Summary of Findings and Management's Corrective Action Plan
Year Ended September 30, 2020

A. Internal Control –

2020-001 – Inadequate Segregation of Accounting Functions

CONDITION – Accounting and financial functions are not adequately segregated.

CRITERIA – Internal control is a process – effected by those charged with governance, management, and other personnel – designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. The department's internal control over financial reporting includes those policies and procedures that pertain to the department's ability to record, process, summarize, and report financial data consistent with the assertions embodied in financial statements.

CAUSE – The cause of the condition is the result of a failure to design and implement policies and procedures necessary to achieve adequate internal control.

EFFECT – Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

RECOMMENDATION – Due to the size of the department's operations and the cost-benefit of additional personnel, it may not be feasible to achieve complete segregation of duties.

MANAGEMENT'S RESPONSE – No response from management is considered necessary.

B. Compliance –

No compliance findings are reported.
