INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Board of Commissioners of
Acadia Parish Convention and
Visitors Commission
Crowley, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and each major fund of the Acadia Parish Convention and Visitors Commission (a component unit of the Acadia Parish Police Jury) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountants' Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America required that the accompanying budgetary comparison schedule and notes to the schedule on pages 21 and 22 be presented to supplement the basic financial statements. Such information is presented for purposes of additional analysis and, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic or historical context. Management has omitted management's discussion and analysis that the Governmental Accounting Standards Board requires to be presented to supplement the basic financial statements. Such missing information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information is the responsibility of management. We have not audited, reviewed or compiled the required supplementary information and we do not express an opinion, conclusion, nor provide any assurance on it.

Other Matters

The schedule of compensation, benefits and other payments to agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The schedule of compensation, benefits and other payments to agency head has been subjected to the review procedures applied in the accountants' review of the basic financial statements and we are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.

In accordance with the Louisiana Governmental Audit Guide and the provisions of State Law, we have issued our report, dated April 30, 2018, on the results of our agreed-upon procedures.

ACADIA PARISH CONVENTION AND VISITORS COMMISSION

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The financial statements of the Acadia Parish Convention and Visitors Commission (the "Commission") have been prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies of the Commission are described below.

Reporting entity:

The Commission, a component unit of Acadia Parish Police Jury, was created in 1989 by an ordinance of the Acadia Parish Police Jury. It is governed by a Board of Commissioners appointed by the Acadia Parish Police Jury. The accompanying financial statements present information only on the funds maintained by the Commission.

Basis of presentation:

The Commission's basic financial statements consist of the government-wide statements and the fund financial statements. The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units.

Government-wide financial statements -

The government-wide financial statements include the statement of net position and the statement of activities of the Commission. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

In the government-wide statement of net position, the governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Commission's net position is reported in three parts – net investment in capital assets, restricted and unrestricted.

The government-wide statement of activities reports both the gross and net cost of each of the Commission's functions. The functions are also supported by general government revenues (certain intergovernmental revenues, interest income, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating, and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while capital grants include capital-specific grants. The Commission had no program or grant revenues for the year ended December 31, 2017.

The Commission reports all direct expenses by function in the government-wide statement of activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is included as a direct expense. The net cost (by function) is normally covered by general revenue (intergovernmental revenues, interest income, etc.).

NOTES TO FINANCIAL STATEMENTS

This government-wide focus is more on the sustainability of the Commission as an entity and the change in the Commission's net position resulting from the current year's activities.

Fund financial statements -

The fund financial statements provide information about the Commission's funds. The emphasis of the fund financial statements is on major governmental funds.

The Commission reports the following major governmental funds:

General Fund - This fund accounts for all operating activities of the Commission.

Debt Service Fund - This fund is used to account for the accumulation of money to service the Certificates of Indebtedness outstanding.

Basis of accounting:

Government-wide financial statements -

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the related cash flows takes place. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include taxes, grants, and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Fund financial statements -

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. All other receivables collected within 60 days after year-end are considered available and recognized as revenue of the current year.

Expenditures are recorded when the related fund liability is incurred, except for compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

Cash:

Cash includes amounts in demand and savings deposits.

Investments:

State statutes authorize the Commission to invest in United States bonds, treasury notes, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

NOTES TO FINANCIAL STATEMENTS

The Commission did not have any investments as of December 31, 2017.

Custodial credit risk:

Custodial credit risk is the risk that in the event of a bank failure, the Commission's deposits may not be returned to it. The Commission's policy to ensure there is no exposure to this risk is to require each financial institution to pledge their own securities to cover any amount in excess of Federal Depository Insurance Coverage. These securities must be held in the Commission's name. The Commission had no custodial credit risk related to its deposits at December 31, 2017.

Capital assets:

The accounting treatment over property and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide statements –

The Commission's property and equipment with useful lives of more than one year are stated at historical costs and comprehensively reported in the government-wide financial statements. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. The range of estimated useful lives by type of assets is as follows:

	<u>Years</u>
Automobile	5
Building improvements	5 - 20
Buildings	20
Furniture and equipment	3 - 5
Land improvements	20 - 30

Fund financial statements –

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Long-term debt:

The accounting treatment of long-term debt depends on whether it is reported in the government-wide or fund financial statements.

Government-wide financial statements -

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. Long-term debt consists of certificates of indebtedness.

NOTES TO FINANCIAL STATEMENTS

Fund financial statements -

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures.

Compensated absences:

The Commission does not have a formal policy on vacation and sick leave. Accordingly, no liability has been recorded in the financial statements.

Deferred outflows/inflows of resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenditure) until then. The Commission does not currently have any items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Commission does not currently have any items that qualify for reporting in this category.

Net position flow assumption:

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumptions must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumption:

Sometime the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumptions must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Equity classifications:

Government-wide statements –

Equity is classified as net position and displayed in three components: (1) net investment in capital assets, (2) restricted net position, and (3) unrestricted net position.

NOTES TO FINANCIAL STATEMENTS

Fund financial statements –

The Commission defines fund balance categories in accordance with GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions." The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- **Nonspendable fund balance** - amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- **Restricted fund balance** - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- **Committed fund balance** - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- **Assigned fund balance** - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- **Unassigned fund balance** - amounts that are available for any purpose; positive amounts are reported only in the general fund.

The Board of Commissioners establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Commissioners through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

Interfund transfers:

Permanent reallocation of resources between funds are classified as interfund transfers. For the purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Budgets and budgetary accounting:

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The budget is employed as a management control device during the year that assists its users in financial activity analysis. All budget appropriations lapse at year end.

Note 4. Interfund Transfers

Interfund transfers for the year ended December 31, 2017 consist of the following:

	<u>Transfer From General Fund</u>
Transfer to Debt Service Fund	\$ 69,103

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in one fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 5. Per Diem Paid to the Board of Commissioners

There was no compensation paid to Commissioners for the year ended December 31, 2017.

Note 6. Risk Management

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. With the exception of natural disasters, the Commission purchases commercial insurance to cover any claims related to these risks.

Note 1. Budgets and Budgetary Accounting

The Commission uses the following procedures in establishing the budgetary data reflected in the financial statements:

1. The Board prepares a proposed operating budget for the fiscal year commencing January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
3. The budget is employed as a management control device during the year that assists its user in financial activity analysis.

All budget appropriations lapse at year-end. The budgets presented are the originally adopted budget and the final amended budget.

Note 2. Stewardship, Compliance and Accountability

Excess of Expenditures over Appropriations. The General Fund had actual expenditures in excess of appropriations for the year of \$9,368.

SCHEDULE OF CURRENT YEAR FINDINGS AND RESPONSES

Year Ended December 31, 2017

#2017-1 – Compliance - Budget Violation

Condition: For the year ended December 31, 2017, actual expenditures at the end of the year exceeded budgeted expenditures in the General Fund by 5.15%.

Criteria: The Louisiana Local Government Budget Act requires governments to amend their budget when actual revenues fail to meet budgeted revenues or actual expenditures exceed budgeted expenditures by 5% or more in any one fund.

Cause: Un-anticipated review adjustments required additional accrual of expenditures at year end.

Effect: Not in compliance with Louisiana RS 39:1311.

Recommendation: The budget should be reviewed periodically during the year and amended as necessary to ensure compliance.

Response: Management will ensure that the budget is amended as required by the Louisiana Local Government Budget Act.

INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED-UPON PROCEDURES

To The Board of Commissioners of
Acadia Parish Convention and
Visitors Commission
Crowley, Louisiana

We have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by the management of the Acadia Parish Convention and Visitors Commission, and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about Acadia Parish Convention and Visitors Commission's compliance with certain laws and regulations during the year ended December 31, 2017, included in the accompanying Louisiana Attestation Questionnaire. Management of the Acadia Parish Convention and Visitors Commission is responsible for its financial records and compliance with applicable laws and regulations. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for materials and supplies exceeding \$30,000, or public works exceeding \$150,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2296 (the public bid law).

No expenditures were made during the year for materials and supplies exceeding \$30,000 or for public works exceeding \$150,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by management in agreed-upon procedure (3) appeared on the list provided by management in agreed-upon procedure (2).

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget. There were no amendments during the fiscal year.

6. Trace the budget adoption and amendments to the minute book.

The original budget was adopted on November 10, 2016. Amendments were not made to the original budget during the fiscal year.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5% or more or if actual expenditures exceed budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues did not fail to meet budgeted amounts by 5% or more and actual expenditures exceeded budgeted amounts by 5% or more.

Accounting and Reporting

8. Randomly select six disbursements made during the period under examination and:

- a. Trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- b. Determine if payments were properly coded to the correct fund and general ledger account; and

All six of the selected disbursements were properly coded to the correct fund and general ledger account.

- c. Determine whether payments received approval from proper authorities.

Of the six disbursements selected for testing, four had proper approval documented and two did not. The Commission's policy was to require dual signatures on all disbursements with one signature being a designated board member. During a portion of 2017, this policy was suspended, however, it has been reinstated in 2018.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1-42:13 (the open meetings law).

Management advertises and posts notices of each meeting. Management is also posting the agenda on the door of the Commission before every meeting.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected all original bank statements for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees, which may constitute bonuses, advances, or gifts.

A reading of the minutes of the Commission for the year indicated no approval for the payments noted. We inspected payroll records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

Our prior year report dated May 2, 2017 did not include any comments or unresolved matters.

We were not engaged to, and did not, perform an audit, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management and the Board of Commissioners of the Acadia Parish Convention and Visitor Commission, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
