## INDEPENDENT ACCOUNTANT'S REVIEW REPORT

The Board of Commissioners Reddell-Vidrine Water District Ville Platte, Louisiana

We have reviewed the accompanying financial statements of the business-type activity of the Reddell-Vidrine Water District, a component unit of the Evangeline Parish Police Jury, as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the Reddell-Vidrine Water District. ## NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## A. SCOPE OF ENTITY

The Reddell-Vidrine Water District of Evangeline Parish, Louisiana was created by the Evangeline Parish Police Jury on July 14, 1967, and is governed by five board members appointed by the Evangeline Parish Police Jury. The Water District was created to provide water within the District. The Water District is a component unit of the Evangeline Parish Police Jury. It is economically dependent upon the District it serves.

As the governing authority of the parish, for reporting purposes, the Evangeline Parish Police Jury is the financial reporting entity for Evangeline Parish.

The financial reporting entity consists of (a) the primary government (Parish Police Jury) (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Evangeline Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and
  - a. The ability of the Parish Police Jury to impose its will on that organization and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Parish Police Jury.
- 2. Organizations for which the Parish Police Jury does not appoint a voting majority but are fiscally dependent on the Parish Police Jury.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the Parish Police Jury appoints a voting majority of the Water District's governing body and the Parish Police Jury has the ability to impose its will on the Water District, the Water District was determined to be a component unit of the Evangeline Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the Water District and do not present information on the Parish Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

## NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## B. BASIS OF PRESENTATION

The accounts of Reddell-Vidrine Water District are organized in one fund, which is considered a separate accounting entity. The operations of the fund are accounted for by self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenses. The fund presented in the financial statements is described as follows:

## Proprietary Fund

Proprietary funds account for activities for which a fee is charged to external users for goods and services.

## C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

## Measurement Focus

The Proprietary Fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or non-current) associated with their activities are reported. Proprietary fund equity is classified as net assets.

## **Basis of Accounting**

Business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Billed and unbilled utility receivables are recorded at year-end.

#### Basis of Accounting

Purchases of operating supplies are regarded as expenditures at the time purchased and inventories of such supplies (if any) are not recorded as assets at the close of the fiscal year, unless material.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principle operating revenues for proprietary funds are charges to customers for sales or services. Principle operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

## NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## D. INVESTMENTS

Investments are recorded at cost, which approximates market.

Louisiana statutes authorize Reddell-Vidrine Water District to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, the Louisiana Asset Management Pool, or any other federally insured investment.

## E. CAPITAL ASSETS

Capital assets (including infrastructure assets), which constitute assets of the Proprietary Fund, are recorded at cost and depreciation is computed under the straight-line method and the modified accelerated cost recovery method. The service lives by type of asset are as follows:

Water system	50 years
Building and equipment	5-50 years

## F. BUDGET

Reddell-Vidrine Water District submits a yearly budget to the United States Department of Agriculture – Rural Development for approval. The Water District is not required to adopt a budget under state law.

#### G. STATEMENT OF CASH FLOWS

For purposes of reporting cash flows, all highly liquid investments with an initial maturity of three months or less are considered to be cash equivalents.

#### H. ENCUMBRANCES

Reddell-Vidrine Water District does not employ the encumbrance system of accounting.

#### I. <u>COMPENSATED ABSENCES</u>

Vacation and sick leave cannot be accumulated. Employees do not get paid for unused vacation or sick leave.

## J. <u>RETIREMENT</u>

The employees of the District contribute to a Simple Plan. See NOTE (7).

#### K. BAD DEBTS

Uncollectable amounts due for customers receivables are recognized as bad debts through the adjustment of an allowance account to the balance of the individual accounts over 90 days old and deemed uncollectable at the end of the fiscal year.

## NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## L. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## M. EQUITY CLASSIFICATION

Equity is classified as net position and displayed in three components:

- 1. <u>Net investment in capital assets</u> Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- 2. <u>Restricted net position</u> Consist of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- 3. <u>Unrestricted net position</u> All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Water District's policy to use restricted resources first, then unrestricted resources as they are needed.

## NOTE (2) - <u>CASH</u>

At December 31, 2020 and 2019 the bank balances of cash in checking accounts and savings accounts were \$306,712 and \$275,593, respectively. As of December 31, 2020, the District's total bank balances were fully insured and therefore not exposed to custodial credit risk.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting balances) must be secured by federal deposit insurance or similar federal securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank.

The District does not have a policy for custodial credit risk.

## REDDELL-VIDRINE WATER DISTRICT VILLE PLATTE, LOUISIANA SCHEDULE OF CURRENT YEAR FINDINGS FOR THE YEAR ENDED DECEMBER 31, 2020

## SECTION I - INTERNAL CONTROL AND COMPLIANCE MATERIAL TO THE FINANCIAL STATEMENTS

## 2020-1 Inadequate Segregation of Accounting Functions

Condition: Due to the small number of employees, The Reddell-Vidrine Water District does not have adequate segregation of functions within the accounting system. A system of internal control procedures contemplates a segregation of duties so that no one individual handles a transaction from its inception to its completion.

Criteria: The Reddell-Vidrine Water District should have adequate segregation of duties over accounting functions.

Cause: There are a small number of employees at Reddell-Vidrine Water District performing the daily operating activities.

Effect: Accounting functions are not segregated, and it is important that you are aware of this condition because errors or fraud could occur and not be detected.

Recommendation: A system of internal control procedures should be established in order to mitigate the problem of having such a small number of employees performing the daily operating activities.

Management's Response: Management has determined that it is not cost effective to achieve complete segregation of duties within the accounting department. No cash is collected, and a bookkeeping firm performs all bookkeeping functions. No plan is considered necessary.
