## INDEPENDENT ACCOUNTANTS' REVIEW REPORT

Village of Junction City, Louisiana

Junction City, Louisiana

We have reviewed the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Village of Junction City, Louisiana, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

### **Accountants' Responsibility**

Our responsibility is to conduct the review engagement in accordance with *Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the AICPA and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Village of Junction City, Louisiana and to meet our ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

### **Accountants' Conclusion**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

The accompanying schedule of compensation, reimbursements, and other payments to agency head is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

The accompanying justice system funding schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with the reporting framework prescribed by Louisiana Revised Statute 24:515.2 and the Louisiana Legislative Auditor. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 10 and pages 29 through 30, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. We have not audited or reviewed such required supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Village of Junction City's basic financial statements. The basic financial statements comprise three components:

- *Government-wide financial statements.*
- *Fund financial statements.*
- *Notes to the financial statements.*

This report contains other supplementary information in addition to the basic financial statements themselves.

The basic financial statements include two kinds of statements that present different views of the Village:

**Village Of Junction City, Louisiana  
Management's Discussion and Analysis  
For the Year Ended June 30, 2022**

---

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Village's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Village's government, reporting operations in more detail than the government-wide statements.
- The governmental fund statement tells how general government services like public safety were financed in the short-term as well as what amounts remain for future spending.
- The proprietary fund statement offers short and long-term financial information about the activities the government operates like businesses, such as the public utilities (water, sewer, sewer treatment systems).

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

In the past, the primary focus of local government financial statements has been summarized fund type information on a current resources basis. However, with the implementation of Statement No. 34 of the Governmental Accounting Standards Board (GASB Statement No. 34) for June 30, 2005, the focus is on both the Village as a whole (government-wide) and the fund financial statements. Each view provides a different snapshot of the Village's finances. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year-to-year or government-to-government) and enhance the Village's accountability.

## **GOVERNMENT-WIDE STATEMENTS**

The government-wide statements report information about the Village of Junction City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position and the statement of activities, which are the government-wide statements, include all of the government's assets and liabilities using the accrual basis of accounting, similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two government-wide statements report the Village's net assets and how they have changed. Net position – the difference between the Village's assets and liabilities – are one way to measure the Village's financial health, or financial position. Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating.

In the statement of net position and the statement of activities, the Village is divided into two categories:

- **Governmental activities** – Most of the Village's basic services are included here, such as the activities of the police, garbage and trash collection, park, and general administration. Franchise fees, insurance taxes, traffic fines, and payments from other governments finance most of these activities.

**Village Of Junction City, Louisiana  
Management's Discussion and Analysis  
For the Year Ended June 30, 2022**

---

- **Business-type activities** – The Village charges fees to customers to cover the cost of the services it provides. Water, sewer and sewer treatment are included here. Grants have provided most of the capital assets required for these services.

## **FUND FINANCIAL STATEMENTS**

The format of the fund financial statements will be more familiar to traditional users of government financial statements. The fund financial statements provide more detailed information about the Village's most significant funds – not the Village as a whole. Funds are accounting mechanisms that the Village uses to keep track of specific sources of funding and spending for particular purposes.

The Village has two kinds of funds:

- **Governmental funds** – Most of the Village's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Because this information does not encompass the long-term focus of the government-wide statements, additional information is provided on a subsequent page that explains the relationship (or differences) between the government-wide and fund statements.
- **Proprietary funds** – Services for which the Village charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short-term and long-term financial information. The Village's enterprise funds are the same as its business-type activities, but provide more detail and additional information, such as cash flows.

The Total Governmental Funds column requires reconciliation because of the different measurement focus from the government-wide statements (current financial resources versus total economic resources) which is reflected at the bottom of each statement. The flow of current financial resources will reflect interfund transfers as other financing sources as well as capital expenditures as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations into the Governmental Activities column (in the government-wide statements).

## **FINANCIAL ANALYSIS OF THE VILLAGE AS A WHOLE**

**FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS**

The Village of Junction City uses Fund accounting and demonstrates compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Village's combined ending fund balances were \$784,663 and \$746,636 at June 30, 2022 and 2021. The unassigned portions or the portion available for spending were \$784,663 and \$746,636.

**Proprietary Funds**

The Village's proprietary funds provide the same type information found in the government-wide financial statements, but in more detail.

Net position of the Utilities Enterprise fund were \$1,282,876 and \$1,303,412 at June 30, 2022 and 2021. The fund had operating losses of \$20,536 and \$15,756, for the fiscal years ended June 30, 2022 and 2021, respectively.

**Village Of Junction City, Louisiana  
Management's Discussion and Analysis  
For the Year Ended June 30, 2022**

---

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

The Village of Junction City's investment in capital assets for its governmental and business-type activities as of June 30, 2022 and 2021 amounted to \$1,396,439 and \$1,461,104 and (net of depreciation). This investment includes land, buildings and improvements, equipment, vehicles, water and sewer facilities. The outstanding debt of \$24,298 and \$24,298 is to Louisiana Department of Transportation & Development for utility relocation assistance.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Village's management and elected officials considered many factors when preparing the 2022-2023 budget. Most revenue sources should remain fairly consistent with prior year collections.

**REQUEST FOR INFORMATION**

This financial report is to provide citizens, taxpayers, customers, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the funds it receives. If you have any questions about this report or need additional information, contact the Village Clerk, Village of Junction City, Louisiana, P.O. Box, 142, Junction City, Louisiana 71749.

## INTRODUCTION

The Village of Junction City, Louisiana (the Village) consists of an executive branch of government headed by a mayor and a legislative branch of government consisting of three aldermen. The Village's combined balance sheet includes the accounts of all the Village's operations. The Village's major operations include police protection, garbage and trash collection, culture/recreation, highways, streets, and administrative services. In addition, the Village operates a Utility Enterprise Fund to provide water and sewerage services.

The following is a summary of certain significant accounting policies and practices:

### **Note 1 – Summary of Significant Accounting Policies**

The accompanying financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). In June 1999 the GASB issued *Statement 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* and *Statement 35 Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. These statements establish new financial reporting requirements for state and local governments and public colleges and universities throughout the United States. They require new information and restructure much of the information that government should have presented in the past. Comparability with reports issued in years prior to 2004 is affected.

Other GASB Statements are required to be implemented in conjunction with GASB Statements 34 and 35. Therefore, the Village has implemented the following GASB Statements: *Statement 37 – Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments: Omnibus*, and *Statement 38 – Certain Financial Statements Note Disclosures*.

The accompanying financial statements present the financial position of the Village and the various funds and fund types, the results of operations of the Village and the various funds and fund types, and the cash flows of the proprietary funds. The financial statements are presented as of June 30, 2021 and for the year then ended.

### **Financial Reporting Entity**

As the municipal governing authority, for reporting purposes, the Village of Junction City, Louisiana is considered a separate financial reporting entity. This financial reporting entity consists of (a) the primary government, the Village of Junction City, Louisiana, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the Village are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

GASB Statement 14 established criteria for determining which component units should be considered part of the Village of Junction City, Louisiana for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a

---

voting majority of an organization's governing body and (1) the ability of the Village to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Village; Organizations for which the Village does not appoint a voting majority but are fiscally dependent on the Village; Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship. Based on the previous criteria, the Village has determined that there are no component units that are part of the reporting entity.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (the statements of net position and the statements of activities) report information of all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as programs revenues. The Village does not allocate general government (indirect) expenses to other functions.

Net position are restricted when constraints placed on them are either externally imposed or imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net assets. When both restricted and unrestricted resources are available for use, generally it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual government funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

***Government-Wide Financial Statements*** – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**Village Of Junction City, Louisiana**  
**Notes to Financial Statements**  
**For the Year Ended June 30, 2022**

---

***Government Fund Financial Statements*** – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Principal revenue sources considered susceptible to accrual include federal grants, interest on investments, sales and income taxes, and lease payments receivable. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the Village's present appropriation system. These revenues have been accrued in accordance with accounting principles generally accepted in the United States of America since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the Village.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modification to the accrual basis of accounting include: Employees' vested annual leave is recorded as an expenditure when utilized. The amount of accumulated annual leave unpaid at June 30, 2020 has been reported only in the government-wide financial statements. Interest on general long-term obligations is recognized when paid. Debt service expenditures are recorded only when payment is due.

***Proprietary Funds*** – The financial statements of the proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide statements described above.

Each proprietary fund has the option under Governmental Accounting Standards Board (GASB), Statement 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting* to elect to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The primary government's enterprise fund has elected to not apply FASBs issued after the applicable date.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Fund Accounting**

The financial activities of the Village are recorded in individual funds, each of which is deemed to be a separate accounting entity. The Village uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

---

**Major Governmental Funds**

**General Fund** – This fund accounts for all activities of the Village not specifically required to be accounted for in other funds. Included are transactions for services such as general government, health services, public safety, regulatory services, and social services.

**Proprietary Funds**

**Water and Sewer Funds** – These funds are used to account for the provision of water and sewerage to residents of the Village of Junction City. These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

**Budgets**

The Village uses the following budget practices:

1. In May of each year, the Village clerk submits to the board of alderman a proposed operating budget for the fiscal year commencing the following July. The operating budget includes proposed expenditures and expenses and the means of financing them.
2. In June of each year, the budget is legally enacted through passage of ordinance. The public is invited to attend all meetings.
3. The Village clerk is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures or expenses of any fund must be approved by the board of aldermen.

Budget comparison statements included in the accompanying financial statements include the original adopted budgets and all subsequent adopted amendments.

**Cash and Cash Equivalents**

Under state law, the Village may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

For purposes of the Statement of Cash Flows, cash equivalents include all highly liquid investments (including restricted assets) with a maturity date of three months or less when purchased.

**Investments**

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955 and the Village's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

**Village Of Junction City, Louisiana**  
**Notes to Financial Statements**  
**For the Year Ended June 30, 2022**

---

**Short-Term Interest Receivables/Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

**Advances to Other Funds**

Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account, which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

**Bad Debts**

Uncollectible amounts for ad valorem taxes and utility receivables are generally not significant. As a result, the direct write-off method for recognizing bad debts is used. Under this method, the receivable is charged to expense when the account is deemed to be uncollectible.

**Fixed Assets**

Fixed assets of governmental funds are recorded as expenditures at the time purchased or constructed, and the related assets are capitalized in the general fixed assets account group. Public domain or infrastructures are not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost or fair market value at date of gift, if donated.

Fixed assets used in the proprietary fund operations are included on the balance sheet of the funds net of accumulated depreciation. Depreciation of all exhaustible fixed assets used by proprietary fund operation is charged as an expense against operations. Depreciation is computed using the straight-line method. The estimated useful lives are as follows:

Buildings	40 years
Improvements	40-50 years
Equipment	5-10 years

**Compensated Absences**

The Village does not have a formal leave policy.

**Contributed Capital**

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers, or other funds when such resources are restricted for the acquisition or construction of capital assets. Contributed capital is not amortized based on the depreciation recognized on that portion of the assets acquired or constructed from such resources.

**Fund Equity**

GASB Statement No. 54 establishes standards for five fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of resources reported in governmental funds. The nonspendable fund balance classification

**Village Of Junction City, Louisiana**  
**Notes to Financial Statements**  
**For the Year Ended June 30, 2022**

---

includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

*Restricted Fund Balance* – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance* – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Village aldermen – the government’s highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Village aldermen remove the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned Fund Balance* – This classification reflects the amounts constrained by the Village’s “intent” to be used for specific purposes, but are neither restricted nor committed. The Village aldermen and management have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed.

*Unassigned Fund Balance* – This fund balance is the residual classification for the general fund. It is used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the Village’s policy to use externally restricted resources first, then unrestricted resources – committed, assigned and unassigned – in order as needed.

**Total Columns on Combined Statements**

Total columns on the combined statements are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operation, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

**Note 2 – Cash and Cash Equivalents**

*Custodial credit risk – deposits.* The Village’s cash and certificates of deposit consist of deposits with financial institutions. State statutes govern the Village’s investment policy. Permissible investments include direct obligations of the U.S. Government and agency securities, certificates of deposit, and savings accounts or savings certificates of savings and loan associations and repurchase agreements. In

addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool, Inc. (LAMP), a non-profit corporation formed by an initiative of the State Treasurer and organized under the laws of the State of Louisiana, which operates the local government investment pool. Collateral is required for demand deposits, certificates of deposit, savings certificates of savings and loan associations and repurchase agreements at 100% of all amounts not covered by deposit insurance. Obligations that may be pledged as collateral are obligations of the United States government and its agencies and obligations of the state and its subdivisions. Per Louisiana State law, collateral is not required for funds invested in LAMP.

The following is a schedule of the Village's cash and certificates of deposit at June 30, 2022. Differences between the Village's balances and the bank balances arise because of the net effect of deposits-in-transit and outstanding checks.

	<u>Book Balance</u>	<u>Bank Balance</u>
Cash on Deposit	\$ 387,900	\$ 390,999
Certificates of Deposit	<u>462,577</u>	<u>462,277</u>
Total	<u>\$ 850,477</u>	<u>\$ 853,276</u>

The Village's deposits are collateralized as follows:

FDIC Insured Deposits	\$ 500,000
Uninsured Deposits:	
Uncollateralized	-
Collateralized	<u>353,276</u>
Total Deposits	<u>\$ 853,276</u>

*Credit risk.* The Village's only investments are the certificates of deposit mentioned above, therefore the Village is exposed to no credit risk.

*Concentration of credit risk.* The Village does not limit the amount that may be invested in securities of any one issuer. Applicable state statutes do not place limits on credit concentration.

*Interest rate risk.* The Village manages its exposure to declines in fair values by limiting the maturity of its investments to not longer than one year.

**Note 3 – Investments**

At June 30, 2022, the Village's investments consisted of certificates of deposit in the amounts of \$462,277.

**For the Year Ended June 30, 2022**

**Note 4 – Ad Valorem Taxes**

Property taxes are assessed and collected on a calendar year. Property taxes attach as an enforceable lien on property as of January 1. Tax notices are usually mailed in November each year and become delinquent after December 31, of that year.

The ad valorem tax millage is 4.93 mills. For the calendar year 2022, the 4.93 mills were levied on property with an assessed valuation totaling \$841,583 and were dedicated entirely for general purposes.

**Note 5 – Receivables**

Receivables at June 30, 2022, consisted of the following:

**Village Of Junction City, Louisiana**  
**Notes To Budgetary Comparison Schedule**  
**For The Year Ended June 30, 2022**

---

The Village uses the following budget practices:

1. In May of each year, the Mayor submits to the Board of Aldermen an operating and capital budget for the succeeding year.
2. A public hearing is scheduled by the Mayor and the Board of Aldermen after allowing for at least ten days notice to the public at the time the budget is initially submitted to the Board of Aldermen.
3. Final adoption of the budget by the Board of Aldermen is in June.
4. The Mayor may authorize transfers of budgetary amounts within departments. Any revision requiring alteration of levels of expenditures or transfers between departments must be approved by the Board of Aldermen.
5. Operating appropriations and non-major capital appropriations, to the extent not expended, lapse at year end.
6. All legally adopted budgets of the Village are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). Budgets are adopted for the General Fund and the Utility Enterprise Fund.

Budget comparison statements included in the accompanying financial statements include the original adopted budget and all subsequent adopted amendments.

## **INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES**

Village of Junction City, Louisiana  
P.O. Box 142  
Junction City, Louisiana 71749-0142

We have performed the procedures enumerated below, on the Village of Junction City, Louisiana's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2022, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The Village's management is responsible for its financial records and compliance with applicable laws and regulations.

The Village has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the Village's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2022. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

### *Public Bid Law*

1. Obtain documentation for all expenditures made during the year for material and supplies exceeding \$30,000, or public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1775 (the state procurement code) or R.S. 39:1551-2296 (the public bid law) or, whichever is applicable: and report whether the expenditures were made in accordance with these laws.

There were no expenditures made during the year for materials and supplies exceeding \$30,000.  
There were no expenditures made during the year for public works exceeding \$250,000.

*Code of Ethics for Public Officials and Public Employees*

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided us the requested information.

3. Obtain a list of all employees paid during the fiscal year.

Management provided us with the requested information.

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

None of the employees included on the list provided by management for agreed-upon Procedure 3 appeared on the list provided by management for agreed-upon Procedure 2.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided us with the requested information. There were two checks written to a company owned by the mayor during the year ended June 30, 2022.

*Budgeting*

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget. Management represented that there were no amendments to the budget during the year.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

We traced adoption of the original budget to documentation in the minutes of the meeting of the board of aldermen held on June 8, 2021. Management represented that there were no amendments to the budget during the year.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more or if actual expenditures exceed budget amounts by 5% or more.

We compared the revenues and expenditures of the budget to actual revenues and expenditures. The General Fund actual expenditures were greater than budgeted expenditures for an unfavorable variance of more than 5%.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:

(a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.

We examined supporting documentation for the six disbursements and found that payment was for the proper amount and made to the correct payee.

(b) Report whether the six disbursements were coded to the correct fund and general ledger account.

All six payments were coded to the correct fund and general ledger account.

(c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

Inspection of documentation supporting each of the six selected disbursements indicated approval from the proper authorities. In addition, approval by the full board of alderman was traced to the minutes.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 – 13 (the open meetings law); and report whether there are any exceptions.

We examined copies of notices and agendas for all council meetings held during the fiscal year.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We inspected bank deposits for the fiscal year, and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

We scanned payroll disbursements and read the meeting minutes for the fiscal year. We found no payments or approval of payments to employees which would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The Village's report was due on December 31, 2022, and was submitted in a timely manner.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

Management represented that the Village was not on the noncompliance list at any time during the fiscal year.

Prior Year Comments

15. Obtain and report management's representation as to whether any prior-year suggestions, exceptions, recommendations, and/or comments have been resolved.

Our prior year report, dated December 29, 2021, disclosed one finding. Management has represented that Finding 2021-01, Segregation of Duties, has not been resolved entirely, due to the small size of the Village's accounting staff. The Mayor and Board of Alderman are involved as much as possible to reduce risks in internal control.

We were engaged by the Village to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the Village's compliance with the foregoing matters. Accordingly, we do not express an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the Village's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

**Village of Junction City, Louisiana  
Schedule of Findings and Responses  
For The Fiscal Year Ended June 30, 2022**

---

**Current Year Findings and Responses**

**2022-01     Segregation of Duties**

**Criteria:** The Village of Junction City, Louisiana has too few personnel involved in the accounting system to have adequate segregation of duties for internal control.

**Condition:** It was noted that the Village Clerk is responsible for entering all transactions into the accounting system, including preparing deposits, writing checks, creating utility bills, entering utility payments into the system, and reconciling the bank statements.

**Cause:** The Village has a small staff size that does not allow for proper segregation of duties.

**Effect:** The Village does not have adequate segregation of duties and is at a greater risk of not preventing or identifying errors and inappropriate actions that may occur.

**Recommendation to Prevent Future Occurrences:** It is recommended that the Board of Aldermen become involved with oversight of the accounting function.

**Management's Response:** The Village will take into consideration this and any other recommendations that will improve internal controls.

**2022-02     Budget Authority and Control**

**Criteria:** Under Louisiana law, statute 39:1311 requires that the budget must be amended when actual revenues and other sources, within a fund, are less than budgeted revenues and other sources by more than five percent.

**Condition:** It was noted that actual expenses on the general fund were more than total budgeted expenses by more than five percent.

**Cause:** The Village did not amend its General Fund Budget for the variance in expenses.

**Effect:** The Village was not in compliance with the state budget laws.

**Recommendation to Prevent Future Occurrences:** We recommend that the Village monitor its budget on a regular basis so that amendments can be made in a timely manner in order to comply with state budget laws.

**Management's Response:** The Village will monitor its budgets closer in the future.

**Village of Junction City, Louisiana  
Schedule of Findings and Responses  
For The Fiscal Year Ended June 30, 2022**

---

**2022-03    Related Party Transactions**

**Criteria:** The Village of Junction City, Louisiana entered into transactions with a company owned by the Village's mayor.

**Condition:** The Village of Junction City, Louisiana wrote two checks totaling \$383 to a company owned by the Village's mayor.

**Cause:** The Village's small size limits the number of local vendors to provide goods and services.

**Effect:** The Village is not in compliance with LA Revised Statute 42:1123.

**Recommendation to Prevent Future Occurrences:** LA Revised Statute 42:1123(22) paragraphs (a) and (b) does allow for an exception for a municipality with a population of five thousand or less, but only if the municipality submits a plan to the Louisiana Board of Ethics for approval and the board of alderman approve the plan as well. We recommend that the Village follow the proper approval process before entering into any other related party transactions.

**Management's Response:** The Village will take this into consideration in the future.

**Prior Year Finding and Responses**

There was one finding for the fiscal year ended June 30, 2021:

**2021-01    Segregation of Duties**

**Condition:** It was noted that the Village Clerk is responsible for entering all transactions into the accounting system, including preparing deposits, writing checks, creating utility bills, entering utility payments into the system, and reconciling the bank statements.

**Recommendation to Prevent Future Occurrences:** It is recommended that the Board of Aldermen become involved with oversight of the accounting function.

**Status:** Not Resolved. See 2022-01.
