Reconciliation of the Statement of Revenues, Expenditures, & Changes in Fund Balances
of Government Funds to the Statement of Activities
Year Ended December 31, 2020**

Net change in fund balance – total governmental funds \$ (1,864)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those sets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount which capital outlays exceeded depreciation in the current period.

Capital Outlays	29,539	
Depreciation Expense	(38,388)	
	(8,849)	(8,849)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Difference in Accrued Interest	805	
Principal Paid	17,214	
	18,019	18,019
Change in net position of governmental activities	\$	7,306
