Independent Auditor's Report

To the Members of the Board of Commissioners of Washington Parish Fire Protection District No. 7 Bogalusa, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the general fund of Washington Parish Fire Protection District No. 7, a component unit of the Washington Parish Council, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Washington Parish Fire Protection District No. 7's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Washington Parish Fire Protection District No. 7 September 17, 2020

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and general fund of Washington Parish Fire Protection District No. 7, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Substantial Doubt about Washington Parish Fire Protection District No. 7's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that Washington Parish Fire Protection District No. 7, will continue as a going concern. As discussed in Note 14 to the financial statements, Washington Parish Fire Protection District No. 7 lacks sufficient funding to maintain its operations at the present level and there is substantial doubt about Washington Parish Fire Protection District No. 7's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding those matters also are described in Note 14. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 26, 27, and 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Washington Parish Fire Protection District No. 7's basic financial statements. The Schedule of Compensation, Benefits, and Other Payments to Agency Head is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Washington Parish Fire Protection District No. 7 September 17, 2020

The Schedule of Compensation, Benefits, and Other Payments to Agency Head is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Benefits, and Other Payments to Agency Head is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 17, 2020, on our consideration of Washington Parish Fire Protection District No. 7's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Washington Parish Fire Protection District No. 7's internal control over financial report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Washington Parish Fire Protection District No. 7's internal control over financial reporting and compliance.

Washington Parish Fire Protection District No. 7 Bogalusa, Louisiana Reconciliation of the Governmental Fund Statement of Revenues, Expenditures Change in Fund Balance to the Government-Wide Statement of Activities For the Year Ended December 31, 2019	<u>Exhibit F</u>
Net Change in Fund Balance, Governmental Fund (Exhibit E)	\$ (82,054)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. These differences consist of:	
Capital Outlay	-
Depreciation Expense	(49,042)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	-
In accordance with Governmental Accounting Standards Board Statement No. 68, the net pension liability related pension plans is not required to be recorded in the governmental fund financial statements. Adjustments to pension expense related to charges in deferred outflows of resources and deferred inflows of resources are reflected in the statement of activities:	
Net Change in Pension Expense Contributions from Non-Employer Contributing Entities	(109,470) 40,474
Compensated absences payable is recorded as an expense on the statement of activites.	
Increase (Decrease) in Compensated Absenses Payable	-
Revenue in the statement of activities that do not provide current financial resources are not reported as revenue in governmental funds	
Change in Deferred Inflows of Resources	-
Change in Net Position of Governmental Activities (Exhibit B)	\$ (200,092)

Narrative Profile

The 1991 Louisiana Legislature, pursuant to Louisiana Revised Statute 40:1496.12 F, created the Washington Parish Fire Protection District No. 7 (the "District"). The District shall constitute a public corporation and as such shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tank, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint an eight-member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board. Members of the Board of Commissioners may be paid a per diem of fifty dollars for attending meetings of the board and may be reimbursed for any expenses incurred in performing the duties imposed upon them.

The District covers 155 square miles in the southeastern corner of Washington Parish, outside the city limits of Bogalusa, Louisiana. It serves approximately 7,000 people and businesses located within the boundaries of the District. The District operates out of six fire stations which are located as follows: Station number 1 is located in the Isabel community; station number 2, the Central Station, is located in the Ben's Ford community; station number 3 is located in Rio; station 4, located on Highway 10 just west of Bogalusa; station 5, located on Highway 439 at Lee Road; and station 6 is located on Highway 21. At December 31, 2019, the District employed a full-time fire chief, 6 full-time fire fighters, 2 part-time firefighters and a part-time clerk, but mainly operates with a volunteer staff of firefighters.

1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

Section 2100 of the GASB Codification, Defining the Financial Reporting Entity, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the District is considered a component unit of the Washington Parish Council. As a component unit, the accompanying financial statements are included within the reporting of the primary government, either blended into those financial statements or separately reported as discrete component units.

B. Fund Accounting

The District uses fund accounting to maintain its financial records and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental Funds

Governmental funds account for all of the District's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources that may be used to finance future period programs or operations of the District. The following is the District's governmental fund:

<u>General Fund</u> - the primary operating fund of the District, which accounts for all the operations of the District, except those required to be accounted for in other funds.

C. Measurement Focus / Basis of Accounting

Basic Financial Statements – Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include all the financial activities of the District with most of the interfund activities removed. Information contained in these columns reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Interest earnings and other revenues not properly included among program revenues are reported instead as general revenues.

The District does not allocate indirect expenses.

Basic Financial Statements – Governmental Funds

The amounts reflected in the General Fund are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District's operations.

The amounts reflected in the General Fund use the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities

of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related liability is incurred, except for interest and principal payments on long-term debt, which are recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

 $\underline{Revenues}$ – Revenues are generally recognized when they become measurable and available as net current assets. Taxes, state revenue sharing, grants, interest revenue, and other revenues are recorded when due.

 $\underline{Expenditures}$ – Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

 $\underline{\text{Reconciliation}}$ – Explanation of differences between the governmental funds balance sheet and the government-wide statement of net position is presented in Exhibit D of the basic financial statements. Explanation of differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities is presented in Statement F of the basic financial statements.

D. Budgets and Budgetary Accounting

The District adopted an operating budget for its General Fund for the fiscal year ended December 31, 2019. The budget for this fund is adopted on the modified accrual basis of accounting consistent with generally accepted accounting principles (GAAP). The District follows these procedures in establishing the budgetary data reflected in these financial statements:

- 1. The Fire Chief prepares a proposed budget and submits it to the Board of Commissioners no later than fifteen days prior to the beginning of each fiscal year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. Once a public hearing is held and all of the action necessary to finalize and implement the budget is completed, the budget is adopted through the passage of a resolution prior to the commencement of the fiscal year for which the budget is adopted.

The adopted budget constitutes the authority of the Fire Chief to incur liabilities and authorize expenditures from the respective budgeted funds. Additionally, certain expenditures are approved monthly by the Board before payment.

E. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, interest bearing demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Under state law, the District may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under

Louisiana law and national banks having their principal offices in Louisiana. In addition, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

Investments for the District are reported at cost. The state investment pool (LAMP) operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. The LAMP annual report can be found at the official LAMP website.

F. <u>Receivables and Payables</u>

All trade and tax receivables are shown net of an allowance for uncollectible tax.

Property Taxes

For the year 2019, taxes of 23.170 mills were levied on property within the District's boundaries. Total taxes levied were \$562,698. At December 31, 2019, the ad valorem tax receivable was \$420,838. Ad valorem taxes receivable at December 31, 2019, are recorded net of a 2.0% allowance for uncollectible taxes (\$11,254).

State Revenue Sharing

For the year 2019, the District received \$42,622 in Louisiana State Revenue Sharing. At December 31, 2019, state revenue sharing receivable totaled \$28,415. The District considers this receivable fully collectible and, therefore, has not recorded an allowance for uncollectible state revenue sharing.

G. Inventories

Purchase of various operating supplies are regarded as expenditures at the time purchased, and inventories of such supplies (if any) are not recorded as assets at the close of the fiscal year.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide statements.

I. <u>Capital Assets</u>

Capital assets are recorded as expenditures of the governmental funds and as assets in the governmentwide financial statements, to the extent the District's capitalization threshold of \$500 is met. Capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their estimated fair market value at the date of donation.

J. Compensated Absences

The District has the following policy relating to vacation and sick leave for its employees:

- 1. Vacation Leave After completing one full year of service (and thereafter upon completion of subsequent years of service) paid firefighters will earn eighteen days of paid vacation per year. Upon completing ten years of service this annual benefit will increase by one day for each year of service over ten years, up to a maximum vacation period of thirty days. The District will pay for all earned but unused vacation at the time of termination.
- 2. Sick Leave Permanent paid firefighters are entitled to fifty-two weeks of paid sick leave. All accumulated sick leave lapses upon termination.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. At December 31, 2019, no compensated absences payable were reported in the fund financial statements.

K. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Deferred Outflows and Inflows of Resources

The statement of net position reports a separate section for deferred outflows of financial resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense / expenditure) until then.

The District has deferred outflows of resources on the statement of net position that is the result of deferrals concerning bonded debt. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price.

M. <u>Net Position</u>

In the government-wide statements, equity is classified as net position and displayed in three components:

- 1. Net Investment in Capital Assets consists of the historical cost of capital assets, including any restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted this component of net position consists of assets that have constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.
- 3. Unrestricted all other net position is reported in this category.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

N. Fund Balance

In the governmental fund financial statements, fund balances are classified as follows:

- 1. Nonspendable Fund Balance amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.
- 2. Restricted Fund Balance amounts that can be spent only for the specific purposes due to enabling legislation, State or Federal laws, or externally imposed by grantors, creditors, or citizens.
- 3. Committed Fund Balance amounts that can be used only for the specific purposes determined by a formal action of the Board of Commissioners (the District's highest level of decision-making authority).
- 4. Assigned Fund Balance amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed.
- 5. Unassigned Fund Balance all amounts not included in other spendable categories.

When fund balance resources are available for a specific purpose in multiple classifications, the District will generally use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, the District's management reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

The District reported only unassigned fund balances as of December 31, 2019.

O. Estimates

The preparation of financial statements, in conformity with U.S. GAAP requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. Stewardship, Compliance and Accountability

A. <u>Budgetary Information</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at year-end. See Note 1-D regarding operating budgets. The District complied with the Louisiana Local Government Budget Act in adopting and amending its budget for the year ended December 31, 2019.

B. Deposits and Investment Laws and Regulations

In accordance with state law, all uninsured deposits of funds in financial institutions must be secured with acceptable collateral valued at the lower of market or par. As reflected in Note 3 regarding cash and cash equivalents, the District complied with the deposits and investments laws and regulations.

C. Deficit Fund Equity

As of December 31, 2019, the District's general fund did not have a deficit fund equity.

3. Cash, Cash Equivalents, and Investments

As reflected on Exhibit A, the District has cash and cash equivalents totaling \$103,579 at December 31, 2019. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

The following is a summary of cash and investments at December 31, 2019, with the related federal deposit insurance and pledge securities:

Bank Balances:	
Insured (FDIC Insurance)	\$ 140,387
Uninsured and Collateralized:	
Collateral held by pledging bank's trust department not in the District's name	-
Uninsured and Uncollateralized	 -
Total Deposits	\$ 140,387

Even though the pledged securities are not held in the entity's name, LRS 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand.

Deposits collateralized by pledged securities are considered to be exposed to credit risk (Category 3) under the provisions of GASB Statement 40. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of December 31, 2019, the District was in compliance with state law which requires any uninsured cash balances with the fiscal agent bank to be adequately collateralized by a pledge of securities.

4. Receivables

Receivables represent revenues earned in 2019 and received in 2019 as follows:

Property Tax Receivable	\$ 420,838
State Revenue Sharing Receivable	 28,415
Receivables at December 31, 2019, Net	\$ 449,253

Ad valorem tax revenue and receivable has been recorded net of an allowance for uncollectible amounts. The allowance for uncollected taxes for 2019 is set at two percent of total assessed taxes and is based on historical averages. The allowance for uncollected ad valorem tax is adjusted periodically based on prior year collection experience.

5. Capital Assets

Capital assets and depreciation activity as of and for the year ended December 31, 2019, are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
	Dalance	Additions	Deletions	Dalance
Capital Assets Not Being Depreciated:				
Land	<u>\$ 23,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 23,000</u>
Total Capital Assets Not Being				
Depreciated	23,000	-	-	23,000
Other Capital Assets:				
Fire Houses	636,871	-	-	636,871
Fire Trucks	1,842,542	-	-	1,842,542
Fire Equipment	269,327	-	-	269,327
Office Equipment	12,329	-	-	12,329
Other Equipment	33,701			33,701
Total Other Capital Assets	2,794,770	-	-	2,794,770
Less Accumulated Depreciation:	(1,960,144)	(49,042)		(2,009,186)
Total Other Capital Assets, Net	834,626	(49,042)		785,584
Total	\$ 857,626	\$ (49,042)	<u>\$</u>	\$ 808,584

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated Lives		
Buildings and Building Improvements	10 - 40 Years		
Furniture & Fixtures	5 - 10 Years		
Vehicles	5 - 15 Years		
Equipment	5 - 10 Years		

6. Accounts Payable

Accounts payables at December 31, 2019, are as follows:

Vendor and Other Payables	\$ 7,283
Pension Fund Deduction Payable	 -
Total	\$ 7,283

7. Pension Plan – Firefighters' Retirement System of Louisiana

General Information about the Pension Plan

<u>Plan Description</u> – Employees of the District are eligible for participation in the Firefighters' Retirement System of Louisiana (the "Fire System") – a cost-sharing, multiple-employer defined benefit pension plan administered by a Board of Trustees and established by Act 434 of the 1979 Regular Session of the Louisiana Legislature. The Fire System issues a publicly available financial report that can be obtained at www.lafirefightersret.com/finance.html. The report may also obtained by writing to the Firefighters' Retirement System, 3100 Brentwood Drive, Baton Rouge, LA 70809, or by calling (225) 925-4060.

<u>Benefits Provided</u> – Any person who becomes an employee as defined in LRS 11:2252 on and after January 1, 1980 shall become a member as a condition of employment. No person who has attained age fifty or over shall become a member of the System, unless the person becomes a member by reason of a merger or unless the System received an application for membership before the applicant attained the age of fifty. No person who has not attained the age of eighteen years shall become a member of the System. Any person who has retired from service under any retirement system or pension fund maintained basically for public officers and employees of the state, its agencies or political subdivisions, and who is receiving retirement benefits therefrom may become a member of this System, provided the person meets all other requirements for membership. Service credit from the retirement system or pension plan from which the member is retired shall not be used for reciprocal recognition of service with this System, or for any other purpose in order to attain eligibility or increase the amount of service credit in this System.

<u>Deferred Retirement Option Plan</u> – After completing 20 years of creditable service and age 50 or 25 years at any age, a member may elect to participate in the deferred retirement option plan (DROP) for up to 36 months. Upon commencement of participation in the deferred retirement option plan, employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the deferred retirement option plan account. Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account of an annuity based on the

deferred retirement option plan account balance in addition to his regular monthly benefit. If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the deferred retirement option plan account until the participant retires.

<u>Initial Benefit Option Plan</u> – Effective June 16, 1999, members eligible to retire and who do not choose to participate in DROP may elect to receive, at the time of retirement, an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. Such amounts may be withdrawn or remain in the IBO account earning interest at the same rate as the DROP account.

<u>Contributions</u> – Per Act 434 of the 1979 Regular Session of the Louisiana Legislature, contribution rates for employees are established by state law and employer contribution rates are actuarially determined each year. Employees are required to contribute 10% of their annual pay. The District's contractually required contribution rate for the year ended December 31, 2019, was 26.50% for the period January 2019 through June 2019 and 26.50% for the period July 2019 through December 2019. Contributions to the Fire System from the District were \$106,674 for the year ended December 31, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2019, the District reported a liability of \$945,429 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's December 31, 2019, contributions to the pension plan, relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the District's proportion was 0.150981%, which was an increase of 0.008058% from its proportion measured as of June 30, 2018.

For the year ended December 31, 2019, the District recognized pension expense of \$109,470. At December 31, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Ou	Deferred utflows of esources	In	Deferred flows of esources
Differences Between Expected and Actual Experience	\$	-	\$	68,198
Changes of Assumptions		86,011		69
Net Difference Between Projected and Actual Earnings on				
Pension Plan Investments		63,577		-
Changes in Proportion and Differences Between District				
Contributions and Proportionate Share of Contributions		172,257		38,933
District Contributions Subsequent to the Measurement Date		53,337		-
	\$	375,182	\$	107,200

The \$53,337 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended:	
December 31, 2020	62,633
December 31, 2021	31,265
December 31, 2022	56,861
December 31, 2023	31,912
December 31, 2024	22,518
Thereafter	9,456

<u>Actuarial Assumptions</u> – The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment Rate of Return	7.15% per annum (net of fees)
Estimated Remaining Service Life	7 Years
Inflation	2.500% per annum
Salary Increases	Vary from 14.75% in the first two years of service to 4.50% after 25 years
Cost of Living Adjustments	Only those previously granted.

Mortality rates were based on the RP-2000 Employee Table for active members, the RP-2000 Healthy Annuitant Table for healthy annuitants, and the RP-2000 Disabled Lives Mortality Tables for disabled annuitants for Males or Females, as appropriate.

The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2014.

The estimated long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-Term			
Asset Class	Target Asset Allocation	Rates of I		
Asset Class	Allocation	Real	Nominal	
Fixed Income	31.00%	2.17%		
Equity:				
U.S. Equity	21.75%	5.98%		
Non-U.S. Equity	17.50%	7.52%		
Global Equity	10.00%	6.59%		
Alternatives:				
Real Estate	6.00%	4.14%		
Private Equity	4.00%	10.52%		
Multi-Asset Strateties:				
Global Tactical Asset Allocation	5.00%	4.37%		
Risk Parity	5.00%	4.67%		
System Total			5.19%	
Inflation			2.75%	
Expected Arithmetic Nominal Return			7.94%	

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from participating employers will be made at the actuarially determined rates approved by the Board of Trustees and PRSAC taking into consideration the recommendation of the Fire System's actuary. Based on those assumptions, the Fire System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.15%) or one percentage-point higher (8.15%) than the current rate:

	1.0% Decrease (6.15%)	Dis	Current count Rate (7.15%)	1.0% Increase (8.15%)
District's Proportionate Share of the Net Pension Liability	\$ 1,369,046	\$	945,429	\$ 589,878

<u>Pension Plan Fiduciary Net Position</u> – Detailed information about the pension plan's fiduciary net position is available in the separately issued Fire System financial report.

<u>Payables to the Pension Plan</u> – As of December 31, 2019, the District had payables totaling \$0 due to the System, which represents the employee and employer's share of the December 2019 contributions.

8. Tax Abatement

The Washington Parish Assessor's office has notified the District that for the year ended December 31, 2019, there we no tax abatements for any taxpayers located within the boundaries of the District.

9. Compensated Absences

At December 31, 2019, employees of the District have accumulated and vested \$24,038 of employee vacation benefits, which were computed in accordance with GASB Codification Section C60. This amount is recorded as a liability in the government-wide statement of net assets.

10. On-Behalf Payments

Supplementary salary payments are made by the State of Louisiana directly to certain District employees. The District is not legally responsible for these salaries. Therefore, the basis for recognizing the revenue and expenditure payments is actual contributions made by the State. For the fiscal year ended December 31, 2019, the State paid supplemental salaries to the District's employees in the amount of \$42,000.

11. Compensation Paid to Board Members

The following schedule of per diem payments to Board members is presented in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. The following is a breakdown of per diem paid to Board members:

Sidney A. Warner, Jr., President	\$ -
Clinton Miley, Vice President	-
Donna Phillips, Secretary/ Treasurer	-
Malcolm "Mac" Little, Board Member	-
Ronnie Manning, Board Member	-
Ruth K. Corkern, Board Member	-
Angelo Saladino, Sr., Board Member	-
Alvin "Boady" Stewart, Board Member	-
Total	\$ -

12. Contingent Liabilities

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by a comprehensive commercial insurance policy and workers compensation insurance. Claims resulting from these risks have historically not exceeded insurance coverage. Therefore, no accrual for any loss contingency has been made in the financial statements.

13. Subsequent Events

Management has evaluated the subsequent events through the date that the financial statements were available to be issued, September 17, 2020.

In March 2020, the COVID-19 virus began spreading throughout the United States. On March 22, 2020, Louisiana Governor John Bel Edwards issued a stay-at-home order limiting person-to-person contact and closing many non-essential businesses. Management has evaluated the possible impacts of this situation and does not believe that this will have a significant negative impact on the continuing operations of the District.

No other subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

14. Substantial Doubt About Washington Parish Fire Protection District No. 7 's Ability to Continue as a Going Concern

Increasing operating costs primarily related to salaries and related benefits for retirement and health insurance has resulted in recurring operating deficits which has significantly reduced the financial resources available to continue the District's operations at its current level. There exists substantial doubt about the District's ability to continue as a going concern unless operating costs are reduced significantly, or the District is able to secure additional sources of revenue to continue operations at its current level. Management and the Board of Commissioners has adopted a policy to eliminate all nonessential expenditures. Furthermore, on December 5, 2019, the Board of Commissioners adopted a resolution calling for a special election to collect an annual parcel fee of \$29.67 on each lot or subdivided parcel of land in the District. This parcel fee, if approved by the voters of the District, is expected to generate an additional \$125,000 in annual revenue for the District. The user fee is schedule to be on the ballot for the December 5, 2020.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <u>Government Auditing Standards</u>

To the Members of the Board of Commissioners of Washington Parish Fire Protection District No. 7 Bogalusa, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the general fund of Washington Parish Fire Protection District No. 7, a component unit of the Washington Parish Government, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Washington Parish Fire Protection District No. 7's basic financial statements, and have issued our report thereon dated September 17, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Washington Parish Fire Protection District No. 7's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Washington Parish Fire Protection District No. 7's internal control. Accordingly, we do not express an opinion on the effectiveness of Washington Parish Fire Protection District No. 7's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2019-001 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Washington Parish Fire Protection District No. 7's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2019-002.

Washington Parish Fire District No. 7's Response to Findings

Washington Parish Fire District No. 7's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Washington Parish Fire District No. 7's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Auditee qualified as low-risk audit?	Not Applicable

Section II – Financial Statement Findings

Internal Control over Financial Reporting

2019-001 – Financial Statement Preparation

Condition: As is common in small organizations, management has chosen to engage the audit firm to propose certain year-end adjusting journal entries and to prepare the annual financial statements. Consistent with this decision, internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, have not been fully implemented. Under generally accepted auditing standards (GAAS), this condition represents a material weakness in internal controls. GAAS does not provide exceptions to reporting deficiencies that are adequately mitigated with non-audit services rendered

	Washington Parish Fire Protection District No. 7 Bogalusa, Louisiana Schedule of Findings and Questioned Costs For the Year Ended December 31, 2019
	by the auditor or deficiencies for which the remedy would be cost prohibitive or otherwise impractical.
	This condition was also noted in the prior fiscal year.
Criteria:	Internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, are necessary in order for management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements of the financial statements on a timely basis.
Cause:	This condition is intentional by management based on the District's lack of financial complexity, along with the cost prohibitive nature of acquiring the ability to prepare financial statements.
Effect:	Management and employees are unable to prevent or detect and correct misstatements on a timely basis in the normal course of performing their assigned functions.
Recommendation:	We recommend no action be taken.
Management's Response:	See management's response dated September 17, 2020

<u>Compliance and Other Matters</u>

<u>2019-002 – Local Government Budget Act</u>

Condition:	The District may not have complied with certain provisions of the Local Government Budget Act.		
Criteria:	Budget procedures applicable to the District are specified in state law, LRS 39:1301- 1315. The pertinent parts of the law and the manner in which the District may not have complied are as follows:		
	• LRS 1311 (A) (2) requires the District to amend the budget when, "Total actual expenditures and other uses plus projected expenditures and other uses for the remainder of the year, within a fund, are exceeding the total budgeted expenditures and other uses by five percent or more."		
	During the fiscal year, actual expenditures in the General Fund exceeded the amounts originally budgeted by \$46,349 or 6.26%.		
Cause:	This cause of this condition appears to be due to year-end accounting adjustments and an oversight by management to amend the budget before year end.		
Effect:	Failure to follow the precise requirements of the Local Government Budget Act resulted in the District not being in compliance with the budget laws specified in LRS 39:1301 1315.		

Washington Parish Fire Protection District No. 7 Bogalusa, Louisiana Schedule of Findings and Questioned Costs For the Year Ended December 31, 2019				
Recommendation:	We recommend that the District continue to monitor its financial statements regularly and amend the budgets as needed.			
Management's Response:	See management's response dated September 17, 2020

September 17, 2020

James, Lambert, Riggs & Associates, Inc. Post Office Drawer 369 Hammond, Louisiana 70404

In your audit report for the year ended December 31, 2019, your reported the following findings.

2019 -001 - Financial Statement Preparation

2019 -002 - Local Government Budget Act

We have considered your recommendations for each finding and submit to you the following actions planned by the Fire District.

2019-001 - Financial Statement Preparation - The Fire District has limited financial resources and feel it is in the best interest of the Fire District to have the independent auditor prepare the proposed adjusting journal entries and the financial statements including footnote disclosures for our review and approval.

2019-002 - The Fire Chief of his designee will monitor the financial statements regularly and amend the budget as needed under the Local Government Budget Act requirements.

Respectfully sybmitted,

Signed: Warner, Jr., President Sidney Å.

Independent Accountants' Report on Applying Agreed-Upon Procedures

Mr. Sidney A. Warner, Jr., President and Members of the Board of Commissioners Bogalusa, Louisiana and the Louisiana Legislative Auditor

We have performed the procedures enumerated below, which were agreed to by the Washington Parish Fire Protection District No. 7 and the Louisiana Legislative Auditor on the control and compliance areas identified in the Louisiana Legislative Auditor's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2019 through December 31, 2019. The Washington Parish Fire Protection District No. 7's management is responsible for those control and compliance areas identified in the SAUPs. The sufficiency of these procedures is solely the responsibility of Washington Parish Fire Protection District No. 7 and the Louisiana Legislative Auditor. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are detailed in Schedule "A".

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*, issued by the Comptroller General of the United States. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on those control and compliance areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on those control and compliance areas identified in the SAUPs, and the results of that testing, and not to provide an opinion on control or compliance. This report is intended solely for the information and use of Washington Parish Fire Protection District No. 7 and the Louisiana Legislative Auditor. And is not intended to be and should not be used ay anyone other than those specified parties. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

James, Hambert Riggs

James Lambert Riggs & Associates, Inc. Hammond, Louisiana

Schedule A

Written Policies and Procedures

- 1. Obtain the entity's written policies and procedures and report whether those written policies and procedures address each of the following financial / business functions (or report that the entity does not have any written policies and procedures), as applicable:
 - a) *Budgeting*, including preparing, adopting, monitoring, and amending the budget

<u>Results:</u> We viewed the District's written policies and procedures for budgeting with no exceptions.

b) *Purchasing*, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.

<u>Results:</u> We viewed the District's written policies and procedures for purchasing with no exceptions.

c) Disbursements, including processing, reviewing, and approving

<u>Results:</u> We viewed the District's written policies and procedures for disbursements with no exceptions.

d) *Receipts*, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).

<u>**Results:**</u> We viewed the District's written policies and procedures for receipts / collections, no exceptions were noted.

e) *Payroll / Personnel*, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked

<u>**Results:**</u> We viewed the District's written policies and procedures for Payroll and Personnel with no exceptions.

f) *Contracting*, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process

<u>Results:</u> We viewed the District's written policies and procedures for contracting with no exceptions.

g) Credit Cards (and debit cards, fuel cards, P-Cards, if applicable), including (1) how cards are to be controlled,
 (2) allowable business uses, (3) documentation requirements, (4) required approvers, and (5) monitoring card usage

<u>Results</u>: We viewed the District's written policies and procedures for credit cards, debit cards, fuel cards, and p-cards (if applicable) with no exceptions.

h) *Travel and expense reimbursement*, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers

<u>Results</u>: We viewed the District's written policies and procedures for travel and expense reimbursement with no exceptions.

i) *Ethics*, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the entity's ethics policy. Note: Ethics requirements are not applicable to nonprofits.

<u>Results:</u> We viewed the District's written policies and procedures for ethics with no exceptions.

j) *Debt Service*, including (1) debt issuance approval, (2) EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements

Results: We viewed the District's written policies and procedures for debt with no exceptions.

k) Disaster Recovery / Business Continuity, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing / verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches / updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

Results: Currently, the District does not have a Disaster Recovery / Business Continuity policy in place. The District is currently working on implementing a policy and seeking approval by the board.

Ethics (excluding nonprofits)

- 2. Using the five randomly selected employees / officials from procedure #22 under "Payroll and Personnel" above, obtain ethics compliance documentation from management and report whether the entity maintained documentation to demonstrate that required ethics training was completed.
 - a) Observe that the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.

Results: No exceptions were noted for the above listed procedure.

b) Observe that the documentation demonstrates each employee/official attested through signature verification that he or she has read the entity's ethics policy during the fiscal period.

<u>Results:</u> No exceptions were noted for the above listed procedure.
