INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners Allen Parish Ambulance Service District No. 1 Kinder, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of Allen Parish Ambulance Service District No. 1, a component unit of the Allen Parish Police Jury, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Allen Parish Ambulance Service District No. 1's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Commissioners Allen Parish Ambulance Service District No. 1 Kinder, Louisiana Page Two

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Allen Parish Ambulance Service District No. 1 as of December 31, 2019 and 2018, and the changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the financial information of the Allen Parish Ambulance Service District No. 1 and do not purport to, and do not, present fairly the financial position of the Allen Parish Police Jury as of December 31, 2019 and 2018, the changes in its financial position, or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the required supplementary information on page 29 and 30, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Commissioners Allen Parish Ambulance Service District No. 1 Kinder, Louisiana Page Three

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of board fees and schedule of compensation, benefits, and other payments to agency head or chief executive officer are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The schedules of board fees and schedule of compensation, benefits, and other payments to agency head or chief executive officer are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of board fees and schedule of compensation, benefits, and other payments to agency head or chief executive officer are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 3, 2020, on our consideration of the Allen Parish Ambulance Service District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Allen Parish Ambulance Service District No. 1's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Allen Parish Ambulance Service District No. 1's internal control over financial reporting and compliance.

Note 1. Description of Organization and Summary of Significant Accounting Policies

The following is a summary of the Allen Parish Ambulance Service District No. 1's (the "Ambulance District") significant accounting policies:

Organization

The Ambulance District was established by the Allen Parish Policy Jury, by virtue of the authority of R.S. 33:1261, et seq. The purpose of the Ambulance District is to own and operate ambulances for the transportation of persons suffering from illnesses or disabilities which necessitate ambulance care. The Ambulance District is governed by a Board of Commissioners composed of five qualified voters of the Ambulance District, which are appointed by the Allen Parish Police Jury. The Ambulance District is a component unit of the Allen Parish Police Jury. The accompanying financial statements present only the Ambulance District.

The financial statements of the Ambulance District have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the Ambulance District are described below.

Method of Accounting

The Ambulance District's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the time of related cash flows. Property taxes are recognized as revenues in the year they are levied. Grants are recognized as revenue as soon as eligibility requirements imposed by the provider have been met. The Ambulance District's accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:514 and to the guide set forth in the *Louisiana Governmental Audit Guide*, and the *Audit and Accounting Guide – Health Care Organizations*, published by the American Institute of Certified Public Accountants, and standards established by the GASB.

Enterprise Fund

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising

The Ambulance District expenses advertising cost as incurred. Advertising expense for the years ended December 31, 2019 and 2018, totaled \$4,088 and \$3,831, respectively.

Note 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Ambulance District considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Under state law, the Ambulance District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana Law or any other state of the United States, or under the laws of the United States.

Credit Risk

The Ambulance District provides ambulance services to Allen Parish residents and grants credit to patients, substantially all of whom are local residents. The Ambulance District's estimate of collectability is based on an evaluation of historical collections compared to gross revenues to establish an allowance for uncollectible accounts.

Significant Concentration of Economic Dependence

The Ambulance District has an economic dependence on Medicare and Medicaid as it received 62% and 67%, in 2019 and 2018 respectively, of its payments from these two sources. Accordingly, changes in federal and state legislation or interpretations of rules have a significant impact on the Ambulance District.

Patient Accounts Receivable

Patient accounts receivable are carried at a net amount determined by the original billed amount less an estimate made for contractual adjustments or discounts provided to third-party payors, less any payments received and less an estimated allowance for doubtful accounts. Management determines the allowance for doubtful accounts by utilizing a historical experience applied to an aging of accounts. Patient accounts receivable are written-off as bad debt expense when deemed uncollectible. Recoveries of receivables previously written-off as bad debt expense are recorded as a reduction of bad debt expense when received.

Inventories

Inventories are valued at the latest invoice price, which approximates the lower of cost (first-in, first-out method) or market.

Capital Assets

Property, plant, and equipment is stated at cost. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation expense in the basic financial statements. Donated property is recorded at its estimated fair value, at the date of receipt. Depreciation is computed using the straight-line method over the estimated useful lives of each class of depreciable assets.

Ambulances	5 years
Building improvements	10 years
Buildings	25 – 30 years
Equipment	5 – 10 years

Note 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Net Position

The Ambulance District classifies net position into three components: invested in capital assets, net of related debt; restricted, and unrestricted. Invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation and reduced by the current balances of any outstanding borrowing used to finance the purchase or construction of those assets. Restricted consists of assets that have constraints that are externally imposed by creditors (such as through debt covenants), grantors, or contributors, or enabling legislation. Unrestricted are remaining net assets that do not meet the definition of invested in capital assets net of related debt or restricted.

Net Patient Revenue

Net patient revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Grants and Donations

Revenues from grants and donations (including capital contributions of assets) are recognized when all eligibility requirements, including time requirements, are met. Grants and donations may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as non-operating revenues. Amounts restricted to capital acquisitions are reported after non-operating revenues and expenses.

Operating Revenues and Expenses

The Ambulance District's statement of revenues, expenses and changes in net position distinguishes between operating and non-operating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services, the Ambulance District's principal activity. Non-exchange revenues, including taxes, grants and contributions received for purposes other than capital asset acquisition, are reported as non-operating revenues. Operating expenses are all expenses incurred to provide health care services, other than financing costs.

Income Taxes

The Ambulance District is a political subdivision and exempt from taxes.

Risk Management

The Ambulance District is exposed to various risks of loss from tort; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health. Commercial insurance coverage is purchased for claims arising from such matters.

Restricted Resources

When the Ambulance District has both restricted and unrestricted resources available to finance a particular program, it is the Ambulance District's policy to use restricted resources before unrestricted resources.

Note 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenditure) until then. The District has one item that meets the criterion for this category, deferrals of pension expense.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that meets the criterion for this category, deferrals of pension expense.

Environmental Matters

The Ambulance District is subject to laws and regulations relating to the protection of the environment. The Ambulance District's policy is to accrue environmental and cleanup related costs of a non-capital nature when it is both probable that a liability has been incurred and when the amount can be reasonably estimated. Although it is not possible to quantify with any degree of certainty, the potential financial impact of the Ambulance District's continuing compliance efforts, management believes any future remediation or other compliance related costs will not have a material adverse effect on the financial condition or reported results of operations of the Ambulance District. At December 31, 2019 and 2018, management is not aware of any liability resulting from environmental matters.

<u>Pensions</u>

The Ambulance District is a participating employer in a defined benefit pension plan as described in Note 9. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plan, and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value within the plan.

Reclassifications

Certain reclassifications have been made in the financial statements at December 31, 2019 and 2018, in order to be consistent with reporting in the current year. These reclassifications had no effect on previously reported retained earnings or net income.

Note 1. Description of Organization and Summary of Significant Accounting Policies (Continued)

Recently Issued Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87 (GASB 87). The objective of the GASB Statement No. 87, Leases, is to better meet the information needs of the financial statement users by improving accounting and financial reporting for leases and governments. This Statement increases the usefulness of government's financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing of the right to use an underlying asset. Management is still evaluating the potential impact of adoption on the Hospital's financial statements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2021.

Note 2. Third-Party Payor Arrangements

The Ambulance District participates in the Medicare and Medicaid programs as a provider of ambulance services to program beneficiaries. During the years ended December 31, 2019 and 2018, approximately 62% and 67%, respectively, of the Ambulance District's gross patient services were furnished to Medicare and Medicaid beneficiaries. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Ambulance District believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

The Ambulance District has agreements with third-party payors that provide for payments to the Ambulance District at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- •Medicare Covered ambulance services are paid based on a fee schedule.
- •Medicaid Covered ambulance services are paid based on a fee schedule.

The Ambulance District also has entered into payment arrangements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Ambulance District under these agreements is determined based on a prospectively determined rate per ambulance trip. The Ambulance District also discounts the base rate charge to parish residents excluding residents of Oakdale.

Note 3. Deposits and Investments

The Ambulance District's investing is performed in accordance with investment policies complying with state statutes. Funds may be invested in time deposits, money market investment accounts, or certificates of deposit with financial institutions insured by FDIC; direct obligations of the United States Government and its agencies; commercial paper issued by United States Corporations with a rating of A-1 (Moody's) and P-1 (Standard and Poor's) or higher; and government backed mutual trust funds. At December 31, 2019, the Ambulance District's funds consisted solely of demand deposits and certificates of deposits. These deposits are stated at cost, which approximates market.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Ambulance District's deposits may not be returned to it. State law requires collateralization of all deposits with federal depository insurance and other acceptable collateral in specific amounts. The Ambulance District's policy requires that all bank balances be insured or collateralized by the financial institution to pledge their own securities to cover any amount in excess of Federal Depository Insurance Coverage (FDIC). As of December 31, 2019, \$500,000 of the Ambulance District's deposits were secured from risk by FDIC coverage and \$2,441,138 were collateralized by securities pledged. As of December 31, 2018, these deposits were secured from risk by \$500,000 of FDIC coverage and \$1,830,488 by pledged securities. Accordingly, the Ambulance District had no custodial credit risk related to its deposits at December 31, 2019 and 2018.

Note 4. Accounts Receivable

Patient accounts receivable reported as current assets by the Ambulance District at December 31, 2019 and 2018 consisted of the following:

Patient Accounts Receivable		<u>2019</u>	<u>2018</u>
Receivable from patients and their insurance carriers Receivable from insurance carriers Receivable from Medicare Receivable from Medicaid	\$	122,388 \$ 128,572 34,834 10,380	88,334 185,794 43,833 12,691
Total patient accounts receivable Less allowance for uncollectible amounts	_	296,174 (79,980)	330,652 (94,522)
Patient accounts receivable, net	\$_	216,194 \$	236,130

Note 5. Concentrations of Credit Risk

The Ambulance District grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at December 31, 2019 and 2018 was as follows:

	<u>2019</u>		<u>2018</u>	
Medicare	12	%	13	%
Medicaid	4	%	4	%
Other third-party payors	43	%	56	%
Patients	41	%	27	%
	100	%	100	%

Note 6. Ad Valorem Taxes

The Ambulance District levied 9.76 mills on properties with assessed values of \$52,336,338 and \$50,900,699, net of homestead values, for the years ended December 31, 2019 and 2018, respectively.

The Ambulance District received approximately 17% and 15% in 2019 and 2018, respectively, of its financial support from ad valorem taxes. These funds were used to support operations.

The Ambulance District's property tax is levied by the parish on the taxable real property in the Ambulance District in late October of each year. Bills are sent out in November of each year at which time the Ambulance District records the tax revenue, taxes become delinquent on December 31st, and become a lien in the following March.

Note 7. Capital Assets

Capital assets additions, retirements, and balances for the years ended December 31, 2019 and 2018 were as follows:

Nondepreciable capital assets		December 31, <u>2018</u>		Additions		Retirements		December 31, 2019

Capital assets, net	\$	437,173	\$	1,061,789	\$	(21,428)	\$	1,477,534

Depreciation expense for the years ended December 31, 2019 and 2018 amounted to \$182,158 and \$153,213, respectively.

Note 8. Compensated Absences and Sick Time

Ambulance employees earn 168 to 240 hours of vacation (depending on years of service) and office employees earn 120 vacation hours per year. Only employees with at least one year of service are eligible for vacation days. These vacation days can accrue to a maximum of 336 to 480 hours for Ambulance employees and a maximum of 240 hours for office employees. The Ambulance District had accrued compensated absences at December 31, 2019 and 2018 of \$47,683 and \$42,785, respectively.

In December of 2009, the Ambulance District started a policy that allows field personnel to be paid for sick time on a yearly basis. The determination of the payment amount is limited to a threshold based on years of service. This threshold is defined in the Ambulance District's employee manual. Employees must be employed by the Ambulance District for at least one year and the sick days will not be paid upon retirement or separation of employment from the Ambulance District.

Note 9. Retirement

Plan Description. Substantially, all employees of the Allen Parish Ambulance Service District No. 1 are members of the Parochial Employees' Retirement System of Louisiana (the "System"), a cost-sharing, multiple-employer defined benefit pension plan established by Act 205 of the 1952 regular session of the Legislature of the State of Louisiana. The System is administered by a separate board of trustees. The System is to provide retirement benefits to all employees of any parish in the state of Louisiana or any governing body which employs and pays persons serving the parish. It is composed of two plans, Plan A and Plan B, with separate assets and benefit provisions. The System is governed by Louisiana Revised Statutes, Title 11, Sections 1901 – 2025 and other general laws of the State of Louisiana. Benefits are established or amended by State Statute. The System issues a publicly available financial report that can be obtained at persla.org. Employees of the Ambulance District are members of Plan A.

Benefits provided:

Retirement - All permanent employees working at least 28 hours per week are eligible to participate in the System. Under Plan A, employees (who were hired prior to January 1, 2007) and who retire at or after age 65 with at least 7 years of creditable service, who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final average salary for each year of creditable service. For employees hired after January 1, 2007 and who retire at age 55 with at least 30 years of creditable service, at age 62 with 10 years of creditable service or at age 67 with 7 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final average salary for each year of creditable service. Final average salary is the employee's average salary over the 35, consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination.

Note 9. Retirement (Continued)

<u>Survivor benefits</u> - Upon the death of any member of Plan A with five (5) or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes. Any member of Plan A, who is eligible for normal retirement at time of death, the surviving spouse shall receive an automatic Option 2 benefit, as outlined in the statutes. A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve (12) months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

Cost-of-living adjustments - The Board is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1997, (or the member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older. (LA R.S. 11:1937). Lastly, Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

<u>Deferred retirement option plan</u> - Act 338 of 1990 established the deferred retirement option plan (DROP) for the Retirement System. DROP is an option for that member who is eligible for normal retirement. In lieu of terminating employment and accepting a service retirement, any member of Plan A who is eligible to retire may elect to participate in the DROP in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account. Interest is accrued on the DROP benefits for the period between the end of DROP participation and the member's retirement date.

For individuals who become eligible to participate in the DROP on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the board of trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this System must agree that the benefits payable to the participant are not the obligations of the state or the System, and that any returns and other rights of the System are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

Note 9. Retirement (Continued)

<u>Disability benefits</u> - For Plan A, a member shall be eligible to retire and receive a disability benefit if they were hired prior to January 1, 2007, and has at least five years of creditable service or if hired after January 1, 2007, has seven years of creditable service, and is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of an amount equal to three percent of the member's final average compensation multiplied by his years of service, not to be less than fifteen, or three percent multiplied by years of service assuming continued service to age sixty.

<u>Contributions</u> - Under Plan A, members are required by state statute to contribute 9.50% of their annual covered salary and the Ambulance District is required to contribute at an actuarially determined rate. For the plan year ended December 31, 2019 and December 31, 2018, the actuarially determined contribution rate was 12.18% and 9.99%, respectively, of the member's compensation for Plan A. However, the actual rate was 11.50% and 11.50%, respectively, of annual covered payroll for Plan A.

Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. These additional sources of income are used as additional employer contributions and are considered support from non-contributing entities. The contribution requirements of plan members and the Ambulance District are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year.

The Ambulance District's contributions to the System under Plan A, exclusive of employee portion, for the year ending December 31, 2019 and 2018 were \$120,645 and \$110,462, equal to the required contributions for the year.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:</u>

At December 31, 2019 and 2018, the Ambulance District reported a liability of \$693,476 and an asset of \$(113,735), respectively, for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2018 and 2017, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The Agency's proportion of the net pension liability (asset) was based on a projection of the Ambulance District's required projected share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2018 and 2017, the Ambulance District's proportions were 0.1562460% and 0.1532310%, which was an increase of 0.003015% and a decrease of 0.016271% from its' proportions measured as of December 31, 2017 and 2016.

Note 9. Retirement (Continued)

For the years ended December 31, 2019 and 2018, the District recognized pension expense of \$266,003 and \$138,111, respectively. At December 31, 2019 and 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

December 31, 2019: Deferred resources		Outflows		<u>Inflows</u>
Differences between expected and actual experience	\$	-0-	\$	42,248
Changes in assumptions		331,969		-0-
Net difference between projected and actual earnings on pension plan investments		173,392		-0-
Changes in proportion and differences between employer contributions and proportionate share		, , ,		
of contributions		3,139		5,758
Contributions subsequent to measurement date		120,645		
		/	_	
Ending balance	\$	629,145	\$	48,006
December 31, 2018:				
		<u>Outflows</u>		<u>Inflows</u>
Deferred resources	_	_	_	
Differences between expected and actual experience	\$	-0-	\$	73,623
Changes in assumptions Net difference between projected and actual earnings		143,551		-0-
on pension plan investments		-0-		262,761
Changes in proportion and differences between		•		
employer contributions and proportionate share				
of contributions		-0-		10,283
Contributions subsequent to measurement date		110,462		0-
Ending balance	\$	254,013	\$	346,667

The Ambulance District reported \$120,645 as deferred outflows of resources related to pensions resulting from the Ambulance District's contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31	
2020 2021	\$ 156,229 \$ 85,912
2022	\$ 71,705
2023	\$ 146,650
2024	\$ -0-
Thereafter	\$ - 0-

Note 9. Retirement (Continued)

<u>Actuarial assumptions</u> - The total pension liability in the December 31, 2018 and 2017 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

December 31, 2018:

Inflation 2.40%
Salary increases 4.75% (including inflation)
Investment rate of return 6.50% (net of investment expense)
Actuarial cost method Entry Age Normal
Expected remaining service lives 4 years

December 31, 2017:

Inflation 2.50%
Salary increases 5.25% (including inflation)
Investment rate of return 6.75% (net of investment expense)
Actuarial cost method Entry Age Normal
Expected remaining service lives 4 years

At December 31, 2018 and 2017, the mortality rate assumption used was based upon an experience study performed on plan data for the period January 1, 2013 through December 31, 2017. The data was then assigned a credibility weighting and combined with a standard table to produce current levels of mortality. The data was assigned credibility weighting and combined with a standard table to produce current levels of mortality. As a result of this study, mortality for employees was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Employees multiplied by 130% for males and 125% for females each with generational projection using the MP2018 scale. In addition, mortality for annuitants and beneficiaries was set equal to the Pub-2010 Public Retirement Plans Mortality Table for healthy Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale. For Disabled annuitants mortality was set equal to the Pub-2010 Public Retirement Plans Mortality Table for General Disabled Retirees multiplied by 130% for males and 125% for females, each with full generational projection using the MP2018 scale.

At December 31, 2018 and 2017, the discount rate used to measure the total pension liability was 6.50% and 6.75%, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine total pension liability.

Note 9. Retirement (Continued)

The long-term rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block approach (bottom-up). Risk and return correlations are projected on a forward-looking basis in equilibrium, in which best estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.00% at December 31, 2018 and 2017 and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return was 7.43% and 7.62% for the year ended December 31, 2018 and 2017.

Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of December 31, 2018 and 2017 are summarized in the following table:

December 31, 2018: Asset class:	Target Asset Allocation	Long-Term Expected Portfolio Real Rate of Return
Fixed income Equity	35% 52%	1.22% 3.45%
Alternatives	11%	0.65%
Real assets	2%	0.11%
Inflation	<u>100%</u>	5.43% 2.00%
Expected arithmetic nominal return		<u>7.43%</u>
December 31, 2017:	Target Asset <u>Allocation</u>	Long-Term Expected Portfolio Real Rate of Return
December 31, 2017: Asset class: Fixed income		Expected Portfolio Real Rate

Note 9. Retirement (Continued)

The following presents the net pension liability (asset) of the Ambulance District, calculated using the discount as well as what the Ambulance District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

<u>December 31, 2018:</u>		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
	<u>5.50%</u>	6.50%	7.50%_
Employers proportionate share of the net	-		
pension liability (asset)	<u>\$ 1,472,757</u>	<u>\$ 693,476</u>	<u>\$ 42,065</u>
<u>December 31, 2017:</u>		Current	
<u>December 31, 2017:</u>	1%	Current Discount	1%
<u>December 31, 2017:</u>	1% Decrease		1% Increase
<u>December 31, 2017:</u>	- 70	Discount	
December 31, 2017: Employers proportionate share of the net	Decrease	Discount Rate	Increase

Non-Employer Contributing Entities - Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The Ambulance District recognizes revenue in an amount equal to their proportionate share of total contributions to the pension plan from these non-employer contributing entities. The Ambulance District recognized revenue as a result of support received from non-employer contributing entities of \$11,940 and \$11,392 for the years ended December 31, 2019 and 2018, respectively.

Payables to the Pension Plan for contractually required employer contributions withheld were \$57,677 as of December 31, 2019 and -0- as of December 31, 2018.

Detailed information about the pension plan's fiduciary net position is available in audited stand-alone issued financial statements for the years ended December 31, 2018 and 2017. Access to the audit report and financials can be found on the System's website: www.persla.org or on the Office of Louisiana Legislative Auditor's official website: www.lla.state.la.us.

Note 10. Supplemental Payments (UPL) for Emergency Ambulance Services

Effective 2012, the Ambulance District entered into a Cooperative Endeavor Agreement in order to receive quarterly supplemental payments for qualifying land ambulance and air ambulance providers for emergency transportation rendered. The Louisiana Department of Health and Hospitals (DHH) submitted the Supplemental Payment Program as Medicaid State Plan Amendment TN 11-23 which was approved by the Centers for Medicare and Medicaid Services (CMS) in June of 2012. The purpose of the program was to ensure that adequate and essential medically necessary healthcare services are accessible and available to low-income and/or indigent citizens and medically underserved populations in Louisiana.

Note 10. Supplemental Payments (UPL) for Emergency Ambulance Services (Continued)

The Ambulance District agreed to transfer funds to DHH to be used as Medicaid matching funds for the purpose of making supplemental payments for emergency ambulance services and providing the State additional resources to assist in the medical cost to the State. Accordingly, these matching funds are comprised of (1) an amount to be utilized as the "non-federal share" of the supplemental payment for services provided by participating Medicaid Ambulance Providers and (2) the "State Retention Amount" which is fifteen percent (15%) of the "non-federal share" for the State to utilize in delivering healthcare services.

As permitted by State and Federal laws and regulations, DHH agrees to make supplemental Medicaid payments to ambulance providers. The total supplemental payment will include the total amount of the "non-federal share" and the "federal funds" generated by the "non-federal share" payments. The total amount of the supplemental payment is intended to reimburse all or part of the difference between the Medicaid payments otherwise made to these qualifying providers and the Average Commercial Rate for those services.

The Ambulance District made payments to DHH in conjunction with this agreement totaling \$598,883 in 2019 and \$751,870 in 2018. These payments are recognized as an operating expense in the statement of revenues, expenses and changes in net position. DHH made supplemental payments to the Ambulance District totaling \$1,311,082 in 2019 and \$1,590,880 in 2018. These payments are recognized as other operating revenue in the statement of revenues, expenses and changes in net position.

Note 11. Subsequent Events

Management has evaluated subsequent events through the date the financials were available to be issued, September 3, 2020, and determined that no material events occurred that require disclosure, except those noted below. No subsequent events occurring after that date have been evaluated for inclusion in these financial statements.

Subsequent to December 31, 2019, the world was impacted by a pandemic caused by a coronavirus named COVID-19. In March of 2020, the State of Louisiana reported that there were confirmed cases of residents testing positive for COVID-19. As a result of the outbreak, the Ambulance District and the State of Louisiana have experienced significant disruptions in normal daily activity. In addition, the United States financial markets have experienced significant volatility. As of the date of this report, the Ambulance District is not able to estimate the financial impact COVID-19 may have on the facility.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners Allen Parish Ambulance Service District No. 1 Kinder, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Allen Parish Ambulance Service District No. 1 as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the Allen Parish Ambulance Service District No. 1's basic financial statements as listed in the table of contents, and have issued our report thereon dated September 3, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Allen Parish Ambulance Service District No. 1's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Allen Parish Ambulance Service District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of the Allen Parish Ambulance Service District No. 1's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's, financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control described in the accompanying schedule of findings and responses as item 2019-001 that we consider to be a material weakness.

Board of Commissioners Allen Parish Ambulance Service District No. 1 Kinder, Louisiana Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Allen Parish Ambulance Service District No. 1's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Allen Parish Ambulance Service District No. 1's Response to Findings

Allen Parish Ambulance Service District No. 1's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Allen Parish Ambulance Service District No. 1's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of This Report

This report is intended solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. This report is intended for the information and use of management, the Board of Commissioners, others within the entity and federal awarding agencies and pass-through entities and the Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. Accordingly, this communication is not suitable for any other purpose, however, this report is a matter of public record and its distribution is not limited.

Type of auditors' opinion issued: unmodified

Internal control over financial reporting:

• Material weakness(es) identified?

• Control deficiency(ies) identified that we do not consider to be material weaknesses

□ Yes □ None reported

Section II. Financial Statement Findings

☐ Yes ⊠ No

2019-001 - Segregation of Duties

Condition: The Ambulance District does not have adequate segregation of duties. A system of internal control procedures contemplates a segregation of duties so that no one individual handles a transaction from its inception to its completion. While we recognize the Ambulance District may not be large enough to permit such procedures, it is important that you be aware of this condition. This condition was also included in the 2018 audit as item 2018-001.

Criteria: An effective system of internal control requires a proper segregation of duties so that no one individual handles a transaction from its inception to its completion.

Cause: The Ambulance District has a limited number of employees within the accounting department.

Effect: Ineffective system of internal controls within the accounting function.

Noncompliance material to financial statements noted

Recommendation: Keeping in mind the limited number of personnel to which duties can be assigned, the Ambulance District should continue to monitor assignment of duties to assure as much segregation of duties and responsibility as possible, and the board should review financial information on a timely basis.

Response: The Ambulance District is aware of and evaluated this problem and concluded that it would not be cost beneficial or possible with the limited resources available to create a segregated accounting environment. However, the Ambulance District will continue to monitor this issue and the board will review financial information on a timely basis.

Independent Accountant's Report

on Applying Agreed-Upon Procedures

John S. Wells, CPA Robert G. Miller, CPA Paul A. Delaney, CPA Mary L. Carroll, CPA Joey L. Breaux, CPA Jason P. LeBlanc, CPA

Brenda J. Lloyd, CPA Karlie P. Brister, CPA Joseph M. Chevalier, CPA

Retired 2015 Bobby G. Lester, CPA

To the Board of Commissioners Allen Parish Ambulance Service District No. 1 and the Louisiana Legislative Auditor

We have performed the procedures enumerated below, which were agreed to by Allen Parish Ambulance Service District No. 1 (the "District") and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2019 through December 31, 2019. The District's management is responsible for those C/C areas identified in the SAUPs.

The agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose of which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Written Policies and Procedures

- 1. Obtain the entity's written policies and procedures and report whether those written policies and procedures address each of the following financial/business functions (or report that the entity does not have any written policies and procedures), as applicable:
 - a) Budgeting, including preparing, adopting, monitoring, and amending the budget
 - b) **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.
 - c) Disbursements, including processing, reviewing, and approving
 - d) Receipts, including receiving, recording, and preparing deposits
 - e) **Payroll/Personnel**, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.
 - f) **Contracting**, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process

To the Board of Commissioners
Allen Parish Ambulance Service District No. 1
and the Louisiana Legislative Auditor

- g) **Credit Cards** (and debit cards, fuel cards, P-Cards, if applicable), including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers, and (5) monitoring card usage
- h) **Travel and expense reimbursement**, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers
- i) Ethics, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the entity's ethics policy. Note: Ethics requirements are not applicable to nonprofits.
- j) **Debt Service**, including (1) debt issuance approval, (2) EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- k) **Disaster Recovery/Business Continuity**, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.

Findings: No exceptions noted in applying the above procedures.

Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

2. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).

Findings: A list of all locations that process payments were obtained. Management provided representation that the list was complete.

- 3. For each location selected under #2 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - b) At least two employees are involved in processing and approving payments to vendors.
 - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
 - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

Findings: The Director processes payments and is responsible for adding/modifying vendor files.

To the Board of Commissioners Allen Parish Ambulance Service District No. 1 and the Louisiana Legislative Auditor

Management's Response: Management is aware of the segregation of duties deficiency due to limited staff. Dual signatures by the Director or Assistant Director and a Board member are required on all payments.

- 4. For each location selected under #2 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction and:
 - a) Observe that the disbursement matched the related original invoice/billing statement.
 - b) Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #6, as applicable.

Findings: No exceptions noted in applying the above procedures.

ester, Miller and Wells

We were not engaged to perform, and did not perform, an audit, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the user of management of Allen Parish Ambulance Service District No. 1 and the Louisiana Legislative Auditor, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
