	<u>167,095</u>
Grant total	<u>\$ 204,198</u>

17. Commitments

The School Board had construction commitments of approximately \$1,975,000 related to Construction Fund projects at June 30, 2025.

18. Fund Deficit

As of the end of the fiscal year, the Julius Freyhan Fund reported a deficit fund balance of \$255,107. This deficit is primarily attributable to the timing of capital outlay expenditures incurred in advance of anticipated funding sources, including interfund transfers and grant reimbursements.

The General Fund has sufficient resources and is legally authorized to provide financial support to the Julius Freyhan Fund if necessary. Management anticipates that the deficit will be eliminated through future transfers from the General Fund and/or proceeds from external funding sources.

19. Proceeds From Insurance/Sale of Assets

In April 2024, the School Board sustained tornado damage to its buildings and property. During the 2025 fiscal period, the School Board settled an insurance claim for approximately \$1.1 million related to the storm. The damage was to assets that had minimal net book value. Therefore, the School Board did not record an impairment related to these assets.

In 2025, the School Board had two separate sales for parcels of its land for approximately \$853,000.

20. Current Accounting Standards Scheduled to be Implemented

Following is a summary of the accounting standards adopted by the Governmental Accounting Standards Board (GASB) that are scheduled to be implemented in the future that may affect the School Board's financial report:

The Governmental Accounting Standards Board issued GASB Statement 103, *Financial Reporting Model Improvements*. This Statement requires changes to key components of the financial reporting model including Management's Discussion and Analysis, presentation of major component units, how unusual or infrequent items are reported, proprietary fund enhancements, and budgetary comparison information. The School Board will include the requirements of this standard, as applicable, in its June 30, 2026 financial statement.

The Governmental Accounting Standards Board issued GASB Statement 104, *Disclosure of Certain Capital Assets*. This Statement requires certain types of capital assets to be disclosed separately in the capital asset note disclosures required by Statement No. 34. These assets include lease assets, Public-Public and Public-Private Partnerships and Availability Payment Arrangements, and subscription-based information technology arrangements. This statement also requires additional disclosures for capital assets held for sale. The School Board will include the requirements of this standard, as applicable, in its June 30, 2026 financial statement.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Members of the West Feliciana
Parish School Board
St. Francisville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Feliciana Parish School Board (the School Board), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated December 15, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Members of the West Feliciana
Parish School Board
St. Francisville, Louisiana

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited West Feliciana Parish School Board's (the School Board) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the School Board's major federal program for the year ended June 30, 2025. The School Board's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the School Board, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2025.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements* for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the School Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School Board's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School Board's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the School Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the School Board for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements. We issued our report thereon dated December 15, 2025, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards and the related notes is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and the related notes is fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Members of the
West Feliciana Parish School Board,
the Louisiana Department of Education,
and the Louisiana Legislative Auditor

We have performed the procedures enumerated below on the performance and statistical data accompanying the annual financial statements of the West Feliciana Parish School Board for the fiscal year ended June 30, 2025. Management of the West Feliciana Parish School Board is responsible for its performance and statistical data.

The West Feliciana Parish School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of performing the specified procedures on the performance and statistical data accompanying the annual financial statements and report our findings to assist the specified parties in its compliance with Louisiana Revised Statute 24:514 I. The Louisiana Legislative Auditor ("LLA") and the Louisiana Department of Education ("LDOE") have agreed to and acknowledged that the procedures performed are appropriate for their purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a sample of 25 transactions, reviewed supporting documentation, and observed that the sampled expenditures/revenues are classified within the below category corresponding to the type of expenditure/revenue identified on the supporting documentation:
 - Total General Fund Instructional Expenditures
 - Total General Fund Equipment Expenditures
 - Total Local Taxation Revenue
 - Total Local Earnings on Investment in Real Property
 - Total State Revenue in Lieu of Taxes
 - Nonpublic Textbook Revenue
 - Nonpublic Transportation Revenue

No exceptions noted.

Class Size Characteristics (Schedule 2)

2. We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced the number of students per class for a sample of 10 classes to the October 1 roll books for those classes and observed that the number of students per class agreed with its classification on the schedule.

No exceptions noted.

Education Levels / Experience of Public School Staff (NO SCHEDULE)

3. We obtained October 1st PEP data submitted to the Department of Education (or equivalent listing prepared by management), including full-time teachers, principals, and assistant principals by classification, as well as their level of education and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, obtained each individual's personnel file, and observed that each individual's education level and experience as documented in the personnel file agrees to the classification on the PEP data or equivalent listing prepared by management.

No exceptions noted.

Public-School Staff Data: Average Salaries (NO SCHEDULE)

4. We obtained June 30th PEP data submitted to the Department of Education (or equivalent listing provided by management) of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, obtained each individual's personnel file, and observed that each individual's salary, extra compensation, and full-time equivalents as documented in the personnel file supports the information on the PEP data (or equivalent listing prepared by management).

No exceptions noted.

We were engaged by the West Feliciana Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the AICPA, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the West Feliciana Parish School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

The purpose of this report is intended solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the West Feliciana Parish School Board, as required by Louisiana Revised Statute 24:514.I, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
