Notes to Basic Financial Statements

December 31, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cameron Parish Recreation District No. 7 was created by the Cameron Parish Police Jury as authorized by Louisiana Revised Statute 33:4562. The District is governed by a board of seven commissioners who are appointed by the Cameron Parish Police Jury. The District owns and operates recreational facilities and engages in activities designed to encourage recreation and promote the general health and well being of youths of the community.

1. Reporting Entity

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Statement No. 14, Cameron Parish Recreation District No. 7 includes all funds, account groups, et cetera, that are within the oversight responsibility of the Cameron Parish Recreation District No. 7.

As the governing authority, for reporting purposes, the Cameron Parish Police Jury is the financial reporting entity. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Cameron Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability.

The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body and
  - a. The ability of the Cameron Parish Police Jury to impose its will on that organization and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Cameron Parish Police Jury.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2. Organizations for which the Cameron Parish Police Jury does not appoint a voting majority but are fiscally dependent on the Cameron Parish Police Jury.
3. Organizations for which the reporting entity financial statements could be misleading if data of the organization is not included because of the nature of significance of the relationship.

Based upon the application of these criteria, Cameron Parish Recreation District No. 7 of is a component unit of the Cameron Parish Police Jury's reporting entity.

2. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments", issued in June 1999.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. They include all funds of the reporting entity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. The statement of activities presents a comparison between direct expenses and program revenues for each of the functions of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of services offered by the District; and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities.

CAMERON PARISH RECREATION DISTRICT NO. 7  
Creole, Louisiana

Notes to Basic Financial Statements

December 31, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The District has one fund, the General Fund, which is therefore considered its major fund.

3. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net assets and the statement of activities, the activities are presented using the economic resources measurement focus. In the fund financial statements, the “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide statement of net position and statement of activities, the activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

4. Cash

Cash includes amounts in demand deposits and time deposits with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At December 31, 2021, the District had \$222,586 in deposits (collected bank balances), of which all is secured from risk by federal deposit insurance.

5. Budgets

A General Fund budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations lapse at fiscal year end.

On or before the last meeting of the year, the budget is prepared by function an activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the government's Board of Commissioners for review. The board holds a public hearing and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimate.

Expenditures may not legally exceed budgeted appropriations at the activity level.

The budget was amended once during the year.

6. Accounts Receivable

Uncollectible amounts due for ad valorem taxes and other receivables of governmental funds are recognized as bad debts at the time information becomes available which would indicate that the particular receivable is not collectible.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

7. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	40 years
Improvements	15 years
Equipment	5 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

8. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

9. Equity Classification

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets

CAMERON PARISH RECREATION DISTRICT NO. 7  
Creole, Louisiana

Notes to Basic Financial Statements

December 31, 2021

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that do not meet the definition of “restricted” or “net investment in capital assets”.

In the fund statements, governmental fund equity is classified as fund balance. Fund balance is further classified as restricted, assigned and unassigned.

- a. Restricted fund balance – Includes fund balance amounts that are intended to be used for specific purposes based on generally outside actions.
- b. Assigned fund balance – Includes fund balance amounts that are intended to be used for specific purposes based on internal (Board) actions.
- c. Unassigned fund balance – Includes positive fund balance within the general fund which has not been classified within the above mentioned categories.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, expenditures are to be spent from restricted fund balance first and then unrestricted. Expenditures incurred in the unrestricted fund balances shall be reduced first from the committed fund balance, then from the assigned fund balance and finally, the unassigned fund balance.

10. Long – Term Debt

Cameron Parish Recreation District No. 7 has no debt.

11. Subsequent Events

Management has evaluated subsequent events through July 19, 2022, the date the financial statements were available to be issued.

12. Comparative Data

Comparative totals for the prior have been presented in the accompanying financial statements in order to provide an understanding of changes in the District’s financial position and operations.

NOTE E– RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE F– CONTINGENCIES

On August 27, 2020, Hurricane Laura made landfall in Southwest Louisiana as a Category 4 Hurricane which was followed by Hurricane Delta on October 8, 2020. The District's facilities and equipment were significantly affected. For the year ended December 31, 2021 \$57,512 was received from insurance proceeds for damages and no FEMA monies have been received to date. The District removed \$26,922 in destroyed capital asset equipment in 2021.
