Independent Accountants' Review Report

To the Board of Commissioners
Webster Parish Fire Protection District No. 9
Shongaloo, Louisiana

We have reviewed the financial statements of the governmental activities and major fund of the Webster Parish Fire Protection District No. 9, a component unit of the Webster Parish Police Jury, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management of the Webster Parish Fire Protection District No. 9. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Webster Parish Fire Protection District No. 9 and to meet our ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountants' Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplemental Information

Management has omitted the management's discussion and analysis and the budgetary comparison information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The results of our review of the basic financial statements are not affected by this missing information.

Supplementary Information

The supplementary information included in the accompanying Schedule of Per Diem Paid Commissioners and Schedule of Compensation, Benefits, and Other Payments to Agency Head on pages 18-19 are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplementary information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in our review of the basic financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on it.

Notes to Financial Statements
December 31, 2024

INTRODUCTION

The Webster Parish Fire Protection District No. 9 (the District) was created by the Webster Parish Police Jury in 1989 by a resolution to purchase and maintain fire equipment and to provide fire protection for the people of Webster Parish Fire Protection District No. 9. The District is governed by a board of commissioners consisting of 5 members. All members are appointed by the Webster Parish Police Jury.

(1) Summary of Significant Accounting Policies

The Webster Parish Fire Protection District No. 9's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Webster Parish Fire Protection District No. 9 are discussed below.

A. Reporting Entity

Because the Webster Parish Police Jury appoints the members of the governing board and because the District operates within the geographical boundaries of Webster Parish, the District was determined to be a component unit of the Webster Parish Police Jury, the governing body of the parish and the governmental body with oversight responsibility. This report includes only funds which are maintained by the District and does not present information on the Webster Parish Police Jury, the general government service provided by that governmental unit, or the other governmental units that comprise the Webster Parish Police Jury.

B. Basic Financial Statements – Government-Wide Statements

The Webster Parish Fire Protection District No. 9's basic financial statements include both government-wide (reporting the funds maintained by the Webster Parish Fire Protection District No. 9 as a whole) and fund financial statements (reporting the Webster Parish Fire Protection District No. 9's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Webster Parish Fire Protection District No. 9's general fund is classified as governmental activities. The Webster Parish Fire Protection District No. 9 does not have any business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Webster Parish Fire Protection District No. 9's net position is reported in two parts – net investment in capital assets, and unrestricted net position.

(Continued)

Shongaloo, Louisiana
Notes to Financial Statements
December 31, 2024
(Continued)

The government-wide Statement of Activities reports both the gross and net cost of each of the Webster Parish Fire Protection District No. 9's functions. The functions are supported by program revenues and general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, which must be directly associated with the function. There were no program revenues for the year ended December 31, 2024. The net costs (by function) are normally covered by general revenues.

This government-wide focus is more on the sustainability of the Webster Parish Fire Protection District No. 9 as an entity and the change in the Webster Parish Fire Protection District No. 9's net position resulting from the current year's activities.

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the Webster Parish Fire Protection District No. 9 are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Webster Parish Fire Protection District No. 9:

Governmental Funds – the focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Webster Parish Fire Protection District No. 9:

- a. General fund is the general operating fund of the Webster Parish Fire Protection District No. 9. It is used to account for all financial resources except those required to be accounted for in another fund.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District's general fund was determined to be a major fund.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

1. Accrual:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

(Continued)

Webster Parish Fire Protection District No. 9
Shongaloo, Louisiana
Notes to Financial Statements
December 31, 2024
(Continued)

Revenues of the Webster Parish Fire Protection District No. 9 consist principally of property taxes, intergovernmental revenues - fire insurance rebate and interest income. Property taxes are recorded in the year for which the taxes are levied. Property taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. Because the 2024 tax levy is intended to fund the 2025 fiscal year, the levy has been recorded as a receivable and deferred inflows of resources. Interest income is recorded when earned. Intergovernmental revenues are recorded when received because they are generally not measurable until actually received.

2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

E. Budgets

The district uses the following budget practices:

1. A preliminary budget for the ensuing year is prepared by the Fire Chief and Officers of the District prior to December 31 of each year and is made available for public inspection at least fifteen days prior to the beginning of each fiscal year.
2. After completion of all action necessary to finalize and implement the budget, the budget is adopted by the Board of Commissioners.
3. All budgetary appropriations lapse at the end of each fiscal year.
4. The budget is established and controlled by the board of commissioners at the object level of expenditure. All changes in the budget must be approved by the board.
5. The budget is adopted on a cash basis for the general fund.

The District did not adopt a budget for 2024.

F. Cash, Cash Equivalents, and Investments

Cash includes amounts in petty cash, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

(Continued)

Shongaloo, Louisiana
Notes to Financial Statements
December 31, 2024
(Continued)

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are carried at fair value.

G. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,500 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and Improvements	10 – 30 years
Equipment	5 – 15 years
Vehicles	5 – 30 years

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the District has no transactions that meet the definition of deferred outflows of resources.

The District's governmental activities and governmental fund report a separate section for *deferred inflows of resources*. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that met this definition and qualifies for reporting in this category. Accordingly, the item "unavailable revenue" is reported in the governmental fund balance sheet and statement of net position. The District reports unavailable revenue from one source: ad valorem taxes. This amount is deferred and recognized as an inflow of resources in the period for which the amounts were levied and budgeted.

I. Compensated Absences

The District had no liability for compensated absences at December 31, 2024.

J. Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

K. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation adopted by the district or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

L. Fund Balances

GASB has defined the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

1. Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form, such as inventory or prepaid expenses, or (b) legally or contractually required to be maintained intact, such as a trust that must be retained in perpetuity.
2. Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
3. Committed fund balances include amounts that can be used only for the specific purposes as a result of constraints imposed by the District's board of commissioners (the District's highest level of decision making authority). Committed amounts cannot be used for any other purpose unless the District's board of commissioners removes those constraints by taking the same type of action (i.e. legislation, resolution, or ordinance).
4. Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The District's board of commissioners have the authority to assign amounts to be used for specific purposes.
5. Unassigned fund balances are the residual classification for the District's general fund and include all spendable amounts not contained in the other classifications.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

M. Prepaid Items

Certain payments to vendors reflect costs applicable to future periods and are reported as prepaid expenses in the government-wide financial statements.

N. Fair Value Measurements

Generally accepted accounting principles require disclosure to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1 inputs – The valuation is based on quoted market prices for identical assets or liabilities traded in active markets;

Level 2 inputs – The valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability;

Level 3 inputs – The valuation is determined by using the best information available under the circumstances and might include the government's own data but should adjust those data if (a) reasonably available information indicates that other market participants would use different data or (b) there is something particular to the government that is not available to other market participants.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on lowest level of any input that is significant to the fair value measurement.

(2) Levied Taxes

The following is a summary of authorized and levied ad valorem taxes:

	Authorized Millage	Levied Millage	Expiration Date
Operating	10.95	10.95	2028
Operating	11.41	11.41	2033

On November 18, 2023, a special election was held in the District whereby the voters approved the District to continue to levy an 11.41 mills tax for a period of 10 years beginning in the year 2024 and ending with the year 2033.

(4) Cash, Cash Equivalents, and Investments

At December 31, 2024, the District had cash, cash equivalents, and investments (book balances), totaling \$353,399 as detailed below.

Cash and Cash Equivalents

The District had cash and cash equivalents at December 31, 2024 (book balances) totaling \$316,658 in interest bearing demand deposits and demand deposit accounts. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Investments

Included in investments at December 31, 2024, are certificates of deposits totaling \$36,741 with maturities of 90 days or more. The investments are presented in the financial statements at fair value using level 2 fair value measure for certificates of deposit.

Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of December 31, 2024, \$69,333 of the District's bank balances totaling \$356,074 were exposed to custodial credit risk as follows:

Uninsured and collateral held by the pledging bank's
trust department not in the District's name:

Cash and cash equivalents	<u>\$ 69,333</u>
---------------------------	------------------

(5) Risk Management

The District purchases commercial insurance to provide workers compensation coverage and general liability and property insurance. There were no significant reductions in insurance coverage from the prior year.

(6) Subsequent Events

Subsequent events have been evaluated through June 26, 2025, the date the financial statements were available to be issued.

(7) Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses at December 31, 2024, consisted of the following:

<u>Class of Payable</u>	<u>Governmental Activities</u>
Accounts payable	<u>\$ 1,717</u>
Total – fund statements	<u>1,717</u>
Accrued interest payable	<u>996</u>
Total – government-wide financial statements	<u>\$ 2,713</u>

Independent Accountants' Report On Applying Agreed-Upon Procedures

The Board of Commissioners
Webster Parish Fire Protection District No. 9
and the Louisiana Legislative Auditor

We have performed the procedures enumerated below on the Webster Parish Fire Protection District No. 9's (the District) compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the year ended December 31, 2024, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The District's management is responsible for its financial records and compliance with applicable laws and regulations.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the District's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the year ended December 31, 2024. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for material and supplies exceeding \$60,000, or public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 38:221-2286 (the public bid law) and report whether the expenditures were made in accordance with these laws.

The were no expenditures made during the year ended December 31, 2024 exceeding \$60,000 for materials and supplies or \$250,000 for public works.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics).

The District provided us with the required list.

3. Obtain from management a listing of all employees paid during the fiscal year.

The District provided us with the required list.

4. Report whether any employees names appear on both lists obtained included in procedures 2 and 3.

None of the employees included on the list of employees provided by the District [agreed-upon procedure (3)] appeared on the list provided by the District in agreed-upon procedure (2).

5. Obtain a list of all disbursements made during the year and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

The District provided the listings. No vendors appeared on both lists.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Exception: The District did not adopt a budget for 2024.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book and report whether there are any exceptions.

Exception: The District did not adopt a budget for 2024.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues fail to meet budgeted revenues by 5% or more or if actual expenditures exceed budgeted amounts by 5% or more.

Exception: The District did not adopt a budget for 2024.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select 6 disbursements and obtain documentation from management for those disbursements. Compare the selected disbursements to the supporting documentation, and:

- (a) report whether the six disbursements agree to the amount and payee in the supporting documentation.

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- (b) report whether the six disbursements are coded to the correct fund and general ledger account;

All six disbursements were properly coded to the correct fund and general ledger account.

- (c) report whether the six disbursements were approved in accordance with management's policies and procedures.

Inspection of documentation supporting each of the six selected disbursements indicated the six disbursements were approved in accordance with management's policies and procedures.

Meetings

10. Obtain evidence from management indicating that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through LSA-RS 42:13 (the open meetings law); and report whether there are any exceptions.

The District posted its meetings and agendas as required by LSA-RS 42:11 through 42:28 (the open meetings law). No exceptions noted.

Debt

11. Obtain bank deposits for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We inspected copies of all bank deposits slips for the fiscal year and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

A reading of the minutes and inspection of payroll disbursements of the District for the year ended December 31, 2024 indicated no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the District provided for a timely report in accordance with R.S. 24:513.

The District provided for a timely report in accordance with R.S. 24:513.

14. Inquire of management and report whether the District entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A (2); and that were subject to the public bid law (R.S. 38:2211. et seq.), while the District was not in compliance with R.S. 24:513 (the audit law).

Not applicable. The District was in compliance with R.S. 24:513.

Prior Comments and Recommendations

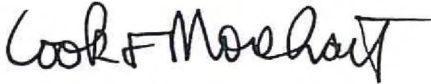

15. Obtain and report management's representation as to whether any prior year suggestions, recommendations, and/or comments have been resolved.

There was one(1) prior year finding for the year ended December 31, 2023 in regards to the 2023 budget. See schedule of prior year findings.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagement contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the District's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
