INDEPENDENT AUDITOR'S REPORT

* A Professional Accounting Corporation

WWW.KSRCPAS.COM

Board of Commissioners
St. Landry Fire Protection District No. II
Port Barre, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and major fund of the St. Landry Fire Protection District No. II (the District), a component unit of the St. Landry Parish Government, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of St. Landry Fire Protection District No. II, as of December 31, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule, schedule of employer's share of net pension liability, and schedule of employer contributions on pages 28 through 30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of, the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information on pages 33 through 35 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The comparative balance sheets on page 33 and the comparative statements of revenues, expenditures, and changes in fund balance on page 34 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The prior year comparative amounts on this information were derived from the District's 2017 financial statements, which were subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, were fairly presented in all material respects in relation to the basic financial statements from which they were derived.

The schedule of expenditures compared to budget on page 35 has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Reconciliation of the Governmental Fund Balance Sheet
to the Statement of Net Position
December 31, 2018

Total fund balance for the governmental fund at December 31, 2018		\$7,130,853
Total net position reported for the governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Those assets consist of:		
Land	\$ 36,659	
Depreciable assets, net of \$1,755,108 accumulated depreciation	<u>1,855,917</u>	1,892,576
The deferred outflows of expenditures for pensions are not a use of current resources and, therefore, are not reported in the funds		1,273,872
Long term liabilities are not due and payable in the current period and, therefore, not reported in the governmental funds.		
Long-term liabilities at December 31, 2018:		
Net pension liability		(2,474,481)
Some of the District's ad valorem taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and, therefore, are reported as deferred inflows of resources at the fund level.		94,019
The deferred inflows of contributions for the pension plan are not available resources and, therefore, are not reported in the funds		<u>(188,728)</u>
Total net position of governmental activities at December 31, 2018		<u>\$7,728,111</u>

The accompanying notes are an integral part of the basic financial statements.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Statement of Revenues, Expenditures, and Changes in Fund Balance
Governmental Fund
Year Ended December 31, 2018

	<u>General Fund</u>
Revenues:	
Ad valorem taxes	\$ 1,964,017
Intergovernmental revenues -	
State revenue sharing	32,312
Fire insurance rebate	21,239
On-behalf payments	137,867
Other income	76,514
Interest income	17,657
Total revenues	2,249,606
Expenditures:	
Current -	
Public safety - fire	2,561,251
Capital outlay	262,094
Total expenditures	2,823,345
Net change in fund balance	(573,739)
Fund balance, beginning	7,704,592
Fund balance, ending	\$ 7,130,853

The accompanying notes are an integral part of the basic financial statements.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balance of Governmental Fund
to the Statement of Activities
For the Year Ended December 31, 2018

Total net change in fund balance for the year ended December 31, 2018 per statement of revenues, expenditures and changes in fund balance		\$(573,739)
The change in net position reported for governmental activities in the statement of activities is different because:		
<p>The governmental fund reports capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>		
	\$ 262,094	
Loss on disposal of assets	(50)	
Depreciation expense for the year ended December 31, 2018	<u>(218,741)</u>	43,303
<p>Some revenues are not considered measurable at year end, therefore, they are not considered "available" revenues in the governmental funds</p>		
Non employer pension contributions		111,651
<p>Some of the District's ad valorem taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are reported as deferred inflows of resources at the fund level.</p>		
		2,338
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental fund.</p>		
Pension expense		<u>(346,284)</u>
Total change in net position for the year ended December 31, 2018 per statement of activities		<u>\$(762,731)</u>

The accompanying notes are an integral part of the basic financial statements.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the St. Landry Fire Protection District No. II (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. Financial Reporting Entity

The St. Landry Parish Fire Protection District No. II is a component unit of the St. Landry Parish Government. The District was established in 1955 to provide fire protection and rescue service for the residents of the District.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net position and statement of activities display information about the reporting government as a whole. They include the fund of the reporting entity, which is considered to be a governmental activity.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements (FFS)

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

The fund of the District is classified as a governmental fund. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. The District has only one fund, a governmental fund. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- a. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The major fund of the Fire District is described below:

Governmental Fund -

General Fund

The General Fund, as provided by Louisiana Revised Statute 13:781 is the principal fund of the District and is used to account for the operations of the District. General operating expenditures are paid from this fund.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net position and the statement of activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) associated with its activities are reported. Government-wide fund equity is classified as net position. In the fund financial statements, the “current financial resources” measurement focus is used. Only current financial assets and liabilities are generally included on its balance sheet. Their operating statement presents sources and uses of available spendable financial resources during a given period. This fund uses fund balance as its measure of available spendable financial resources at the end of the period.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Basis of Accounting

In the government-wide statement of net position and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues are classified by source and expenditures are classified by function and character. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

The District reports deferred inflows of resources on its governmental fund balance sheet. For governmental fund financial statements, deferred inflows arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred inflows also arise when resources are received before the District has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the deferred inflow is removed from the balance sheet and revenue is recognized.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Equity

Cash and interest-bearing deposits

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the District.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not received.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	10 - 40 years
Equipment, furniture and fixtures	5 - 10 years
Fire engines	5 - 10 years

Employee Benefit Policy

Employees of the District who have been employed for one year earn 18 days of vacation pay. After ten years of service, they earn one additional day of vacation pay for each year worked up to the maximum of 30 days. All employees are entitled to 365 days sick pay after being employed for three months. No sick pay is paid upon resignation or retirement. Employees of the District are not allowed to carry over vacation; therefore no accruals have been made for accumulated unpaid vacation and sick leave.

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. At December 31, 2018, the District recognized \$94,019 of deferred inflows of resources resulting from property tax collections received more than 60 days after the close of the fiscal year in the fund financial statements. On the government-wide financial statements, the District also recognized deferred inflows of resources and deferred outflows of resources attributable to its pension plan.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
- b. Restricted net position – Net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the District's debt. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
- c. Unrestricted net position – Consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

In the fund financial statements, governmental fund equity is classified as fund balance. As such, fund balances of the governmental fund are classified as follows.

- a. Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- b. Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed – amounts that can be used only for specific purposes determined by a formal decision of the Board, which is the highest level of decision-making authority for the District.
- d. Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes determined by a formal decision of the Board.
- e. Unassigned – all other spendable amounts.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

When an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District has provided otherwise in its commitment or assignment actions.

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The District may invest in United States bonds, treasury notes, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2018, the District's cash and interest-bearing deposits (book balances) consisted of demand deposits totaling \$5,262,198.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the District or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at December 31, 2018, are secured as follows:

Bank balances	<u>\$ 5,261,305</u>
Secured by:	
Federal deposit insurance	\$ 250,000
Pledged securities	<u>5,011,305</u>
	<u>\$ 5,261,305</u>

Deposits in the amount of \$5,011,305 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the District's name. The District does not have a policy for custodial credit risk.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

(3) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied in September or October and billed to the taxpayers by the St. Landry Parish Sheriff in November. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year. The taxes are based on assessed values determined by the St. Landry Assessor and are collected by the St. Landry Parish Sheriff.

For the year ended December 31, 2018, taxes were levied at the rate of 17.58 mills on property with net assessed valuations totaling \$117,904,991. The total assessment of 17.58 mills consists of one tax levy: 17.58 mills assessed in 2010, expiring in 2019.

Total taxes levied during 2018 were \$2,072,772, excluding \$153,776 due to homestead exemption. Taxes receivable at December 31, 2018 of \$373,157 consisted of \$441,936 gross taxes receivable less an allowance for uncollectible accounts of \$68,779.

(4) Due from Other Governmental Agencies

The balance in due from other governmental agencies of \$1,624,515 consisted of \$1,592,203 due from St. Landry Parish Sheriff and \$32,312 due from the State of Louisiana at December 31, 2018.

(5) Capital Assets

Capital asset balances and activity for the year ended December 31, 2018 are as follows:

	Balance 01/01/18	Additions	Deletions	Balance 12/31/18
Land	\$ 36,659	\$ -	\$ -	\$ 36,659
Construction in progress	43,000	242,589	285,589	-
Buildings and improvements	1,122,665	285,589	-	1,408,254

Net Capital Assets	<u>\$ 1,849,273</u>	<u>\$ 328,942</u>	<u>\$ 285,639</u>	<u>\$ 1,892,576</u>

Depreciation expense of \$218,741 was charged to the public safety function.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

(6) Employee Retirement Systems

The District participates in a cost-sharing defined benefit plan, administered by a public employee retirement system. Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of the plan administered by the public employee retirement system to the State Legislature. The plan is not closed to new entrants. Substantially all District employees participate in the following retirement system:

Plan Description:

State of Louisiana – Firefighters’ Retirement System (FRS) provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:2251-2254 and 11:2256.

The system’s financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Interest income is recognized when earned.

A brief summary of eligibility and benefits of the plan is provided in the following table:

Final average salary	Highest 36 months
Years of service required and/or age eligible for benefits	25 years of any age 20 years age 50 12 years age 55
Benefit percent per years of service	3.33%

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer’s portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems’ Actuarial Committee. For the year ended December 31, 2018, the contribution percentages for employees and employer were 10.0% and 26.50%, respectively. The amounts contributed from non-employer contributing entities and from the District for the year ended December 31, 2018 were \$111,651 and \$278,307, respectively.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Net Pension Liability

The District's net pension liability at December 31, 2018 of \$2,474,481 is comprised of its proportionate share of the net pension liability relating to the cost-sharing plan in which the District is a participating employer. The District's net pension liability for the plan was measured as of the plan's measurement date (June 30, 2018) and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability for the plan in which it participates was based on the District's required contributions in proportion to total required contributions for all employers.

As of the most recent measurement date, the District's proportion for the plan was 0.430189% and the change in proportion from the prior measurement date was an increase of 0.05133%.

Since the measurement date of the net pension liability was June 30, 2018, the net pension liability is based upon fiduciary net position for the plan as of that date. Detailed information about the pension plan's assets, deferred outflows, deferred inflows, and fiduciary net position that was used in the measurement of the District's net pension liability is available in the separately issued plan financial report which may be accessed on their website at <http://www.ffret.com>.

Actuarial Assumptions

The following table provides information concerning actuarial assumptions used in the determination of the total pension liability for the defined benefit plan in which the District is a participating employer:

Date of experience study on which significant assumptions are based	7/1/2009 - 6/30/2014
Expected remaining service lives	7
Inflation Rate	2.700%
Projected salary increases	4.75% - 15.0%
Projected benefit changes including COLAs	None
Source of mortality assumptions	(1), (2)
(1) RP-2000 Disabled Lives Mortality Table for disabled annuitants set back 5 years for males and 3 years for females.	
(2) RP-2000 Combined Healthy with Blue Collar Adjustment Sex Distinct Table Projected to 2031 using Scale AA.	

Cost of Living Adjustments

The pension plan in which the District participates has the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Pursuant to LRS 11:242(B), the power of the Board of Trustees of the statewide system (FRS) to grant a COLA is effective in calendar years that the legislature fails to grant a COLA, unless in the legislation granting a COLA, the legislature authorizes the Board of Trustees to provide an additional COLA. The authority to grant a COLA by the Board is subject to the funded status and interest earnings. The effects of the benefit changes made as a result of the COLAs is included in the measurement of the total pension liability as of the measurement date at which the ad hoc COLA was granted and the amount is known and reasonably estimable.

Discount Rate

The discount rate used to measure the District's total pension liability for the plan and the significant assumptions used in the determination of the discount rate for the plan are as follows:

Discount rate	7.30%
Change in discount rate from prior valuation	-0.10%
Plan cash flow assumptions	(1)
Rates incorporated in the Discount Rate:	
Long-term Rate of Return	7.30%
Periods applied	All
Municipal Bond Rate	N/A

***Plan Cash Flow Assumptions:**

- 1) Plan member contributions will be made at the current contributions rates and sponsor contributions will be made at the actuarially determined rates.

The discount rate used to measure the District's total pension liability for the plan is equal to the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits. The long-term expected rate of return for the plan was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized for the plan in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return *
Domestic Fixed Income	26%	1.76%
Domestic Equity	22%	6.14%
International Equity	22%	7.46%
Global Equity	10%	6.74%
Global Tactical Asset Allocation	5%	4.31%
Risk Parity	5%	4.89%
Private Equity	4%	8.73%
Real Estate	6%	4.38%
Total	<u>100%</u>	<u>5.39%</u>
Inflation/Rebalancing		<u>2.70%</u>
Expected Return		<u>8.09%</u>

*Arithmetic real rates of return

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

Changes in the net pension liability may either be reported in pension expense in the year the change occurred or recognized as a deferred outflow of resources or a deferred inflow of resources in the year the change occurred and amortized into pension expense over a number of years. For the year ended December 31, 2018, the District recognized \$625,339 in pension expense related to the defined benefit plan in which it participates.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

At December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 188,336
Changes of assumptions	172,620	392
Net difference between projected and actual earnings on pension plan investments	160,903	-
Change in proportion and differences between employer contributions and proportionate share of contributions	802,325	-
Employer contributions subsequent to the measurement date	<u>138,024</u>	<u>-</u>
Total	<u>\$ 1,273,872</u>	<u>\$ 188,728</u>

Deferred outflows of resources of \$138,024 resulting from the employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability during the year ending December 31, 2019. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions to be recognized in pension expense are as follows:

<u>Year Ended December 31</u>	<u>Net Amount Recognized in Pension Expense</u>
2019	\$ 341,252
2020	247,140
2021	84,591
2022	147,423
2023	86,661
Thereafter	<u>40,053</u>
	<u>\$ 947,120</u>

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

Sensitivity of the District's Proportional Share of the Net Pension Liabilities to Changes in the Discount Rate:

The following presents the District's proportionate share of the net pension liabilities of the plan, calculated using its respective discount rate of 7.3%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
Net Pension Liability	\$3,610,852	\$ 2,474,481	\$1,519,537

Payables to Pension Plan

Included in accounts and other liabilities at December 31, 2018 was the District's payable to FRS of \$18,635, which was the contractually required contribution for the month of December 2018.

(7) Risk Management

The District is exposed to risks of loss in the areas of auto and property liability and surety bonds. All of these risks are handled by purchasing commercial insurance coverage. There have been no significant reductions in the insurance coverage during the year, nor have settlements exceeded coverage for the past three years.

(8) On-Behalf Payment of Salaries

The State of Louisiana paid the District's firemen \$137,867 of supplemental pay during the year ended December 31, 2018. Such payments are recorded as intergovernmental revenues and public safety expenditures.

(9) Litigation

As of December 31, 2018, the District is not involved in any litigation.

(10) Compensation of Board Members

A detail of compensation paid to Board Members for the year ended December 31, 2018 follows:

John P. Ardoin, Secretary/Treasurer	\$ 8,094
James Kennison	900
John Lamury	675
Don LeBlanc, Chairman	5,184
Malcolm LeJeune	375
Michael Savant	75
Jerry Soileau	825
Total	\$ 16,128

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Notes to the Basic Financial Statements (Continued)

The schedule of compensation paid to board members was prepared in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. Board members received \$75 per diem for attendance at regular meetings of the Board and the chairman received \$357 per month as an expense allowance. John Ardoin receives additional compensation because he functions as both secretary and treasurer, which involves bookkeeping duties for the department.

(11) Compensation, Benefits, and Other Payments to Agency Head

A detail of amounts paid to Roy Hardy, Fire Chief, for the year ended December 31, 2018 follows:

Purpose:	Amount
Salary	\$ 108,326
Benefits- retirement and other taxes	8,287
Benefits- insurance	5,913
Cell phone	3,641
Total	<u>\$ 126,167</u>

Notes to the Required Supplementary Information

(1) Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Prior to January 1, the Chairman submits to the Board a proposed budget for the ensuing year. The operating budget includes proposed expenditures and the means of financing them.
- b. A public hearing is held on the proposed budget at least ten days after publication of the call for a hearing.
- c. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is legally adopted prior to the commencement of the fiscal year for which the budget is being adopted.
- d. All budgetary appropriations lapse at the end of each fiscal year.
- e. The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts included in the accompanying financial statements are as originally adopted or as finally amended by the Fire District. Such amendments were not material in relation to the original appropriations.

(2) Pension Plan

Changes of assumptions about future economic or demographic factors or of other outputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that were provided with pensions through the pension plan. These assumptions include the rate of investment return, mortality of plan members, rate of salary increase, rates of retirement, rates of termination, rates of disability, and other various factors that have an impact on the cost of the plan.

(3) Excess of Expenditures Over Appropriations

For the year ended December 31, 2018, the General Fund had actual expenditures over appropriations, at the functional level, as follows:

Function	Budget	Actual	Excess
Public safety	\$2,522,660	\$2,561,251	\$ (38,591)
Capital outlay	212,502	262,094	(49,592)

INDEPENDENT AUDITOR'S
REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

* A Professional Accounting Corporation

Board of Commissioners
St. Landry Fire Protection District No. II
Port Barre, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the St. Landry Fire Protection District No. II (the District), a component unit of the St. Landry Parish Government as of and for the year ended December 31, 2018, and the related notes to the financial statements, which comprise the District's basic financial statements and have issued our report thereon dated June 28, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan, we identified a certain deficiency in internal control that we consider to be a material weakness. We consider the deficiency described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan as item 2018-001 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's Response to Findings

The District's response to the findings identified in our audit is described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Summary Schedule of Current and Prior Year Findings
and Management's Corrective Action Plan

Part I. Current Year Findings and Management's Corrective Action Plan

A. Internal Control Findings -

2018-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: 2007

CONDITION The District did not have adequate segregation of functions within the accounting system.

CRITERIA: The District should have a control which results in no person being given responsibility for more than one related function.

CAUSE: Due to the size of the District, there are a small number of available employees.

EFFECT: The District has employees that are performing more than one related function.

RECOMMENDATION: The District should establish and monitor mitigating controls over functions that are not completely segregated.

MANAGEMENT'S CORRECTIVE ACTION PLAN: Due to the size of the operations and the cost benefit of additional personnel, it may not be feasible to achieve complete segregation of duties.

B. Compliance Findings

There were no compliance findings.

Part II. Prior Year Findings

A. Internal Control Findings -

2017-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: 2007

CONDITION Due to the small number of employees, the District did not have adequate segregation of functions within the accounting system.

RECOMMENDATION: The District should establish and monitor mitigating controls over functions that are not completely segregated.

CURRENT STATUS: Unresolved. See finding 2018-001.

ST. LANDRY FIRE PROTECTION DISTRICT NO. II
Port Barre, Louisiana

Summary Schedule of Current and Prior Year Findings
and Management's Corrective Action Plan (Continued)

2017-002 Qualified Staff Person to Apply GAAP

Fiscal year finding initially occurred: 2007

CONDITION The District did not have a staff person with the necessary qualifications and training to apply GAAP in recording their financial transactions or to prepare their financial statements and related notes.

RECOMMENDATION: The District should evaluate the cost-benefit of establishing internal controls over the preparation of the financial statements and related notes in accordance with GAAP.

CURRENT STATUS: Resolved.

B. Compliance Findings –

2017-003 Noncompliance With Ethics Training Requirements

Fiscal year finding initially occurred: 2017

CONDITION The District's employees did not complete their annual ethics training in accordance with Louisiana Revised Statute 42:1170.

RECOMMENDATION: The District should ensure that each employee participates in the one hour of education and training on the Code of Governmental Ethics.

CURRENT STATUS: Resolved.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

WWW.KCSRPCAS.COM

* A Professional Accounting Corporation

To the Board of Commissioners of the St.
Landry Fire Protection District No. II
and the Louisiana Legislative Auditor

We have performed the procedures enumerated below, which were agreed to by the St. Landry Fire Protection District No. II (District) and the Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2018 through December 31, 2018. The District's management is responsible for those C/C areas identified in the SAUPs.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Written Policies and Procedures

1. We obtained and inspected the District's written policies and procedures and observed that they addressed each of the following categories and subcategories (if applicable to public funds and the District's operations):
 - a) ***Budgeting***, including preparing, adopting, monitoring, and amending the budget.
 - b) ***Purchasing***, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.
 - c) ***Disbursements***, including processing, reviewing, and approving.
 - d) ***Receipts/Collections***, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
 - e) ***Payroll/Personnel***, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.

- f) **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- g) **Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)**, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- h) **Travel and expense reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- i) **Ethics**, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the District's ethics policy.
- j) **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.

Board or Finance Committee

- 2. We obtained and inspected the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - a) We observed that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
 - b) We observed that the minutes referenced or included monthly budget-to-actual comparisons on the General Fund and major special revenue funds, as well as monthly financial statements (or budget-to-actual comparisons, if budgeted) for major proprietary funds.
 - c) We obtained the prior year audit report and observed the unrestricted fund balance in the General Fund. If the General Fund had a negative ending unrestricted fund balance in the prior year audit report, observed that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unrestricted fund balance in the General Fund.

Bank Reconciliations

- 3. We obtained a listing of client bank accounts for the fiscal period from management and management's representation that the listing is complete. We asked management to identify the District's main operating account, which was the District's only bank account. We randomly selected one month from the fiscal period, obtained and inspected the corresponding bank statement and reconciliation for the bank account, and observed that:
 - a) The bank reconciliation included evidence that it was prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);
 - b) The bank reconciliation included evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed the bank reconciliation (e.g., initialed and dated, electronically logged); and
 - c) Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date if applicable.

Collections

4. We obtained a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. There was only one deposit site.
5. For the deposit site tested, we obtained a listing of collection locations and management's representation that the listing is complete. There was only one collection location. We obtained and inspected written policies and procedures relating to employee job duties (if no written policies or procedures, we inquired of employees about their job duties) at the collection location, and observed that job duties are properly segregated at the collection location such that:
 - a) Employees that are responsible for cash collections do not share cash drawers/registers.
 - b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.
 - c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
 - d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.
6. We inquired of management that all employees who have access to cash are covered by a bond or insurance policy for theft.
7. We randomly selected two deposit dates for the District's bank account determined for procedure #3 under "Bank Reconciliations" above (selected the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly selected a deposit if multiple deposits are made on the same day). *Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc.* We obtained supporting documentation for the two deposits and:
 - a) Observed that receipts are sequentially pre-numbered.
 - b) Traced sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
 - c) Traced the deposit slip total to the actual deposit per the bank statement.
 - d) Observed that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).
 - e) Traced the actual deposit per the bank statement to the general ledger.

Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

8. We obtained a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. We selected the one location that processes payments.
9. For each location selected under #8 above, we obtained a listing of those employees involved with non-payroll purchasing and payment functions. We obtained written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observed that job duties are properly segregated such that:
 - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - b) At least two employees are involved in processing and approving payments to vendors.
 - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
 - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.
10. For each location selected under #8 above, we obtained the District's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtained management's representation that the population is complete. We randomly selected 5 disbursements for each location, obtained supporting documentation for each transaction and:
 - a) We observed that the disbursement matched the related original invoice/billing statement.
 - b) We observed that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

Credit Cards/Debit Cards/Fuel Cards/P-Cards

11. We obtained from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. We obtained management's representation that the listing was complete.
12. Using the listing prepared by management, we selected 3 cards (or all cards if less than 5) that were used during the fiscal period. We randomly selected one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtained supporting documentation, and:
 - a) Observed that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.
 - b) Observed that finance charges and late fees were not assessed on the selected statements.
13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly selected 10 transactions (or all transactions if less than 10) from each statement, and obtained supporting documentation for the transactions (i.e. each card should have 10 transactions subject to testing). For each transaction, observed that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participated in meals (for meal charges only).

Travel and Travel-Related Expense Reimbursements (excluding card transactions)

(The following procedures were not performed since there were no exceptions in the prior year.)

14. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
- a) If reimbursed using a per diem, agree the reimbursement rate to those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).
 - b) If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
 - c) Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).
 - d) Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Contracts

(The following procedures were not performed since there were no exceptions in the prior year.)

15. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:
- a) Observe that the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
 - b) Observe that the contract was approved by the governing body/board, if required by policy or law (e.g. Lawrason Act, Home Rule Charter).
 - c) If the contract was amended (e.g. change order), observe that the original contract terms provided for such an amendment.
 - d) Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

Payroll and Personnel

16. We obtained a listing of employees/elected officials employed during the fiscal period and management's representation that the listing is complete. We randomly selected 5 employees/officials, obtained related paid salaries and personnel files, and agreed paid salaries to authorized salaries/pay rates in the personnel files.

17. We randomly selected one pay period during the fiscal period. For the 5 employees/officials selected under #16 above, we obtained attendance records and leave documentation for the pay period, and:
 - a) We observed that all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, an elected official is not eligible to earn leave and does not document his/her attendance and leave. However, if the elected official is earning leave according to policy and/or contract, the official should document his/her daily attendance and leave.)
 - b) We observed that supervisors approved the attendance and leave of the selected employees/officials.
 - c) We observed that any leave accrued or taken during the pay period is reflected in the District's cumulative leave records.
18. We obtained a listing of those employees/officials that received termination payments during the fiscal period and management's representation that the list is complete. We randomly selected two employees/officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations, agree the hours to the employee/officials' cumulative leave records, and agreed the pay rates to the employee/officials' authorized pay rates in the employee/officials' personnel files.
19. We obtained management's representation that employer and employee portions of payroll taxes, retirement contributions, health insurance premiums, and workers' compensation premiums have been paid, and associated forms have been filed, by required deadlines.

Ethics

20. Using the 5 randomly selected employees/officials from procedure #16 under "Payroll and Personnel" above, obtain ethics documentation from management, and:
 - a) We observed that the documentation demonstrated each employee/official completed one hour of ethics training during the fiscal period.
 - b) We observed that the documentation demonstrated each employee/official attested through signature verification that he or she has read the District's ethics policy during the fiscal period.

Debt Service

(The following procedures were not performed since there were no exceptions in the prior year.)

21. Obtain a listing of bonds/notes issued during the fiscal period and management's representation that the listing is complete. Select all bonds/notes on the listing, obtain supporting documentation, and observe that State Bond Commission approval was obtained for each bond/note issued.
22. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants.

Other

(The following procedures were not performed since there were no exceptions in the prior year.)

23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the District reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the District is domiciled.
24. Observe that the District has posted on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

Exceptions:

No exceptions were found as a result of applying the procedures listed above except:

Written Policies and Procedures:

1. The District does not have written policies and procedures for budgeting, purchasing, disbursements, receipts/collections, payroll/personnel, contracting, credit cards, travel and expense reimbursement, and ethics.

Management's response: The District will develop written policies and procedures to address the categories specified above.

Bank Reconciliations:

2. The District's bank reconciliations do not include evidence of management's review.

Management's response: The District will implement procedures to ensure management's review is documented on bank reconciliations.

Collections:

3. The employee who has access to cash was not covered by a bond or insurance policy for theft.

Management's response: The District will obtain a bond or insurance policy for theft for the employee responsible for collecting cash.

4. Dates of cash collections could not be determined based upon information obtained from the District; therefore, timely deposits could not be tested.

Management's response: The District will implement a policy to document the dates of all collections and all collections will be deposited timely.

Credit Cards/Debit Cards/Fuel Cards/P-Cards:

5. One of the credit cards selected had a late fee on it.

Management's response: Management will ensure that credit card payments are made in a timely manner.

6. The District did not have supporting documentation on four credit card charges.

Management's response: Management will attach supporting documentation for all credit card charges.

7. The District did not state a public purpose on five credit card charges.

Management's response: Management will document the business purpose on all invoices and/or receipts.

8. The District did not list names of meal participants on meal ticket.

Management's response: Management will document participants for all meals.

Ethics:

9. The District did not require all employees, including elected officials, to annually attest through signature verification that they have read the District's ethics policy.

Management's response: The District will have its employees sign that they have read the ethics policy.

We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
