INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Washington Parish Fire Protection District No. 6
Board of Commissioners

I have reviewed the accompanying financial statements of the governmental activities of Washington Parish Fire Protection District No. 6, a component unit of the Parish of Washington, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management discussion and analysis and budgetary comparison on pages 5 through 11 and page 30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. I have reviewed such required supplementary information, and, based on my review, I am not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. I have not audited the information, and accordingly, I do not express an opinion, a conclusion, nor provide any form of assurance on it.

Other Information

The supplementary information included in schedules of compensation paid to board members and compensation, benefits, and other payments to the agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements. The information is the representation of management. I have reviewed the information and, based on my review, I am not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. I have not audited the information and, accordingly, do not express an opinion on such information.

Management's Discussion and Analysis

Introduction

Washington Parish Fire Protection District No. 6 is pleased to present its Annual Financial Report developed in compliance with Governmental Accounting Standard Board Statement No. 34, *Basic Financial Statements—Management's Discussion and Analysis for State and Local Governments* (hereinafter referred to as GASB 34) and related standards.

The District's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the District's financial activity, (c) identify changes in the District's financial position, (d) identify any significant variations from the District's financial plan, and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the District's financial statements.

Financial Highlights

- Total assets at December 31, 2017, were \$1,197,791 and exceeded liabilities by \$1,076,584 (net position). Of total net position, \$290,545 may be used to meet the District's ongoing obligations to citizens and creditors. The balance of the total assets is invested in capital assets net of related debt \$786,040. The condensed balance sheet is presented on governmental funds, but the financial highlights are presented on government-wide statements.
- Revenues consist primarily of ad valorem tax, insurance rebate, and state revenue sharing. The total revenues for the fiscal year ending December 31, 2017, were \$271,224 representing an approximate increase of 3% from total revenues for fiscal year December 31, 2016, of \$262,488.
- The District's operating expenditures for the governmental fund were \$262,538 consisting of those expenditures resulting from the District's ongoing operations. The expenses decreased by \$203,757 (44%) compared to expenditures of \$466,295 for the fiscal year ended December 31, 2016. This is due to capital outlay of \$289,609 in the previous year. The governmental fund recorded debt payments of \$38,342. The government-wide statement of activities recorded depreciation expenses of \$86,197.

Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to basic financial statements themselves.

Management's Discussion and Analysis

Government-wide financial statements—The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. These financial statements are reported using the full accrual accounting methods.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial direction of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of net position and the statement of activities display information about the District as a whole. These statements distinguish between those activities of the District that are governmental and those that are considered business type activities.

Fund financial statement—A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The modified accrual basis of accounting is used by the governmental funds.

Notes to financial statements—The notes to the financial statements provide required disclosures essential to the understanding of the financial statements. The notes present information about the District's accounting policies, significant account balances and activities, commitments, contingencies, and subsequent events, if any. Supplementary information includes a comparative budget schedule.

Statement of Net Position

Included below is a condensed Statement of Net Position for the District. The condensed format allows the reader to view the overall financial position of the District. An explanation of the components of this statement is included immediately following the table.

Ad valorem taxes are the primary source of revenue totaling \$244,488 (90% of total revenue) for the fiscal year ending, December 31, 2017. The other major source of revenue is insurance rebates of \$9,686 (4% of total revenues) and \$4,820 of revenue sharing revenues (2% of total revenues).

Analysis of Fund Financial Statements

Governmental Fund

The focus of the District's governmental fund is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resource available for spending at year-ended.

As of December 31, 2017, the District's governmental fund reported an ending balance of \$290,545, an increase of \$8,686 in comparison to prior year. Approximately 94% of this total (\$274,406) constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it is unspendable due to prepaid insurance (\$16,138).

Management's Discussion and Analysis

Capital Assets

At the end of the fiscal year December 31, 2017, the District had \$893,966 (net of accumulated depreciation) recorded in capital assets. Capital outlays are recorded as expenditures of the general fund and as assets in the government-wide financial statement.

Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations	40 years
Fire Trucks and Other Trucks	5-20 years
Equipment	3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The costs of all assets acquired prior to 1989 have been valued using estimated historical cost.

Capital asset activity for the year ended December 31, 2017:

	December 31 2016	December 31 2017	Dollar Change	Percent Change
Land	11,375	11,375	-	0.00%
Fire Trucks	950,863	981,474	30,611	3.22%
Fire Station	335,587	341,887	6,300	1.88%
Equipment	346,506	373,071	26,565	7.67%
Subtotal	1,644,331	1,707,807	63,476	3.86%

Management's Discussion and Analysis

Outstanding Debt Obligations

The following is a summary of the debt obligation transactions during the year:

	January 1			December 31
	2017	Additions	Deductions	2017
Capital Lease	141,658	-	(33,731)	107,927
Total	141,658	-	(33,731)	107,927

On July 25, 2016, the District entered into a lease purchase agreement in the amount of \$180,000 to purchase a pumper truck. The agreement calls for yearly payments of \$38,342. A payment of \$38,342 was made at the date of the agreement. Regular yearly payments commence on August 12, 2017, and end on August 12, 2020. The interest rate is 3.255%.

Future Economic Plans

The District management's approach is conservative. The board actively monitors revenues and expenses and evaluates the cost of all purchases and any proposed expansion projects. Questions regarding this report or requests for additional information should be addressed to Washington Parish Fire Protection District No. 6, P.O. Box 70, Angie, LA 70426, Phone 985-735-6053.

Reconciliation of Statement of Revenues, Expenditures
and Change in Fund Balance to Statement of Activity
For the Year Ended December 31, 2017

CHANGE IN FUND BALANCE 8,686

Government funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital Purchases 63,476
Current Depreciation (86,197)

Loan proceeds provide current resources to governmental funds but issuing debt increases long-term liabilities in the Statement of Net Position. The repayment of the principal of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount by which repayments exceeded proceeds:

Debt Payment 33,731

Change in Net Position 19,696

NOTES TO FINANCIAL STATEMENTS

WASHINGTON PARISH FIRE PROTECTION DISTRICT NO.6
Varnado, Louisiana
Notes to the Financial Statements
For the Year Ended December 31, 2017

INTRODUCTION

As provided by Louisiana Revised Statute 40:1496.12B, the Fire Protection District No. 6 of Washington Parish was created July 10, 1990, through a resolution passed by the Washington Parish Government. The District shall constitute a public corporation and as such shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tank, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the parish governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint a five-member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board. The board of commissioner members may be paid a per diem of fifty dollars for attending meetings of the board and may be reimbursed any expenses incurred in performing the duties imposed upon them.

The District encompasses approximately 82 square miles in a portion of Wards 5, 7, 8 and 4 of Washington Parish. It serves approximately 1,800 people and several small businesses living and operating within the boundaries of the District. The District operates out of three fire stations, one located in the Village of Varnado at 26021 Highway 21, the second located at 63238 Highway 10 East, leased from Meckling Research, and the third is located at 21501 Highway 21 near Miles Lumber Co. The District has no compensated employees and operates with a volunteer staff of firefighters.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING AND FINANCIAL STATEMENT

The District's financial statements are prepared on the modified accrual basis in accordance with accounting principles generally accepted in the United States of America. The District applies all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and the Accounting Principle Board (APB) of the Committee on Accounting Procedures, issued on or before November 1989, unless those pronouncements conflict or contradict with GASB pronouncements.

These financial statements are presented in conformance with GASB Statement No.34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments*. Statement No. 34 established standards for financial reporting, with presentation requirements including a statement of net assets (or balance sheet) and a statement of activities and change in net assets.

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Washington Parish Government is the financial reporting entity for Washington Parish. The financial reporting entity consists of (a) the primary government, the parish council, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Washington Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish council to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish council.
2. Organizations for which the parish council does not appoint a voting majority but are fiscally dependent on the parish council.
3. Organizations for which the reporting entity's financial statements would be misleading if data of this organization is not included because of the nature or significance of the relationship.

Because the parish council appoints a voting majority of the District's governing board and the parish council has the ability to impose its will on the District, the District was determined to be a component unit of the Washington Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The District maintains its financial records on a fund basis, whereby a self-balancing set of accounts (Governmental Fund) is maintained that comprises its assets, liabilities, fund equity, revenues, and expenses. The general fund of the District accounts for all financial resources, except those required to be accounted for in other funds.

D. BASIS OF ACCOUNTING

The accompanying financial statements of the Washington Parish Fire Protection District No. 6 have been prepared in conformity with generally accepted accounting principles of the United State of America (GAAP) as applied to government units. The accompanying financial statements have been prepared in conformity with GASB-34. Under GASB-34, a statement of net assets and statement of activities are prepared which are presented on the accrual basis of accounting. The significant differences are capital outlay is reported as an asset and depreciated in the government-wide statement. Also, long term obligations are recorded as liabilities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, effective for financial statement periods ending after December 15, 2012, provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined *Deferred Outflows of Resources* as a consumption of net assets by the government that is applicable to a future reporting period, and *Deferred Inflows of Resources* as an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. GASB Concepts Statement 4 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

The accounting and financial reporting treatment applied to a fund is determined by its measurement of focus. With this measurement of focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long term assets and long-term liabilities are included in the governmental-wide statements. Operating statements of governmental funds present increases (revenues), other financing sources and decreases (expenditures), and other financing uses are included in current assets.

The government-wide statements of net position and statement of activities are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these activities are included on the statement of net position.

The statements of net position and statements of activities are presented on the accrual basis of accounting. Under this method of accounting exchange, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

Notes to the Financial Statements
For the Year Ended December 31, 2017

The modified accrual basis of accounting is used by the governmental funds. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. Effective for financial statements issued after June 30, 2000, GASB Statement 33, Accounting and Financial reporting for Non-exchange Transactions, defines a non-exchange transaction as a transaction whereby the government gives or receives value without directly receiving or giving equal value in return. Property taxes are imposed non-exchange revenues which result from assessments imposed on nongovernmental entities including individuals. Assets should be recognized when the government has an enforceable lien or legal claim to the resources, or the resources are received, whichever occurs first. Property tax revenues are recognized in the period in which the District has legal claim to the resources. However, for revenue to be recognized under the modified accrual basis, the measurable and available criteria must also be met. Governmental funds use the following practices in recording revenues and expenditures:

REVENUES

Revenues are recognized in the accounting period they become available and measurable. Donations, fund raising net revenues and state revenue sharing are recorded when received. Ad valorem taxes become a lien against the assessed property on assessment date or levy date. Property taxes collected by the taxing authority, but not remitted to the District at year-end, are accrued in revenue and included in property tax receivable.

EXPENDITURES

Expenditures are recognized in the accounting period when the fund liability is incurred.

E. BUDGETS

The District does not have a formal policy on adopting a budget. The budget for year ending December 31, 2017, was adopted at the District's September 2016 regular meeting. The amended budget was adopted at the December 23, 2017, meeting. Actual expenditures were over budget by 7%. Revenues were within the required 5% limit. All appropriations lapse at year-end

F. ENCUMBRANCES

The District does not use encumbrance accounting.

G. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits and interest-bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Notes to the Financial Statements
For the Year Ended December 31, 2017

H. PREPAID ITEMS

Prepaid items consist of expenses, paid in the current year, that cover operations, during the next fiscal year.

I. CAPITAL ASSETS

Capital outlays are recorded as expenditures of the General Fund and as assets in the government-wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations	40 years
Fire Trucks and Other Trucks	5-20 years
Equipment	3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The cost of all assets acquired prior to 1989 have been valued using estimated historical cost.

J. DEFERRED INFLOWS/OUTFLOWS OF RESOURCES

The statement of financial position will sometimes report a separate section for deferred inflows and outflows of resources. A deferred outflow represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

K. RESTRICTED ASSETS

Certain proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes are classified as restricted assets because their use is limited to specified expenditures.

L. COMPENSATED ABSENCES

The District does not have any paid employees; therefore, it does not have a formal leave policy.

M. LONG-TERM OBLIGATION

Long-term obligations are reported in the government-wide financial statement.

N. NET POSITION

Equity for government-wide statements is classified as net position and displayed in three components:

- **Invested in capital assets, net of related debt** – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or indebtedness attributable to acquisition, construction, or improvement of those assets. If there are significant unspent proceeds at year-end, the portion of the debt attributable to unspent proceed is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position calculation as unspent proceeds.
- **Restricted** – This component of net position consists of constraints placed on the asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or law or regulations of other governments or constraints imposed by law though constitutional provisions or enabling legislation.
- **Unrestricted** – This component of net position consists of assets and liabilities that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

O. Governmental Fund Balances

In the fund financial statements, governmental fund equity is classified as fund balance. Governmental funds are classified as follows:

- **Nonspendable** – These are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- **Restricted** – These are amounts that can be spent only for specific purpose because of constitutional provisions, enabling legislation, or externally imposed constraints by creditors, grantor, contributors or the laws or regulations of other governments.
- **Committed** – These are amounts that can be used for specific purpose determined by a formal decision by the Board Members, which are the highest level of decision-making authority for the District.
- **Assigned** – These are amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purpose.
- **Unassigned** – These are all other spendable amounts.

NOTE 2 - LEVIED TAXES

In 2011, the District successfully passed a renewal of a 1993 special ad valorem tax of 10 mills upon property owners of the District. The assessment authorizes the levy of and collection of a special ad valorem tax of 10 mills for a period of ten (10) years, beginning with the year 2011, for the purpose of acquiring, constructing, improving, maintaining and operating fire protection facilities and equipment to provide fire protection and emergency medical services including paying the cost of obtaining water for fire protection purposes.

On November 3, 1998, the District passed a proposal for the extension of the original proposition to impose the existing special tax of ten (10) mills in the newly added areas of the District for a period of 10 years.

For the period covered by this financial statement, the millage was set at 20.25. The following chart shows the total assessed values. Every year, a deduction for pensions to various retirement systems are withheld from the District's property taxes.

2017 Assessed property value	15,498,610

Taxable Value	<u><u>11,922,771</u></u>
	General
	Fund
Assessment	<u>241,439</u>
Less Pension Deduction	<u>(8,006)</u>
Net Assessment	<u><u>233,433</u></u>

During November and December 2017, a total of \$5,275 was received for 2017 property tax collections. These funds were recorded as advance property tax collections.

NOTE 3 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budget Information

Louisiana Revised Statute 39:1303 requires that "all action necessary to adopt and otherwise finalize and implement the budget for an ensuing fiscal year shall be taken in an open meeting and completed prior to the end of the fiscal year in progress." Budgeted revenues were in line with actual revenues. Actual expenditures were over budget by 7% due to unforeseen repair expenditures.

NOTE 4 - CASH AND CASH EQUIVALENTS

At December 31, 2017, the District has cash and cash equivalents totaling \$46,249 in interest bearing accounts.

These deposits are stated at cost, which approximates market value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are to be held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2017, the District had \$60,713 in deposits (collected bank balances, including certificates of deposit). These deposits were secured from risk by federal deposit insurance.

The Members of the Board of

Washington Parish Fire Protection District No 6.

A component unit of the Washington Parish Government

I have performed the procedures enumerated below, which were agreed to by Washington Parish Fire District No. 6 (a component unit of the Washington Parish Government) and the Louisiana Legislative Auditors, on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2017, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide. The District's management is responsible for its financial records and compliance with applicable laws and regulations. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, I make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$30,000, and public works exceeding \$154,450. Compare the documentation for these expenditures to Louisiana Revised Statute R.S. 38:2211-2296 (the public bid law), and report whether the expenditures were made in accordance with these laws.

The District had not expenditures for materials and supplies exceeding \$30,000, and no expenditures were made for public works exceeding \$154,450.

Code of Ethics for Public Officials and Public Employees

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided me with the requested information.

3. Obtain a list of all employees paid during the fiscal year.

The District has no paid employees. The District has volunteers.

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

The District has no paid employees and did not hire immediate family members of the board members as employees or contractors.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided the requested information. The District had no disbursements to board members immediate families or outside business interests.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget and a copy of the amended budget.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

I traced adoption of the original budget to documentation in the minutes of the meeting of the District's board held on September 1, 2016. The board adopted the amended 2017 budget on December 23, 2017 but the minutes make no mention of adopting the amended budget.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more.

I compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues exceeded budgeted revenues. Expenditures for the year did exceed budgeted amounts 7.16%.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:

(a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.

Each of the six selected disbursements agreed with the amount and payee in the supporting documentation.

(b) Report whether the six disbursements were coded to the correct fund and general ledger account.

The six disbursements were coded to the correct fund and general ledger account.

(c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

Inspection of documentation revealed each board member approved the expenditures for payment. Approval was indicated by each member initialing the invoice for payment. Minutes indicated that the Board approved the disbursements.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

The District meets monthly. The notice of the meeting and agenda is posted on the door at the fire station two days prior to each meeting. Management asserts that the agenda was properly posted. I examined copies of meeting notices containing date, time, place and business to be conducted, which are filed with the minutes of each meeting.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

I scanned copies of all bank deposit slips for the fiscal year, and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

The District has no employees or payroll disbursements. I scanned operating disbursements and read the meeting minutes of the District's board for the fiscal year. I found no payments or approval for payments to board members that would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The District's December 31, 2016 report was due on June 30, 2017. It was submitted June 30, 2017.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

The District did not enter into any contracts that utilized state funds during 2017.

Prior-Year Comments

15. Obtain and report management's representation as to whether any prior-year suggestions, exceptions, recommendations, and/or comments have been resolved.

My prior year report, dated June 28, 2017, included prior year findings for 2016 that were resolved. No other suggestions, exceptions, recommendations, or comments were made.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. I was not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the District's compliance with the foregoing matters. Accordingly, I do not express such an opinion or conclusion. Had I performed additional procedures, other matters might have come to my attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
