INTRODUCTORY SECTION

Clay J. Corley, Superintendent

March 31, 2025

RE: Financial Statement Transmittal Letter for the Fiscal Year Ended June 30, 2024

To the Elected School Board Members and Citizens of DeSoto Parish:

Louisiana law requires that an annual sworn financial statement be furnished to the Legislative Auditor within six months of the close of each fiscal year in accordance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards (GAAS) by a certified public accountant. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the DeSoto Parish School Board for the year ended June 30, 2024.

The DeSoto Parish School Board's ACFR has three basic sections:

- The *Introductory Section* provides general information on the DeSoto Parish School Board's structure and personnel as well as information useful in assessing the Board's financial condition.
- The *Financial Section* contains the basic financial statements and required supplementary information (including management's discussion and analysis), as well as the independent auditor's report. In addition, the financial section provides information on each individual fund and component unit for which data is not provided separately within the basic financial statements. The financial section also includes supplementary information useful to financial statement users.
- The *Statistical Section* provides a broad range of trend data covering key financial indicators from the past 10 fiscal years (for instance, general government revenues and expenditures, property tax collections, debt burden). It also contains demographic and miscellaneous data useful in assessing the Board's financial condition.

Management's Representations & Internal Control Framework

This report consists of management's representations concerning the finances of the DeSoto Parish School Board. Consequently, the Superintendent and the Director of Business Services assume full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, we have established a comprehensive internal control framework designed both to protect the School Board's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the DeSoto Parish School Board's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the DeSoto Parish School Board's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial

statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Independent Auditor's Review of Financial Statements

The DeSoto Parish School Board's financial statements have been audited by Allen, Green & Williamson, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the DeSoto Parish School Board for the fiscal year ended June 30, 2024, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the DeSoto Parish School Board's financial statements for the fiscal year ended June 30, 2024, are fairly presented in conformity with (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the DeSoto Parish School Board was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the DeSoto Parish School Board's separately issued Single Audit Report.

Management's Discussion & Analysis (MD&A)

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The MD&A immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A also complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE DESOTO PARISH SCHOOL BOARD

The DeSoto Parish School Board is an independent district created by Louisiana Revised Statute (LSA-R.S.) 17:51 to provide public education for the children within DeSoto Parish. The School Board is fiscally independent by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the state of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of 11 members who are elected from 11 districts for terms of four years.

The School Board operated 9 schools and 1 alternative program within the parish, employs more than 770 teachers and other school workers, and has a total enrollment, which includes Pre-K, of approximately 4,800 pupils. In conjunction with the regular K-12 educational program, DeSoto offers special education, career and technical education programs, universal pre-K and a 3-year-old program in one school that will expand in the future. The School Board also provides services for alternative students, home bound students, transportation to and from school, and meals for breakfast and lunch.

Mission Statement

The mission of the DeSoto Parish School Board is:

• DeSoto Serves to make a difference in the lives of our students by instilling a sense of community and responsibility, providing a positive and collaborative culture, and promoting excellence through innovative educational experiences and service to others.

Projected Student Enrollment

Student enrollment, without Pre-K, was 4,698 and 4,974 with Pre-K in FYE 2023-24 which is a slight decrease over the prior year. The North DeSoto area continues to account for more than half of the students as shown in the table below. The number of students in this area is a result of its proximity to Shreveport and developers continuing to build new single-family homes in subdivisions in and around the Stonewall area. This has caused a number of families to relocate from other parts of the parish as well as from Caddo Parish.

	Number of Students		Cha	ange

Age of School Buildings

The DeSoto Parish School Board has several school buildings and non-instructional buildings that were constructed or purchased with Capital Projects Funds. The method of financing for these capital expenditures occurred by (a) borrowing monies after tax propositions were approved by the public, or (b) by saving money over a period of years. Therefore, the decision to add a public facility or to make extensive repairs is based on the understanding of needs of the students, teachers, parents, and taxpayers of the community.

A listing of the buildings owned by the DeSoto Parish School Board is shown on the next page.

Budget Overview

The Annual Operating Budget serves as the foundation for the DeSoto Parish School Board's financial planning and control. All administrators are required to submit requests for appropriation to the Director of Business Services. Compilation of the budget is completed by the Business Office and sent to the Superintendent for review and/or alterations in April of each year. The final draft of the proposed Annual Operating Budget is presented by the Superintendent to the School Board at its regular meeting in May of each year. This gives the Board Members at least 30 days to review the budget before it is voted in an open meeting. Before the budget is voted on by the School Board, the Budget/Finance Committee reviews the budget. The Board is also required by Louisiana law to hold at least one public hearing prior to its adoption, to publish a notice in the newspaper of the upcoming public hearing, and to make available to the public a copy of the proposed budget at least 15 days prior to the public hearing. The public hearing and the vote by the elected School Board Members on the Annual Operating Budget is held on the first Thursday in June of every year.

The approved Annual Operating Budget presents revenues by source and expenditures by function as defined by the Louisiana Board of Elementary and Secondary Education's Bulletin #1929. The Superintendent is authorized to transfer amounts between line items within a fund in accordance with proper accounting procedure without approval by the Board. However, budget amendments are required when total revenues drop 5% or more below expectations, total expenditures exceed budget estimates by 5% or more, and when beginning fund balance is less than 5% or more of its projected amount. Desoto Parish School Board's budget policies comply with state law as set forth in Louisiana Revised Statutes Title 39, Chapter 9, Louisiana Local Budget Act (LSA-R.S. 39:1301 et seg.) All funds of the school district have annual appropriated budgets, except for the student activity funds.

Budget-to-actual comparisons are provided in this report for the General Fund, each individual Special Revenue Fund, each individual Debt Service Fund and each individual Capital Project Fund.

Tax Abatement

The DeSoto Parish School Board is subject to a tax abatement program, which is part of the broader Louisiana Industrial Tax Exemption Program (ITEP). This program allows companies that build or expand in the parish to receive an exemption from local property taxes on new or expanded buildings and equipment for up to 10 years. The primary goal of this tax abatement is to encourage business development and job creation in the parish by offering financial incentives to companies willing to invest in the region. This program can significantly reduce property tax revenues that would otherwise support local schools.

ECONOMIC CONDITION OF DESOTO PARISH, LOUISIANA

Local Economy

DeSoto Parish is located in the northwest corner of Louisiana. It has a land area of 879 square miles and is approximately 43 miles in length and 39 miles in width. Interstate 49 runs north and south through the parish and the northern boundary of DeSoto Parish is approximately 10 miles south of Shreveport, the largest metropolitan area of the region. The parish's economy is balanced among agriculture, mining, timber, oil & gas exploration, and manufacturing.

The estimate population of Desoto Parish as of July 1, 2022, was 26,853 according to the U. S. Census. New residential and commercial development continues in the north end of the parish.

The DeSoto Parish School Board was able to close out this year with a high reserve balance thanks to ESSER funding. This is the last year of ESSER and DPSB had more revenue than budgeted.

Long-term Financial Planning

Annual Other Post Employee Benefits (OPEB) Cost and Liability – The Other Post Employee Benefits (OPEB) liability has been partially funded every year since FY 2008-09 in accordance with the standards established by the Governmental Accounting Standards Board (GASB). The School Board's net OPEB liability is \$45.3 million for the current year.

As of June 30, 2024, the funded ratio of the net OPEB liability is 66%, which is net of the OPEB plan assets of \$87.7 million. Until the OPEB liability is fully funded, the funding strategies below are being utilized:

- Continue the transfer from reserve of any monies of the Medical or Dental Internal Service funds that exceeds 25% of Total Operating Expenses from the prior fiscal year.
- Receive payments from the Sales & Use Tax Commission for its employees.

Major Initiatives

Two major strategies and educational programs that have proven to produce large gains in student learning and that provide an equal opportunity for all students to succeed has been the Early Childhood (4-year-olds) Programs and the Teacher and Student Advancement Program (TAP) Model.

Early Childhood – This program began as a pilot program in FY 2001-02. It is offered in all schools in DeSoto Parish today. The program's purpose is to enhance the school readiness of young children for kindergarten, particularly disadvantaged young children; as well as early reading and cognitive development skill for all 4-year-old children. The funding sources and total costs for this program are shown below.

Early Childhood Funding Sources	Funding Source	FY 2023-24 Cost
LA4 State	State grant	\$982,080
Title I	Federal grant	643,929
General fund	Local	277,114
Student Enhancement – 8G	State grant	86,956
Lead Agency - CCDF	Federal grant	197
Ready Start - CCDF	Federal grant	50,000
Ready Start - CCDBG	Federal grant	41,269
Ready Start - PDG	Federal grant	34,172
Believe Cat. 4	Federal grant	14,832
Total		\$2,130,549

Teacher and Student Advancement Program (TAP) – This program was piloted in FY 2008-09 and is now serving all schools in DeSoto Parish. TAP gives increased attention to high quality teaching and learning and has raised school and school district performance scores. The funding sources and total cost are shown next:

TAP Funding Sources	Funding Source	FY 2023-24 Cost	
ESSER	SSER Local		
General fund	Local	2,772,768	
Title I	Federal grant	<u>767,430</u>	
Total		\$3,588,948	

Relevant Financial Policies

The Board has several relevant financial policies (approved in March 2014) to preserve and enhance the fiscal health of the school system. They also identify acceptable and unacceptable courses of action and provide a standard to evaluate the Board's fiscal performance. Besides the Board's Annual Operating Budget policy, other policies that are central to a strategic, long-term approach to financial management include the following:

- **Budget Crisis Procedures** The budget crisis procedures policy is intended to provide the Board with options when responding to unexpected fiscal issues that can and do arise. Should budget problems materialize, these procedures will support comprehensive risk analysis and contingency plans.
- Capital Asset Management and Replacement In support of its educational programs, the DeSoto Parish School Board owns and operates an extensive amount of land, buildings, building improvements, equipment, furniture, and vehicles. The purpose of this policy is to (1) provide a management framework to ensure that all capital assets are repaired, maintained, and replaced, and (2) to identify the responsible parties who shall protect, oversee, and report needed repairs.
- General Fund Budget Reserves The General Fund is the primary fund used by the DeSoto Parish School Board to account for the Board's educational and instructional services. Accordingly, the General Fund reserve policy is intended to provide the Board with options when responding to unexpected issues, and to afford buffer against shocks and other forms of risks.
- Long-Term Forecasting The annual operating budget focuses on a single 12-month period. Nevertheless, spending and revenue decisions made today have effects that extend beyond the 12-month period. Accordingly, the purpose of this policy is to (1) ensure on-going financial sustainability beyond a single fiscal year or budget cycle, (2) achieve the Board's organizational mission, and (3) systematically link the annual budget to a multi-year master financial plan.
- Reserve Policies in Other Funds While the General Fund reserve is the most important for the DeSoto Parish School Board, reserves in other funds are just as important. For that reason, the funds listed in this policy shall have reserve that are restricted or committed for specific purposes.

AWARDS

The Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting is not available at this time. The prior year's award was the 32st consecutive year that the DeSoto Parish School Board received the award. In order to be awarded a Certificate of Achievement, the School Board published an easily readable and efficiently organized Annual Comprehensive Financial Report.

The Association of School Business Officials (ASBO) International awarded a Certificate of Excellence in Financial Reporting Award for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2023. This was the 33nd consecutive year that the DeSoto Parish School Board has received this prestigious award. The award represents a significant achievement by the School Board and reflects our commitment to the highest standards of school system financial reporting.

The Certificate of Achievement and Certificate of Excellence are valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the certificate requirements, and we are submitting it to both GFOA and ASBO to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Business Department. We want to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Superintendent and the School Board Members for their unfailing support for maintaining the highest standards of professionalism in the management of the DeSoto Parish School Board's finances.

INDEPENDENT AUDITOR'S REPORT

Board Members DeSoto Parish School Board Mansfield, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the DeSoto Parish School Board, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the DeSoto Parish School Board, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgement and maintain professional skepticism throughout the audit.
- •identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, no such opinion is expressed.
- •evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- •conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matters

As disclosed in Note 21 to the financial statements, the School Board adopted new accounting guidance, GASB Statement No. 100 - *Accounting Changes and Error Corrections*. Our opinion is not modified with respect to these matters.

As disclosed in Note 7 to the financial statements, the net pension liability for the School Board was \$68,724,170 at June 30, 2024, as determined by the Teachers' Retirement System, of Louisiana (TRSL), and Louisiana School Employees' Retirement System (LSERS). The related actuarial valuations were performed by TRSL's and LSERS's actuaries using various assumptions. Because actual experience may differ from the assumptions used, there is a risk that this amount at June 30, 2024, could be under or overstated. Our opinion is not modified with respect to this matter.

As discussed in Notes 8 to the financial statements, the net other post-employment benefits (OPEB) liability for the School Board was \$45,290,778 at June 30, 2024, related to its participation in a single-employer other post-employment benefit plan. The related actuarial valuations were performed by the School Board's actuary using various assumptions. Because actual experience may differ from the assumptions used, there is a risk that this amount at June 30, 2024, could be under or overstated. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in Net OPEB Liability, Schedule of Employer Contributions for Other Post-Employment Benefit Plan, Schedule of Investment Returns for Other Post-Employment Benefit Plan, Schedule of Employer's Proportionate Share of the Net Pension Liability, Schedule of Employer Contributions to Pension Plans, Notes to Required Supplementary Information for Pensions, the Budgetary Comparison Schedules, and the Notes to the Budgetary Comparison Schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the DeSoto Parish School Board's basic financial statements. The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the accompanying supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information, as listed in the table of contents, does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report, dated March 31, 2025, on our consideration of the DeSoto Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

We offer readers of the DeSoto Parish School Board's financial statements this narrative overview and analysis of the financial activities of the DeSoto Parish School Board for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

Key financial highlights for the 2024 fiscal year include the following:

- <u>Statement of Net Position</u> The assets and deferred outflows of the DeSoto Parish School Board exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$140,796,084 (net position). Of this amount, unrestricted net position is a surplus of \$50,522,507. This is an increase of \$21,772,207 attributed to actuarial assumptions that lowered pension liabilities.
- <u>Statement of Activities</u> The total net position of the DeSoto Parish School Board increased by \$35,708,580 for the year ended June 30, 2024, compared to the prior year. This increase is due to the increase in revenue from ad valorem taxes levied and interest and investment earnings.
- Governmental Funds Balance Sheet As of the close of the current fiscal year, the DeSoto Parish School Board's governmental funds reported a combined ending fund balance of \$176,499,302, an increase of \$45,635,852 in comparison with the prior fiscal year. This fund balance is comprised of (1) \$42,754,571 in the General Fund, (2) \$47,863,359 in the Special Revenue Funds, (3) \$81,779,278 which is restricted or committed for specific construction projects within the Capital Projects Funds, and (4) \$4,102,094 which is restricted or committed for debt service.
- Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances Total revenues for the year ended June 30, 2024 for the governmental funds of the DeSoto Parish School Board amounted to \$140,871,622. Approximately 78.7% of this amount is received from three major revenue sources: (1) \$18,669,082 from State Source-Equalization, (2) \$56,430,703 from local ad valorem taxes, and (3) \$35,793,659 from local sales and use taxes.
- <u>General Fund's Ending Fund Balance</u> At the end of the current fiscal year, fund balance for the General Fund, was \$42,754,571, or 57.2% of total General Fund expenditures. Of this amount, \$11,600,000 is committed for future claims and contingencies, equipment replacement, and specific projects, while \$31,154,571 is unassigned and available for spending at the Board's discretion.

NEW GASB STANDARD In the current fiscal year, the School Board implemented Statement No. 100 – *Accounting Changes and Error Corrections* – *an amendment of GASB statement No. 62*. This statement provides guidance to enhance accounting changes and error corrections to provide more understandable, reliable, consistent, and comparable information for making decisions or assessing accountability. The adoption of this standard had no impact on the School Board's financial statements or notes to the financial statements

USING THIS ANNUAL REPORT The School Board's annual report consists of a series of financial statements that show information for the School Board as a whole, its funds, and its fiduciary responsibilities. The Statement of Net Position and the Statement of Activities provide information about the activities of the School Board as a whole and present a longer-term view of the School Board's finances. Our fund financial statements are included later in this report. For our governmental activities, these statements tell how we financed our services in the short-term as well as what remains for future spending. Fund statements also may give you some insights into the School Board's overall financial health. Fund financial statements also report the School Board's operations in more detail than the

government-wide financial statements by providing information about the School Board's most significant funds, the General Fund, Instructional Enhancement Fund, Education Stabilization Fund, School District No. 1 Capital Project Fund and School District No. 2 Capital Project Fund. The fiduciary fund statements present financial information about activities for which the School Board acts solely as an agent for the benefit of employees.

Reporting the School Board as a Whole

The Statement of Net Position and the Statement of Activities

Our analysis of the School Board as a whole begins with the government-wide financial statements. One of the most important questions asked about the School Board is, "Is the School Board as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Position and the Statement of Activities, which appear first in the School Board's financial statements, report information on the School Board as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets, liabilities and deferred inflows/outflows of resources, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School Board's net position - the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, as reported in the Statement of Net Position - as one way to measure the School Board's financial health, or financial position. Over time, increases or decreases in the School Board's net position - as reported in the Statement of Activities - are one indicator of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School Board's operating results. However, the School Board's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the School Board.

The Statement of Net Position and Statement of Activities report the following activity for the School Board:

Governmental activities - All of the School Board's services are reported here, including instruction, plant services, transportation, and food services. Property taxes, sales taxes, equalization funds, and state and federal grants finance most of these activities.

Reporting the School Board's Most Significant Funds

Fund Financial Statements

The School Board's fund financial statements provide detailed information about the most significant funds - not the School Board as a whole. Some funds are required to be established by State law and by bond covenants. However, the School Board establishes many other funds to help it control and manage money for particular purposes (like the school food service) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (like grants the School Board receives from the U.S. Department of Education). The School Board's governmental funds use the following accounting approach:

Governmental Funds - All of the School Board's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year-end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School Board's operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School Board's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliation on Statements D and F.

Proprietary Funds - The DeSoto Parish School Board maintains three funds within the Proprietary Fund. Internal Service funds are an accounting device used to accumulate and allocate costs internally among the School Board's various functions. The School Board uses an Internal Service Fund to account for the accumulation of resources for and the payment of employee medical insurance, dental insurance, and workmen's compensation by the School Board's risk management program. Because this service predominantly benefits governmental functions, it has been included with governmental activities in the government-wide financial statements.

The School Board as Trustee

Reporting the School Board's Fiduciary Responsibilities

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the DeSoto Parish School Board. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the DeSoto Parish School Board's own programs. The School Board maintains one Other Post-Employment Benefits Trust Fund. The Trust Fund accounts for the assets held in an irrevocable trust for payment of retiree health insurance premiums.

THE SCHOOL BOARD AS A WHOLE The School Board's net position was \$140,796,084 at June 30, 2024. Of this amount \$50,522,507 was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net position for day-to-day operations. Our analysis below focuses on the net position, (Table 1) and the change in net position (Table 2) of the School Board's governmental activities.

Table 1 Net Position June 30,

	Governmental Activities		
	2024	2023	Variance
Current and other assets	\$ 195,113,911	\$151,385,349	\$ 43,728,562

Total net position	\$ 140,796,084	\$105,087,504	\$ 35,708,580

The \$50,522,507 in unrestricted net position of governmental activities represents accumulated results of all past year's operations. It means that if the School Board had to pay off all of its bills today including all of its noncapital liabilities such as compensated absences, net pension liability and net OPEB liability, there would be a surplus of \$50,522,507.

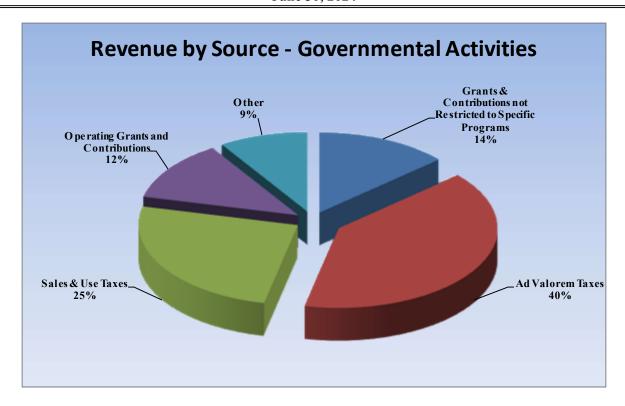

The net position of the School Board had an increase of \$35,708,580 for the year, which is due to decreases in expenses related to pensions as well as ad valorem taxes increased \$11,719,046 due to 30% increase in taxable value of parish-wide property.

The results of this year's operations for the School Board as a whole are reported in the Statement of Activities. Table 2 on the following page, takes the information from that statement and rearranges it slightly so that readers can see total revenues for the year.

Governmental activities - As reported in the Statement of Activities, the cost of all governmental activities this year was \$105,536,424. The amount that taxpayers ultimately financed for these activities through School Board taxes and other general revenues was \$88,290,576 because some of the cost was paid by those who benefited from the program (\$19,185) or by other governments and organizations who subsidized certain programs with grants and contributions (\$17,226,663). After paying for current year expenses, net position increased \$35,708,580.

In the table below we have presented the cost of each of the School Board's largest functions: regular programs, special programs, other instructional programs, pupil support services, plant services, student transportation services, and food services as well as each program's net cost (total cost less revenues generated by the activities). Net cost shows the financial burden that was placed on the School Board's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

THE SCHOOL BOARD'S FUNDS As we noted earlier, the School Board uses funds to help it control and manage money for particular purposes. Analyzing the funds is a factor in determining whether the School Board is being accountable for the resources taxpayers and others provide to it but may also give more insight into the School Board's overall financial health.

All funds operated are required by Board policy to have minimum reserve levels that are intended to provide the School Board with options when responding to unexpected issues and to afford a buffer against shocks and other forms of risk. The six most important purposes of these reserve policies are to help (1) plan for contingencies and unforeseen events, (2) maintain good standing with rating agencies, (3) avoid interest expense, (4) generate investment income, (5) ensure cash availability when revenue is unavailable, and (6) create a better working relationship between the School Board and staff. The key factors of the reserve levels for governmental funds are described as follows:

Major Funds:

General Fund – A minimum reserve level of 15% of total General Fund expenditures was achieved by the school system for the 29th consecutive year. When comparing the ending fund balance of \$42,754,571 to total expenditures of \$74,720,741, the actual percent was 57.2%. The general fund ended the year with an increase in fund balance of \$13,386,127. This increase is mainly due to increases in ad valorem taxes of \$9,397,892 due to 30% increase in taxable value of parish-wide property and increase in interest earnings.

<u>Instructional Enhancement Program Fund</u> – The Instructional Enhancement Program is a major Special Revenue Fund that is funded annually with local revenues through Earnings from Other Real Property. The Board does not have a minimum reserve requirement for this fund. The remaining fund balance of \$40,091,024, which was an increase of \$6,431,266 from the prior year, is committed by the Board to be used for future educational initiatives and continued funding for educational programs when State and Federal grants are no longer available or when they underfund a program. This increase is due primarily to a transfer in for future educational programs.

<u>Education Stabilization Fund</u> – The Education Stabilization fund is a major Special Revenue Fund that is used to account funding received from both the CARES Act and American Rescue Plan Act to assist the School District in meeting the challenges in providing education services as a result of the COVID-19 pandemic. This fund is a cost reimbursement fund and has no ending fund balance.

School District No. 1 – This fund has an ending fund balance of \$30,238,716, which was an increase of \$26,051,691 from the prior year. The balance is restricted and committed for future projects in District No. 1. This increase is due to sale of bond and receipt of bond premium.

School District No. 2 – This fund has an ending fund balance of \$25,155,232 which was an increase of \$5,016,269 from the prior year. The balance is committed for future projects in District No. 2. This increase is due to increases in sales tax and interest earnings.

Nonmajor Funds:

<u>Special Revenue Funds</u> – The Board operates nonmajor Special Revenue Funds that are restricted or committed for specific purposes. All of the funds, except for the four shown below, are grants from the federal government that will not carry a beginning or ending fund balance. Of the remaining four funds, a minimum reserve level is required for the School Food Service Fund and the Maintenance Tax Fund.

- Maintenance Tax Fund The Maintenance Tax Fund is a nonmajor Special Revenue Fund that is funded annually with local revenues through a parish wide ad valorem property tax. This fund provides additional support for property/casualty insurance, school bus purchases, fuel for pupil transportation, utilities, maintenance, and school security. For the year ended June 30, 2024, the total ending fund balance of \$2,744,711 exceeded the minimum reserve requirement of 16.6%. The percent of the ending fund balance to total expenditures was 40.4%. The fund had an increase of \$1,136,854 due primarily to a transfer in at year end.
- School Food Service Fund The School Food Service is a nonmajor Special Revenue Fund and is used to account for revenues and costs associated with providing nutritious meals to school children and employees. For the year ended June 30, 2024, the total ending fund balance of \$655,511 exceeded the minimum reserve requirement of 10%. The percent of the ending fund balance to total expenditures was 12.0%. The nonspendable amount of the fund balance of \$220,048 is directly tied to the inventory of food while the restricted amount of \$435,463 can be used for future expenditures in the school breakfast and lunch programs.
- Art Preservation Fund The Art Preservation fund is a nonmajor Special Revenue Fund that is funded annually with local revenue from 16th section land leases and was established by a one-time transfer from the general fund. The Board does not have a minimum reserve requirement for this fund. The remaining fund balance of \$2,672,277 is committed to preserve district-wide initiatives for music and art education.
- ➤ Student Activity Funds The Student Activity Funds is a nonmajor Special Revenue Fund and is used to account for revenues and expenditures associated with the schools within the School District. For the year ended June 30, 2024, the total ending fund balance was \$1,699,836. The Board does not have a minimum reserve requirement for this fund. The fund balance is restricted for student activities.

<u>Debt Service Funds</u> – The debt service funds are used to accumulate monies for the payment of all outstanding bond issues. A separate debt service fund is set up each time a tax proposition for school construction is approved by the voters. The Board requires the reserve levels for all outstanding issues, except sales and use tax bonds, to fall between 40% and 75% of next year's principal and interest payments. This reserve requirement only applies when a tax is collected. The reserve for all Sales and Use Tax Bond issues shall be equal to 100% of the average annual debt service payments.

The debt service funds have a total fund balance of \$4,102,094 at June 30, 2024 of which \$2,748,123 is restricted and \$1,353,971 is committed for payment of the bonds.

<u>Capital Projects Funds</u> – The Board maintains capital projects funds to account for the financial resources of acquiring, constructing, improving, and equipping public school facilities. The Board requires minimum reserves of 3% of capital asset values for the capital project fund and specific reserves for unexpected repair and replacement needs. Remaining funds above the thresholds are available for spending.

The capital project funds has an ending fund balance of \$26,385,330, which was a decrease of \$7,557,286 from the prior year. The balance is committed for future projects. This increase is due to increases in revenues exceeding increases in expenses.

GENERAL FUND BUDGETARY HIGHLIGHTS The original 2023-24 operating budget for the School Board was adopted on June 8, 2023, and the final budget amendment was adopted on March 14, 2024. Differences between the original budget, the final amended budget, and the actual results for the general fund are as follows:

- Budgeted revenues were decreased by \$7,050,660.
- Budgeted expenditures were decreased by \$336,455.
- Actual revenues exceeded budgeted revenues by \$22,095,330.
- Budgeted expenditures exceed actual expenditures by \$5,313,278.

In comparing the original budget and the final revised budget of the General Fund as shown in Exhibit 3-1, there are a few reasons for the changes between the original and final budget.

- Decreases in budgeted revenues were made due to decrease in state equalization revenue and other state sources.
- Decreases in budgeted expenditures were made due to decrease in expenditures related to student services.

In comparing the actual amounts and the final revised budget of the General Fund as shown in Exhibit 3-1, there are a few reasons for the differences:

- Favorable revenue variances were primarily due to increases in ad valorem tax and sales tax revenue.
- Favorable expense variances are due to decreases in anticipated expenditures in most functional areas.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2024, the School Board had \$118,239,652 invested in a broad range of capital assets, including land, construction in progress, buildings, improvements other than buildings, furniture and equipment, and vehicles. This amount represents a net increase (including additions, deductions, and depreciation) of \$7,610,490 from last year.

More detail information regarding capital assets is included in Note 6 of Notes to the Financial Statements.

Debt

At the end of the fiscal year, the School Board had \$56,265,000 in debt outstanding versus \$37,140,000 last year. The outstanding debts consisted of:

	 Governmental Activities						
	 2024		2023		Variance		
General obligation	\$ 42,740,000	\$	22,050,000	\$	20,690,000

Total	\$ 56,265,000	\$	37,140,000	\$	19,125,000		

The state limits the amount of general obligation debt that can be issued to 35% of the assessed value of all taxable property within the School Board's corporate limits. The School Board's net bonded general obligation debt is below the statutory-imposed limit.

We present more detailed information about our long-term liabilities in Note 11 of Notes to the Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

At the time these financial statements were prepared and audited, the School Board was not aware of any circumstances that could significantly have an impact on the present and future budgets of the Desoto Parish School Board (DPSB). DPSB is monitoring monthly sales tax receipts and ad valorem collections to see if they match the increase in taxable values.

CONTACTING THE SCHOOL BOARD'S FINANCIAL MANAGEMENT This financial report is designed to provide a general overview of the DeSoto Parish School Board's finances for all those with an interest in the School Board's finances. NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: The accompanying financial statements of the DeSoto Parish School Board have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. REPORTING ENTITY: The DeSoto Parish School Board was created by Louisiana Revised Statute LSA-R.S. 17:51 to provide public education for the children within DeSoto Parish. The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the state of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of eleven members who are elected from eleven districts for concurrent terms of four years.

The School Board operates nine schools within the parish with a total enrollment of approximately 4,974 pupils, including Pre-K. In conjunction with the regular educational programs and special education programs, some schools operate early childhood (4-year-old) programs. The School Board also provides services for expelled students, homebound students, transportation to and from school, and meals for breakfast and lunch.

The School Board is considered a primary government, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Fiscally independent means that the School Board may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The School Board also has no component units as other legally separate organizations for which the elected School Board members are financially accountable. There are no other primary governments with which the School Board has a significant relationship.

B. FUNDS: The accounts of the School Board are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The funds of the School Board are classified into three categories: governmental, proprietary, and fiduciary.

<u>Governmental Funds</u>: Governmental funds are used to account for the School Board's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets, and the servicing of long-term debt. The School Board reports the following major governmental funds:

General Fund - the primary operating fund of the School Board. It accounts for all financial resources of the School Board, except those required to be accounted for in another fund.

Instructional Enhancement - a special revenue fund, primarily funded through local earnings from other real property. It accounts for financial resources funding district-wide educational initiatives for pre-kindergarten through 12th grade.

Education Stabilization - a special revenue fund to assist the School District in meeting the challenges in providing educational services as a result of the COVID-19 pandemic federally funded by the CARES Acts and American Rescue Plan Act.

School District No. 1 - a capital project fund. It accounts for financial resources to acquire, construct, and improve public school facilities in District No. 1.

School District No. 2 - a capital project fund. It accounts for financial resources to acquire, construct, and improve public school facilities in District No. 2.

<u>Proprietary Funds</u>: Proprietary funds account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds differ from governmental funds in that their focus is on measurement, which, together with the maintenance of equity is an important financial indicator. The School Board reports the following proprietary fund:

Internal Service Fund - used to account for medical, dental and workers' compensation insurance for employees of the School Board on a cost reimbursement basis.

<u>Fiduciary Funds</u>: Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of outside parties, including other governments.

Pension (and Other Post-Employment Benefits) Trust Funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contributions plans, other postemployment benefit plans, or other employee benefit plans.

Other Post-Employment Benefits Trust Fund - accounts for the assets held in an irrevocable trust for payment of retirees' health insurance premiums.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING:

Government-Wide Financial Statements (GWFS): The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the GWFS.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

<u>Internal activities</u>: The employees' medical, dental and workers' compensation insurance internal service funds provide services to the governmental funds. Accordingly, the employees' medical, dental and workers' compensation insurance funds activity was rolled up into the governmental activities. Pursuant to GASB Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as much as possible, the internal activities have been eliminated in order to avoid the "grossing-up" effect of a straight inclusion. The interfund services provided and used are not eliminated in the process of consolidation.

<u>Program revenues</u>: Program revenues include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions; program revenues reduce the cost of the function to be financed from the School Board's general revenues. Charges for services are primarily derived from cafeteria sales. Operating grants and contributions consist of the many educational grants received from the federal and state government.

Allocation of indirect expenses: The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term debt is considered an indirect expense and is reported separately in the Statement of Activities.

Fund Financial Statements (FFS):

Governmental Funds: The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on long-term debt which is recognized when due. Compensated absences and claims and judgments are reported in a governmental fund only if the claims are due and payable.

With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes are recorded in the year the taxes are due and payable and are remitted on a monthly basis to the School Board.

Sales and use taxes are recorded in the month collected by the vendor.

<u>Entitlements and shared revenues</u> (which include state equalization and state revenue sharing) are recorded as unrestricted grants-in-aid at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

<u>Other receipts</u> become measurable and available when cash is received by the School Board and are recognized as revenue at that time.

Expenditures

<u>Salaries</u> are recorded as paid. Unpaid salaries for nine-month employees who are paid over twelve months are accrued at June 30. Substantially all other expenditures are recognized when the related fund liability has been incurred.

Other financing sources (uses) transfers between funds that are not expected to be repaid (or any other types, such as lease transactions, sale of capital assets, debt extinguishments, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

<u>Proprietary Fund</u>: Proprietary fund is accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet.

Operating revenues and expenses: Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

<u>Fiduciary Fund</u>: The trust fund is custodial in nature and does not present results of operations. The trust fund is accounted for using the accrual basis of accounting and uses the economic resources measurement focus.

D. BUDGETS:

General Budget Policies State statute requires budgets to be adopted for the general fund and all special revenue funds excluding Student Activity Funds; however, the School Board has elected to also adopt budgets for capital project and debt service funds. In May the Superintendent submits to the Board proposed annual budgets for the general fund, special revenue funds, capital project funds and debt service funds. Public hearings are conducted, prior to the Board's approval, to obtain citizens' comments. The operating budgets include proposed expenditures and the means of financing them. Appropriations (unexpected budget balances) lapse at year end.

Formal budget integration (within accounting records) is employed as a management control device. All budgets are controlled at the departmental or project level. School Board policy prescribes that the level of budgetary control is at the fund level for all funds.

Encumbrances Encumbrance accounting is employed in governmental funds. Appropriations lapse at year end, except for the encumbrances within the capital project funds and Education Stabilization fund.

Budget Basis of Accounting All governmental funds' budgets are prepared on the modified accrual basis of accounting. Budgeted amounts are as originally adopted or as amended by the Board. Legally, the Board must adopt a balanced budget; that is, total budgeted revenues and other financing sources including fund balance must equal or exceed total budgeted expenditures and other financing uses. The effect of budget amendments during the year for the general fund was to decrease net revenues by \$7,050,660 and decrease net expenditures by \$336,455.

- **E. CASH AND CASH EQUIVALENTS:** Cash includes amounts in demand deposits, interest-bearing demand deposits and time deposit accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the School Board may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.
- **F. INVESTMENTS:** Investments are limited by R.S. 33:2955 and the School Board's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

The investments are reflected at fair value except for the following which are permitted per GASB Statement No. 31:

- 1. Investments in *nonparticipating* interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, are reported using a cost-based measure.
- 2. Money market investments and *participating* interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less are reported at amortized cost.

Definitions:

Interest-earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations.

- **G. SHORT-TERM INTERFUND RECEIVABLES PAYABLES:** During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as interfund receivables/payables on the balance sheet. Short-term interfund loans are also classified as interfund receivables/payables.
- **H. ELIMINATION AND RECLASSIFICATION:** In the process of aggregating data for the statement of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.
- **I. INVENTORIES:** Inventories of the governmental fund type are accounted for using the consumption method where expenditures are recognized as inventory is used.

Inventories consist of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. The commodities are recorded as revenues and expenditures by the School Food Service Fund when consumed. Any material commodities on hand at year-end are recorded as inventory. All purchased inventory items are valued at cost (first-in, first-out) using the consumption method and commodities are assigned values based on information provided by the United States Department of Agriculture.

- **J. PREPAIDS:** Prepaids of the governmental fund type are accounted for using the purchases method.
- **K. CAPITAL ASSETS:** Capital assets are recorded at historical cost or estimated historical cost for assets where actual historical cost is not available and depreciated over their estimated useful lives. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value. The School Board maintains a threshold level of the following: \$1 (land and construction in progress), \$5,000 (equipment and vehicles), \$25,000 (land improvements), \$50,000 (building and building improvements), and \$250,000 for intangibles for capitalizing capital assets. Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Buildings have been assigned a salvage value of 1% to 8%. Vehicles are assigned a salvage value of 10% to 15%. Other capital assets have not been assigned a salvage value because management feels that the salvage value is immaterial.

Straight line depreciation is used based on the following estimated useful lives:

Buildings	25-45 years
Land improvements	10-25 years
Building improvements	10-20 years
Furniture and equipment	5-15 years
Vehicles	5-8 years

L. UNEARNED REVENUES: The School Board reports unearned revenues on its statement of net position and fund balance sheet. These unearned revenues arise when the School Board receives grant funds for expenditure-driven grants before the qualifying expenditure has occurred. In subsequent periods when the expenditure occurs, the liability for unearned revenue is removed and the revenue is recognized.

M. COMPENSATED ABSENCES: Compensated absences include salary related payments. All eligible twelvemonth School Board employees earn from twelve to eighteen days of vacation leave each year depending upon length of service. An eligible employee shall have worked as a twelve-month employee for thirty days in order to earn annual leave. No employee shall be allowed to accumulate more than twenty-five days of annual leave. If an employee has accumulated twenty-five days of annual leave, monthly accrual shall cease until less than twenty-five.

All School Board employees, except eleven and twelve-month employees, earn ten days of sick leave each year. Twelve-month School Board employees earn twelve days of sick leave each year and eleven-month employees earn eleven days per year. Non-twelve-month employees may use two days of sick leave each year for personal business. Sick leave may be accumulated without limitation. Upon retirement or death, a maximum of twenty-five days accumulated sick leave and up to 25 days of annual leave may be paid to the employee or the employee's estate at the employee's current rate of pay. Under the various pension funds, the total accumulated sick leave, including the twenty-five days paid, is used in the retirement benefit computation as earned service for leave earned prior to July 1, 1988. For sick leave earned after July 1, 1988, under the Teachers' Retirement System of Louisiana and for sick leave earned under the Louisiana School Employees' Retirement System, all unpaid sick leave, which excludes the twenty-five days paid, is used in the retirement benefit computation as earned service.

In the FFS, the matured liability for compensated absences, which includes salary and salary related payments, is reported in the fund. The total liability is reported in the GWFS.

N. LONG-TERM LIABILITIES: Bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as other financing sources. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. Deferred gains on refunding are capitalized and amortized over the life of refunding in the GWFS.

The School Board provides certain continuing medical, dental, vision and life insurance benefits for its retired employees. The OPEB Plan is a single-employer defined benefit "substantive plan" as understood by past practices of the School Board.

For purposes measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the retirement systems and additions to/deductions from the retirements systems fiduciary net position have been determined on the same basis as they are reported by the retirement systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the School Board's retiree benefit plan and additions to /deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. RESTRICTED NET POSITION: For the government-wide statement of net position, net position is reported as restricted when constraints placed on net position use are either:

Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or,

Imposed by law through constitutional provisions or enabling legislation.

Restricted net position of \$4,944,626 reported in the statement of net position is restricted through enabling legislation.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

P. FUND BALANCE AND NET POSITION OF FUND FINANCIAL STATEMENTS: GASB 54 requires the fund balance amounts to be reported within the fund balance categories as follows:

<u>Non-spendable</u>: Fund balance that is not in spendable form or legally or contractually required to be maintained intact. This category includes items that are not easily converted to cash such as inventories and prepaid items.

<u>Restricted</u>: Fund balance that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

<u>Committed</u>: Fund balance that can only be used for specific purposes determined by the School Board's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action it employed to previously commit the funds. Committed fund balance is the result of a resolution passed by the School Board committing the funds.

<u>Assigned</u>: Fund balance that is constrained by the School Board's intent to be used for specific purposes but are neither restricted nor committed. The School Board does not presently have a policy regarding assigned fund balance.

<u>Unassigned</u>: Fund balance that is the residual classification for the general fund. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or adding to those purposes.

The School Board reduces committed amounts, followed by assigned amounts and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used. The School Board considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available.

<u>Minimum Fund Balance/Net Position</u>: The School Board has a policy to maintain minimum fund balance in each of the funds listed below. These reserves provide the Board with additional options when responding to unexpected issues and other forms of risk.

General Fund Special Revenue Fund Maintenance Tax Fund School Food Service Fund	A minimum fund balance equal to 15% of total General Fund annual expenditures. A minimum fund balance equal to 16.6% of total Maintenance Fund annual expenditures. A minimum fund balance equal to 10.0% of total School Food Service expenditures.
Debt Service Fund	When a tax is collected to retire long-term debt, the fund balance shall remain between 40% to 75% of next year's principal and interest payments for all issues except Sales and Use Tax Bonds.
	Sales and Use Tax Bonds shall be equal to 100% of the average annual debt service payments.
Capital Projects Fund	A minimum fund balance shall be equal to (a) 3% of the total capital assets for land improvements, buildings, building improvements and construction in progress located within the boundaries of each district, (b) an amount set aside annually to replace turf football fields or outdoor tracks located at various schools and (c) an amount calculated by technology and set aside for replacement on a 5 year replacement schedule.
Internal Service Fund	A minimum ending net position shall be no greater than 2 months (16.7%) of total group medical
Group Medical	operating expenses.
Group Dental	A minimum ending net position shall be no greater than 2 months (16.7%) of total group dental operating expenses.
Workmen's Compensation	A minimum ending net position shall be equal to 75% of the "minimum loss fund" for the liability period as shown in the Board's re-insurance policy.

Q. INTERFUND ACTIVITIES: Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

R. SALES TAXES: All of the DeSoto Parish School Board sales taxes have no expiration, which are as follows:

On March 25, 1968, the voters of DeSoto Parish approved a one cent sales and use tax to be used for salaries of teachers and other personnel and for the operation of public elementary and secondary schools.

On May 3, 1986, the voters of DeSoto Parish approved a one-half cent sales and use tax to be used to supplement salaries of School Board employees.

On April 12, 2001, the voters of DeSoto Parish approved a one-half cent sales and use tax to be used for salaries and benefits of teachers and other School Board employees and for the operation of public schools in DeSoto Parish.

On October 4, 2008, the voters of DeSoto Parish approved the continuation and levying of a one-half cent sales and use tax to be rededicated and used for the purpose of supporting, operating and maintaining the public school system and school facilities including but not limited to air conditioning school buildings and making capital improvements.

- S. USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- **T. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES:** In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School Board has three types of items that qualifies for reporting in this category. One item is deferred charges on refunding, which results from the difference in the carrying value of the refunded debt and its requisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. In the Statement of Net Position, the net investment of capital assets of \$83,193,652 includes the effect of deferring the recognition of expense from the deferred charge on refunding. The \$707,821 balance of deferred outflows of resources related to refundings will be recognized as expense and decrease in net investment in capital assets over the remaining 10 years. The School Board's remaining two types of deferred outflows are related to the net pension liability and the net OPEB liability. Refer to Note 7 and Note 8 for additional information.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The School Board does have deferred inflows related to the net pension liability and the net OPEB liability. Refer to Note 7 and Note 8 for additional information.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures Over Appropriations in Individual Funds: The following individual funds had actual expenditures over budgeted expenditures for the year ended June 30, 2024:

Fund Budget		Actual		Variance		
Jobs for America's Graduates	\$	35,503	\$	137,154	\$	(101,651)
School Food Service		5,568,811		5,600,988		(32,177)
Vocational Grants		72,675		79,462		(6,787)
Early childhood Development		1,061,790		1,200,768		(138,978)

The variances noted above are primarily due to unanticipated expenditures after the approved revised budgets.

NOTE 3-LEVIED TAXES: The School Board levies taxes on real and business personal property located within DeSoto Parish's boundaries. Property taxes are levied by the School Board on property values assessed by the DeSoto Parish Tax Assessor and approved by the State Tax Commission. The DeSoto Parish Sheriff's Office bills and collects property taxes for the School Board. Collections are remitted to the School Board monthly.

Property Tax Calendar

Assessment date	October 1, 2023

Tax bills mailed	November 2, 2023
Due date	December 31, 2023
Lien date	January 1, 2024
Tax sale date, 2023 delinquent property	May 8, 2024

Assessed values are established by the DeSoto Parish Tax Assessor each year on a uniform basis at the following ratios of assessed value to fair market value:

10% land 15% machinery

10% residential improvements 15% commercial improvements

15% industrial improvements 25% public service properties, excluding land

A revaluation of all property is required to be completed no less than every four years. The last revaluation was completed for the calendar year 2020. Total assessed value was \$986,406,102, which includes exempt value of \$22,698,169, in calendar year 2023. Louisiana state law exempts the first \$75,000 of assessed value of a taxpayer's primary residence from parish property taxes. This homestead exemption was \$46,816,572 of the assessed value in calendar year 2023.

State law requires the sheriff to collect property taxes in the calendar year in which the assessment is made. Property taxes become delinquent January 1 of the following year. If taxes are not paid by the due date, taxes bear interest at the rate of 1.25% per month until the taxes are paid. After notice is given to the delinquent taxpayers, the sheriff is required by the *Constitution of the State of Louisiana* to sell the least quantity of property necessary to settle the taxes and interest owed.

The tax roll is prepared by the tax assessor and approved by the State Tax Commission in October of each year. The amount of 2023 property taxes to be collected occurs primarily in December 2023, January and February 2024. All property taxes are recorded in the general, special revenue, and debt service funds. The School Board considers the lien date (January 2024) as the date an enforceable legal claim occurs for 2023 property taxes. Property tax revenue is recognized in the period for which the taxes are levied (budgeted). Accordingly, the 2023 property taxes are budgeted in the 2024 fiscal year of the School Board.

Estimated uncollectible taxes are those taxes based on past experience which will not be collected in the subsequent year and are primarily due to subsequent adjustments to the tax roll. Historically, virtually all ad valorem taxes receivable were collected since they are secured by property. Therefore, there is no allowance for uncollectible taxes.

The following is a summary of authorized and levied (tax rate per \$1,000 Assessed Value) ad valorem taxes:

Parish-wide Taxes	Authorized Millage	Levied Millage	Expiration <u>Date</u>

NOTE 4 - DEPOSITS AND INVESTMENTS:

Deposits are stated at cost, which approximates fair value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Governmental and Proprietary Funds

Custodial credit risk-deposits: At year-end, the School Board's carrying amount of deposits was \$176,682,351 (including certificates of deposits of \$34,100,000) and the bank balance was \$176,934,912. These deposits are reported as follows: Statement A-cash and cash equivalents, \$176,493,691, Statement A-investments, \$100,000. Of the bank balance, \$80,637,909 was covered by federal depository insurance or by collateral held by the School Board's agent in the School Board's name. The remaining balance was collateralized with securities held by the pledging financial institution's trust department or agent but not in the School Board's name. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the School Board that the fiscal agent has failed to pay deposited funds upon demand. The School Board's policy regarding custodial credit risk is that funds on deposit shall be collateralized an amount at all times equal to 100% by pledged "approved securities" as specified by La. R.S 39:1225 as amended to adequately protect the funds of the School Board.

<u>Interest rate risk-deposits:</u> The School Board's policy does not address interest rate risk.

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value. Level 1 inputs are quoted prices in the active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments' fair value measurements are as follows at June 30, 2024:

			Fair Market Value		Interest Rate
Description of investment]	Fair Value	Hierarchy	Credit Risk	Risk
U. S. Treasury bonds	\$	1,871,196	Level 1	Aaa (Moody's)	0-3 years

Municipal bonds		99,620	Level 1	Aaa (Moody's)	0-3 years
Total	\$	7,488,154			

<u>Custodial credit risk-investments</u>: The School Board's investments of \$7,488,154 are registered in the School Board's name and held by the trust department of a financial institution. School Board policy requires that the custodian for securities shall be a national bank, state-chartered bank or a national or state trust company. Security broker/dealers must have a minimum capital requirement of \$10,000,000 and have been in business for at least five years. These may include primary dealers or regional dealers that quality under the Securities and Exchange Commission Rule 15C3-1.

<u>Interest rate risk-investments:</u> The School Board's policy does not address interest rate risk.

Credit rate risk-investments: The School Board's policy does not address credit rate risk.

Other Post-Employment Benefits Trust Fund

The School Board follows the state law regarding investments in post-employment benefits funds by political subdivisions, R.S. 33:5161 and R.S. 33:5162. In summary, funds may be invested in direct U.S. Treasury Obligations, debt which is issued or guaranteed by federal agencies and backed by the full faith and credit of the U.S., direct security repurchase agreements of any federal book-entry only securities, debt issued by Corporations of the U.S. which are rated Baa or better by Moody's, Inc. or BBB or better by Fitch or Standard and Poor's Corporation, money market mutual funds, exchange traded funds or Louisiana Asset Management Pool.

Total	\$ 87,681,316			

<u>Custodial Credit Risk</u>: The School Board's policy regarding custodial credit risk is that funds on deposit shall be collateralized at all times at an amount equal to 100% by pledged "approved securities" as specified by La. R.S 39:1225 as amended to adequately protect the funds of the School Board. Cash of \$88,660 is held in a trust account.

Interest Rate Risk: The state law does not address specific policies for managing interest rate risk.

<u>Credit Rate Risk</u>: The credit risk of the other post-employment benefits trust fund is managed by restricting investments to those authorized by R.S. 33:5162.

Concentration of Credit Risk: R.S. 33:5162 provides that all fixed income investments shall be appropriately diversified by maturity, security, sector, and credit quality. At June 30, 2024, no more than 5 percent of the other post-employment benefits trust fund's total investments were investments in any single issuer. R.S. 33:5162 provides that a trust cannot allocate more than fifty-five percent, in value, of the total portfolio in equities which includes underlying assets of mutual funds and exchange traded funds. At June 30, 2024, less than fifty-five percent of the value of the trust was allocated to equities or underlying assets of equities for mutual funds or exchange traded funds.

NOTE 7 - PENSION PLANS:

Central Services

Food Services Operations

The School Board is a participating employer in two statewide, public employee retirement systems, the Louisiana School Employees' Retirement System (LSERS) and the Teacher's Retirement System of Louisiana (TRSL). Both systems have separate boards of trustees and administer cost-sharing, multiple-employer defined benefit pension plans, including classes of employees with different benefits and contribution rates (sub-plans). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all

18,356

386,686 4,565,562

sub-plans administered by these systems to the State Legislature. Each system issues a public report that includes financial statements and required supplementary information. Copies of these reports for LSERS and TRSL may be obtained at www.lsers.net and <a href="https://www.lsers

TRSL also administers an optional retirement plan (ORP), which was created by Louisiana Revised Statute 11:921-931 for academic and administrative employees of public institutions of higher education and is considered a defined contribution plan (see Optional Retirement Plan note below). A portion of the employer contributions for ORP plan members is dedicated to the unfunded accrued liability of the TRSL defined benefit plan.

General Information about the Pension Plans

Plan Descriptions/Benefits Provided:

<u>Louisiana School Employees' Retirement System:</u> LSERS administers a plan to provide retirement, disability, and survivor's benefits to non-teacher school employees excluding those classified as lunch workers and their beneficiaries as defined in R.S. 11:1001. The age and years of creditable service (service) required in order for a member to receive retirement benefits are established by R.S. 11:1141-1153 and vary depending on the member's hire date.

A member who joined the system on or after July 1, 2015 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 62. A member who joined between July 1, 2010 and June 30, 2015 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60. A member who joined the system on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, or 10 years of creditable service and is at least age 60. All members are eligible for retirement with 20 years of creditable service regardless of age with an actuarially reduced benefit.

For members who joined the system prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the 3 highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the system on or after July 1, 2006 through June 30, 2010, 3 1/3% of the average compensation is used to calculate benefits, however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation. For members who joined the system on or after July 1, 2010, 2 ½% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation. The supplemental allowance was eliminated for members entering the plan on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

A member is eligible to retire and receive disability benefits if the member has at least 5 years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service who has withdrawn from active service prior to the age at which that person is eligible for retirement benefits, is eligible for a disability benefit until normal retirement age. A member who joins the system on or after July 1, 2006, must have at least 10 years of service to qualify for disability benefits. Upon the death of a member with five or more years of creditable service, the plan provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, a spouse is entitled to 75% of the member's benefit.

<u>Teachers' Retirement System of Louisiana:</u> TRSL administers a plan to provide retirement, disability, and survivor benefits to employees who meet the legal definition of a "teacher" as provided for in R.S 11:701. Eligibility for

retirement benefits and the calculation of retirement benefits are provided for in R.S. 11:761. Statutory changes closed existing, and created new, sub-plans for members hired on or after January 1, 2011 and July 1, 2015.

Most members are eligible to receive retirement benefits 1) at the age of 60 with 5 years of service, 2) at the age of 55 with at least 25 years of service, or 3) at any age with at least 30 years of service. For members joining on or after July 1, 2015, retirement benefits are paid at age 62 with at least 5 years of service credit. Members may retire with an actuarially reduced benefit with 20 years of service credit. Retirement benefits are calculated by applying a percentage ranging from 2% to 3% of final average salary multiplied by years of service. Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to January 1, 2011, or highest 60 consecutive months of employment for members employed after that date.

Under R.S. 11:778 and 11:779, members who have suffered a qualified disability are eligible for disability benefits if employed prior to January 1, 2011 and attained at least 5 years of service or if employed on or after January 1, 2011 and attained at least 10 years of service. Members employed prior to January 1, 2011 receive disability benefits equal to 2½% of average compensation multiplied by the years of service, but not more than 50% of average compensation subject to statutory minimums. Members employed on or after January 1, 2011 receive disability benefits equivalent to the regular retirement formula without reduction by reason of age.

Survivor benefits are provided for in R.S. 11:762. In order for survivor benefits to be paid, the deceased member must have been an active member at the time of death and must have a minimum of five years of service, at least two of which were earned immediately prior to death, or must have had a minimum of twenty years of service regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Survivor benefits are equal to 50% of the benefit to which the member would have been entitled if retired on the date of death using a factor of $2\frac{1}{2}\%$ regardless of years of service or age, or \$600 per month, whichever is greater. Benefits are payable to an unmarried child until age 21, or age 23 if the child remains a full-time student. The minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or a qualified handicapped child.

Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible LSERS or TRSL member can begin participation in the DROP on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60 day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account. Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Cost of Living Adjustments

As fully described in Title II of the Louisiana Revised Statutes, LSERS and TRSL allow for the payment of permanent benefit increases, also known as cost of living adjustments, or COLAs, that are funded through investment earnings when recommended by the board of trustees and approved by the Legislature. These ad hoc COLAs are not considered to be substantively automatic.

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. For those members participating in the TRSL defined contribution ORP, a portion of the employer contributions are used to fund the TRSL defined benefit plans' unfunded accrual liability.

Employer contributions to LSERS for fiscal year 2024 were \$1,425,282, with active member contributions ranging from 7.5% to 8%, and employer contributions of 27.6%. Employer defined benefit plan contributions to TRSL for fiscal year 2024 were \$9,721,073, with active member contributions ranging from 5% to 8%, and employer contributions of 24.1% for the regular plan and plan B. Non-employer contributing entity contributions to TRSL, which are comprised of ad valorem tax revenue and state revenue sharing totaling \$1,051,496 and \$385 from the State for PIP salaries, and were recognized as revenue and were used as employer contributions by the School Board for fiscal year 2024.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2024, the School Board reported liabilities of \$8,501,061 and \$60,223,109 under LSERS and TRSL, respectively, for its proportionate share of the Net Pension Liability (NPL). The NPL for LSERS and TRSL was measured as of June 30, 2023, and the total pension liabilities used to calculate the NPL were determined by actuarial valuations as of that date. The School Board's proportions of the NPL were based on projections of the School Board's long-term share of contributions to the pension plans relative to the projected contribution of all participating employers, actuarially determined. As of June 30, 2023, the most recent measurement date, the School Board's proportions and the changes in proportion from the prior measurement date were 1.405167%, or a decrease of .001930% for LSERS and .66623 %, or a decrease of .02881% for TRSL.

For the year ended June 30, 2024, the School Board recognized a total pension expense of \$7,129,222 or \$1,003,776 and \$6,125,446 for LSERS and TRSL, respectively. The School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the LSERS and TRSL NPL in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>LSERS</u>	<u>TRSL</u>	<u>Total</u>

For LSERS the long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The remaining service life of employees was changed from 3 years to 2 years in the 2023 actuarial valuation.

For TRSL, the long-term expected rate of return for each plan was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-

term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting long-term geometric nominal expected rates of return are 8.72% for 2023.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plans target asset allocation are summarized for each plan in the following table:

		LT Expected Real Rate of

Discount Rate. The discount rate used to measure the total pension liability was 6.80% for LSERS and 7.25% for TRSL. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of the NPL to changes in the discount rate. The following presents the School Board's proportionate share of the NPL for LSERS and TRSL using the current discount rate as well as what the School Board's proportionate share of the NPL would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	1.0% Decrease		Cui	rrent Discount Rate	1.0% Increase		
LSERS	\$	12,205,106	\$	8,501,061	\$	5,325,684	
TRSL		85,308,236		60,223,109		39,118,516	

Pension plan fiduciary net position. Detailed information about LSERS and TRSL fiduciary net position is available in the separately issued financial reports referenced above.

Payables to the Pension Plan. At June 30, 2024, the School Board had \$337,774 and \$2,634,422 as payables to LSERS and TRSL, respectively, for the June 2024 employee and employer legally required contributions.

Optional Retirement Plan

TRSL administers an optional retirement plan (ORP), which was created by R.S. 11:921-931 for academic and administrative employees of public institutions of higher education. The purpose of the optional retirement plan is to provide retirement and death benefits to the participants while affording the maximum portability of these benefits to the participants. The optional retirement plan is a defined contribution plan that provides for full and immediate vesting of all contributions remitted to the participating companies on behalf of the participants. Eligible employees make an irrevocable election to participate in the optional retirement plan rather than the TRSL and purchase retirement and death benefits through contracts provided by designated companies. Benefits payable to participants are not the obligation of the State of Louisiana or the TRSL. Such benefits and other rights of the ORP are the liability and responsibility solely of the designated company or companies to whom contributions have been made.

R.S. 11:927 sets the contribution requirements of the ORP plan members and the employer equal to the contribution rates established for the regular retirement plan of TRSL. However, effective July 1, 2014, the employer contribution rate for amounts credited to the ORP participants who are not employed in higher education must be the greater of: (1) the employer normal cost contribution for the TRSL Regular Plan; or (2) 6.2%.

Employer ORP contributions to TRSL for fiscal year 2024 totaled \$10,026 which represents pension expense for the School Board. Employee contributions totaled \$3,038. The Active member and employer contribution rates were 8% and 6.2%, respectively, with an additional employer contribution of 20.16% made to the TRSL defined benefit plan described above.

NOTE 8 - POST-EMPLOYMENT HEALTH CARE AND DENTAL INSURANCE BENEFITS

General Information about the OPEB Plan

<u>Plan description</u> — In accordance with state statutes, the School Board provides certain continuing health care and life insurance benefits for its retired employees. The authority to establish and/or amend the obligation of the employer, employees, and retirees rests with the School Board under LRS 42:801-883. These benefits, and similar benefits for active employees, are provided through (a) the self-insured health plans for medical and dental coverage, and (b) the fully insured plans for vision and life insurance. These are single-employer defined benefit "substantive plans" as understood by past practices of the School Board and its employees. Substantially all of the School Board's employees become eligible for these benefits if they reach normal retirement age while working for the School Board.

Monthly premiums are paid jointly by the employee and the School Board and are based on years of service and/or date retired. The post-employment benefit plan does not issue standalone financial reports.

<u>Funding Policy</u> – Employees do not contribute to their post-employment benefits cost until they become retirees and begin receiving those benefits. Post-employment insurance plans and contribution rates are as follows:

<u>Plan administration</u> – The DeSoto Parish School Board administers the DeSoto Parish School Board OPEB Plan- a single-employer defined benefit OPEB plan that provides other post-employment benefits for employees of the School Board.

<u>Plan membership</u> – At June 30, 2024, the OPEB plan membership consisted of the following:

	Health	Dental	Vision	Life Insurance
Inactive employees currently receiving benefits	455	308	309	618
Active plan members	562	578	536	707
Total	1,017	886	845	1,325

Net OPEB Liability

<u>Actuarial Methods and Assumptions</u> – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

The total OPEB liability was measured as of June 30, 2024, using the actuarial data as of July 1, 2022, and was determined using the following actuarial assumptions:

Actuarial cost method	Entry Age
Asset valuation method	Level dollar, closed
Discount rate	5.25%
Inflation	2.40%
Healthcare trend	6.00% initial, decreasing $0.25%$ per year to an ultimate rate of $5.00%$
Salary increases	3.00% average, including inflation
Investment return	5.25% annually, net of OPEB plan investment expense, including inflation
Retirement age	4.5 years after the earliest of: 30 years of service; attainment of age 55 and 25 years of service; or attainment of age 60 and 5 years of service
Mortality	Employee, Healthy Retiree, and Disabled Retiree PubGH-2010 Mortality Tables and PubTH-2010 Mortality Tables, with generational projection using Scale MP-2021
Withdrawal rates	For TRSL: Range from 31.3% at age 18 to 5.4% at age 41 and over For LSERS: Range from 18.8% with less than one year of service to 2.5% to twenty-two years of service and over
Retirement rates	For TRSL: Range from 2.1% at age 38 to 100% at age 75 and over For LSERS: Range from 3.75% at age 46 to 100% to age 76 and over
Disability rates	For TRSL: Range from .01% at age 18 to .2% at age 70 and over For LSERS: Ranges from .083% at age 18 to 2.684% at age 70 and over

No salary experience studies were conducted. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2024 are summarized in the following table:

		Long-Term Expected Real
Asset Class	Target Allocation	Rate of Return
Equity	20.0%	4.85%
Fixed Income	80.0%	2.30%
Real Estate	0.0%	3.70%
Total	100.0%	2.81%

<u>Discount Rate</u> – Since the plan is a defined benefit OPEB plan which meets the requirements of paragraph 4 of GASB Statement No. 75, the investment return assumption is determined in accordance with paragraph 36 of GASB 75. Since the OPEB plans fiduciary net position is projected (in conformity with paragraphs 37-39 of GASB 75) to be sufficient to make projected benefit payments (determined in conformity with paragraphs 30-35), the expected long-term rate of return on plan investments equal to 5.25% annually has been used. The discount rate remained the same from the 2023 fiscal year end rate used.

<u>Contributions</u> – Employer contributions for fiscal year ended June 30, 2024 totaled \$4,225,223. Insurance premium rates for the School Board employees are established and may be amended by the DeSoto Parish School Board. Employees do not contribute to their post-employment benefits cost until they become retirees and begin receiving those benefits. For fiscal year ended June 30, 2024, the health insurance premiums for active employees ranged from \$812 per month to \$2,026 per month based on the plan selected, and the health insurance premiums for retired employees ranged from \$812 per month to \$1,468 per month based on the plan selected. For fiscal year ended June 30, 2024, the dental insurance premiums for active and retired employees ranged from \$40 per month to \$120 per month based on the plan selected. Copies of the current year premiums can be found at http://www.desotopsb.com/documents. See funding policy section for allocation of contribution rates to employees and employers.

Investments

<u>Investment policy</u>: The OPEB plan's policy in regard to allocation of invested assets is established and may be amended by the DeSoto Parish School Board. The DeSoto Parish School Board has retained an investment adviser to supervise and manage the OPEB plan's assets in accordance with Louisiana Revised Statutes, Title 33, Chapter 6, Part IV, Section 2955, as well as the limitations established by the School Board in the investment advisory agreement. The investment adviser has full power and authority to direct the investments of the OPEB plan assets, subject to the limitations referenced established by the School Board in writing.

The School Board has not adopted an asset allocation policy as of June 30, 2024; however, they have established that the overall market-weighted quality rating of the portfolio shall be no lower than A3 as measured by Moody's, Inc., or its equivalent or better rating by Fitch or Standard & Poor's Corporation; any investments in certificates of deposits shall be either FDIC insured or collateralized. The School Board's management meets with the Trust's investment advisor on an annual basis to review the asset allocation and makes any changes deemed necessary.

The following was the asset allocation policy as of June 30, 2024:

Asset Class	Target Allocation
Equity	20.0%
Fixed Income	80.0%

For additional information regarding the other post-employment trust fund investments as of June 30, 2024, see Note 4

<u>Rate of Return</u> – For the year ended June 30, 2024, the annual money-weighted rate of return on investment, net of investment expense, was 8.68%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the School Board recognized OPEB expense of \$4,490,735. For June 30, 2024, the School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of		Defer	red Inflows of

Bonds were issued by the respective school districts to acquire land for building sites, erect and improve school buildings, and acquire the necessary equipment and furnishings. The School Board had \$23,000,000 in unspent bond proceeds.

The School Board's four outstanding bond issues identified above from private placement of \$11,345,000 relate to governmental activities that each contain a provision that the loan obligation is secured by and payable from unlimited ad valorem taxes to be levied and collected annually in excess of all other taxes on all the property subject to taxation within the territorial limits of the issuer and one outstanding bond issue from private placement of \$7,540,000 related to sales taxes collected within the territorial limits of the issuer.

At June 30, 2024, the School Board had accumulated \$2,576,820 in the debt service funds for future debt requirements for general obligation bonds. All principal and interest requirements are funded in accordance with Louisiana law by the annual ad valorem tax levy on taxable property within the parish and by sales tax collections. The bonds are due as follows:

In accordance with Louisiana Revised Statute 39:562, the School Board is legally restricted from incurring long-term bonded debt in excess of 35 percent of the assessed value of taxable property. At June 30, 2024, the statutory limit is \$345,242,136, and outstanding net bonded debt totals \$40,163,180.

Pledged Revenues:

Ad Valorem Tax Pledged Revenues: The District 2 June 16, 2017 and Districts 1 & 3 September 1, 2015 limited tax revenue bonds are secured by and payable from an irrevocable pledge and dedication of the funds to be derived by the School Board from the levy and collection of a parish-wide constitutional ad valorem tax.

The original bond issuance was \$6,065,000 for the June 16, 2017 issue and \$3,500,000 for the September 1, 2015 issue. The 2015 bonds were issued for the purpose of acquiring, constructing, improving, equipping, and furnishing school buildings and other school related facilities and paying the cost of issuing the bonds. The 2017 bonds were issued for the purpose of refunding the 2010 bonds, which were for the same purpose as the 2015 bonds. The 2015 bonds are payable through 2035 and the 2017 bonds are payable through 2030. The School Board has a balance of \$433,692 in debt service funds for the payment of the bonds. Total principal and interest remaining to be paid is \$2,677,458 on the 2015 issue and \$4,083,383 on the 2017 issue. For the year ended June 30, 2024, the School Board received \$4,873,391 from the collection of the constitutional ad valorem tax and paid \$720,000 in bond principal and \$181,060 in debt service interest. The annual required principal and interest payments are estimated to be 12.6% of the tax revenues over the next 11 years.

Sales Tax Pledged Revenues: The May 1, 2012 sales tax bonds for District 2 are payable from and secured by an irrevocable pledge and dedication of the ½ cent sales and use tax authorized at elections held on October 4, 2008. The purpose of the \$15,000,000 bond issuance is for supporting, operating, and maintaining the public school system and school facilities of the parish, including, but not limited to, air conditioning school buildings located within the parish and making capital improvements thereto, including constructing, acquiring, erecting, improving and repairing school buildings and related facilities, with the proceeds of the tax to be subject to being funded into bonds for said purposes. In May 2021, the School Board advanced refunded these bonds in the amount of \$9,280,000.

The bonds are payable through 2032. The School Board has a balance of \$1,091,582 in a debt service fund for payment of the bonds. Total principal and interest remaining to be paid on the bonds is \$7,540,000 and \$661,295, respectively. For the year ended June 30, 2024, the School Board received \$7,158,733 from the collection of the sales tax and paid \$845,000 in bond principal and \$159,315 in debt service interest. The annual required principal and interest payments are estimated to be 14.3% of the tax revenues through 2032 when the bonds will be paid off.

NOTE 12 - INTERFUND ASSETS/ LIABILITIES (FFS LEVEL ONLY): Assets/Liabilities at June 30, 2024 were as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Education Stabilization	\$ 2,905,149
General Fund	Nonmajor Governmental	 3,283,792
Total		\$ 6,188,941

The purpose of the interfund assets/liabilities was primarily to cover current-year expenditures on cost reimbursement programs until the reimbursement transactions are processed.

NOTE 13 - INTERFUND TRANSFERS (FFS LEVEL ONLY): Transfers for the year ended June 30, 2024, were as follows:

<u>Fund</u>	Transfer In	Transfers Out
General Fund	\$ 1,135,093	\$ 10,962,369
Instructional Enhancement	5,000,000	-
Education Stabilization	-	891,589
School District No.1	788,545	-
School District No. 2	2,735,000	-
Nonmajor Governmental	2,612,369	417,049
Totals	\$ 12,271,007	\$ 12,271,007

Transfers are used to move revenues from the fund that statute or budget require to collect them to the fund that statute or budget require to expend them, to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and to record indirect costs related to reimbursement programs.

NOTE 14 - ENCUMBRANCES (FFS LEVEL ONLY): Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances are carried forward to the next year. At June 30, 2024, the School Board had entered into purchase orders and commitments as follows:

	Amount
Education Stabilization	\$ 983,556
Maintenance Tax Fund	1,889,163
Capital Project Funds:	
School District No. 1	1,941,190
School District No. 2	179,927
School District No. 3	982,610
School District No. 4	342,305
Parishwide Capital Project	418,590
Total	\$ 6,737,342

NOTE 15 - RISK MANAGEMENT: The School Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are handled by the School Board through the purchase of various commercial insurance policies with varying coverage limits, deductibles, and premiums based on the type of policy. No significant reductions in insurance coverage from coverage in the prior year occurred, and no claims exceeded the School Board's insurance coverage for each of the past three years.

The School Board is partially self-insured for medical, dental and workers' compensation insurance coverage. Claims are funded through operating funds of the School Board. The School Board maintains stop-loss coverage with an insurance company under its medical plan (a) for individual claims in excess of \$300,000, (b) an aggregating specific claim of \$550,000, and (c) for total medical claims in excess of 90% of the Monthly Aggregate Deductible for the first month of the policy year multiplied by 12. The School Board maintains stop-loss coverage with an insurance company under its workers' compensation plan for individual claims in excess of \$450,000 and for total claims that exceed \$1,000,000 in a two-year period.

All known claims filed and an estimate of incurred but not reported claims based on experience of the School Board are made and accrued as necessary in the internal service fund. This liability is the School Board's best estimate based on available information. Changes in the reported liability for the last three years resulted from the following:

NOTE 16 - LITIGATION AND CLAIMS:

<u>Litigation</u>: The School Board is a defendant in several lawsuits. Management and legal counsel for the School Board believe that the potential claims against the School Board not covered by insurance would not materially affect the School Board's financial position.

<u>Grant Disallowances</u>: The School Board participates in a number of state and federally assisted grant programs. The programs are subject to compliance audits under the single audit approach. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under terms of the grants. School Board management believes that the amount from future audits would not be material.

<u>Construction in Progress</u>: Major ongoing construction projects include playground improvements at various elementary schools, gym floor and bleacher replacement at a high school, turf replacement at a high school, student activity center at a school, and a new central office. See note 14 for additional information on contracts outstanding.

NOTE 17 - ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES: On-behalf payments for fringe benefits and salaries are direct payments made by an entity (the paying agent) to a third-party recipient for the employees of another, legally separate entity (the employer entity). GASB Statement No. 24 requires employer governments to recognize revenue and expenditures or expenses for these on-behalf payments.

The State of Louisiana made pension contributions (regarding Professional Improvement Program) directly to the Teachers' Retirement System of Louisiana on behalf of the School Board in the amount of \$385. This amount was recognized as state revenue and a corresponding expenditure in the applicable fund from which the salary was paid. The Parish Tax Collector makes pension contributions to the Teacher's Retirement System of Louisiana on behalf of the School Board. These remittances are a portion of the property taxes and state revenue sharing collected which are statutorily set aside for teacher's retirement. The basis for recognizing the revenues and expenditures is the actual contributions made by the Tax Collector's office. For the 2023 fiscal year, the Tax Collector paid the Teachers' Retirement System of Louisiana \$1,051,496 on behalf of the School Board. The amount was recognized as ad valorem revenue and a reduction in the School Board's required contributions.

NOTE 18 - JOINTLY GOVERNED ORGANIZATION: The DeSoto Parish Sales and Use Tax Commission serves as the collector of sales and use taxes for the parish. The commission is comprised of five members, two each selected from the DeSoto Parish School Board and the DeSoto Parish Police Jury and one selected from the City of Mansfield, in accordance with the joint agreement of the agencies. Sales taxes of \$35,793,659 were collected by the Commission and distributed to the School Board.

NOTE 19 - FUND BALANCE CLASSIFICATION DETAILS: The following are details of the fund balance for all governmental funds as of June 30, 2024.

School Board policy requires a minimum fund balance in the general fund of 15% of expenditures. The minimum was met for the year. The catastrophic reserve committed fund balance does not meet all of the requirements to be classified as a stabilization arrangement.

NOTE 20 - TAX ABATEMENTS: The School Board is subject to tax abatements granted by the Louisiana Department of Economic Development, Office of Commerce and Industry. Louisiana has a ten-year industrial exemption law that provides any manufacturing establishment entering Louisiana, or any manufacturing establishment expanding its Louisiana facilities is eligible to receive exemption on buildings and equipment from state, parish and local property taxes for a period of ten years. The exemption is for the "contract" value of buildings or equipment used by the business. When the exemption expires, the property is to be placed on the tax roll at 15% of its current market value. The amount of tax abatement under this program during the fiscal year ended June 30, 2024 by authorized millage is as follows:

		Taxpayer	
Tax Code	 Total Value	Exemption	i
Parishwide constitutional and maintenance	\$ 16,486,761	\$ 933,151	
Debt Service - District No. 2 North DeSoto	12,517,842	45,064	ŀ
Debt Service - District No. 4 Mansfield	3,968,919	15,876)
		<u>\$ 994,091</u>	=

NOTE 21 - NEW GASB STANDARDS: In the current fiscal year, the School Board implemented Statement No. 100 – Accounting Changes and Error Corrections – an amendment of GASB statement No. 62. This statement provides guidance to enhance accounting changes and error corrections to provide more understandable, reliable, consistent, and comparable information for making decisions or assessing accountability. The adoption of this standard had no impact on the School Board's financial statements or notes to the financial statements.

NOTE 22 - CHANGE IN PRESENTATION: In the prior fiscal year, Capital Project – School District No. 1 Fund was reported as a Nonmajor capital project fund. For the current fiscal year, Capital Project – School District No. 1 Fund is reported as a Major capital project fund.

DeSoto Parish School Board Notes to the Budgetary Comparison Schedules For the Year Ended June 30, 2024

A. BUDGETS

The School Board utilizes the following procedures in establishing the budgetary data reflected in the financial statements:

Phase I – The Budget Call

The District Leadership Team meets with the Superintendent to discuss and update the District's Mission Plan. Community engagement meetings are scheduled and attended in odd numbered years in each school district to receive input from citizens. Instructions are prepared and distributed to department heads that explains how to go about preparing the budget along with budget forms and a budget calendar. Emphasis is placed on accurate, prompt, and uniform replies.

Phase II – Obtaining Input from Staff

Staff members begin collecting information, completing the budget forms, and returning them to the Business Office. The Business Office makes a complete analysis of the budget requests and assembles the financial information, goals and objectives, and statistical information into one document for the Superintendent to review.

Phase III – Review and Approval of the Budget by the Superintendent

The Business Office meets with the Superintendent on several different occasions as each section of the budget book is completed. Changes are sometimes made to the budget requests recommended and submitted by staff. Once the draft of the proposed budget is approved by the Superintendent, copies of the proposed budget are printed and a staff meeting is called to review the document before it is presented to the Board.

Phase IV – Public Meetings & Board Adoption of the Budget

At the first meeting in May, the proposed budget is presented to the School Board. Board Members are encouraged to review the proposed budget and to attend the Finance Committee, which is approximately two weeks thereafter. This is also the first budget hearing that is held. A brief review of the proposed budget is presented by the staff at this hearing and is followed by questions and answers. The School Board also holds one public hearing at its first meeting in June before a formal vote on the proposed budget is called. Any interested citizen can review the proposed budget at the Central Office and make comments and suggestions at the public hearing in June.

Phase V – Monitoring and Revising the Budget After Award

Once the School Board approves the proposed budget, the Superintendent has the authority to spend taxpayer's money. He does this by placing controls and assigning additional responsibilities to various staff members associated with a specific program or department. Staff members are held responsible for seeing that budget expenditures stay within the budget boundaries; however, overall execution and oversight is assigned to the Business Office. The budget is monitored and reconciled periodically to determine if formal Board action is required to amend the budget.

Budget Basis of Accounting

All governmental funds' budgets are prepared on the modified accrual basis of accounting in accordance with GAAP; however, no budget is adopted for the Student Activity Funds.

EDUCATIONAL CONSOLIDATION & IMPROVEMENT ACT - TITLE I: To improve the educational opportunities of educationally deprived children by helping them succeed in the regular school program, attain grade level proficiency and improve achievement in basic and more advanced skills. This fund is primarily used for provision of compensatory instructional activities to educationally deprived children that reside in low-income areas and have been selected on the basis of a needs assessment. Services supplement, not supplant, those normally provided by state and local educational agencies.

<u>IMPROVING TEACHER QUALITY - TITLE II</u>: This program was designed to improve the skills of teachers and the quality of instruction in mathematics and science, also to increase the accessibility of such instruction to all students.

MAINTENANCE TAX: To assist in paying the general cost of operation and maintenance of public schools in the parish.

SPECIAL EDUCATION: To assist in providing a free, appropriate education to all children with disabilities.

<u>TITLE IV A-SSAE</u>: To provide all students with access to a well-rounded education, improve school conditions for student learning, and improve the use of technology in order to improve the academic achievement and digital literacy of all students.

<u>JOBS FOR AMERICA'S GRADUATES</u>: A school to career program to keep young people in school through graduation and provide work-based learning experiences.

SCHOOL FOOD SERVICE: This program was designed to assist through cash grants and food donations in providing a nutritious breakfast and lunch service for school students and to encourage the domestic consumption of nutritious agricultural commodities.

<u>VOCATIONAL GRANTS</u>: To provide students with the opportunity to develop the knowledge, skills, and attitudes needed for employment in agriculture, home economics, industrial arts, business, etc.

EARLY CHILDHOOD DEVELOPMENT: Is a federally funded program that provides universal prekindergarten classes and before-and-after school childcare to four-year-old children who are eligible to enter public school kindergarten the following year.

<u>HOMELESS ASSISTANCE</u>: A program to ensure that homeless children have access to free, appropriate education.

EDUCATIONAL EXCELLENCE: This program is funded through the disposition of proceeds from the tobacco settlement and is used to support excellence in educational practices.

Notes:

(1) Property in the parish is reassessed every four years. Reassessments were done in the 2012 and 2016 calendar years.

Calendar year 2012 is the June 30, 2013 fiscal year.

Calendar year 2016 is the June 30, 2017 fiscal year

(2) Assessed values are established by the Assessor each year on a uniform basis at the following ratios of assessed value to actual value:

10% land

15% commercial improvements

10% residential improvements

25% public service properties, excluding land

15% industrial improvements

28% agricultural class property

15% machinery

(3) Tax rates are per \$1,000 of assessed value.

DeSoto Parish School Board Direct Debt			57,238,141
Total direct and overlapping debt			\$ 61,619,283

Sources: Debt outstanding data extracted from annual financial report of respective governments.

Notes:

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School Board. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the School Board.
- (2) Various tax districts exist within DeSoto Parish that involve a small percentage of parish taxpayers. These districts' debt is not included as the amounts and impact on this schedule is not significant.
- (3) Debt outstanding includes all general bonded debt, sales tax bonds, and limited tax revenue bonds.
- (4) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining a portion of another governmental unit's taxable assessed value that is within the parish boundaries and dividing it by each unit's total taxable assessed value.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

Board Members DeSoto Parish School Board Mansfield, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of DeSoto Parish School Board as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated March 31, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School Board's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Questioned Costs as item 2024-002.

School Board's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the School Board's response to the finding identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plan for Current Year Findings and Questioned Costs. The School Board's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Independent Auditor's Report

Board Members DeSoto Parish School Board Mansfield, Louisiana

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited DeSoto Parish School Board's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2024. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the School Board complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs for the year ended June 30, 2024.

Basis for opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report. We are required to be independent of Desoto Parish School Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the School Board's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made be a reasonable user of the report on compliance about the School Board's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we

- exercise professional judgement and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the School Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements. We issued our report thereon March 31, 2025, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Office of the Louisiana Legislative Auditor as a public document.

DeSoto Parish School Board Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

NOTE 1 - BASIS OF PRESENTATION The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of DeSoto Parish School Board under programs of the federal government for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The School Board's reporting entity is defined in Note 1 of the Notes to the financial statements of the School Board's Annual Comprehensive Financial Report. Because the Schedule presents only a selected portion of the operations of DeSoto Parish School Board, it is not intended to and does not present the financial position, changes in net position, or cash flows of DeSoto Parish School Board.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 of the Notes to the financial statements of the School Board's Annual Comprehensive Financial Report. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - RELATIONSHIP TO BASIC FINANCIAL STATEMENTS Federal awards revenues are reported in the School Board's financial statements as follows:

\$	79,046
	7,929,244
	1,601,188
	223,957
	1,296,831
	75,066
	137,154
	2,790,100
	79,462
	140,470
	38,180
	119,928
\$	14,510,626
-	\$

NOTE 4 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with accounting principles generally accepted in the United States of America.

DeSoto Parish School Board Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

- **NOTE 5 MATCHING REVENUES** For those funds that have matching revenues and state funding, federal expenditures were determined by deducting matching revenues from total expenditures.
- **NOTE 6 NONCASH PROGRAMS** The commodities received, which are noncash revenues, are valued using prices provided by the United States Department of Agriculture.
- **NOTE 7 INDIRECT COST RATE** DeSoto Parish School Board has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

DeSoto Parish School Board Schedule of Findings and Questioned Costs For the Year Ended June 30, 2024

PART II - Findings related to the financial statements which are required to be reported in accordance with *Government Auditing Standards* generally accepted in the United States of America:

Reference # and title: 2024-001 Internal Controls over Financial Management

Entity-wide or program/department specific: This finding is entity-wide.

<u>Criteria or specific requirement</u>: Sound internal controls over financial management require that bank reconciliations be prepared and reviewed in a timely manner and bond activity be recorded in a timely manner.

<u>Condition found</u>: When testing bank reconciliations, it was noted that the School Board was approximately 6 months behind in reconciling bank accounts. Also, an adjusting entry was provided by the School Board to record the bond issued in the fiscal year for School District No. 1.

Context: The School Board's deployment of a new accounting software and changes in accounting duties.

Possible asserted effect (cause effect):

<u>Cause</u>: The School Board had implemented a new accounting software program along with a change in accounting duties.

Effect: The controls over financial management were weakened.

Recommendations to prevent future occurrences: The School Board should strengthen procedures to ensure bank reconciliations are prepared within 2 months of the related statement closing date and reviewed within 1 month of the reconciliation date. Internal control procedures should be implemented to ensure that proceeds and bond issuance costs are recorded timely.

<u>Origination date and prior year reference (if applicable)</u>: This finding originated fiscal year ended June 30, 2024.

<u>View of responsible official</u>: The School Board converted to Enterprise ERP (formerly Munis) for financial software. The 2023-24 year was the first year to close out the year in the new system after going live on April 1, 2024. The conversion has been extremely challenging and labor intensive. We agree that bank reconciliations and subsequent review need to be completed more timely and we are striving to meet the recommendations. In addition, all bank accounts will be reviewed each month to ensure all activity has been recorded.

Reference # and title: 2024-002 Late Submission of Audit Report to the Legislative Auditor

Entity-Wide or program /department specific: This finding is entity wide.

<u>Criteria or specific requirement</u>: R.S. 24:513 A (5)(a)(i) requires that "...audits shall be completed within six months of the close of the entity's fiscal year." The School Board's audit report should be submitted to the Louisiana Legislative Auditor by December 31st each year.

<u>Condition found</u>: The School Board's audit report for the fiscal year ending June 30, 2024, was not completed within the six-month deadline as required by R.S. 24:513 A (5)(a)(i).

DeSoto Parish School Board Schedule of Findings and Questioned Costs For the Year Ended June 30, 2024

Context: This finding is an isolated incident.

Possible asserted effect (cause and effect):

<u>Cause</u>: The School Board had implemented a new accounting software program along with a change in accounting duties.

Effect: The auditor was unable to submit the School Board's report within the six-month deadline as required by R.S. 24:513 A (5)(a)(i).

Recommendations to prevent future occurrences: The School Board should coordinate a schedule to ensure that the report is filed in a timely manner.

<u>Origination date and prior year reference (if applicable)</u>: This finding originated fiscal year ended June 30, 2024.

<u>View of responsible official</u>: The School Board understands the dates for completion of the audit and is striving to meet the goal for the 2024-25 year. The 2023-24 year was the first year in the new financial software, Enterprise ERP (formerly Munis). The Finance Department is continuing to work to fully utilize the software while also devoting a very large amount of time to converting the Human Resources and Payroll components of the system.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING STATEWIDE AGREED-UPON PROCEDURES

Board Members DeSoto Parish School Board Mansfield, Louisiana

We have performed the procedures enumerated below on the control and compliance (C/C) areas identified in the Louisiana Legislative Auditor's (LLA's) Statewide Agreed-Upon Procedures (SAUPs) for the fiscal year ended June 30, 2024. DeSoto Parish School Board's management is responsible for those C/C areas identified in the SAUPs.

The School Board has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal year ended June 30, 2024. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

1) Written Policies and Procedures

- A. Obtain and inspect the entity's written policies and procedures and observe whether they address each of the following categories and subcategories if applicable to public funds and the entity's operations
 - i. **Budgeting**, including preparing, adopting, monitoring, and amending the budget.
 - ii. **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the Public Bid Law; and (5) documentation required to be maintained for all bids and price quotes.
 - iii. *Disbursements*, including processing, reviewing, and approving.

- iv. *Receipts/Collections*, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g., periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- v. *Payroll/Personnel*, including (1) payroll processing, (2) reviewing and approving time and attendance records, including leave and overtime worked, and (3) approval process for employee(s) rate of pay or approval and maintenance of pay rate schedules.
- vi. *Contracting*, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- vii. *Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)*, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- viii. *Travel and Expense Reimbursement*, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- ix. *Ethics* including (1) the prohibitions as defined in Louisiana Revised Statute (R.S.) 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) a requirement that documentation is maintained to demonstrate that all employees and officials were notified of any changes to the entity's ethics policy.
- x. **Debt Service**, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.
- xi. *Information Technology Disaster Recovery/Business Continuity*, including (1) identification of critical data and frequency of data backups, (2) storage of backups in a separate physical location isolated from the network, (3) periodic testing/verification that backups can be restored, (4) use of antivirus software on all systems, (5) timely application of all available system and software patches/updates, and (6) identification of personnel, processes, and tools needed to recover operations after a critical event.
- xii. *Sexual Harassment*, including R.S. 42:342-344 requirements for (1) agency responsibilities and prohibitions, (2) annual employee training, and (3) annual reporting.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

2) Board or Finance Committee

- A. Obtain and inspect the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
 - i. Observe that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
 - ii. For those entities reporting on the governmental accounting model, observe whether the minutes referenced or included monthly budget-to-actual comparisons on the general fund, quarterly budget-to-actual, at a minimum, on proprietary funds, and semi-annual budget- to-actual, at a minimum, on all special revenue funds. Alternately, for those entities reporting on the nonprofit accounting model, observe that the minutes referenced or included financial activity relating to

public funds if those public funds comprised more than 10% of the entity's collections during the fiscal period.

- iii. For governmental entities, obtain the prior year audit report and observe the unassigned fund balance in the general fund. If the general fund had a negative ending unassigned fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative unassigned fund balance in the general fund.
- iv. Observe whether the board/finance committee received written updates of the progress of resolving audit findings, according to management's corrective action plan at each meeting until the findings are considered fully resolved.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

3) Bank Reconciliations

- A. Obtain a listing of entity bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:
 - i. Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated or electronically logged);
 - ii. Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation within one month of the date the reconciliation was prepared (e.g., initialed and dated, electronically logged); and
 - iii. Management has documentation reflecting it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.

<u>Comment</u>: There was one exception noted where the operating bank account was not prepared within 2 months of the related statement closing day. There was one exception noted where there was no evidence that a member of management had reviewed the payroll bank reconciliation.

<u>Management's Response</u>: The School Board acknowledges the finding related to the delay in reconciling bank accounts and the untimely recording of bond activity. We have already addressed the late bank reconciliations with the implementation of our new financial software system.

4) Collections (excluding electronic funds transfers)

- A. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).
- B. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e., 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their

job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:

- i. Employees responsible for cash collections do not share cash drawers/registers.
- ii. Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g., pre-numbered receipts) to the deposit.
- iii. Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
- iv. The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions, are not responsible for collecting cash, unless another employee/official verifies the reconciliation.
- C. Obtain from management a copy of the bond or insurance policy for theft covering all employees who have access to cash. Observe the bond or insurance policy for theft was enforced during the fiscal period.
- D. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
 - i. Observe that receipts are sequentially pre-numbered.
 - ii. Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
 - iii. Trace the deposit slip total to the actual deposit per the bank statement.
 - iv. Observe the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100 and the cash is stored securely in a locked safe or drawer).
 - v. Trace the actual deposit per the bank statement to the general ledger.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

5) Non-Payroll Disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases)

- A. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).
- B. For each location selected under #5A above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
 - i. At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
 - ii. At least two employees are involved in processing and approving payments to vendors.

- iii. The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
- iv. Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.
- v. Only Employees/officials authorized to sign checks approve the electronic disbursement (release) of funds, whether through automated clearinghouse (ACH), electronic funds transfer (EFT), wire transfer, or some other electronic means.

[Note: Exceptions to controls that constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality) should not be reported.]

- C. For each location selected under #5A above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select 5 disbursements for each location, obtain supporting documentation for each transaction, and:
 - i. Observe whether the disbursement matched the related original itemized invoice and supporting documentation indicates deliverables included on the invoice were received by the entity.
 - ii. Observe whether the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #5B, as applicable.
- D. Using the entity's main operating account and the month selected in Bank Reconciliations procedure #3A, randomly select 5 non-payroll-related electronic disbursements (or all electronic disbursements if less than 5) and observe that e4ah electronic disbursement was (a) approved by only those persons authorized to disburse funds (e.g., sign checks) per the entity's policy, and (b) approved by the required number of authorized signers per the entity's policy. Note: If no electronic payments were made from the main operating account during the month selected the practitioner should select an alternative month and/or account for testing that does include electronic disbursements.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

6) Credit Cards/Debit Cards/Fuel Cards/P-Cards

- A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.
- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:
 - i. Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved), by someone other than the authorized card holder. [Note: Requiring such approval may constrain the legal authority of certain public officials (e.g., mayor of a Lawrason Act municipality); these instances should not be reported.]
 - ii. Observe that finance charges and late fees were not assessed on the selected statements.
 - C. Using the monthly statements or combined statements selected under #7B above, <u>excluding fuel cards</u>, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e., each card should have 10 transactions subject to testing). For each transaction, observe it is supported by (1) an original

itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and note whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

7) Travel and Travel-Related Expense Reimbursements (excluding card transactions)

- A. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
 - i. If reimbursed using a per diem, observe the approved reimbursement rate is no more than those rates established either by the State of Louisiana or the U.S. General Services Administration (www.gsa.gov).
 - ii. If reimbursed using actual costs, observe the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
 - iii. Observe each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1A(vii)).
 - iv. Observe each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

8) Contracts

- A. Obtain from management a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, the practitioner may use an equivalent selection source, such as an active vendor list.* Obtain management's representation that the listing is complete. Randomly select 5 contracts (or all contracts if less than 5) from the listing, excluding the practitioner's contract, and:
 - i. Observe whether the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
 - ii. Observe whether the contract was approved by the governing body/board, if required by policy or law (e.g., Lawrason Act, Home Rule Charter).
 - iii. If the contract was amended (e.g., change order), observe the original contract terms provided for such an amendment and that amendments were made in compliance with the contract terms (e.g., if approval is required for any amendment, was approval documented).
 - iv. Randomly select one payment from the fiscal period for each of the 5 contracts, obtain the supporting invoice, agree the invoice to the contract terms, and observe the invoice and related payment agreed to the terms and conditions of the contract.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

9) Payroll and Personnel

- A. Obtain a listing of employees and officials employed during the fiscal period and management's representation that the listing is complete. Randomly select 5 employees or officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.
- B. Randomly select one pay period during the fiscal period. For the 5 employees or officials selected under #9A above, obtain attendance records and leave documentation for the pay period, and:
 - i. Observe all selected employees or officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, officials are not eligible to earn leave and do not document their attendance and leave. However, if the official is earning leave according to a policy and/or contract, the official should document his/her daily attendance and leave.)
 - ii. Observe whether supervisors approved the attendance and leave of the selected employees or officials.
 - iii. Observe any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.
 - iv. Observe the rate paid to the employees or officials agree to the authorized salary/pay rate found within the personnel file.
 - C. Obtain a listing of those employees or officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees or officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations and the entity's policy on termination payments. Agree the hours to the employee or officials' cumulative leave records, agree the pay rates to the employee or officials' authorized pay rates in the employee or officials' personnel files, and agree the termination payment to entity policy.
 - D. Obtain management's representation that employer and employee portions of third-party payroll related amounts (e.g., payroll taxes, retirement contributions, health insurance premiums, garnishments, workers' compensation premiums, etc.) have been paid, and any associated forms have been filed, by required deadlines.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

10) Ethics

- A. Using the 5 randomly selected employees/officials from procedure #9A under "Payroll and Personnel" above obtain ethics documentation from management, and:
 - i. Observe whether the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.
 - ii. Observe whether the entity maintains documentation which demonstrates each employee and official were notified of any changes to the entity's ethics policy during the fiscal period, as applicable.
- B. Inquire and/or observe whether the agency has appointed an ethics designee as required by R.S. 42:1170.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

11) Debt Service

- A. Obtain a listing of bonds/notes and other debt instruments issued during the fiscal period and management's representation that the listing is complete. Select all debt instruments on the listing, obtain supporting documentation, and observe State Bond Commission approval was obtained for each debt instrument issued.
- B. Obtain a listing of bonds/notes outstanding at the end of the fiscal period and management's representation that the listing is complete. Randomly select one bond/note, inspect debt covenants, obtain supporting documentation for the reserve balance and payments, and agree actual reserve balances and payments to those required by debt covenants (including contingency funds, short-lived asset funds, or other funds required by the debt covenants).

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

12) Fraud Notice

- A. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management's representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled.
- B. Observe the entity has posted, on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

13) Information Technology Disaster Recovery/Business Continuity

- A. Perform the following procedures,
 - i. Obtain and inspect the entity's most recent documentation that it has backed up its critical data (if no written documentation, inquire of personnel responsible for backing up critical data) and observe that such backup occurred within the past week, was not stored on the government's local server or network, and was encrypted.
 - ii. Obtain and inspect the entity's most recent documentation that it has tested/verified that its backups can be restored (if no written documentation, inquire of personnel responsible for testing/verifying backup restoration) and observe evidence that the test/verification was successfully performed within the past 3 months.
 - iii. Obtain a listing of the entity's computers currently in use and their related locations, and management's representation that the listing is complete. Randomly select 5 computers and observe while management demonstrates that the selected computers have current and active antivirus software and that the operating system and accounting system software in use are currently supported by the vendor.
- B. Randomly select 5 terminated employees (or all terminated employees if less than 5) using the list of terminated employees obtained in procedure #9C. Observe evidence that the selected terminated employees have been removed or disabled from the network.

- C. Using the 5 randomly selected employees/officials from Payroll and Personnel procedure #9A, obtain cybersecurity training documentation from management, and observe that the documentation demonstrates that the following employees/officials with access to the agency's information technology assets have completed cybersecurity training as required by R.S. 42:1267. The requirements are as follows:
 - Hired before June 9, 2020 completed the training; and
 - Hired on or after June 9, 2020 completed the training within 30 days of initial service or employment.

Comment: We performed the procedure and discussed the results with management.

14) Sexual Harassment

- A. Using the 5 randomly selected employees/officials from procedure #9A under "Payroll and Personnel" above, obtain sexual harassment training documentation from management, and observe the documentation demonstrates each employee/official completed at least one hour of sexual harassment training during the calendar year.
- B. Observe the entity has posted its sexual harassment policy and complaint procedure on its website (or in a conspicuous location on the entity's premises if the entity does not have a website).
- C. Obtain the entity's annual sexual harassment report for the current fiscal period, observe that the report was dated on or before February 1, and observe it includes the applicable requirements of R.S. 42:344:
 - i. Number and percentage of public servants in the agency who have completed the training requirements;
 - ii. Number of sexual harassment complaints received by the agency;
 - iii. Number of complaints which resulted in a finding that sexual harassment occurred;
 - iv. Number of complaints in which the finding of sexual harassment resulted in discipline or corrective action; and
 - v. Amount of time it took to resolve each complaint.

Comment: We performed the procedure and discussed the results with management.

We were engaged by the DeSoto Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING BESE AGREED-UPON PROCEDURES

Board Members DeSoto Parish School Board Mansfield, Louisiana

We have performed the procedures enumerated below on the performance and statistical data accompanying the annual financial statements of the DeSoto Parish School Board, for the fiscal year ended June 30, 2024. The DeSoto Parish School Board's management is responsible for the performance and statistical data.

Management of the DeSoto Parish School Board, Louisiana Department of Education, and the Louisiana Legislative Auditor (the specified parties), have agreed to and acknowledge that the procedures performed are appropriate to meet the intended purpose of assisting users to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE), in compliance with Louisiana Revised Statute 24:514(I). This report may not be suitable for any other purposes. The procedures performed may not address all items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and findings related to the accompanying schedules of supplemental information are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts among the following amounts reported on the schedule:

Total General Fund Instructional Expenditures,
Total General Fund Equipment Expenditures,
Total Local Taxation Revenue,
Total Local Earnings on Investment in Real Property,
Total State Revenue in Lieu of Taxes,
Nonpublic Textbook Revenue, and
Nonpublic Transportation Revenue.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

Class Size Characteristics (Schedule 2)

Education Levels of Public School Staff

2. We obtained a list of classes by school, school type, and class size as reported on the schedule. We then traced a sample of ten classes to the October 1st roll books for those classes and observed that the class was properly classified on the schedule.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

Education Levels/Experience of Public School Staff (No Schedule)

3. We obtained October 1st PEP data submitted to the Department of Education (or equivalent listing prepared by management), including full-time teachers, principals, and assistant principals by classification, as well as their level of education and experience, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file, and observed that each individual's education level and experience was properly classified on the PEP data or equivalent listing prepared by management.

Comment: There were no exceptions noted as a result of applying agreed upon procedures.

Public School Staff Data: Average Salaries (No Schedule)

4. We obtained June 30th PEP data submitted to the Department of Education (or equivalent listing provided by management) of all classroom teachers, including base salary, extra compensation, and ROTC or rehired retiree status, as well as full-time equivalents, and obtained management's representation that the data/listing was complete. We then selected a sample of 25 individuals, traced to each individual's personnel file and observed that each individual's salary, extra compensation, and full-time equivalents were properly included on the PEP data (or equivalent listing provided by management).

Comment: There was one exception noted where the base salary and extra compensation reported in the PEP data submitted did not agree with the payroll history.

Management's Response: Management acknowledges the exception and will monitor the PEP data for future submissions.

We were engaged by DeSoto Parish School Board to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the performance and statistical data. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of DeSoto Parish School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

The purpose of this report is solely to describe the scope of testing performed on the performance and statistical data accompanying the annual financial statements of the School Board, as required by Louisiana Revised Statue 24:514(I), and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
