INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Commissioners
Twinbrook Security District
New Orleans, Louisiana

We have reviewed the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Twinbrook Security District (the Security District), as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Security District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants, and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Twinbrook Security District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

REQUIRED SUPPLEMENTARY INFORMATION (PART 1)

TWINBROOK SECURITY DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

DECEMBER 31, 2025

Our discussion and analysis of the Twinbrook Security District (the Security District) financial performance provides an overview of the Security District financial activity for the year ended December 31, 2025. It should be read in conjunction with the basic financial statements.

The accompanying financial statements present information only on the funds maintained by Twinbrook Security District

Financial Highlights

- As of December 31, 2025 and 2024, the Security District reported net position amounts of \$6,309 and \$38,725, respectively.
- During the year ended December 31, 2025, the Security District net position decreased by \$32,416, due to parcel fee collections in excess of operating expenses.

Overview of the Financial Statements

The financial statement focuses on the Security District's only major fund – General Fund. The major governmental funds allow the user to address relevant questions, broaden a basis for comparison and enhance the Security District's accountability. Management's Discussion and Analysis (MD&A) serve as an introduction to the basic financial statements. The Security District's basic financial statements are comprised of the major fund financial statements and notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

Government-Wide Financial Statement

The government-wide financial statements report information about the Security District as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the Security District's assets and all of its liabilities. All of the Security District's activities are classified as governmental activities in the government-wide financial statements. The governmental activities are financed primarily by parcel fee revenue and interest income.

Fund Financial Statements

Fund financial statements provide detailed information regarding the Security District's most significant activities and are not intended to provide information for the Security District as a whole. Funds are accounting devices that are used to account for specific sources of funds. All of the Security District's funds are limited to its general fund, which is classified as a Governmental Fund. This fund is used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund uses a modified accrual basis of accounting that provides a short-term view of the Security District's finances. Assets reported by the governmental fund are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.

TWINBROOK SECURITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025

1. Summary of Significant Accounting Policies

The accounting policies of the Twinbrook Security District (the Security District) conform to generally accepted accounting principles (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles.

Financial Reporting Entity

The Security District is a special taxing district created by Act 76 of Regular Session of 2005 of the Louisiana Legislature (Louisiana Revised Statute 33:9091.9), for the purpose of promoting and encouraging security in the area included within the Security District. The boundaries of the Security District are areas within the following perimeter: Jefferson Avenue (lower side only) to Danneel Street (both sides) to Valence Street (both sides) to Prytania Street (both sides) and back to the lower side of Jefferson Avenue.

The Security District is governed by a Board consisting of nine members (commissioners) who are residents of the Security District. The commissioners are appointed as follows: The President of the Twinbrook Neighborhood Association or his designee, four members appointed by the board of directors of the Association, one member appointed by the mayor of the City of New Orleans, one member appointed by the member of the City of New Orleans whose Council District encompasses all or a greater portion of the Security District, one member appointed by the Louisiana House of Representatives whose District encompasses all or a great portion of the Security District, and one member appointed by the Louisiana Senate whose District encompasses all or a greater portion of the Security District. All members of the board must be residents of the Security District.

As approved by a majority of the voters of the Security District in November 2013 and renewed by a vote in November 2022, the operations of the Security District have been funded beginning in 2013 by the imposition of a special parcel fee on all taxable real property within the Security District. The election in November 2022 provided for the Security District to levy an annual parcel fee in an amount not to exceed \$575 per year with an increase of \$25 per year for a period of seven years beginning on January 1, 2023, and ending December 31, 2030.

Section 2100 of the Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards* establishes criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under the provisions, the Security District is considered a primary government, since it is a special purpose government that has a separately appointed governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the Security District may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges (within legally prescribed limits), and issue bonded debt.

The Security District does not have any component units, and the Security District is not a component unit of any other entity.

TWINBROOK SECURITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025

1. Summary of Significant Accounting Policies (continued)

Fund Accounting

The financial transactions of the Security District are recorded in an individual fund (the General Fund). The operation of the General Fund is accounted for with a separate set of self-balancing accounts that comprise its assets, outflows of resources, liabilities, inflows of resources, fund balances, revenues and expenditures. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

Governmental funds are used to account for all general activities. These funds focus on the sources, uses and balances of the current financial resources. Expendable assets are assigned to the general fund according to the purposes for which they may be used. Current liabilities are assigned to the general fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations.

The Security District records all activities in one fund, the General Fund.

Basis of Presentation

The Security District's basic financial statements consist of government-wide statements and the fund financial statements (General fund). The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and promulgated by the GASB *Codification of Accounting and Financial Reporting Standards*.

Measurement Focus and Basis of Accounting

Measurement focus refers to what items should be reported as elements of financial statements and basis of accounting refers to when those elements are recognized in the financial statements.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. These statements include all the financial activities of the Security District.

The government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions are recognized when the exchange occurs, regardless of when cash is received or disbursed. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Codification Section N50, Non-exchange Transactions.

TWINBROOK SECURITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025

1. Summary of Significant Accounting Policies (continued)

Measurement Focus and Basis of Accounting (continued)

Government-Wide Financial Statements (continued)

Program revenues included in the Statement of Activities are derived directly from the program itself or from sources outside the Security District's tax based directly related to the program (operating grants and contributions). Program revenues reduce the cost of the function to be financed from general revenues.

Fund Financial Statements (General Fund)

The accounting and financial reporting treatments applied to a fund are determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With the current financial resources measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Governmental funds are accounted for on the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized in the accounting period in which they become susceptible to accrual, that is, when they become measurable and available to pay current liabilities. Such revenue items are ad valorem taxes, sales taxes, and state and federal entitlements. Ad valorem taxes are considered measurable in the calendar year of the tax levy if collected soon enough to meet the availability criteria.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Budget and Budgetary Accounting

The general fund of the Security District has a legally adopted budget on an annual basis. The adopted budget is prepared on the modified accrual basis of accounting, a basis consistent with the accounting principles generally accepted in the United States. The proposed budget is submitted to the Board of Commissioners prior to the beginning of each fiscal year. The budget is made available for public inspection and is then legally adopted by the Board of Commissioners. The budget is amended during the year as necessary. All budgetary appropriations lapse at the end of the year and must be re-appropriated for the following year to be expended.

Cash and Cash Equivalents

Cash and cash equivalents include amounts in interest bearing demand deposits. The Security District may invest in United States bonds, notes, bills, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

TWINBROOK SECURITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025

1. Summary of Significant Accounting Policies (continued)

Restricted Net Position

For the government-wide Statement of Net Position, net position is classified and displayed in three components focused on the accessibility of the underlying assets:

- Net investment in capital assets, calculated as capital assets net of accumulated depreciation plus capital-related deferred outflows of resources, less capital-related borrowings and deferred inflows of resources;
- Restricted, either externally imposed by creditors such as debt covenants, grantors, contributors, laws, or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation; or
- Unrestricted. When both restricted and unrestricted resources are available for use, it is the Security District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Equity of Fund Financial Statements

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

- Nonspendable represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.
- Restricted represents balances where constraints have been established by parties outside the Security District or imposed by law through constitutional provisions or enabling legislation.
- Committed represents balances that can only be used for specific purposes pursuant to constraints imposed by the adoption of a resolution by the Security District, which is the Security District's highest level of decision-making authority.
- Assigned represents balances that are constrained by the Security District's intent to be used for specific purposes but are not restricted or committed.
- Unassigned represents balances that have not been assigned and that have not been restricted, committed, or assigned to specific purposes within the general fund.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures and contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates, and those differences may be material.

TWINBROOK SECURITY DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025

1. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements - Adopted

The Security District adopted GASB Statement No. 102, Certain Risk Disclosures, which requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units vulnerable to the risk of a substantial financial impact. If certain criteria are met, the concentration or constraint needs to be disclosed in the notes to the financial statements. The adoption of this standard did not have a material impact on the Security District's financial statements.

Recent Reporting and Disclosure Developments

As of December 31, 2025, the GASB has issued several statements that are to be implemented by the Security District in future years. The statements which may have an impact on the School Board are as follows:

GASB Statement 103 Financial Reporting Model Improvements

Statement 103 sets forth improvements to the financial reporting model to enhance effectiveness in providing information that is essential for decision making and assessing a government's accountability. Management is currently evaluating the effects of the new GASB pronouncement scheduled for implementation for the fiscal year ending December 31, 2026.

GASB Statement 105, Subsequent Events

Statement 105, issued in December 2025, establishes guidance for reporting subsequent events those occurring after the balance sheet date but before financial statements are issued or available to be issued. The standard distinguishes between recognized subsequent events, which relate to conditions existing at the balance sheet date and require adjustments to the financial statements, and nonrecognized subsequent events, which arise afterward and require disclosure but not adjustment. Governments must disclose the nature of such events and, when possible, provide an estimate of their financial impact. Management is currently evaluating the effects of this new GASB pronouncement scheduled for implementation for the fiscal year ending December 31, 2027.

2. Concentration of Credit Risk

As of December 31, 2025, the Security District had cash (book balances) in the amounts of \$21,857, which are in demand deposit or interest-bearing demand deposit accounts. At December 31, 2025, the Board of Liquidation, as fiscal agent of the District, held on the Security District's behalf unrestricted cash and cash equivalents in the amount of \$8,235.

Custodial credit risk is the risk that in the event of a financial institution failure, the Security District's deposits may not be returned to them. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent financial institution. Securities that may be pledged as collateral consist of obligations of the United States government and its agencies, obligations of the state of Louisiana and its municipalities, and school districts. As of December 31, 2025, none of the Security District's bank balances were exposed to custodial credit risk.

Cash and cash equivalents held by the Board of Liquidation, City Debt in the amount of \$8,235 were fully covered by pledged securities held by financial institutions in the name of the Board of Liquidation, acting as fiscal agent for the Security District.

3. Parcel Fees

Effective January 1, 2023, the Security District submits a plan to the City Council of New Orleans to levy and collect a parcel fee, not to exceed \$575. The Security District is authorized to increase the maximum parcel fee amount by \$25 per year for each calendar year after 2023.

The City of New Orleans levies and collects the special fees for the Security District in the same manner and at the same time as ad valorem taxes on property subject to taxation by the City of New Orleans are levied and collected. The City of New Orleans, as provided by state law, is the official tax collector of general property taxes levied by the Security District. Taxes are due and payable by January 31 of the assessment year, and the lien date is February 1. State law requires the City of New Orleans to collect property (ad valorem) taxes in the calendar year in which the assessment is made. Property taxes become delinquent on February 1. If taxes are not paid by the due date, taxes bear interest at the rate of one percent per month until taxes are paid. A list of property on which taxes have not been paid is published in the official journal of the City of New Orleans. If taxes are not paid within the period stipulated in the public notice, the property is sold for taxes due at a tax sale held by the City of New Orleans. The tax sale is usually held prior to the end of the Security District's fiscal year.

All property taxes are recorded in the governmental funds (General Fund). Parcel fee revenues are recognized in the accounting period in which they become measurable and available. Property taxes are considered measurable in the calendar year of the tax levy. Estimated uncollectible amounts are that parcel fees based on past experience where parcel fees will not be collected in the subsequent year. Since parcel fees receivable are secured by property, there is no allowance for uncollectible parcel fees. Available means due or past due and receivable within the current period and collected within the current period. The remaining parcel fee receivables are considered available if they are collected within sixty days subsequent to year end.
