INDEPENDENT AUDITOR'S REPORT

Nicole Snoddy, City Marshal
Ville Platte City Marshal
Ville Platte, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of the Ville Platte City Marshal (Marshal), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Marshal's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Marshal, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Marshal and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Marshal's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Marshal's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Marshal's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule, pages 22 - 23, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Marshal has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marshal's basic financial statements. The justice system funding schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the justice system funding schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2024, on our consideration of the Marshal's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Marshal's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Marshal's internal control over financial reporting and compliance.

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Ville Platte City Marshal (Marshal) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. Financial Reporting Entity

The Ville Platte City Marshal is an elected official who serves a six-year term. The Marshal is charged with the responsibility of conducting policing and security for the Ville Platte City Court in Ville Platte, Louisiana. Operations of the Marshal's office are funded by the City of Ville Platte, Louisiana, the State of Louisiana, and court costs and fines charged by the Ville Platte City Court attributable to the performance of the Marshal's duties.

This report includes all funds and activities that are controlled by the Marshal as an independent political subdivision of the State of Louisiana. There are no component units required to be reported in conformity with generally accepted accounting principles.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The government-wide financial statements provide operational accountability information for the Marshal as an economic unit. The government-wide financial statements report the Marshal's ability to maintain service levels and continue to meet its obligations as they come due. The statements include all governmental activities of the Marshal. Fiduciary funds are omitted from the government-wide financial statements. The Marshal has no fiduciary funds.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Marshal's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Fund Financial Statements (FFS)

The accounts of the Marshal are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for within separate sets of self-balancing accounts, which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance-net position, revenues, expenditures/expenses, and transfers. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the Marshal. The emphasis of the fund financial statements is on major funds, each displayed in a separate column.

The General Fund is always a major governmental fund. Other individual governmental and enterprise major funds are determined as funds whose revenues, expenditures/expenses, assets and deferred outflows of resources, or liabilities and deferred inflows of resources are at least ten percent of the corresponding totals for all funds of that category or type (total governmental or total enterprise funds) and at least five percent of the corresponding total for all governmental and enterprise funds combined for funds designated as major at the discretion of the Marshal. Funds not classified as a major fund are aggregated and presented in a single column in the fund financial statements. The Marshal maintains one fund, which is categorized as a governmental fund. The fund used by the Marshal is described below.

Governmental Fund -

Governmental funds are those through which most governmental functions are financed. The acquisition, use, and balances of the Marshal's expendable financial resources and the related liabilities are accounted for through governmental funds.

General Fund

The General Fund is the general operating fund of the Marshal. It is used to account for all financial resources except those required to be accounted for in another fund.

C. Measurement Focus and Basis of Accounting

Measurement Focus

The measurement focus determines the accounting and financial reporting treatment applied to a fund.

The governmental activities within the government-wide statement of net position and statement of activities are presented using the economic resources measurement focus. The economic resources measurement focus meets the accounting objectives of determining net income, net position, and cash flows.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

The governmental funds use the current financial resources measurement focus. This measurement focus is based upon the receipt and disbursement of current available financial resources rather than upon net income.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred, or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. An exception to this is grants collected on a reimbursement basis. Those reimbursable grants are recognized as revenue when reimbursable expenditures are made. Expenditures are recognized when the related liability is incurred. Exceptions to this general rule include principal and interest on long-term debt and employee vacation and sick leave, which are recognized when due and payable.

Program revenues

Program revenues included in the statement of activities are derived directly from the program itself or from parties outside the Marshal's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the Marshal's general revenues.

Allocation of indirect expenses

The Marshal reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the statement of activities. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Equity

Cash and Interest-Bearing Deposits

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the Marshal.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include fines, commissions, and fees. The Marshal had no receivables at June 30, 2024.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenditures when consumed rather than when purchased.

Capital Assets

Capital assets, which include equipment and vehicles, are reported in the governmental activities column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their acquisition value at the date of donation. The Marshal maintains a threshold level of \$5,000 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows.

Equipment	5 years
Vehicles	5 years

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. There are no deferred inflows of resources or deferred outflows of resources as of June 30, 2024.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
- b. Restricted net position consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets. It is the Marshal's policy to use restricted net position prior to the use of unrestricted net position when both restricted and unrestricted net position are available for an expense which has been incurred.
- c. Unrestricted net position consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Nonspendable includes amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- b. Restricted includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed includes amounts that can be used only for specific purposes determined by a formal decision of the Marshal, which is the highest level of decision-making authority for the Marshal.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

- d Assigned includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Marshal's adopted policy, only the Marshal may assign amounts for specified purposes.
- e. Unassigned includes fund balance amounts which have not been classified within the above-mentioned categories.

It is the Marshal's policy to use restricted amounts first when both restricted and unrestricted fund balance is available unless prohibited by legal or contractual provisions. Additionally, the Marshal uses committed, assigned, and lastly unassigned amounts of fund balance in that order when expenditures are made

E. Revenues, Expenditures, and Expenses

Revenues

Fines, commissions, and fees are recorded when the Marshal is entitled to the funds. Substantially all other revenues are recorded when received.

Expenditures Expenses

In the government-wide financial statements, expenses are classified by character and function. In the fund financial statements, expenditures are classified by character.

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the Marshal may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Marshal may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2024, the Marshal had demand deposits in the amount of \$69,099.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Marshal's deposits may not be recovered or the collateral securities that are in the possession of an outside party will not be recovered. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security, or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Bank balances at June 30, 2024 in the amount of \$69,099 were secured in total by federal deposit insurance. The Marshal does not have a policy for custodial credit risk.

(3) Capital Assets

Capital asset activity for the year ended June 30, 2024 follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental activities:				
Equipment	\$ 6,875	\$ -	\$ -	\$ 6,875
Vehicles	82,159	12,995	-	95,154

Governmental activities, capital assets, net	\$ 79,048	\$ (6,978)	\$ -	\$ 72,070

Depreciation expense of \$19,973 was charged to the general government governmental activity

(4) Expenditures of the Marshal's Office Paid by the City of Ville Platte, Louisiana

The Marshal's administrative office is located in a building owned by the City of Ville Platte. The cost of maintaining and operating this building, as required by state statute, is paid by the City. These expenditures are not included in the accompanying financial statements.

Salaries and related benefits for the Marshal's office are paid by the City of Ville Platte and are not reimbursed by the Marshal's office. There are no liabilities related to salary and related benefits attributable to the Marshal's office.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Notes to Basic Financial Statements (Continued)

(5) On-behalf Payments

GASB Statement No. 24, *Accounting for Financial Reporting for Certain Grants and Other Financial Assistance*, requires the Marshal to report in the financial statements on-behalf salary and fringe benefit payments made by the City of Ville Platte to certain employees of the Marshal's office.

Supplemental salary payments are made from the City of Ville Platte directly to the Marshal's employees. The Marshal is not legally responsible for these salaries. Therefore, the basis for recognizing the revenue and expenditure payments is the actual contributions made by the City of Ville Platte. On-behalf payments in the amount of \$455,740 were recorded as revenue and expenditures in the 2024 financial statements.

(6) Compensation, Benefits, and Other Payments to Agency Head

A detail of compensation, benefits, and other payments to Nicole Snoddy, Marshal for the year ended June 30, 2024 follows:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Nicole Snoddy, City Marshal
Ville Platte City Marshal
Ville Platte, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Ville Platte City Marshal (Marshal), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Marshal's basic financial statements and have issued our report thereon dated October 24, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Marshal's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Marshal's internal control. Accordingly, we do not express an opinion on the effectiveness of the Marshal's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control described in the accompanying schedule of current and prior year audit findings and management's corrective action plan as items 2024-001 and 2024-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Marshal's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of current and prior year audit findings and management's corrective action plan as item 2024-003.

Ville Platte City Marshal's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Marshal's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Marshal's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Schedule of Current and Prior Year Audit Findings
and Management's Corrective Action Plan
For the Year Ended June 30, 2024

Part I. Findings reported in accordance with *Government Auditing Standards*

A. Internal Control Findings

2024-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: 2023

CONDITION: The Marshal did not have adequate segregation of functions within the accounting system.

CRITERIA. AU-C §315.04, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement*, defines internal control as follows: "Internal control is a process, effected by those charged with governance, management, and other personnel, designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations."

CAUSE: The Marshal does not have a sufficient number of staff performing administrative and financial responsibilities so as to provide segregation of accounting and financial duties.

EFFECT: Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities, including fraud and/or defalcations, may occur and not be prevented and/or detected.

RECOMMENDATION: Management should reassign incompatible duties among different employees to ensure that a single employee does not have control of more than one of the following responsibilities: (1) authorization; (2) custody; (3) recordkeeping; and (4) reconciliation.

MANAGEMENT'S CORRECTION ACTION PLAN: The Marshal has determined that it is not cost effective to achieve complete segregation of duties within the accounting functions.

2024-002 Written Policies and Procedures

Fiscal year finding initially occurred: 2023

CONDITION: The Marshal did not have written policies and procedures for purchasing/disbursements, receipts/collections, contracts, travel, credit cards, ethics, information technology, prevention of sexual harassment, and traffic tickets.

CRITERIA. Formal written policies and procedures are necessary as a clear understanding of what should be done, how it should be done, who should do it, and when it should be done and ensure the procedures followed meet management's expectations. Written procedures aid in the continuity of operations and for cross-training staff.

CAUSE: The Marshal has not properly documented its policies and procedures.

VILLE PLATTE CITY MARSHAL
Ville Platte, Louisiana

Schedule of Current and Prior Year Audit Findings
and Management's Corrective Action Plan (Continued)
For the Year Ended June 30, 2024

EFFECT: Failure to adopt formal written policies and procedures increases the risk that improper use of the Marshals assets or violations of policy may occur and not be identified.

RECOMMENDATION: The Marshal should adopt formal written policies and procedures for purchasing/disbursements, receipts/collections, contracts, travel, credit cards, ethics, information technology, prevention of sexual harassment, and traffic tickets.

MANAGEMENT'S CORRECTION ACTION PLAN: The Marshal will adopt formal written policies and procedures for purchasing/disbursements, receipts/collections, contracts, travel, credit cards, ethics, information technology, prevention of sexual harassment, and traffic tickets.

B. Compliance Findings

2024-003 Compliance with Budget Act

Fiscal year finding initially occurred: 2023

CONDITION: Actual expenditures exceeded budgeted expenditures by five percent or more in the General Fund.

CRITERIA: LRS 39:1311 et seq, *Budgetary Authority and Control*, provides for "amending the budget when total revenue plus projected revenue are failing to meet total budget revenues by 5% or more, or when total expenditures plus projected expenditures exceed budgeted expenditures by 5% or more."

CAUSE: The Marshal failed to include on-behalf revenue and expenditures in the budget.

EFFECT: The budget may not be used as an effective management tool to control expenditures.

RECOMMENDATION: We recommend that the Marshal includes on-behalf revenue and expenditures in the annual budget.

MANAGEMENT'S CORRECTION ACTION PLAN: The Marshal will comply with all requirements of RS 39:1311 of the Local Government Budget Act.
