Independent Auditors' Report

To the Honorable Mayor and Board of Aldermen City of Pineville, Louisiana

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pineville as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pineville, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the information listed below to supplement the basic financial statements.

- Management's Discussion and Analysis
- Budgetary Comparison Information
- Schedule of Changes in Net OPEB Liability
- Schedule of Net Pension Liability Data
- Schedule of Employer Contributions

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pineville's basic financial statements. The other supplemental information listed below is presented for purposes of additional analysis and are not a required part of the basic financial statements.

- Combining Balance Sheet Non-Major Governmental Funds
- Combining Statement of Revenues, Expenditures and Changes in Fund Balance Non-Major Governmental Funds
- Schedule of Per Diem Paid to Board Members
- Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer
- Justice System Funding Schedule Receiving Entity

The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles*, and *Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

City of Pineville December 10, 2021 Page 2

The other supplemental information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplemental information is fairly stated in all material respects in relation to the basic financial statements as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARD

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2021, on our consideration of the City of Pineville's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting are compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Pineville's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2021

This section of the City of Pineville's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended June 30, 2021.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the City's financial position and results of operations from differing perspectives which are described as follows:

Government – Wide Financial Statements

The government-wide financial statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the City's assets (including infrastructure acquired after July 1, 1980) and all of the City's liabilities (including long-term debt).

The government-wide financial statements are divided into two categories, which are described as follows:

- **Governmental Activities** Expenses incurred in connection with providing basic services including public safety, culture, recreation, public works and general administration are reported as governmental activities. The governmental activities are financed by taxes, license and permit fees, fines and forfeitures, and intergovernmental sources.
- **Business-Type Activities** Expenses associated with providing utility and sanitation services are recovered through fees paid by the customers that utilize these services. These activities are operated in a manner similar to commercial enterprises. Accordingly, activities associated with these services are reported as business type activities.

Fund Financial Statements

Fund financial statements provide detailed information regarding the City's most significant activities and are not intended to provide information for the City as a whole. Funds are accounting devices that are used to account for specific sources of funds. The City has two types of funds that are described as follows:

- **Governmental Funds** These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund use a modified accrual basis of accounting that provides a short-term view of the City's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.
- **Proprietary Fund** These funds are used to account for activities that function in a manner similar to commercial enterprises, including activities associated with the City's utility and sanitation services. Proprietary fund financial statements typically provide a more detailed presentation of the information reported in the business-type activities portion of the government-wide financial statements.

Total Net Position	\$ 9,988.976	\$ 17,350.655	\$ 27,339.631	\$ 25,083.966

As the presentation appearing above demonstrates, the City's net position is invested in capital assets. Net position invested in capital assets consists of land, buildings, equipment, and infrastructure less any debt used to acquire the assets that remain outstanding. The City uses these capital assets to provide services to its citizens: consequently, these amounts are not available for future spending.

Recognizing long-term liabilities associated with providing retirement benefits and post-retirement healthcare benefits to the City's employees has eliminated the City's remaining net position. Despite the absence of net position, the City has sufficient resources to meet these obligations for the foreseeable future.

Governmental activities increased the City's net position by S2,127,074. This increase is primarily due to an increase in sales taxes in the current year.

Business-type activities increased the City's net position by \$128,591, due primarily to careful management, which resulted in decreases in operational expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2021

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

An analysis of significant matters affecting the City's funds is presented as follows:

- The City's governmental funds reported a combined fund balance of \$17,921,804 which represents an increase of \$3,691,871 in comparison to the previous balance. This is primarily due to an increase in sales tax collections during the current year.
- The City's general fund, which is available for spending at the City's discretion, reported a fund balance of \$4,522,478. The general fund balance increased by \$2,563,032 in the current year,
- Amounts reported for business-type activities in the City's individual funds are identical to the business-type activities reported in the government-wide presentation.

GENERAL FUND BUDGET HIGHLIGHTS

The City's general fund and sales tax funds are required to adopt an annual budget and the budgets are amended as necessary. Some revisions to the original budgets were made to address revenues and related expenditures that were not anticipated when the original budget was prepared.

CAPITAL ASSET ADMINISTRATION

Highlights of the City's capital asset administration are provided as follows:

- Equipment purchases include new vehicles necessary to replace existing equipment that was retired as a result of ordinary wear.
- Work was completed on portions of the Sewer Rehab Indefinite Delivery System, College Park Subdivision Improvements, and various street rehabilitations.

DEBT ADMINISTRATION

The City's borrowing activities were limited to paying installments due on existing obligations.

FACTORS EXPECTED TO AFFECT FUTURE OPERATIONS

At the present time, no events or conditions have been identified that are expected to have a significant influence on future operations.

Notes to Financial Statements June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Pineville (the City) was incorporated under the provisions of the Lawrason Act. The City is governed by a Mayor and a Board of Alderman consisting of five (5) members. Services provided by the City include police protection, fire protection, street maintenance, drainage, recreation and sanitation. The City also operates a water distribution system, a sewer system and a municipal airport.

The accompanying policies conform to generally accepted accounting principles for governmental units.

Financial Reporting Entity

As the municipal governing authority, for reporting purposes, the City is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (the City), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards establish criteria for determining which component units should be considered part of the City of Pineville for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
 - a) The ability of the City to impose its will on that organization and/or
 - b) The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.
- 2. Organizations for which the City does not appoint a voting majority but are fiscally dependent on the City.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the criteria presented above, the City has no component units. In reaching this conclusion, the operations of the City Court System and the Pineville Downtown Development District were considered: however, it was determined that neither met the necessary criteria for classification as a component unit.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as either governmental activities or business-type activities, which are described as follows:

- Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.
- Business-type activities rely on fees and charges for support and operate in a manner similar to private sector enterprises.

The government-wide and fund financial statements present the City's financial position and results of operations from differing perspectives which are described as follows:

Notes to Financial Statements June 30, 2021

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service or business-type activity. Program revenues include charges for services, fines, court cost, contributions associated with a particular function and most grants.

Fund Financial Statements

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Separate financial statements are provided for governmental funds and business-type (enterprise) funds. In addition, separate financial statements are presented for any fiduciary activities. Major individual funds are reported as separate columns in the fund financial statements. The City's major funds are described as follows:

Major Governmental Funds

<u>General Fund</u> – The general fund is the primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Dedicated 1% Sales Tax</u> – The sales tax fund is a special revenue fund used to account for the proceeds of a restricted 1% sales tax that is described in Note 5.

<u>Capital Improvements</u> – The capital improvement fund is a capital project fund that is used to account for a portion of sales tax proceeds that are restricted for capital expenditures and related debt service.

Major Business-Type Funds

<u>Utility System</u> – The utility fund is used to account for the operation of the City's water and sewer system, which are supported by user charges.

Sanitation – The sanitation fund is used to account for activity associated with collecting and disposing of garbage and trash. The operation of this fund is supported by user charges.

Business-Type funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with the funds ongoing operations. Principal operating revenues are charges to customers for water, sewer service and sanitation.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation	Basis of Accounting	<u>Measurement Focus</u>
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Notes to Financial Statements June 30, 2021

Under the modified accrual basis of accounting and the current financial resources measure focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred; however, debt service, compensated absences, claims and judgments are recorded as expenses when payment is made. Furthermore, when the current financial resources measure focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure of funds. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as an other financing source and repayment of long-term debt is reported as an expenditure of funds.

Use of Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Restricted Assets:

Restricted assets represent resources that must be expended in a specific manner. Restrictions of this nature are imposed by various contractual obligations including grant agreements and bond covenants. Whenever restricted assets can be used to satisfy an obligation, the restricted assets are typically consumed before utilizing any unrestricted resources.

Budget Practices:

Budgets including any amendments are prepared in the manner prescribed by Louisiana revised statutes. City budgets present revenue and expenditures on a basis which is consistent with generally accepted accounting principles. Budgets are adopted annually for the general fund and each special revenue fund. The remaining funds are not required to adopt budgets.

Capital Assets

Capital assets, which include property, equipment and infrastructure, are reported as assets in the applicable governmental or business-type columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Assets reported in the fund financial statements for governmental funds exclude capital assets. Instead, the governmental funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value when received by the City. As required by Governmental Accounting Standards, the City has retroactively capitalized infrastructure acquired by governmental funds since 1980. Infrastructure capitalized retroactively includes streets, sidewalks, bridges, and drainage improvements.

Capital assets are depreciated using the straight-line method and estimated useful lives ranging from 4 to 50 years. Useful lives are selected depending on the expected durability of the particular asset.

Cash and Cash Equivalents:

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand, cash in bank accounts, certificates of deposit and highly liquid investments. Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law. Furthermore, interest rate risk associated with certificates of deposits is typically mitigated by purchasing instruments that mature in one year or less.

Internal Activity:

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are

Notes to Financial Statements June 30, 2021

treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded.

In preparing the government-wide financial statements, transfers are eliminated to present net transfers for governmental activities and business-type activities. In addition, interfund receivables and payables are eliminated to present a net internal balance for each type of activity.

Compensated Absences

Full time and regular part-time employees earn vacation at rates that vary depending on length of service and civil service classification. Unused vacation that employees are allowed to carry forward is reported as a liability. The portion of the liability for compensated absences attributable to governmental funds and activities is typically liquidated by the general fund.

Fund Balance Classification:

Approval of the majority of the Board of Aldermen is required to approve the commitment of fund balances. In situations where it is permissible to spend restricted or committed resources, the City typically depletes the available restricted or committed resources.

NOTE 5-TAXES:

Ad Valorem Taxes:

The City bills and collects its own property taxes using the assessed values determined by the Tax Assessor of Rapides Parish. For the year ended June 30, 2021, the City has levied ad valorem taxes as follows:

Description	Mills <u>Levied</u>
Levied for general alimony as permitted by State Law. Revenue from taxes levied for general alimony is reported by the general fund.	5.85
Levied per proposition originally approved May 14, 1991 authorizing 10 mills for a period of 10 years beginning with 1991 and subsequently renewed through 2030 for the purpose of paying salaries of the employees of the fire and police departments. Due to the restricted nature of these taxes, the revenue is reported in a special revenue fund.	10.00
	<u>15.85</u>

Ad valorem taxes are assessed on a calendar year basis and are due on or before December 31 in the year the tax is levied. Revenues from ad valorem taxes are recognized as revenue in the year billed.

Notes to Financial Statements June 30, 2021

Sales Taxes:

Sales taxes are collected by the Parish of Rapides and remitted to the City on a monthly basis. For the year ended June 30, 2021 the City has levied sales taxes as follows:

Description	Percentage <u>Levied</u>
Levied per proposition approved the citizens of Pineville authorizing a tax for the operation of the General Fund. Revenue generated by this tax is reported by the General fund.	1%
Levied per proposition approved by the citizens of Pineville authorizing a tax "with the avails or proceeds of said tax to be dedicated and pledged to the payment of principle and interest and other amounts required on any sales tax revenue bonds issued by the City for any lawful public purpose; provided, however, that the avails or proceeds of said tax not required in each month for principle, interest and other payments on any sales tax revenue bonds, shall be allocated in an amount equal to 50% of the proceeds of the tax for paying salaries of municipal employees of said City and the remaining proceeds of the tax for capital acquisitions for said City including equipment, furnishings and improvements to municipal property that may include but are not limited to streets, sidewalks, bridges, waterworks, sewers, drains and recreation and fire protection facilities. Since revenue from this source is subject to various restrictions, it is reported in a special revenue fund.	1%
Levied per proposition approved by the citizens of Pineville on July 16, 2006, authorizing a tax with 70% of the proceeds to be dedicated to salary and benefits, and 30% of the proceeds to be dedicated to capital improvement projects for the purpose of acquire, construction, improving, maintaining and operating public facilities, including water and sewer systems and street and drainage systems.	0.5%

In addition to the taxes described above, the City is also entitled to receive a portion (5%) of a parish wide sales tax. Since the parish wide tax is unrestricted, its proceeds are reported as revenue by the general fund.

NOTE 8- RISK MANAGEMENT

The City is exposed to various risk of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City insures against these risks by participation in public entity risk pools that operate as common insurance programs and by purchasing commercial insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 9 - RESTRICTED RESOURCES

The City's net position is subject to restrictions described as follows:

- Bond covenants require the City to establish bank accounts which serve as debt service and depreciation reserves. Funds may be disbursed from these accounts only under specific circumstances described by the bond covenants.
- Certain sales taxes proceeds are available only for capital projects and the acquisition of equipment.
- The City has received funds subject to the requirement that these resources be used only to promote economic development.

NOTE 10 - PENSION PLANS:

Substantially all City employees are members of statewide retirement systems. These systems are cost-sharing, multipleemployer defined benefit pension plans administered by separate boards of trustees. A summary of amounts reported in connection with participation in these plans is summarized as follows:

Further information regarding each of the retirement systems presented above is furnished as follows:

Municipal Employees' Retirement System of Louisiana:

Plan Description -The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the City participating in the retirement system are members of Plan B. All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected municipal officials are eligible to participate in the System. Under Plan B, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2 percent of their final-average monthly salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3 percent for each year retirement precedes age 62. In any case, monthly retirement benefits paid under Plan B cannot exceed 100 percent of final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

Funding Policy - Under Plan B, members are required by state statute to contribute 5.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. Contributions to the System also include one-fourth of one percent of the taxes shown to be collectible by the tax rolls of each parish, except Orleans and East Baton Rouge Parishes. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the City are established and may be amended by state statute. As provided by State law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the system were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report. The financial report includes information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position. The report can be obtained on the internet at mersla.com. The plans net pension liability was determined at June 30, 2020 (measurement date and actuarial valuation date) and details are provided as follows:

Notes to Financial Statements June 30, 2021

Net Pension Liability	\$ 90,622,621
City's Proportionate Share (Percentage)	5.31 %
City's Proportionate Share (Amount)	\$ 4,811,603

The net pension liability presented above was not affected by any special funding situations. Changes in the City's proportionate share of Plan's net pension liability during the measurement period ending June 30, 2020 are provided as follows:

Beginning Net Pension Liability		\$	4,595,380
Employer Contributions			(582.670)

PubNS-2010(B) Disabled Retiree Table set equal to 120% for males and females with the full generational MP2018 scales.
Expected Remaining Service Lives	3 years
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Public Equity	53%	2.33%
Public Fixed Income	38%	1.67%
Alternatives	9%	0.40%
Totals	100%	4.40%
Inflation		2.60%
Expected Arithmetic Nominal Return		7.00%

The discount rate used to measure the total pension liability was 6.95%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

City of Pineville Notes to Financial Statements June 30, 2021

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

	1% Decrease 5.95%	Current Discount	1% Increase 7.95%
	Discount Rate	Rate 6.95%	Discount
Net Pension Liability	S 6,405,140	\$ 4,811,603	S 3,463,250

Firefighters' Retirement System of Louisiana

Plan Description – Membership in the Louisiana Firefighters' Retirement System is mandatory for all full-time firefighters employed by a municipality, parish or fire protection district that did not enact an ordinance before January 1, 1980, exempting itself from participation in the System. Employees are eligible to retire at or after age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to $3^{1/3}$ percent of their final-average salary for each year of creditable service, not to exceed 100 percent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The system also provides death and disability benefits. Benefits are established or amended by state statute.

Funding Policy – Plan members are required by state statute to contribute 10.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. The contribution requirements of plan members and the City are established and may be amended by state statute. As proved by state law, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the plan were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. For additional details, the System issues an annual publicly available stand-alone financial report. The financial report includes information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position. The report can be obtained on the internet at lafirefightersret.com. The plans net pension liability was determined at June 30, 2019 (measurement date and actuarial valuation date) and details are provided as follows:

Net Pension Liability	\$ 693,154,944
City's Proportionate Share (Percentage)	0.96%
City's Proportionate Share (Amount)	\$ 6,654,911

The net pension liability presented above was not affected by any special funding situations. Changes in the City's proportionate share of Plan's net pension liability during the measurement period ending June 30, 2020 are provided as follows:

A summary of the actuarial methods and assumptions used in determining the total pension liability as of the measurement date are as follows:

Notes to Financial Statements June 30, 2021

Valuation Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal Cost
Expected Remaining Service Lives	7 Years
Investment Rate of Return	7.00% per annum
Inflation Rate	2.50% per annum
Projected Salary Increases	Vary from 14.10% in the first two years of service to 5.20% after 25
	years.
Cost of Living Adjustments	Only those previously granted

The estimated long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Expected Portfolio Real Rate of Return
U.S. Equity	26.00%	5.72%
Non-U.S. Equity	12.00%	6.24%
Global Equity	16.00%	6.23%
Fixed Income	31.00%	1.0 - 3.4%
Real Estate	6.00%	4.20%
Private Equity	9.00%	10.29%
Totals	100.00%	

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The mortality rate assumption used was set based upon an experience study performed on plan data for the period July 1, 2009 through June 30, 2014. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that the tables used would produce liability values approximating the appropriate generational mortality tables.

Sensitivity to changes in the discount has been determined by measuring net pension liability at a discount rate that is one percentage point lower and one percentage point higher than the current rate. The results are presented as follows:

Notes to Financial Statements June 30, 2021

	1% Decrease 6.00%	Current Discount	1% Increase
	Discount Rate	Rate 7.00%	8.00% Discount
Net Pension Liability	\$ 9,612,953	\$ 6,654,911	\$ 4,185,819

Municipal Police Employees' Retirement System of Louisiana

Plan Description - All full-time police department employees engaged in law enforcement are eligible to participate in the System. Employees who retire at or after age 50 with at least 20 years of creditable service or at or after age 55 with at least 12 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 percent of their final-average salary for each year of creditable service. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

Funding Policy - Plan members are required by state statute to contribute 10.0 percent of their annual covered salary and the City is required to contribute at an actuarially determined rate. The contribution requirements of plan members and the City are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The City's contributions to the plan were equal to the required contributions for the year.

Financial Summary – The plan description, funding policies and financial information provides a summary of the Plan provisions and finances. The discount rate used to measure the total pension liability was 6.950%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. The mortality rate assumption used was set based upon an experience study performed by the prior actuary on plan data for the period July 1, 2014 through June 30, 2019 and review of similar law enforcement mortality. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the System's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. NOTE 13 - CONTINGENCIES:

Existing conditions that may have financial consequences are referred to as contingencies. Contingencies existing at June 30, 2021 are described as follows:

Litigation:

Like most governmental units with extensive and diverse operations, the City is occasionally named as a defendant in litigation. Based on consultation with City Attorney, the ultimate outcome of litigation that is pending or anticipated cannot be estimated at the present time; however, exposure to losses are expected to be limited to the deductible provisions of insurance policies.

Grant Compliance:

The City receives state and federal assistance through various grant programs. Management is confident that all significant grant conditions have been met; however, grantor agencies routinely review grant activity and could request reimbursement if a dispute occurs regarding compliance with grant conditions.

NOTE 14 - POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

General Information about the OPEB Plan

Plan description – The City of Pineville (the City) provides certain continuing health care and life insurance benefits for its retired employees. The City of Pineville's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the City. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the City. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification.

Benefits Provided – Medical benefits are provided through a self-insured medical plan and are made available to employees upon actual retirement. The employees are covered by one of four retirement systems: the Municipal Employees' Retirement System of Louisiana, the Firefighters' Retirement System of Louisiana, the Municipal Police Retirement System of Louisiana, and the Louisiana State Employees' Retirement System (LASERS). The retirement eligibility (D.R.O.P. entry) provisions of these systems are similar and since we did not have the identity of the system in which each active employee participates, we have assumed a composite retirement (D.R.O.P. entry) eligibility as follows: 25 years of service at any age; or, age 60 and 10 years of service.

Employees covered by benefit terms - At June 30, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	40
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	226
	266

Total OPEB Liability

The City's total OPEB liability of \$15,666,235 was measured as of June 30, 2021 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	3.0%, including inflation

NOTE 16 - SPECIAL ITEMS

On August 27, 2020 Hurricane Laura made landfall in Louisiana as a Category 4 hurricane, which was followed by Hurricane Delta on October 8, 2020. The full extent of destruction was substantial, causing damage to several City facilities. In addition, the City incurred significant cost in cleaning the aftermath, including disposal of debris, clearing roadways, and other similar activities. The total cost of this cleanup was \$717,082.

The Federal Emergency Management Agency, through the authority granted to it by the Stafford Disaster Relief and Emergency Act. declared an emergency (Disaster 4559 and 3547 respectively), designating that Rapides Parish municipalities were eligible for public assistance. As such, a portion of the cleanup costs may be reimbursed by FEMA. However, at the end of the year, the amount that could eventually be reimbursed was not able to be determined.

As this transaction is unusual in nature and infrequent, it has been classified as a special item.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and the Board of Aldermen City of Pineville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Pineville, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise City of Pineville's basic financial statements, and have issued our report thereon dated December 10, 2021.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the City of Pineville's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Pineville's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether City of Pineville's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and the Board of Aldermen City of Pineville, Louisiana

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited the City of Pineville's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Pineville's major federal programs for the year ended June 30, 2021. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

OPINION ON EACH MAJOR FEDERAL PROGRAM

In our opinion, the City of Pineville complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the City of Pineville is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the

circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
